Small deformation theory of thermoplasticity with medium mechanical characteristics dependent on temperature, noting use in nonmechanical structural transformations and radioactive irradiation
12 p1978 A71-27348

Static and dynamic stress analysis and limiting loads of plastic shells and plates with temperature field in structural element, using deformation theory
12 p1979 A71-27350

Nonisothermal plasticity and creep models, stressing real materials deformation micromechanism theories
12 p1979 A71-27354

Inhomogeneous microstructure elastoplastic medium, examining strain and work in plastic deformation
12 p1982 A71-27516

Shells of revolution plastic deformation problem, applying rigid viscoplastic strain hardenable material model
12 p1984 A71-27686

Local plastic deformation analysis of spherical and cylindrical shells subjected to yield point loads through rigid boss, using nonlinear programming
13 p2147 A71-27787

Refractory and structural steels and Al alloys, obtaining low cyclic plastic deformation and breaking stress curves
13 p2148 A71-28116

Refractory steels plastic deformation characteristics under isothermal creep
13 p2084 A71-28125

High strength alloys fatigue in terms of irreversible microplastic deformations accumulations, discussing fatigue crack mechanisms and cyclic straining effects on bulk properties
13 p2152 A71-28219

Plastic deformation and alloying effect of small additions of interstitial elements on decomposition of metastable beta phase
13 p2086 A71-28580

Grain boundary precipitation in austenitic steels during creep deformation and ordinary aging treatment
13 p2086 A71-28623

Strain and strain rate effect on flow stress and microstructure of Al-Cu eutectic alloy during superplastic deformation, deriving stress-strain diagrams
13 p2086 A71-28624

Stress-strain state of annular billet under local plastic bending by forces in cross sectional plane
13 p2154 A71-28646

Integral transformations application to approximate elastic solutions for nonlinear hereditary media, considering elastoplastic deformations under active loads
13 p2154 A71-28649

Nonlinear heredity theory related to Volterra-Frechet heredity theory under uniaxial tension, giving expression for polymers deformation relaxation processes
13 p2092 A71-28650

Complex loading history effect on elastoplastic deformation trajectories delay trail characteristic angles and length variation, determining plastic strain vector components in Euclidean space
13 p2155 A71-28652

Carbon steel fatigue crack tip plastic zone substructure by X ray microbeam technique, determining dislocation density, stress intensity and crack propagation rate interrelationships
13 p2155 A71-28789

Plastic deformation of aluminum oxide by indentation and abrasion at room temperature, using transmission electron microscopy
13 p2093 A71-28989

Circular elastic ideally plastic plate deformation due to circumferentially distributed rectangular pulse loading
13 p2156 A71-29075

Elastic deformation and plastic buckling of rectangular column with initial deflection under axial compression
13 p2157 A71-29287

Be sheet plastic bend ductility and yield strength, considering purity and processing effects
13 p2088 A71-29403

Structural stability in tension and strength tests of thin walled tubes at various stress and strain intensities based on loss of resistance to plastic deformation
14 p2321 A71-29620

Cyclic strain effects on creep for steel at elevated temperatures, discussing overload frequency effects on plastic strain buildup
14 p2256 A71-29626

Plastic strain development at fatigue crack tip in mild carbon and stainless austenitic steels from electron and optical microscopy
14 p2257 A71-29841

Elastic plastic shells of revolution deflection analysis by numerical integration with computer program
14 p2324 A71-29870

Creep-fatigue analysis by strain range partitioning, considering metals inelastic deformation at high temperature due to plastic flow
14 p2325 A71-29923

Discontinuous phase decomposition increase in Co-Ni-Ti alloys by plastic deformation and Al additions, indicating grain boundary diffusion control
14 p2258 A71-30003

Thermally activated plastic deformation of metals at low temperatures, determining stress flow, creep properties and upper yield limit
14 p2258 A71-30007

Work hardening material planar frame inelastic load deformation and buckling, using finite difference method and variational principle
14 p2330 A71-30693

Flexible spherical domes elastic-plastic deformation, using variational equation and iterative algorithm
14 p2331 A71-30840

Plastic deformation work derivation, taking into account deviation from similarity of stress deviators
15 p2501 A71-31150

Boron solubility in molybdenum, showing grain size decrease, plastic deformation change and elongation
15 p2425 A71-31399

Dynamic response and perforation of thin plates subjected to projectile impact, measuring plastic deformation, dynamic strain and displacement with high speed camera
15 p2503 A71-31422

Linear plastic deformation of steel under tension, investigating anisotropy in elastic modulus and strength
15 p2503 A71-31478

Metal specific work breakdown during crack propagation, investigating thermal effect of plastic deformation with thermocouples
15 p2413 A71-31479

Deformation work for strained copper during tensile testing until fracture as function of slenderness in neck
15 p2427 A71-31700

Stress distribution during plastic deformation of steel turbine disk from hardness measurements
15 p2505 A71-31863

Al and Cu dynamic plastic deformation at elevated temperatures, discussing relationship between strain rate sensitivity and activation energy
15 p2428 A71-31972

Elastic-plastic mechanics of steady crack growth under antiplane shear, discussing residual stress effect, plastic zones shape and strain distribution
15 p2428 A71-31974

Flow velocity field in main plastic deformation zone during orthogonal cutting from continuity equation
15 p2415 A71-31986

Recrystallization nuclei linear growth rate activation energy relationship to Ni plastic deformation magnitude, temperature and purity
15 p2429 A71-31995

Plastically deformed Ni powder specimens residual microstresses as function of applied hydrostatic pressure, using X ray diffraction measurements
15 p2429 A71-31996

Arbitrarily shaped thin shell elastic-plastic deformation transient response prediction, using improved finite difference method
15 p2505 A71-32008

Combined mechanical and cyclic thermal stresses effect on plastic deformation buildup in E1435 alloy preceding breakdown
15 p2433 A71-32236

Structural inhomogeneity effect on fatigue strength of Al alloys, considering microstructure qualitative estimation on basis of microplastic deformation
15 p2434 A71-32330

Transition metals classification according to effect on structure and physical properties of deformable Al alloys
15 p2434 A71-32331

Plastic strain range-fatigue life behavior as two slope relationship, considering low cycle fatigue laws in terms of crack propagation mode change
15 p2436 A71-32508

Inductor winding dependent magnetic pulse deformation of cylindrical blanks allowing for mutual electromagnetic and mechanical coupling
15 p2417 A71-32525

Yield condition and stability of elastoplastic bodies with large deformations, using Gibbs method of thermodynamics
16 p2650 A71-33015

Structural instability due to cyclic strain accumulation, using plastic deformation constitutive relation with stress tensor and elastic effects
16 p2650 A71-33016

Iron single crystals plastic deformation under tension, studying ductile/brittle fractures mechanisms and transition temperature
16 p2591 A71-33369

Cracked metals brittle fracture statistical analysis, discussing plastic deformation under loading
16 p2658 A71-33636

Cobalt and lanthanum with face and body centered lattices, studying plastic deformation during allotropic transformations under sliding friction and gripping
16 p2584 A71-33895

Plastic deformation in hot compressed Ti, Zr and Nb carbides during diamond grinding, studying fine structure on diffractometer
16 p2584 A71-33896

Austenitic high nitrogen chromium-nickel steels plastic deformation and heat treatment in plasma arc furnaces
16 p2596 A71-33910

Thermal polymorphous metals and alloys crystal structure, discussing plastic deformation due to formation of cubic lattice and metallic bonds
16 p2597 A71-33915

Plastic deformation, creep rupture strength, endurance limit and service life of prestressed strain hardenable material
16 p2659 A71-33985

Stress-strain dependence on surface deflection and nonlinearity during bending of elliptic flat plate under plastic deformation
16 p2659 A71-33994

Viscoplastic elastic medium behavioral relations, considering instantaneous and nonretarded plastic deformation
16 p2660 A71-34066

Large plastic strains in fiber in sheet bending for wide angle range, using Hill theory
17 p2816 A71-34298

Limit analysis of dissipation power and collapse load of rigid perfectly plastic continua with piecewise linear yield surface, using linear programming
17 p2816 A71-34324

Storing and plastic deformation effects on artificial aging of Al-Zn-Mg alloy, using thin foil electron microscopy and hardness measurements
17 p2755 A71-34417

Deformation temperature effects on microstructure and mechanical properties of low alloy Mo, considering cold brittleness temperature and associated plasticity
17 p2755 A71-34418

Dugdale mathematical model for cylindrical bending of thin plates, finding resulting plastic zone dependence on applied moment and normal coordinate [SESA PAPER 1854A]
17 p2819 A71-34538

Metal strips with holes under tensile loads, determining plastic region boundaries with photostress method
17 p2821 A71-34592

German monograph on plane, arbitrarily curved and bending resistant trusses calculations allowing for elastic and plastic deformation
17 p2823 A71-34800

Thermal and athermal yield stresses of Nb and Nb-Mo single crystals, considering strain rate sensitivity and thermal stress increase with increasing plastic strain
17 p2759 A71-35224

Plastic deformation and embrittlement due to stress raisers in steel cylinders from high speed tensile tests at low temperatures
17 p2832 A71-35462

Stress variation with varying plastic deformation rate and temperature in tantalum carbide between 1200 and 2200 C
17 p2760 A71-35550

Refractory alloys elastoplastic deformation under cyclic loading, deriving thermal fatigue equations
17 p2760 A71-35653

Plastic deformation of circular plates and shells of material with different yield and hardening moduli in

tension and compression from creep theory relationships

17 p2834 A71-35660

Fracture kinetics, emphasizing plastic deformation, dislocation and diffusion micromechanics, point defects effects, microcrack formation and interstitial mechanisms

17 p2834 A71-35667

Niobium dislocation and electronic structure and mechanical properties after plastic deformation and annealing from electron beam studies

17 p2760 A71-35671

Creep rate enhancement by additional microplastic deformation in refractory alloys during thermal cycling

17 p2761 A71-35678

High rate quasi-static dynamic pressure deformation hardening of magnesium single crystals

18 p2934 A71-35990

Plastic deformation resistance of rough metal surfaces under heavy loads, discussing mechanical contact changes due to asperities reactions as coherent block

18 p2926 A71-36186

Viscoplastic elastic medium behavior, breaking down elastoplastic deformation into plastic and elastic deformations

18 p2977 A71-36187

Incompressible fiber reinforced composite materials finite plane deformation continuum theory and stress analysis without restriction concerning elasticity, plasticity or viscoelasticity behavior

18 p2978 A71-36264

Axisymmetric plastic deformation of imperfection sensitive spherical shell after elastic buckling, considering load carrying capacity

18 p2978 A71-36266

Deformation kinetics and failure of high melting Nb and Mo base alloys in plastic state under low cyclic fatigue

18 p2936 A71-36710

High temperature tests of short time strength, hardness, moduli of elasticity of W-Mo alloys subject to plastic deformation and annealing

18 p2936 A71-36712

Strain rate dependence of shear stress, plastic cross-slip and stacking fault energy of Al single crystals at 77 K

18 p2937 A71-36749

Dynamic loading of cantilever beams by magnetomotive and explosive loads and high bullet speed impact, noting elastic and plastic deformation modes

18 p2981 A71-36770

Mathematical model of hemispherical inclusion in elastic half space for estimating plastic deformation

18 p2937 A71-36772

Plastic zones and stable crack growth at notches in thin high strength sheet alloys, using replication technique

18 p2938 A71-36853

High purity metals residual electrical resistivity, observing impurities, vacancies, dislocations, plastic strain and polyisotropy effects

19 p3076 A71-37115

Ni-Co alloy fine structure under plastic deformations, determining stacking fault energy effects with X ray diffraction lines

19 p3076 A71-37119

Plastic deformation and fracture of beta Ti alloy under tensile tests at room and low temperatures

19 p3077 A71-37464

Martensite-type omega phase formation in Ti alloys during grinding by abrasive wheels and tapes, noting dependence on plastic deformation

19 p3078 A71-37474

Static ductile deformation in quartz, olivine, pyroxenes and plagioclase, noting plastic deformation and recovery

19 p3050 A71-37664

Plastic deformation effects on austenite thermal stabilization in Fe-Ni-C alloy, considering temperature dependence

19 p3079 A71-37704

Simple structures large elastic-plastic transient deformations, using finite element method

19 p3157 A71-37874

Pressure pulse shape effect on final plastic deformation of simply supported thin circular plate

19 p3158 A71-38181

Finite strain theory for elastic-plastic deformation, considering isothermal shear of neo-Hookean material before yielding and during elastic unloading

20 p3267 A71-38794

Creep test and long time strength results extrapolation, determining accumulation of plastic deformation and creep fracture effects

20 p3250 A71-39020

Nonlinear behavior of compressed elastic and elastoplastic rods in presence of large deformations, determining bearing capacity by step method

20 p3269 A71-39164

Finite elastoplastic deformation thermodynamic theory based on isotropic work hardening, excluding

Bauschinger effect or localized modification of yield surface due to plastic flow

20 p3308 A71-39486

Superposed plastic deformation and plane wave propagation in elastic-plastic media applied to circular bar twisting

20 p3310 A71-39780

Stress-strain curves of dual slip orientation in Ge single crystals deformed in compression, using interference, optical and electron microscopy

21 p3397 A71-40457

Plastic wave propagation along rods and through slabs, describing finite deformation elastic-plastic theory

21 p3464 A71-40785

Macroscopic residual stress and strain measurement and crack tip substructure, discussing crystal plastic deformation effect on fatigue crack propagation

21 p3466 A71-40831

Nonablating inelastic deformable material surface interaction with external supersonic turbulent boundary layer, observing crosshatch patterns

21 p3323 A71-40941

Semiinfinite rods in maximal plastic deformation, observing impulse and energy constraint distinction

21 p3467 A71-40961

Metal deformation processing in solid mechanics, discussing plastic idealization for viscous behavior theorems, Ekstein paradox, free surface problems and incremental forging

21 p3389 A71-40983

Microstructural characteristics of Fe-Ni alloy plastic deformation at 20-500 C during cold and hot rolling, noting intergranular shear processes

21 p3402 A71-41095

Design and technological calculations in machine building, analyzing flow, creep and elastoplastic deformation theories

21 p3472 A71-41144

Half space with periodic continuous distributed dislocations and plastic distortions, calculating stress fields and free surface orientation with cartesian coordinate system

22 p3613 A71-41432

Lower bound deformation theorem for rigid plastic continua and structures under impulsive loading, using kinematically admissible velocity field

22 p3614 A71-41608

Hold time effects on plastic deformation and fracture in high temperature low cycle metal fatigue

22 p3561 A71-41942

Superplasticity and materials forming methods for metal alloys, considering reformation speed increase by finer grained and stable alloys development

22 p3563 A71-42323

Automatic measurement of materials nonlinear deformation, considering Morrow mechanical strain gage for plastic deformation

23 p3774 A71-42895

Loading cycles dependence of energy dissipation and plastic deformation during fatigue tests, using Fourier series

23 p3774 A71-42897

Increased microplastic deformation resistance, relaxation stability and aging of beryllium by cyclic heat treatment

23 p3690 A71-43281

Plastic shells under finite bending, deriving large deflection theory from nonlinear continuum mechanics by yield criterion Lagrangian formulation

23 p3775 A71-43317

Plastic buckling stability of hinged arches for perfect and imperfect structures with linear work hardening stress-strain behavior

23 p3776 A71-43372

Polycrystalline body macrohomogeneous plastic deformation, deriving basic postulates for slippage and plane relationships to tangential stress and shear strength dependence on elastic deformation

23 p3777 A71-43576

Pyroxenes and olivines in lunar rocks from Ocean of Storms, observing plastic deformational processes since crystallization by optical, X ray and electron microprobes

23 p3744 A71-43657

Load stress pulse shape and frequency effects on macroscopic dislocations during plastic deformation of crystalline materials

23 p3777 A71-43875

Rough spheres, cylinders and annuli in contact, determining surface roughness and waviness effects on surface geometry under elastic and plastic deformations

23 p3682 A71-43928

Fine structure at crack tip expanding in ideally elastoplastic material in plane deformation state and plane stressed state

23 p3778 A71-44061

Soviet book on elastoplastic deformations of plates and cylindrical shells made of low strain hardening materials, covering strength and stability calculations

23 p3779 A71-44186

Ni-Cr single crystals plastic deformation, presenting work hardening characteristics and critical resolved shear stress

23 p3694 A71-44278

Stable austenitic stainless steels and fcc metals plastic deformation flow curve model, presenting stress-strain relation

23 p3695 A71-44284

Swaged high purity fine grained Ti stress-strain behavior below 424 K, emphasizing mechanical twinning in plastic deformation

23 p3695 A71-44289

LiF and MgO high purity single crystals plastic deformation geometric characteristics, discussing nucleation probability on different slip planes

24 p3859 A71-44450

Deformations and stresses in elastoplastic half space indented by rigid sphere, using finite element method

24 p3879 A71-44631

Recrystallized metalceramic W plastic deformation effects on brittleness temperature threshold, revealing relationship to impurity segregations at grain boundaries

24 p3837 A71-44674

Three dimensional incompressible anisotropic body with small deformations, calculating elastic stability theory with variational principle

24 p3880 A71-44708

Cross section behavior of tube under plastic bending based on hollow rod treatment

24 p3883 A71-44848

Metal cylindrical shells plastic collapse under axial compression, deriving theoretical load/deflection relationship

24 p3883 A71-44875

Previous plastic loading deformation effect on contact area, print number, size distribution and thermal conductivity for flat surfaces

24 p3830 A71-44943

Plastic deformation of solid body in terms of slip dislocations displacement rate

24 p3885 A71-45052

Elastoplastic deformation of Zn single crystals under uniaxial tensile loads, noting critical stresses relationship to current pulses

24 p3838 A71-45100

Surface oxide, organic and lead film effects on friction and plastic deformation of Zn single crystal during sliding

24 p3839 A71-45288

Shear modulus and stress-strain relations for different plastic strain rates

24 p3886 A71-45362

Mo sheet anisotropic dynamic strain aging at high temperatures, noting plastic strain contribution to texture formation and dislocation consolidation

24 p3840 A71-45378

PLASTIC FILMS

U POLYMERIC FILMS

PLASTIC FLOW

NT TRESCA FLOW

Elastoplastic constitutive laws with nonassociated flow laws and work hardening, nonhardening and softening behavior

01 p0174 A71-10999

Quenched Al-Mg alloys, investigating dislocation mechanisms for plastic flow by creep tests at various temperatures

01 p0105 A71-11605

Plastic flow of metal during rolling in T groove, determining particle velocity and strain energy distributions

02 p0257 A71-12565

Plastic flow rates in materials under complex loads producing constant stress intensity, considering plastic deformation

03 p0515 A71-14364

Anomalous dynamic strain aging in supersaturated Al-Cu, Al-Mg and Al-Zn alloy sheet and wire, discussing activation energies and volumes for plastic flow

08 p1310 A71-21534

Creep-fatigue analysis by strain range partitioning, considering metals inelastic deformation at high temperature due to plastic flow

14 p2325 A71-29923

Guinier-Preston zone size and volume fraction effects on polycrystalline Al-Zn alloys yield strength, discussing precipitation strengthening and thermally activated plastic flow

15 p2433 A71-32182

Impulsively loaded expanding cylindrical shell transient elastic-plastic response, using linearized assumption on plastic flow behavior

17 p2821 A71-34577

Orthotropic annular plate plastic flow law, establishing yield conditions with plane stress-strain state equations

19 p3155 A71-37527

Displacement fields for two dimensional minimum weight frames for load dispositions analogous to perfectly plastic plane flow in metal working

21 p3391 A71-41428

Second order theory of plane plastic flow, investigating characteristic slip lines of perturbed velocity field and stress equations 23 p3774 A71-43144

Stable austenitic stainless steels and fcc metals plastic deformation flow curve model, presenting stress-strain relation 23 p3695 A71-44284

PLASTIC MATERIALS

U PLASTICS

PLASTIC MEMORY

Variable elasticity algorithm for axial flow turbine disks with allowance for plasticity, creep and loading history 12 p1979 A71-27351

Shape-memory effect in equiatomic Ti-Nb alloys with reversible martensitic transformation 14 p2259 A71-30392

Isotropic materials with memory, discussing induced birefringence theory to account for memory and nonlinearity effects in dielectric properties dependence on deformation history 19 p3118 A71-37525

Ti-Ni alloy martensitic thermoelastic transformation and memory effect, using optical microscopy to examine change in lattice discontinuity 21 p3398 A71-40459

Plastic stress-strain history at notch roots tested in tensile steel strips under monotonic loads, verifying Hardrath-Ohman theories 22 p3615 A71-42071

PLASTIC PROPELLANTS

Flame propagation along interface between fuel slab /polymers, aluminum and tungsten powders/ and oxidizer slab /inorganic salts and oxides/ 03 p0521 A71-14278

Compositional and oxidizer particle size effects on combustion instability of plastic propellant based on ammonium perchlorate and polyisobutene [AIAA PAPER 69-478] 11 p1809 A71-25454

Burning rate of Al particles suspended in polymer propellant gas flow with inorganic oxidizers 14 p2285 A71-30620

Shock tube investigation of solid polymeric hydrocarbon fuel ignition in hot oxidizing gas stream 19 p3121 A71-38124

Radiative ignition of polymeric fuels /polystyrene and epoxy/ in oxygen/nitrogen mixtures 19 p3121 A71-38125

PLASTIC PROPERTIES

NT ELASTOPLASTICITY

NT THERMOPLASTICITY

NT VISCOPLASTICITY

NT YIELD POINT

Notched metal crack initiation, determining high cyclic loads effects by prior local plastic behavior at stress concentration 01 p0166 A71-10163

Splat cooled hypoeutectic Al-Cu alloy superplasticity, using tensile tests and electron microscopy 01 p0100 A71-10280

Weight allowance in optimal design of plastic structures under creep 01 p0170 A71-10641

Successive approximations method for boundary value problems in plasticity theory of continuous media under complex loading 01 p0171 A71-10652

I-beam plastic moment under shear force, using empirical curve for interaction between bending moment and shear force 01 p0174 A71-11000

Fatigue effects on metallic materials elastoviscoplasticity properties 01 p0175 A71-11025

High strength and plasticity maraging steels of Fe-Ni-Co-Mo system, noting surface crack sensitivity in tension 01 p0103 A71-11071

Lower bound load carrying capacity of thin walled structures of rods, plates and shells with statistical stable stress field, using plasticity theory 02 p0326 A71-12296

Strain rate effects on plastic properties of various metals and alloys 02 p0265 A71-12568

Plasticity theory simplified via revision based on thermodynamics 03 p0501 A71-13109

Elastic and perfectly plastic plane stress problems yield point load lower bounds by finite element method, considering weakened slabs 03 p0505 A71-13541

Rigid-perfectly plastic model for real materials behavior, considering modification for strain hardening and elastic effects under various load conditions 03 p0509 A71-13780

Finite element program for structural design and stress analysis, introducing creep and plasticity into strain equations [ASME PAPER 70-WA/DE-4] 03 p0511 A71-14140

Superplastic alloys fabrication and applications, discussing grain size and surface area roles 03 p0516 A71-14498

Plastic zone effects on notch effect on crack initiation, analyzing ductile-brittle transition temperature relation to sample size 04 p0666 A71-14883

Rigid cellular plastics mechanical properties based on model assuming pentagonal dodecahedron cell form 04 p0667 A71-14894

Nitriding effects on short time tensile strength, plastic properties and hardness of niobium 04 p0612 A71-15549

Plasticity theory isotropic and anisotropic yield conditions for various stresses 04 p0672 A71-15774

Heat, solution and cooling treatment of Ti-Al-V-Sn alloy for high strength and plastic properties 05 p0765 A71-16199

Solid deformable body combined brittle and plastic elements model for strain analysis 05 p0827 A71-16758

Machine components resistance to low temperature failure, considering threaded joints, gears and shafts for strength and plasticity characteristics 05 p0827 A71-16764

Beta stabilizers effects on Ti strength, plasticity and stress concentration sensitivity at low temperatures 05 p0767 A71-16766

Composite materials plasticity limit calculation using variational principles 05 p0773 A71-16992

Optimal design with geometric constraints for simply supported Tresca plastic disk and cantilever plate under concentrated force 05 p0830 A71-17223

Strain hardened plastic cylindrical shells, investigating load bearing capacity 06 p0994 A71-17822

Physical analogy treating low cycle metal fatigue relation to stress growth in plastic region, discussing cracking mechanisms 07 p1211 A71-19166

Mechanical and plastic properties of Ni-Mo alloys subjected to hot working, determining tensile strength as function of test temperature 07 p1136 A71-19635

W-Re alloy microstructure creep, long term strength and plastic properties as function of temperature, using electron microscopy 07 p1141 A71-20241

Hardened plasticity zone around circular hole in creep deformed plane under normal forces, determining stress-strain relation and time dependent variations 07 p1219 A71-20647

Tall thin strip rolling in ribbed grooves, determining critical area reductions causing plastic stability loss 08 p1295 A71-20841

High strength and plasticity maraging steels of Fe-Ni-Co-Mo system, noting surface crack sensitivity in tension 08 p1305 A71-21036

Superconducting transition effects on metal and alloy single and polycrystals plasticity 08 p1344 A71-21520

Martensitic transformation-induced plasticity in austenitic Fe alloys, examining strain rate and chemical composition effects 08 p1312 A71-21554

Deformation-induced martensitic transformation effects on Fe-Ni-Cr-C alloy plastic behavior 08 p1313 A71-21555

Hot extruded W-Cu pseudoalloys under tension and compression, determining impact strength and plasticity 08 p1316 A71-21614

Cast Mo alloy at low temperatures, investigating elasticity, plasticity and tensile strength characteristics 08 p1316 A71-21615

Nonlinear elastoplastic ring buckling under compression 09 p1534 A71-22145

Plasticity zone changes near circular hole, examining material structure inhomogeneity effects in presence of creep 09 p1535 A71-22183

Soviet book on metal alloys plasticity gaps covering crystallization, thermomechanical treatment, heat induced brittleness zones formation, etc 09 p1472 A71-23161

Ni plastic properties and creep measurement under deformation by tension at room temperature, noting effect of impurities content 09 p1473 A71-23231

Cr plastic properties, investigating recovery and recrystallization effects from La and Y additions 09 p1476 A71-23316

Variational formulation for minimum weight of structures with given yield stress, considering homogeneous isotropic material, plasticity condition and collapse mechanism 10 p1685 A71-23977

Low temperature plasticity of Al alloy thin walled tubular specimens under axial tension and internal pressure 10 p1626 A71-24193

Metal strip with circular hole under tension, calculating plastic strain and stress concentration coefficients 10 p1687 A71-24199

Macroscopic and microscopic plastic zones ahead of propagating fatigue crack on surface and inside of specimen as function of load cycles 10 p1626 A71-24306

Monograph on plastic behavior of iron and nickel at high strain rates and at elevated temperatures, discussing thermal effect on deformation characteristics 11 p1783 A71-26489

Physically nonlinear bent rod, deriving strain method equations for plasticity with hardening according to broken line law 12 p1978 A71-27336

Fiber reinforced composite materials plastic behavior shear stress theory, determining yield criteria and plastic strain rates associated with various failure modes 12 p1984 A71-27773

Tensile strength and plasticity of hot rolled maraging steel at low temperatures 13 p2082 A71-27869

Approximate limiting loads with minimum yield stress for axisymmetric rigid-plastic body of arbitrary shape, using computerized static equilibrium method 13 p2150 A71-28137

Crack growth and fracture mechanics, discussing linear stress field and plasticity analyses for three dimensional and dynamic problems 13 p2151 A71-28213

Solids continuum mechanics and fracture criteria, emphasizing intermixed elastic, plastic or viscoelastic types materials behavior idealization 13 p2151 A71-28214

Cylindrical shell laminar plastic structure effect on stability under hydrostatic pressure, applying Kirchhoff-Love hypothesis 13 p2155 A71-28654

Dynamically loaded rigid plastic bodies, solving limiting equilibrium problems by extremal principles 13 p2156 A71-29065

Biaxial plastic extension stability of anisotropic sheets and cylindrical shells, using Hill plasticity theory of orthotropic materials 13 p2156 A71-29074

Tungsten carbide advantages in hard metals structure, including high pressure strength, high elasticity modulus and plastic properties 14 p2255 A71-29517

German monograph on Mo sheets textures and plastic anisotropy covering recrystallization processes, crystallography, etc 14 p2256 A71-29580

Composite materials elastic-plastic behavior under uniaxial loading, determining stress-strain relationships by dislocation theory 14 p2321 A71-29688

Plasticity theory for materials with different mechanical properties in tension and compression, deriving yield criteria and flow rules by tensorial expansions 14 p2322 A71-29736

Three dimensional elastic plastic solid, calculating stress and deformation with finite difference procedure 14 p2322 A71-29737

Statically determinate plane strains in plastic solids, establishing geometrical relations between constant normal-shear stresses and principal directions curves 14 p2323 A71-29816

Incompressible plastic shells behavior, discussing deformation, energy dissipation rate, equilibrium equations and boundary conditions 14 p2328 A71-30380

Complex media and plasticity theory deformation models based on central friction mechanism, discussing elastic spring analog 14 p2332 A71-30879

Superplastic metal alloys microstructure, development history and shaping technology, noting Zn-Al alloy for auto bodies fabrication 15 p2429 A71-32004

Strength, plastic properties, electrical conductivity and fine structure associated with decomposition kinetics of Al alloy supersaturated solid solution 15 p2435 A71-32333

Ultrahigh magnesium based alloys classification by Li content, noting lattices, structural composition, specific weight, plastic properties and impact strength 15 p2435 A71-32336

Plastic structures buckling and instability phenomena, using elementary models with limited number of degrees of freedom and associated yield profiles 16 p2649 A71-32999

Mechanical and plastic properties of Ni-Mo alloys subjected to hot working, determining tensile strength as function of test temperature 16 p2593 A71-33631

Cold hardened Cr-Si steels strength/plasticity thermal dependence and brittleness from short torsion and 16 p2593 A71-33631

compression tests, identifying low temperature failure mechanisms

16 p2593 A71-33638

Idealized model for anisotropy of metals inelastic characteristics due to plastic prestraining, demonstrating applicability to polycrystalline materials

16 p2659 A71-33989

German monograph on characteristics and upper and lower bound methods in plastic layer theory, deriving static and kinematic equations

17 p2748 A71-34798

Two phase fiber reinforced composites under poliaxial stresses, predicting plastic behavior by deformation theory

17 p2823 A71-34810

Soviet monograph on plasticity and strength of solid bodies at low temperatures covering solidifying gases, static tests, dynamic properties and creep

17 p2724 A71-35186

Rigid plastic framed structures minimum weight design and analysis formulation by network-topological approach based on yielding concept

17 p2831 A71-35356

Combined brittle and plastic elements model for strain analysis of nonelastic deformed solid

17 p2832 A71-35457

Beta stabilizers effects on Ti base binary alloys strength, plasticity and stress concentration sensitivity at low temperatures

17 p2760 A71-35465

Physical analysis treating low cycle metal fatigue relation to stress growth in plastic region, discussing cracking mechanisms

17 p2834 A71-35662

Vacuum melted Mo alloy low temperatures elasticity, plasticity and tensile strength characteristics

17 p2760 A71-35675

Carbon effects on strength, ductility, brittle transition and plastic strains of tungsten at high temperatures

18 p2936 A71-36713

Cast electron-beam remelted Mo, investigating carbon and zirconium carbide additions effects on structure and low-temperature plasticity

18 p2937 A71-36723

Composite materials plasticity limit calculation using variational principles

18 p2940 A71-36792

Isothermal phase diagrams and composition effects on plasticity in Mo-Ti-Zr-C system in Al-rich region

19 p3078 A71-37472

Plastic nonlinear creep behavior theory reformulation, obtaining constitutive relations based on experimental data

19 p3084 A71-37524

Plasticity with noncoincident yield and loading surfaces, noting isothermal isotropic hardening

20 p3309 A71-39565

Pure Fe phase transformation plasticity as function of material, stress, temperature interval and change rate, cycle number and experiment duration

21 p3396 A71-40028

Metal deformation processing in solid mechanics, discussing plastic idealization for viscous behavior theorems, Ekstein paradox, free surface problems and incremental forging

21 p3389 A71-40983

Nominal stress prediction for plastic tensile instability occurrence in flat orthotropic sheet loaded by biaxial stress system, considering localized and diffuse necking

21 p3469 A71-41005

Soviet book on mathematical plasticity theory covering stress/strain flow and deformation, stress/strain tensors statistical averaging methods and hardening conditions

21 p3473 A71-41370

Testing machine stiffness determination during strain rate variation and stress relaxation tests for metallic and nonmetallic engineering materials plastic properties assessment

22 p3559 A71-41589

Superplasticity and materials forming methods for metal alloys, considering reformation speed increase by finer grained and stable alloys development

22 p3563 A71-42323

Cast tetraphase Mo and alloys fracture strength and plastic characteristics, investigating crystal growth texture, orientation and substructure

23 p3693 A71-44215

Inelastic transverse strain coefficient and Poisson ratio dependences on plastic and brittle properties

23 p3780 A71-44227

Width/thickness ratio effect on steel, brass and molybdenum sheet specimens plasticity and deformation under tension at room temperature

23 p3694 A71-44233

Metal cored cylindrical plastic shells response to transient external pressures, considering failure modes

24 p3878 A71-44610

Strength and plasticity characteristics of hardened multilayer structural steels, investigating layer thickness effect

24 p3837 A71-44729

Synthetic plastic materials mechanical and electrical properties for electronics industry use, emphasizing injection molded polymers, pressed molding compounds and casting resins

01 p0051 A71-10285

Plastic low emittance Au coating for spacecraft, controlling thickness via electron bombardment method

01 p0109 A71-11271

Soviet book on engineering theory of ideally plastic thin shells covering elastoplastic equilibrium, bearing capacity, material anisotropy, etc

02 p0324 A71-11850

Crack initiation and propagation in fracture of plastic materials

03 p0516 A71-14580

Rigid cellular plastics mechanical properties based on model assuming pentagonal dodecahedron cell form

04 p0667 A71-14894

Test stand for endurance and creep testing of plastics, glazed ceramics and other brittle materials

04 p0567 A71-15645

Shearing strength of and lubrication effect on metal-plastic adhesion bond, using solid rotating indenter technique

05 p0759 A71-16363

Creep testing machine for plastics and composites

05 p0772 A71-16929

Plastics thermal decomposition, investigating combustion products and toxicity

06 p0916 A71-18089

Plastics for long life microcircuit encapsulation, investigating materials properties and failure mechanisms for device reliability assessment

07 p1077 A71-19561

Plastics for long life microcircuit encapsulation, investigating water absorption and resin-to-lead adhesion effects on reliability

07 p1077 A71-19562

Flame retardant effects on smoke density and oxygen index of polystyrene, acrylonitrile-butadiene-styrene (ABS) and polyester systems

07 p1144 A71-19572

Plastic track detectors calibration for heavy charged particles in cosmic ray experiments, considering track etching rates as function of particle charge and velocity

07 p1113 A71-20042

Plastics and metals as construction materials in aircraft, missile and rocket design

07 p1215 A71-20044

Etchant type, concentration and temperature effect on various plastics track etching ratio and sensitivity

07 p1145 A71-20272

Elastic characteristics of graphite plastics and graphite materials impregnated with synthetic resins, considering aging effect on elastic modulus

09 p1483 A71-22824

Dielectric constant and loss tangent measurements at 60 and 90 GHz for Teflon, polystyrene and Lucite sheets, using Fabry-Perot interferometer

09 p1418 A71-23415

Plastics as potting compounds in military aircraft electrical systems, investigating resistance to reversion and hydrolytic stability

10 p1633 A71-24115

Heat resistant plastics, considering thermal endurance characteristics and use of high strength fillers in aerospace industry

10 p1634 A71-24580

Heavy cosmic ray nuclei track counts in plastics, examining Apollo mission 8 and 12 helmets

10 p1665 A71-25121

Ablative plastics - ACS Conference, San Francisco, March-April 1968

11 p1789 A71-26029

High heating rate thermogravimetric analyzer for ablative plastics, predicting response with semiempirical analytical model

11 p1744 A71-26042

Rigid plastic media dynamic model, showing yielding time delay effect on residual deflection as function of load duration

12 p1982 A71-27515

High temperature plastic lubricants thermal stability, discussing thickening agent-dispersed medium interaction effects

12 p1922 A71-27663

Failure analysis of plastic materials susceptible to cyclic strain hardening under thermal load

13 p2148 A71-28114

Plastics contact strength test apparatus, describing wear test machine for contact load resistance of epoxides used in automobile engine bearings

15 p2383 A71-31656

Total inelastic energy dissipation in structure of creeping plastic material under variable repeated loading and shakedown

[ASME PAPER 71-APM-C] 18 p2977 A71-36252

Synthetic materials technology development, discussing macromolecular materials synthesizing methods and properties

19 p3085 A71-38144

Aerothermodynamics and scale modeling techniques for prediction of plastic burning rates, using Spalding mass transfer theory and dimensional analysis

19 p3171 A71-38250

Reliable plastic encapsulated semiconductor devices design, production and evaluation, noting application to IC

19 p3033 A71-38509

Surface cover materials thermal radiation characteristics and radiation resistance of plastics and solar cells, discussing friction in vacuum and spacecraft surface contamination by outgassing

20 p3210 A71-39453

Dual variational formulation for rigid plastic structure minimum cost design, applying to sandwich and fiber-reinforced plates

[ASME PAPER 71-VIBR-110] 21 p3462 A71-40333

Plastic encapsulated IC reliability tests, relating results to failure mechanism

21 p3356 A71-40747

Flexible polyurethane foam plastics under high rate loading, investigating strain rate and structural parameters effects on mechanical properties

22 p3565 A71-41592

Synthetic fibers and plastics development, chemical composition, physical and mechanical properties, production growth rates and applications

23 p3696 A71-43107

Strength and deformation characteristics of glass plastic under torsional and compressive shear loads, investigating temperature effects on elastic modulus

23 p3697 A71-44204

Plastic strain hardening media stress-strain relations, discussing rheology, temperature effects, isotropy postulate and deformation processes

24 p3876 A71-44401

Rigidly plastic shell theory Lagrangian formulation for moderately large deflections, defining kinematic and dynamic tensors for field equations

24 p3880 A71-44640

PLASTISOLS

NT SMOKE

PLATE [METAL]

U METAL PLATES

PLATE THEORY

Shell theory of anisotropic shells and plates with low shear rigidity, using Timoshenko-type model

01 p0169 A71-10497

Contact problems of orthotropic fiberglass-reinforced plastic plate with low shear rigidity

01 p0169 A71-10498

Stability theory of plates beyond elastic limit, discussing elimination of stress variations discontinuity at interface between plastic loading and unloading zones

01 p0170 A71-10648

Variable thickness circular plate uniformly clamped along edge, calculating critical force from eigenfunctions and eigenvalues of equation with one independent variable

01 p0171 A71-10650

Buckling under compressive loads of incompressible neo-Hookean plates

01 p0171 A71-10659

Flutter analysis of plates with inplane boundary support flexibility exposed to transverse pressure loading or buckled by uniform thermal expansion

01 p0173 A71-10940

Stress-strain state of thin circular plate with variable thickness along circumference under bending due to uniformly distributed load, using small p

02 p0326 A71-12289

Two dimensional stressed state of isotropic plate with elastically reinforced elliptical hole under biaxial tension

02 p0326 A71-12290

Biorthogonal relation for bending of uniformly loaded clamped sector plates with boundary functions along curved edge

02 p0327 A71-12397

German monograph on polygonal thin plates calculation by differential equations method for two dimensional boundary value problems solution

02 p0327 A71-12399

Corrugated membrane of nonuniform profile calculated as variable thickness orthotropic plate, considering corrugations deformation due to bending

02 p0329 A71-12640

Modal coupling in thermally stressed plates, obtaining solution for frequencies and stiffness

02 p0329 A71-12685

Starting functions solutions for axially symmetric orthotropic annular plates

02 p0329 A71-12689

Book on laminated plate theory covering anisotropic continua, bending, orthotropic plates, energy equations, etc

02 p0330 A71-12844

Load limit surfaces for composite plates with long elastic plastic fibers site bonded or imbedded in low strength matrix

03 p0504 A71-13429

Distance dependent stress concentration of isotropic plate with two elliptical holes under tension of opposed point forces

03 p0506 A71-13603

Laminated plates two dimensional theory, discussing equations of motion, stress-strain relations, harmonic wave propagation, etc [ASME PAPER 70-WA/APM-25]

03 p0512 A71-14157

Book on flat plate stability covering initial buckling stresses, compressive and shear loads, holes, various reinforcements and shapes, sandwiching, etc

04 p0667 A71-15074

Stress intensity factor of symmetrical notch in apex of triangular plate under concentrated loads

04 p0670 A71-15391

Uniform thin orthotropic skew flat plates free undamped vibration based on classical plate theory, using Rayleigh-Ritz method

05 p0820 A71-15987

Dynamic thermoelastic response of rapidly heated plate elements, developing variational principle

05 p0824 A71-16560

Stress-strain state in elasticity theory of three layer symmetrical plate

05 p0828 A71-16986

Cosserat surfaces and variable thickness elastic plates linear isothermal theory, deriving constitutive equations corresponding to isotropic three dimensional plate bending and stretching

05 p0831 A71-17250

Thickness variation law for plates and shells with minimal elastic strain energy

06 p0982 A71-17358

Shell and plate theory - Conference, Dnepropetrovsk, U.S.S.R., September 1969

06 p0985 A71-17751

Reinforced plate and shell theory, taking into account ribs arbitrary direction and contour profile

06 p0985 A71-17753

Supercritical behavior of metallic plates, using nonlinear equilibrium and strain compatibility equations

06 p0987 A71-17765

Applicability limits of equations of theory of three-layer plates and shells of asymmetric structure

06 p0987 A71-17766

Stress-strain state of isotropic three-layer plates and shells with rigid and light weight fillers, noting weakening by curvilinear holes

06 p0987 A71-17769

Plates and shells under concentrated loads, determining stress-strain state

06 p0988 A71-17773

Equilibrium equations for flexible plates and shells with nonlinear terms in one dimensional case

06 p0989 A71-17782

Static and kinematic adaptability of plates and shells under progressive structural failure

06 p0989 A71-17784

Plates and shells stability under plastic deformations at subcritical strains, using three dimensional linearized equations

06 p0989 A71-17787

Thermoelastic equilibrium of multiply connected plate during convective heat exchange

06 p0989 A71-17788

Orthotropic plate dynamics, examining plane vibrations with group theory approximate equations

06 p0993 A71-17818

Multilayer asymmetric plates deflection, stability and vibrations, deriving nonlinear bending equations with allowance for transverse shear strains

06 p0995 A71-17833

Multilayer plates and shells, considering bending, stability, boundary layer stress state, rigid filters theory and local strength

06 p0998 A71-17857

Stress concentration at holes in plates and shells with multiply connected regions

06 p0999 A71-17863

Deformation theory of dynamic bending, buckling and stability of plates and shells beyond elastic limit

06 p0999 A71-17865

Thermoelasticity, mechanical and thermal processes in deformation of elastic plates and shells

06 p0999 A71-17866

Triple integral equations solution based on analytic functions theory, applying to stress-strain state in plate with two equal collinear cracks

06 p1002 A71-18346

Stress-strain state of three-layer polymer plate having different thicknesses, Poisson coefficients and creep functions

06 p1005 A71-18707

Stress wave propagation in plates from explosive loading, discussing wave front interaction and scab formation

07 p1215 A71-20091

Tensile tests of elastoplastic notched plate in plane stress

07 p1218 A71-20500

Resistive network computation in plate and shell dynamics, exemplifying skew plate under central concentrated load

08 p1370 A71-21303

Elastic plate with circular hole, solving contact problem in elasticity theory with integrodifferential equation

09 p1535 A71-22181

Unknowns elimination from partial linear equations system with constant coefficients, applying to differential equations for bending transversely isotropic plate under normal external load

09 p1535 A71-22257

Mathematical model for calculating plates of variable thickness referred to curvilinear triorthogonal coordinate system

09 p1536 A71-22411

Rumanian book on stress computation in theory of cylindrical median surface plates with arbitrary section and minimal area

09 p1536 A71-22420

Theory of plates under finite initial elastic deformation, applying to rectangular plate stability under compressions in two mutually perpendicular directions

09 p1537 A71-22521

Infinite isotropic plate weakened by cracks along circular arcs, calculating stress-strain state and critical loads

09 p1538 A71-22524

Physically nonlinear theory of isotropic elastic shells and plates eliminating Love-Kirchhoff hypothesis

09 p1543 A71-23613

Book on elastic plate theory covering bending and transverse shear effects, boundary problems, rectangular isotropic, structurally orthotropic, circular and annular plates under various loads

09 p1544 A71-23701

Nonconforming displacement triangular finite element derivation for plate bending problems, considering constant bending moment element

10 p1685 A71-23939

Thin simply supported polygonal and rhombic plates critical hydrostatic buckling loads and free vibration frequency calculation by conformal mapping and power series expansion

10 p1686 A71-24018

Flexural vibration analysis of rectangular isotropic and orthotropic polygonal elastic plates with constant or variable thickness, considering mass distribution and boundary conditions

10 p1625 A71-24019

Temperature stress distribution in infinite plate with time varying heat transfer coefficient

10 p1687 A71-24197

Limiting equilibrium of thin rigid plastic plate with piecewise smooth contour under skew symmetric load

10 p1690 A71-24568

Polygonal elastic plates natural frequencies investigation by conformal mapping and variational method, transforming holomorphic function into equivalent problem of circular boundary plate

10 p1691 A71-24813

Plate thickness effect on stress distribution around crack, using three dimensional elasticity equations

10 p1693 A71-25055

Plastic deformation of elliptic inclusion in plane strain of infinite plate, using viscoelastic analogy

11 p1852 A71-26395

Dynamic programming for designing beams and plates under steady creep with minimum weight, discussing cantilever beam optimization

11 p1853 A71-26564

Bending problems of elastoplastic plate rigidly clamped over edges, deriving theorems on existence, uniqueness and convergence of approximate solutions

12 p1974 A71-26962

Static and dynamic stress analysis and limiting loads of plastic shells and plates with temperature field in structural element, using deformation theory

12 p1979 A71-27350

Steady thermoelastic equilibrium of infinite isotropic plate containing imbedded circular inclusion with cuts along circumference

12 p1984 A71-27693

Minimum volume design of sandwich axisymmetric plates obeying Mises criterion, using calculus of variations

13 p2146 A71-27782

Reduced order numerical integration technique for plate and shell problems solution

13 p2147 A71-27791

Approximate determination of first characteristic root of equation for plate, hollow sphere and hollow cylinder, using variational method for heat conduction problem

13 p2159 A71-28184

Thermal stresses in infinite viscoelastic plate due to external heat source

13 p2152 A71-28278

Vibration transversely isotropic orthotropic plates, presenting approximate nonlinear dynamic theory

13 p2153 A71-28482

Circular elastic ideally plastic plate deformation due to circumferentially distributed rectangular pulse loading

13 p2156 A71-29075

Instability limit curves for twisted square metal plates under vertical loads with transition from antielastic to synelastic deformation

13 p2158 A71-29431

Nonlinear stability of saddle-like deformed circular and square flat plates and shallow shells under transverse loadings

14 p2322 A71-29692

Elastic stability and buckling behavior of transversely isotropic rectangular Mindlin plate under initial stress and displacement

14 p2324 A71-29871

Multiple Fourier method for plate bending compared with least squares and boundary collocation solutions

14 p2325 A71-29888

Axisymmetric vibrations of heterogeneous isotropic composite clamped circular plates based on Kirchhoff theory

14 p2327 A71-30205

Thermoelastic shells and plates approximate linear theory, detailing uniqueness theorem for initial mixed boundary value problem

14 p2329 A71-30446

Convergent finite element equations for dynamic stability of plates dependent on vibration and buckling modes

14 p2331 A71-30696

Simply supported skew plates buckling under uniform in-plane stresses, obtaining numerical results for various ratios and angles

14 p2331 A71-30698

Strength analysis of shells of revolution and plates under axisymmetrical loads for rigidly plastic material with Tresca yield condition

14 p2332 A71-30849

Soviet papers on three dimensional structures covering strength and stability of compound curvature shells, bodies of revolution and multilayer plates

14 p2332 A71-30888

Buckling under compressive loads of incompressible neo-Hookean plates for homogeneous initial deformation, using variational principle

14 p2333 A71-30993

Plates analysis under static and dynamic loads based on finite difference, lattice analogs, mathematically consistent lumped parameters and finite element models

15 p2503 A71-31438

Soviet book on multilayered media elasticity theory three dimensional problems covering Fourier and Hankel integral transformations, compression, bending, normal and tangential loads, etc

15 p2506 A71-32020

Monograph on rectangular shear elastic plates stability covering Cosserat plane, stress functions, buckling conditions, compressive forces and two dimensional equations

15 p2509 A71-32302

German monograph on orthotropic plate equations derivation by kinematics and statics in general coordinates and elasticity relation

15 p2509 A71-32304

Aeroelastic stability of flat plates and shells, considering panel flutter

16 p2648 A71-32987

Thin plates and shallow shells stability, investigating weak solutions of wall displacement differential equations

16 p2649 A71-32993

Thin plate theory approach with discrete triangular approximation of moment and displacement surfaces for plate bending analysis

16 p2652 A71-33081

Hydrodynamic and plate structural analysis by finite element method, discussing diffusion, oil films and element couplings

16 p2654 A71-33096

Strain energy and stability of nonlinear plate and shell bending under Love-Kirchhoff hypothesis, using three dimensional elasticity theory

17 p2815 A71-34296

Precatastrophic extension effects on local stresses in cracked plates under bending fields, using stress freezing and slicing for photoelastic experiments [SESA PAPER 1820] 17 p2820 A71-34549

Annular plate stability and postbuckling behavior in steady plane axisymmetric temperature field 17 p2822 A71-34598

German monograph on corner singularities in oblique plates calculated with aid of displacement and stress functions, covering bending theory 17 p2823 A71-34796

Rectangular flexible plate displacement theory, solving boundary value problems with fractional step method 17 p2824 A71-34848

Finite element procedure for plate large deflection by considering effects of element membrane forces due to initial deflection and bending on stiffness matrices 17 p2825 A71-34872

Microcracks analysis by micropolar continua theory, presenting solution for circular hole in infinite plate 17 p2832 A71-35421

Generalized periodic problem of infinite isotropic plate of constant thickness with periodically arranged groups of holes, determining stress-strain state 17 p2833 A71-35611

Clamped rectangular plate buckling under uniaxial and biaxial compression, obtaining critical loads for various aspect ratios 18 p2979 A71-36360

Finite difference approximation for discrete eigenvalues of clamped plate, using operator and perturbation technique 18 p2980 A71-36701

Stress-strain state in elasticity theory of three layer symmetrical plate 18 p2982 A71-36786

Wrinkled flat membranes analogy to very thin plates in flexure 18 p2982 A71-36836

Circular inclusion effects in infinite viscoelastic plate under monotonically increasing uniaxial tension, considering stress distribution 19 p3157 A71-37798

Wave propagation in three layered plates, giving frequency spectrum 19 p3158 A71-37884

Shallow lattice shell equations approximated by generalization of asymptotic theories for lattice-type disks and plates 19 p3158 A71-38151

Pressure pulse shape effect on final plastic deformation of simply supported thin circular plate 19 p3158 A71-38181

Nonassociated constitutive equations for rigid viscoplastic plates and thin rotationally symmetric shells under dynamic loading with Huber-Mises yield condition 20 p3310 A71-39777

Approximate theory for vibration of nonhomogeneous anisotropic layered plates using asymptotic integration of elasticity equations 20 p3310 A71-39782

Three dimensional solution for statics and dynamics of homogeneous plates, laminates and orthotropic materials in series form, noting Mindlin analysis 21 p3456 A71-40262

Peak resonant response of thin rectangular plate with elastic edge restraint under concentrated load [ASME PAPER 71-VIBR-6] 21 p3456 A71-40269

Transfer matrix and finite element combination technique for plates and shells vibration analysis [ASME PAPER 71-VIBR-85] 21 p3461 A71-40321

Flexural vibration of rectangular orthotropic plates under in-plane hydrostatic forces 21 p3464 A71-40768

Bending of semiinfinite rectangular plates clamped at long edges 21 p3464 A71-40770

Thin elastic plate under dynamic loading, applying asymptotic expansion techniques to three dimensional dynamic elasticity theory 22 p3613 A71-41435

Finite element method for stress intensity factors calculation in cracked plates under bending 22 p3614 A71-41639

Holographic interferometry application to plate Poisson ratio determination and bending vibration analysis 22 p3539 A71-41741

Thin elastic elliptic plate stress analysis by approximate solution for rectangular plate and parallelepiped equilibrium problems 22 p3616 A71-42212

Finite plates coincidence effect occurrence with sound waves, examining backing cavity and incidence angle influence 22 p3576 A71-42538

Forced vibration of internally damped circular and annular plates with clamped boundaries, obtaining driving point and transfer impedances and force transmissibility 23 p3775 A71-43204

Soviet book on computerized finite difference solutions for physically nonlinear plates and shells covering material anisotropy, creep, thermal, radiative and cyclic load effects 23 p3779 A71-44184

Soviet book on elastoplastic deformations of plates and cylindrical shells made of low strain hardening materials, covering strength and stability calculations 23 p3779 A71-44186

Stiffness matrix algorithm for triangular plate bending elements using hierarchy of interpolation polynomials 24 p3879 A71-44637

Hermite polynomials application to stiffness matrix determination in plate finite element method for disk under plane stress, presenting digital computer program flow diagram 24 p3880 A71-44641

Thermal stresses produced by steady heat flow in two layer plate simply supported at contour 24 p3886 A71-45363

PLATEAUS

Volcanic petrochemical differences of Ethiopian rift and plateaus 09 p1436 A71-22645

PLATES

Covering plate steady state response to acoustic vibrations in viscoelastic half space, calculating interface displacement frequency spectra under zero shear stress assumption 03 p0459 A71-13719

Plate critical surface temperature in case of stabilization by supersonic boundary layer cooling 05 p0695 A71-16852

Continuous flow past plate located perpendicular to wall with inviscid incompressible fluid having linear variation of velocity with height 08 p1227 A71-20828

Compressible viscous gas supersonic flow, observing near wake region behind perpendicular trailing face of plate with motion, state, energy and continuity equations 13 p2047 A71-28421

Heat exchange and temperature distribution between two liquids divided by plate, discussing possible errors 14 p2335 A71-30048

Plate temperature field and stress distribution under thermal pulses, evaluating critical heat load for damage 14 p2325 A71-30049

Plate excitation by supersonic turbulent and shock boundary layers, measuring wall pressure fluctuation and panel displacement 15 p2507 A71-32132

Stress distribution in plates and tubes bonded by stepped joints, assuming generalized plane stress 17 p2824 A71-34814

Two concentric circular arc parallel cracks interaction in infinite plate under tension, calculating crack tip stress intensity factor based on elastostatics theory 01 p0167 A71-10174

Photoelastic analysis using stress freezing to evaluate closure and precatastrophic crack extension in plates under cylindrical bending 01 p0167 A71-10295

Impulsively loaded rigid plastic continua deformation lower bounds calculation, considering beams and plates 01 p0173 A71-10943

Beams and plates deflection optical measurement using moire gap effect generalized to include linear and rotational mismatches 03 p0507 A71-13754

[SESA PAPER 1703]

Mathematical stress wave model for sandwich plates under high velocity impact, considering structural multiple reflections and various material combinations [SESA PAPER 1653] 03 p0508 A71-13774

Shells and plate disk structures elastoplasticity analysis problems, considering limit loads, large deflections, boundary state theory, optical design, etc 03 p0510 A71-13944

Polish book on impact in discrete mechanical systems covering beams, curved rods, plates, nonlinear damping, numerical analysis, subjected to shock loading 03 p0513 A71-14297

Computation scheme for hinged plate systems subject to arbitrarily oriented loads based on two layer flexible base model 04 p0664 A71-14601

Papers on structural mechanics covering plates and shells buckling and vibration behavior 05 p0819 A71-15977

Thick plate with circular holes of various sizes, studying stress-strain state 05 p0828 A71-16890

Forced vibrations of three layer plates and shells made from physically nonlinear materials, deriving nonlinear equations with allowance for rigid filler tangential displacement 06 p0991 A71-17797

Nonstationary temperature fields and thermal stresses in plates and shells for discontinuous boundary conditions 06 p0991 A71-17799

Three layer plate with metallic carrier surfaces and plastic foam filler, calculating stress state near applied concentrated moment 06 p0995 A71-17831

Boundary layer construction near free edge of laminar plates by asymptotic integration of three dimensional equations of elasticity theory 06 p0997 A71-17849

Complex form plates bending and oscillations under various boundary conditions, discussing procedure for coordinate sequences construction 06 p0997 A71-17853

Plate and shell designs, considering thin walled structures optimization for minimum weight, volume and cost vs maximum stresses 06 p0998 A71-17858

Brittle plates with statistically distributed cracks, examining limiting equilibrium under tension and compression 06 p1000 A71-17941

Parabolic equation for plate unsteady thermal conductivity under nonuniform heating, analyzing finite difference solution accuracy 06 p1006 A71-18007

Electromagnetic induction in plate with two dimensional conductivity distribution for case of E polarization, representing field by Green functions 06 p0928 A71-18264

Bending stiffness matrix for sandwich folded plate, reproducing core shearing deformations 08 p1367 A71-20748

Multilayer plate vibrations calculated with allowance for energy dissipation in material, deriving equations of motion 09 p1538 A71-22602

Nomograms for thermoelastic stress in plate determined as function of dimensions and heat transfer 09 p1538 A71-22605

Geometric dispersion of dilatational stress wave propagating in laminated plate composite, comparing transmitted wave forms to code calculations 09 p1538 A71-22687

Bending analysis of clamped and simply supported isotropic skew plates under uniformly distributed load 09 p1540 A71-22995

Plane sandwich plates in supersonic gas flow, investigating aeroelastic stability, transverse shear flexibility and axial loads 09 p1543 A71-23609

Multilayer sandwich plates with transverse shear resistant inner layers and bending and twisting moment resistant outer layers, calculating critical buckling loads by finite elements 10 p1686 A71-24020

Nonlinear forced vibrations of aeroelastic plate in two dimensional supersonic flow under harmonic pressure near critical Mach number 10 p1690 A71-24643

Arbitrary plates and axisymmetric bodies creep analysis by finite element method 10 p1691 A71-24820

Asymmetrical three layer plate with filler under impact loading, examining material and layer thickness effects on deformation 12 p1975 A71-27111

Plate and acoustic finite elements simulation of window-room system coupled transient response to sonic booms, discussing equations of motion and cavity depth effect 12 p1981 A71-27481

Computer program for aerodynamic forces on flexible plate undergoing transient motion in shear flow, applying to panel flutter 12 p1866 A71-27559

Flutter of buckled plate exposed to static pressure differential and streamwise applied in-plane load, comparing experimental results with stability boundary calculations 12 p1983 A71-27584

Stress concentration due to holes and other stress raisers in plates and shells, taking into account transverse shear strains effects 13 p2149 A71-28127

Eigenvalue problems in theory of sandwich plates with rigid cores, obtaining solutions by Galerkin method 14 p2322 A71-29734

Time independent three dimensional streaming secondary motion due to vibrating flexible plate 14 p2325 A71-30061

Simply supported normal mode plate time response to traveling wave at oblique incidence, using numerical analysis

14 p2326 A71-30068

Bending equations solution for arbitrarily shaped quadrilateral plates with simply supported edges, using finite difference method

14 p2329 A71-30485

Stress-strain state of finite length elastic rod free of bending moments and coupled to seminfinit plate

14 p2332 A71-30868

Equilibrium stability of rods, shells and plates during creep due to applied load

14 p2333 A71-30893

Brittle plates with stochastic distribution of cracks under biaxial tensile-compressive stresses, obtaining critical load

15 p2504 A71-31853

Curved sandwich plate strain and kinetic energy expression derivation for use with finite element displacement method

15 p2508 A71-32136

Crack interaction effect along straight line on critical equilibrium and fracture of plate relative to cross-piece length

16 p2658 A71-33685

Thermoelastic critical equilibrium of plate with rectilinear crack under heat transfer from edge surface and tensile stress

16 p2658 A71-33686

Complex form plates with energy sources in combined cooling system, calculating temperature field

17 p2836 A71-34422

Oriented glass fiber-plastics plates and shells design, noting zero moment stress shells and filament overwrapped metallic pressure vessels

17 p2830 A71-35315

Minimum mass design of two dimensional plate-like structure with free vibration fundamental frequency or aeroelastic constraints, using optimal theory for extremum

19 p3158 A71-37877

Universal dispersion curve for steady state sinusoidal flexural wave propagation in plates and bars, using Poisson ratio as single parameter

21 p3463 A71-40535

High precision displacement functions for finite element models of rotational shell and plate bending problems

21 p3470 A71-41019

Reflected shadow method for constrained zone photoelastic observation around cracks in birefringent transparent plate under plane stress

22 p3549 A71-42555

Local elastic buckling of component plate elements of single-cell simply supported folded plate structures under uniform transverse loads

22 p3618 A71-42585

Dynamic three dimensional stress distribution near crack tip in finite plate, using finite difference scheme

23 p3776 A71-43376

Thermoviscoelastic problem for semiinfinite plate, determining temperature field and stresses permitting heat propagation

23 p3780 A71-44223

Natural vibrations of complex shape plates with clamped edge on resilient base, deriving approximate solution via R functions

24 p3877 A71-44481

Stress field due to two rigid circular disk inclusions in isotropic homogeneous infinite plate

24 p3879 A71-44627

Global-local finite element combined Ritz methods for beam and plate vibration analysis

24 p3880 A71-44638

Nonhomogeneous plate under pulsating and uniformly distributed loads, considering dynamic elasticity problem

24 p3880 A71-44712

PLATFORMS

Motion platform systems evolution for flight research and training simulation

15 p2384 A71-31887

PLATING

NT NICKEL PLATE

Solid metal lubricant films bonding by ion plating using diode method, noting interface type and structure examination by electron microscopy

01 p0087 A71-10483

Cr and V diffusion plating influence on principal characteristics of highly alloyed martensitic and carbon steels

12 p1912 A71-27690

Bimetallic plated high strength steel, noting transition zone effects on mechanical properties

23 p3692 A71-44026

PLATINUM

Quasi-spherical divergent shock waves produced by Pt wire explosion in air

02 p0332 A71-12336

Oxygen reduction on Teflon bonded Pt electrodes, eliminating concentrated overvoltage

02 p0210 A71-12955

Hydrogen and carbon monoxide coadsorption on platinum single crystal surface, examining interactions

and species formation by thermal flash and electron impact techniques in ultrahigh vacuum

07 p1055 A71-19844

Quenched and aged Pt, investigating secondary defects for vacancies clustering modes by transmission electron and field-ion microscopy

11 p1779 A71-26016

Platinum, palladium and gold detection in silver assay buttons by atomic absorption spectrophotometry

15 p2367 A71-31649

Platinum resistance thermometers calibration normalized in resistance-difference ratios

18 p2916 A71-36047

Thermodynamic measurement of cryogenic temperatures based on gases at low pressures or platinum electrical resistance

20 p3270 A71-39243

Si Pt-n-p transit time microwave diode source noise measurement, noting low noise characteristics and suitability for local oscillator applications

21 p3359 A71-41413

Heat transfer from platinum wires in He and He-air mixtures, plotting Nusselt number variation with Reynolds number for various He concentrations

22 p3620 A71-41875

PLATINUM COMPOUNDS

Platinoid boride production, determining reaction sintering temperature with thermal metallographic and X ray analysis

24 p3838 A71-44735

PLAYBACKS

Plasma echo and spin echo holophones for electrical signals temporal sequence recording and cued playback, noting human brain memory function analogy

05 p0787 A71-16451

PLENUM CHAMBERS

Plenum chamber with nozzle wind tunnel model, noting jet flow phenomena at various angles of attack

10 p1590 A71-24865

Supersonic staggered gutter colander combustion system for plenum chamber burning on high bypass Pegasus turbofan engine of Harrier VTOL aircraft, noting performance improvement

13 p2116 A71-28743

Electrically excited gas dynamic CO laser using glow discharge in supersonic nozzle plenum

23 p3683 A71-42958

PLETHYSMOGRAPHY

Total impedance plethysmography boundary value problems, developing computer program based on Jacobi iterative method

03 p0367 A71-12993

Plethysmographical study of noise effects on hearing and peripheral vasoconstriction in man and animals

03 p0359 A71-13155

Four-electrode impedance plethysmograph system for evaluating conduction variations of upper and lower body segments relative to blood volume displacement

06 p0853 A71-17958

Photoplethysmographic analysis of pulse wave velocity in healthy subjects and in patients with hypertension, heart disease, diabetes and anemia

22 p3490 A71-42518

PLEURAE

Dogs intrapleural and intrasophageal pressures dependence on head positions

19 p3010 A71-38564

PLEXIGLASS [TRADEMARK]

U POLYMETHYL METHACRYLATE

PLOTTERS

NT X-Y PLOTTERS

Automatic cartography, using plotting machine digital output via attached shaft encoders

06 p0895 A71-18292

Cost effective high speed projectile trajectory plotting system for gunnery range instrumentation, applying to aircraft path recording during automatic landing control

18 p2924 A71-36613

Autoplotter for radar echoes on CRT screen, using video tape recorder for ship navigation use

19 p3017 A71-37700

Binary computer holograms construction, discussing two and three dimensional objects, wave propagation, plotter instrumentation, photographic reduction and diffusers

21 p3380 A71-40921

PLOTTING

Two shaft turbojet engine parameter plot techniques effectiveness, varying low pressure cascade rpm or nozzle system passage cross sections

03 p0472 A71-14259

PLOTTING INSTRUMENTS

U PLOTTERS

PLSS

U PORTABLE LIFE SUPPORT SYSTEMS

PLUG NOZZLES

Maximum thrust plug nozzle design for fixed inlet geometry, using calculus of variations for optimum contour determination

06 p0946 A71-18501

Nonuniform plug nozzle flow field calculated for closed wake, using flow model divided into near wake and adjacent regions

[AIAA PAPER 71-41]

06 p0946 A71-18502

PLUGGING

Plug-in relay hazards and minimization for aircraft flight safety applications

13 p2001 A71-28841

PLUGS

Liquid He containment in space zero-g environment, proposing use of high thermal conductivity porous plug operating in superfluid regime

20 p3184 A71-39280

PLUM BROOK REACTOR

Beryllium reflector plate failure in NASA Plum Brook Reactor, discussing irradiation induced mechanical and physical property changes and internal/external stress effects

21 p3414 A71-40904

PLUMBANE

U LEAD COMPOUNDS

U METAL HYDRIDES

PLUMES

NT ROCKET EXHAUST

Forced plume entrainment of turbulent buoyant jet in stratified fluid as function of Reynolds, similarity and Froude numbers

02 p0278 A71-12704

Jet plume in subsonic cross flow, calculating counter-rotating vortices as function of distance along trajectory from semiempirical model

07 p1090 A71-19901

Two and three dimensional thermals and steady and starting plumes convective fluid motion formulas, using vorticity integration method

07 p1104 A71-20223

Mach disk in underexpanded exhaust plume predicted by dividing flow field into subregions

09 p1382 A71-22097

Inviscid model for flow field within plumes of two-dimensional underexpanded jets calculated by time dependent finite difference method

11 p1853 A71-25160

Electron and laser pulse plumes, using thermomechanical shock wave theory

13 p2079 A71-28768

Carbon dioxide free jet plumes issuing from supersonic nozzle into high vacuum, measuring densities and temperature

13 p2026 A71-29355

Flow field calculation in intermediate altitude rocket exhaust plumes by modified Lagrangian finite difference technique

22 p3590 A71-42774

PLUNGERS

Jet fuel dissolved oxygen concentration effects on plunger antiwear properties

15 p2464 A71-31677

PLUTO [PLANET]

Pluto-Neptune system implications for solar system evolution theories, discussing deterministic and statistical models and n body problem approaches

04 p0655 A71-15726

Pluto orbit integration over 4.5 million years by variation of parameters technique and confirming Neptune-Pluto orbital resonances

10 p1669 A71-24179

Pluto iron richness from analysis of similarities between Pluto spectra and Fe bearing terrestrial silicate crystals

10 p1673 A71-24426

Pluto mass from reciprocal mass and density, using Neptune transit circle observations reevaluation

15 p2488 A71-32199

Computer processed photographic observations of Pluto, 10 Hygiea, 433 Eros and Saturn satellites VII, VIII and IX

24 p3874 A71-45178

PLUTONIUM

NT PLUTONIUM 238

Plutonium in peculiar A stars surfaces as nuclear cosmochronology for determination of r process nuclei age, considering emission line spectra obscurement

05 p0808 A71-16413

Nuclear characteristics of plutonium fuel for thermoelectric generators and required shield thicknesses for sensitive radiation experiment in outer planet spacecraft

22 p3592 A71-42300

PLUTONIUM ALLOYS

Beta Ti-Pu solid solution, constructing diffusion phase diagrams from electron beam microprobe analysis and autoradiography

18 p2935 A71-36174

PLUTONIUM ISOTOPES

NT PLUTONIUM 238

PLUTONIUM 238

Neutron emission yield during Pu 238 alpha particles interactions with O 18, taking into account recoil Ne isotopes

14 p2276 A71-30177

PLUVIOGRAPHS

U RAIN GAGES

U RECORDING INSTRUMENTS

PNEUMATIC CIRCUITS

Book on fluid power circuits and systems covering switching theory, closed loop systems, pneumatic circuits, servo systems and pressure control

02 p0190 A71-11871

Blocked and series connected pneumatic fluidic transmission lines, determining amplitude frequency response

07 p1026 A71-20566

Beam deflection fluidic circuit design by linear static matching method, considering servoamplifier feedback control system

07 p1026 A71-20569

Moving part pneumatic logic element static and dynamic characteristics, determining air flow rate and output pressure

07 p1027 A71-20574

Missile fluidic attitude control system, discussing integrator, transducer amplifiers and circuits

07 p1028 A71-20583

Low pressure air jet sensing power pneumatic and fluidic circuits and interface valves for low pressure signal stepup to main line pressure, considering circuit design

07 p1030 A71-20597

Pneumatic resistance transducer for fluidic measurement of mechanical quantities

07 p1030 A71-20598

Book on fluidics components and circuits covering fluid logic devices, fluid mechanics, analog devices, moving and nonmoving part digital devices, switching elements, etc

09 p1386 A71-22070

Control and instrumentation fluidics, describing equipment, circuits and applications to jet engine controls, missile guidance, flight control, ordnance and machine tool control

09 p1386 A71-22775

High pressure pneumatic lines dynamics, considering equation of state for real gas with given compressibility function

16 p2527 A71-33618

Pneumatic isolation system for inertial instrument testing, using computer simulation model to evaluate physical parameter variation effect on pad suspension dynamic behavior

[AIAA PAPER 71-910]

19 p3040 A71-37161

Pneumatic passive lead networks for fluidic systems, presenting transfer functions, equivalent circuits and design information

23 p3631 A71-44096

PNEUMATIC CONTROL

Computer aided design for fluidic-pneumatic sequential control circuits synthesis, discussing algorithms and computer programs

[ASME PAPER 70-WA/FLCS-17]

03 p0354 A71-14090

Moving parts pneumatic control, discussing valves adaptation to control language and functional requirements

07 p1023 A71-19996

Fluidic pneumatic control system compensator for digital signal processing

07 p1026 A71-20567

Moving part digital pneumatic logic system, using elements molded into rubber sheet between two rigid flat plates

07 p1027 A71-20575

Digital fluidic metering system for composition control of liquid batch mixing from circuit design to final product

07 p1028 A71-20581

Pneumatic and hydraulic fluidic power control systems, discussing moving part position servos and cold gas reaction systems

07 p1028 A71-20585

Fluidic pressure ratio control for vertical takeoff aircraft lift engine fuel system, describing breadboard circuit, test bed and flight standard

07 p1028 A71-20587

PNEUMATIC EQUIPMENT

NT PNEUMATIC CIRCUITS

Oleopneumatic accumulators in gearboxes for rationalizing installed power

07 p1023 A71-20004

External feedback fluidic oscillators design and analysis using branched pneumatic transmission line arrangements

07 p1027 A71-20578

Pneumatic membrane logic elements on basis of figure of merit characterizing usability in system engineering

11 p1709 A71-25570

Electropneumatic transducer system linearization, matching nonlinearities in EM and pneumatic subsystems

13 p1999 A71-28638

Atomization drop size distributions in sprays from convergent pneumatic nozzles for molten wax and polyethylene mixtures

13 p2049 A71-29007

Fluidic devices with combined pneumatic and hydraulic components, describing jet-siphon liquid

flow frequency transducer with pneumatic pulse counting device

15 p2353 A71-32071

Aerospace pneumatic and fluidic developments, discussing high speed and response air motors, control functions, thrust reverser actuator and various drive systems

18 p2851 A71-36208

Lumped parameter modeling of fluid elastic vibration response of nonlinear piston driven pneumatic-mechanical system, using finite element control volumes

[ASME PAPER 71-VIBR-41] 21 p3459 A71-40291

Automatic control theory application to pneumatic self vibration /hammer/ occurrence criteria derivation for externally-pressurized gas-lubricated thrust collar bearings

22 p3551 A71-41660

PNEUMATIC PROBES

Vortex type pneumatic angular rate sensor with vanes and hydrodynamic viscous coupling, determining differential pressure outputs

15 p2352 A71-32063

Constant speed vortex rate sensor, calculating angular momentum dissipation due to shear stresses and response to step signal input

15 p2352 A71-32064

PNEUMATIC RESET

U PNEUMATIC CONTROL

PNEUMATICS

Transfer function system relating cornering force and aligning torque of rolling pneumatic aircraft tire to yaw angle and lateral displacement

21 p3324 A71-40167

PNEUMONIA

Hypobaric pressure and hypoxic or hyperoxic atmospheres effect on mice resistance to pneumococcal pneumonia

02 p0199 A71-12382

Cold environment exposure effect on mouse resistance to infection with Klebsiella pneumoniae

16 p2528 A71-33115

POCKELS EFFECT

U BIREFRINGENCE

PODS [EXTERNAL STORES]

Fighter F-14 podded engine high variable sweep wing design including nozzle, nacelle, fuselage shift, aspect ratio and lift control improvements

16 p2526 A71-34152

POGO EFFECTS

Dynamic stability analysis, ground testing and corrective accumulator devices for POGO oscillations in space booster structure

22 p3609 A71-41992

POIKILOthermia

NT FROGS

NT SNAKES

NT TURTLES

POINCARÉ PROBLEM

Poincaré hydrodynamic analogy in celestial mechanics, relating differential equations for dynamic systems with two degrees of freedom and two and three dimensional flow

01 p0154 A71-10383

Curved space-time mathematical structure /quasi-groups/, investigating 10-parametric classes of coordinate systems and Poincaré groups

08 p1334 A71-21358

Conformal transformation of multiply connected plane domain of Poincaré standardization

17 p2672 A71-35469

POINCARÉ SPHERES

Closed invariant sets of smooth flow on compact manifold involving homoclinic or heteroclinic point theory of Poincaré

06 p0918 A71-17640

Flow patterns on Poincaré sphere as aid to qualitative study of polarization and intensity of quasi-stationary laser mode in anisotropic resonator

20 p3243 A71-39095

POINT DEFECTS

NT FRENKEL DEFECTS

NT VACANCIES [CRYSTAL DEFECTS]

Variant function describing long term fatigue strength under complex loads in determining given material damage point during breakdown

01 p0169 A71-10494

Differential equations derivation for metal fatigue point defect colonies concentration changes, discussing diffusion and dislocation interactions

06 p1002 A71-18418

Solid solution hardening theories, discussing point obstacles random distribution effect on strength and superposition of multiple hardening mechanisms

08 p1309 A71-21522

Fracture kinetics, emphasizing plastic deformation, dislocation and diffusion micromechanics, point defects effects and microcrack formation

08 p1371 A71-21606

Point defects and fine precipitates effects on fatigue strength of high strength alloys, exhibiting higher fatigue strength in isothermally aged samples

10 p1625 A71-24009

Probability of quasi-chemical reactions between point defects in semiconductors due to ionizing radiation

10 p1655 A71-24139

Lead zirconate-titanate point defects crystal chemistry, interpreting sintering and grain growth behavior

13 p2093 A71-28992

Point defects relation to thermoelectric emission at high temperatures in yttrium oxide

15 p2462 A71-32714

Electromagnetic absorption cross sections from wave function of free carriers in semiconductors with point defects

16 p2623 A71-34031

Mechanical interactions of point defects in homogeneous isotropic continuous elastic media, deriving interaction energy from Siems multipole forces analysis

17 p2831 A71-35395

POINT IMPACT

Optical point elastohydrodynamic contact, describing optical interference system consisting of chromium plated glass plate and steel ball

01 p0087 A71-10463

Stress and contact time calculation for impact of spheres on finite thickness elastic plate overlying rigid foundation

21 p3472 A71-41031

POINT MATCHING METHOD [MATHEMATICS]

U BOUNDARY VALUE PROBLEMS

POINT SOURCES

Point source acoustic radiation field in presence of absorbing plane, presenting solutions and approximations based on plane wave reflection and modified image method

03 p0456 A71-13276

Gravitational field due to point mass, proving Newton space existence

03 p0458 A71-13606

Two point resolution in Fourier holography with partially coherent recording and illuminating light

03 p0429 A71-14180

Shock waves and chemical reactions due to plane, cylindrical and spherical point explosions in combustible gaseous mixtures

05 p0833 A71-16503

Nomographs for point source holographic imaging, discussing recording and reconstruction geometry

05 p0753 A71-16913

Aerodynamic sound radiation from point force in accelerative circular motion, obtaining closed form for overall far field radiation

05 p0784 A71-17162

Low profile optical system producing annular cone of radiation from point source for high speed aircraft beacon

07 p1107 A71-19203

Modified double point source differential shear interferometer for neutral reference light beam, using pinhole stop

07 p1110 A71-19478

Sound field due to point source inside absorbent lined enclosure for anechoic chamber performance prediction

07 p1160 A71-19587

Pulse propagation from time-step point force at surface of transversely isotropic elastic half space, obtaining solutions by integral transforms

08 p1371 A71-21428

Human visual analyzer excitability shifts due to short duration point light stimuli

08 p1243 A71-21972

Meteor trails isotropic diffusion in presence of moving point source of ionization with variable intensity, calculating plasma density on and near trajectory

09 p1518 A71-22447

Loci of perceived, equi-, half- and double distance in stereoscopic vision with point source stimuli relative to Vieth-Müller circle

09 p1394 A71-23014

Contour map of galactic radio emission in Cassiopeia and Cepheus region, noting discrete sources

11 p1831 A71-26132

Sound radiation from time varying point force in accelerative motion, applying to fan or helicopter rotor noise at subsonic tip speeds

12 p1867 A71-26702

Diffraction of spherical wave on triangular prism, using reduction by group theory of point sources

12 p1878 A71-26838

Direction finder for point source signals from two simultaneous transmitters

14 p2210 A71-29810

HF response of point excited cylindrical shell, converting normal-mode series to integral representation with Watson transformation

14 p2327 A71-30201

Point sources of solar neutrino radiation, explaining negative experimental results without drastic change of main assumptions concerning stellar evolution

15 p2478 A71-31801

High energy cosmic gamma ray point sources identification near galactic plane from balloon flights data 15 p2478 A71-31826

Random time variation in sound radiation far field of point sources in subsonic circular rotational motion 15 p2450 A71-32129

Sound field of point acoustic stresses in arbitrary motion, investigating uniform straight line and circular motion and pure rotation effects 15 p2450 A71-32130

Small monochromatic disturbances propagation in stable ideal MHD fluid by geometric optics method, solving point source radiation at short wavelengths 15 p2459 A71-32652

Earth masses substitution by nearly minimum number of point sources of gravity anomalies 17 p2734 A71-35188

Closed form solution for quasi-static thermal stress field due to moving point heat source in circular disk, noting application to welding problems 21 p3467 A71-40966

Field ion current angular distribution for large point emitter potentials as function of emitter geometry 22 p3578 A71-42057

Far field radiation patterns of axially oriented point current sources in presence of dielectric circular cylinders, developing solutions via plane wave scattering 23 p3654 A71-44160

Point source average signal reflection from conductive plane in random oscillation 23 p3654 A71-44163

Acoustical harmonic point source in motion relative to surrounding fluid, using Fourier integrals for mathematical representation 24 p3847 A71-44418

Point source radiation in stratified waveguide system with magnetoplasma slab, evaluating transverse field by Fourier integral representation 24 p3857 A71-45181

POINT TO POINT COMMUNICATIONS

Intercontinental point to point radio communication, discussing Hertzian beam /radio relay links/ and satellite communication comparison with underground and submarine cables 19 p3016 A71-37343

Broadband point-to-point communication satellite systems for 1970s, discussing R and D effort, economics and international and domestic applications 20 p3197 A71-39606

POINTING CONTROL SYSTEMS

Soviet radio telescope tracking control system, describing feedback sensors, digital computer, servomotors, actuators and control panels 04 p0565 A71-14848

Performance tests for guidance accuracy and tracking smoothness of Crimean Astrophysical Observatory radio telescope, discussing pointing and tracking errors 04 p0565 A71-14849

Skylab earth-orbiting manned space station attitude and pointing control systems design 04 p0623 A71-15323

OA0 2 design and performance features concerning pointing accuracy and stability, command capability, data handling, thermal environment, orbit constraints, ultraviolet spectroscopy, etc 05 p0818 A71-17128

Space station experiments fine pointing and stability, discussing attached or coorbiting free flying mode with zero G conditions [AIAA PAPER 71-62] 06 p0980 A71-18521

Passive airborne computer augmented aircraft antenna pointing control system for communication satellites tracking [AIAA PAPER 71-233] 07 p1077 A71-19710

Automatic telescope guidance system for faint light source tracking, using cumulative photocurrent mismatch signal storage 14 p2271 A71-29994

Apollo Telescope Mount for high resolution solar observation and manned instruments evaluation in space environment, discussing attitude and pointing control systems 15 p2500 A71-31458

Control moment gyro for attitude pointing control system of Skylab space station 17 p2743 A71-35063

Precision tracking and pointing of laser beams in space for communication, discussing large space telescope /LST/ applications 18 p2920 A71-36090

Synchronous three-axes stabilized communication satellites attitude control system with double gimbaled reaction wheel control actuator, obtaining 0.1 degree pointing accuracy with pitch and roll sensors [AIAA PAPER 71-949] 19 p3098 A71-37190

Sight line autopilot (SLAP) for side-firing aircraft pointing accuracy improvement, using optimal regulator theory to generate control gains 19 p3099 A71-37201

Integrated system for precision attitude determination and pointing control of spacecraft gimbaled payloads [AIAA PAPER 71-962] 19 p3099 A71-37203

Spacecraft pointing control system with momentum exchange controllers, considering near optimal control policy for control moment gyro system 22 p3608 A71-41966

Large telescope design - Conference, Geneva, March 1971, covering telescope projects, optical properties, mountings and control and drive systems 22 p3542 A71-42120

POINTS [MATHEMATICS]

NT FIXED POINTS [MATHEMATICS]

Triangulation position fix techniques employing lines of bearing, n-locus, least square fits and resection by intersection method 02 p0280 A71-12900

Nonlinear stability of triangular points in restricted problem of three bodies, using second order expansions, Lie transform and multiple scale method 03 p0487 A71-13448

Neron-Tate height fine structure of points on Abelian manifolds, considering canonical bounded and diophantine problems 06 p0917 A71-17571

Closed invariant sets of smooth flow on compact manifold involving homoclinic or heteroclinic point theory of Poincare 06 p0918 A71-17640

Lunar surface mass distribution, using dynamic point mass solution 09 p1530 A71-23717

Stationary points of functional corresponding to boundary value problem with free boundary 12 p1930 A71-27167

Invariant imbedding for two point boundary value problems for difference equations, noting conversion to initial value problem 17 p2764 A71-34519

Flight mechanics of point with limited power propulsion system and energy storage unit, investigating variational maximum payload problem with singular control optimization 20 p3288 A71-39125

Stationary signal space topology concept in special relativity, considering points neighborhoods as independent of signal sending time 21 p3346 A71-40091

Relativistic equation derivation for dynamics of point with varying rest mass from Newtonian principle 21 p3415 A71-40659

One and two dimensional function values calculation for curve systems by continued fraction interpolation from point grids, using computer program 22 p3518 A71-42394

Degenerate critical points Morse index type characteristics, considering maximum points of functional on surface of another 24 p3843 A71-44707

POISEUILLE FLOW

U LAMINAR FLOW

POISONING

Intrarenal vascular pattern in carbon dioxide death of rhesus monkeys and dogs, observing sympathetic vasoconstriction 06 p0851 A71-17610

Pargyline behavioral effects in primates, concerning therapeutic use for decabranic intoxication 08 p1239 A71-20819

Acute hydrazine hydrate poisoning morphological effects on internal organs and blood in guinea pigs, noting pronounced changes in liver and kidneys 09 p1393 A71-22921

POISONING [REACTION INHIBITION]

Organophosphate pesticide poisoning implication in aircraft crash of duster pilot from cholinesterase activity drop evidence 23 p3641 A71-44249

POISONING [TOXICOLOGY]

U TOXIC DISEASES

POISONS

NT ENDOTOXINS

NT URETHANES

POISSON FUNCTIONALS

Queueing model of statistical multiplexer buffer behavior for batch Poisson arrivals and single constant output, applying to time sharing computer buffer design 05 p0724 A71-17063

Threshold distribution of time intervals between atmospheric contradicting Poisson law 09 p1435 A71-22445

Distribution functions of initial and established intervals of stochastic and Poisson sequences in automatic control, reliability and communications theories 10 p1588 A71-24902

Bayesian modeling of nonstationary Poisson process with probabilistic lambda in time 11 p1791 A71-25252

Large scale clustering of galaxies and galactic clusters, comparing observed and Poisson distributions 13 p2138 A71-28759

Gaussian and Poisson noise and SNR effects on subjective image quality rating, using transparency aerial scenes 20 p3235 A71-39190

POISSON EQUATION

Charged particle motion in self consistent continuous wave spectrum from Vlasov and Poisson equations solution 02 p0289 A71-11955

Boundary value problems solution of Helmholtz and Poisson equations for parallelepiped, applying to elasticity theory 02 p0328 A71-12542

Soviet monograph on universal program for finite difference solution of Dirichlet problem of Poisson equation with enhanced accuracy formulas 04 p0619 A71-15450

Numerical integration of Poisson kinematic equations for direction cosines, using Runge principle for accuracy values proportional to third power of integration step 05 p0780 A71-16051

Poisson-Boltzmann equation solution for potential of charged sphere with radius not larger than Debye radius 05 p0781 A71-16383

Infinite universe compatibility with gravity potential satisfying Poisson equation, avoiding cosmological difficulties by universal gravitational field sources and sinks introduction 10 p1681 A71-25074

Flat galaxies dynamics via linearized Vlasov equation integration and Poisson equation exact solution 14 p2303 A71-29590

Numerical integration of Poisson kinematic equations for direction cosines, using Runge principle for accuracy values proportional to third power of integration step 16 p2605 A71-33455

Poisson equation for space charge layer of reverse-biased p-n junction in p-n-p-n structure with allowance for two types of moving current carriers 16 p2546 A71-33495

Thermoelectric and thermomagnetic phenomena in semiconductors with impurity ions, solving electric conductivity and diffusion and Poisson equations for weak magnetic fields 16 p2622 A71-34027

Vlasov-Poisson equations of collisionless plasma flow around conducting cylinder without magnetic effects, using nonrestrictive hybrid simulation techniques [ONERA-TP-958] 18 p2951 A71-36025

Influence coefficient matrix method for discretized Poisson equation solution 18 p2905 A71-36306

Collisionless plasma Vlasov and Poisson equations numerical solution based on Fourier-Fourier transform, comparing with particle motion simulation 19 p3113 A71-37748

POISSON PROCESS

U POISSON DENSITY FUNCTIONS

U STOCHASTIC PROCESSES

POISSON RATIO

Transverse elastic modulus and Poisson coefficient of composite materials as function of reinforcement, structure and fiber radius 05 p0771 A71-16360

Soviet monograph on refractory materials elasticity at high temperatures covering elastic and shear modulus, Poisson coefficient and resonance methods 05 p0766 A71-16400

Elastic materials Poisson ratio measurement by moire method in coherent and incoherent light 16 p2575 A71-32825

Inductive extensometers with spherical tips for materials testing, noting Young modulus and Poisson ratio determination 17 p2744 A71-35239

UV Cet and YZ CMi star flare activity data, noting Poisson distribution of time sequence 19 p3134 A71-37510

Harmonic excitation response of masses on elastic half space, considering Poisson ratio effect, vibration amplitudes and resonant frequencies [ASME PAPER 71-VIBR-59] 21 p3460 A71-40304

Universal dispersion curve for steady state sinusoidal flexural wave propagation in plates and bars, using Poisson ratio as single parameter 21 p3463 A71-40535

Modulus of elasticity and Poisson ratio of composite material with anisotropic or isotropic fibers arranged in rectangular or square array 21 p3464 A71-40772

Holographic interferometry application to plate Poisson ratio determination and bending vibration analysis 22 p3539 A71-41741

Elastic surface wave amplitude and propagation velocity in lunar rocks, calculating Poisson ratio 23 p3761 A71-43784

Inelastic transverse strain coefficient and Poisson ratio dependences on plastic and brittle properties 23 p3780 A71-44227

Slit tube flat-to-circular transition during extension, considering mathematical model for curvature change, modulus of elasticity and Poisson ratio effects 24 p3884 A71-44959

POLAR AURORAS

U AURORAS

POLAR CAP ABSORPTION

Black Brant rocket measurement of PCA event at Churchill, Canada on 19 November 1968, discussing electron density and alpha particle and proton flux
03 p0417 A71-14038

PCA ionization, using range-energy ratio of solar cosmic rays penetrating spirally into polar atmosphere for electron production rate determination
05 p0742 A71-16812

Diurnal variations of loss factor in D region during polar cap absorption, verifying nighttime D region model by forward propagation data
05 p0744 A71-17185

Time dependence of atmospheric ionization at polar cap absorption event, obtaining relativistic and non-relativistic solar cosmic rays ionization equations
11 p1734 A71-25586

Diurnal variations of loss coefficient in D region during polar cap absorption, verifying nighttime D region model by forward propagation data
13 p2059 A71-28242

Geomagnetic tail influence on polar ionosphere proton and electron precipitation, considering ionospheric ionization and polar cap absorption
14 p2300 A71-30034

Day and nighttime effective electron loss rate measurement in D region during polar cap absorption events, using rocket-borne spectrometers and Faraday rotation
16 p2573 A71-33961

Ionospheric electron concentration and proton flux rocket-borne measurements during nighttime PCA event, discussing atomic oxygen role in recombination processes
16 p2575 A71-33974

Equatorial and precipitating solar proton fluxes interrelationship in magnetosphere from riometer absorption in auroral and polar cap regions
19 p3125 A71-37360

Polar cap absorption event, investigating solar high energy protons precipitation effects
19 p3129 A71-38360

Ion and electron production rate during PCA event, computing electron/ion density, differential proton flux spectrum and ion production rate
20 p3225 A71-39729

PCA due to solar proton event, measuring electron/ion densities and temperatures, proton/electron energy flux spectrum, Lyman alpha radiation and X rays
20 p3281 A71-39730

ELF and VLF emissions during PCA, correlating data with particle and photometer recordings from ground based, satellite and rocket-borne observations
20 p3229 A71-39856

POLAR CAPS

Carbon dioxide clathrate in Martian ice cap suggested from hydrate stability relative to solid phase and water ice as function of temperature
01 p0148 A71-10002

Proton Flare Project 1969 observation of polar cap ionospheric disturbance due to proton event by VLF propagation phase measurement
01 p0073 A71-10289

SD geomagnetic variations and electron jet spread over polar cap stream during solar cycle
02 p0243 A71-11763

Upper ionosphere electron concentration enhancement in polar cap from satellite probe measurements
03 p0408 A71-13385

Martian north polar cap observations, discussing physical aspects and seasonal regression curves
03 p0489 A71-13560

Thermogravimetric analysis of goethite-rich sample of Mars type limonite, considering sorption process relation to Mars environment and polar caps
04 p0644 A71-15131

Mars surface TV pictures from Mariner 6 and 7, including cratered and uncratered terrains, light and dark markings and south polar cap
06 p0965 A71-17628

Cosmic rays transient north-south polar asymmetry, confirming time lag between Forbush decrease onsets
06 p0956 A71-18140

Solar flares of 25-27 February 1969 effects on polar cap and interplanetary space flux rates, confirming magnetospheric modulation of proton density peaks
06 p0958 A71-18151

Solar proton event on 9 June 1968 observed at polar caps by ESRO 2 satellite, noting flux profile structure
06 p0958 A71-18154

Magnetospheric electric fields properties via simultaneous balloon flights between plasmapause and polar cap, indicating fields and bulk plasma flow turbulence
08 p1282 A71-21632

Light ion flow from polar caps in hydrodynamic and evaporative forms, noting pressure gradient force, exospheric electric field and realistic boundary conditions
09 p1440 A71-23459

Mars observations at August 1971 opposition, discussing dark spots, polar cap and darkening, atmosphere, etc
10 p1670 A71-24277

Polar cap as distinct geophysical entity, considering open magnetic field lines for connectedness to interplanetary plasma and particle input to lower latitudes
10 p1600 A71-24308

Polar caps energetic particle environment involving solar flare proton and electron fluxes
10 p1600 A71-24309

Polar cap cosmic radiation intensity measurement for deducing electromagnetic conditions near earth and in interplanetary space
10 p1661 A71-24310

Polar cap atomic processes stimulated by photons, electrons and protons, considering particle morphology
10 p1661 A71-24311

Polar cap lower ionosphere mapping by solar and magnetospheric charged particles, considering disturbances in polar regions
10 p1661 A71-24312

Solar particle effects on polar cap VLF radio propagation along polar and transpolar paths, considering short term phase effects
10 p1577 A71-24313

Polar caps magnetic field variations, considering relationship to auroral phenomenon and ionospheric conductivity variations
10 p1600 A71-24314

Low energy precipitating auroral particle fluxes over magnetic poles delineating polar cap, noting electron precipitated flux
14 p2299 A71-30030

Low energy electron precipitation effects on upper atmosphere based on polar cap and auroral oval electron spectrum comparison
14 p2300 A71-30035

Spread F ionospheric electron density irregularities and satellite scintillation over polar cap
14 p2300 A71-30043

Night sky optical emissions morphology and behavior in polar regions with emphasis on polar caps
14 p2234 A71-30045

QSY data analysis of pulse reflection measurements from midlatitude station, determining polar cap and auroral absorption
15 p2396 A71-31611

Electron and proton precipitation observations in auroral, polar cap and outer radiation zones by electrostatic analyzers on earth satellite Injun 5
15 p2397 A71-31756

Thermospheric convective instability as interpretation of north polar cap high speed winds observed by satellite at 200 km altitude during magnetic storm of May 1967
16 p2572 A71-33847

Solar protons penetration over polar cap during 25 February 1969 event from particle and magnetic field measurements inside and outside magnetosphere by satellites
16 p2628 A71-33934

Energetic solar protons asymmetric access to north south polar caps by satellite observation during 24 January 1969 event
16 p2628 A71-33935

Energetic electrons, protons and alpha particle measurements by Azur satellite over polar cap and in radiation belt during March 1970 solar particle event
19 p3126 A71-37419

Annual heat balance in Martian northern polar cap, considering atmospheric, ground and solar heat flux absorbed by snow
20 p3290 A71-39309

Solar proton enhancement over auroral zone observed aboard near earth polar orbiting ESRO 2 satellite
20 p3282 A71-39735

Auroral morphology, covering static and dynamic ovals, polar cap and dayside auroras, auroral zones, substorms and electron precipitation
20 p3227 A71-39838

Polar cap magnetic variation mechanism based on electric field aligned continuity of Hall current auroral electrojets, noting ionospheric electron density gradients effects
20 p3230 A71-39862

Polar cap electric field and relationship to magnetic disturbances from measurements on Ba ion clouds released by rockets
20 p3230 A71-39883

Martian polar caps heat balance, noting albedo differences due to irregularities in solid carbon dioxide cover
22 p3603 A71-42190

Localized abnormal geomagnetic disturbance near polar cap and simultaneous ionospheric variation during auroral zone weak magnetic activity periods
22 p3536 A71-42625

Low energy particle plasma sheet and convection electric field distributions over auroral zones and polar caps from satellite Injun 5 observation
23 p3669 A71-43168

Precipitation measurements in polar cap electron aurora, discussing neutral point entry, acceleration mechanisms, flux, pitch angle and magnetospheric models
23 p3669 A71-43169

Mars physicochemistry, discussing Wright effect (blue veil), atmosphere, polar cap migration, Phobos acceleration and relief inversion darkening
23 p3736 A71-43360

Mars telescopic observations, emphasizing south polar cap prominences around edge
24 p3872 A71-44999

POLAR COORDINATES

Numerical integration for continuously thrusting spacecraft optimal trajectory, considering rectangular Cartesian and polar cylindrical coordinates characteristics
07 p1191 A71-18891

Singularities in linear elliptic partial differential equations, considering Cartesian and cylindrical polar coordinate problems
15 p2440 A71-31348

Frequency response of nonlinear feedback control systems, using modified polar plot of open loop transfer function
20 p3208 A71-39914

Sturm-Liouville type nonlinear problems solution by Prufer polar coordinate technique, proving equivalency theorem for eigenvalues infinite sequence conversion
22 p3567 A71-42689

Theta /north-south/ component in spherical polar coordinates of interplanetary magnetic field from Explorer 33 and 35 measurements
23 p3734 A71-43155

Governing equations numerical integration for Venusian atmosphere circulation, calculating solar heating distribution in spherical polar coordinates
23 p3735 A71-43340

POLAR GASES

Exponential approximation of rotational relaxation of polar HCl and DCl at 300 and 500 K by molecular dynamics, comparing with perturbation calculations
15 p2451 A71-31673

POLAR IONOSPHERE BEACON

U BEACON SATELLITES

POLAR METEOROLOGY

Commercial aviation stratospheric water vapor injections influence on radiation budget, ozone, polar night cloudiness and potential climatic effects
08 p2186 A71-21822

Nighttime polar atmospheric structure and temperature variations due to gas kinetic and electron energy changes
19 p3056 A71-38361

Polar mesosphere internal gravity waves generation and propagation, using temperature and wind profiles from rocket granade method
20 p3221 A71-39693

Magnetosphere-ionosphere electric coupling for polar magnetic disturbances and auroral break-up origin, discussing thermal particles precipitation due to transient electric field
21 p3375 A71-41354

POLAR ORBITS

Gyroscopic precession effects in earth polar orbital satellite experiments for Einstein general relativity tests
02 p0312 A71-12369

Ionospheric electron mean content by polar satellites, using combination of Doppler differential and Faraday rotation hybrid methods
07 p1206 A71-19032

Meteorological satellites remote sensing advanced instruments and techniques, discussing retrograde polar and synchronous satellite orbits
08 p3666 A71-21744

German low attitude polar orbiting research satellite AZUR orbital characteristics and bearing on auroral zone substorm phenomena
12 p1899 A71-26833

Lunar exploration system based on modified earth-orbit space station in polar lunar orbit as remote sensor platform and lander deployment base
18 p2972 A71-36443

Dynamic derivation of surface layer representation of lunar gravitational field from Doppler observations on polar and equatorial lunar orbiters
21 p3449 A71-40643

Probe for circular polar Mercury orbit, obtaining missions values
22 p3600 A71-42010

POLAR REGIONS

NT ANTARCTIC REGIONS

NT ARCTIC REGIONS

Power spectra and cross spectra of surface pressure variations in polar regions compared to solar emission, noting Antarctic-Arctic relationship
01 p0119 A71-10741

Lyman alpha and O I 1304 A airglow depressions over poles from OGO 4 satellite observations
01 p0076 A71-11503

Polar magnetic substorms perturbation pattern westward motion related to ionospheric current lengthening

01 p0077 A71-11512

Soviet papers on polar ionosphere covering auroras, magnetic activity, ionospheric disturbances during solar activity, auroral radio wave absorption, etc

02 p0241 A71-11756

Visual, photographic and photoelectric observations of polar auroras and hydrogen emission at conjugate points

02 p0242 A71-11757

Diurnal variations of polar aurora-magnetic activities correlation at high latitudes

02 p0242 A71-11758

Nighttime polar aurora zone during IGY and IQSY related to magnetic activity

02 p0242 A71-11759

Regularities of polar auroras and ionospheric disturbances during solar cycle with decreased low energy corpuscular flux

02 p0242 A71-11760

Polar aurora pulsations of 4-12 sec intensity with associated cosmic radio noise absorption, using photometric measurements

02 p0242 A71-11761

Polar region semitransparent sporadic ionospheric layers nighttime temporal and cyclic ionization variations, determining solar activity effects and corpuscular stream densities by ionogram

02 p0243 A71-11767

Polar ionospheric auroral zone ionization, obtaining ion production function for single electron and proton flux

02 p0244 A71-11772

Atmospheric circulation and earth rotational energy contribution to energy release by intense polar auroras, noting ionospheric current subsonic heating and oxygen emission

02 p0244 A71-11909

Polar orbiting satellite observed transient plasma density enhancements relation to geomagnetic activity

03 p0417 A71-14042

Planet Mars polar and equatorial radii optical measurements comparison with radar and Mariner probes occultations results, determining optical ellipticity

03 p0493 A71-14200

Suprathermal electron flux and temperature in 5-200 eV range at high latitude with Explorer 31 potential analyzer

03 p0420 A71-14528

Ionospheric current system in polar E region, using earth surface equivalence model

04 p0584 A71-15547

Polar chorus background hiss generation, investigating VLF wave characteristics responsible for harder electron precipitation from magnetosphere

05 p0743 A71-17004

Average electron density profiles for quiet and disturbed topside ionosphere at high latitudes, tabulating profile numbers

05 p0743 A71-17005

Polar auroras emission bursts at 6300 and 5577 A, noting diurnal variation with electrophotometer

05 p0746 A71-17209

Solar polar magnetic field simultaneous measurements at Crimea and Mount Wilson from magnetographs

06 p0967 A71-17901

F layer absence and nonuniform horizontal electron concentration of nighttime ionosphere at high latitudes, using Alouette 1 sounding

06 p0894 A71-18258

Aurora polaris activity appearance frequency mean annual values cycle curves

07 p1101 A71-19411

Ring currents and polar magnetic substorms during intensive charged particle flux period in nighttime magnetosphere

07 p1101 A71-19414

Polar magnetic disturbances in electrojet, studying Hall conductivity, electric field behavior and auroral ionosphere ionization

07 p1101 A71-19415

Pc 3-4 period range geomagnetic micropulsations simultaneous recordings at Canadian stations spanning auroral and polar regions

07 p1102 A71-19665

High latitude E region plasma irregularities based on wind velocity shear fields

07 p1153 A71-19760

Polar E region equivalent current system, determining height direction and width

08 p1279 A71-21209

Polar substorms electric current systems and magnetic effect below and above ionosphere

08 p1279 A71-21211

Ionospheric radio wave absorption above polar aurora during solar activity minimum, discussing diurnal and annual behavior

09 p1435 A71-22429

Polar ionosphere ion composition measurement by meteorological rocket-borne RF mass spectrometer

09 p1435 A71-22444

High latitude magnetosphere structure, using two dipole model

09 p1437 A71-22665

French Geole spatial system utilization in polar zones, combining satellite with ground beacons, telemetry ground receiving station and computer

10 p1599 A71-23860

Scintillation effects on synchronous satellite signal fading observed through polar ionosphere

10 p1577 A71-24315

Collisionless ion exosphere kinetic and hydrodynamic models comparison for polar wind supersonic flow characteristics

10 p1605 A71-24796

Polar substorm energy from auroral region size and brightness photographic observations, discussing total flux dependence on magnetic field disturbance intensity

10 p1606 A71-24917

DP 2 fluctuations and polar substorm activity morphological distinctions, using worldwide magnetograms

11 p1753 A71-25545

A type red aurora in polar region accompanied by sporadic F 2 layer

11 p1754 A71-25608

High latitude F region electron density irregularity measurements, using rocket-borne impedance probe

11 p1755 A71-25617

Polar H ion plasma escape from ionosphere into magnetospheric tail effect on plasmopause formation, using hydrodynamic approximation

11 p1756 A71-25756

Latitudinal profiles of geomagnetic H and Z components due to return current of auroral zone electrojet during polar substorms

11 p1756 A71-25757

Atmospheric circulation and earth rotational energy contribution to energy release by intense polar auroras, noting ionospheric current subsonic heating and oxygen emission

13 p2058 A71-28196

Polar auroras emission bursts at 6300 and 5577 A, noting diurnal variation with electrophotometer

13 p2060 A71-28264

Polar magnetic disturbances, discussing correlation with interplanetary magnetic field and interaction effects between solar wind and magnetosphere

14 p2231 A71-29907

Polar ionosphere and magnetospheric processes - Conference, Kjeller, Norway, April 1969

14 p2299 A71-30027

High latitude measurements of low energy electron precipitation by Auroral 1 satellite, explaining anomalous high level F region ionization near dark pole

14 p2299 A71-30031

High latitude regions of low energy electron precipitation from OGO 4 satellite auroral particle experiment

14 p2300 A71-30032

LF whistler mode radio noise emissions observations in polar regions with Alouette 2, noting association with energetic particles influx into ionosphere

14 p2300 A71-30036

Suprathermal electron temperature and ion composition as function of geomagnetic latitude in polar ionosphere, using Explorer 31 mass spectrometer measurements

14 p2234 A71-30037

Physical processes and variations in polar F region, discussing solar photoionization, particle ionization, thermal expansion, electric fields, neutral air winds, ion drag, etc

14 p2234 A71-30038

Polar ionospheric plasma transport, predicting ion density profiles from ionospheric processes models consistent with polar wind theory

14 p2234 A71-30039

Supersonic plasma flow effects on neutral hydrogen, helium and charged particle density and velocity profiles in polar ionosphere

14 p2234 A71-30040

Upper F region transpolar plasma distribution from Alouette 1 data, relating results to satellite measurements of magnetospheric low energy charged particles

14 p2234 A71-30041

High latitude upper ionospheric structures and plasma flow in magnetosphere from Alouette/ISIS topside sounders, noting solar UV and particle ionization sources

14 p2234 A71-30042

Diurnal variations of electron number density against height in lower ionosphere over Resolute Bay, relating to solar proton events

14 p2300 A71-30044

Night sky optical emissions morphology and behavior in polar regions with emphasis on polar caps

14 p2234 A71-30045

Electron flux rigidities in polar aurora region, using stratospheric nighttime X ray and cosmic radio noise absorption measurements

14 p2302 A71-30595

Magnetometer network operation during IQSY, establishing Sq variations in polar regions on quiet days and nature of geomagnetic disturbances

15 p2396 A71-31607

Topside ionosphere structure in high latitudes, discussing electron density profile, corpuscular radiation ionizing effects, polar peak and trough

15 p2400 A71-32349

Proton measurements in ring current by OGO-3 satellite compared with geomagnetic field data at low and high latitudes

16 p2626 A71-33663

Upper atmosphere heating at high latitudes, analyzing air density variations from Molniya 1K satellite observations over 2 year period

16 p2565 A71-33740

Northern high latitude electron trapping boundary position diurnal, seasonal and geomagnetic Kp variations based on ESRO 1/Aurora polar satellite observations

16 p2627 A71-33753

Mass spectroscopy of upper atmosphere neutral composition at equatorial, middle and polar latitudes from meteorological rockets

16 p2566 A71-33758

Electron and proton precipitation, studying effects at high latitudes on 2 February 1969 magnetic storm

16 p2627 A71-33795

Neutral atmosphere density profile data from satellite-borne accelerometer experiment, observing gravity waves propagating in north-south direction at high latitudes

16 p2570 A71-33825

Mode conversion and auroral effects observations on polar VLF propagation path, noting seasonal and solar cycle variations

17 p2731 A71-34319

High latitude sudden impulses, calculating transverse hydromagnetic waves propagation from magnetosphere equatorial plane

17 p2733 A71-34777

German monograph on determination of instantaneous position of polar electrojet for rocket launching parameters computation

18 p2911 A71-35920

German monograph on three component magnetometer for position determination of polar electrojet by sounding rocket

18 p2915 A71-35921

Plasma in dayside polar magnetosphere, analyzing Imp 5 and other earth satellites measurements data

19 p3047 A71-37357

Aurora Polaris activity appearance frequency mean annual values cycle curves

19 p3054 A71-37835

Ring currents and polar magnetic substorms during intensive charged particle flux period in nighttime magnetosphere

19 p3054 A71-37838

Polar magnetic disturbances in electrojet, studying Hall conductivity, electric field behavior and auroral ionosphere ionization

19 p3054 A71-37839

Magnetic perturbations in near polar region and morning-night sectors of auroral oval as function of current sources and modulation by universal time

19 p3059 A71-38397

German monograph on electron flux properties in polar atmosphere, discussing pitch angle distribution, energy spectrum and relation to geomagnetic field disturbances

19 p3130 A71-38646

Venusian polar tropopause and cloud layer from IR spectral recording in carbon dioxide band near inferior conjunction for crescent regions

20 p3290 A71-39306

Circadian rhythms of human renal excretions in polar, temperate and equatorial regions

20 p3190 A71-39477

Elemental abundance ratio patterns in microscopic spherules collected from atmosphere and polar snows, comparing to terrestrial and lunar rocks

20 p3298 A71-39638

Low energy electron and proton precipitation pattern in northern polar region, using low orbit satellite-borne spectrometer

20 p3281 A71-39728

High latitude VLF radio emissions rate of occurrence at all magnetic times, noting diurnal variations

20 p3198 A71-39745

Low energy auroral particle measurements from polar satellites, obtaining electron and proton precipitations location, and angular and energy distributions

20 p3228 A71-39847

Radio and optical aurora correlation and control by polar electrojet, using VHF backscatter and geomagnetic recordings

20 p3229 A71-39853

Auroral ELF and VLF emission at high latitudes, discussing chorus and hiss generation regions and noise mechanism

20 p3229 A71-39854

- Infrasonic waves correlation to supersonic auroral motions and polar electrojet during substorm periods
20 p3229 A71-39859
- Polar ionospheric ion density enhancement correlation to low energy electron precipitation from observations by polar satellite
20 p3231 A71-39888
- Broadband electrostatic VLF wave observation in polar magnetosphere by OV3-3 satellite, noting emission power spectra density relationship to frequency
20 p3199 A71-39889
- VLF ion wave instabilities in polar wind based on plasma kinetic theory, comparing with electrostatic wave observation by OV3-3 satellite
20 p3231 A71-39890
- Height variations of Venusian cloud tops at planet equatorial and polar regions
21 p3449 A71-40608
- High latitude auroral particle precipitation patterns and connections to plasma sheet, ring current, cusp and radiation belt sources, using rocket and satellite observations
21 p3439 A71-41179
- Seasonal variations in vertical distribution of ozone at high latitudes, using Murgatroyd model of looped meridional atmospheric circulation
21 p3375 A71-41395
- Interplanetary magnetic sector polarity effects on polar geomagnetic field diurnal variation
22 p3604 A71-42221
- OGO 5 polar cusp observations showing dayside magnetosheath plasma penetration during magnetic storm
23 p3668 A71-43162
- Comparative north and south polar F layer electron density dependence on universal time and latitude, using ionosonde data
23 p3669 A71-43172
- Periodic and isolated /nonperiodic/ ionospheric electron content fluctuations showing noon and midnight peaks and winter increase at high latitudes
23 p3670 A71-43180
- Geophysical data analysis for high latitude negative geomagnetic disturbances revealing geomagnetic pulsations during auroral arcs passage
24 p3823 A71-45037
- POLAR SUBSTORMS**
- Auroral zone X ray events due to electron precipitation, considering relationship to polar magnetic substorms
13 p2119 A71-27797
- Temporal and spatial relations between impulsive Pi bursts near midnight at polar substorms onset and IPDP micropulsation events in afternoon-evening hours
16 p2573 A71-33952
- Large scale traveling ionospheric disturbances at midlatitudes related to polar substorms on statistical basis
16 p2573 A71-33955
- Polar substorms relation to interplanetary magnetic field from IMP 3 satellite magnetic measurements
19 p3132 A71-37396
- Ionospheric model for magnetic perturbation field global distribution during polar magnetic substorm, considering ground level geomagnetic effects from Birkeland and Pedersen currents
20 p3229 A71-39857
- Noon-midnight high latitude proton trapping and precipitation boundary variations associated with polar magnetic substorms observed by ESRO IA satellite
23 p3719 A71-43127
- IGY interplanetary field independent storm sudden commencement triggered magnetospheric polar substorms, indicating sympathetic flare analogy
23 p3668 A71-43164
- Polar electrojet development during polar magnetic substorms, considering current intensification at northern and/or southern borders
23 p3668 A71-43167
- Magnetotail magnetic fluctuation observation during polar magnetic substorms, noting localized character
23 p3669 A71-43178
- Vela 4A and 4B satellite observation of impulsive energetic electron fluxes in distant magnetotail associated with magnetospheric polar substorms
23 p3670 A71-43184
- Geomagnetic bay-like disturbances formation and decay during multiple midlatitude 6300 Å auroral arc after magnetic storm, observing time variation of current system pattern
23 p3672 A71-43981
- POLARIMETERS**
- Artificial Ba clouds resonance radiation, measuring polarization with photoelectric polarimeter
01 p0075 A71-11333
- Automated precision polarimeter for HF-VHF range
04 p0586 A71-14654
- Flare star light polarization parameters measurement, describing polarimeter design
15 p2487 A71-32036

- Homologous solar microwave bursts from different active centers recorded with 7 GHz polarimeter
18 p2957 A71-35964
- Taurus X-1 X ray emission polarization from rocket-borne polarimeter measurements, utilizing incoherent scattering
20 p3302 A71-39921
- Polarimeter for simultaneous determination of Stokes parameters, analyzing electric signal in frequency and phase
22 p3537 A71-41474
- POLARIMETRY**
- Linearly polarized light measurements of solar spectral lines Zeeman effects, describing calibration method based on Fraunhofer lines broadening due to magnetic fields
04 p0642 A71-14903
- Lunar surface polarimetric properties, discussing invariance of polarization curves
06 p0969 A71-17968
- Low elevation polarimetric recordings of 136.44 MHz transmission from Early Bird geostationary satellite
07 p1206 A71-19022
- Soviet lunar surface rocks physical properties ground observation including colorimetry, spectrophotometry and polarimetry
07 p1193 A71-19311
- Polarimetric measurements of solar X-ray flares by Intercoms 1 satellite
08 p1354 A71-21013
- Lunar surface polarimetric properties, discussing grain size effect on normal albedo and polarization maximum degree
10 p1674 A71-24436
- Mars UV polarization and atmospheric opacity measurements, using ground based polarimetric data at near maximum elongation
11 p1825 A71-25709
- Mars atmosphere optical thickness by polarimetric /ground and spacecraft/ observations, considering light areas roughness /smoothness/ factor variation with wavelength
12 p1964 A71-27086
- Venus polarimetric observational data comparison with polarization characteristics of radiation scattered at gamma-distribution particle sizes, determining refractivity and particle radius
12 p1964 A71-27088
- Jupiter circularly polarized visible light measurements, using photoelastic polarimeter
14 p2306 A71-29729
- Saturn polarimetric observation, noting rings polarization Stokes parameters, methane absorption bands and continuous spectrum
15 p2482 A71-31336
- Soviet lunar surface rocks physical properties ground observation including colorimetry, spectrophotometry and polarimetry
15 p2485 A71-31891
- Star EV Lac polarimetric observations during flare, using Cassegrainian reflector
15 p2487 A71-32031
- Polarimetric observations of Venus during 1969 inferior conjunction, showing no evident halo effect due to hexagonal ice crystals
15 p2491 A71-32424
- Lunar surface anomalous brightness during 26 March 1970 photometric and polarimetric observations, discussing possible correlation to solar activity
17 p2797 A71-34183
- Mars atmosphere optical thickness by polarimetric /ground and spacecraft/ observations, considering light areas roughness /smoothness/ factor variation with wavelength
19 p3133 A71-37436
- Venus polarimetric observational data comparison with polarization characteristics of radiation scattered at gamma-distribution particle sizes, determining refractivity and particle radius
19 p3133 A71-37438
- Polarimetric measurements of solar X-ray flares by Intercoms 1 satellite
20 p3280 A71-39593
- Pulse, nebula and wisp component in photometric and polarimetric observations of Crab pulsar
20 p3303 A71-39932
- Comet Bennett 1969i nucleus light polarimetric observations, noting vibration direction
21 p3440 A71-40060
- Astronomical polarimetry at 5 and 10 microns for intensity measurements of IR sources
22 p3545 A71-42147
- Saturn polarimetric observation, noting rings polarization, Stokes parameters, methane absorption bands and continuous spectrum
22 p3606 A71-42611
- POLARISCOPES**
- Biaxial crystals utilization in polarized interferometers, noting Wollaston prisms useful beam aperture and Savart polariscopes streak linearity domain
07 p1109 A71-19453

- Photoelastic stress analysis, examining light transformations in plane and circular polariscopes by light ellipse method
14 p2323 A71-29848
- Dynamic polariscopes for birefringent materials stress wave low cost analysis
18 p2923 A71-36611
- POLARITY**
- Solar magnetic field polarity mapping from H-alpha filtergrams, using magnetic configurations in flare location and time forecasting
02 p0316 A71-12696
- Photospheric and interplanetary magnetic field polarity and magnitude comparison, using Explorer observations
05 p0802 A71-16012
- Polarity pattern of interplanetary magnetic field near solar maximum, using poloidal model
05 p0803 A71-16017
- Electric currents in undisturbed magnetospheric tail, discussing interplanetary magnetic field polarity effect and neutral sheet characteristics
08 p1280 A71-21214
- Related solar active regions during 14 January-1 June 1969, associating largest flares with inverted polarity
22 p3597 A71-41460
- Interplanetary magnetic sector polarity effects on polar geomagnetic field diurnal variation
22 p3604 A71-42221
- POLARIZATION [CHARGE SEPARATION]**
- NT DIELECTRIC POLARIZATION**
- NT ELECTROLYTIC POLARIZATION**
- Polarization influence on transition effect behavior in avalanche transition between media, discussing critical energies
03 p0478 A71-13869
- Spontaneous polarization measurement of ferroelectric Rochelle salt near Curie point, using nuclear magnetic resonance for phase transitions
04 p0637 A71-15548
- Potentiokinetic study of anodic polarization in maraging Fe alloys, considering relationship to structural transformations during tempering
05 p0765 A71-16200
- Al electrodes in molten salt electrolytes, investigating electrochemical kinetics by polarization measurements
08 p1250 A71-21470
- Electrochemical polarization effects on Ni single crystals mechanical behavior under tensile deformation
08 p1310 A71-21539
- Reaction dynamics for CO ion plus deuterium to yield COD ion plus D, noting polarization forces role
09 p1497 A71-22702
- Ionospheric drift mechanism in midlatitude F region, discussing ground level magnetic field, E region side effects, horizontal winds and polarization fields
11 p1753 A71-25550
- Neutral winds produced vertical ion drift toward electric polarization in equatorial F region, discussing field discharge through E region and atmospheric superrotation effects
12 p1900 A71-26890
- Ionospheric currents due to electric polarization field transfer from magnetosphere under quiet and disturbed conditions, using Ba ion cloud and geomagnetic measurements
14 p2230 A71-29715
- Charge generating mechanism based on charge separation from falling precipitation particles effect on thunderstorm electrification
14 p2269 A71-29951
- Na and K transition oscillator strengths, noting core polarization effects on mathematical model
16 p2615 A71-34088
- Signal waves amplifier in medium of high nonlinear electric polarization, considering reflected waves effect on amplification
16 p2544 A71-34131
- Moving plasma beam capture by transverse magnetic field due to polarization space charges electrostatic separation
17 p2786 A71-34280
- Plasma beams injection into toroidal magnetic field along gradient or radius, using polarizational interaction
17 p2786 A71-34281
- Composite piezoelectric transducer subjected to current flow in semiconducting boundary layer under polarization gradient, determining mechanical response by Laplace transform
17 p2739 A71-34669
- Crevice effect at stress corrosion crack apex during cathodic polarization of Ti-Al-Mo-V alloy in sulfuric acid, potassium bromide and iodide and methanol solutions
17 p2761 A71-35733
- Electric charge generation in storm clouds, considering water droplets, ice crystals and air movements role in precipitation and charge separation mechanism
20 p3256 A71-39071

Potassium photoionization cross section, including spin-orbit interaction, orientation of photoejected electrons and dipole transition moment correction due to core polarization

21 p3417 A71-40197

Polarization influence on transition effect behavior in avalanche transition between media, discussing critical energies

22 p3595 A71-42670

POLARIZATION (SPIN ALIGNMENT)

Excess Knight shift due to spin polarization in electron gas by magnetic impurity Fermi contact coupling as function of distance from nucleus

11 p1801 A71-25373

Optical pumping and detection of spin polarized electrons created in p-type GaSb conduction band by excitation with light

17 p2791 A71-35583

Polarization measurement of cosmic ray muons at sea level as function of energy and zenith angle

19 p3124 A71-37284

Soft galactic X rays role in interstellar grains alignment, taking into account interstellar absorption

19 p3124 A71-37336

POLARIZATION (WAVES)

NT CIRCULAR POLARIZATION

NT ELLIPTICAL POLARIZATION

Moving type IV solar bursts polarization and rapid fadeout, discussing relativistic electrons synchrotron radiation intensity

01 p0152 A71-10331

Classification of electromagnetic wave scattering fluctuating objects from statistical scattering matrices, obtaining incident wave polarization

01 p0038 A71-11208

Diffraction properties of three dimensional asymmetric gratings for reflected and transmitted E-polarized waves

01 p0038 A71-11215

Artificial Ba clouds resonance radiation, measuring polarization with photoelectric polarimeter

01 p0075 A71-11333

Polarization and sky radiance data before, during and after 7 March 1970 solar eclipse

03 p0425 A71-13688

Polarization control of emission from cross-shaped slots on square and circular waveguide walls via phase and amplitude adjustment

03 p0386 A71-13809

Reflected electromagnetic wave polarization parameters, obtaining correlation functions for radar echoes

04 p0557 A71-14632

High red shift quasars linear polarization, examining absorption lines and depolarization due to Faraday rotation

04 p0649 A71-15272

Crab Nebula pulsar pulses polarization using polarimeter feed in Mark I telescope comparison to analysis by integration and photographic recording

04 p0649 A71-15274

Solar corona isophotes ellipticity and equal polarization curves during 7 March 1970 eclipse, using isodensitometric and polarimetric techniques

04 p0651 A71-15666

Plane wave diffraction by double grating of thin circular cylinders, determining field polarization in directions parallel and perpendicular to axis

05 p0718 A71-15995

Angular distribution and polarization of solar X-ray bremsstrahlung, taking into account magnetic field effects

05 p0000 A71-16032

Radar echo signal amplitude probability distribution during fully polarizational reception

05 p0723 A71-16873

Radio wave ionospheric heating effect on absorption of probing waves of different polarization

06 p0888 A71-17289

Pulsar MP 0628 meter wave radiation, noting linear polarization and frequency dependence of pulse rate

06 p0965 A71-17387

High power light beams attenuator usable as polarizing and depolarizing device, describing design for efficiency and elimination of beam shifting

06 p0908 A71-18081

Polarization splitting of EW and NS Alfvén oscillations in axisymmetric magnetosphere

06 p0894 A71-18269

Galactic magnetic field observation, investigating cluster polarization, Zeeman effect, pulsar rotation and signal dispersion, interstellar cloud elongation and models

06 p0972 A71-18331

Pulkovo observatory six channel two slit single photomultiplier rotating photographic plate magnetograph, for solar spectra polarization and radial velocities observation

07 p1109 A71-19337

Geomagnetic quiet field and terrestrial currents diurnal variations, discussing interrelations and vector polarization

07 p1104 A71-20047

UBV colors and polarization models for reflection nebulae based on Mie scattering functions for exponential size distribution of silicate particles

09 p1517 A71-22332

Gravitational field effect on phase difference of moving waves and polarization in rotating ring laser

09 p1462 A71-22398

Average radar backscattering cross section calculation for conducting obstacles for arbitrary transmitter and receiver antenna polarizations, obtaining results for straight wires, circular loops and helices

09 p1410 A71-23516

MHD wave propagation in magnetoplasma perturbed by LF magnetoacoustic waves, considering wave scattering and polarization

09 p1505 A71-23566

Crab Nebula pulsar magnetic field structure, discussing linear polarization modifications and wisps

10 p1668 A71-23870

Polarization distortion of partially polarized wave emission and reception by two channel horn antennas, noting radio astronomy, radar and optics applications

10 p1584 A71-24876

Mars UV polarization and atmospheric opacity measurements, using ground based polarimetric data at near maximum elongation

11 p1825 A71-25709

Longitudinal magnetic field effect on output power, polarization and lasing frequency of He-Ne laser operating at 0.63 micron wavelength

11 p1774 A71-26003

Book on phenomenological theory of radar targets covering wave polarization and antennas, single, statistical independent and distributed targets, decomposition theorems and surface scattering

12 p1877 A71-26568

Time dependent variation of IR polarization of eta Carinae and VY Canis Majoris with separation of interstellar scattering by associated nebula

12 p1956 A71-26611

Interstellar dust, investigating starlight reddening by extinction, galactic light, IR star observations and polarization

12 p1959 A71-26775

E- and H-polarized waves diffraction on three antenna arrays crossing at arbitrary angles

12 p1882 A71-27615

Polarization behavior of radio waves propagating through magnetoionic medium near and across transversal point of magnetic field

13 p2028 A71-27997

Inverted combination light scattering in liquid and solid crystals, showing polarization effects on absorption coefficient

13 p2101 A71-29020

Normal albedo and polarization maximum degree wavelength dependence from terrestrial volcanic pulverized samples

14 p2305 A71-29677

Pulsar MP 0628 meter wave radiation, noting linear polarization and frequency dependence of pulse rate

14 p2310 A71-30166

Oscillations in second cavity of ammonia maser containing two resonators successively traversed by molecular beam, studying polarization and radioelectric emission

14 p2254 A71-30440

Transmission loss measurements at HF over 960 km temperate latitude path for wave polarization calculations and ionospheric absorption estimation

14 p2196 A71-30468

Antenna and radome constructions/shape effects on minimizing cross polarization produced by flat, cylindrical, conical and paraboloidal randoms in linear and circular beams

14 p2216 A71-31039

Coaxial plasma beam polarization interaction in toroidal magnetic field with diverter, showing axial stream trapping in hollow plasma cylinder

15 p2453 A71-31244

Telemetry polarization diversity combiners for data dropout elimination, considering input signal characteristics and propagation

15 p2370 A71-31642

Mu, VV, ST and RW Cephei cold supergiants polarization data, noting spectral dependence

15 p2487 A71-32030

Laser light pulses in anisotropic crystal, investigating nonlinear thermal rotation of polarization plane

16 p2587 A71-33570

Faraday rotation of satellite signals across transverse region, considering sudden jumps at transverse point in lower and topside ionosphere

16 p2544 A71-33959

Classification reliability of electromagnetic wave scattering fluctuating objects from statistical scattering matrices, obtaining incident wave polarization

17 p2698 A71-34260

Measuring apparatus for envelope distortion of transmitted high-energy transversely polarized pulses through ionizable or partially ionized gas

18 p2952 A71-36589

Polarization direction finder determining electromagnetic waves azimuth on basis of field intensity vectors

19 p3014 A71-37074

VLF wave excitation, noting ratios between vertically and horizontally polarized sources

19 p3024 A71-38613

Flow patterns on Poincare sphere as aid to qualitative study of polarization and intensity of quasi-stationary laser mode in anisotropic resonator

20 p3243 A71-39095

Electro-optic mode locking of dual polarization carbon dioxide laser using intracavity birefringence modulation

20 p3244 A71-39096

Polarization flip with hysteresis effect at zero magnetic field in CW far IR HCN laser

20 p3244 A71-39098

Linear polarization of pulsar PSR 22 18 plus 47 radio emission pulses, attributing periodic fine structure of spectrum to rotation of polarization plane in interstellar medium

20 p3291 A71-39316

Structure and polarization differences of strong pulses from pulsar NP 0532, showing discontinuous frequency spectrum

20 p3302 A71-39926

Polarization characteristics of pulsars, considering angular position changes due to interstellar magnetic field using Faraday rotation measurements

20 p3303 A71-39935

Limiting polarization of radio waves emerging obliquely from ionosphere into free space, describing numerical integration method and boundary conditions

21 p3348 A71-40525

UK 5 spacecraft experiments in X ray astronomy, investigating spatial distribution and energy spectra of emissions in space, polarization and pulsar periodicities

22 p3610 A71-42015

Reflected electromagnetic wave polarization parameters, obtaining correlation functions for radar echoes

22 p3510 A71-42272

Wave polarization and midpath ground reflection effects on power loss of two hop radio signal propagation through ionosphere

22 p3511 A71-42280

Plane wave diffraction by double grating of thin circular cylinders, determining field polarization in directions parallel and perpendicular to axis

22 p3515 A71-42744

Polarized solar radio emission at millimeter wavelength in active regions associated with sunspot magnetic fields

23 p3733 A71-43125

Pulsar radio pulse shape and structure, discussing pulse widths and polarization angle change

23 p3769 A71-43989

Transmission coefficient calculations for infinite grating of conducting circular cylinders, considering parallel and perpendicular polarizations

23 p3655 A71-44170

Plane electromagnetic wave diffraction on dense periodic array at conducting screen, showing far field asymptotic behavior for E and H polarization

23 p3647 A71-44331

POLARIZATION CHARACTERISTICS

Kamchatka volcanic mantles and lunar surface radiation polarization characteristics similarities

01 p0149 A71-10049

Ap-type magnetic stars wavelength dependent polarization, discussing polarimetric observations in different spectrum regions

01 p0153 A71-10355

Polarization structure of paraboloid mirror antennas circular emission by geometrical diffraction theory of spherical edge waves

01 p0056 A71-11204

Stationary waves produced by earth bow shock, calculating cyclotron radiation amplitude and polarization characteristics by thin current sheet model

01 p0075 A71-11490

Modified Fesenkov method for calculating Stokes polarization parameters applied to elliptical polarization observations of nebulae

02 p0251 A71-12361

Precision measurement of satellite microwave flux and polarization at ground, involving Skyenet tests

02 p0218 A71-12444

Antenna array radar reflector for simulating objects with given polarization characteristics during radar equipment tuning and calibrating

02 p0233 A71-12634

Polarization characteristics of dual rod ruby laser emission, determining phase coincidence and energy output

03 p0434 A71-13503

Single mode polarization in simple gas laser for long path difference Michelson interferometry

03 p0436 A71-13653

Oppositely polarized maximal magnetic field strengths in sunspot regions during proton flares

03 p0478 A71-13937

Polarization of spontaneous emission in Zn-doped GaAs p-n junctions as function of electric field strength 03 p0467 A71-13985

Zodiacal light theoretical models, considering interplanetary particles optics, Mie theory and multicolor polarization 03 p0491 A71-14011

Vestibular sensory epithelial cells form and organization, discussing morphological polarization 04 p0536 A71-14760

Electrical polarization of vacuum around rotating magnetic Newtonian star, evaluating electrostatic potential 04 p0643 A71-14912

Average radar cross section relative values for echoes from rain, considering horizontal, vertical and circular polarization in various sea states 04 p0551 A71-15008

Mars and Mercury polarization measurements, investigating Rayleigh scattering in atmospheres 05 p0806 A71-16204

Carbon dioxide laser gyro with cavity configuration for polarization isotropy and enhanced competition effects, considering high gain and mechanical imperfection tolerance 05 p0761 A71-16272

Pc 1 micropulsation source region relation to plasmopause, using amplitude and polarization measurements 06 p0964 A71-17263

Lunar surface polarimetric properties, discussing invariance of polarization curves 06 p0969 A71-17968

Diurnal variations in polarization axis direction of Pc 1 pulsations 06 p0895 A71-18282

Pulverized volcanogenic products and chemicals polarizing properties determination, applying to lunar surface layer 07 p1107 A71-19201

Magnetic hologram reconstruction process, discussing diffracted field, polarization properties and efficiency [IEEE PAPER 8.2] 07 p1112 A71-19610

Electron and proton whistlers polarization reversal and mode coupling, explaining magnetic latitude dependence 07 p1062 A71-19667

Radiation transport equations for stellar atmosphere model with variable depth magnetic field, considering absorption line formation and polarization characteristics 07 p1205 A71-20637

Kamchatka volcanic mantles and lunar surface radiation polarization characteristics similarities 08 p1361 A71-21043

Fluoride overcoated Al reflectance measurements and polarization effects at various angles of incidence, noting utilization in vacuum UV instrumentation 08 p1335 A71-21381

Statistical analysis of center-limb variations of intensity, spectrum and polarization of solar microwave impulsive bursts 08 p1364 A71-21419

Polarization characteristics of 42 MHz oblique backscatter from breakup auroras 08 p1272 A71-21639

Magnetic recording device for defect field recording by ferromagnetic tape polarization 08 p1273 A71-21900

Polarization of LF oscillation branch of uniaxial ferrites in noncollinear phases analyzed by four column matrix, considering magnetic moments terminal points 09 p1507 A71-22291

Statistical properties of radio communication system polarization reception coefficient as function of receiving antenna and signal polarization characteristics 09 p1405 A71-22294

Ring laser active medium polarization characteristics in strong field, taking into account spatial modulation of population 09 p1461 A71-22365

Polarization of short period oscillations Pc2-Pc4 dependence on time of day, oscillation type and geoelectromagnetic field activity 09 p1436 A71-22449

Far field diffraction pattern of corner reflector for normally incident monochromatic light, considering polarization characteristics 10 p1640 A71-23947

Lunar surface electromagnetic sounding, presenting analysis of radiation fields and polarization characteristics for magnetic dipole situated on layered half space 10 p1576 A71-24054

Single-mode He-Ne laser, investigating longitudinal magnetic field effect on output amplitude, frequency and polarization characteristics 10 p1620 A71-24343

Lunar surface polarimetric properties, discussing grain size effect on normal albedo and polarization maximum degree 10 p1674 A71-24436

Diffuse interstellar bands polarization and extinction based on silicate and graphite grain composition and sizes 10 p1675 A71-24469

IR polarization of Venus, providing Venus atmosphere effective particle size estimate 10 p1675 A71-24489

Photoelastic materials polarization characteristics analysis using Muller matrix method 12 p1976 A71-27115

Geomagnetic effects on radio signals mechanism in extensive air showers, discussing scintillators array for east-west to north-south ratio polarization measurements 12 p1967 A71-27390

Solar type 3 radio bursts polarization measurement by recording and subsequent digital processing 12 p1969 A71-27653

Solar corona high radial and tangential polarization during 7 March 1970 eclipse from photographs with neutral density filter and rotating linear polaroid sectors 12 p1970 A71-27705

Radiation intensity spatial dependence on laser polarization, giving three dimensional model for wave function phase calculation 13 p2077 A71-28046

Extensive air showers radio wave emission based on cascade theory, determining polarization characteristics 13 p2127 A71-28103

Pi2 geomagnetic micropulsation polarization characteristics, using photoelectric fluxmeters 13 p2060 A71-28268

Cylindrical waveguide with three differential phase shift sections, deriving microwave output magnitude and polarization for comparison with ferrite experiment 13 p2037 A71-28604

Quasars circular polarization measurements at 21 cm, noting synchrotron self absorption 14 p2307 A71-29867

Microwave oscillations small phase difference variation measurement, using polarization effects 14 p2196 A71-30636

Electron gyro and synchrotron radiation from vacuum and isotropic plasma, deriving approximate general formula for power spectrum and polarization 14 p2282 A71-30661

Hydrogen plasma transport in linear magnetic quadrupole field, studying polarization potential and density distribution 14 p2282 A71-30669

Harmonic type 3 solar bursts radioheliographic observations, discussing polarization characteristics 15 p2473 A71-31691

Long period quasi-monochromatic geomagnetic micropulsations amplitude spectra and polarization as function of geomagnetic latitude 15 p2397 A71-31760

Flare star light polarization parameters measurement, describing polarimeter design 15 p2487 A71-32036

Solar corona photometric intensity and polarization measurements during 1970 solar eclipse 16 p2580 A71-33819

Polarization structure of parabolic reflector antennas circular radiation by geometrical diffraction theory of spherical edge waves 17 p2697 A71-34256

Free-free bremsstrahlung emission in anisotropic hot electron plasma in magnetic mirror, measuring polarization by Compton scattering 17 p2788 A71-34853

Pulsar polarization characteristics and pulse profile observations in 250-450 MHz range 17 p2807 A71-35417

Inhomogeneous synchrotron source model calculation for correlation between linear and circular polarization, comparing with quasars observation 18 p2963 A71-36157

Telescopic phase retardation effect on polarization in Zeeman split Fraunhofer line, discussing consequence for solar magnetic field determination 18 p2965 A71-36732

Polarization characteristics of solar coude telescope and Littrow spectrograph at Okayama Astrophysical Laboratory 19 p3062 A71-37241

Brightness and polarization of solar corona at total eclipse on 12 November 1966 from polarographic observations 19 p3131 A71-37243

Neodymium-glass lasers active elements thermal-stress-induced birefringence effects on energetic and polarization characteristics 19 p3072 A71-37767

Comet Bennett 1969 head and tail polarization distribution data, using triple astrophotograph 19 p3145 A71-38524

Broadband antenna twist reflector with wire grids, deriving design formulas and theoretical performance in terms of polarization attenuation 19 p3036 A71-38606

Atomic level interference and hyperfine splitting effects on angular and polarization distributions of resonantly scattered light in magnetic field 21 p3420 A71-41120

Polarization and pulse profiles of pulsars at 410 and 1665 MHz, indicating radiation originating close to star surface 21 p3453 A71-41244

Broadband helical antenna feeds for millimeter wave parabolic reflectors and lenses, determining beamwidths and polarizations as functions of helix parameters and frequency 21 p3359 A71-41408

Photoelectric polarization curve, reflectivity and absolute diameter of Vesta, comparing with Lyot curve 22 p3602 A71-42177

Linearly and circularly polarized electromagnetic field effective scattering surfaces relationships determination as value proportional to reflected and transmitted rms flux density ratio 23 p3644 A71-43285

Polarization characteristics, albedos and optical properties of Apollo 11 and 12 rocks, investigating wavelength dependence and proton irradiation effect 23 p3761 A71-43779

Type 3 solar radio bursts polarization characteristics distribution, determining Faraday rotation dispersion effect by trial and error technique 23 p3768 A71-43850

Mode changing in pulsar radiation, observing intensity profiles and polarization characteristics 23 p3769 A71-43995

Log spiral antenna with selectable polarization, showing electric field radiation patterns 23 p3654 A71-44165

Polarization transforming feed horns for rapid scan X-band radar antenna, allowing transmission in various polarization modes and parallel and orthogonal polarized return reception 23 p3655 A71-44167

POLARIZATION CHARTS

U GRAPHS [CHARTS]

U POLARIZATION [WAVES]

POLARIZED ELECTROMAGNETIC RADIATION

NT POLARIZED LIGHT

NT SYNCHROTRON RADIATION

High luminosity red variable star radiation, examining degrees of intrinsic polarization 01 p0150 A71-10056

Oblique reflection of horizontally and vertically polarized electromagnetic waves from isotropic media with limiting Epstein stratifications 01 p0031 A71-10775

Short wave signal polarization fading minimization by dispersed reception of circularly polarized components, discussing power gain relation to antenna configuration 02 p0219 A71-12543

Spatial distribution and polarization of radio emission from extensive air showers, using Geiger and scintillation counters, muon detectors and antennae 03 p0477 A71-13865

Field of determinate signal with normal noise, considering representation as superposition of two circularly polarized components of directly opposite rotation 05 p0719 A71-16010

Solar disk computed continuum and estimated line polarizations compared to BCA photosphere values, discussing metal abundances 05 p0803 A71-16019

Pulsar 150 MHz radiation linear polarization measurements, correlating interstellar Faraday rotation with determinations from neighboring extragalactic radio sources 06 p0971 A71-18242

Linearly polarized CW signal transmission through near solar corona, measuring Faraday rotation 07 p1191 A71-19030

Polarization of thunderstorm IF electromagnetic noise, taking into account earth electrical conductivity under detector 07 p1063 A71-19758

Obliquely incident p-polarized plane electromagnetic wave interaction with hot plasma half space, using linearized relativistic Vlasov equation and Laplace transform technique 07 p1171 A71-20292

Functional method application to ultrarelativistic particles in external fields quantum electrodynamics, discussing electromagnetic field superposition 07 p1162 A71-20549

Horizontally and vertically polarized sferic signals from lightning discharges by airborne instrumentation, using pattern recognition approach 08 p1325 A71-20883

Plane electromagnetic wave scattering, arbitrarily polarized and normally impinging on wedge tapered absorbing structure 09 p1409 A71-23501

Air showers emitted radio pulses polarization, noting inconsistency with geomagnetic origin 13 p2127 A71-28102

Frequency composition in glass laser with Fabry-Perot resonator producing polarized radiation components, discussing transverse modes selection 15 p2420 A71-32000

Diffraction properties of three dimensional asymmetric arrays for reflected and transmitted H- and E-polarized waves 17 p2698 A71-34266

Free space diffraction of E-polarized plane electromagnetic wave by slit in thick conducting screen, deriving approximate solution from Wiener Hopf equation by matrix techniques 19 p3023 A71-38592

Electromagnetic wave arbitrary incidence on conducting circular disk for polarization parallel and perpendicular to incidence plane, calculating backscattering cross section for comparison with measurement 20 p3194 A71-38840

Polarized plane electromagnetic waves oblique specular reflection from discretely layered lunar models based on Apollo 11 and 12 data, determining near-surface layers electrical properties 21 p3450 A71-40644

Pulsars properties, examining pulse profile and duration, subpulse phase modulation and polarization 22 p3598 A71-41918

Brightness and polarization distributions for supernova remnants IC443 and Puppis A, considering magnetic field orientation and thermal radio emission 22 p3606 A71-42601

Lateral distribution and polarization of radio emission from extensive air showers, using Geiger and scintillation counters, muon detectors and antennae 22 p3595 A71-42666

Deterministic signal with normal noise, considering field representation as superposition of two circularly polarized components of directly opposite rotation 22 p3515 A71-42758

Convolution integral equation unique solution in second kind Fredholm equation form, applying to plane polarized electromagnetic wave diffraction on infinitely thin band 24 p3804 A71-44769

Linearly polarized plane electromagnetic wave scattering by radially inhomogeneous spherical shell, presenting boundary value problems solutions and approximations 24 p3805 A71-45184

POLARIZED LIGHT

Zodiacal light polarized component observation at ecliptic longitudes and latitudes compared to zodiacal cloud model 01 p0158 A71-10773

Matrix method for multiple scattering extended to polarized light 03 p0458 A71-13611

Astronomical objects light polarization recording on magnetic video tape, providing digitized data for computer input 03 p0424 A71-13631

Matrix addressed polarization rotating or retarding light valve arrays for optical selectors, compositors and displays from nonswitching threshold materials 03 p0430 A71-14468

Linearly polarized light measurements of solar spectral lines Zeeman effects, describing calibration method based on Fraunhofer lines broadening due to magnetic fields 04 p0642 A71-14903

Optically thick clouds reflected light radiance and polarization for haze and nimbostratus models 05 p0781 A71-16252

Light attenuation and depolarization measurements on glass fibers in index matching oil 07 p1159 A71-19212

Biaxial crystals utilization in polarized interferometers, noting Wollaston prisms useful beam aperture and Savart polariscopes streak linearity domain 07 p1109 A71-19453

Handedness formula for elliptical polarization after specular metallic reflection of linearly polarized light 07 p1111 A71-19485

Polarized light multiple scattering in planetary atmospheres, applying extended doubling method to realistic simulations with allowance for radiation polarization and azimuth dependence 07 p1153 A71-19759

Magnetic white dwarf G195-19 circularly polarized light, confirming handedness and approximate magnitude 07 p1199 A71-19833

Polarization of sunlight multiply scattered by atmosphere and cloud particles of Venus from UV to IR 07 p1204 A71-20622

Martian atmosphere Mie scattering analysis, using limonite and bulk solid carbon dioxide complex refractivity to interpret polarization effects 11 p1825 A71-25708

Fe ion photodetachment cross section polarization dependence on a sites in YIG-Si to explain photoinduced uniaxial anisotropy, using crystal field theory 12 p1943 A71-26858

Comet Bennett light polarization data, determining color index and chemical composition 12 p1965 A71-27227

Skylight polarization dispersion in relation to multiple scattering in molecular atmosphere 13 p2063 A71-29110

Aerosol power law distribution exponent and particle limiting radii from turbid atmosphere outgoing visible radiation polarization high altitude measurements 13 p2063 A71-29111

Jupiter circularly polarized visible light measurements, using photoelastic polarimeter 14 p2306 A71-29729

Gas laser birefringence observation in active elements under pumping action, using light beam components polarization intensity measurements 14 p2255 A71-30586

Star EV Lac polarimetric observations during flare, using Cassegrainian reflector 15 p2487 A71-32031

Flare star light polarization parameters measurement, describing polarimeter design 15 p2487 A71-32036

Polarized light multiple scattering in homogeneous plane parallel planetary atmospheres, considering Rayleigh scattering, test models and phase function obtained by neglecting polarization 16 p2632 A71-33320

Scattered light circular polarization data from Jupiter and other planets indicating nonmagnetic origin 17 p2805 A71-35377

Doubling method application to multiple scattering of polarized light, studying Venus visible disk reflection of sunlight 17 p2784 A71-35569

Aerosol size distribution from lidar light scattering polarization properties, constructing inversion model 17 p2770 A71-35806

Linearly polarized lidar light scattering in spherically symmetrical uniformly distributed cloud water drops, investigating multiple backscattering effects on depolarization 17 p2770 A71-35807

Comet Bennet light polarization data, determining color index and chemical composition 19 p3132 A71-37379

Wave reconstruction from gaseous flow hologram analysis with differential interferometry in polarized light and schlieren techniques with phase filter defocusing 20 p3239 A71-39461

Comet Bennett 1969i nucleus light polarimetric observations, noting vibration direction 21 p3440 A71-40060

Current-optical effects of anisotropic absorption of polarized and unpolarized light in rarefied cosmic media 24 p3860 A71-45106

POLARIZED RADIATION

NT POLARIZED ELECTROMAGNETIC RADIATION

NT POLARIZED LIGHT

NT SYNCHROTRON RADIATION

Galactic soft X rays role in interstellar dust grains alignment producing starlight polarization 01 p0145 A71-11344

Neodymium glass laser with intracavity emission polarization, determining thermally induced double refraction effect on energy characteristics 03 p0435 A71-13505

Emission kinetics for linearly polarized waves from composite ruby laser, describing pumping power effects 03 p0435 A71-13513

K corona radially and tangentially polarized components color differences from 7 March 1970 eclipse photographs analysis 03 p0489 A71-13628

Pulsar NP 0532 average polarization absence due to Crab Nebula depolarization or unpolarized radiation on emission 04 p0643 A71-15047

Gas laser radiation depolarization coefficient as function of radiation energy, cavity anisotropy and operating transition type 06 p0907 A71-17595

Fraunhofer line resonance polarization from solar spectral bands statistical analysis, noting collisional depolarization 06 p0969 A71-17973

Polarization fluctuations of radio waves reflected from ionosphere E and F layers, describing radio polarimeter and preliminary measurement results 07 p1061 A71-19384

Resonance line radiation polarization of potassium and cesium isotopes excited by electron impact 09 p1496 A71-22187

Polarized radiation transfer in collective plasma, analyzing proper modes phase correlation effects by Liouville equation perturbation technique 10 p1654 A71-24996

Supernova remnant HB 21 linear polarized radiation observed at 6 cm wavelength, correlating optical nebula shape with radio mapped contours 11 p1819 A71-25216

Extragalactic radio sources total and linearly polarized radiation one dimensional distributions, not-

ing spectral variations, magnetic fields and rotation measurements 11 p1830 A71-26131

Water and ice cloud discrimination by angular distribution measurement of various polarization parameters of scattered laser beam radiation, using Mie theory 11 p1776 A71-26298

Polarization Fourier spectrometer for circular dichroism spectroscopy, stressing IR application 14 p2242 A71-30156

Omnidirectional broadband telemetry antenna array for spacecraft providing near isotropic circular polarized radiation with open line microstrip feed 14 p2199 A71-30907

Semiinfinite atmospheric multiple conservative Rayleigh scattering, describing polarized radiation transfer 15 p2449 A71-31333

Polarized meandering type 4 burst of solar flare from 80 MHz radioheliographic observations, noting association with plasmoids containing synchrotron emitting relativistic electrons 15 p2473 A71-31695

Rayleigh scattering planetary atmosphere radiative transfer equation, calculating phase curves for flux and polarization 15 p2498 A71-32778

Outer corona polarization determination from airborne photographic observations in March solar eclipse, presenting preliminary results of photometric data reduction 16 p2642 A71-33803

Time dependent multiple backscattering of pulsed light for linearly polarized incident radiation 17 p2709 A71-35809

Polarized solar millimeter emission associated with sunspot magnetic field compatible with multiple sources from chromosphere 18 p2966 A71-36762

Polarization fluctuations of radio waves reflected from ionosphere E and F layers, describing radio polarimeter and preliminary measurement results 19 p3017 A71-37809

Taurus X-1 X ray emission polarization from rocket-borne polarimeter measurements, utilizing incoherent scattering 20 p3302 A71-39921

Extragalactic radio sources polarized radiation intensity statistical analysis, calculating magnetic field scale 22 p3602 A71-42175

Semiinfinite atmospheric multiple conservative Rayleigh scattering, describing polarized radiation transfer 22 p3576 A71-42608

Mode changing in pulsar radiation, observing intensity profiles and polarization characteristics 23 p3769 A71-43995

POLARIZERS

Commercially produced metallic wire gratings reflection spectra measurement, determining use as high performance filters and light polarizers in far IR region 03 p0457 A71-13507

Photometric attenuator with linear birefringent polarizers, describing construction and calibration 07 p1110 A71-19468

Freestanding wire grid manufacture of polarizing films for submillimeter interferometry 08 p1291 A71-21405

High voltage pulse shaping circuits for Kerr cell polarization shifters for modulating and deflecting monochromatic laser radiation 19 p3071 A71-37255

POLAROGRAPHS

U POLAROGRAPHY

POLAROGRAPHY

Polarographic blood oxygen measurement by principle of oxygen liberation into physical solution by potassium ferricyanide 07 p1053 A71-20337

Oscillopolarographic determination conditions for Co, Ni, and Fe, giving statistical treatment of results 09 p1454 A71-22501

Polarographic measurements of secondary Couette flow between coaxial cylinders for diffusion coefficient effects on mean friction factor, using wall flush microelectrodes 10 p1592 A71-23978

Rhodamine, sodium fluorescein and cyanocyanine dyes for liquid lasers, investigating electroluminescence by polarography 16 p2587 A71-33382

POLARONS

Two center bound polaron in rutile single crystal, studying dielectric behavior in applied magnetic field 08 p1345 A71-21690

Nonlinear optics of combination scattering of IR laser radiation in crystals and statistical frequency mixing-multiplication of polarons and longitudinal phonons 16 p2588 A71-33997

POLES

- Astronomically determined latitude, longitude and azimuth reduction to common epoch, discussing secular nonperiodic pole motion due to crust drift
03 p0484 A71-13217
- Poling techniques modifications for piezoelectric activity enhancement in bulk polymers, considering arcing minimization, AC field superimposition and repeated cycling of process
03 p0448 A71-13721

POLICIES

- Sonic boom implications and decision on acceptability with alternative policies of complete barring, controlled corridors and overflight limitations [CASI PAPER 72/4]
19 p2996 A71-37595

POLISHED METALS

U METAL POLISHING

POLISHING

NT ELECTROPOLISHING

NT METAL POLISHING

- Polished surface quality control using laser divergent coherent beam
09 p1460 A71-22310

- Milling, band grinding, final manual polishing and tumbler polishing effect on fatigue life and surface finish of steel compressor blades
12 p1912 A71-27680

- Peroxide-alkaline polishing solution for GaAs, evaluating optical quality, surface damage, polishing rate and metallic contact resistance
18 p2955 A71-37004

POLITICS

- NASA bilateral and multilateral international cooperation agreements in space research, discussing political objectives, program history, regulations and procedures
06 p1010 A71-17646

- Aerospace business future, discussing political, military and social factors effect
17 p2841 A71-34575

POLLUTANTS

U CONTAMINANTS

POLLUTION

NT AIR POLLUTION

NT ENVIRONMENT POLLUTION

NT THERMAL POLLUTION

NT WATER POLLUTION

- Everyday antipollution policy in electromagnetic compatibility, concerning social, medical, commercial, industrial, scientific and national defense aspects
19 p3021 A71-38431

- Low cost Ti substitutions for Ni and alloys in corrosion resistant applications, prosthetic devices and pollution control equipment
20 p3251 A71-39339

POLONIUM

NT POLONIUM 210

POLONIUM ISOTOPES

NT POLONIUM 210

POLONIUM 210

- Alpha radioactivity in Surveyor 3 camera visor, calculating upper limit of Po 210 at equilibrium of Oceanus Procellarum
23 p3765 A71-43812

POLYACRYLATES

U ACRYLIC RESINS

POLYAMIDE RESINS

NT NYLON [TRADEMARK]

- Low temperature curing nylon epoxy adhesive, discussing high peel strengths
10 p1630 A71-24070

- Fatigue failure of polyamide filaments from optical and electron microscopic observations, describing crack initiation and propagation
16 p2600 A71-32817

- Polyamides reinforced with finely chopped glass fiber, noting mechanical strength, Martens yield temperature and heat stability
19 p3085 A71-38476

POLYATOMIC GASES

NT DIATOMIC GASES

- Kinetic equation for rarefied polyatomic gases derived from Liouville equation
02 p0286 A71-11883

- Polyatomic gases thermal conductivity coefficient, examining magnetic field effect
06 p1005 A71-17316

- Soviet book on thermal conductivity of monatomic and polyatomic gases and hot and cold mixtures, comparing molecular kinetic theory collision integral formulas with experimental data
08 p1375 A71-21656

- Classical polyatomic gases kinetic theory, considering generalized Boltzmann equation solution
16 p2614 A71-33031

- Carbon dioxide laser population inversion based on chemical combustion reaction producing gas of vibrationally excited polyatomic molecules
16 p2585 A71-33047

- Polyatomic gases thermal conductivity and rotational relaxation number from thermomolecular pressure differences across capillary tubes
17 p2785 A71-34946

- Macroscopic values of energy exchange between polyatomic gas and solid wall, considering heat transfer rate and wall temperature change
23 p3781 A71-43105

- Conductive heat transfer and temperature jump in polyatomic gas between parallel plates evaluated by variational principle based on linearized integro-differential equation
24 p3889 A71-44969

POLYATOMIC MOLECULES

NT DIATOMIC MOLECULES

NT TRIATOMIC MOLECULES

- Interstellar medium polyatomic molecules formation, destruction and excitation processes by astronomical spectroscopy and interferometry
02 p0209 A71-11867

- Multiatomic molecules emission spectra excitation by superhigh frequency short duration pulsed gas discharges
02 p0286 A71-11889

- Polyatomic organic adsorbates effect on field emission total energy distribution from W and Mo surfaces, discussing electronic and phononic spectra
02 p0297 A71-12733

- Absorption gas dynamic laser operation based on polyatomic molecules vibrational relaxation process
13 p2081 A71-29347

- Polyatomic molecule photoelectron spectroscopy, emphasizing spectra interpretation by quantum mechanical procedures
16 p2541 A71-33398

- Chemical lasers diatomic and multiatomic molecules dissociation in nonequilibrium conditions, discussing vibrational energy exceeding gas temperature
24 p3834 A71-45112

POLYBENZIMIDAZOLE

- Flammability and heat transfer characteristics of flame retardant cotton, Nomex and polybenzimidazole (PBI) protective fabrics
07 p1145 A71-19573

POLYBUTADIENE

- Low molecular weight liquid polybutadiene polymer flow behavior as function of shear rate, temperature, molecular structure and hydrogen bonding
09 p1403 A71-22474

- Crystallites in hydrogenated hydroxy terminated polybutadiene from polarized light examination, viscosity-temperature curve discontinuity and elastomer modulus-temperature curve
10 p1573 A71-25126

- Electrical properties, chemical resistance and reinforced plastics applications of telechelic ultrahigh vinyl polybutadiene resins
11 p1786 A71-25422

- Solid propellants based on low cost hydroxyl terminated polybutadiene binders meeting burning rate, mechanical properties and processing requirements for large booster motors [AIAA PAPER 71-708]
14 p2286 A71-30764

POLYCARBONATES

NT LEXAN [TRADEMARK]

- Prolonged storage effect on polycarbonates mechanical properties, measuring tensile strength, elastic modulus, yield point and breakdown strains under uniaxial tension
09 p1483 A71-22825

- Polycarbonates transparency applications in aircraft windshield design, discussing heat resistance, mechanical, chemical and optical properties
20 p3253 A71-38751

POLYCRYSTALS

- Polycrystalline semiconductors Hall effect by grain structure model for low and high resistivity boundaries, giving vapor deposited cadmium selenide film data
01 p0137 A71-10283

- Polycrystalline material nonisothermal plastic deformation, using model based on metals and alloys properties and microstructure
02 p0324 A71-11749

- Homogeneous and composite polycrystalline materials macroscopic thermoelastic characteristics determination based on structural model
02 p0324 A71-11750

- Anisotropic polycrystalline carbon fiber tensile strength and bending behavior, interpreting inelastic characteristics from single filament experiments
02 p0273 A71-11945

- Creep failure model, using wedge crack nucleation in polycrystalline materials due to grain boundary sliding
02 p0329 A71-12716

- Polycrystalline Zr extremely low temperature tensile deformation, discussing prestraining effects, stress-displacement relations, strain distribution, twinning, etc
02 p0267 A71-12878

- Polycrystalline Ni single and overlapping stacking faults production by tensile deformation in premicroyield region, noting stress concentration effects
02 p0268 A71-12888

- Rare earth polycrystalline powders luminescence stimulation by ruby laser radiation, discussing two

- photon mechanism, luminous intensities relations and UV radiation
03 p0435 A71-13510

- Grain boundary sliding on Mg-Al alloy polycrystalline specimens measured at successive strains during creep under 2800 psi stress
03 p0443 A71-14184

- Submicron sectioning apparatus for studying slow carbon self diffusion in dense polycrystalline tungsten carbide
03 p0429 A71-14187

- Temperature effect on slip- and spark-induced crack propagation in polycrystalline Mo
03 p0444 A71-14317

- Pressure and strain rate effects on polycrystalline Be shear strength, determining activation energy for dislocation motion
03 p0445 A71-14463

- Transport mechanism for holes in polycrystalline Ge films based on Matthiessen rule, considering surface scattering and dislocation
03 p0468 A71-14464

- Intergranular failure modes in polycrystalline metals and alloys, discussing boundary sliding, cracking and structure
03 p0447 A71-14496

- German monograph on polycrystalline ferrites studies with quasi-optical resonators in mm wave range
05 p0791 A71-16125

- Pure polycrystalline Al under uniaxial tension, noting vacancy rupture mechanism
06 p1000 A71-17940

- Polycrystalline semiconductors grain boundaries effect on conductivity, Hall mobility and current carriers concentration
06 p0942 A71-18187

- Structure changes of Al single and polycrystals with initial cube orientation under cold rolling
06 p0913 A71-18420

- Mechanical properties of supersaturated Ni-Al alloys aged at 700 F, discussing composition effects on single crystals deformation and polycrystal strength variation
07 p1133 A71-19442

- Uniaxial elastic stresses effect on ferromagnetic resonance parameters in polycrystalline ferrites
07 p1177 A71-19497

- Hydrogen adsorption behavior on polycrystalline nickel surfaces, using electron impact desorption flash filament with gas phase and ion spectrometer and vapor deposition
07 p1055 A71-19843

- Hydrostatic pressure effects on Al polycrystals stress-strain behavior at room temperature, using magnetostriuctive load cell
07 p1143 A71-20490

- Thermal recovery effects on electrical resistivity in deformed polycrystalline Nb samples tested at varying strain rates and 263-509 R temperatures
07 p1144 A71-20496

- Light transmitting vacuum deposited NaF polycrystal for IR measurements
08 p1343 A71-21288

- GaAs-InAs type single crystals, polycrystals and epitaxial films solid solutions, studying optical, electrical and luminescent properties
08 p1344 A71-21443

- Discrete particles dispersion effects on polycrystals mechanical properties, examining various models
08 p1311 A71-21540

- Polycrystalline Nb under plastic deformation and annealing, examining dislocation structure and mechanical properties
08 p1316 A71-21611

- Ultrasonic effects on dislocations and grain boundaries in vacuum annealed polycrystalline Al specimens
09 p1467 A71-22288

- Spectral and relaxation characteristics in antiStokes two photon luminescence of polycrystalline ruby exposed to filtered light pulses
09 p1508 A71-22392

- Measuring instrument for amorphous and polycrystalline materials resistivity and Seebeck coefficient as function of temperature and pressure
09 p1446 A71-22737

- Metallic polycrystalline materials volume changes in plastic deformation from measurements on steel elongation and cross section diameter reduction
09 p1540 A71-22997

- Discrete phase vs binder strength of inorganic brittle polycrystalline powder metallurgy materials, including alumina and magnesia
09 p1483 A71-23398

- Strain hardening and grain size effects on early fatigue damage of polycrystalline metal under fluctuating stress, using micromechanics theory
10 p1685 A71-23933

- Fiber textures formation in polycrystalline Zr from cold forging and cold drawing, observing fully developed recrystallization
10 p1629 A71-25028

- Carbon and oxygen inclusions effects on polycrystalline molybdenum rupture due to precipitation and chemisorption
11 p1781 A71-26323

Polycrystalline copper and magnetic films thin intermediate layers, showing prevention of epitaxial growth

12 p1943 A71-26855

Industrial polycrystalline graphites monochromatic emissivity in visible and IR spectral regions at high temperatures

13 p2090 A71-27882

Polycrystalline pure Al and Al-Mg alloy strength, investigating temperature and strain rate effects

13 p2084 A71-28112

Elastically and plastically anisotropic single crystals randomly oriented in polycrystalline aggregate, noting initial yield surface in fcc lattice

13 p2155 A71-29063

Polycrystalline Nb cyclic yield point behavior under strain softening and hardening, noting stable hysteresis loop

13 p2087 A71-29123

Polycrystalline Hf under tension at various temperatures, determining H effects on fracture, operative deformation modes and hydride habit planes

13 p2090 A71-29417

Nb single and polycrystalline thermal conductivity/diffusivity, specific heat, electrical resistivity and monochromatic/ integrated degree of blackness at high temperatures

14 p2258 A71-30052

Single crystal and polycrystalline alumina specimens strengthening by annealing with various metal oxide powders

15 p2438 A71-31975

Polycrystalline graphite total creep time dependent effects based on mathematical model of nonlinear hereditary theory

16 p2600 A71-32799

Surface deformation in polycrystalline Al samples produced by ultrasound generated cyclic stresses, examining slip bands formation by electron microscope

16 p2591 A71-33224

Constant load tensile creep tests on polycrystalline ceramics, determining high density alumina applied stress and strain rate

16 p2553 A71-33384

Idealized model for anisotropy of metals inelastic characteristics due to plastic prestraining, demonstrating applicability to polycrystalline materials

16 p2659 A71-33989

Oxygen adsorption study on polycrystalline W through work function variation and adhesion coefficient measurements, using mass spectrometry

18 p2874 A71-35974

LF ferromagnetic resonance in anisotropic polycrystalline thin magnetic films, noting dependence on magnetization inhomogeneity

18 p2955 A71-36940

Gaseous and solid polycrystalline HNCs and DNCs IR and Raman spectra, studying LF of lattice vibrations

19 p3118 A71-37649

Polycrystalline barium titanates solid solutions with fluorine displacement of oxygen atoms, observing IR absorption spectra

20 p3276 A71-39151

Ta-W polycrystals and single crystals oxidation at 850-1100 C, noting anisotropic scale-fracture morphologies

20 p3252 A71-39373

Strain rate and temperature effects on polycrystalline Al-Mg alloy strength, considering deformation mechanism

21 p3400 A71-40834

Grain scattering in unstable spin wave region of parametrically excited magnons in polycrystalline YIG

21 p3428 A71-41047

Longitudinal and transverse magnetostriction of polycrystalline iron garnets containing Gd, Tb, Dy and Ho in high magnetic fields

21 p3428 A71-41116

Prior stressing and thermal treatments effect on shock induced substructures in polycrystalline Mo, using transmission electron microscopy

21 p3404 A71-41416

Metallic polycrystal deformation equations, obtaining creep, Norton law dependences and thermally dissipated energy

22 p3560 A71-41606

Monocrystalline and polycrystalline Ta-Hf oxidation at 750-1050 C, noting orientation

22 p3563 A71-42363

Pure Al annealed polycrystal electron microscopic observation for fatigue deformation at room and elevated temperatures, noting dislocation loop role in crack initiation and propagation

22 p3564 A71-42497

Oxygen interaction with polycrystalline W, calculating sticking probabilities and desorption spectra at various temperatures

23 p3641 A71-42906

Corrosive oxide layer formation kinetics during interaction of oxygen with polycrystalline W at 500-1000 K, using desorption mass spectrometry

23 p3641 A71-42907

Ferromagnetic electron spin resonance spectra of Apollo 11 lunar samples, using model for polycrystalline spectra simulation

23 p3734 A71-43242

Polycrystalline body macrohomogeneous plastic deformation, deriving basic postulates for slippage and plane relationships to tangential stress and shear strength dependence on elastic deformation

23 p3777 A71-43576

Polycrystals thermoelastic characteristics, determining thermal expansion and conductivity macroscopic coefficients

24 p3840 A71-44402

W and Mo single and polycrystals structural changes by ion bombardment in Li vapor atmosphere at 1500 C, using mass spectrometer

24 p3838 A71-44862

POLYCYTHEMIA

Ventilatory control in acute hypoxia, detailing polycythemia effects on respiratory chemoreceptor sensitivity

14 p2185 A71-30289

Urinary protein excretion rates in high altitude inhabitants, showing polycythemia effect on creatinine clearances levels

19 p3009 A71-38561

Polycythemia and altitude hypoxia effects on rats heart and sea level exercise tolerance

20 p3186 A71-38980

Erythropoietic activity dosage in polycythemic mice after intermittent hypobaric hypoxia

23 p3632 A71-43216

Hypobaric hypoxia effect on polycythemic mice erythropoietic hyperactivity, evaluating iron content in peripheral erythrocytes

23 p3632 A71-43217

POLYESTER RESINS

Sandwich structure cores of foamglass granulate filled unsaturated polyester paste, discussing development of highly thixotropic paste mixtures

01 p0172 A71-10699

Nonmetallic aircraft construction materials, discussing wood epoxy and polyester resins

02 p0273 A71-12299

Glass reinforced polyester laminates under static and repeated loading, investigating resin flexibility effects on fatigue strength

02 p0274 A71-12479

Fire retardant glass reinforced polyester resins optimum formulation, examining burning properties, volatility, extinction time and flame propagation

02 p0274 A71-12483

Flame propagation and inhibition in polymers and unsaturated polyester resins, considering component and composition effect on flammability

02 p0275 A71-12492

Polyester resin model fatigue crack closure, determining residual stress distribution and crack opening and closing force by photoelastic research

04 p0670 A71-15390

Interfacial bonding effect on fracture toughness of glass sphere filled epoxy and polyester resins, using tapered cleavage specimen

11 p1846 A71-25413

Winding equipment for continuous production of large diameter cylindrical filaments of reinforcing materials and polyester resins

11 p1768 A71-25418

Research bibliography on resins and additives covering polyesters, epoxies and new polymers with improved corrosion, fire and heat resistance

11 p1788 A71-25431

Tensile strength and fracture toughness of carbon fiber polyester composites, using mechanical testing and scanning electron microscopy

13 p2092 A71-28625

Epoxy and unsaturated polyester resin compounds for embedding glass fibers in fiberglass-reinforced plastics

15 p2439 A71-32737

POLYESTERS

Lowered ignition temperature and fire propagation of polyester containing bromides

07 p1182 A71-19243

Carbon fiber and carbon fiber-polyester composites chemical resistance to acid and alkaline solutions at various concentrations and temperatures [PLASTICS INST. PAPER 32]

08 p1320 A71-20903

Impact composite materials with reactive resins as binders for polyester fabric, determining peel resistance, tensile shear strength and high temperature aging effect

11 p1786 A71-25416

Fatigue strength of polyester laminates reinforced with glass cloth and mats

14 p2264 A71-30484

POLYETHER RESINS

NT POLYMETHYL METHACRYLATE

Rolling ball fatigue and lubrication with fluorinated polyethers at cryogenic temperatures compared to superperformed mineral oil

01 p0107 A71-10484

Perfluoropolyether fluid lubricant physical and chemical properties at high and low temperatures, explaining metals effects on thermal stability by topochemical reaction mechanism

19 p3083 A71-37424

POLYETHYLENES

Isotactic polypropylene and high pressure polyethylene in contact with steel, examining temperature effect on friction and adhesion

01 p0106 A71-10299

Semipermeable polyethylene grafted membranes/separators/ for extended cycle life in silver zinc cells

08 p2135 A71-21094

Polyethylene plastic packet with chemical pellets, describing welding, cutting and small hole punching by CW carbon dioxide laser

09 p1458 A71-23410

High density polyethylene composition oxidation rates and photodegradation resistance data, using IR spectroscopy

14 p2261 A71-29641

Polyethylene, polypropylene and copolymers sliding friction viscoelastic nature, obtaining relationship between sliding force, adhesional bond shear strength and contact area

19 p3068 A71-37425

Spherulitic linear polyethylene rod cold drawing, observing fibrous structure formation by light and electron microscopy and X ray scattering

19 p3084 A71-37650

Laser illuminated Mach-Zehnder interferometer system including high speed cameras for studying flame propagation among polythene particles suspended in air

19 p3064 A71-38063

Polyethylene coating physicomechanical properties under UV radiation, discussing density and modulus of elasticity, internal stresses, microcrack formation and preventive heat treatment

23 p3697 A71-44032

Polyethylene coated machine steel fatigue strength in air, 3 percent NaCl bath and molecular sulfuric acid solution

24 p3841 A71-44865

POLYMERIZATION

Mo single crystals polymerization and recrystallization, examining strain rate and deformation conditions effects

02 p0266 A71-12652

Deformed Mo single crystals, noting polymerization processes relation to recrystallization during annealing

09 p1476 A71-23318

Polymerization and recrystallization processes in Fe-Cr alloy, using electron diffraction and microscopy

09 p1476 A71-23322

Subgrain growth kinetics for tungsten deformed by rolling and polymerizing annealing, using metallography, X ray microradiography and crystal spectroscopy

09 p1476 A71-23324

Aluminum single crystals tensile deformation and annealing to produce polymerized substructure

15 p2432 A71-32172

Deformation conditions and annealing temperature effects on fine structure of Mo single crystals, noting polymerization

16 p2595 A71-33884

Neutron irradiated Mo single crystals polymerization after cold rolling, using X ray topology methods

16 p2596 A71-33886

Addition effects on polymerization of deformed single crystals of Mo and W with Re, using X ray analysis

16 p2596 A71-33887

High heat resistance of austenitic Cr-Ni-V-B steel by polymerization and recrystallization, using thermomechanical treatment

21 p3403 A71-41102

POLYGONS

NT HEXAGONS

NT RECTANGLES

NT TRAPEZOIDS

NT TRIANGLES

Matrix force analysis, discussing methods for expressing elastic behavior of semimonocoque polygon membrane and isotropic polygon bending elements

16 p2652 A71-33082

POLYHEDRONS

NT PARALLELEPIPEDS

NT RHOMBOHEDRONS

NT TETRAHEDRONS

Radiative cooling system for nearly spherical or polyhedral bodies using radially attached diverging conical elements

17 p2836 A71-34307

POLYIMIDE RESINS

High strength polyimide resin composites, discussing commercial and aerospace applications, chemistry, void content, volatiles and moisture absorption

02 p0274 A71-12487

Heat resistant extended life carbon fiber/polyimide resin composites, noting aerospace applications [PLASTICS INST. PAPER 34]

08 p1321 A71-20920

Long term oxidative aging effects on interlaminar shear strength retention of low void graphite/ boron reinforced polyimide resin composites

11 p1785 A71-25410

Thermally stable polyimide graphite fiber reinforced composites from solutions of monomeric reactions, comparing amide acid prepolymers

11 p1788 A71-25560

POLYIMIDES

Polyimide/boron reinforced plastic structures fabrication, discussing use in leading edges

[SME PAPER EM-70-133] 01 p0090 A71-11263

Aircraft high temperature polyimide hydraulic actuator rod seals, discussing design and performance tests

[SAE PAPER 700790] 01 p0091 A71-11543

Polyimide system application to laminates and molding powders fabrication, exemplifying compression method and cold compaction followed by sintering

11 p1787 A71-25426

Polyimide plastics, considering mechanical properties high temperature applications and cost effectiveness

13 p2091 A71-28165

Physical and mechanical properties of controlled flow vacuum cured glass reinforced polyimide prepreg laminates

22 p3565 A71-42595

POLYMER CHEMISTRY

Gel permeation chromatography for polymer molecules size /hydrodynamic volume/ separation

04 p0548 A71-15265

Papers on polymers thermal stability, Volume 1, covering molecular structure, reaction kinetics, scission, thermosetting resins, etc

08 p1323 A71-21474

Thermally stable fibers fabricability and properties relation to polymer chemical structure and tensile strength

09 p1481 A71-22247

Silyl peroxides as promotion agents for polymeric materials adhesion to solid substrates and for cross-linking polyethylene to other polymers

10 p1633 A71-24109

Epoxy novolac resin-cured alicyclic anhydride amine-catalyzed ablative polymers molecular structure from computer correlation of analytical data

11 p1789 A71-26033

Ablative polymers synthesis from formaldehyde, phenols and ethers reaction products, discussing char yield, thermally stable fillers incorporation and thermogravimetric analysis

11 p1855 A71-26034

Polymeric ablation materials testing in arc image furnace over various temperatures, pressures and thermal flux

11 p1790 A71-26045

French book on macromolecular chemistry covering solid state polymers, polymerization reactions involving free radicals, linear viscoelasticity, vitreous transition of macromolecular polymers, electrical conductivity, etc

11 p1729 A71-26152

Synthetic elastomers, including polymer chain growth, monomer sequence distribution, structural compatibility effects and commercial products development

18 p2939 A71-35886

Polymer thermal degradation theory of pressure sensitive hybrid combustion, calculating linear regression rates

19 p3170 A71-38123

POLYMER PHYSICS

Polyethyl methacrylate lifetime under simultaneous mechanical stresses and ionizing radiation

01 p0106 A71-10044

Isotactic polypropylene and high pressure polyethylene in contact with steel, examining temperature effect on friction and adhesion

01 p0106 A71-10299

High temperature pyrolysis molding, discussing covalent organic bonds breakage and subsequent structural rearrangement of crosslinked polymer network

01 p0107 A71-10459

Bond rupture and fracture in semicrystalline polymers, noting agreement with random length molecular tie chain scission model

04 p0670 A71-15388

Industrial and biological polymer compounds active surface layers, discussing thermodynamic aspects, molecular dynamics, energy conversion and boundary layer entropy

06 p0915 A71-17585

Static friction in steel-polymer couples under vacuum, considering temperature, contact time, normal load and physicochemical properties effects

09 p1454 A71-22818

Fracture mechanics and time dependent strength of elastic or viscoelastic solids adhesively jointed by soft polymeric bonding layer

11 p1851 A71-26383

Low ductility materials, considering applications to stress analysis, failure criteria, fatigue, physical metallurgy and polymer mechanics

14 p2251 A71-29893

Atomic bond rupture and molecular mechanisms of polymer fracture, using EPR spectroscopy

16 p2600 A71-32944

Polymer type, temperature, crystallinity and orientation effects on fracture mode, discussing macroload carrying capacity, nylon fiber tie chains and molecular behavior

18 p2939 A71-35889

Polymer systems molecular rheology based on statistical mechanics and simplified structural models

24 p3841 A71-44644

POLYMERIC FILMS

Hologram formation in gelatin, photopolymeric and photochromic materials for high diffraction efficiency, in-place real-time processing and erasability

04 p0596 A71-15167

Electron, proton and UV irradiation effects on CdS solar cell protective plastic films with or without adhesive coatings, measuring transmission changes

05 p0771 A71-16087

Polybenzothiazole as solid film formulations binder for friction wear improvements, noting thermal and oxidative stability, toughness, adhesive properties and handling ease

05 p0772 A71-16375

Low energy proton irradiation induced thin polymer contaminant films effect on far UV reflecting mirrors reflectance and scattered light

08 p1290 A71-21382

Polyethylene plastic packet with chemical pellets, describing welding, cutting and small hole punching by CW carbon dioxide laser

09 p1458 A71-23410

B and C polymer laminated film composites efficiency for stability designed structures, considering weight reduction by planar reinforcements

[AIAA PAPER 71-353] 11 p1783 A71-25331

In situ double exposure differential interferometry, using photoconductive thermoplastic sandwich in place of film, allowing second hologram inscription

14 p2242 A71-30153

Gas permeability of polymeric foils reduction by vapor metallization in vacuum, noting dependence on surface state, diffusion layer and macroporosity

16 p2601 A71-33684

Closed cycle life support water electrolysis system using solid plastic sheet electrolyte /ion exchange membrane/ of sulfonated perfluoro polymer

[ASME PAPER 71-AV-9] 18 p2866 A71-36376

Optical properties of metallized fluorinated ethylene propylene Teflon films with various thicknesses, discussing suitability as spacecraft thermal control surface

[ASME PAPER 71-AV-35] 18 p2869 A71-36402

Photopolymer holography systems and holograms fixing techniques, discussing polymer films image storing and fixing processes

21 p3381 A71-40927

POLYMERIZATION

NT VINYL COPOLYMERS

Cellulose application as zinc silver oxide battery separator, considering chemical stability, cellophane properties, polymerization and crystallinity

08 p1234 A71-21093

Polymerization kinetics of nematic liquid crystal monomer in nematic and isotropic phases

11 p1728 A71-26062

French book on macromolecular chemistry covering solid state polymers, polymerization reactions involving free radicals, linear viscoelasticity, vitreous transition of macromolecular polymers, electrical conductivity, etc

11 p1729 A71-26152

Polyester formation by *Escherichia coli* ribosome catalyzed alpha-hydroxy acid incorporation into polymer chain

17 p2686 A71-35574

Methane atmosphere polymerization by solar UV to form primordial oil slick, discussing importance to life development

22 p3535 A71-42074

Polymerized and hydrolyzed polypeptides from condensed amino acid adenylates for prebiological synthesis model

22 p3508 A71-42232

Solar system organic compounds detection and evolution, considering element, isotope and pigment composition, optical activity and polymerization

22 p3496 A71-42824

POLYMERS

Sanitary, chemical and toxic properties of polymeric materials in isolation chamber with contaminated outgassing atmosphere at moderate temperature

01 p0024 A71-11128

Flame propagation and inhibition in polymers and unsaturated polyester resins, considering component and composition effect on flammability

02 p0275 A71-12492

Stress-strain state of plate made from highly elastic polymer containing circular and elliptical holes

03 p0506 A71-13602

Poling techniques modifications for piezoelectric activity enhancement in bulk polymers, considering arcing minimization, AC field superimposition and repeated cycling of process

03 p0448 A71-13721

Polymeric materials plastic deformation properties during service and storage, discussing prediction and testing methods

03 p0448 A71-14300

Polymer materials linear photocreep characteristics description in terms of differential and integral equations, discussing relationship between optical and mechanical properties

03 p0514 A71-14357

Polymer neck autooscillatory expansion under drawing as result of interaction between elastic deformation and heat release during orientational transformation

03 p0448 A71-14362

Clear potting polymers, investigating temperature and ionizing particle irradiation effects on properties

04 p0618 A71-14898

Combined deformation of reinforcing elements and polymer binder in monodirectional composite structure, determining stress distribution

06 p0915 A71-17380

Integratism in life biology, discussing reductionism and organicism at biopolymer macromolecule construction and conformational levels

06 p0852 A71-17683

Cured thermosetting polymers, investigating water effect on microstructure and mechanical properties

06 p0916 A71-17945

Metal gluing with synthetic polymer based adhesives, discussing history, technology and high temperature resistance

06 p0905 A71-18093

Stress-strain state of three-layer polymer plate having different thicknesses, Poisson coefficients and creep functions

06 p1005 A71-18707

Carbon fiber reinforced polymers for self lubricating materials applications, discussing friction and wear characteristics under fresh and sea water, alcohols, mineral oils, etc

[PLASTICS INST. PAPER 31]

08 p1319 A71-20896

Polymeric materials for silver zinc battery separators, discussing porous and solvent-type pore free membranes

08 p1234 A71-21091

Polymer adhesive protective coatings for improving fatigue resistance of butt and lap welded joints in thin Al sheet construction

09 p1478 A71-23355

Polyblends and composites - Conference, New York, June 1969

10 p1634 A71-24767

Elastic plastic wave cancellation in energy absorbing materials, considering polymer group efficiency for shock mitigation from weight and volume standpoint

[AIAA PAPER 71-350] 11 p1843 A71-25329

Longitudinal tensile strength of unidirectional fibrous glass/polymeric matrix composites under high loading rates

11 p1785 A71-25405

Research bibliography on resins and additives covering polyesters, epoxies and new polymers with improved corrosion, fire and heat resistance

11 p1788 A71-25431

Ablative polymers for thermal protection of aerodynamic surfaces, propulsion structures and ground equipment, discussing energy absorption of various polymeric materials

11 p1789 A71-26030

Combined deformation of reinforcing elements and polymer binder in monodirectional composite structure, determining stress distribution

12 p1921 A71-27462

Electron paramagnetic resonance atomic scale stress analysis of high polymer fibers and rubber, measuring chain scission and bond rupture for different loading histories

13 p2091 A71-28440

Nonlinear heredity theory related to Volterra-Freschet heredity theory under uniaxial tension, giving expression for polymers deformation relaxation processes

13 p2092 A71-28650

Dipolar charge density of electret formed by polar polymers above critical temperature under dielectric polarization with quenching

14 p2181 A71-29747

Linear viscoelastic analysis of two dimensional plane stress model of polyphase composite material with rigid inclusions and voids and polymeric binder

14 p2323 A71-29836

IR spectrometer attachment for macromolecular investigation of polymer materials, describing constructional and operational features

15 p2383 A71-31658

Carbon suboxide polymers formation in Martian atmosphere, examining carbon monoxide photolysis and

radiolysis processes enhanced by solar ionizing radiation 15 p2491 A71-32420

Volume hologram formation in photopolymer materials with bright low noise images, considering sensitivity, spatial frequency response, particle scattering noise and nonlinearities 16 p2577 A71-33144

Transparent polymer dielectric luminescence and destruction under Q switched laser radiation with subthreshold power and picosecond pulses 16 p2588 A71-33652

Polymers mechanical losses temperature-frequency dependence, using nonlinear viscoelastic theory 16 p2602 A71-33982

Microphase separation in homopolymer-block copolymer mixtures as function of composition, molecular weight and interaction parameters 17 p2695 A71-35525

Photopolymer recording materials fixing by flashing holograms with Xe light or deactivating catalyst with thermal methods 17 p2745 A71-35591

Instrumentation and techniques of torsional pendulum and braid analyses, studying trace moisture and cure cycle effects on thermomechanical spectra of polymeric materials 18 p2939 A71-36596

Polymer materials strength and lifetime prediction under natural conditions from mathematical model based on laboratory accelerated test data 19 p3084 A71-37781

Inorganic polymers and glasses at high temperatures, detecting LF internal friction 19 p3084 A71-38050

Carbon and noncarbon polymers based high temperature elastomeric materials chemical structure and physical properties 19 p3085 A71-38068

Multicolor images with volume dielectric holograms in photopolymer materials, reconstructing complex three dimensional images with high resolution in white light 20 p3236 A71-39192

Metal and polymer matrix materials research based on stringent requirements for thermal reactors, jet engines and space vehicles, discussing tests and analysis methods 21 p3401 A71-40901

Mechanical properties of various polymeric solids under compressive loading cycles of 100 microsec duration and under steady state compressive loads 21 p3406 A71-41427

Polymer materials for aerospace construction, considering behavior in cryogenic and high temperature environments 22 p3564 A71-41510

Optically sensitive epoxy resin based high polymers under pulsed loads, observing deformation and mechanical displacement with high speed photography 22 p3614 A71-41610

Stress concentration near holes in high modulus epoxy resin polymer thin plates under pressure wave loads 22 p3614 A71-41611

Electronic double differentiator for producing spectroscopic absorption curves second derivatives, considering application to polymers IR examination 22 p3545 A71-42154

Radiation dose effects on polymer strain magnitude under critical cyclic loading 23 p3697 A71-44033

Filler quantity and type effects on mechanical energy losses in polymers, discussing molecular interaction and chemical bond influences 23 p3697 A71-44205

Polymer odor threshold determination for hygienic considerations in sealed/pressurized chamber construction, comparing static and dynamic methods 24 p3800 A71-44539

POLYMETHYL METHACRYLATE

Polymethyl methacrylate lifetime under simultaneous mechanical stresses and ionizing radiation 01 p0106 A71-10044

Through-thickness fatigue crack growth in polymethyl methacrylate sheets, observing stress intensity factor range, frequency and mean effects [SESA PAPER 177] 03 p0448 A71-13771

Pressure effect on combustion rate of model mixtures of ammonium perchlorate with polystyrene and polymethyl methacrylate 03 p0468 A71-13989

Aluminum addition effect on combustion rate of mixtures of ammonium perchlorate with polymethyl methacrylate at different temperatures 03 p0520 A71-13995

Thin Al and plexiglass sheets biaxial stress field effect on fatigue and fracture [ASME PAPER 70-PVP-17] 04 p0665 A71-14768

Structural damage by laser radiation in polymethyl methacrylate, using polarized light microscopy 05 p0772 A71-16370

High energy electron penetration and scattering in solids, obtaining beam density profiles by polymethyl methacrylate resist exposure 06 p0940 A71-17305

Kaolin and quartz powder additions effect on glass-like polymethyl methacrylate specific heat, thermal conductivity and diffusivity 07 p1144 A71-18922

Strain field measurement near crack tip in polymethyl methacrylate by holographic interferometry 07 p1209 A71-19043

Quartz, organic glass and plexiglass luminescence under giant pulse ruby laser radiation 15 p2422 A71-32462

Compact monochromatic rhodamine doped polymethyl methacrylate dye laser with internal diffraction grating resonator, describing frequency selection from emission spectrum 15 p2422 A71-32585

Loading history effect on optical and mechanical properties of polymethyl methacrylate under uniaxial tension 16 p2600 A71-32815

Critical induced acceleration for shock propagation as function of strain in polymethyl methacrylate [ASME PAPER 71-APM-14] 16 p2600 A71-33213

Polymethyl methacrylate lifetime tested in water and heptane, showing increase with orientation degree 16 p2601 A71-33683

Surface cracking resistance of polymethyl methacrylate glass in vacuum, air and nitrogen, noting humidity effect 16 p2601 A71-33690

Holographic fiber optics image-guiding structures preparation in sensitized polymethyl methacrylate cast sheet by refractive index gratings pair recording 18 p2946 A71-35852

Linear viscoelastic stress-strain-time relations for polymethyl methacrylate and epoxy resin 23 p3696 A71-43375

Polymethyl methacrylate samples resistance to crack propagation, detailing modulus of cohesion effects 24 p3841 A71-45050

POLYMORPHISM

Human gamma globulin polymorphism, discussing characteristics, statistical distribution and potential utilization for gene frequency studies in paternity serology 05 p0710 A71-16943

Dissimilar metals welding, emphasizing melting point, linear expansion coefficient, thermal conductivity, electrical resistivity and polymorphic transformation 13 p2072 A71-27887

Thermal polymorphous metals and alloys crystal structure, discussing plastic deformation due to formation of cubic lattice and metallic bonds 16 p2597 A71-33915

Titanium dihydride room temperature polymorphic transition from fcc to body centered tetragonal, noting different transition temperatures 22 p3563 A71-42368

POLYNOMIALS

NT HERMITIAN POLYNOMIAL

Polynomial finite difference description of first order nonlinear dynamic control plants with incomplete information 01 p0058 A71-10405

Orthogonal polynomials method for integral equations solution in two dimensional mixed boundary value problems of elasticity theory 01 p0171 A71-10660

Polynomial microwave frequency filter composed of random symmetric components of randomly selected circuit 01 p0057 A71-11217

Qualitative theory of unknown parameters selection electronic circuit synthesis, considering polynomial coefficients of transfer function 02 p0230 A71-11838

Real polynomial quadratic divisors determination with maximum accuracy in floating point arithmetic, using Bairstow method algorithm 03 p0450 A71-13118

Heavy gyrostat equations of motion having fixed point and zero momentum integral constant, obtaining polynomial solutions 03 p0457 A71-13585

Numerical approximation of continuous real function in interval by polynomials using appropriate nets, estimating error 06 p0920 A71-18209

Analytic function steady approximation with aid of polynomials in given region, considering Dirichlet series 07 p1146 A71-19042

Optimal synthesis of linear equidistant antenna arrays with sum and difference radiation patterns, using orthogonal polynomials 07 p1078 A71-20069

Finite difference description for dynamic control plants with unknown disturbances based on integral 01 p0106 A71-10299

transformation and extrapolation, applying to automatic control systems synthesis 08 p1270 A71-21975

Complex zeros of complex polynomials, matrix inequalities and nonlinear programming, constructing areas intersection in complex plane defined by inequality bounds on eigenvalues of companion matrix 09 p1485 A71-22970

Amplitude characteristic polynomial Chebyshev approximation by linear phase nonrecursive digital filter transfer function 09 p1417 A71-23037

Polynomial approximation of current along thin isolated asymmetrical cylindrical dipoles 09 p1419 A71-23506

System identification problems, discussing approximation by polynomial integral operators, determinable classes in spectral decompositions, observation noise and stochastic systems stationary in observation time 10 p1587 A71-24742

Optimal nonlinear filtering, deriving algorithm based on statistical approximation of system and observer nonlinearities by second order polynomials 10 p1587 A71-24746

Majority logic decoding for primitive polynomial and dual codes, discussing nonorthogonal parity-check sums formation methods and Euclidean geometry maximality 14 p2207 A71-30011

Orthogonal polynomials method for integral equations solution in two dimensional mixed boundary value problems of elasticity theory 14 p2333 A71-30994

Geophysical map preparation by automatic procedure using polynomial representation of fields in iteration process 16 p2563 A71-33460

Constrained optimization problems solution combining modified pattern search methods and polynomial constraints in aircraft design parameters selection 16 p2603 A71-33721

Polynomial fitting for information compression of Wild BC-4 satellite photographs, comparing short arc with geometric compensation methods 16 p2581 A71-34041

Polynomial microwave frequency filters composed of random symmetric components of randomly selected circuit 17 p2718 A71-34268

Boundary value problems solution for second order finite difference equations, applying second order orthonormal polynomials and related functions 17 p2764 A71-34843

Rotating shaft critical speed determination as root of polynomial from frequency equation /characteristic determinant/ without iterative search [ASME PAPER 71-VIBR-53] 21 p3385 A71-40300

Nonlinear autonomous systems transient response, obtaining approximate solutions by generalized averaging technique based on ultraspherical polynomial expansions 21 p3415 A71-40532

Extreme eigenvalues of Toeplitz matrices associated with Laguerre and Jacobi polynomials, using finite difference operators 21 p3410 A71-41084

Complex solutions blocking in sectoral second order differential equations with polynomials, involving conformal mapping 21 p3410 A71-41191

Piecewise polynomial Taylor methods to numerically solve first order ordinary differential equations 23 p3698 A71-42901

Polynomial equation roots determination, analyzing floating point arithmetic errors 23 p3698 A71-43097

Average number of real roots of polynomials consisting of independent random quantities with identical distribution 23 p3699 A71-43571

Necessary and sufficient conditions for separating regular multiplier from matrix polynomial, presenting method for determining regular multiplier real factors 24 p3842 A71-44477

POLYPHENYL ETHER

Free radical induced high temperature oxidation degradation curtailment of polyphenyl ethers by oxides, hydroxides and carbonates of alkali metals and Ba [ASLE PREPRINT 71LC-11] 24 p3842 A71-45290

POLYPHENYLS

Polyphenylene thermal degradation and curing, discussing pyrolytic effects of chlorine and polynuclear structure 11 p1855 A71-26035

Thermosetting polyphenylene resins synthesis and use in reinforced ablative composites, discussing polymerization and curing 11 p1789 A71-26036

POLYPROPYLENE

Isotactic polypropylene and high pressure polyethylene in contact with steel, examining temperature effect on friction and adhesion 01 p0106 A71-10299

Filler and reinforcing agent effects on polypropylene rigidity, tensile strength and creep resistance at elevated temperatures [PLASTICS INST. PAPER 11]

09 p1481 A71-22342

Stress-time superposition creep data for unfilled and coupled glass reinforced polypropylene at 23-80 C

14 p2264 A71-29835

Polyethylene, polypropylene and copolymers sliding friction viscoelastic nature, obtaining relationship between sliding force, adhesion bond shear strength and contact area

19 p3068 A71-37425

POLYSACCHARIDES

NT CELLULOSE

NT GLYCOSIDES

Mucopolysaccharide content and composition of fatty streaks in young male aortas, discussing atherosclerosis effects

18 p2854 A71-35919

POLYSTYRENE

Pressure effect on combustion rate of model mixtures of ammonium perchlorate with polystyrene and polymethyl methacrylate

03 p0468 A71-13989

High temperature decomposition kinetics in vacuum of mixed ammonium perchlorate-polystyrene solid fuel, using time of flight mass spectrometer

03 p0469 A71-13997

Spark ignition of polystyrene suspensions during free fall in air, investigating ignition mechanism by high speed photography

12 p1986 A71-26967

Luneberg lens fabrication technique using thin insulated Al slivers embedded in low density polystyrene foam

14 p2205 A71-31059

Microcrater morphology in soda-lime-silica glass by polystyrene spheres, detailing shape, density, velocity and incidence angle effects

18 p2961 A71-35948

Radiative ignition of polymeric fuels/polystyrene and epoxy in oxygen/nitrogen mixtures

19 p3121 A71-38125

POLYSULFIDES

Outdoor five year aging tests on polysulfide and silicone adhesive sealants under semiarid, marine and high humidity environments

10 p1634 A71-24119

POLYTETRAFLUOROETHYLENE

Friction coefficient in antifriction polytetrafluoroethylene compounds with lead, bronze or graphite

02 p0275 A71-12600

Carbon fiber and carbon fiber-polytetrafluoroethylene composites high temperature mechanical properties [PLASTICS INST. PAPER 35]

08 p1319 A71-20899

Mechanical property modifications of polytetrafluoroethylene by filler additions, noting improved wear resistance [PLASTICS INST. PAPER 13]

09 p1482 A71-22346

POLYTROPES

Polytrope solar wind equations, expressing distance and flow velocity as functions of mass density

01 p0147 A71-11510

Plane shock wave propagation in polytropic gas of variable density, using successive approximation technique

03 p0345 A71-14558

Polytropic gas spheres gravitational instability under external pressure, obtaining critical masses and densities

05 p0813 A71-17091

Polytropic models second order pulsations, evaluating stellar pulsational stability and thermal imbalance

08 p1359 A71-20941

Rapidly rotating polytropes in post-Newtonian approximation to general relativity

22 p3604 A71-42327

Polooidal magnetic field effects on polytrope oscillation modes, using second order tensor virial equations

24 p3871 A71-44909

POLYTROPIC PROCESSES

Earth atmosphere polytropic equilibrium model density distribution and effective size and mass, taking into account gravitational interactions

07 p1152 A71-19375

Plane unsteady polytropic MHD flow equations reduced to time independent system, using complex variable techniques

11 p1804 A71-25439

Small amplitude resonant thermal acoustic oscillations of inviscid polytropic gas contained in finite length tube

11 p1798 A71-25446

Polytropic process description for gas flow by introducing resistance and heat transfer coefficients

24 p3820 A71-45020

POLYURETHANE FOAM

Nonsupporting aerodynamic foam material thermal insulation system with reliability for cryogenic rocket

propellant tank, considering polyurethane and polyvinylchloride

01 p0164 A71-11541

Book on foam polyurethanes synthesis and use in flight vehicles

09 p1455 A71-23162

Polyurethane foam effects on fuel contamination during installation for fuel system fire and explosion protection

[ASME PAPER 71-GT-54]

11 p1708 A71-25981

Maximum acoustic attenuation in lead-wool-polyurethane and nickel-Cerrobend composites for different compositions, frequencies and pressures

18 p2948 A71-36933

Flexible polyurethane foam plastics under high rate loading, investigating strain rate and structural parameters effects on mechanical properties

22 p3565 A71-41592

POLYURETHANE RESINS

Vibrational damping, composition and structural design of cast polyurethane elastomers for Poseidon missile launch tube liner

08 p1367 A71-20694

Polyurethane structural adhesives with excellent tensile shear and T-peel strengths at cryogenic temperatures, long pot lives and good processing characteristics

10 p1630 A71-24068

Structural bonding with polyurethane adhesives in missile systems

10 p1615 A71-24094

Polyurethane coatings development for subsonic rain erosion protection for aircraft structures, using whirling arm apparatus with simulated rainfall

10 p1632 A71-24101

Photoelastic analysis of thermal stresses in polyurethane rubber ring reinforced polymers, cermet and rubber-metal composites

24 p3883 A71-44895

POLYVINYL CHLORIDE

Nonsupporting aerodynamic foam material thermal insulation system with reliability for cryogenic rocket propellant tank, considering polyurethane and polyvinylchloride

01 p0164 A71-11541

Polyvinyl chloride nonlinear viscoelastic behavior by multiple integral representation, determining kernel functions for mixed time parameters from tension/torsion creep experiments

[ASME PAPER 70-WA/APM-21]

03 p0512 A71-14156

High energy hydrogen-oxygen launch vehicle thermal insulation system, discussing closed cell rigid polyvinyl chloride foam mechanical characteristics, use and tests

12 p1985 A71-26835

EPR spectra and spin-lattice relaxation time in coal pitch and polyvinyl chloride during low temperature carbonization

17 p2763 A71-35245

Polyvinyl chloride foam insulation system for liquid hydrogen-liquid oxygen space vehicles tested under groundhold and simulated flight conditions

20 p3253 A71-39269

PONDEROMOTIVE FORCES

Maximum ponderomotive force on laser produced plasmas, using wave equation in linear critical layer

07 p1171 A71-20291

Self magnetic field effect on I-V characteristics of Cs-Ba thermionic converter, noting effects of pressure differential due to ponderomotive forces action

21 p3326 A71-41294

Ferromagnetic Co phase nondestructive determination in hard powdered-metal alloys by permanent magnet ponderomotive force measurement based on relationship to ferromagnetic alpha phase

22 p3561 A71-41775

PONTYAGIN PRINCIPLE

Nonlinear pulsed automatic control systems absolute stability with unsteady linearity by Pontryagin principle, considering forced and free motions

01 p0058 A71-10428

Cylindrical shells and circular plates optimal limiting and adaptable loads calculation by Pontryagin maximum principle

01 p0170 A71-10639

Pontryagin space and convergence of Bubnov-Galerkin method for equations with involution operators

01 p0112 A71-11092

Book on optimal control theory covering dynamic programming, calculus of variations, Pontryagin maximum principle and iterative techniques

02 p0236 A71-12773

Pontryagin maximum principle applied to optimal control of standing TE wave electric field strength in microwave gyromonotron

03 p0386 A71-13813

Nonlinear control synthesis based on minimum duration of transient processes leading to system stabilization, using Pontryagin maximum principle

03 p0392 A71-14406

Nonlinear stabilization systems time and energy optimal control syntheses using Pontryagin maximum principle

03 p0393 A71-14411

Spinning aerospace vehicle optimal attitude control system by minimizing reaction fuel, noting application of Pontryagin maximum principle

04 p0623 A71-15143

Trajectory optimization, using Pontryagin maximum principle for differential inclusions

07 p1146 A71-19178

Chemical reaction kinetics optimal problem numerical solution based on Pontryagin maximum principle and gradient method

07 p1147 A71-19185

Optimal control theory application to environmental control of confined spaces and life support systems, considering algorithm of Pontryagin principle

09 p1423 A71-22588

Distributed parameter control systems optimality conditions, using Pontryagin maximum principle

09 p1425 A71-23469

Search scanning system synthesis based on forces optimal distribution over investigated field, using Pontryagin maximum principle

10 p1586 A71-24167

Autonomous dynamic systems optimal control problems solution by reduction to operator equation, using Pontryagin maximum principle

10 p1636 A71-24352

Conflicting and relaxed minimax controls for Weierstrass E condition or Pontryagin maximum principle

11 p1792 A71-25752

Time optimal phase locked AFC system synthesis based on Pontryagin maximum principle, comparing computerized and experimental transient response

12 p1882 A71-27514

Optimal control synthesis analog for nonlinear problem, using trial and error method based on Pontryagin maximum principle

13 p2040 A71-27834

Discrete control system optimization in terms of power requirements minimization, using Pontryagin maximum principle

15 p2381 A71-31977

Pontryagin maximum principle application to optimal control problems with phase coordinate constraints, noting existence theorem validity

16 p2550 A71-33592

High order optimality conditions of singular controls, considering Pontryagin maximum principle, Bellman dynamic programming and functional analysis

16 p2550 A71-33701

Second variation for general space trajectories in terms of pseudo-Hamiltonian of Pontryagin, applying to singular arc optimality in space vehicle escape maneuver

23 p3768 A71-43857

Deterministic system optimal control with single control and several cost functionals by Pontryagin maximum principle

23 p3656 A71-43858

POPULATION INVERSION

Argon ion CW lasers, discussing design, inverse population, plasma, radiative transition probabilities, pumping, frequency spectra and active medium

01 p0092 A71-10145

CO chemical laser power output augmentation by selective depopulation of CO lower vibrational levels by energy transfer to added gases

02 p0262 A71-12709

High power carbon dioxide electric discharge mixing laser with vibrationally excited nitrogen providing population inversion

03 p0434 A71-13480

Helium effects on dissociation and population inversion dynamics in pulsed carbon dioxide lasers

04 p0605 A71-14628

Population inversions in shock induced dissociation of alkali halides in 2000 to 7000 K range, considering rate constants and molecular relaxation

04 p0629 A71-14694

Operational characteristics, spectroscopy and inversion mechanisms of noble gas ion lasers in light of plasma theories and atomic data

05 p0763 A71-16551

Laser cavity standing wave field electro-optic modulation for uniform population inversion, producing spontaneous single frequency output

05 p0764 A71-17232

Explosion products population inversion by combining vibrational chemical excitation with thermal ignition

06 p0865 A71-17402

Chemical energy conversion in lasers, discussing vibrational inversions in diatomic and multiatomic molecules and chain reactions

07 p1121 A71-19098

Flow-through carbon dioxide lasers population inversion relation to individual gas components and electron velocity distribution functions

07 p1126 A71-20187

Recombination emission by atoms or radicals used with population for inversion thermal gas laser production

07 p1128 A71-20529

Carbon dioxide laser population inversion using chemical reaction of burning with gas combustion products of vibrationally excited polyatomic molecules

08 p1302 A71-21499

Nuclear reaction products effect on population inversion in gas lasers, considering neutron irradiation enhancement of carbon dioxide laser output

08 p1303 A71-21668

Computer simulation of strongly ionized potassium and hydrogen plasmas relaxation during rapid electrode cooling by He atoms, noting population inversions

08 p1342 A71-21913

Helium role in populating upper levels of cadmium gas laser in discharge tube

09 p1462 A71-22401

Stress effects on electron relaxation time anisotropies in n-type Si, using high temperature piezoresistivity model for population transfer rates

09 p1508 A71-22692

Einstein relations for stimulated luminescence, and application to high pressure chemical laser power gain and population inversion calculation

12 p1913 A71-26966

Population inversion in CsI33 ground state hyperfine levels, using CW GaAs laser at 77 K for optical pumping

12 p1913 A71-26977

Laser designs with thermal pumping, obtaining electron states phototransition probability, cooling rates for population inversion and laser action threshold for diatomic gas molecules

12 p1914 A71-27029

Spectral emission and level populations of diffusion and principal series lines of cesium vapor in 5 mm discharge plasma diode with hot cathode

12 p1941 A71-27549

Cavity mirror transmittance variation effect on output power and pulse length of single-pulse Nd-doped glass laser with nonuniform inverted population distribution

13 p2077 A71-27855

Arc heated plasma expansion through nozzle, observing population inversion of neutral carbon self-absorption UV atomic line

15 p2454 A71-31537

CW gain measurements on rotation-vibration P branch transitions of CO molecular laser, calculating gas temperature, Einstein coefficient and population densities

15 p2423 A71-32609

Carbon dioxide laser population inversion based on chemical combustion reaction producing gas of vibrationally excited polyatomic molecules

16 p2585 A71-33047

Optical parametric oscillation internal to laser cavity, including temporal response effects of laser population inversion

17 p2751 A71-34377

Population inversion damping on vibrational-rotational transitions of carbon dioxide molecule during interaction with monochromatic radiation pulse, using two level model

17 p2752 A71-34387

Vibrational population inversions due to molecular energy exchanges from rapid heating behind normal shock wave in carbon dioxide-nitrogen-helium mixtures

17 p2728 A71-34883

Computer simulation of strongly ionized potassium and hydrogen plasmas relaxation during rapid electrode cooling by He atoms, noting population inversions

17 p2788 A71-35257

Operating characteristics of Q switched CO-He laser, discussing energy transfer processes leading to population inversion

18 p2929 A71-35835

Self pulsing in homogeneously broadened oscillator, using materials with short recovery time for appreciable inverted population density modulation

18 p2929 A71-35901

Gas dissociation in carbon dioxide laser by IR absorption method, investigating role in population inversion

18 p2932 A71-37008

Einstein relations for stimulated luminescence, and application to high pressure chemical laser power gain and population inversion calculation

19 p3075 A71-38265

Carbon dioxide lasers, covering molecular structure, IR spectra and laser transitions, population inversion mechanisms, gas discharge and longitudinal flow

20 p3243 A71-39067

Carbon dioxide, nitrogen and water vapor hot mixture expansion through Laval nozzle, showing population inversion on carbon dioxide laser transition

22 p3556 A71-41726

Inverted populations of molecular vibrational states for lasers, using strongly exothermal explosion-accompanied chemical reactions

22 p3557 A71-41819

Helium effects on dissociation and population inversion dynamics in pulsed carbon dioxide lasers

22 p3558 A71-42268

Population inversion development and breakdown in active medium produced by plasma generation during pulsed discharge in molecular nitrogen laser

23 p3684 A71-43406

Traveling wave laser with confocal, plane and semiconcentric resonators, calculating emission field spatial-temporal structure and inversion distribution

23 p3685 A71-43561

POPULATION THEORY

Gas laser optical pumping based on photodissociation, calculating spatial temporal distributions of pump radiation absorption probability and main level population

07 p1125 A71-19806

Biomathematical model and least square estimation from time series data of discrete particle population in stochastic compartmental system

14 p2265 A71-30181

POPULATIONS

Dwelling unit estimation with color IR photos, applying aerial photointerpretation to urban analysis

13 p2064 A71-29396

PORCELAIN

Ti dioxide-opacified porcelain enamel reflectance spectra analysis, deriving scattering cross sections and dispersed particle sizes and distribution

09 p1480 A71-22116

PORES

U POROSITY

POROSITY

NT MICROPOROSITY

TiC and ZrC samples with different porosities, examining bending strength at various temperatures

01 p0102 A71-10786

Au plated contacts deterioration by pore corrosion, noting resistance relation to basis or underplated metals porosity

01 p0102 A71-10800

Doped W wire core porosity and anomalous recrystallization behavior microstructural observation by electron microscopy

02 p0268 A71-12890

Porosity in gas tungsten arc aluminum weldments and elimination by hydrogen reduction

07 p1119 A71-19969

Semiconductor thermoelectric materials intercrystalline boundaries porosity effects on electrical and thermal conductivity

09 p1506 A71-22162

Mercury intrusion porosimetry application to pore size and shape measurements for porous solids, discussing solid and air compressibilities, surface tension, contact angle, etc

09 p1453 A71-22168

Al-Mg alloy positional welding for porosity elimination

09 p1457 A71-23356

Nickel alloys susceptibility to pores formation in tungsten inert gas welding in argon-nitrogen mixture, considering influence of Cr, Mo and W

14 p2260 A71-30487

Flame or plasma sprayed ceramic coating porosity estimation, using statistical distribution of breakdown voltage in coating

15 p2438 A71-31285

Hydrogen and nitrogen pores formation in welds, considering gas concentration redistribution between liquid and solid metal

15 p2417 A71-32663

Permeability and porosity of Precambrian Onverwacht cherts and other low permeability rocks, discussing geological origin of rock-contained organic compounds

18 p2913 A71-36768

Shock metamorphism of Coconino sandstone at Meteor Crater /Arizona/, examining porosity role in rock compression and in high pressure phases formation

19 p3050 A71-37659

Flow induced vibration suppression by perforated concentric shroud around circular cylinder, investigating porosity and shroud/cylinder diameter ratio effects

21 p3458 A71-40283

Apollo 12 basalts porosity and volume compressibility under hydrostatic pressure

23 p3759 A71-43768

Brittle ceramic materials strength, showing porosity effect dependence on Weibull homogeneity parameter value

23 p3698 A71-44225

Total-to-open porosity ratio for carbide-iron type materials sintering, noting relative density and chemical composition effects

24 p3838 A71-44736

POROUS BOUNDARY LAYER CONTROL

Minimum suction rate preventing laminar boundary layer separation from curvilinear porous surface in jet flow

02 p0186 A71-12553

Two dimensional test facility in blowdown wind tunnel transonic section, discussing porous sidewall boundary layer control effects on airfoils geometric characteristics

[AIAA PAPER 71-293]

09 p1428 A71-22957

Boundary layer approximation for isothermal turbulent plane semibounded jet expanding over porous surface, deriving friction stresses and flow velocity in skin and stream regions

20 p3214 A71-39795

POROUS MATERIALS

Porous metal fiber laminar vacuum insulation, calculating steady state heat and mass transfer

01 p0179 A71-10615

Porous Ti thermal and electrical properties from room to high temperatures

01 p0102 A71-10785

Fuel cell electrodes preparation by sputtering thin Ta and Pt layers on porous Vycor

03 p0353 A71-13056

Blunt body nose protection from radiation-convective heat transfer, using porous injection of radiation absorbing substance

04 p0685 A71-15518

Sponge titanium quality improvement involving chlorination, tetrachloride purity, magnesium and thermal reduction

04 p0616 A71-15824

Rushing effects on fractional composition and quality of sponge titanium, including optimum end size of pieces

04 p0616 A71-15825

Accelerating flame front generation and propagation controlling mechanism in porous propellant

[AIAA PAPER 71-210]

06 p0948 A71-18646

Polymeric materials for silver zinc battery separators, discussing porous and solvent-type pore free membranes

08 p1234 A71-21091

Ti-Mo alloys porous materials for work in hot solutions of nonoxidizing acids, discussing production technology and corrosion resistance

08 p1317 A71-21857

Mercury intrusion porosimetry application to pore size and shape measurements for porous solids, discussing solid and air compressibilities, surface tension, contact angle, etc

09 p1453 A71-22168

Sponge iron sintered powder compacts deformation behavior from uniaxial compression tests, proposing plasticity prediction criteria

09 p1466 A71-22169

Liquid-solid interface phenomena during sintering and porous materials impregnation by liquid metals, using spherical and nonspherical particle models

09 p1457 A71-23391

Binary phase systems stress analytic method for water saturated elastic porous medium

10 p685 A71-39993

Porous structure effects in oxygen consuming cathode, discussing electrode thickness, effective pore diameter, pressure difference and electrode performance

11 p1709 A71-25553

Partition walls sound insulation by porous absorbers, discussing differential equations and acoustic properties

12 p1929 A71-27062

Gas flow heat loss through porous metals, deriving hydraulic resistance and heat release coefficients

13 p2165 A71-29218

Porous glass hyperfiltration membranes stabilization by aluminum chloride solution, noting retreatment need

13 p2026 A71-29377

Porous carbon and graphite substrates chemical vapor deposition carbon infiltration process, discussing isothermal and thermal and pressure gradients techniques

14 p2262 A71-29652

Hollow carbon microspheres from pitch material, emphasizing applications in porous composites

14 p2263 A71-29657

Porous Ti-Mo alloy materials for operation in hot solutions of nonoxidizing acids, discussing production technology and corrosion resistance

14 p2260 A71-30836

Explosives in porous state under impact loads, obtaining adiabats, compressibility and temperatures

15 p2511 A71-31384

Porous refractory materials for thermochemical protection against high temperature plasma flow, discussing effectiveness in erosive wear reduction

15 p2432 A71-32164

Coolant thermophysical properties effect on heat transfer intensity in porous metals, analyzing differential equations

17 p2835 A71-34204

High porosity carbon-graphite materials thermal and electrical conductivities at high temperatures by potentiometric method 17 p2761 A71-34208

Ionizer, neutralizer and ion optics of cesium contact ion thruster, examining porous W materials technology [DGLR-71-033] 17 p2793 A71-35535

Sealing porous metal castings and powdered parts, discussing impregnation by vacuum-pressure and internal circulatory methods and sealant types 18 p2928 A71-36838

Diaplectic glass formation by experimental shock loading of orthoclase in porous mixtures 19 p3084 A71-37662

Counterflow methane diffusion flames structure in forward stagnation region of porous cylinder, measuring velocity, temperature, concentration, reaction rate and heat release rate profiles 19 p3168 A71-38108

Porous material slab pyrolysis, studying density and thermal conductivity changes and reaction kinetics 19 p3170 A71-38117

Strain rate dependent constitutive relation for shock propagation in porous materials, discussing relaxation time 21 p3465 A71-40794

Computationally convenient equation of state describing porous materials shock response 21 p3466 A71-40795

Porous Cu and W shock loading properties, discussing principal Hugoniot data for P alpha dynamic response model 21 p3466 A71-40796

Porous materials prepared from electrolytic Cr powder, noting high permeability and strength and filter applications 23 p3689 A71-43252

Temperature field measurements above porous surface during ice-water sublimation into vacuum, showing discontinuities due to external heat and mass transfer 23 p3784 A71-44340

Porous fiber reinforced composite low density heat insulating materials thermal conductivity measurements, showing energy transport by heat transfer mechanisms 23 p3784 A71-44341

Flow and strain analysis and engineering design of porous cylindrical gas film foil bearing at low pressures 24 p3830 A71-44944

Pressure distribution in narrow porous metal bearings solved with Bessel functions in cylindrical coordinates, finding lower load capacity 24 p3830 A71-44950

Heat transfer in transpiration cooled porous heat sources, deriving dimensionless temperature profiles 24 p3891 A71-45185

Gas accumulation mechanisms in porous lunar surface layer, discussing ground samples from Sea of Tranquility 24 p3875 A71-45189

POROUS PLATES

Laminar boundary layer on porous plane plate situated in plasma jet, examining transfer phenomena with chemical reaction 04 p0572 A71-15507

Air injection into turbulent boundary layer flow through porous plate, examining heat transfer and shielding efficiency 05 p0838 A71-16783

Plane incompressible MHD boundary layer on porous plate, considering heat and mass transfer in blowing or suction velocity distribution 06 p0936 A71-17736

Turbulent boundary layer on porous plate with suction and heating, measuring mean velocity and temperature profiles at various locations along wall as function of suction rate 07 p1219 A71-18759

Fluid inertia effect on porous thrust plate, using mathematical model for prediction [ASME PAPER 70-LUB-18] 07 p1088 A71-19625

Viscous conducting fluid MHD fluctuating flow over porous flat plate with time dependent suction, determining skin friction and transient velocity profiles 07 p1169 A71-20028

Uniform magnetic field effect on rarefied gas slip flow over porous flat plate for skin friction response, using velocity and temperature fields equations 10 p1649 A71-24407

Steady two dimensional MHD laminar flow between two parallel circular porous disks in transverse magnetic field, determining velocity, pressure and shear stress distribution 10 p1649 A71-24408

Velocity, temperature and concentration profiles correlation for compressible turbulent boundary layer along porous flat plate, with carbon dioxide injection, discussing cooling applications 10 p1598 A71-25095

Laminar source flow between rotating parallel porous disks with equal suction/injection rates solved for infinite radius series, discussing radial velocity and shear stress distributions 12 p1896 A71-27052

Plane Couette flow with suction/injection at stationary plate, obtaining motion and continuity equations, pressure distribution and friction coefficient 13 p2047 A71-28520

Compressible laminar boundary layer flow over semiinfinite isothermal porous flat plate in nearly quasi-steady motion, considering skin friction and heat transfer 13 p2048 A71-28600

Simultaneous partial differential equations, applying to one directional diffusion in finite porous slab accompanied by chemical reaction 13 p2025 A71-29011

Viscous gas flow past semiinfinite porous plate with gas injection or suction and identical composition in outer flow 14 p2224 A71-30002

Incompressible laminar skin friction calculation on porous plate by Karman-Pohlhausen method, considering surface blowing 15 p2392 A71-32118

Gas cooled porous plate unsteady temperature field during high temperature action, considering thermoradiative, convective and mixed radiative-convective heat transfer 16 p2662 A71-32833

Air injection into turbulent boundary layer flow through porous plate, examining heat transfer and shielding efficiency 16 p2662 A71-33035

Heat and mass transfer through porous plate into turbulent two dimensional incompressible boundary layer, using Van Driest damped mixing length [ASME PAPER 71-HT-10] 19 p3045 A71-37986

Fuel rich premixed hydrogen-oxygen flame stabilization on cooled porous plate burners at 10 mm Hg 19 p3168 A71-38107

Pressure sensors thermal protection by porous Zr disk as heat shield, considering acoustic transparency, linearity, transient response and air flow resistance [ONERA-TP-957] 22 p3547 A71-42501

POROUS WALLS

Heat transfer between rarefied monatomic gas and porous wall, examining temperature jump with model kinetic equation for Knudsen layer 01 p0179 A71-10612

Gas and fluid flow through flat and cylindrical porous cermets walls, determining permeation energy loss and radial flow hydraulic resistance 02 p0240 A71-12277

Turbulent flow near porous wall with pressure gradient, calculating velocity and shear distribution by modified Van Driest theory 03 p0399 A71-13432

Heat exchange in dissociating partly ionized gas flow over critical point on permeable surface with injection into laminar boundary layer 03 p0342 A71-13748

Steady incompressible laminar pipe flow within porous wall cylinder, determining velocity, pressure distribution and shear stress [ASME PAPER 70-WA/FLCS-3] 03 p0401 A71-14079

Turbulent heat and mass exchange intensity at gas screen, investigating nonisothermality and wall penetrability effects 04 p0683 A71-15497

Supersonic compressible turbulent boundary layer on porous cylinder with air injected through wall, investigating heat transfer 04 p0571 A71-15498

Aqueous acid solution turbulent boundary layer characteristics during alkali solution injection through porous surface in presence of positive pressure gradient 04 p0576 A71-15614

MHD oscillating flow along infinite unmagnetized conducting plane porous wall, deriving temperature field in boundary layer 06 p0937 A71-18231

Tilting pad hydrodynamic and porous hydrostatic gas lubricated journal bearings for miniature cryogenic turbomachinery [ASLE PREPRINT 70LC-10] 08 p1298 A71-21158

Incompressible inviscid fluid flow in presence of two homogeneous porous layers, examining hydrodynamic instability 10 p1591 A71-23754

MHD effects on transpiration cooled Couette flow through porous wall, considering magnetic drag produced pressure differential and shear recovery rates 10 p1649 A71-24404

ABM control surfaces active oxidation protection, using ammonia as reactive coolant injected through porous W wall matrix [AIAA PAPER 71-391] 11 p1837 A71-25353

Partition walls sound insulation by porous absorbers, discussing differential equations and acoustic properties 12 p1929 A71-27062

Laminar boundary layer equations integration for jet propagating along porous surface, determining transverse velocity component effect 12 p1896 A71-27114

Heat exchange at large Prandtl numbers near porous flat wall with liquid injection, calculating Stanton number 13 p2046 A71-28181

Supersonic flow around porous-wall conical body with uniform gas injection through wall, deriving equations for pressure at contact surface 13 p1990 A71-28182

Entrance region laminar flow development under suction or blowing at porous inner wall in concentric annular duct 13 p2160 A71-28602

Radiant heat transfer measurements on sintered gauzes, considering mathematical model of porous wall with sweat cooling 13 p2161 A71-28750

Curved porous wall channels for noise suppression in power plants, ventilation systems, etc 15 p2449 A71-31705

Radiation source consisting of porous wall heated internally by hot gas, noting application as high altitude or space flare 17 p2728 A71-34888

Interior region of incompressible turbulent boundary layer with pressure gradient on permeable wall, discussing local similitude hypothesis 17 p2729 A71-35346

Quasi-stationary viscous incompressible liquid flow in porous tube with deforming wall 17 p2694 A71-35641

MHD equations of motion solved for conducting fluid interaction with electromagnetic field in porous media in range of Darcy law 18 p2953 A71-36948

Plane Couette-Poiseuille flow stability between porous walls with fluid injection and suction causing uniform crossflow 19 p3044 A71-37728

Unsteady viscous compressible flow through straight channel with flat porous walls under time varying pressure 21 p3367 A71-40591

Plain externally pressurized thrust air bearings with porous inserts and high supply pressures, comparing with discrete orifice feed 22 p3553 A71-41679

Steady laminar viscous hydromagnetic flow in annulus with porous walls of different permeability, giving wall friction coefficients and velocity distribution 23 p3708 A71-43099

Heat and mass transfer in binary laminar boundary layer with free convection on vertical porous surface, integrating momentum and energy equations for upper limits 24 p3887 A71-44744

Compressible gas flow in two dimensional porous wall, calculating heat transfer and mass flow by conformal mapping for Laplace equation solution 24 p3889 A71-44972

PORPHYRA

Rare earth, alkali and alkaline earth elements content of phenocrysts and acidic igneous magma 23 p3734 A71-43246

PORPHYRINS

NT CHLOROPHYLLS

Porphyryns and amino acids chemical bonding under geochemically plausible conditions, considering diagenesis of biogenic compounds and life processes prebiotic chemical evolution 02 p0198 A71-12047

Porphyryns optical and semiconductor properties concerning absorption, electrical conductivity and photoconductivity spectra 06 p0941 A71-17526

Hematoporphyrin chlorhydrate radioprotective effects on mice, removing, weighing and fixing spleens for hematopoietic colonies count 07 p1036 A71-18960

Biochemical luminescence reaction for ferro-porphyrin proteins determination in extraterrestrial life detection 13 p2009 A71-28684

Porphyry-like pigments in Apollo 12 lunar soil sample 12023, using spectral analysis involving fluorescence, absorption and magnetic circular dichroism spectrometry 23 p3756 A71-43739

Apollo 12 lunar surface fines examination noting absence of porphyryns 23 p3756 A71-43740

PORTABLE EQUIPMENT

Lunar communications relay unit, discussing system design, capability and tradeoffs 01 p0035 A71-10919

Portable direct reading spectrometer for monitoring oxygen-hydrogen containing contaminants in gas tungsten arc welding process
02 p0247 A71-11712

Skyнет type 3 and 4 transportable ground stations, describing antenna, radio cabin with IF and control equipment and channeling cabin with baseband equipment
02 p0217 A71-12437

High efficiency spherical reflector antennas with scanning and multiple feed properties for communication satellite portable earth stations
02 p0233 A71-12792

Skyнет satellites earth stations design, structure, transportation and erection ease, considering operational and stowed position survivability in high velocity winds
02 p0223 A71-12804

Transportable photoelectric satellite tracking system with 4-axis support for Schmidt-Cassegrain telescope, discussing field testing results
03 p0397 A71-14004

Portable photoelectric recorder for solar limb vibration frequency spectrum and amplitude measurements
04 p0590 A71-14844

Thermoconductometric portable hydrogen analyzer for air around industrial centers, using bridge tungsten sensor network
04 p0601 A71-15675

Portable Cf 252 neutron radiographic camera, noting reactor fuel and concrete polymer content measurements
07 p1119 A71-19950

Rail track roughness and irregularities evaluation by railcar vibration measurements, using portable LF low amplitude acceleration measuring and recording system
[AIAA PAPER 71-384] 11 p1845 A71-25349

Total emittance measurements by portable IR reflectometer, tabulating nongray error effects
13 p2159 A71-27979

Gunn effect diode in portable Doppler radar, describing electron transfer, negative resistance and domains formation and propagation
13 p2040 A71-29238

Mobility definition and measurement methods, discussing portable instrument and vibration testing application
14 p2252 A71-30056

Low cost go/no-go portable aircraft engine tester connected to engine mounted sensors
14 p2221 A71-30327

Satellite telecommunication systems, considering standard and small transportable ground stations and Intelsat system
17 p2696 A71-34233

Portable self contained Imacon image converter high speed camera system capable of framing and streak operation
18 p2924 A71-36614

Transportable high radiance lunar ranging laser system, describing optical equipment in ruby and Nd-glass laser experiments
18 p2883 A71-36917

Portable run-of-wind recorder featuring variable gear changes to facilitate range adjustments
18 p2925 A71-36960

High resolution portable hologram recording camera with pulsed ruby laser light source and rechargeable storage batteries as self contained power supply
21 p3380 A71-40926

Mobile monitoring and testing meteorological laboratory design and equipment for automated station network, considering pressure sensors, thermohygrostat and wind measurement
21 p3365 A71-41381

PORTABLE LIFE SUPPORT SYSTEMS
Advanced regenerative portable life support system concept analysis for long duration and multiple extravehicular activity
[ASME PAPER 71-AV-10] 18 p2866 A71-36377

PORTS [OPENINGS]
Internally ported vortex amplifier, presenting dynamic equivalent circuit with transfer functions
07 p1025 A71-20555

Static pressure port errors in hypersonic turbulent flow, using approximate shear layer momentum balance for pressure increase derivation
[AIAA PAPER 71-270] 08 p1228 A71-21996

POSITION
S-wave elastic positron-hydrogen scattering in ionization region, estimating error in extrapolated t matrix from complex energy
19 p3106 A71-37375

POSITION [LOCATION]
NT SOLAR POSITION
Visual threshold dependence on retinal location for various colors under conditions of scotopic, mesopic and photopic adaptation
01 p0009 A71-10233

Disordered materials electronic structure band states localization, examining mobility edges
01 p0140 A71-11441

Radio sources position measurement with three-element interferometer by self calibrating technique
02 p0314 A71-12577

Radio sources optical position measurement on Schmidt plates
02 p0314 A71-12578

Pulsar pulse arrival times measurement for general relativity theory test, determining positions and period change rates
02 p0315 A71-12660

Lagrange points role in three body problem, discussing applications to space probe positioning
02 p0316 A71-12739

Triangulation position fix techniques employing lines of bearing, n-locus, least square fits and resection by intersection method
02 p0280 A71-12900

Cosmic ray nuclei galactic disk confinement determination, considering particle mean age by radioactive Be10 tracer method
03 p0480 A71-14052

Minor planets precise position tabulations, correcting previously published data
03 p0493 A71-14195

Passive mode navigation satellite position fixing, using synchronous satellite and Loran type chart with correction tables
04 p0622 A71-15004

Balloon position determination in Venusian atmosphere, using ranging measurement and radiated signal polarization
04 p0623 A71-15014

Lunar position on stellar field for ephemeris time determination, discussing planet and satellite positions with respect to astronomical constants
05 p0809 A71-16460

Celestial bodies position determination, discussing optical observation, interferometry, radar, lasers and applications
05 p0811 A71-16650

Radio emission from small galactic nebulosities, describing position, flux densities, identification and exciting stars
05 p0811 A71-16683

X ray sources identification and position measurements near galactic center on basis of rocket experiments
05 p0814 A71-17234

Pulsar data tabulation of positions, dispersion measures, and class I pulse periods and widths
06 p0966 A71-17676

Computer program for determining roving vehicle position and heading on lunar surface by landmarks
08 p1332 A71-21348

Suzuki-Sato-Seki and other 1970 comets, discussing position observation and ephemeris calculation
09 p1516 A71-22069

Aerial photographs orientation point location, relating measurement weight of transverse parallax
09 p1451 A71-23178

Simulated artificial satellite position determination, using experienced and inexperienced observers
09 p1528 A71-23547

Fog droplet and rain effects on propagation of echo location signals from bats
10 p1638 A71-24423

Cygnus X-1 and X-2 X ray source location from Uhuru satellite measurements
11 p1814 A71-25213

Eccentric satellite observation, considering geodesic determination of coordinate difference between observation station and reference point
11 p1732 A71-25818

Radio source and associated elliptical galaxy major axes position angles correlation
13 p2135 A71-28299

Locating neutral layer and critical curvature radius in aircraft components waffle panels under elastoplastic bending
13 p2074 A71-28940

Distant artificial cosmic objects coordinate determination by image converter/closed TV system screen photography and TV observations of space probes
14 p2309 A71-29992

Thunderstorms and lightning flashes location determination by ground based and satellite measurements of disturbance induced RF noise, using atmospheric spectral characteristics for range estimating methods
14 p2203 A71-30958

Positions and flux densities of radio sources from Fourth Cambridge catalog by pencil beam measurements at 408 MHz, using Molonglo telescope
15 p2485 A71-31697

Optical positions of 87 identified extragalactic radio sources between declinations plus 19 and minus 80 deg, using Palomar Sky Survey plates and prints
15 p2489 A71-32398

Autonomous location determination for rotating dynamic plant with inertial platform by constructing finite rotation vector
17 p2775 A71-35601

X ray source Cygnus X-1 location measurement by balloon, noting agreement with Uhuru data
18 p2959 A71-37052

X ray source Cygnus X-1 position determination by Aerobee rocket-borne rotating modulation collimator
18 p2970 A71-37053

Position determination on planetary surface from gravity and star line-of-sight direction measurements, presenting numerical results for Apollo lunar landing missions
[AIAA PAPER 71-900] 19 p3095 A71-37151

Geometrical optics convergence coefficient in earth ionosphere waveguide for arbitrary transmitter receiver location
19 p3017 A71-37866

NASA Staden and Speopt optical and laser tracking sites dynamic position estimations from GEOS 1 and 2 observations, analyzing model error effects
20 p3220 A71-39662

Geodetic locations of Doppler satellite observing stations consistent with CIO pole and astronomical determinations
[AAS PAPER 71-341] 23 p3666 A71-43014

X ray sources pulsation limits and locations determination by rocket-borne rotating modulation collimator
24 p3866 A71-44914

Eclipsing variables period change dependence on spherical coordinate of stellar position in sky from O-C diagrams
24 p3873 A71-45080

Position line location determination by discrepancy moduli sum minimization algorithm
24 p3846 A71-45161

Selenodetic catalog centers mutual positions determination from lunar near side hypsometric charts
24 p3875 A71-45316

POSITION ERRORS
Short pulse optical tracking systems ranging error, analyzing effects of tracker, target and propagating medium characteristics
02 p0214 A71-12029

Radio sources position errors, comparing optical and radio measurements
02 p0314 A71-12579

Orbiting vehicle state variables at ballistic transfer termination for known injection errors, calculating fuel consumption for final adjustments
03 p0485 A71-13249

Heading of object moving on terrestrial sphere surface with inertial navigation aid, calculating asymptotic stability for position determination on computer
03 p0459 A71-14355

Hybrid computer simulation of three degree of freedom surface to air missile trajectory, obtaining cluster of points for position errors
04 p0642 A71-14798

Range and range rate measurement errors between ground station and artificial satellite, investigating atmospheric refraction effects
04 p0661 A71-15003

Geodetic survey adjustment and accuracy improvement using satellite radar range and ballistic camera data
04 p0583 A71-15302

Geodetic position rapid determination accuracy by Doppler satellite observation
04 p0583 A71-15304

Mars photographic positions on double short focus astrophotograph with random error for ascent and declination
07 p1194 A71-19332

Deimos and Phobos position measurements by photographic observations, including refractor and astrophotograph errors
07 p1194 A71-19333

Altazimuthal telescope mounting with computer controlled guidance, discussing instrumental and methodical error effects on positioning and tracking accuracy
07 p1083 A71-19348

Celestial and satellite navigation sensitivity for Lunar roving vehicle (L/RV) position fix
07 p1157 A71-20414

Longitudinal direction positioning error effects on grating lobe field deviation and reduction in uniform linear arrays
08 p1257 A71-21885

Instrument orientation optimization for ballistic missile applications, emphasizing acceleration induced velocity and position errors
11 p1796 A71-26410

Moving window and feedback integrator type scanning radar detectors performance comparison based on probability and position estimates by Monte Carlo simulation
12 p1882 A71-27441

Observation errors in double star studies, considering inclusion of corrections in Central Catalog
14 p2311 A71-30370

Combined inertial and instrument landing aircraft navigation systems with reduced cross runway position and velocity errors, using optimal linear estimation
14 p2272 A71-30606

Camera vibration, and refraction anomaly effects on error of designated position for star or satellite
14 p2250 A71-31120

Stereoscopic effects and apparent shape or position of moving objects at relativistic speeds under binocular observation 16 p2535 A71-33166

Schmidt telescope as astrometric instrument, comparing mean error with catalog positions 16 p2578 A71-33322

Correction method for satellite radio tracking errors due to VHF refraction in atmosphere 16 p2543 A71-33832

Integrated airborne Omega/inertial navigation systems performance prediction using statistical models for position fix errors 17 p2776 A71-35769

Radio tracking of aircraft by two geostationary satellites, discussing measurement, navigation and position errors 18 p2945 A71-36508

Aircraft position errors computation for ATC mathematical surveillance models, estimating collision risk [AIAA PAPER 71-927] 19 p3097 A71-37173

Visual target pursuit tracking test confirming error amending by central mechanism without sensory feedback 19 p3007 A71-37545

Radio sources position data table based on high accuracy telescope observation including calibration uncertainties and measurement random errors 19 p3142 A71-38008

POSITION INDICATORS

NT PLAN POSITION INDICATORS

NT RADIO DIRECTION FINDERS

NT SPACECRAFT POSITION INDICATORS

LOLA /Location and Orientation of Lunar Astronauts/ system using RF ranging and solar sensor, discussing configuration, operation, accuracy and electronics 04 p0623 A71-15303

Ultrasonic position sensor for automatic control, using short pulses for azimuth and range resolution 06 p0896 A71-17321

Fluidic noncontact position sensor, investigating flapper insertion effect on laminar jet flow 07 p1030 A71-20599

Fluidic coincidence position sensors, using wall attachment amplifiers and nozzle displacement 07 p1030 A71-20601

Selenographic position determination method based on stellar observations 09 p1530 A71-23714

Magnetometer for indicating position of constant level meteorological balloons provided with solar sensors 10 p1612 A71-24759

Precision area navigation system, considering position and velocity continuous measurement in three dimensional space, system components and simulation program 17 p2771 A71-34616

GALAXY machine for measuring image position and brightness and converting Schmidt telescope photographic data into computer form, outlining design and development 17 p2741 A71-34996

POSITION SERVOS

U SERVO MOTORS

POSITIONING

Space communication reflector surface positioning and optical measuring techniques for best fit 02 p0234 A71-12805

Al-Mg alloy positional welding for porosity elimination 09 p1457 A71-23356

Ion microthruster for satellite orbit and position corrections, describing optimum performance characteristics and test facility [DGLR-71-032] 17 p2795 A71-35548

Dynamic positioning stationkeeping and stability criteria for formation flight systems extended to helicopter and V/STOL transports 18 p2849 A71-35923

Dogs intrapleural and intraesophageal pressures dependence on head positions 19 p3010 A71-38564

Aircraft lateral dynamics effect on positioning accuracy along straight flight path, using Loran C data 20 p3261 A71-38864

POSITIONING DEVICES [MACHINERY]

NT BOOMS [EQUIPMENT]

NT CAMS

He-Ne laser as detectors in mine boring, quality/compensational control, data collection/reduction and positioning accuracies 09 p1458 A71-23409

Max Planck Institute 100 m radio telescope at Bonn with all motions fully controllable, describing foundation constructional details, reflector structure and positioning gear 14 p2214 A71-30813

High angular resolution optical telescopes, considering mirror materials, optical coatings and pointing systems 16 p2580 A71-33739

Optical telescopes automatic electronic control by positioning mechanical axis to specified coordinates and tracking guide star 17 p2740 A71-34983

Digital computer process controller for telescope with driving system consisting of single worm wheels for tracking and slewing 17 p2740 A71-34985

Automatic star follower for camera by optically splitting stellar image and measuring radial displacement by comparing signals 17 p2740 A71-34987

Skylab pointing and control system using control moment gyros and cold gas reaction thruster system to provide attitude control 17 p2813 A71-35064

Precision tracking and pointing of laser beams in space for communication, discussing large space telescope /LST/ applications 18 p2920 A71-36090

POSITIVE FEEDBACK

Regenerative feedback amplifier with maximally flat amplitude-frequency response 04 p0556 A71-14621

Regenerative transfer amplifiers normalized reactive parameters effects on phase linearity 06 p0872 A71-17376

Unstable high speed optronic /photoelectric/ flip-flop memory elements with positive optical feedback 07 p1075 A71-19303

Frequency characteristics calculation of regenerative two cavity microwave bandpass amplifiers, applying to parametric and quantum amplifiers and underexcited microwave relaxation oscillators 09 p1413 A71-22157

Superregenerative linear mode amplification in Q switched He-Xe laser as function of resonator phase, length and signal angle 10 p1621 A71-24713

Differential phase frequency characteristics of low noise or tunnel diode regenerative amplifiers 11 p1738 A71-25941

Parametric regeneration amplifier with capacitor modulation by signal voltage only 15 p2378 A71-32633

Differential phase frequency characteristics of low noise or tunnel diode regenerative amplifiers 20 p3205 A71-39261

Regenerative feedback amplifier with maximally flat amplitude-frequency response 22 p3521 A71-42261

Dynamic active element model of electroluminescent image converter with positive optical feedback, using voltage-brightness approximation 24 p3808 A71-44389

Regenerative nonlinear RC amplifier oscillations due to series opposed varicap diode capacitance 24 p3810 A71-45261

POSITRON ANNIHILATION

Annihilation quanta detector and positron source for gas density measurement, noting sensitivity, counting interval and Be covering thickness 07 p1164 A71-20178

Positron annihilation rates in lanthanum hydrides of various composition 09 p1506 A71-22148

Low energy gamma ray measurements by balloon flights, detecting peak energy due to electron-positron annihilation 15 p2479 A71-32077

POSITRONIUM

Positron-hydrogen scattering below positronium pickup threshold by Hylleraas bound technique, discussing phase shifts and linear parameters 11 p1803 A71-26372

POSITRONS

Electron-positron pair production during focusing of laser radiation in dense plasma 01 p0135 A71-11094

Supernovae positrons and low energy cosmic rays flux, determining ejected matter plasma properties 01 p0145 A71-11338

Electron-positron pair production during focusing of laser radiation in dense plasma 08 p1342 A71-21952

Positron-hydrogen scattering below positronium pickup threshold by Hylleraas bound technique, discussing phase shifts and linear parameters 11 p1803 A71-26372

S wave scattering from H and He positron systems at low energies, applying Kohn and Harris variational methods 11 p1803 A71-26373

POSTERIOR SECTIONS

Posterolateral thalamus nucleus neurons response to visual, acoustic and somatic stimuli in cats with microelectrodes 22 p3490 A71-42578

POSTFLIGHT ANALYSIS

Postflight analysis including six degree of freedom trajectory digital simulation of Aerobee 350 sounding rocket behavior under large thrust misalignment [AIAA PAPER 70-1380] 03 p0498 A71-13663

MITOL problem-oriented compiler language for real time and postflight telemetry data processing 04 p0556 A71-15295

Skin tissues autmicroflora composition and natural immunity indices changes after 18 day orbital flight from microbiological and immunological examinations 09 p1389 A71-22204

Postflight histological analysis of turtles aboard Zond 7, noting decrease in cell nuclei size due to space flight conditions adaptation 21 p3334 A71-40568

POSTULATES

U AXIOMS

POSTURE

Coronary hemodynamic responses to postural changes in hemorrhaged dogs involving head-up and head-down tilts 11 p1720 A71-26114

Joint action of various afferents in regulation of human posture, considering appropriate differential reactions 13 p2003 A71-27833

Posture and lower body negative pressure effects on human heart rate and blood pressure 23 p3636 A71-44241

POTABLE LIQUIDS

NT POTABLE WATER

POTABLE WATER

Feeding systems, potable water and waste disposal in space cabins 08 p1245 A71-20730

Automated self sterilizing breadboard unit for potable water reclamation from urine by electrolysis-electrodialysis for long term space missions [ASME PAPER 71-AV-11] 18 p2866 A71-36378

POTASSIUM

NT LIQUID POTASSIUM

NT POTASSIUM ISOTOPES

Potassium vapor emission spectrum fine structure in high power ruby laser field, noting dependence on vapor pressure 02 p0262 A71-12612

Apollo 11 igneous rocks potassium content vs irradiation exposure age, comparing lunar geology models 06 p0966 A71-17897

K-U abundance systematics in Apollo 11 and 12 lunar rock suites and earth crust 06 p0968 A71-17961

Ehrlich ascites tumor cell membrane potassium and electrophoretic mobility loss, investigating radiation effects under radiosensitizing and radioprotecting drugs 07 p1036 A71-18956

MHD generator with Ar-K plasma, examining electrical insulation behavior 08 p1237 A71-21930

Preionization and velocity effects in MHD channels containing potassium seeded argon plasma at atmospheric pressure 11 p1804 A71-25488

Apollo 11 and 12 lunar samples compared with deep earth rocks, noting potassium-uranium ratio 14 p2318 A71-31126

Three stage potassium vapor turbine for space systems electric power generation, discussing erosion and endurance tests 15 p2415 A71-32214

Resonance radiation field of positive column of low current electric arc burning in nonequilibrium Ar plasma with admixture of K, using optical probe 15 p2457 A71-32270

Hypoxia effects on myocardial potassium balance in dogs during cardioaccelerator nerve and atrial stimulation 16 p2529 A71-33195

Temperature stabilization with self controlled water and radiation cooled heat pipes using argon in addition to K heat transfer medium 16 p2663 A71-34039

Na and K transition oscillator strengths, noting core polarization effects on mathematical model 16 p2615 A71-34088

Vapor bubble growth on heated surface with random temperature distribution and liquid microfilm for water and boiling potassium 17 p2836 A71-34306

Potassium-argon age determination for shock-metamorphosed anorthosites of Manicouagan-Mushalagan Lakes structure 19 p3049 A71-37657

K-Ar dating of shock metamorphosed rocks from Brent impact crater /Ontario, Canada/ 19 p3050 A71-37658

Potassium concentrations and osmolality levels changes effects on vascular resistance in subcutaneous adipose tissue blood flow 20 p3189 A71-39379

Potassium photoionization cross section, including spin-orbit interaction, orientation of photoejected electrons and dipole transition moment correction due to core polarization 21 p3417 A71-40197

Fission track and K-Ar ages of coexisting minerals in drill core from heat-flow boreholes in western central Sierra Nevada batholith 21 p3374 A71-40649

Mineralogy, chemistry and origin of KREEP /potassium, rare earth element and phosphorus/ component in Apollo 12 soil and breccia samples from Ocean of Storms 23 p3741 A71-43632

Ar-K and He-R plasma conductivity measurement at atmospheric pressure from equilibrium to nonequilibrium conditions, using electrostatic probes 23 p3714 A71-44275

Residual resistance measurements for studying recovery of high purity potassium wires deformed at/below 4.2 K, discussing anomalous difference with sodium 24 p3861 A71-45195

POTASSIUM ALLOYS
NaK lubricated segmented hydrodynamic fluid film tilting pad type journal bearings and Kingsbury type self aligning thrust bearings 15 p2447 A71-32210

POTASSIUM BROMIDES
Cadmium telluride epitaxial films on potassium bromide, investigating external gases effects on photovoltaic properties 07 p1179 A71-19919

Shock wave splitting in KBr, determining shock profiles and velocities by electromagnetic method 15 p2463 A71-31385

POTASSIUM CHLORIDES
Sm double plus ion sites distribution in KCl by spectroscopy 09 p1506 A71-22147

KCl films exciton-induced photoemission, discussing mechanism of photoelectron emission rise with time under steady UV radiation 09 p1508 A71-22685

Liquid KCl and LiF surface films effect on combustion rate of ammonium perchlorate mixtures with polystyrene or polymethyl methacrylate for various initial temperatures 15 p2462 A71-31371

Optical absorption and electron spin resonance in KCl with and without KOH, noting F band existence 21 p3414 A71-40070

Trapped hydrogen atoms detection in proton irradiated KCl and NaCl single crystals at 77 K, using electron paramagnetic resonance spectroscopy 24 p3802 A71-44425

POTASSIUM COMPOUNDS
NT POTASSIUM BROMIDES
NT POTASSIUM CHLORIDES
NT POTASSIUM HYDROXIDES
NT POTASSIUM OXIDES
NT POTASSIUM PERCHLORATES
NT POTASSIUM PHOSPHATES
Potassium niobate single crystals domain structures by interferometry, discussing surface deformations, dipole couplings and temperature dependent angles 06 p0941 A71-18039

POTASSIUM HYDROXIDES
Hydrazine concentration measurement in potassium hydroxide, describing instrument design and operation 06 p0900 A71-18014

Optical absorption and electron spin resonance in KCl with and without KOH, noting F band existence 21 p3414 A71-40070

POTASSIUM ISOTOPES
Resonance line radiation polarization of potassium and cesium isotopes excited by electron impact 09 p1496 A71-22187

K-Ar age measurement by optimizing integrated neutron flux and sample size parameters, using graphical method 10 p1601 A71-24411

K-Ar isotope ages of whole sample and feldspar concentrate from apollo 11 lunar rock 10003 16 p2633 A71-33349

POTASSIUM OXIDES
Respiratory gas reaction mechanism on potassium superoxide in closed circuit breathing apparatus 13 p2021 A71-29113

POTASSIUM PERCHLORATES
Burning rate of compressed charges of potassium perchlorate with lead dinitrophenolate at constant pressure 15 p2462 A71-31372

Combustion model of solid composite propellants containing monopropellant oxidizers ammonium perchlorate, cyclotetramethylene-tetranitramine and potassium perchlorate 19 p3121 A71-38122

POTASSIUM PHOSPHATES
Contact electro-optic KDP crystal shutters for Q switching ruby laser 06 p0907 A71-17530

Q switched Nd laser pulse duration control as function of KDP crystal orientation and pumping power 07 p1122 A71-19138

Coated abrasive grinding of Ti alloys using water, various soluble cutting oils and inorganic phosphate solutions as coolants and lubricants 11 p1771 A71-26142

Lossless KDP Pockels cell modulator for high power laser Q switching based on tuned face electro-optical crystal 12 p1905 A71-26813

Surface/volume damage induced by Nd-YAG laser irradiation to LiNbO₃ and KDP crystals in frequency doublers and Pockels cells, using scanning electron micrographs 17 p2790 A71-34376

POTENTIAL ENERGY
NT BIOELECTRIC POTENTIAL
NT CONTACT POTENTIALS
NT COULOMB POTENTIAL
NT ELECTRIC POTENTIAL
NT GEOPOTENTIAL HEIGHT
NT IONIZATION POTENTIALS
NT LOW VOLTAGE
NT PHOTOVOLTAGES
NT PLASMA POTENTIALS
NT SPIKE POTENTIALS
Kinetic energy and available potential energy balance in atmospheric stationary disturbances /standing waves/, using atmospheric flow statistics 01 p0119 A71-10853

Atomic system ground state energy upper bound, considering internuclear distances and removal of restriction for negative definite potential energy operator 04 p0630 A71-15268

Muscular fibers analysis for motoneuron split potentials, using needle electrode 10 p1564 A71-24484

Molecular nitrogen ion potential energy curves based on valence bond method, calculating sextet and quartet states at intermediate internuclear separation distances 11 p1801 A71-25365

Computerized least squares fit of second virial coefficients vs critical temperature to Lennard-Jones potential function for hydrocarbons, halides, alcohols and cyclic compounds 13 p2103 A71-29005

Langer transformation effects on radial equation for internuclear potential curves calculation by Rydberg-Klein-Rees method 14 p2277 A71-30572

Triatomic hydrogen positive ion surface crossing effects in chemical reactions based on potential energy surfaces calculation using diatomics-in-molecules approach 14 p2191 A71-30573

Potential energy minimization for elastic elements with integral loads applied to bending of bar and wedge, using variational method 16 p2659 A71-33995

Stressed state of nonuniformly heated thermoelastic flexible plates with variable elastic parameters, using integral principle of minimum total potential energy 17 p2829 A71-35310

Nonempirical LCAO-SCF-MO method for potential energy surface for ground state of linear helium-hydrogen ion system 19 p3117 A71-37332

Lagrange-Dirichlet and Routh systems stability theorems inversion, proving motion instability in case of potential energy maximum in solutions to differential equations 21 p3414 A71-40092

Cyclic discrete holonomic mechanical systems Liapunov stability analysis, developing matrix formalism for kinetic energy, Routhian, Hamiltonian and dynamic potential energy quadratic approximation 21 p3454 A71-40097

Micropolar continuum, potential energy, stresses and constitutive relations for buckling of large rectangular grid frameworks under axial load 21 p3469 A71-41009

Atomic model potentials for spectroscopic and scattering data, using perturbation theory 22 p3578 A71-42420

Statistical phase space cross sections for helium ion-nitrogen molecule reactions, including dispersion and short range forces in intramolecular potential energy function 23 p3706 A71-43119

POTENTIAL FIELDS
Electric potential and field distribution in dielectric plate insert of rectangular waveguide calculated by net point method using computer program 01 p0051 A71-10149

Pursuit game strategy based on Hamilton-Jacobi formalism, considering internal and external potential fields, optimum trajectories and gravitational and electromagnetic fields 03 p0483 A71-13116

Finite supercavitating wings numerical calculation using acceleration potential method 04 p0526 A71-15210

Resonance phenomena in spiral galaxies, determining stellar orbits, potential and distribution functions 04 p0655 A71-15725

Voltage distribution in transistor base for forward and reverse biases, discussing nonuniform potential distribution 05 p0728 A71-16007

Electrochemical metal machining tool profile two dimensional steady state problem, solving for cathode surface changes as function of interelectrode potential 08 p1296 A71-20854

Translation-rotation motion of elongated body in Vinti potential field 10 p1667 A71-23814

Infinite universe compatibility with gravity potential satisfying Poisson equation, avoiding cosmological difficulties by universal gravitational field sources and sinks introduction 10 p1681 A71-25074

Distinctive visual evoked response potential field patterns resulting from human retina stimulation, using electrode array on occipital scalp 13 p2012 A71-28893

EM field and wave propagation in static and spherical gravitation, obtaining modified Debye potentials and amplitude and eikonal equations 13 p2139 A71-28999

Pressure, velocity and potential distribution of flow around arbitrarily shaped body of revolution during arbitrary motion in perfect liquid 13 p1992 A71-29187

Acoustic tone radiation from subsonic rotor near potential field by interaction with nonuniform inlet flow based on Lighthill aerodynamic sound equation 14 p2225 A71-30210

Normal terrestrial gravitational field potential, taking into account second order variables and distances from earth ellipsoid 16 p2563 A71-33466

Reflex klystron repeller space analysis of potential distribution, electron trajectories, transit time and admittance, taking into account space charge effect 17 p2713 A71-34432

Charged particles transport in thermionic converter near-emitter plasma, determining potential and electron density profiles 18 p2953 A71-36968

Density fluctuation dispersal in uniform magnetoplasma, obtaining expressions for Fourier-Laplace transforms of perturbed density, potential field and flux distribution 19 p3113 A71-37745

Thermionic converters experimental testing, developing kinetic theory of plasma diodes in steady state Knudsen mode for uniform potential distribution 19 p2999 A71-38256

Fluctuations in parametrically excited subharmonic oscillator, deriving steady state probability distribution for amplitude and phase transitions analogous to Brownian motion of particle in potential well 20 p3203 A71-39094

Nuclear forces effects on maximum mass limit of neutron stars models using V gamma type potentials 20 p3304 A71-39945

Voltage distribution in transistor base for forward and reverse biases, discussing nonuniform potential distribution 22 p3524 A71-42756

Conservative Hamiltonian systems with infinitely deep potential wells, obtaining periodic solutions with variational technique 23 p3698 A71-43005

Helmholtz vorticity equation application for indirect determination of inaccessible area geopotential field from satellite data 23 p3700 A71-43305

Magnetic induction by HF current passing over conducting torus enclosed by larger torus, obtaining vector potential, current density and inductance expressions 24 p3857 A71-45232

POTENTIAL FLOW
Plane linear cascades of thin curved profiles, obtaining potential flow velocities and lifting force on leading edge 01 p0001 A71-10339

Two dimensional potential flow theory for incompressible unsteady flow about multiple lifting bodies in small amplitude motion 01 p0071 A71-10929

Hess solution for heavy body rotating about fixed point, considering cavities filled with ideal incompressible fluid in turbulent and irrotational motion and linear invariant relation 03 p0458 A71-13591

Flat plate wake displacement sources in potential flow, considering high Reynolds numbers outside boundary layer 05 p0695 A71-16960

Inlet turbulence interaction with rotor potential flow as noise source in axial flow fans, developing expression for sound power radiated 05 p0738 A71-17163

Self-consistent polycrystalline model for combined stress state time dependent creep, examining flow potential existence 05 p0830 A71-17236

Submerged moving body in nonviscous incompressible fluid, evaluating finite potential flow field momentum with rigid and free far distant outer boundary 06 p0841 A71-17419

Monograph on transonic shock free potential flow around quasi-elliptical airfoil sections, investigating flow stability under unsteady disturbances

07 p1015 A71-19773

Ideal fluid jets theory, discussing cavitation flows calculation, jet flow and plane steady potential incompressible fluid flow

07 p1091 A71-20080

Potential flow past cylinder with sources and sinks singularities, deriving formulas for aerodynamic characteristics of infinite span wings with boundary layer control

08 p1227 A71-20777

Steady nonrotational flow around rectilinear profile in finite width uniform current in linear theory, calculating fluid exerted forces

10 p1549 A71-23822

Three dimensional unsteady irrotational flow in variable cross section duct, reducing Navier-Stokes equation to Euler equation

10 p1591 A71-23850

Low speed airfoil characteristics calculation by digital computer, using Theodorsen conformal transformation method for potential flow pressure distribution

[SAE PAPER 710389] 10 p1550 A71-24253

Integral equation for solving potential incompressible fluid flow past blade cascade on axisymmetric current surface in variable thickness layer

10 p1593 A71-24369

Ideal incompressible holomorphic fluid plane irrotational motion velocity due to deformable constant area airfoil displacement

10 p1594 A71-24453

Critical speeds for inviscid compressible potential flow past thin elastic cylindrical shells, using long wave approximation

10 p1689 A71-24565

Entrainment induced potential flow near free jets, using equivalent sink distribution derived from known boundary layer solutions

10 p1596 A71-24937

Airfoil profiles coupling method for determining complex potential of two dimensional ideal incompressible fluid flow due to arbitrary airfoil section movement near rectilinear wall

10 p1597 A71-25015

Inviscid incompressible two dimensional jet deflection by various dimension segments, investigating potential flow with Schwarz-Christoffel transformation and free streamline theory

11 p1753 A71-26444

Hydrodynamic analogy for postulates in special relativity theory, analyzing steady and potential flow of inviscid compressible medium for Chaplygin gas with unreal time

12 p1932 A71-27547

Potential flow of incompressible inviscid liquid film along inclined semiinfinite flat plate for large Froude number values, using matched asymptotic expansions method

13 p2047 A71-28485

Plane stationary constant-vorticity incompressible flow region surrounded by potential flow, determining two dimensional velocity distribution by numerical calculation

13 p2050 A71-29220

Two dimensional transonic potential flow near convex corner

14 p2225 A71-30215

Two dimensional subsonic irrotational isentropic flow around thick profiles, using coordinate perturbation method

15 p2343 A71-31167

Supersonic potential flow at large distance from slender body of revolution at angle of attack, deriving nonlinear partial differential equations system

15 p2343 A71-31170

Compressible transonic flow about two dimensional airfoils, developing inviscid nonlinear potential equations by relaxation procedures

[AIAA PAPER 71-569] 15 p2345 A71-31562

Fluid jets along curved or straight walls with non-zero external potential flow, analyzing Coanda effect

15 p2390 A71-32055

Potential vortex with turbulent viscous core and axial velocity excess or deficiency, using integral method with quasi-cylindrical flow approximations to describe core flow

[AIAA PAPER 71-615] 15 p2393 A71-32278

German monograph on incompressible potential flow field calculation about thick rectangular wings with control surfaces and ground effects

15 p2347 A71-32307

Finite element method application to potential flow field problems governed by Laplace equation in fluid mechanics, developing computer program

[ASME PAPER 71-APM-22] 16 p2520 A71-33207

Viscous fluid flow velocities instantaneous potential based on continuous medium, energy conservation and classic kinetic matter theories

16 p2560 A71-34055

Viscous incompressible fluid flow downstream of paraboloid of revolution described by matching boundary layer approximations to potential flow solutions

17 p2727 A71-34673

Steady incompressible flow with potential vortex over flat surface under suction

17 p2670 A71-34889

Two dimensional steady potential incompressible flow past elastic expandable gas filled envelope fastened to edge of plate normal to flow

17 p2730 A71-35640

Aerodynamic perturbation due to single hot-wire probes, comparing with evaluations derived from potential flow scheme

[ASME PAPER 71-APM-T] 18 p2904 A71-36262

Laminar boundary layer structure under semi-infinite potential vortex maintained in incompressible steady flow by appropriate conditions at infinity

18 p2906 A71-36317

Small disturbance transonic flows potential equations numerical solutions, using mixed finite difference theory

18 p2844 A71-36325

High subsonic potential flow calculation past circular cylinder by integral relations method

18 p2844 A71-36326

Subcritical nonlinear potential flows over two dimensional subsonic airfoils by multistrip method of integral relations

18 p2845 A71-36330

Two and three dimensional pistons motion in stationary gas, calculating potential flow characteristics near weak discontinuities as function of piston geometry and acceleration

19 p3043 A71-37099

Relativistic hydrodynamic solution for gravitational interaction of vortex and potential motion of homogeneous medium

19 p3134 A71-37515

Curvature effect on heat and mass transfer from isothermal sphere in potential flow

[ASME PAPER 71-HT-7] 19 p3164 A71-37984

Potential flow and laminar boundary layer separation about profiled circular disks, calculating streamlines

20 p3175 A71-39029

Two dimensional jet flapped symmetric wing in subsonic flow, assuming irrotational flow inside jet bounded by vortex sheets

21 p3318 A71-40172

Spanwise lift distribution over wings and wake formation in thin airfoils of finite aspect ratio in linear subsonic potential flow

21 p3319 A71-40495

Straight line vortices in uniform two dimensional straining field, detailing irrotational strain and simple shear

21 p3320 A71-40501

Plane steady irrotational flow of ideal compressible fluid around jet profile, obtaining Kutta-Joukowski theorem

21 p3322 A71-40580

Incompressible potential cascade flow interaction, presenting approximate method based on blade profile flow expression by power series with distance between cascades as parameter

21 p3322 A71-40685

Potential flow with free surface, comparing finite element and finite difference methods for liquid sloshing problem

21 p3369 A71-40974

Laminar incompressible plane wall jet, calculating flow characteristics for potential core region with integral method

21 p3370 A71-40988

Numerical computation of potential vortex induced laminar boundary layer on circular disks, using two layer asymptotic expansion

22 p3530 A71-41886

Potential two and three dimensional flows past body in presence of rigid wall, using matched asymptotic expansions

23 p3625 A71-43369

Two dimensional potential flow model of Pitot static probe and subsonic free jet interaction, using conformal mapping and hodograph method

[AIAA PAPER 71-998] 24 p3817 A71-44589

Small perturbation development of plane potential motion of ideal incompressible fluid in elliptical region, confirming instability

24 p3821 A71-45219

POTENTIAL GRADIENTS

Magnetoresistance of coil surrounded electromagnetic mechanisms air gaps, noting potential distribution at pole aperture axis

05 p0705 A71-17175

Solar flares effect on potential gradient and air-earth current characteristics, suggesting solar triggered increase in thunderstorm frequency

13 p2130 A71-29107

Atmospheric potential gradient measurements during solar eclipse of 7 March 1970, using airborne and ground observations

17 p2731 A71-34321

Cross power spectral analysis of atmospheric electric potential gradient relation to meteorological parameters, noting diurnal variations

18 p2944 A71-36010

Plane collisionless plasma diode between two hot emitters, considering potential distributions

24 p3808 A71-44551

POTENTIAL PROBLEMS U POTENTIAL THEORY POTENTIAL THEORY

Electromagnetic potentials and Lorentz relation in anisotropic medium, considering Bromwich function and plane wave propagation

02 p0211 A71-11719

Vibrational transition matrix elements for diatomic molecules, using semiempirical Cashion method for potential functions

03 p0460 A71-13497

Axisymmetrical potential theory for two spherical circular disks system, using X-analytic functions for reducing to Fredholm equation

06 p0928 A71-18345

Macroscopic dynamics of many-component plasmas in electromagnetic fields, discussing formulation in scalar complex wave equations containing pressure and electromagnetic potentials

07 p1168 A71-19688

Komkov class of boundary value problems and associated variational principles, discussing necessary conditions for basic functional or potential extremal behavior

08 p1323 A71-20878

Helmholtz and relativistic electrodynamics, discussing kinetic interaction potential using Lorentz invariance

10 p1644 A71-25110

Spherical shell potential extension to shells of differing diameters for intermolecular forces in globular molecules, considering binary gaseous mixtures

11 p1801 A71-25369

Numerical method for computing exact permeability/tunneling probability/ of one dimensional potential barrier

11 p1728 A71-26059

Stellar mass relativistic integral theorems and upper and lower bounds for gravitational potential theory

11 p1830 A71-26106

Solid profile wing motion near solid wall or free surface, using acceleration potential method

12 p1863 A71-27174

Potential theory mixed inverse problem and uniqueness theorem concerning body shape and density determination from external potential of bulk masses

12 p1931 A71-27510

Internal potential of heterogeneous ellipsoids for even and odd power variation of density with coordinates, using depolarization factors

14 p2304 A71-29600

Stokes flow equations solutions existence and completeness, considering vector and scalar potentials

14 p2224 A71-30094

Numerical stress analysis of elastic three-dimensional fracture specimen with edge crack, using singular integral equations analogous to Green boundary formula in potential theory

16 p2655 A71-33181

Geodetic boundary value problem reformulation, using measured gravity values on known earth surface and potential theory

16 p2563 A71-33476

Multidimensional canonical formalism based on field system state description with potentials and momenta

17 p2778 A71-34635

Runner and cavitation characteristics of hydraulic machine with finite blade number and ideal frictionless incompressible working fluid determination by potential theory

17 p2727 A71-34668

Circular symmetry stressed state for flat disk with flat circular crack, detailing potential and elasticity theories

17 p2824 A71-34844

Feinman integral definition and relation to Schroedinger equation for square summable potentials with lower bound

17 p2765 A71-34866

Spherical harmonic expansion of nonhomogeneous oblate spheroid mass distribution potential, giving convergence criterion

17 p2733 A71-35029

Bounded system gravitational fields Debye potentials, using linearized gravitation theory field equations in form similar to Maxwell equations

17 p2784 A71-35341

Co 59-neutron reaction tensor spin-spin potential, using polarized targets of Ho 165 and Co 59 for nuclear spin-spin effect measurement

18 p2949 A71-36681

Dielectric potential operator as arbitrary bounded Lebesgue measurable set, obtaining eigenvalues and eigenfunctions spectrum

18 p2942 A71-36820

Potential function transformation under coordinate rotations, deriving coefficients for Laplace equation series expansion

19 p3138 A71-37755

Cosserat continuum elastic tensor potentials applied to Kirchhoff theory of wave diffraction
20 p3269 A71-39033

Electrical resistivity of structural metal crystal defects in terms of Ziman-Harrison pseudopotential theory
21 p3395 A71-40023

Multibeam holographic interference Gabor theory construction, using variational principle and potential theory
21 p3379 A71-40626

Multibeam holographic interferometry, using variational principle and potential theory
22 p3574 A71-41786

Relativistic gravitation theory, using Lorentz invariant scalar potential and gravitational metric
22 p3575 A71-42355

Periodic solutions to Hamiltonian systems with convex potential, considering application to n-body problem
22 p3568 A71-42694

Lifting configurations unsteady air loads prediction, investigating loading singularities in linearized potential theory
22 p3481 A71-42832

Noble and transition metals dilute alloys electronic structure in hybridized tight binding nearly free electron representation, using Harrison-Kanamori pseudopotential theory
24 p3860 A71-45129

POTENTIOMETERS [INSTRUMENTS]

Solar magnetograph with potentiometers, recording magnetic fields, emission and absorption lines, radial velocity and brightness
04 p0589 A71-14836

Electron beams formation and focusing, including current density distributions, electronic potentiometer recording, parameters and comparison with simulation data
20 p3204 A71-39160

POTENTIOMETERS [RESISTORS]

German monograph on field effect transistors as controllable resistors with applications in adjustable amplifiers and dampers, covering nonlinear harmonic distortion and control dynamics
18 p2887 A71-35961

POTENTIOMETRIC ANALYSIS

Potentiometric measurement of temperature effects on electrical resistance and Hall effect in Ni-Co alloys
14 p2259 A71-30188

Aircraft turbine oils acid number potentiometric determination, discussing automatic titration procedure and apparatus and solvents influence on titration curve and inflection point
18 p2940 A71-36680

POTENTIOMETRY

U POTENTIOMETRIC ANALYSIS

POTTING COMPOUNDS

Clear potting polymers, investigating temperature and ionizing particle irradiation effects on properties
04 p0618 A71-14898

Adhesives in Apollo command, service and lunar modules primary load carrying structures, electrical potting and sealing medium
10 p1630 A71-24067

Plastics as potting compounds in military aircraft electrical systems, investigating resistance to reversion and hydrolytic stability
10 p1633 A71-24115

Electrical potting compounds reversion problems on Air Force aircraft, discussing inherent properties and environmental effects on polyester urethane and polyacrylate compounds deterioration
10 p1633 A71-24116

Potting compounds service life estimation based on accelerated hydrolytic reversion data at high temperatures and humidities
10 p1633 A71-24117

POWDER [PARTICLES]

NT FINES

NT METAL POWDER

NT POWDERED ALUMINUM

Thermal conductivity and diffusivity determination of powders by introducing dispersed metal particles
01 p0182 A71-11447

Ceramic particle compaction as function of size, shape, loading rate and hardness for fused alumina, magnesia and mullite
03 p0448 A71-12973

Aerosol powder suspensions for spectrochemical objectives in plasma jets
03 p0465 A71-13971

Tubular powder channel gas velocity distribution and pressure buildup during burning
04 p0638 A71-15680

Powder combustion unsteady processes equations, taking into account nonadiabatic flame front and chemical reactions incompleteness
06 p1005 A71-17389

Kaolin and quartz powder additions effect on glass-like polymethyl methacrylate specific heat, thermal conductivity and diffusivity
07 p1144 A71-18922

Commercial sodium bicarbonate powder for methane air diffusion flames extinction, noting particle surface areas
07 p1182 A71-19248

Powder form structural adhesives for cost reduction and increased productivity
10 p1614 A71-24066

Detonation sensitivity of ammonium nitrate containing fertilizers, compared with metadinitrobenzene in powder form
10 p1658 A71-25070

Polyimide system application to laminates and molding powders fabrication, exemplifying compression method and cold compaction followed by sintering
11 p1787 A71-25426

Monolayer submicron self supporting particle film samples preparation for sintering by transmission electron microscopy
11 p1763 A71-26150

Measuring system for 180 degree Raman scattering in single crystals, powders, liquids and strongly absorbing solutions
12 p1915 A71-27673

Pipe gas flow with heated solid particles injection, presenting flow equations numerical solution by digital computer
13 p2166 A71-29460

Combination light scattering in liquids, single crystal and crystal powders, employing long lived argon laser with internal mirrors and large diameter capillaries
14 p2255 A71-30585

Vibrational combustion study of powder, using Helmholtz resonators with connected auxiliary combustion chamber
17 p2839 A71-35697

Cylindrical shaped powder samples vibrational combustion, observing acoustic instability with high speed motion picture photography
17 p2839 A71-35698

Cylindrical powder samples combustion stability, noting gaseous and condensed phase interaction effects on sound emission
17 p2840 A71-35699

Nitroglycerin powder combustion acoustic instability, determining mean pressure and sample and combustion chamber geometry effects
17 p2840 A71-35700

Self excitation and amplitude limitation of powder vibratory combustion, considering pressure and sample length effects
17 p2840 A71-35701

Internal ballistics equations of powder solid fuel rocket motor treated as homogeneous chemical reactor
24 p3890 A71-45107

Self similar solution for unsteady powder combustion rate with decreasing pressure, generalizing to rate dependence on pressure and initial temperature
24 p3891 A71-45217

POWDER METALLURGY

Precalloyed hot formed Cr-Ni-Mo and Ni-Mo steels manufactured from powders, considering toughness, tensile properties, fatigue and impact strength
01 p0100 A71-10464

Tensile and stress rupture tests of Co base alloy bars extruded from prealloyed powders made by Ar gas atomization
01 p0100 A71-10480

Cr-alloyed Fe powders fine crystalline structure from X ray analysis
01 p0102 A71-10789

Isostatic pressing for large complex metal powder parts, comparing with die-compacting
01 p0088 A71-10814

Powder metallurgy for fine grain metals and alloys, discussing grain size-mechanical properties relationship
03 p0446 A71-14490

Thermal conductivity and emittance of arc cast and powdered W at 1800-2800 K
04 p0612 A71-15579

Powdered Ni-carbide composites compressibility, noting mixture and pressure effects on compact density
05 p0769 A71-16859

Ti-Be composites produced by powder coextrusion, discussing microprobe studies to determine microstructure thermal stability
05 p0000 A71-17104

[AIME PAPER F-70-3]

Metal powders sintering computer simulated dynamic volume diffusion model based on Laplace equation, comparing calculated growth rates with electron microscope data
06 p0903 A71-17344

Heat treatment and deformation effects on blended metal powder compacts homogenization, using mathematical model
07 p1137 A71-19976

Solid solution reactions analysis for W/TiC powder formation
08 p1304 A71-20993

Zinc electrodes manufacturing processes, describing materials used in electrodeposition and pressed

powder methods, quality control procedures and Zn-Ag batteries electrical characteristics
08 p1297 A71-21088

Ti alloy powders and Ti-base refractory compounds production from Ti alloys wastes
08 p1317 A71-21856

Dispersion hardened Ni and Co alloys production by powder metallurgy, noting elastic distortion due to particle strengthened base material
09 p1474 A71-23294

High temperature Ni and Co alloys powder metallurgy, discussing production, preparation, pressing and sintering
09 p1456 A71-23300

Soviet papers on powder metallurgy covering metal powder fabrication, forming and sintering techniques and materials for friction, antifriction, and heat resistant applications
09 p1478 A71-23388

Thermal reduction methods for refractory metal powders of W, Mo, Zr, V, Hf, Nb, Ta and Ti
09 p1457 A71-23389

Cermet antifriction and friction powder metallurgy sintered materials for working at high temperatures without lubricants, in vacuum and inert gases
09 p1483 A71-23392

Iron base, white cast iron and high alloy powder metallurgy products for antifriction bearing elements
09 p1478 A71-23393

Refractory oxygenless powder metallurgy products in high temperature technology, considering covalent bond formation
09 p1478 A71-23395

Sintering and pressing techniques for compact semifinished products of refractory metal powders including W, Mo, Ta, Nb, Zr and Ti
09 p1457 A71-23396

Discrete phase vs binder strength of inorganic brittle polycrystalline powder metallurgy materials, including alumina and magnesia
09 p1483 A71-23398

Strengthening processes in precipitation hardened and dispersion hardened alloys produced by powder metallurgy
10 p1614 A71-23903

Oxidation resistant high temperature Ni-Al system preparation using powder metallurgy and thermomechanical treatments without sintering
10 p1626 A71-24401

Powder metallurgy parts application in aircraft, illustrating flareless-sleeve coupling nut of pressed and sintered Ti-6Al-4V alloy
10 p1618 A71-24762

Powder metallurgy superalloy parts, discussing production methods and mechanical properties comparison with conventional process products
10 p1618 A71-24763

Spark sintering powder metallurgy using alternating and direct current plus pressure, discussing use in Be components production for aerospace applications
10 p1618 A71-24765

Powders and torch techniques for brazing, including Mn-Ni-Co, Cu-Mn-Ni, Zr-Ti-Be, Ti-Cu-Ni and Zr-Be alloys
11 p1769 A71-25746

Sintering time effect on initial permeability of Ni-Fe-Cu-Mo alloy made by powder metallurgy
13 p2086 A71-28626

Ti alloy powders and Ti-based refractory compounds production from Ti alloy scrap, describing electrorefining, hydrogenation and carbidization processing
14 p2260 A71-30835

Comparative creep rupture properties of tungsten-rhenium consolidated by arc melting and powder metallurgy, considering rupture life and rupture ductility
15 p2427 A71-31818

Creep rupture properties of W-Re arc melted and powder metallurgy materials at 1650 and 2200 C as function of time, void and grain size
15 p2428 A71-31819

Optimum sintering temperature, bulk composition and gas medium effects on structure and mechanical properties of silicon nitride and silicon carbide materials
15 p2437 A71-32670

Structural shapes extrusion technique with superalloy powders, noting fine grain, chemical homogeneity and elevated temperature mechanical properties
16 p2592 A71-33540

[ASM PAPER W71-5.4]

Pressure distribution during cold rolling of metallic powders of stainless steels, iron, titanium and copper, using dynamometer mounted in roll
19 p3075 A71-37107

Nichrome powder microstructure characteristics effect on hot compaction kinetics, considering temperature, pressure and preliminary heat treatment effects
19 p3075 A71-37108

Sintered metals and powder metallurgy technology, discussing methods and materials available to widen applications
22 p3562 A71-42225

- Solid powder metallurgy tungsten alloys, determining scale factor effect on bending strength and fatigue limit
23 p3693 A71-44226
- POWDERED ALUMINUM**
Limiting temperature and size conditions for aluminum particle ignition in mixtures of oxygen with argon and nitrogen
03 p0468 A71-13990
AL particle size and filler volume optimization effects on epoxy composite dynamic response
07 p1139 A71-20136
Al particle burning in oxygen and water vapor, examining surface oxide film role in ignition mechanism
08 p1376 A71-21908
Burning mechanism of condensed ballistite compositions with metallic particles of aluminum, magnesium and ammonium perchlorate
08 p1376 A71-21912
Al particles combustion kinetics in propellant flames, showing gas composition and pressure effects on burning rate
15 p2464 A71-31633
[WSS/CJ PAPER 71-24]
Aluminum powder filled epoxy composites, investigating particle size and filler percent effects on damping properties and elastic modulus
17 p2762 A71-34819
High temperature gas dispersed Al particle flow, investigating electrical conductivity and radiation properties
19 p3161 A71-37265
Aluminum particles ignition by focused laser flux in controlled oxygen-Argon environment, observing by cinephotomicrography throughout entire burning time
19 p3169 A71-38114
Al and Mg powder dispersed in solid ammonium perchlorate oxidizer, investigating various combustion mechanisms
19 p3120 A71-38120
Gortler-Taylor vortices visualization in liquids between rotating concentric cylinders using pulverized aluminum
20 p3213 A71-39781
Crystal Al powder electrolytic production in inert atmosphere, discussing fractional composition, current efficiency, gravimetric density and particle morphology
24 p3837 A71-44734
- POWDERED METALS**
U METAL POWDER
POWDER
Power meter for large or divergent CW or pulsed laser beams
03 p0427 A71-13919
- POWER AMPLIFIERS**
Push-pull power amplifiers with class B complementary transistors, describing driver stage
02 p0229 A71-11693
Communication satellite earth station technology, considering steerable antenna subsystems, high power amplifiers, terminal equipment and frequency bands allocation
02 p0222 A71-12787
Broadband hybrid UHF integrated power amplifiers providing high output, noting integration techniques, design, fabrication and characterization
04 p0559 A71-15876
Silicon junction avalanche diodes as S band oscillators and amplifiers, presenting peak power efficiency and gain data
05 p0729 A71-16921
Electron tubes for radars, discussing history and development of magnetrons, Thomson-CSF display tube and power amplifiers
06 p0874 A71-17568
Power amplification with anomalous mode Si p-n-n mesa structure avalanche diodes under input driving power at system resonance frequency
07 p1073 A71-19116
Charge sensitive low power amplifier and fast coincidence system for solid state detectors and random counting rates in Skylab application
08 p1267 A71-21849
Ionized argon laser optimum performance, comparing master oscillator power amplifier configuration to simple oscillator
11 p1772 A71-25141
LF transistor power amplifier protection from power overloads in case of short circuit at output
12 p1889 A71-27625
Power amplifier klystron self excitation in linear electron accelerators, describing tunable driver circuit with quartz reference oscillator
12 p1889 A71-27754
Quasi-harmonic signal suppression in theta-power amplifier as function of nonlinearity at various noise levels
15 p2375 A71-31229
Emission transistor for Eole balloon transmitter power amplifier, discussing trouble-free emission, high output, wide temperature range, lightweight and reliability features
18 p2891 A71-36563

- High power microwave CW tubes and power amplifier requirements for communication satellites
18 p2892 A71-36571
Silicon microwave transistors frequency response theory, considering application as small-signal and power amplifiers
18 p2894 A71-36978
Amplifon effects on phase distortion of pulse signals passing through power amplifier stages of coherent pulse communication systems
19 p3015 A71-37257
Microwave transistor amplifier dynamic range performance, comparing low noise and high power capabilities with traveling wave tubes
19 p3029 A71-38295
Linearization techniques for multiple signal interference reduction in broadband transistor power amplifiers in 225-400 MHz range
19 p3030 A71-38434
Unidirectional regenerative ring carbon dioxide laser power amplifier tests for below and above threshold operations, noting saturation role in performance
20 p3242 A71-38843
Hybrid integrated wideband linear microwave power amplifiers for S and C bands, discussing construction and performance
21 p3357 A71-40817
Emitter-base W metallized contacts RF power transistors for improved hot spotting and breakdown reliability, comparing with Al
23 p3651 A71-43441

POWER CONDITIONING

- Iterative graphical method for broadband N way TEM mode power divider design, using Smith chart
01 p0055 A71-11194
Cs vapor thermionic diodes with low temperature dual mode characteristics applicable as switching elements in DC to AC power conditioner
02 p0196 A71-12267
Spacecraft electric power transformation and control techniques enhancement, using DC to DC converter, voltage converter/regulator and solar array reorientation system
03 p0352 A71-13049
Oxide hollow cathode ion thruster power conditioner, evaluating electrical efficiency, weight, reliability integration and testing
06 p0947 A71-18601
[AIAA PAPER 71-159]
SERT 2 power conditioning, describing operating requirements, components construction, overload protection, system performance, etc
09 p1511 A71-22900
Hollow cathode ion thruster and lightweight power conditioner of solar-electric propulsion system for unmanned deep space probes
09 p1511 A71-22904
[AIAA PAPER 70-648]
ESKA-18P electrostatic ion propulsion system control characteristics and power conditioning, describing pulse width modulated power supply unit
17 p2794 A71-35543
[DGLR-71-029]
Thyristor power conditioning application to high voltage DC electric power system, presenting SST aircraft sample load profiles
17 p2678 A71-35770
Power conditioning electronics for integrally regulated and controlled high voltage solar array spacecraft power system, increasing reliability and reducing weight
20 p3181 A71-38942

POWER CONVERSION**U ELECTRIC GENERATORS****POWER DENSITY****U FLUX DENSITY****POWER EFFICIENCY**

- Flame-fired thermionic diode service life, output power and voltage efficiency and weight reduction
02 p0196 A71-12269
Thermionic converter integrated Cs reservoir module power efficiency and service life, considering diode technology
02 p0196 A71-12270
Liquid Cs graphite integral reservoir effect on thermionic converter performance
02 p0196 A71-12271
Ground station power control in multiple access satellite communication system
02 p0224 A71-12823
Sealed-off carbon dioxide laser power output and efficiency test during continuous operation over one year
03 p0438 A71-13894
Hydrazine-oxygen fuel cells energy costs minimization by optimizing diaphragm thickness, hydrazine concentration and load
03 p0355 A71-14321
Carbon dioxide laser output power and efficiency as function of tube length, discussing bore diameter and cavity insertion losses effects
04 p0606 A71-14716
Electric discharge carbon dioxide lasers, obtaining increased power output with convective cooling process
06 p0909 A71-18522
[AIAA PAPER 71-63]

Digital computer program for optimum design of narrow band klystron, discussing beam interception and power conversion efficiency
08 p1261 A71-20742

Maximum efficiency of turbine for driving auxiliary equipment, noting design constraints
08 p1349 A71-22046

Power augmented lift STOL aircraft operating costs reduction by channel wing concept, discussing aerodynamic theory and structural applications to high lift flaps aircraft
09 p1385 A71-22592

Hall MHD generator duct optimization, using digital calculation for Carter integral minimum for size under required power output
09 p1512 A71-23441

Lossless radiating antenna element efficiency in circular cylindrical arrays of identical elements, relating to reflection coefficient
09 p1419 A71-23505

High pressure ratio centrifugal compressors for small gas turbine engines, investigating power and specific fuel consumption variation with pressure and temperature
10 p1658 A71-24218

Hybrid M-type microwave oscillators including backward and traveling wave tubes with crossed fields in large amplitude mode, considering power efficiency and frequency control
12 p1888 A71-27620

Klystron power conversion efficiency augmentation by electrostatic depressed collector design, presenting performance prediction calculation method
12 p1889 A71-27734

Transferred electron microwave oscillators high efficiency operation mode with more severe limitation than limited space charge accumulation mode
14 p2215 A71-30826

Power output of stable sealed off CO lasers with semiconfocal cavities and totally reflecting spherical and dielectrically coated flat mirrors
15 p2420 A71-32387

Microwave Gunn diodes I-V characteristics as function of carrier concentration and power efficiency
17 p2713 A71-34264

High power efficiency solid state UHF sources, comparing Gunn and avalanche diodes performance
17 p2715 A71-34685

Nonplanar dipole antenna with arbitrarily displaced feedpoints, considering far field radiation patterns, radiation resistance, power gain, effective aperture and efficiency
18 p2887 A71-36014

Satellite telecommunications problems, discussing frequency assignment and power efficiency
18 p2877 A71-36515

Microwave avalanche diodes, considering drift velocity and power efficiency limitations of IMPATT mode
18 p2894 A71-36976

Harmonic extraction from high power efficiency avalanche diodes, discussing circuit in terms of multiple reflection triggering process
18 p2895 A71-36983

High-power high-efficiency CW X band Gunn oscillators on diamond heat sinks, noting operation in waveguide cavities
19 p3029 A71-38219

Line source excitation for maximum aperture efficiency with given sidelobe level
19 p3035 A71-38596

Brayton cycle power conversion system using He-Xe gas mixture, discussing compressor net engine and turbine static efficiencies
20 p3180 A71-38908

Semiconductor lasers, discussing laser action concepts, optical waveguiding, power conversion efficiency, thermal properties, reliability, crystal imperfections, GaAs laser properties, transient phenomena, etc
20 p3243 A71-39066

Maximum efficiency of 10-20 W output semiconductor amplifier at 2.3 GHz, discussing possible replacement of vacuum tubes
20 p3205 A71-39456

X band GaAs diffused IMPATT diodes for high CW efficiencies
22 p3523 A71-42483

GaAs LSA mode V band oscillator CW and pulsed operations power and efficiency limitations
23 p3649 A71-42915

Q values, costs, efficiencies and radioactive evaluation of D-D, D-T and D-He 3 mirror fusion plasma power systems
24 p3847 A71-44493

Compressors and turbines centripetal stages operational characteristics, investigating airflow rate and pressure ratio effects on power
24 p3790 A71-45380

Transonic airfoil cascade analytical design, determining efficiency from velocity distribution
24 p3791 A71-45381

POWER GAIN

- Transverse gain inhomogeneity effect on monopulse duration and development in multimode spherical laser resonator 01 p0094 A71-11026
- Gain measurement on pulsed radiation from high voltage discharges in mixtures of carbon dioxide, nitrogen and helium 01 p0096 A71-11423
- Antenna gain, transmission efficiency and receiving cross sections in dissipative isotropic medium 01 p0041 A71-11614
- Nd-glass pulsed solid state laser amplifier gain characteristics, deriving flux density and population inversion equations 02 p0261 A71-12173
- Wellenweber antennas characteristics, calculating input and mutual impedances, total field radiated and power gain 02 p0232 A71-12343
- CO chemical laser power output augmentation by selective depopulation of CO lower vibrational levels by energy transfer to added gases 02 p0262 A71-12709
- Shaped dual reflector antenna gain prediction based on feedhorn radiation pattern and system geometry 02 p0233 A71-12795
- Hybrid mode flare feed horns for parabolic antennas, discussing horn parameters and angular aperture effects on gain factor or aperture transmission efficiency 02 p0234 A71-12807
- Parametric amplifier with nonlinear capacitance varying as quadratic function of voltage, deriving power gain, bandwidth and noise figure from equivalent circuit 03 p0383 A71-13270
- Atmospheric pressure pulsed carbon dioxide laser, investigating gain, peak power and pulse duration as function of gas pressure and discharge voltage 03 p0440 A71-14461
- C band field effect transistor amplifiers with stable power gain, discussing circuit analysis, design parameters and test results 05 p0729 A71-16917
- Multimode power obtainable in TEM in solid laser, using convex mirror and in cavity polarization rotator 06 p0906 A71-17304
- Low noise temperature high gain satellite-communication antenna feeds optimal design using tapered aperture 06 p0877 A71-18395
- Semiconductor laser threshold current temperature dependence, considering maximum power gain and compensation techniques 06 p0908 A71-18424
- Statistical analysis of neutron induced gain degradation of silicon power transistors, determining failures distribution fit to Weibull function 07 p1070 A71-19063
- Gas laser gain and loss coefficients measurement, using resonator staged calibrator plate for optimal and nonoptimal conditions 07 p1122 A71-19139
- Random gain statistics of avalanche diode optical detectors, analyzing simple optical binary receivers 07 p1074 A71-19216
- Aperture antennas gain loss due to aperture phase errors 07 p1075 A71-19268
- Arbitrary antenna arrays of not necessarily identical elements, deriving maximum realizable gain under impedance matching, and applying to spaced circular arrays 09 p1419 A71-23508
- Waves arrival directional fluctuations effect on power gain of horizontal rhombic antennas for high frequencies and various antenna and wave parameters 09 p1420 A71-23676
- Einstein relations for stimulated luminescence, and application to high pressure chemical laser power gain and population inversion calculation 12 p1913 A71-26966
- Traveling wave tube magnetic field focusing and accelerating voltage effects on power output 12 p1889 A71-27627
- Threshold and power relations for optical radars in pure and turbid atmospheres, determining visibility range for object detection 13 p2027 A71-27856
- Power gain of Q-band GaAs FET with Schottky-barrier gate, giving amplifier and oscillator designs 14 p2210 A71-29800
- Power gain distribution in Ne-He laser cuvettes at 0.63 and 3.39 microns wavelength, noting current density dependent laser power gain shifts 17 p2752 A71-34405
- Transversely excited carbon dioxide lasers gain measurements for linear and helical electrodes at various gas mixtures and pressures as function of time 17 p2754 A71-35404
- Nonplanar dipole antenna with transversely displaced feed points, considering effects on far field

radiation patterns, radiation resistance, power gain, effective aperture and efficiency 18 p2887 A71-35970

Nonplanar dipole antenna with arbitrarily displaced feedpoints, considering far field radiation patterns, radiation resistance, power gain, effective aperture and efficiency 18 p2887 A71-36014

Low noise microwave transistor, describing geometry and diffusions optimization, power gain, reliability and base resistance 18 p2892 A71-36564

Gain and stability of MOS transistor small signal amplifier as function of frequency, using lumped element equivalent circuit 19 p3028 A71-37563

Liquid Xe filled single wire proportional and multiple wire ionization chambers, measuring gain and time/spatial resolution properties 19 p3065 A71-38178

Integral equation for determination of nonuniform gain profile effect on resonant modes of ion laser cavity, considering ring modes at high current densities 19 p3074 A71-38228

Einstein relations for stimulated luminescence, and application to high pressure chemical laser power gain and population inversion calculation 19 p3075 A71-38265

Time resolved gain measurements of pulsed two level laser system, using computer for curve analysis 20 p3245 A71-39179

Radiation resistance, power gain, effective aperture and efficiency of modified log periodic dipole antenna 21 p3352 A71-40378

Computerized numerical optimization for Yagi-Uda antenna array gain, noting nonoptimum in standard traveling-wave design methods 21 p3349 A71-41410

Laser amplifier with range variable automatic gain control in Fabry-Perot cavity with allowance for oscillation 22 p3556 A71-41807

Geometrical-optical approximation for residue series of obstacle /terminal/ gain in radio wave propagation over inhomogeneous earth 22 p3511 A71-42281

Early effect incorporation in Ebers-Moll simulation model for junction transistor large signal behavior to obtain current gain and conductance dependence on voltage 22 p3523 A71-42484

Gas laser power gain time dependence on molecular rotational relaxation under light pulse excitation 23 p3684 A71-43415

Frequency and power limits of field effect triodes, noting application to gridistor for millimeter waves 23 p3653 A71-43950

Single mode output power multiplication in standard commercial He-Ne laser with cavity extension and etalon 24 p3835 A71-45214

POWER GENERATORS

U ELECTRIC GENERATORS

POWER LIMITERS

Incore thermionic cell power output limitation and thermal/electrical data determination at steady state operation, considering temperature distribution 11 p1713 A71-25894

POWER LINES

AC superconducting cables design for utilities underground power transmission lines, discussing superconductor and cryogenic envelope configuration and characteristics 07 p1024 A71-20159

Power line and signal line transients in digital systems 13 p2032 A71-28863

POWER PLANTS

Cost optimization for solar generator thermobatteries by selecting temperature, contact resistance, material parameters and fabrication technology 15 p2351 A71-31671

Curved porous wall channels for noise suppression in power plants, ventilation systems, etc 15 p2449 A71-31705

Liapunov direct method for transient multimachine power-system stability analysis using multivariable control modeling 20 p3207 A71-38991

Creep fracture of Cr-Mo-V steel after operational heat treatment and power plant operation, noting intercrystalline and transcrystalline fracture 20 p3249 A71-39016

POWER REACTORS

Incore thermionic diode reactor stability review and evaluation, discussing reactivity feedback mechanisms, analytical models and results 02 p0280 A71-12260

Hydride thermionic reactor system transient behavior dynamic mathematical model and digital simulation 02 p0281 A71-12262

Low power thermionic reactors, comparing four types design, characteristics and performance estimates for power plants 02 p0281 A71-12263

Reactor powered Brayton cycle power conversion system, evaluating performance at different turbine inlet temperatures and power levels by computer simulation 20 p3262 A71-38914

POWER SERIES

NT TAYLOR SERIES

Perturbation theory of celestial mechanics, using expansions of negative powers of mutual distances between two bodies 05 p0810 A71-16546

Power series uniformization by transformations of perturbation functions irregular part, considering compatibility problem 06 p0919 A71-18197

Inhomogeneous heat transfer lines analysis by matrix method in form of power converging series by Laplace operator 07 p1221 A71-18925

Hypersonic strong interaction flow over inclined surface, using asymptotic expansion in powers of hypersonic interaction parameter for boundary layer equations reduction 09 p1382 A71-22109

Series inverse in powers of time and radius of convergence for universal form of Kepler equation, discussing recursion formulas for coefficients 09 p1516 A71-22174

Finite length rotating cylinder, calculating axisymmetric creep under thermal effects in power series from theory of small elastoplastic deformation 09 p1537 A71-22516

Mechanical systems partial differential equations solution through reduction to infinite systems of ordinary differential equations, considering Cauchy problem power series solution 09 p1492 A71-22523

Lagrange implicit functions generalization to n dimensions, developing inversion as power series 10 p1637 A71-24933

Magnetic corrections to Boltzmann distribution function by power expansion, determining current density in system of free electrons accelerated by crossed electric and magnetic fields -13 p2109 A71-29288

Simplified H. A. Newton formula applied to two zero-mass bodies rectilinear motion, using time coordinates power series 15 p2481 A71-31300

Suboptimal feedback control law for second order nonlinear systems with quadratic performance index, determining power series coefficients 15 p2381 A71-31941

Temperature distribution along short heated wire cooled by flowing liquid with parabolic velocity distribution, using power series for differential equation solution 21 p3378 A71-40581

Numerical power series integration of differential equations of special three body problem with truncation errors elimination to fifth order 21 p3450 A71-40654

Filipov-Ovcharenko wave functions in form of interaction constant inverse power series for calculating two and three nucleon ground state binding energies 22 p3578 A71-42056

Electromagnetic scattering solutions for inhomogeneous dielectrics as power series, using multipoles for far field determination 24 p3847 A71-44427

Power series analysis of circular cylindrical shells stability under biaxial compression, expressing critical loadings 24 p3878 A71-44612

POWER SPECTRA

Frequency-wavenumber power spectrum estimators probability distribution, using Gaussian distribution probability density function 02 p0215 A71-12046

Phase and amplitude fluctuations in oscillator circuits, determining power spectrum, disturbing voltage and current sources and step and impulse functions 03 p0383 A71-13168

Solar wind plasma power spectra noting frequency dependence, particle density and speed and interplanetary magnetic fields 05 p0802 A71-15942

W, Nb, Mo and Ta spectral radiative power at wavelengths from 0.66 to 5.12 mu at various high temperatures 05 p0768 A71-16780

Power spectra of cosmic ray intensity variations at ground and atmospheric pressure oscillations 06 p0950 A71-17979

Cosmic ray mu meson intensity power spectrum frequency dependence, comparing to interplanetary field spectra 06 p0954 A71-18125

Interplanetary magnetic field power spectra fluctuation measurements by Pioneer 6 satellite 06 p0956 A71-18141

- Power spectrum analysis of ELDO Europa 1 third stage thrust phase vibrations, using digital filters
07 p1208 A71-19804
- Planetary nebulae central stars power spectra and HF stellar oscillation observations, using photoelectric time series data
08 p1359 A71-20938
- Earth free diurnal nutation frequency, examining latitude variation power spectrum
08 p1285 A71-21780
- Time series analysis techniques concerning correlation, auto and cross power spectral density, amplitude and period histograms, real time pattern recognition and filtering
09 p1405 A71-22783
- Power spectral density /PSD/ analysis of multilevel binary coded signals for high density PCM recording
09 p1412 A71-22784
- Solar radio bursts power spectra associated with proton events, noting extension to millimeter waves
09 p1514 A71-22933
- Power spectra and electrostatic mechanism of thunder from intercloud and cloud to ground lightning using analog and digital methods
09 p1489 A71-23444
- Micropulsations power spectrum from magnetospheric model based on transient current sheets, approximating background frequency dependence and daytime/nighttime spectral line widths
09 p1441 A71-23638
- Complex and envelope covariance for Rician fading communication channel, deriving equation for unsymmetric power spectrum
10 p1574 A71-23767
- Power density spectrum of longitudinal velocity fluctuations in pretransition pulsed boundary layer
10 p1591 A71-23836
- Cygnus A two component radio source scintillations power spectrum observation by dipole array
10 p1678 A71-24804
- Mean and fluctuating forces on flat plates normal to turbulent flow, giving power spectral density measurements of drag fluctuating component
10 p1598 A71-25085
- Power spectrum symmetry effect on radar signal correlation function and bandwidth
10 p1580 A71-25107
- Power spectral density analysis of aircraft structural response to taxiing produced random vibrations involving landing gear orifice damping and Coulomb friction
11 p1708 A71-26311
- Power law dependence of lateral distribution function and core location of showers detected by Haverah Park array
13 p2122 A71-28068
- Monograph on carbon dioxide laser gain observations covering spectroscopy, energy levels, radiative transitions, molecular collisions, power efficiency, etc
13 p2078 A71-28494
- Transversely excited atmospheric pressure carbon dioxide laser operation at 9.6 microns, describing proper gas mixture for power adjustment
13 p2079 A71-28674
- Long term pulsar intensity observations, noting periodic variations and power spectrum analysis
13 p2143 A71-29270
- Pulsating aurora observations, noting light intensity, diurnal variations and power spectra
14 p2229 A71-29671
- Fluctuation power spectra of CW phase path HF sounders in ionosphere compared with Vaisala frequency curve for upper atmosphere monitoring
14 p2230 A71-29717
- Extreme turbulence measurement during low level flights of Mirage A3-76 fighter aircraft, determining true gust velocities and power spectral energy distributions
14 p2267 A71-29756
- Discrete gust and power spectrum models of atmospheric turbulence, considering energy distribution effect on aircraft dynamic response
14 p2174 A71-29790
- Electron gyro and synchrotron radiation from vacuum and isotropic plasma, deriving approximate general formula for power spectrum and polarization
14 p2282 A71-30661
- Radio frequency measurements below 30 GHz, considering power, impedance, phase shift, voltage and current data
14 p2205 A71-30981
- HF stellar radiation oscillations based on photoelectric monitoring of southern white dwarfs power spectra
14 p2317 A71-31010
- Pc micropulsations spectra fine structure and diurnal variations, analyzing rubidium magnetometer recordings by power spectral density method
15 p2394 A71-31425
- Local time variations of power spectra of magnetospheric electric field from balloon flight data
15 p2397 A71-31758
- Solar eclipse on 7 March 1970, determining midlatitude geomagnetic pulsations with dynamic power spectral analysis
15 p2397 A71-31761

Simplified EEG time domain procedure, using method of period analytic estimates of power spectrum moments
15 p2364 A71-31960

Laser pulse shape, beam modulation and power fluctuation quality control measurements, using non-selective, thermally stable piezoelectric sensor with low time constant
15 p2421 A71-32456

Earth free diurnal nutation frequency, examining latitude variation power spectrum
15 p2401 A71-32685

W, Nb, Mo and Ta spectral emissive power at wavelengths from 0.66 to 5.12 μ at various high temperatures
16 p2591 A71-33032

Resistojet power and specific impulse performance, investigating biowaste derived propellant chemical nonequilibrium effects
17 p2696 A71-35534
[AIAA PAPER 71-688]

Cross power spectral analysis of atmospheric electric potential gradient relation to meteorological parameters, noting diurnal variations
18 p2944 A71-36010

Simple source theory of aerodynamic noise, approximating relationship between radiated sound power and jet pressure spectra
19 p3124 A71-38531

Power spectral analyses of auroral light and X ray pulsations, discussing damping due to velocity dispersions of electrons with various energies
21 p3373 A71-40069

Solar atmosphere oscillatory component observations at 3 mm wavelengths with two radio telescopes, obtaining power spectra
21 p3447 A71-40424

Structural vibrations excited by spatially and temporally random pressure loading, discussing power spectra and vibration measurement
21 p3467 A71-40912

Exposing light and resulting density distribution and granularity in lower photographic emulsion layer, investigating modulation transfer function and power spectrum
22 p3538 A71-41733

Power spectral density of N-ary orthogonal continuous phase FSK waveforms for ELF/VLF communications
22 p3513 A71-42385

Random fluctuating longitudinal pressure gradient effect on steady incompressible channel flow for arbitrary power spectrum and probability density
23 p3664 A71-43597

Lunar electrical conductivity profile from joint power spectral density analysis of Apollo 12 and Explorer 35 magnetometer data
23 p3762 A71-43790

Power spectrum analysis of solar granular intensity fluctuations and velocities, noting asymmetry behavior of Ba II line in individual convection cells
23 p3767 A71-43834

Quantum phase fluctuations in IR gas lasers, noting nearly Lorentzian power spectrum with bandwidth inversely proportional to output power
23 p3688 A71-44269

Metagalactic X ray and cosmic electrons power spectra explanation by electron acceleration and scattering in turbulent plasma with frozen-in magnetic field
24 p3865 A71-44568

POWER SUPPLIES

Electrochemical machining package consisting of machine tool, electrolyte system and power supply
[SME PAPER MR-70-512] 01 p0090 A71-11268

Electric power supplies for communication satellite earth stations, considering methods for power availability and stability
02 p0222 A71-12788

Power sources - Conference, Atlantic City, May 1970
03 p0349 A71-13026

High voltage DC power supplies for aerospace detectors operation, considering different resonant configurations for performance
03 p0352 A71-13051

High speed homopolar alternators as static frequency converter supplies, optimizing design parameters by computer geometric programming
03 p0352 A71-13052

ECG miniaturized single channel biotelemetry transmitter, discussing lightweight design and power supply
10 p1570 A71-24487

Impact resistant power packages for unmanned planetary probe landers, discussing radioisotope thermionic multiconverter array optimal configuration
11 p1713 A71-25898

Quasi-vacuum mode thermionic converter for space and remote terrestrial power supplies, describing computer codes for design optimization
11 p1713 A71-25899

Book on solid state power supplies covering transistorized DC/DC converters and DC/AC inverters, oscillators, power amplifiers, transformers, inductors, magnetic amplifiers, voltage regulators, etc
14 p2182 A71-30857

Optimum power parameters and economic efficiency of Soviet communication satellite system, comparing with terrestrial multichannel communication
17 p2696 A71-34231

Soviet book on subsonic gas turbine passenger planes power supply systems covering Boeing 747, short haul aircraft, DC-10, L-1011, etc
17 p2677 A71-34472

Transistor circuit driven hydrogen-oxygen fuel cell, testing internal impedance effect on power supply noise for comparison with lumped parameter model
19 p3000 A71-38463

Monograph on strong signal behavior of control systems containing multiphase rectifier, covering stability of high power sources
19 p3039 A71-38550

Electrical subsystem of 2-15 kW Brayton power conversion system consisting of speed controller, alternator voltage regulator, DC power supply, etc
20 p3180 A71-38910

Single phase stable frequency AC current power supplies, using stable master oscillator and asynchronous generator
24 p3793 A71-44717

POWER SUPPLY CIRCUITS

Iterative graphical method for broadband N way TEM mode power divider design, using Smith chart
01 p0055 A71-11194

AAP electrical power system simulation for Skylab earth orbit missions, taking environmental effects into account
02 p0190 A71-11795

High power regulated energy transfer by inductor-transformers with single and multiple stages using trapezoidal current waveshapes
03 p0352 A71-13048

Symphonic communication satellite power supply system voltage control, discussing controlled system properties based on closed circuit frequency characteristics
10 p1683 A71-24642

Analog computer power relay analysis simulating flux, coil current, moving mass motion and magnetic and spring forces as function of time
13 p2001 A71-28839

Circuit design of double balanced parametric amplifiers regarding low cost and least degradation performance limits
13 p2039 A71-28906

Modulated power control for fusion welding, considering modification to conventional magnetic amplifier controlled power sources
13 p2076 A71-29093

Book on solid state power supplies covering transistorized DC/DC converters and DC/AC inverters, oscillators, power amplifiers, transformers, inductors, magnetic amplifiers, voltage regulators, etc
14 p2182 A71-30857

Transistorized long time delay relay for power supply circuits with constant function on reenergization after interruption
15 p2376 A71-32021

High voltage power supply for optically pumped solid state lasers, including water cooling of ruby and discharge tube jacket
16 p2585 A71-33074

Spurious effects on stabilizing circuits with loaded Zener diodes for reference voltage source
18 p2893 A71-36800

Microelectronics high power hybrid circuit design, discussing application of packaging techniques to 10 Amp series regulator
21 p3353 A71-40440

Timer devices and applications, discussing timing and power functions, switching cycles, mechanisms, ratings and life/cost evaluation
21 p3379 A71-40672

POWER TRANSMISSION

Power train systems gear induced noise analysis, using in-flight vibration and noise measurements for comparison with calculated noise spectra
[ASME PAPER 70-WA/DGP-1] 03 p0471 A71-14137

High power continuous and pulsed coherent radiation generation by gas lasers, discussing transmission by proton generators and transforming engines
[AIAA PAPER 71-106] 06 p0946 A71-18557

Long life vacuum tests of dry and wet lubricated slip ring systems for power and signal transfer, discussing wear, noise and contact resistance
11 p1771 A71-26050

Y-shaped microwave power splitter, using dielectric wedge partially extending into rectangular metallic waveguide
11 p1733 A71-26349

Helicopter power transmission failure modes, presenting field experiences correlation with conventional design stress analysis and bench test data
[SAE PAPER 71-0454] 13 p2074 A71-28331

Microwave power transmission from orbiting solar power station to earth, discussing design optimization problems
13 p1999 A71-28666

Microwave power transmission for supplying electric power to space station complex for performing scientific experiments over long periods in earth orbits
13 p2000 A71-28667

Microwave power transmission from satellite solar energy station to earth, discussing atmospheric attenuation mechanisms and wavelength and power density optimization

13 p2000 A71-28670

Powered landing gear wheel system requirements for parking and taxiing of commercial jet transport airplanes

[SAE PAPER 710446]

14 p2176 A71-30530

Strain gage torgometer as primary power indicating instrument in helicopter transmission systems, providing advantages for helicopter designer and operator

[AHS PREPRINT 563]

14 p2250 A71-31110

Tapered roller bearing lubrication, considering application to CH-47 Boeing helicopter transmission

17 p2749 A71-35300

Hydrostatic power transmission systems classifications, considering transformation, transport and accumulation of energies /mass, heat, optical, chemical, pneumatic, hydraulic, etc/

18 p2850 A71-36202

Power by wire actuators and fly by wire flight controls, discussing systems configuration, reliability, economy and durability

20 p3183 A71-39150

POYNTING THEOREM

Electromagnetic wave Poynting vector trajectories in absorbing inhomogeneous media, discussing reversibility and energy propagation of spherical and plane structures

02 p0210 A71-11631

POYNTING-ROBERTSON EFFECT

VLF Poynting flux measurement technique on Juno 5 satellite using one electric and one magnetic antenna, discussing magnetic orientation errors effects

07 p1062 A71-19668

PPI [POSITION INDICATORS]

U PLAN POSITION INDICATORS

PPM [MODULATION]

U PULSE POSITION MODULATION

PRACTICES

U PROCEDURES

PRANDTL NUMBER

Turbulent heat transfer in nonNewtonian fluid flow, considering generalized Prandtl number effect

02 p0241 A71-12642

Coolants Prandtl number effect on pressure drop, heat transfer and friction of rough surfaces

04 p0675 A71-14779

Prandtl number measurement in turbulent thermal boundary layer along flat plate with stepwise wall temperature variation

04 p0680 A71-15477

Heat transfer from finite flat plate in channel flow for vanishing Prandtl number, using Fourier transform and Wiener-Hopf technique

[DFVLR-SONDDR-98]

05 p0837 A71-16710

Hydromagnetic boundary layer free convection past vertical flat plate, discussing flow rates, temperature profiles and skin friction for high and low Prandtl numbers

07 p1165 A71-18744

Heat exchange in turbulent flow at large Prandtl numbers, using Van Driest formula

07 p1223 A71-19747

Asymptotic far field velocity component in Prandtl boundary layer equations for steady laminar two dimensional flow past rigid body

09 p1486 A71-23578

Heterogeneous chemical reaction for visualization of wall streamlines on moving obstacle, discussing boundary layer structure at large Prandtl and Schmidt numbers

10 p1591 A71-23835

Low Prandtl number laminar compressible boundary layer flow over flat plate, obtaining recovery temperature profile and heat transfer by matched asymptotic expansions method

10 p1597 A71-25066

Smooth annuli correlation equation for friction factor, discussing Prandtl turbulence based Spalding inner velocity profile modification

12 p1896 A71-27053

Heat exchange at large Prandtl numbers near porous flat wall with liquid injection, calculating Stanton number

13 p2046 A71-28181

Thermal turbulence at infinite Prandtl number of horizontally infinite fluid layer heated from below, using Boussinesq equations

13 p2162 A71-28776

German monograph on viscous fluids heat transfer in pipes covering Prandtl number dependence, turbulent boundary layer flow and transition areas

15 p2514 A71-32375

Heat transfer in wall region of steady turbulent flow at large Prandtl numbers, plotting temperature distribution curves

17 p2728 A71-35119

Prandtl three dimensional boundary layer equations in orthogonal curvilinear coordinates, applying implicit finite difference scheme to solution

18 p2906 A71-36318

Laminar free convection from line heat source for Prandtl number 2 based on differential equation solution

20 p3314 A71-39491

Temperature and electron density measurements for free jet of ionized nitrogen at atmospheric pressure by plasma spectroscopy, estimating Prandtl numbers

23 p3664 A71-44197

High Prandtl /Schmidt/ number fluids turbulent flow temperature profile derivation by turbulent transport mathematical model

23 p3664 A71-44199

Vertical laminar natural convection boundary layer stability during thermal expansion at large Prandtl number

24 p3886 A71-44422

PRANDTL-MEYER EXPANSION

NT THERMAL BUCKLING

Vibrational nonequilibrium Prandtl-Meyer expansion flows, discussing vibration energy associated with change of state and hypersonic nozzle flow calculation

18 p2909 A71-36440

Fundamental derivative /gamma/ and other thermodynamic variables in gas dynamics, considering transonic passage variation, Prandtl-Meyer wave, adiabatic flow and nonlinear wave propagation

22 p3530 A71-41887

Ideal compressible fluid plane unsteady vortex-free selfsimilar flow, obtaining particular solutions families similar to Riemann waves and Prandtl-Meyer flows

22 p3532 A71-42866

PRASEODYMIUM

Ce, Pr and Nd solubility in Cr, investigating temperature dependence, microhardness, deoxidation and alpha phase by X ray, metallographic and durometric analyses

07 p1144 A71-20652

Temperature induced spectral line widening of trivalent positive Pr ions in lanthanum niobate crystals

09 p1507 A71-22391

Room temperature visible surface laser action in praseodymium chloride and bromide, obtaining optical pumping into upper laser level by wavelength tunable dye laser

22 p3556 A71-41802

PREAMPLIFIERS

Low noise microstrip microwave mixer-preamplifier on thin polyolefin reinforced with Al, discussing design and manufacture

08 p1263 A71-20771

Microwave MESFET HF circuits, discussing noise factor advantage over bipolar transistors in low noise preamplifiers

21 p3355 A71-40743

Radio pulse synchronous detection with wideband preamplifier, evaluating frequency mismatch effects on signal distortion by transient response analysis

23 p3644 A71-43287

Operational principles and circuit diagram of transistorized preamplifier for Si p-i-n gamma quanta radiant flux detector, noting noise properties and possible improvements

24 p3810 A71-45151

PRECAMBRIAN PERIOD

Precambrian and Cambrian stromatolites used for determination of nearest lunar approach to earth

04 p0583 A71-15141

Carbonaceous chondrite and Precambrian chert amino acids detection, using simultaneous optical configuration determination and gas chromatography

09 p1393 A71-22984

Permeability and porosity of Precambrian Onverwacht cherts and other low permeability rocks, discussing geological origin of rock-contained organic compounds

18 p2913 A71-36768

Blue-green algae survival or growth ability tests under simulated Precambrian atmospheric conditions

22 p3487 A71-42230

PRECAUTIONS

U ACCIDENT PREVENTION

PRECESSION

NT LARMOR PRECESSION

NT PROTON PRECESSION

Lunar tides and precession effects on model earth fluid core dynamics

02 p0245 A71-11994

Pole Chandler motion, discussing residual deviations distributions in Jeffreys and Arato-Kolmogorov models

02 p0309 A71-12105

Gyroscopic precession effects in earth polar orbital satellite experiments for Einstein general relativity tests

02 p0312 A71-12369

Tied aether existence hypothesis determination, comparing gyrocompass precessional couple at earth surface and at 3300 m depth for negative results

03 p0456 A71-13358

Precession equations of gyroscope onboard near earth satellite, comparing Schiff and Brans-Dicke theories

05 p0781 A71-16488

Earth rotation polar motion dynamics, discussing wobble, drift, nutation, precession and sway

06 p0890 A71-17877

Chandler wobble seismic excitation by dislocations elasticity theory, discussing pole path changes-earthquake correlation

06 p0891 A71-17886

Earthquakes association with Chandler wobble from ILS-IPMS polar data

06 p0891 A71-17888

Earth core-mantle coupling as energy source for mantle wobble, taking into account precession cross coupling

06 p0891 A71-17890

Free Lagrangian gyroscope, discussing numerical relations between precessions and nutations

06 p0899 A71-17931

Two-body satellite of axisymmetric rigid bodies interconnected by lossy universal joint, calculating transient oscillation damping of forced precession under external torque

07 p1205 A71-18895

Single rotor gyrocompass dynamics under LF three component linear vibration of base, using precessional equations

07 p1108 A71-19305

Orbiting gyroscope de Sitter precession in different versions of Brans-Dicke theory, discussing term arising from anomalous scalar force in equations of motion

07 p1160 A71-19550

Earth poles motion, measurement methods and possible causes due to earth core and mantle effects on earth rotation

09 p1434 A71-22057

Maximum deviations of corrected uniaxial gyrostatilizer under disturbances on stabilization and precession axes with modulus constraints

09 p1450 A71-22796

Forced rotation influence of gimbal suspension on astatic gyroscope motion with respect to inertial coordinates, demonstrating pseudoregular precession

09 p1451 A71-23172

High accuracy angular precession measurements with automatic gyro for satellite relativity tests, using optical system with reticle coordinates

09 p1452 A71-23595

Longitude precessional constant determined by long baseline interferometry through dynamical behavior observation of earth orbiting or interplanetary artificial spacecraft

10 p1674 A71-24437

Precessional equation of gyroscopic systems with rigid structural elements connected by single degree of freedom axial hinges

10 p1611 A71-24577

Newcomb precession constant accuracy, noting stellar motion analogies and analytic effects on earth polar secular motion

12 p1901 A71-27092

Orbital space stations and spacecraft courses, determining orbit precession and perturbation

12 p1968 A71-27628

Disk rotating in gimbal system, describing gyroscopic moments and precession

13 p2068 A71-28632

Maximum nutation-precession angles of spin stabilized satellites during extension of long flexible booms

15 p2500 A71-32046

Energy dissipation measurement in liquid filled spinning precessing spherical cavity by gimbaled mechanism

[ASME PAPER 71-APM-4]

16 p2644 A71-33219

Newcomb precession determination from Bradley stars proper motions, evaluating neglect of galactic rotation

18 p2961 A71-35942

Rigid sphere and concentric shells models approximation to turbulent motion in liquid-filled precessing spherical cavity

[ASME PAPER 71-APM-Y]

18 p2904 A71-36265

Correction values to centennial precession, using stellar proper motions

18 p2970 A71-37063

Active precession control devices for spin stabilized spacecraft, noting energy dissipation effect

[AIAA PAPER 71-952]

19 p3148 A71-37193

Newcomb precession constant accuracy, noting stellar motion analogies and analytic effects on earth polar secular motion

19 p3049 A71-37442

Angular momentum vector orientation of reentry vehicle at end of spin-up, using helicoid precession concept to characterize rotational motion during constant thrust

22 p3611 A71-42029

Gravitational and aerodynamic perturbation moment effects on nonsymmetric solid body rotary motion near mass center, using precession model

22 p3612 A71-42870

Liquid flow rate measurement by determining fall time of emf generated in sensor coil by fluid nuclei precessing freely in magnetic field

23 p3678 A71-43536

- Cayley-Klein parameters application to quasi-precessional motion of satellite with multiple rotors, using perturbation method 24 p3848 A71-44830
- Precession rate of balanced gyroscope in Cardan suspension with elastic gimbal couplings 24 p3826 A71-44833

PRECIOUS METALS

U NOBLE METALS

PRECIPITATION [CHEMISTRY]

- Titanium carbide ingots production for laminar and flake precipitation of graphite, using electric arc furnace with consumable electrode 02 p0238 A71-12281

- Precipitation reactions in concentrated Ta-Hf and Nb-Hf alloys at 600-1400 C from X ray diffraction and transmission microscopy, discussing phase relations 06 p0914 A71-18679

- Stress annealed Ni-base superalloy crystals, investigating orientation and applied uniaxial stress sense effect on coherent gamma prime precipitates morphology 07 p1138 A71-19987

- Gamma prime precipitate effects on flow stresses of Ni alloys single crystals at various strain rates and elevated temperatures 08 p1315 A71-21580

- Chemical precipitation techniques for dispersion hardened high temperature alloys, considering Co, Ni, Cr, Mo and W multicomponent alloys 09 p1455 A71-23285

- Point defects and fine precipitates effects on fatigue strength of high strength alloys, exhibiting higher fatigue strength in isothermally aged samples 10 p1625 A71-24009

- Stress-strain curve and single crystal dislocation structure of Al alloys with coherent precipitates, noting screw dislocations predominance 10 p1629 A71-25033

- Crystal imperfections effect on MC carbide precipitation on coherent twin boundaries and regions close to grain boundaries in austenitic steels, using electron microscopy 11 p1780 A71-26027

- Metal carbide grain boundary precipitates effect on austenitic stainless steels high temperature fatigue fracture behavior 11 p1782 A71-26439

- Grain boundary precipitation in austenitic steels during creep deformation and ordinary aging treatment 13 p2086 A71-28623

- Al-Zn-Mg alloys, considering Cu and Cr additions effects on nucleation and incoherent precipitates formation 13 p2088 A71-29406

- Precipitation kinetics and austenite formation during aging of Fe-Ni-Mo and Fe-Ni-Co-Mo maraging alloys from dilatometry, electrical resistivity measurement and electron microscopy 14 p2257 A71-29838

- Al-Li alloys precipitation characteristics and time-temperature-transformation curves after solution treatment, water quenching and aging 14 p2259 A71-30393

- Stable eta phase precipitation at dislocations in Al-Zn alloy, using X ray diffraction and electron microscopy 14 p2260 A71-30477

- High tensile strength maraging steels aging, discussing dispersed precipitates formation by homogeneous nucleation 15 p2427 A71-31525

- Udimet 700 superalloy gamma prime precipitate particle size, volume fraction and chemical composition as function of time and temperature 15 p2433 A71-32176

- Sigma phase intergranular precipitation in low carbon Ni-Co-Cr-Mo alloys, noting temperature effect on morphology 15 p2436 A71-32546

- Iron precipitation rate from supersaturated Al alloy solid solution in structures with low and high dislocation densities 19 p3079 A71-37702

- Hydraulic fluids contribution to system contamination, discussing precipitate formation due to reaction with water, filtration inability and contaminant elimination 19 p2999 A71-38323

- Polar cap absorption event, investigating solar high energy protons precipitation effects 19 p3129 A71-38360

PRECIPITATION [METEOROLOGY]

- NT DEW
NT HAIL
NT RAIN
NT SNOW

- Radar attenuation along slant paths due to precipitation, comparing ATS-5 direct measurements with calculations based on backscatter and sky temperature measurements 01 p0030 A71-10579

- Radar precipitation measurement accuracy improvement, using various Z-R relationships for correlation of radar data and rainfall rates 01 p0117 A71-10581

- Cloud and precipitation boundaries in convective storms studied by stereophotogrammetry and radar, discussing radar echo motion within cloud envelope 01 p0118 A71-10586

- Digital range-bin integrator for precipitation echoes, using static shift registers as memory element 01 p0049 A71-10592

- Autocorrelation of weather radar precipitation patterns by incoherent optical method 01 p0030 A71-10599

- Annual and diurnal variations of temperature inversion over antarctic plateau, discussing wind field structure and ice crystal precipitation 05 p0778 A71-17043

- Space charge effects on fog precipitation, taking droplet size into account 05 p0779 A71-17141

- Spatial correlations between inside cumulus cloud conditions and precipitation onset and intensity for modification experiments from aircraft penetration measurements 08 p1326 A71-21450

- Areal precipitation quantitative radar measurements, describing signal processing and digital system for contour mapped displays and numerical summaries 08 p1257 A71-21738

- Electromagnetic interference, discussing man-made, inherent and natural types including atmospheric electrical disturbance, precipitation static, sunspots, etc 12 p1879 A71-27059

- Conjugate and closely-spaced riometer observations of auroral radio absorption, considering explanation by alternation of particle precipitation between Northern and Southern Hemispheres 14 p2192 A71-29667

- Nonadiabatic convection parameters calculation allowing for vertical wind shear, determining effect on thunderstorm maximum possible duration, gusts and precipitation quantity 15 p2444 A71-31361

- Martian blue haze clearings and flash phenomena meteorological mechanism, considering atmospheric clearing due to water precipitation 18 p2966 A71-36767

- Precipitation formation and regulation from supercooled and frontal clouds, noting crystalline cloud seeding effects 19 p3092 A71-36869

- Hail precipitation process from cumulonimbus clouds based on aircraft and ground observations 19 p3093 A71-36892

- Tropical cumulus clouds seeding experiments with silver iodide smoke, discussing cloud growth and precipitation increase 19 p3093 A71-36893

- Electric charge generation in storm clouds, considering water droplets, ice crystals and air movements role in precipitation and charge separation mechanism 20 p3256 A71-39071

- Probabilistic weather forecasting for temperature and precipitation, examining feedback and prediction evaluation 20 p3256 A71-39203

- Unified international scaling for annual and seasonal precipitations measured by national gages, comparing U.S.S.R. and U.S. reduction coefficients 21 p3383 A71-41377

- Error factors of seasonal precipitation measurements by total precipitation gages 21 p3383 A71-41378

- Areal precipitation correlation with 850 mb geopotential height over Northern Hemisphere 22 p3535 A71-42414

- Weather and climate modification, reviewing techniques for meteorological processes control, cloud and precipitation modification, ascending flow stimulation, etc 23 p3701 A71-43450

- Radio echoes from clouds and precipitation, determining detection threshold, station potential and statistical distribution numerical characteristics 24 p3844 A71-44879

- Atmospheric attenuation effects on cloud and precipitation radar reflection coefficient 24 p3845 A71-44880

- Cloud and precipitation effects on radio echoes intensity measurement, discussing pulse dimensions influence on average signal magnitude 24 p3845 A71-44881

- Laser IR radiation attenuation in atmospheric precipitation, considering snow, rain and drizzle 24 p3835 A71-45255

PRECIPITATION HARDENING

NT MARAGING

- Al alloys nucleation and precipitation hardening, examining quenching rate effects with hardness measurements and electron microscopy 04 p0613 A71-15744

- Al alloys grain boundary precipitation pattern relationship to stress corrosion sensitivity 04 p0613 A71-15746

- Sulfide precipitates shape preservation in high strength low alloy hot rolled steel sheets, discussing effects of various additive elements 04 p0614 A71-15782

- Age hardened Ni base material strain-age cracking phenomenon measurements, using constant strain Gleeble technique 04 p0617 A71-15912

- German monograph on Co-free heat resistant austenitic steel alloys precipitation hardening and creep strength properties as function of chemical composition 05 p0764 A71-15973

- Nitrogen-alloyed austenitic steels precipitation hardening, discussing aging and strengthening rates 05 p0767 A71-16767

- Fiber composites reinforcement obtained in oriented solidification by structural precipitation hardening of matrix [ONERA-TP-920] 06 p0913 A71-18094

- Stress rupture properties at elevated temperature of nickel base superalloys with varying Ti and Al additions, investigating microstructural and age hardening effects 06 p0913 A71-18676

- Uniaxial stress effect on morphology changes of coherent gamma prime precipitates in nickel base superalloy crystals 06 p0914 A71-18682

- Alloy strengthening by ordered precipitates, predicting antiphase boundary energy from flow stress vs particle size plots 07 p1132 A71-19440

- Ordered phases precipitation in ternary and quaternary ferritic alloys, investigating morphology, structure, distribution, coarsening kinetics and mechanical properties 07 p1133 A71-19443

- Binary Ti-Al and ternary Ti-Al-X alloys precipitation strengthening, investigating structure, mechanical properties and deformation behavior 07 p1133 A71-19444

- Ni base superalloys mechanical properties relationship to microstructure, considering precipitate dispersion and phase state effects on flow stress and creep strength 07 p1133 A71-19445

- Ni base superalloys fatigue behavior, emphasizing role of ordered gamma prime precipitate in two phase materials 07 p1133 A71-19447

- Al-Li alloy precipitation hardening after neutron irradiation, noting yield stress increase after aging at various temperatures 07 p1143 A71-20487

- Neutron irradiation effects on Al-Mg alloys tensile properties, noting yield stress increase and appearance of Luders strain 07 p1143 A71-20492

- Maraging steels precipitation hardening due to alloying with Si, obtaining improved strength with satisfactory plasticity 08 p1305 A71-21026

- Pure vs dispersion hardened Ni plastic deformation, noting flow stress and temperature effects on work hardening 08 p1311 A71-21544

- Ni-Cr thoria dispersion strengthened alloys, determining texture effects on high temperature mechanical properties 08 p1311 A71-21545

- Mo-Hf alloy dispersion hardening by internal nitriding, examining structure and high temperature mechanical behavior 08 p1311 A71-21546

- Al-Cu precipitation hardened alloys, determining microstructure effects on fatigue life and flow stress 08 p1312 A71-21547

- Mg-Y alloy age hardening due to coherent metastable phase precipitation 08 p1312 A71-21548

- Nb-Hf alloys alpha precipitation strengthening via aging at various temperatures, examining mechanical properties 08 p1312 A71-21549

- High strength martensite beta Ti alloy microstructure, discussing ductility and age hardening 08 p1312 A71-21552

- Ni superalloys strengthening by body centered tetragonal gamma double prime phase precipitation, investigating various alloying components and ratios 08 p1314 A71-21568

- Precipitation hardened Ni base superalloys fatigue deformation, investigating correlation between metallurgical structure characteristics and high-cycle fatigue behavior 08 p1314 A71-21570

- Paired dislocations after high temperature deformation in precipitation hardened Co-Ti alloy 08 p1315 A71-21582

Tensile data for dispersion hardened iron containing thorium spherulites analyzed in terms of Orowan theory, considering bcc materials yield strength

09 p1466 A71-22172

Discontinuous decomposition and aging kinetics of supersaturated solid solutions of tungsten in cobalt, comparing to precipitation theories

09 p1469 A71-22848

High temperature precipitation hardening of Ni-Cr alloys, discussing effect on creep rupture strength

09 p1470 A71-23044

Al and Fe additions effect on transitional phases formation and metastable phase precipitation in Ni-Nb system, using transmission electron microscopy

09 p1471 A71-23124

Chemical precipitation techniques for dispersion hardened high temperature alloys, considering Co, Ni, Cr, Mo and W multicomponent alloys

09 p1455 A71-23285

Dispersion hardened Ni and Co alloys production by powder metallurgy, noting elastic distortion due to particle strengthened base material

09 p1474 A71-23294

Thorium containing Ni and Co base powders reduction in hydrogen atmosphere for precipitation hardened materials production, determining optimal thermodynamic and reaction kinetic factors

09 p1475 A71-23306

Yield strength theories of heterophase systems with precipitates surrounded by elastic strain fields, considering dislocation precipitation interaction mechanism

09 p1510 A71-23321

Cold prestraining effect on steady state creep strength and rate of precipitation hardened heat resistant steel

09 p1477 A71-23331

Heat resistant dispersion strengthened and fiber reinforced metal matrix superalloys for high temperature applications, considering superstrength alloys development

09 p1478 A71-23397

Ni-Cr alloys hardened by Nb and Ta, examining precipitation and plastic deformation mechanisms

09 p1479 A71-23622

Strengthening processes in precipitation hardened and dispersion hardened alloys produced by powder metallurgy

10 p1614 A71-23903

Zr effect on Ti-Mo beta alloy stability, considering Zr suppression and retardation of omega precipitation on basis of TTT diagram and tensile tests

10 p1625 A71-24007

Al-Cu alloys recrystallization and age hardening irregularities, discussing inhomogeneous and anisotropic effects on ideal characteristics

10 p1628 A71-24823

High strength stainless steel dislocation structure and mechanical properties, discussing tempering, tensile strength, precipitation hardening and temperature effects

11 p1776 A71-25167

Steel structural transformations under arc melting, cooling and electroslag remelting, noting delta ferrite precipitation with hot stage microscope

11 p1776 A71-25168

Intermetallic compound precipitation processes in Ti-Cu alloys for high yield strengths, using electron microscopy

11 p1779 A71-26017

Hydrogen effects on low temperature solution strengthening and ductility of Nb-H single crystals, noting effects of normal and strain induced hydride precipitation

11 p1780 A71-26020

All-beta Ti alloy Ti-V-Cr-Al, testing dynamic behavior of strain aging during stress relaxation period

11 p1780 A71-26026

Atomic bond strength of solid solution hardening as function of composition for calcium/strontium difluorides, using vibrational IR and laser Raman spectra

12 p1877 A71-26804

Predeformation effects on metastable Ni base Ti alloys precipitation aging at extrinsic stacking faults, using thin foil microscopy

12 p1916 A71-26894

High chromium hot corrosion resistant superalloys in sheet form, noting precipitation hardening and creep resistance equivalent to Nimonic alloys

12 p1916 A71-26922

Ni-base alloys hardened by gamma prime precipitation, investigating embrittlement by oxygen [ASME PAPER 71-MET-D]

12 p1917 A71-27313

Composite heat resistant Ni alloy production using refractory oxide phase dispersion hardening

13 p2083 A71-27893

Explosive and isostatic forming effects on commercial precipitation-hardenable Al-Cu alloy microstructure, tensile properties and fatigue life

15 p2433 A71-32180

Guinier-Preston zone size and volume fraction effects on polycrystalline Al-Zn alloys yield strength,

discussing precipitation strengthening and thermally activated plastic flow

15 p2433 A71-32182

Dispersion hardened Co strength and plasticity temperature dependence, determining Ti and Nb carbides additives effects

15 p2434 A71-32237

Precipitation hardenable Ni-base alloys embrittlement in high temperature oxygen atmosphere, considering intergranular crack initiation

15 p2434 A71-32257

Age hardenable Inconel X-750 superalloy mechanical response to tensile loads for identifying microstructural changes due to deformation

15 p2437 A71-32616

Heat resistant weldable dispersion hardened Ni base alloy, discussing intermetallic phase hardening

16 p2594 A71-33715

Tensile properties, plane strain fracture toughness and stress corrosion threshold of high strength precipitation hardening stainless steels

17 p2755 A71-34438

Ti alloys metastable omega phase precipitation effect on mechanical properties, using thin film microscopy

17 p2756 A71-34492

Wrought precipitation hardened Co-base alloy, investigating Ti and Al additives effects on tensile and stress rupture strengths, microstructure and fabricability

17 p2758 A71-35147

Environment and frequency effects on fatigue properties of age hardening Al-Cu-Mg alloy

18 p2933 A71-35876

Molybdenum effect on morphology, size and square density of precipitating gamma particles in nickel alloys

18 p2934 A71-35991

Fiber volume content, fiber-matrix bonding, heat treatment and age hardening effects on transverse modulus and tensile strength of unidirectional Al matrix fibrous composites

18 p2935 A71-36597

Age hardening of Mo alloys with titanium and zirconium carbides at high temperatures after quenching

19 p3077 A71-37268

Precipitation strengthened Fe-Ni-base superalloy microstructure, investigating phase relationships

19 p3079 A71-37711

Matrix stacking fault energy effect on tensile creep deformation modes in gamma prime precipitation hardened nickel-base alloys

19 p3080 A71-37721

Recovery creep properties and intercrystalline fracture in precipitation hardened alloys heat treated on relative stable conditions

20 p3250 A71-39024

Composite heat resistant Ni alloy production using refractory oxide phase dispersion hardening

21 p3396 A71-40084

Retained lattice strain and substructure domain size effects on tensile strength at room and elevated temperature in dispersion strengthened Ni alloys

21 p3397 A71-40453

Precipitation hardened Ti-Nb alloy, correlating room temperature tensile properties with microstructure from step aging

21 p3387 A71-40461

Hardness, internal friction, microstress, martensite lattice and density changes during aging of precipitation hardening Fe-Cr-Ni steel, using dilatometric and X ray analysis

21 p3402 A71-41086

High strength stainless steel dislocation structure and mechanical properties, discussing tempering, tensile strength, precipitation hardening and temperature effects

21 p3402 A71-41088

High strength steel structural transformations under arc melting, cooling and electroslag remelting, noting delta ferrite precipitation with hot stage microscope

21 p3402 A71-41089

Alloying effects on crack propagation resistance of precipitation hardening austenitic steel

21 p3402 A71-41091

Metallography of 700 C precipitation hardening in Fe-Ni alloy containing Be, using transmission electron microscopy

21 p3404 A71-41417

Crystal microstructure of strengthening precipitates in Ni maraging steel, giving electron diffraction patterns

22 p3562 A71-41949

Phase transformations and mechanical properties of heat resistant martensitic stainless steel during precipitation aging at prolonged high temperature exposures

23 p3690 A71-43280

Austenitic Fe-Ni-Ti steel strengthening by precipitation hardening and subsequent aging at 600 C

23 p3690 A71-43282

Weakly diffracted beam observation of small quenching vacancy loops and Guinier-Preston

precipitate zones in Al and Al-Cu, using transmission electron microscopy

23 p3691 A71-43359

X ray analysis of scale formation in precipitation hardened nickel, investigating thermal resistance and oxidation rates

23 p3691 A71-43520

Precipitation hardenable Cr-Cu liquid phase sintered powder composite, showing matrix properties variations

23 p3695 A71-44291

Age hardenable Mg-Y alloys, investigating impurity phase in solution heat treatment

23 p3696 A71-44292

Metal hardening by dispersion of spherical ordered and coherent precipitates from statistical theory

24 p3861 A71-45196

Mo sheet anisotropic dynamic strain aging at high temperatures, noting plastic strain contribution to texture formation and dislocation consolidation

24 p3840 A71-45378

PREDICTION PARTICLE MEASUREMENT

Alloy strengthening by ordered precipitates, predicting antiphase boundary energy from flow stress vs particle size plots

07 p1132 A71-19440

Charge generating mechanism based on charge separation from falling precipitation particles effect on thunderstorm electrification

14 p2269 A71-29951

Droplet size and concentration in gas stream, discussing measurement error analysis and recording medium calibration procedure

16 p2663 A71-33363

Auroral electrons and protons precipitation patterns from ESR 1A northern polar cap observations, identifying electron energy zones

19 p3060 A71-38574

Water aerosol flux interaction and drop capture with particles of solid reagent, considering agaroid films and precipitation on thin wires

19 p3094 A71-38699

Electrooptical measurement of high altitude rain cloud droplets size, shape and distribution

23 p3676 A71-43507

PREDICTION

Precision timing system implementation and operation, considering synchronization maintenance by flying cesium beam clocks, satellite, VLF and LF techniques

03 p0429 A71-14270

PREDICTION ANALYSIS TECHNIQUES

Optimal prediction of stochastic differential equation solution with Gaussian member and small non-linearity

01 p0110 A71-10098

Reliability prediction method effectiveness for control plant with efficiency represented by canonical forms

01 p0064 A71-10924

Parameter estimation of mixed autoregressive moving-average /ARMA/ time series using output data

06 p0878 A71-17332

Dynamic digital predictive compensation learning control systems with time delay transform identification by template matching technique

06 p0878 A71-17336

Digital on-off predictive adaptive control system feasibility analysis

07 p1082 A71-20407

Regular and stochastic algorithms for efficiency estimation of adaptive predicting filters

08 p1260 A71-22021

Selection of uncorrelated measurement composition ensuring optimal accuracy of space vehicle trajectory

09 p1519 A71-22541

Parameter estimates effectiveness from independent discrete and continuous navigation measurements of circular orbital plane

09 p1491 A71-22543

Solid propellant instantaneous burning rates prediction methods based on flame structure model and steady state burning data as functions of pressure and initial temperature

09 p1510 A71-22905

Prediction analysis of downstream effectiveness in high speed laminar boundary layer for reentry vehicular surfaces film cooling, using reference enthalpy method

11 p1752 A71-26216

Failure prediction from interval data for reliability and inventory problems, considering irregular inspection and manufacture for aging in calendar time

12 p1911 A71-26687

German monograph on spacecraft systems launch readiness prediction covering reliability requirements, configuration analysis, tradeoffs, failure analysis, mathematical techniques, etc

13 p2146 A71-29482

Numerical prediction of radiation patterns for antennas mounted on spacecraft, noting booms and solar cell panels effects

14 p2218 A71-31068

Synthesis method for combining individual part repair time distributions for maintainability prediction using computer

16 p2552 A71-33301

Linear dynamic system recursive state estimation for set-membership description of uncertainty under unknown input disturbances and observation errors

17 p2718 A71-34734

Interceptor aircraft optimal nonlinear command guidance scheme for reduction of airborne computation load with forward prediction of interceptor and target state vectors

[AIAA PAPER 71-916] 19 p3096 A71-37166

Computerized automatic estimation techniques application to real time aircraft tracking in ATC system design

[AIAA PAPER 71-926] 19 p3096 A71-37172

Optimality in classification of stochastic processes in recognition system, using predicting filter rms error as discriminating function

19 p3038 A71-37779

Polymer materials strength and lifetime prediction under natural conditions from mathematical model based on laboratory accelerated test data

19 p3084 A71-37781

Aerothermodynamics and scale modeling techniques for prediction of plastic burning rates, using Spalding mass transfer theory and dimensional analysis

19 p3171 A71-38250

Performance prediction model for electromagnetic compatibility of ATC radar beacon system, testing interrogator-transponder links along air route

19 p3102 A71-38435

Computer-aided statistical analysis correlation method for prediction of electronic circuit component part variability effects on performance and reliability

22 p3517 A71-42102

Second order approximation algorithm for nonlinear noisy dynamical system state estimation from noise corrupted observations

23 p3656 A71-43854

Laminar boundary layer transition prediction techniques, evaluating empirical formulations and Schlichting-Tollmien stability methods

[AIAA PAPER 71-985] 24 p3817 A71-44581

Discrete parameter covariance stationary stochastic process in rotation sampling, deriving minimum variance unbiased linear population mean estimator by constrained optimization procedure

24 p3844 A71-45132

PREDICTIONS

NT IMPACT PREDICTION

NT LINEAR PREDICTION

NT PERFORMANCE PREDICTION

Optimization of linear tracking strategies, considering time independent and translation invariant N point predictor

15 p2379 A71-31411

Predictor-corrector algorithms with identical regions of absolute or relative stability

17 p2769 A71-35690

PREDICTORS

U PREDICTIONS

PREFLIGHT TESTS

Qualification tests for equatorial ELDO Europa Launch Site with MSRV, discussing checkout system and performance

23 p3661 A71-43474

PREFLIGHT ANALYSIS

Preflight balance analysis of dual spin satellites, discussing error sources

[SAWE PAPER 882] 17 p2815 A71-35821

Mission analysis aspects of space shuttle operations between earth orbit station and lunar orbit station

[AAS PAPER 71-301] 23 p3724 A71-42977

Graphic mission analysis for outer planet missions, considering spacecraft and celestial bodies relative positions, sensor and spacecraft relative orientation

[AAS PAPER 71-378] 23 p3731 A71-43048

Lunar impact targeting technique improvement for Apollo 14 mission preflight analyses and flight support operations

[AAS PAPER 71-392] 23 p3732 A71-43060

PREFLIGHT OPERATIONS

Optimal preflight feeding for pilots, discussing protein content and vitamin enrichment

01 p0024 A71-11109

PREFORMS

Forgeability and tensile properties of spark sintered unstrained Ti-Al-V preforms from prealloyed powders in uncontrolled atmosphere

13 p2084 A71-28147

PREGNANCY

Glucose intestinal absorption, blood glucose and hematocrit in hamsters, relating physiologic modifications to pregnancy

02 p0201 A71-12608

PREHEATERS

U HEATING EQUIPMENT

PREHEATING

U HEATING

PREIMPREGNATION

Composite fiber-reinforced structures fabrication methods

[SME PAPER EM-70-112] 01 p0089 A71-11256

Single ply sandwich composite prepregs for use with honeycomb reinforcement, noting one step curing for light weight structural panels

10 p1630 A71-24065

Fabricated product test program design for meeting customer specifications, outlining routine tests for preimpregnated film adhesive materials

10 p1616 A71-24107

Epoxy resin in fiber reinforced composite prepregs, characterizing by thermomechanical analysis and gel permeation chromatography

11 p1786 A71-25411

Physical and mechanical properties of controlled flow vacuum cured glass reinforced polyimide prepreg laminates

22 p3565 A71-42595

PRELAUNCH PROBLEMS

Direct in-orbit alignment of integrated optical strap-down inertial guidance system for space application, considering self contained prelaunch alignment and calibration

17 p2774 A71-35071

PRELAUNCH TESTS

Telemetry systems prelaunch calibration tests, considering bit error rate, intermodulation distortion and antenna tracking

04 p0554 A71-15317

Thermal/vacuum space simulation assembly level testing for prelaunch confidence of Mariner spacecraft

12 p1893 A71-26680

Space station facilities and launch and prelaunch operations at Kennedy Space Center, discussing statistical analysis for activity optimization and integrated mission management concept

18 p2899 A71-36474

Skylab checkout and launch facilities and operations, describing modifications required for Apollo lunar missions facilities utilization at Cape Kennedy

18 p2899 A71-36476

Apollo/Saturn 5 propulsion system design, development, testing and integration

22 p3589 A71-42026

PRELOADING

U PRESTRESSING

PREMATURE OPERATION

Premature scheduled maintenance, providing model for duplication between repair and overhaul/replacement cost

16 p2552 A71-33313

PREMIXED FLAMES

Supersonic inviscid flow fields associated with conical premixed flame sheet

03 p0521 A71-14242

Premixed laminar flames in flow fields, amplifying fluid mechanical disturbances including vibratory motion and overall feedback loop

06 p1007 A71-18221

Back mixing effects on hydrocarbons combustion, comparing well-stirred reactor with flat flame soot yields

07 p1181 A71-19240

Post reaction zone properties of premixed fuel rich propane-oxygen flames on torch, measuring temperature, composition and hydroxyl radicals

08 p1345 A71-20858

HCN, acetylene and ethylene formation by propane in mixed jet staged flames

08 p1346 A71-20861

Combustion kinetics of premixed laminar graphite dust-oxygen-nitrogen flames with/without hydrocarbon

08 p1346 A71-20866

Heat fluxes from premixed methane-oxygen and propane-oxygen flames measurement by transient calorimetric method, comparing forward stagnation point results with calculated values

10 p1695 A71-24049

One dimensional premixed turbulent flame energy equation as function of heat release rate curve, temperature, velocity, composition and density

12 p1985 A71-26741

Flame quenching device for distances determination by burning premixed laminar propane-air at atmospheric pressures between nonparallel walls

15 p2385 A71-32089

Nonpremixed and premixed combustion theory in laminar flows, considering diffusion flame- reaction time ratio and activation energy effects

15 p2515 A71-32564

Gaseous chromium carbonyl or aqueous chromium salt spray additives behavior photometric investigations in premixed hydrogen-oxygen-nitrogen flames

16 p2540 A71-33374

Metal additives catalytic effects on premixed hydrogen-oxygen-nitrogen flames free radical recombination rates, discussing heterogeneous and homogeneous schemes

19 p3012 A71-38082

Negative ion and compound formation in premixed fuel-rich laminar atmospheric pressure hydrogen-oxygen-nitrogen flames with molybdenum and potassium atoms

19 p3167 A71-38092

Combustion driven acoustic oscillations in gas fired burner of premixed methane, nitrogen and oxygen, noting mixture ratio and flow rate effects

19 p3123 A71-38098

Area measurement on steady, fluctuating, turbulent and expanding premixed flames, using saturation current method

19 p3168 A71-38103

Fuel rich premixed hydrogen-oxygen flame stabilization on cooled porous plate burners at 10 mm Hg

19 p3168 A71-38107

Aerodynamic combustion noise generation from premixed or diffusion open turbulent flames, using fluid mechanics and Lighthill method

23 p3781 A71-43448

PREPARATION

NT PRESTRESSING

NT PRETREATMENT

PREPOLYMERS

NT DIMERS

Thermally stable polyimide graphite fiber reinforced composites from solutions of monomeric reactions, comparing amide acid prepolymers

11 p1788 A71-25560

PRESELECTORS

U PREAMPLIFIERS

PRESERVATIVES

Preservative phenol derivative effects on toxic gas evolution from stored urine in sealed vessels

22 p3506 A71-42808

Urine preservatives for urine water recovery system, noting ammonia and organic compound contents in condensate

22 p3506 A71-42809

PRESINTERING

U SINTERING

PRESSES

Vertical hydraulic press for metal extrusion at temperatures from 4 to 77 K, discussing design

08 p1299 A71-21809

PRESSING [FORMING]

NT BLANKING [CUTTING]

NT COINING

NT STAMPING

Isostatic pressing for large complex metal powder parts, comparing with die-compacting

01 p0088 A71-10814

Titanium, Inconel and stainless steel alloys deep drawing press loads under various lubrication and temperature conditions, considering work hardening, friction and anisotropic coefficients

[ASME PAPER 70-WA/PROD-26] 03 p0433 A71-14114

Titanium alloys for drop and press forged airframe, engine, rocket and spacecraft components, presenting physical and mechanical properties for various alloys and applications

05 p0757 A71-16136

Sintering and pressing techniques for compact semifinished products of refractory metal powders including W, Mo, Ta, Nb, Zr and Ti

09 p1457 A71-23396

Precision forging and pressing of Al alloy and Ti alloy parts of aircraft structures at cost effective prices

09 p1459 A71-23691

Three dimensional isostatic pressing process, discussing equipment, tooling and forging preforms and finished parts production

10 p1618 A71-24764

Unsteady press forging process in dies with material extrusion through plane strained slot, describing deformation stages, slip line patterns and hodographs

16 p2581 A71-32818

PRESSURE BREATHING
 Respiratory mechanics and ventilatory response to carbon dioxide during positive pressure breathing in conscious man 06 p0861 A71-18379
 Altitude range for supplemental aircraft continuous flow, diluter and pressure demand oxygen systems, discussing regulations and pressure breathing 08 p1244 A71-20714
 German book on clinical pathophysiology of respiration covering respiratory physiology, pulmonary gas exchange, respiratory control, hypoxia, hyperoxia, pressure breathing, etc 09 p1394 A71-23069

PRESSURE CABINS
 U PRESSURIZED CABINS

PRESSURE CHAMBERS
 NT HYPERBARIC CHAMBERS
 NT VACUUM CHAMBERS
 Martian environment simulator chamber for pressure, visible light, biological objectives UV irradiation and daily temperature cycle 01 p0068 A71-11559
 Ti alloy research, describing transparent atmosphere chamber design and dilatometer control modifications 04 p0604 A71-15908
 Rabbits and humans behavioral reactions and EEG changes relation to hypoxia in pressure chamber 12 p1871 A71-27488
 Artificial respiration in elevated gas pressure chamber to revive organism after clinical death by rapid decompression 12 p1876 A71-27745
 Harmonic pressure generator design based on plane sound waves principle 13 p2071 A71-29293
 Local shielding chambers for welding circumferential and longitudinal seams in Ti alloys with minimum residual oxygen concentrations 14 p2253 A71-30489
 Intermittent hypersonic wind tunnels, considering pressure and vacuum storage, blowdown tunnels and pressure tubes 18 p2897 A71-36409
 Spectroscopic study of imploding shock waves in hemispherical chamber filled with oxygen-hydrogen-helium mixture at high pressure 19 p3163 A71-37735

PRESSURE COEFFICIENT
 U AERODYNAMIC COEFFICIENTS

PRESSURE DISTRIBUTION
 Aerodynamic theory of pressure field induced on lifting surface by isotropic atmospheric turbulence, considering transfer function of Concorde aircraft [ICAS PAPER 70-30] 01 p0002 A71-11019
 Pressure distributions prediction on blunt bodies at angle of attack, considering bodies of revolution and large angle cones 01 p0004 A71-11580
 Externally pressurized gas thrust bearings, examining performance and pressure distribution in film 02 p0256 A71-12412
 Infinite MHD journal bearing with electrically conducting fluid lubricant in radial magnetic field, obtaining pressure distribution, load capacity and driving torque 02 p0258 A71-12601
 Sweptback turboblades in parallel wall channel, investigating thickness, camber and leading edge curvature effects on flow and pressure distributions and vortex movement 02 p0186 A71-12606
 Steady incompressible laminar pipe flow within porous wall cylinder, determining velocity, pressure distribution and shear stress [ASME PAPER 70-WA/FLCS-3] 03 p0401 A71-14079
 Structural vibration response to nonhomogeneous random pressure fields based on homogeneous field theory [ASME PAPER 70-WA/DE-11] 03 p0511 A71-14145
 Aerodynamic forces on control surfaces in subsonic range, investigating pressure distribution on harmonically oscillating wing 03 p0344 A71-14347

Pressure boundary layer profile numerical solution for transient and steady hydrodynamic gas film under high speed and small trailing edge thickness 04 p0570 A71-15178
 Modified buried collector gauge performance over He pressure range, determining sensitivity dependence on filament geometry 05 p0748 A71-16231
 Strong shock wave Mach reflection, determining pressure and temperature at wedge surface by shock tube experiment 05 p0835 A71-16526
 Gas phase reactions near solid-gas interface of deflagrating double base propellant causing abrupt changes in burning rate-pressure curve [AIAA PAPER 70-124] 05 p0837 A71-16571
 Wind field from macroscale atmospheric whirlpools /typhoons/ pressure fields by nonlinear hydrodynamic equations 06 p0923 A71-17514
 Stainless steel shells under uniform external pressure and constrained deformation, noting critical load increase 06 p0986 A71-17760
 Ground effects on pressure distribution on slender wing bodies with low aspect ratio and thick cross sections 06 p0842 A71-18047
 Solid propellant rocket chamber unstable motion, discussing pressure and velocity coupling 06 p0946 A71-18297
 Pressure distribution singularity at tip of thin lifting parabolic wing in subsonic flow [AIAA PAPER 71-10] 06 p0842 A71-18484
 Pressure distribution over blade in cascade nozzle for incompressible and compressible particulate gas flow [AIAA PAPER 71-82] 06 p0883 A71-18539
 Airflows in two dimensional nonuniformly sheared slipstreams, predicting pressure distribution from mathematical model for comparison with measurement [AIAA PAPER 71-94] 06 p0843 A71-18549
 Far field sonic boom pressure profiles simulation by methane-oxygen mixture detonation in balloons [AIAA PAPER 71-186] 06 p0886 A71-18625
 Monte Carlo technique for time domain response analysis of nonlinear structure in random pressure field with large deflection [AIAA PAPER 71-213] 06 p1004 A71-18649
 Caret wing serial tests in Mach 8 to 15 hypersonic flow, including three component force, spanwise direction pressure distribution and shock wave angular measurements by flow visualization 07 p1016 A71-20015
 Inverse boundary value problems in hydroaeromechanics, involving profile construction from given velocity or pressure distribution and supersonic flow boundaries determination 07 p1091 A71-20078
 Rock forming monomineralic aggregates thermal conductivity at ordinary temperature and pressure in relation to density, crystal structure and chemical composition 07 p1105 A71-20448
 Boundary layer pressure distributions for supersonic fluidics bistable devices 07 p1029 A71-20589
 Gas turbine rotor axial load determination, using static pressure distribution 08 p1348 A71-21268
 Jet propulsion optimization by exergy and anergy for minimum total cost flux by varying unit compressor pressure ratio 08 p1348 A71-21300
 Pressure conditions across distant magnetopause from interplanetary magnetic field measurements, comparing Pioneer 7 plasma data with Explorer 33 distant geomagnetic tail field magnitudes 08 p1285 A71-21692
 Surface station pressure reduction to sea level, determining differential expression by least squares method 08 p1329 A71-21727
 Surface heating and pressure distribution on Lunar Module from rocket exhaust plume impingement tests in vacuum [AIAA PAPER 71-256] 08 p1377 A71-21985
 External store surface pressure distributions during captive flight aboard F-4B aircraft, considering carrying aircraft effects on flow field about airborne ordnance [AIAA PAPER 71-295] 08 p1232 A71-22015
 Temperature and pressure discontinuity stresses in compact heat exchangers, considering tubes as elastic foundation underneath tube plate 08 p1374 A71-22034
 Three dimensional laminar boundary layer on cone at incidence in supersonic flow evaluated by pressure distribution technique, comparing heat transfer, Pitot probe measurements, etc [AIAA PAPER 70-48] 09 p1381 A71-22088
 Surface pressure field sampled natural functions statistical stability, taking into account eigenvalue magnitudes and rate of decrease 09 p1487 A71-22303

Electrohydrodynamic flow in plane channel with conducting walls and axial emitter electrode, determining velocity and pressure profiles distortion 09 p1502 A71-22538
 Detonation products expansion in vacuum, measuring gas flow speeds and pressure profiles far from charge 09 p1545 A71-22690
 Pressure distribution on arbitrary finite symmetrical wings with rounded leading edges at zero incidence in subsonic flow 09 p1383 A71-22945
 Incompressible viscous fluid nonsteady three dimensional flow, obtaining velocity field and pressure distribution in boundary layer 09 p1433 A71-23092
 Two dimensional incompressible laminar boundary layer with longitudinal surface curvature, examining equations with particular attention to pressure boundary conditions and pressure gradient formulation 09 p1433 A71-23098
 Supersonic flow separation around cross shaped horizontal tail plane with subsonic leading edge, obtaining pressure distribution and aerodynamic characteristics 09 p1384 A71-23608
 Mach cones reflection at thin wing subsonic leading edges in supersonic flow, considering axial disturbance velocity and pressure distributions 09 p1384 A71-23616
 Balance equation solution in spherical coordinate form, applying vector alterations to geostrophic wind field from pressure-height observations grid point analysis 10 p1638 A71-23964
 Low speed airfoil characteristics calculation by digital computer, using Theodorsen conformal transformation method for potential flow pressure distribution [SAE PAPER 710389] 10 p1550 A71-24253
 Short N wave refraction and diffraction by gas-filled soap bubble, discussing measurements to explain peaking and rounding in sonic boom pressure signature 10 p1642 A71-24811
 Velocity and static pressure redistribution in distorted flow field upstream of axial flow compressors [AIAA PAPER 69-485] 10 p1553 A71-24856
 Propeller blade profile thickness distribution for given pressure distribution, deriving integral equation with singular kernel function via source-sink and vorticity distribution linearized theory 10 p1553 A71-24945
 Viscous liquid unsteady flow in long circular tube as function of mean velocity distribution, discussing radial flow and pressure distribution 11 p1749 A71-25268
 Collocation method predicting oscillatory subsonic pressure distributions on interfering parallel lifting surfaces, considering approach more economical than finite element method [AIAA PAPER 71-329] 11 p1701 A71-25309
 Semiinfinite crack perpendicular to elastic half plane surface under pressure distribution on faces or remote loading, obtaining fracture mechanics solution with Wiener-Hopf method 11 p1847 A71-25444
 Reentry vehicles configuration lift and drag coefficients in hypersonic flow from pressure distribution and balance measurements, comparing with isolated cone data 11 p1702 A71-25487
 High subsonic flow two dimensional turbine cascade design by approximate hodograph method, noting pressure distribution measurements [ASME PAPER 71-GT-34] 11 p1704 A71-25971
 Glass fiber rotor blades design with longitudinal pressure tappings for cascade wind tunnel and turbomachinery flow research applications 11 p1772 A71-26316
 Bending stress in conical shell subjected to thermal and pressure loadings with uniform spatial distribution, using perturbation method 12 p1983 A71-27594
 Superpressurization mechanism in hollow cathode active zone, calculating upstream pressure variation as function of discharge current 13 p2106 A71-28399
 Plane Couette flow with suction/injection at stationary plate, obtaining motion and continuity equations, pressure distribution and friction coefficient 13 p2047 A71-28520
 Air inlet for simulation of shock wave separated flow in supersonic diffusers, deriving pressure variation profile along free boundary 13 p1992 A71-29175
 Pressure, velocity and potential distribution of flow around arbitrarily shaped body of revolution during arbitrary motion in perfect liquid 13 p1992 A71-29187
 Error in determining pressure and loading distribution on surface of slender bodies of revolution 13 p1994 A71-29323

Liquid-vapor interactions in constant area steam-water condensing ejector mixing section, measuring axial static and stagnation pressure profiles [ASME PAPER 71-FE-21] 13 p2052 A71-29459

Curved wall jet pressure distribution numerical calculation for given velocity profiles 14 p2328 A71-30306

Sound radiation and pressure fields inside vibrating turbomachine blades, using miniaturized microphones and compact capacitive detectors 14 p2288 A71-30517

Pressure distribution and drag prediction over slender axisymmetric fuselages and afterbodies and exhaust nozzles at transonic Mach numbers [AIAA PAPER 71-720] 14 p2170 A71-30771

Retreating blade stall experiments on model helicopter rotor, considering series of pressure distribution and boundary layer events [AHS PREPRINT 521] 14 p2172 A71-31087

Space shuttle vehicle models, calculating surface flow patterns and pressure and aerodynamic heating distributions for comparison with test data [AIAA PAPER 71-594] 15 p2343 A71-31539

Flat plate span effects on ramp induced adiabatic laminar boundary layer separation at supersonic and hypersonic speeds, measuring surface pressure distribution [AIAA PAPER 71-559] 15 p2344 A71-31557

Turbulent mixing between parallel incompressible air streams, using statistical investigation of pressure and velocity fields [AIAA PAPER 71-613] 15 p2389 A71-31582

Pressure fluctuations in acoustic field of boundary layer under slot suction, considering vortex formation and separation on edges 15 p2389 A71-31713

DC equivalent circuit, describing pressure and flow distribution at input ports of fluidic line branchings 15 p2352 A71-32067

Pressure and velocity distributions in gas filled cavity undergoing resonant acoustic oscillations due to heat addition 15 p2392 A71-32126

Slip flow development in parallel plate channel entrance, discussing center line velocity and excess pressure distributions 15 p2393 A71-32262

Pressure histories due to weak shock wave propagation through dividing flow junction, describing wave decay in side branch duct 16 p2555 A71-32887

Approximate calculation of pressure distribution, separation points and drag on circular cylinder in viscous liquid flow, using ideal fluid jet model 16 p2560 A71-33597

Jet induced secondary flow interaction with circular plate, showing ring vortex effects on pressure distribution 17 p2669 A71-34334

Polyatomic gases thermal conductivity and rotational relaxation number from thermomolecular pressure differences across capillary tubes 17 p2785 A71-34946

Magnetic properties of contained plasma, discussing equilibrium equations and pressure profiles 17 p2788 A71-35025

Wall pressure spectra and rms wall pressure levels measurements in subsonic separated flows, postulating model for pressure fluctuation estimation 17 p2728 A71-35037

Monograph on dynamic viscous pressure interaction in hypersonic flow covering boundary layer effect on oscillating body steady pressure distribution in continuum hypersonic flow 17 p2671 A71-35217

Stagnation pressure changes in unsteady flow downstream of turbomachine blades with fluctuating circulation related to vortex sheets 17 p2671 A71-35279

Flow distribution behind laminar boundary layer separation point in supersonic flow, calculating plateau region pressure 17 p2672 A71-35629

Turbulent boundary layer interaction with supersonic outer flow behind step, calculating pressure distribution, momentum thickness and friction 17 p2672 A71-35631

Supersonic flow past V-shaped wings with leading edges, applying method of establishment to space variable for pressure distribution 17 p2673 A71-35647

Transient laminar two dimensional boundary layer induced pressures due to suddenly accelerated hypersonic semiinfinite flat plate 18 p2901 A71-35856

Siren wail in turbine axial stage due to nonuniform pressure fields behind blade cascades 18 p2843 A71-36180

Turbulent flow of air film between rotating circular and stationary plane surfaces, determining pressure distributions, inertial forces effects and velocity profiles 18 p2926 A71-36185

Stratospheric pressure surfaces height over polar, middle and tropical latitudes as function of long term solar activity 18 p2944 A71-36220

Pressure distribution over deflected flap as function of boundary layer separation, flap geometry, Reynolds number and Mach number 18 p2972 A71-36435

Gas flow through hypersonic conical nozzle in shock-gun tunnel, measuring pressure ratio and Mach number distributions at test section 18 p2849 A71-37024

Pressure distribution during cold rolling of metallic powders of stainless steels, iron, titanium and copper, using dynamometer mounted in roll 19 p3075 A71-37107

Radiation heat transfer volume interchange factors approximation for gases with nonuniform temperature, composition or pressure, comparing with exact numerical computations 19 p3164 A71-37990

Elastic field and stress distribution in composite circular rotating disk under constant normal pressure 19 p3159 A71-38187

Alveolar-arterial oxygen pressure difference during controlled hyperventilation and posthyperventilatory phase 19 p3003 A71-38200

Simple source theory of aerodynamic noise, approximating relationship between radiated sound power and jet pressure spectra 19 p3124 A71-38531

Blower suction line random vibrations due to distributed random pressure, investigating various isolation arrangements for vibration reduction 20 p3308 A71-39085

Intraocular pressure distribution of healthy mental workers in 25-40 years age range, noting symmetry 20 p3189 A71-39234

Turbulent boundary layer response to step change in surface roughness, discussing wind tunnel measurements of pressure and velocity profiles 20 p3212 A71-39505

Two dimensional flow over two dimensional finite wing without correction for downwash, assuming known pressure distribution 21 p3318 A71-40173

Quasi-static pressure characteristics of gas lubricated thrust bearing with shrouded Rayleigh step pads, solving nonlinear equation of motion [ASME PAPER 71-VIBR-75] 21 p3385 A71-40313

Uniform inlet flow inside centrifugal turbomachinery diffusers with flat parallel side walls, measuring pressure distribution and boundary layer velocity profiles 21 p3323 A71-40757

Flap span length effects on boundary layer separation, giving streamline pressure distributions 21 p3323 A71-40967

Jet flaps application to autogyro rotor, using pressure jump for air centrifugation 21 p3324 A71-41399

Normal shock existence in blade spacings of rotor and guide vanes of axial flow supersonic compressor as function of pressure nonuniformity 22 p3479 A71-41843

Circumferentially nonuniform flow in front of axial compressor stage with stepwise two zone pressure and velocity distribution resulting in increased guide vane losses 22 p3479 A71-41845

Centrifugal pump pressure characteristics calculation by pressure quality coefficient dependence on relative flow rate, assuming arbitrary number of blades 22 p3554 A71-41848

Heat transfer and pressure distribution on biconic and hemispherical geometries with sharp and blunt noses in Mach 15-20 flow 22 p3480 A71-41964

Heat transfer and pressure distribution of cone shaped model at different angles of attack in hypersonic flow simulating reentry flight in wind tunnel 22 p3480 A71-41965

Nimbus 3 satellite IR spectrometer atmospheric pressure height profiles, comparing with nearby radiosonde data 22 p3535 A71-42410

Shock layer pressure distribution for axisymmetric bodies moving at supersonic velocity in gas at rest, deriving nonstationary analog of Newton-Busemann formula 22 p3481 A71-42864

Laminar convective heat transfer from rotating isothermal disk in uniform forced stream, using pressure distribution measurements 23 p3781 A71-43314

Geometrically nonlinear integral solutions to equilibrium equations of curvilinear beam under uniform pressure, using Weierstrass functions 24 p3883 A71-44850

Pressure distribution in narrow porous metal bearings solved with Bessel functions in cylindrical coordinates, finding lower load capacity 24 p3830 A71-44950

PRESSURE DRAG

NT INTERFERENCE DRAG
NT WAVE DRAG

Pitot type intake inlet additive drag in terms of capture area ratio, static and total pressure coefficients 02 p0187 A71-12688

Pressure drag and cross flow force coefficients of inclined circular cylinder in supercritical flow 09 p3182 A71-22098

Karman vortex street geometry calculation for single circular cylinder, using pressure drag coefficient, Strouhal number and Krounauer criterion [ASME PAPER 71-VIBR-11] 21 p3457 A71-40273

Karman vortex street induced fluctuating lift forces on single circular cylinder, deriving relationship between lift coefficient and steady state pressure drag coefficient [ASME PAPER 71-VIBR-12] 21 p3457 A71-40274

Karman vortex street induced fluctuating lift forces on tube bundles as function of steady pressure drag coefficient and Strouhal number [ASME PAPER 71-VIBR-13] 21 p3457 A71-40275

PRESSURE DROP

Shock wave dynamic behavior in shock tube under variable diaphragm opening time for high pressure gas flow into lower pressure section 03 p0472 A71-14261

Coolants Prandtl number effect on pressure drop, heat transfer and friction of rough surfaces 04 p0675 A71-14779

Heat transfer and pressure drop in air flowing in square tube with two dimensional discrete turbulence promoters applied to opposite walls 04 p0675 A71-14781

Heat transfer in exchangers with forced laminar or turbulent flows with linear pressure drop and exponential thermal flux distribution 04 p0688 A71-15740

Aerodynamic seals theoretical analysis and experimental test results, considering pressure ratios, pressure recovery coefficients and pump efficiency 07 p1117 A71-19422

Static fluid logic elements, discussing short circuit during switchover, snap action, pressure loss and circuit examples 07 p1027 A71-20573

Flow visualization and velocity measurements in repeatedly branching tube systems representative of human lung, estimating viscous dissipation and pressure drop 10 p1571 A71-24625

Capillary pressure and contact angle drop of two fluid flow separated by parallel plate interface 11 p1750 A71-25443

Aircraft crew without pressure suits, noting abrupt ambient pressure drop tolerance in trained and untrained subjects 12 p1876 A71-27659

Heat pipes design and applications, examining pressure losses in steam and liquid phases and capillarity and gravity effects [HEAT EXCH. CONF. PAPER 23] 15 p2513 A71-31637

Heat transfer and pressure drop characteristics of He in two phase and supercritical flow, calculating He heat exchangers for superconductive devices [HEAT EXCH. CONF. PAPER 24] 15 p2513 A71-31638

Air-water flow pressure loss and phase distribution in tube with wire coil swirl generators [GESP-449] 15 p2354 A71-32209

Heat transfer, fluid flow and pressure loss, noting application to cryogenic heat exchangers and process plants 20 p3312 A71-39245

PRESSURE EFFECTS

Shock wave diffraction at sharp edges, discussing physical principles, angle and pressure ratio effects 01 p0001 A71-10109

Guinea pigs head and eye movements produced by vestibular apparatus stimulation via static pressure changes 01 p0010 A71-10347

Output properties of electrically pulsed carbon dioxide laser as functions of partial gas pressure and discharge voltage 01 p0092 A71-10372

Optically thin medium convective instability, examining radiant pressure and magnetic field effects 01 p0158 A71-10804

Flutter analysis of plates with inplane boundary support flexibility exposed to transverse pressure loading or buckled by uniform thermal expansion 01 p0173 A71-10940

Plane diffuser cascade losses at low main stream pressures, discussing Reynolds number role 01 p0003 A71-11062

Carbon dioxide IR absorption bands at elevated pressures, deriving transmission function 01 p0130 A71-11104

Liquid volume deformation effect on hydraulic drive under continuous or jumpwise pressure 01 p0007 A71-11243

Laser vs electron beam welding, examining high and partial vacuum and atmospheric pressure environ-

- ments, penetration and ionization and dissociation processes
[SME PAPER MR-70-523] 01 p0090 A71-11269
Simply supported cylindrical shell buckling under linearly varying lateral pressure 01 p0178 A71-11399
Magnesium particle combustion in rarefied air at various pressures 01 p0182 A71-11444
Gravitational fields and atmospheric pressure effects on soils subjected to static and dynamic loading, using aircraft parabolic gravity simulation [AIAA PAPER 69-1009] 01 p0068 A71-11581
Gaseous atmospheres environmental effects on metal mechanical properties at high temperatures, discussing failure mode with crack growth rate dependence on pressure 02 p0263 A71-11864
Visual images induced in aircraft crew members, during pressure chamber experiments, discussing latent period and persistence of sequences 02 p0198 A71-11899
Circular cone with cross shaped wings in supersonic flow, determining flow characteristics, velocities and pressure 02 p0185 A71-11958
Hypobaric pressure and hypoxic or hyperoxic atmospheres effect on mice resistance to pneumococcal pneumonia 02 p0199 A71-12382
Prebuckling deformations influence on circular cylindrical shell buckling under external pressure, applying Galerkin method to Donnell equations 02 p0329 A71-12602
Quasi-Alfven and acoustic wave coupling in inhomogeneous stratified plasma within intense magnetic field as function of directional pressure 02 p0292 A71-12627
Supersonic underexpanded jet-plane obstacle flow interaction patterns, discussing pressure and distance effects 02 p0186 A71-12643
Incompressible fluid filled circular cylindrical shells loaded by pressure ring at center, obtaining yield point load 03 p0500 A71-13022
Stability of finite pressure plasma trapped by magnetic field, discussing trapped particle effects 03 p0463 A71-13296
Pressure effect on combustion rate of model mixtures of ammonium perchlorate with polystyrene and polymethyl methacrylate 03 p0468 A71-13989
Intraluminal pressure effect on stress concentration and deformation of arterial wall in relation to atherosclerosis, using finite element method [ASME PAPER 70-WA/BHF-15] 03 p0373 A71-14113
Thin walled circular cylindrical shells creep buckling under radial pressure and thermal gradients [ASME PAPER 70-WA/APM-8] 03 p0512 A71-14152
Accelerated cavitation damage in Na, examining pressure and temperature effects 03 p0443 A71-14286
Soviet book on optical properties of hot air covering spectral lines, radiative transfer, cross sections, pressure effects and absorptivity 03 p0460 A71-14397
Pressure and strain rate effects on polycrystalline Be shear strength, determining activation energy for dislocation motion 03 p0445 A71-14463
High density atmospheric pressure plasma ionization measurement by negatively pulsed Langmuir probe, showing agreement with space charge controlled sheath expansion model 04 p0586 A71-14660
High current free-burning arc characteristics in air at various pressures, examining dimensions from photographs 04 p0676 A71-15031
Human orthostatic tolerance measurement via leg and lower body negative pressure, discussing heart rate and stroke volume variations 04 p0543 A71-15052
Pressure-temperature equivalences in elasticity problems, considering applications to case bonded solid propellant rocket grains 04 p0638 A71-15197
Eccentrically stiffened thin spherical shell instability under uniform external pressure 04 p0669 A71-15199
Stellar structure theory, examining particle aggregates gravitational and pressure forces, energy flow, generation and opacity and equations of state 04 p0648 A71-15246
Pressure effects on calibration characteristics of hot-film anemometers, discussing heat loss from sensing element 04 p0601 A71-15765
Pressure and temperature variation effects on vibratory cavitation damage tests conducted in water 04 p0604 A71-15767
Interstellar gas cloud equilibrium and gravitational stability, examining evaporation, condensation, thermal balance and pressure 04 p0658 A71-15837
Liquid fuel drop evaporation under pressure on hot surface, measuring lifetime and transient interface temperature at subcritical and supercritical conditions 04 p0689 A71-15919
Transient response of solid propellant combustion to pressure variations and sudden depressurization 05 p0795 A71-16540
Circular cylindrical shells buckling with different elastic moduli in tension and compression under arbitrary axial and lateral pressure 05 p0823 A71-16558
Internal combustion engine exhaust system sound radiation, discussing pressure wave effects, energy flux and boundary conditions 05 p0796 A71-16604
Ionization gage with ion current linear dependence on pressure at room temperature 05 p0753 A71-16945
Polytropic gas spheres gravitational instability under external pressure, obtaining critical masses and densities 05 p0813 A71-17091
Aerodynamic sound generation dependence on convective derivative of hydrodynamic pressure within turbulence source region 05 p0784 A71-17154
Thin elastic shallow spherical dome nonlinear motion under uniformly distributed external pressure 06 p0982 A71-17360
Rocket engines with nitrogen tetroxide/hydrazine injectors destructive instability due to pressure disturbances, establishing origin, propagations velocity and pops extent by streak photography [WSS/CI PAPER 70-25] 06 p0942 A71-17653
Shallow spherical shells stability under constant external pressure 06 p0987 A71-17768
Smooth cylindrical shell stability, considering internal pressure effect on critical axial stresses 06 p0993 A71-17819
Cylindrical anisotropic shells transient deformation processes under external pressure, discussing equations of motion integration 06 p0996 A71-17838
Cylindrical shell stability under arbitrary external pressure, discussing forces and displacements of precritical stressed state 06 p0997 A71-17848
Pure hydrocarbon droplets heating, expansion, vapor phase fuel storage and gasification in oxidizing gas at elevated pressures, using high speed cinematography 06 p1007 A71-18300
Solid propellant engine structural analysis, examining transient thermal loading and internal pressure effects [AIAA PAPER 71-115] 06 p1003 A71-18565
Nonlinear finite difference computer program applied to elliptic cylinder collapse under uniform external pressure, comparing with theoretical bifurcation buckling [AIAA PAPER 71-146] 06 p1003 A71-18589
Pulsed laser emissions in carbon dioxide under high pressure, discussing onset inversion and pulse duration 07 p1121 A71-19128
Calcite and aragonite high pressure Raman line spectra comparisons, testing structural identification theory 07 p1034 A71-19369
Pressure dependent shift of He-Ne laser radiation, observing beat frequencies 07 p1123 A71-19486
Reaction heat for flameless combustion of double-base propellant using differential scanning calorimetry and thermogravimetric analysis, noting pressure effects [AIAA PAPER 70-125] 07 p1183 A71-19898
Free nitrogen jets ejected from small orifices, measuring acoustic emission level and spectral pattern dependence on pressure 07 p1161 A71-20058
Plasma-electron beam interaction instability transition from absolute to convective in hydrogen tube system at various pressures, considering electron collision effects 07 p1170 A71-20181
Multistage axial flow turbine off-design performance prediction, exploring inlet temperature and pressure and exit pressure variation effects [ASME PAPER 70-PWR-2] 07 p1184 A71-20199
Stiffened long cylinder with time variable thickness and strengthening thin shell system elastic displacements due to nonstationary vibrations and nonuniform pressure distribution 07 p1217 A71-20459
Gas bubble growth and dissolution due to pressure fluctuations in turbulent diffusion liquid flow 07 p1094 A71-20475
Hydrostatic pressure effects on Al polycrystals stress-strain behavior at room temperature, using magnetostriuctive load cell 07 p1143 A71-20490
Finite and large pressure inhomogeneous plasma with finite electron heat conduction, calculating instability 07 p1173 A71-20534
Jet reattachment to adjacent flat plate, investigating back pressure effects 07 p1094 A71-20606
Pressure and gas composition effects on sodium acetate-C 14 incorporation into liver lipids, indicating metabolic relationships to decompression sickness 08 p1238 A71-20814
Pressure increase, dry air consumption and power requirements effects of water quantity fed into centrifugal compressor 08 p1347 A71-20833
Carbon dioxide IR absorption bands at elevated pressures, deriving transmission function 08 p1337 A71-20848
Ethylene diffusion flame radiation measurements, determining pressure effects and contributory ratio of carbon particles and gaseous radiation 08 p1346 A71-20859
High temperature nitrogen plasma, calculating thermodynamic and electrical parameters dependence on pressure and temperature 08 p1342 A71-21917
Ultrasound propagation velocity dependence on high pressure and temperature in carbon dioxide, considering Rao rule applicability to highly compressed gases 09 p1492 A71-22529
Measuring instrument for amorphous and polycrystalline materials resistivity and Seebeck coefficient as function of temperature and pressure 09 p1446 A71-22737
Folded all-reflecting Schmidt camera UV image converter system for space astronomy applications, discussing pressure sensitivity effects on UV direct recording emulsion 09 p1447 A71-22751
Clamped shallow spherical caps under uniform pressure, computing axisymmetric buckling 09 p1541 A71-23091
Temperature and pressure effects on phase transformations, structural changes and related processes in metals, comparing thermographic and calorimetric methods 09 p1547 A71-23227
Stability of finite pressure plasma trapped by magnetic field, discussing trapped particle effects 09 p1504 A71-23269
Pulmonary arterial blood flow regulation by hydrostatic pressure in low resistance circulatory system 10 p1561 A71-24127
Ultrasonic cleaning by cavitation disintegration of highly adhesive surface coatings, discussing cleansing liquid, field parameters and external static pressure effects on process efficiency 10 p1617 A71-24135
Cross-excited electrically pulsed carbon dioxide laser investigating self mode locking as function of cavity length, operating pressure and bleachable absorber sulfur hexafluoride 10 p1620 A71-24152
High pressure ratio centrifugal compressors for small gas turbine engines, investigating power and specific fuel consumption variation with pressure and temperature 10 p1658 A71-24218
Limit load carrying capacity of thin walled tube under combined forces, including pressure effects by variational method of plasticity theory 10 p1688 A71-24384
Nb-Ti alloy oxidation kinetics at various temperatures and pressures, noting linear patterns and oxide formation 10 p1626 A71-24403
Axisymmetric snap-through of shallow clamped spherical caps under uniform pressure, revealing existence of higher modes as isolated closed loops from approximate solution 10 p1689 A71-24518
Nitrogen, helium, argon and neon containing atmospheres relation to altitude decompression of rats, noting interspecies comparison of metabolic effects 10 p1570 A71-24610
Nonlinear stability analysis of inviscid and viscous liquid film adjacent to compressible gas flow, using gravity and pressure perturbation models 10 p1595 A71-24620
Inhomogeneous collisionless plasma instabilities under dense blanket of neutral gas, investigating Alfven type oscillation 10 p1650 A71-24628
Light scattering from gas thermal fluctuations, deriving density-density correlation function over various pressures 10 p1642 A71-24836
Aerodynamic infrasound, considering atmospheric pressure variations in seconds to minutes period range 10 p1596 A71-24915

Ionization wave varieties in nitrogen glow discharge at various pressures and current densities from phase and group velocity measurements

10 p1654 A71-24973

Structures dynamic loading and damage by sonic booms, discussing structural response prediction by boom pressure wave model

10 p1693 A71-25052

In-plane boundary conditions influence on clamped conical shells buckling under external pressure, using displacement method based on Donnell stability equations

11 p1841 A71-25158

Normal shock wave acceleration of water droplets by external pressure, observing distortion and breakup through shadowgraph techniques

[AIAA PAPER 71-325]

11 p1749 A71-25305

Venus life forms, describing algae grown in pure carbon dioxide under pressure in acidic nutrient media at high temperatures

11 p1724 A71-25701

Transient pressures in spacecraft and volume compartments with outgassing for ambient pressure decrease and low pressures unattainable with large chambers

11 p1840 A71-26398

Lunar surface properties, noting shock effects from impact induced pressures and temperatures

11 p1834 A71-26453

Line formation effective pressure from Venus atmosphere spectra, discussing phase angle variations

11 p1835 A71-26457

Pressure effects on human ventilation and gas exchange, determining stratified inhomogeneity during deep diving

12 p1873 A71-27126

Wall-stabilized arc column optimization from energy balance solutions, considering temperature and pressure effects on Ar arcs

12 p1939 A71-27275

Turbomachine blade cascades in supersonic flow, noting wave configurations, entropy and counter pressure variations

12 p1864 A71-27475

Pressure and wall temperature gradients effects on equilibrium enthalpy profiles and heat transfer coefficients of incompressible turbulent boundary layers, using eddy conductivity model

[AIAA PAPER 69-689]

12 p1986 A71-27553

Abdominal pressure decrease resulting in transpulmonary pressure cranio-caudal gradient increase under gravitational effect simulation

13 p2008 A71-28437

Short term interval satellite orbit perturbations, computing direct solar radiation pressure effects with computer program

13 p2137 A71-28477

Liquid and gaseous Hg thermoelectric power measurements at sub and supercritical temperatures and various pressures

13 p2000 A71-28676

Distant geomagnetic tail longitudinal magnetic field gradient model based on pressure balance between internal field and solar wind, discussing tail flux content

13 p2064 A71-29162

Axissymmetrical snap buckling of clamped shallow spherical shell with initial deformation under external pressure, using energy method

14 p2322 A71-29689

Systemic arterial blood pressure response to chronic high altitude and hypoxia effects

14 p2184 A71-30280

Closed membrane shell of revolution finite creep due to uniform pressure, applying large deformation incremental theory

14 p2328 A71-30396

Incident sonic boom shock wave reflection factors off smooth surface, discussing pressure rise and flight near threshold Mach number

14 p2177 A71-30610

Pressure-induced absorption in planetary atmospheres from hydrogen-methane collisions, stressing resulting thermal opacity

14 p2315 A71-30659

Stability of structurally orthotropic stringer reinforced cylindrical shell closed by spherical or plane bottoms under uniform external pressure

14 p2333 A71-30892

Solid helium and molecular/metallic hydrogen thermodynamic properties and phase diagrams as functions of pressures corresponding to Jupiter and Saturn

15 p2511 A71-31338

Thermal decomposition rates and explosion of dinitroxydiethyl nitramine from heat release measurements at various pressures

15 p2462 A71-31376

Oxidation kinetics of pure Al in dry oxygen as function of pressure and temperature, using manometric method

15 p2426 A71-31408

Boron combustion characteristics as function of temperature, pressure and gaseous fuel mixture ratio, using color photography

[WSS/CI PAPER 71-19]

15 p2464 A71-31628

Warm plasmas impedances and power transfer near lower hybrid resonance, including electron pressure effects in full electromagnetic treatment

15 p2456 A71-31923

Spherical caps under step pressure loading, noting elastic damping effects on dynamic stability

15 p2506 A71-32093

Ammonium perchlorates deflagration rate at 20-100 atm, assessing relative roles of exothermic condensed phase and gas phase reactions by mathematical model

15 p2465 A71-32099

Compact pulsed carbon dioxide laser with uniform volume excitation, obtaining output energy as function of discharge voltage, gas composition and pressure

15 p2424 A71-32698

Electrical discharge plasmas, investigating electron multiplication, secondary processes, Paschen law, pressure effects and formation time lag

16 p2617 A71-32957

Stress field in elastic strip of finite width under pressure applied to faces of symmetrically situated Griffith crack

16 p2654 A71-33170

Biological effects of inert gases in elevated pressure respiratory mixtures on human central nervous system

16 p2536 A71-33577

Elevated atmospheric pressure effects on human psychophysiological qualities including attention, memory and time-estimating capabilities and nervous processes equilibrium

16 p2536 A71-33578

Escaping photoelectrons effect on polar wind exospheric model, suggesting kinetic pressure predominance at very high altitudes

16 p2569 A71-33814

Nimbus 3 and 4 satellite observation data comparison with sounding rocket and rawinsondes based on temperature as function of pressure measurements

16 p2572 A71-33846

Pressure ratios and surface effects on regenerative heat exchanger in Brayton gas turbine cycles with intercooling or reheating

16 p2663 A71-34037

Moment state stability of elastic hinged cylindrical shell and closed ring under pressure and concentrated load, using nonlinear equilibrium theory

16 p2660 A71-34114

Circular plate deflection weakened by hole and under constant external pressure, obtaining successive approximation method solution convergence

17 p2816 A71-34329

Incompressible materials weak compressibility effect in elastic theory, deriving displacement equation with average pressure function for any Poisson coefficient values

17 p2818 A71-34350

Ne 20 transition line width behavior vs pressure in He-Ne laser at 3.19 microns wavelength

17 p2752 A71-34402

Radiative width of laser transition in Ne 20 atom and line frequency shift vs pressure in dual He-Ne laser assembly effectuating atom collisions

17 p2752 A71-34403

Sound velocity in real gases as function of pressure and temperature, deriving by van Isterbeek result generalization for higher pressures

17 p2783 A71-35038

Monograph on dynamic viscous pressure interaction in hypersonic flow covering boundary layer effect on oscillating body unsteady pressure distribution in continuum hypersonic flow

17 p2671 A71-35217

High pressure electrodeless HF gas discharge plasmas, investigating effects of external magnetic field, gas and pressure on discharge rotation frequency

17 p2789 A71-35260

High temperature nitrogen plasma, calculating thermodynamic and electrical parameters dependence on pressure and temperature

17 p2789 A71-35262

Temperature and pressure effects on viscosity and thermal conductivity of dissociating air at high temperatures

17 p2785 A71-35277

Thin elastic spherical shells reinforced by stringers and frames and loaded by internal or external uniform pressure, calculating by energy method

17 p2829 A71-35311

Isotropic circular cylindrical shell stability with longitudinal hinges under uniform external pressure, determining critical load

17 p2831 A71-35322

Sympathetic response in renal and splanchnic nerves to elevated fall and rise of arterial blood pressure in anesthetized rabbits, investigating baroreceptor reflex effect

17 p2685 A71-35367

Transversely excited carbon dioxide lasers gain measurements for linear and helical electrodes at various gas mixtures and pressures as function of time

17 p2754 A71-35404

Ultrasound propagation velocity dependence on high pressure and temperature in carbon dioxide, con-

sidering Rao rule applicability to highly compressed gases

17 p2784 A71-35506

Muscle contraction model under biological factors action, considering circular cylindrical vessel equilibrium under internal and external pressures

17 p2694 A71-35616

Nitroglycerin powder combustion acoustic instability, determining mean pressure and sample and combustion chamber geometry effects

17 p2840 A71-35700

Self excitation and amplitude limitation of powder vibratory combustion, considering pressure and sample length effects

17 p2840 A71-35701

Large scale atmospheric turbulence, considering anisotropy, thermal stratification, pressure and Coriolis forces effects

18 p2944 A71-36009

Fluid amplifier digital elements dynamic switching, noting back pressure effects

18 p2851 A71-36207

Astronaut orthostatic tolerance loss due to weightlessness, describing compensation by periodic lower body negative pressure

18 p2872 A71-36648

Copper on copper friction coefficient dependence on oxygen pressure, investigating exoelectron emission from differently oxidized copper surface layers

18 p2928 A71-36750

Elastic buckling load of cylindrical shells with dimple imperfections under external pressure, applying perturbation expansion to Karman-Donnell equations

18 p2982 A71-36839

Mo, W and Mo-W alloys chlorination kinetics, investigating temperature and pressure effects on reaction rate from electron micrographs

18 p2938 A71-37002

Light elements thermodynamic state variables at high pressure, calculating electron density distribution as function of ion configuration with linear response theory

18 p2970 A71-37047

Vacuum deposited thin Cr films on glass, investigating substrate temperature and inert gas pressure effects on texture

19 p3076 A71-37117

Carbon dioxide laser, measuring focal length of gas defocusing lens in active medium as function of gas pressure and discharge tube diameter

19 p3073 A71-37771

Longitudinal edge stiffness and internal pressure effects on buckling and initial postbuckling behavior of axially compressed stringer reinforced cylindrical panels, discussing imperfection sensitivity

19 p3157 A71-37873

Atmospheric pressure and temperature inhomogeneities effects on thermal radiation transmission function of water vapor

19 p3090 A71-37973

Far IR collision induced spectrum in carbon dioxide, observing temperature and pressure dependence in gas phase and absorption in liquid

19 p3106 A71-38051

Slow and explosive gas phase oxidation of carbon suboxide and monoxide over various pressure and temperature ranges, noting branching reactions

19 p3167 A71-38088

Photographic study of acceleration and pressure effects on Al agglomerates and combustion processes on solid propellant surface, describing pit growth by combustion model

19 p3120 A71-38121

Polymer thermal degradation theory of pressure sensitive hybrid combustion, calculating linear regression rates

19 p3170 A71-38123

Pulsed erosion accelerators plasmoid discontinuities in structure streak photographs for various electrode configurations and pressures

19 p3116 A71-38253

On-design performance characteristics of radial gas turbines, investigating blade geometry, rotor losses and pressure ratio effects

19 p3123 A71-38269

Hypergolic rocket propellant system gas phase ignition, measuring ambient pressure, flow parameters and propellant temperature effects on delay characteristics

19 p3123 A71-38297

Circular planform punch pressure on elastic half space, solving system of two dimensional dual integral equations

19 p3160 A71-38478

Regional cerebral blood flow, tissue oxygen, EEG activity and behavioral reaction at high pressure

19 p3009 A71-38557

Integrated absorption coefficient of pressure induced pure rotational and vibrational transitions in binary collisions of homonuclear diatomic molecules at high temperatures

19 p3108 A71-38719

Pressure induced hydrogen collisions vibrational spectra absorption coefficients at high temperatures and local thermodynamic equilibrium

19 p3108 A71-38720

Rechargeable cylindrical hydrogen-oxygen fuel cell for synchronous satellites, determining energy density as function of current, pressure and electrolytes with computer model

20 p3182 A71-38947

Pressure anisotropy effects on plasma wave coupling and modification for dispersion in collisionless beam-plasma systems

20 p3273 A71-39045

Uniform magnetic field effects on beam-plasma waves, using scalar pressure hypothesis

20 p3274 A71-39049

Collision effects on line shapes using quantum mechanical description of atomic center of mass motion, considering pressure effects in gas lasers

20 p3271 A71-39069

High power continuous electron-optical beam formation in electron gun, determining cathode and leakage current and I-V characteristics as function of pressure

20 p3204 A71-39158

Corresponding states fluids film boiling with cylindrical heaters, studying pressure and diameter effects

20 p3312 A71-39283

Pressure, subcooling and diameter effects on heat transfer and circumferential flow transition of thin wire film boiling of liquid nitrogen in pool

20 p3313 A71-39284

Heat transfer rate correlation with local surface pressure for blunt cones at angle of attack

20 p3176 A71-39355

Active vasodilation in gracilis muscle vascular bed due to perfusion pressure changes

20 p3189 A71-39378

Infinite elastic plate forcing by time varying radial pressure in circular hole at center

20 p3309 A71-39563

Internal pressure deformed star shaped crack, calculating stress intensity factor, crack energy and normal displacement

20 p3310 A71-39866

Physical determinants of gravity receptor mechanisms, discussing hydrostatic stress effects on membranes and gravity influence on enzymatic transport

21 p3339 A71-39972

Mathematical model for studying solar radiation pressure effects on artificial satellite motion

21 p3438 A71-40104

Hyperbaric normoxic breathing helium, nitrogen and neon gas mixture effects on EEG and reaction time in man

21 p3342 A71-40347

Aquanuts tremor response measurement by muscle force transducer during compression and decompression in 520-foot saturation dive, noting differences among individuals

21 p3331 A71-40350

Outwardly propagating coronal Alfvén waves pressure exertion on solar wind, using one fluid polytrope model

21 p3438 A71-40423

Sonic booms loudness as function of peak overpressures and rise times, using semiempirical formulae

21 p3325 A71-40530

Ion-cyclotron perturbation build-up in inhomogeneous plasma, investigating ion magnetic drift instability dependence on pressure

21 p3422 A71-40760

Iron response to dynamic loads, discussing pressure induced phase changes, constitutive equation relationship to dislocation processes and dynamic fracture criteria

21 p3399 A71-40789

Heat transfer from incandescent platinum wires in saturated liquid nitrogen, examining film boiling from atmospheric to critical pressure

21 p3476 A71-40899

Structural vibrations excited by spatially and temporally random pressure loading, discussing power spectra and vibration measurement

21 p3467 A71-40912

Stress-strain state of rotating viscoelastic hollow cylinder with mobile inner boundary under internal pressure and temperature effects

21 p3472 A71-41145

Temperature, magnetic field and pressure dependence of electrical conductivity, thermal emf, Hall effect and transverse Nernst-Ettingshausen effect in indium-doped lead telluride

21 p3429 A71-41210

Ge and Si point contact semiconductor diodes anisotropic deformation, investigating pressure effects on current and negative resistance in forward branch of I-V characteristics

21 p3430 A71-41222

Rh and Ag-Pd alloys magnetic susceptibility, investigating hydrostatic pressure effects

21 p3432 A71-41269

Self magnetic field effect on I-V characteristics of Cs-Ba thermionic converter, noting effects of pressure differential due to ponderomotive forces action

21 p3326 A71-41294

Cyclotron resonance measurement for holes in uniaxially compressed Si, determining pressure and temperature effects on relative half width of hole line by relaxation time

21 p3433 A71-41309

Electromagnetic HF wave field pressure effects on slow transverse magnetic wave propagation along plasma layer, noting dispersion equations difference from linear theory

21 p3426 A71-41400

Plasma confinement in bounded systems, considering externally induced field HF pressure effect on plasma density distribution

22 p3580 A71-41600

Pressure dependent absorption of carbon dioxide laser by boron chloride, considering saturation and line overlapping effects

22 p3556 A71-41805

Solid propellant rocket motor stable operation region, describing propellant response function to pressure and velocity fluctuations

[ONERA-TP-1016] 22 p3588 A71-41956

Alouette and Isis satellites flight data comparison with attitude and spin dynamics theory, considering solar radiation pressure and gravitation and magnetic field effects

22 p3609 A71-41997

Coupled librational dynamics of gravity oriented cylindrical satellite, calculating solar radiation pressure effects on attitude control behavior

22 p3611 A71-42042

Exothermic decomposition reaction and sublimation mechanism of ammonium perchlorate burning, showing pressure dependence of burning rate

22 p3587 A71-42100

Air pressure effects on absorption dependence at IR wavelengths, using water vapor transmittance windows

22 p3511 A71-42303

Solid helium and molecular metallic hydrogen thermodynamic properties and phase diagrams as functions of pressures corresponding to Jupiter and Saturn interiors

22 p3606 A71-42613

Radiation effects on rats peripheral blood state in low pressure environment with sea level value oxygen tension

22 p3494 A71-42732

Mathematical model of solar radiation pressure force and torque acting on spacecraft surface intercepting solar photon stream

[AAS PAPER 71-352] 23 p3728 A71-43024

Plastic work hardening produced by pressure application to spherical cavity surface in infinite elastoplastic medium, considering spherical elastic wave attenuation

23 p3775 A71-43147

Sporadic E layer ionization relation to thundersquall surface pressure disturbance, considering gravity wave propagation

23 p3670 A71-43322

Carbon dioxide photolysis at 1849 Å and various pressures, suggesting gas dissociation at wavelengths with appreciable absorption

23 p3641 A71-43328

Molecular oxygen partial pressure effect on nitrogen afterglow intensity, proposing three-body reaction kinetics

23 p3707 A71-43500

Dynamic coupling response between convectively controlled burning process and nonsteady flow field with pressure, density and gas velocity periodic variations

23 p3782 A71-43593

Random fluctuating longitudinal pressure gradient effect on steady incompressible channel flow for arbitrary power spectrum and probability density

23 p3664 A71-43597

Apollo 12 basalts porosity and volume compressibility under hydrostatic pressure

23 p3759 A71-43768

Elastic wave velocities in Apollo 12 rocks 12052 and 12065 at high pressures, noting basalt-like composition and crystal structure

23 p3761 A71-43783

Longitudinal magnetic field inhomogeneity influence on inhomogeneous plasma Alfvén instability, considering magnetic field pressure and trapped particles

23 p3713 A71-44151

Posture and lower body negative pressure effects on human heart rate and blood pressure

23 p3636 A71-44241

Large volume liquid oxygen pool boiling, investigating heat exchange coefficient dependence on flux density and pressure

23 p3705 A71-44339

Respiratory carbon dioxide and oxygen partial pressure effects on intraocular and blood pressure in rabbits under Somnifen narcosis

24 p3793 A71-44368

Gas lasers application to length measurement technology, discussing temperature, air pressure and vibration effects on laser frequency stabilization

24 p3833 A71-44449

High altitude decompression disorders prevention in humans by increasing pressure level in oxygen equipment assembly

24 p3795 A71-44474

Dense discharge plasma temperature and ionization distributions in He, H and Ar, investigating pulsed arc emission dependence on current and pressure

24 p3855 A71-44520

Metal cored cylindrical plastic shells response to transient external pressures, considering failure modes

24 p3878 A71-44610

Stability under uniform external pressure of closed spherical shell with axisymmetric initial imperfection in equatorial region, using finite difference technique

24 p3883 A71-44853

Seizing of flat and flat/spherical steel samples pairs in vacuum as function of temperature, pressure and time of contact, using compression-tension machine

24 p3838 A71-44857

Liquid properties and ambient pressure effects on cavitation erosion in thin film

24 p3819 A71-44946

Pressure and flow direction defects behind Mach reflected shock near three shock intersection, considering steady flow theoretical model

24 p3820 A71-44953

Thermal contact resistance of adhesive joints as function of adhesive solidification pressure and temperature and of joint surface physicochemical and geometrical parameters

24 p3831 A71-45024

Pressure effects on Fermi surface of metals, examining crystal lattice parameters influence on electrons energy spectrum

24 p3839 A71-45168

Self similar solution for unsteady powder combustion rate with decreasing pressure, generalizing to rate dependence on pressure and initial temperature

24 p3891 A71-45217

Inhomogeneous high-collision finite-pressure plasma stability, finding thermal instability development under uniform temperature and arbitrary pressure

24 p3858 A71-45243

Static pressure measuring instruments operating principles and characteristics

09 p1448 A71-22768

In situ metal-gas secondary standard assembly for ultrahigh vacuum gage calibration, using repeatable pressure generation from binary erbium-hydrogen system

17 p2744 A71-35140

PRESSURE GAUGES

U PRESSURE GAGES

PRESSURE GRADIENTS

Orientation reflex in healthy and nervous human subjects from peripheral vessels blood pressure fluctuations in response to acoustic signals

01 p0012 A71-11055

Turbulent flow near porous wall with pressure gradient, calculating velocity and shear distribution by modified Van Driest theory

03 p0399 A71-13432

Stresses and deformation in circular matrix subject to internal pressure gradients, assuming cylindrical anisotropy on macroscopic scale

03 p0504 A71-13463

Laminar shock induced boundary layers, examining velocity, pressure gradients and enthalpy

03 p0400 A71-13739

Mean velocity profile measurements in turbulent wake behind single or parallel arbitrarily spaced and sized cylinders with adverse pressure gradient

03 p0403 A71-14131

Bulk solids melting on inclined plane heated surface, investigating heat transfer and mass flow rates, fluid driving force and pressure gradient

04 p0678 A71-15456

Pressure gradients and slot Reynolds number effects on impervious wall film cooling effectiveness in constant density flow

04 p0680 A71-15474

Turbulent compressible two dimensional boundary layer flows with heat transfer, pressure gradients and wall blowing or suction

04 p0681 A71-15482

Aqueous acid solution turbulent boundary layer characteristics during alkali solution injection through porous surface in presence of positive pressure gradient

04 p0576 A71-15614

Velocity distribution equation for steady incompressible two dimensional turbulent flow, taking pressure gradients and surface roughness effects into account

04 p0578 A71-15764

Incompressible fluid boundary layer with negative pressure gradient near separation point, discussing stability characteristics and velocity profiles

05 p0736 A71-16847

Plane incompressible boundary layer stability in presence of pressure gradient and suction

05 p0736 A71-16851

NonNewtonian liquids with arbitrary surface temperature and pressure gradients, solving dynamic and thermal boundary layers equations

06 p1006 A71-18008

Laminar incompressible flow heat transfer in inlet between parallel plates at constant temperature, considering pressure gradient effect on boundary layer velocity profile

[AIAA PAPER 71-36] 06 p1008 A71-18497

High subsonic jet near-field acoustic energy flux distribution calculation from pressure gradient measurements

[AIAA PAPER 71-155] 06 p0884 A71-18597

Supersonic turbulent boundary layer measurements in moderate adverse pressure gradient region along two dimensional ramp model

[AIAA PAPER 71-162] 06 p0884 A71-18604

Nonadiabatic compressible turbulent boundary layer heat transfer to rough surfaces under arbitrary pressure gradient

[AIAA PAPER 71-166] 06 p0885 A71-18608

Heat transfer in turbulent boundary layer for arbitrary surface temperature with fluid injection and pressure gradient

07 p1220 A71-18765

Positive pressure gradient turbulent boundary layer local characteristics in plane diffuser, using Reynolds stress change equations

07 p1086 A71-18770

Inhomogeneous collisionless plasma stability, showing small pressure gradient effects

07 p1167 A71-19228

Tropical hurricane central pressure drop to maximal wind velocity ratio, discussing thermal to mechanical energy transfer as function of ocean surface temperature

08 p1330 A71-21873

Pressure gradient and roughness effects on laminar, transition and turbulent boundary layer in hypersonic shock tunnel

08 p1377 A71-22031

Light ion flow from polar caps in hydrodynamic and evaporative forms, noting pressure gradient force, exospheric electric field and realistic boundary conditions

09 p1440 A71-23459

Mathematical model for secondary flow in turbulent boundary layer in corners and salients, confirming existence of transversal pressure gradient variation

10 p1592 A71-23979

Compressible flow in two dimensional boundary layers in arbitrary pressure gradient, using turbulent energy equation for skin frictions and free stream Mach numbers

10 p1598 A71-25082

Inhomogeneous collisionless plasma stability, showing small pressure gradient effects

12 p1934 A71-26746

Laminar boundary layer equations for rotating plate with surface of arbitrary curvilinear shape, determining external flow pressure gradient leading to separation

12 p1865 A71-27502

Flutter of buckled plate exposed to static pressure differential and streamwise applied in-plane load, comparing experimental results with stability boundary calculations

12 p1983 A71-27584

Turbulent boundary layer friction and heat transfer under longitudinal pressure gradient

13 p2048 A71-28590

Critical overexpanded jet conditions of gas ejector at large pressure gradients based on supersonic compressed layer theory

13 p1993 A71-29213

Turbulent wall jets in presence of main flow longitudinal pressure gradient, using approximate integral method

13 p2050 A71-29225

Turbulent gas flow through duct with alternating pressure gradient, considering heat transfer and frictional resistance

13 p2166 A71-29370

Stationary Gaussian Markovian form randomly fluctuating pressure gradient effects on steady incompressible channel flow velocity

14 p2223 A71-29924

Gas pressure gradient and transmittance of sunspots, obtaining contours of D2 Na I and 5173 A Mg I lines

14 p2309 A71-29983

Approximate calculation of turbulent boundary layers with adverse pressure gradient, using empirical

auxiliary and momentum integral equations and skin friction formula

14 p2226 A71-30400

Book on pressure losses in ducted flows covering subsonic flow in straight or curved ducts, constrictions flow characteristics, etc

15 p2386 A71-31149

Alveolar-arterial oxygen pressure gradient derivation as sum of shunt, ventilation/perfusion inequalities and membrane and airway diffusions

15 p2363 A71-31444

Shock and pressure gradient induced turbulent transonic flow separation, using two dimensional circular arc model for flow field investigation

[AIAA PAPER 71-565] 15 p2344 A71-31559

Turbulent wall jet with initial boundary layer, calculating growth and separation in arbitrary pressure gradient by integral method

[AIAA PAPER 71-612] 15 p2389 A71-31581

Integral analysis of incompressible turbulent boundary layer with mass transfer and pressure gradient, including Stevenson velocity profiles and skin friction law

[ASME PAPER 71-APM-2] 16 p2559 A71-33221

Viscous stresses distribution in isothermal incompressible turbulent boundary layer with positive pressure gradient by diffusers in open jet wind tunnel

17 p2725 A71-34209

German monograph on pressure changes as boundary layer effect in tube wind tunnels covering test equipment and experimental design, Becker theory, pipe flow, etc

17 p2670 A71-34792

Interior region of incompressible turbulent boundary layer with pressure gradient on permeable wall, discussing local similitude hypothesis

17 p2729 A71-35346

Bernstein mode wave instability growth rate in collisionless shocks propagating perpendicular to magnetic field, including pressure gradient effects

18 p2950 A71-35928

Pressure change accompanying mixing of two ideal gases, assuming constant specific heats

18 p2904 A71-36280

Adverse pressure gradient effects on compressible turbulent boundary layer flow in parallel duct at Mach 4 and high Reynolds number

18 p2904 A71-36297

Two dimensional turbulent boundary layer in incompressible fluid on smooth and rough impermeable wall surfaces under arbitrary pressure gradients

19 p3042 A71-37088

Solar wind acceleration due to Alfvén wave pressure gradient, taking into account coronal parameters of temperature, magnetic field and energy density

19 p3128 A71-38162

Dogs intrapleural and intraesophageal pressures dependence on head positions

19 p3010 A71-38564

Non-Newtonian liquids with arbitrary surface temperature and pressure gradients, solving dynamic and thermal boundary layers equations

20 p3311 A71-38975

Incompressible turbulent boundary layer with pressure gradients, calculating Clauser equilibrium model and flow with constant wall shear stress

20 p3210 A71-39030

Water tunnel study of turbulent boundary layers structure in incompressible fluid with longitudinal pressure gradient at inlet section of converging and diverging nozzles

20 p3213 A71-39789

Plane equilibrium turbulent boundary layer with longitudinal pressure gradient

20 p3214 A71-39791

Higher pressure ratios trend in aircraft gas turbines leading to higher exit temperatures from compressor, noting real gas effects

21 p3437 A71-40170

Supersonic and hypersonic viscous gas flows with boundary layer induced pressure gradients, investigating disturbance upstream propagation by asymptotic theory

21 p3322 A71-40680

Unsteady pressure gradient reduction effect on airfoil dynamic stall delay

22 p3481 A71-42841

Thermomolecular pressure gradients and temperatures in flow between parallel planes for statistical gas models at arbitrary Knudsen numbers

24 p3891 A71-45242

PRESSURE MEASUREMENTS

Medium length journal bearing pressure profiles, deriving ordinary differential equation for load capacity

01 p0086 A71-10300

Small size calorimetric probe for measuring enthalpy, temperature and pressure in high velocity dense plasma flow

02 p0290 A71-12194

Mountainous region vertical air flow research, describing superpressure balloon and precise pressure radiosonde system

02 p0189 A71-12420

Metal shaping process during angle steel ream-type rolling, determining metal particles velocity fields, strain energy and total metal pressure on rollers

02 p0257 A71-12566

Noncircular cross section static pressure probes theoretically insensitive to pitch, yaw and Mach number, testing performance

03 p0341 A71-13730

Boeing 747 flight loads measurements, describing aircraft instrumentation with strain gages and pressure pickups

03 p0348 A71-13766

Simple pressure selector switch for measurement up to 40 input pressures

06 p0900 A71-18055

Wave number/phase velocity spectrum of wall pressure measurements beneath two dimensional turbulent boundary layer

06 p0882 A71-18317

Pt electrode response time during unsteady oxygen partial pressures measurement

06 p0860 A71-18323

Finite amplitude waves from supersonic jet, discussing pressure fluctuations measurement for explaining wave patterns visible on spark shadowgraphs

[AIAA PAPER 71-151] 06 p0845 A71-18593

Sonic boom problem, investigating pressure signature of large models in supersonic wind tunnels

[AIAA PAPER 71-184] 06 p0886 A71-18623

Pulsed megawatt MPD arc thruster exhaust pressure measurements, discussing time dependence, peak dynamic and static pressures, etc

[AIAA PAPER 71-196] 06 p0948 A71-18634

Static pressure measurements near oblique shock waves using short probe, evaluating readings accuracy

07 p1090 A71-19911

Fluidic/electronic pressure ratio computer prototype, using two free jets interaction for instrument error reduction

07 p1031 A71-20603

Automatic system for indirect blood pressure measurement in carotid compression test, discussing applications

08 p1247 A71-20827

Turbulent boundary layer pressure fluctuations in-flight measurements on Boeing 737 aircraft, obtaining power spectral densities and RMS pressure fluctuations for various Mach numbers

08 p1231 A71-21426

Static pressure port errors in hypersonic turbulent flow, using approximate shear layer momentum balance for pressure increase derivation

[AIAA PAPER 71-270] 08 p1228 A71-21996

Static pressure measuring instruments operating principles and characteristics

09 p1448 A71-22768

Dynamic pressure primary standard in terms of mass, time, length and temperature, describing phenomenon selection, error analysis and physical and mathematical models

09 p1448 A71-22769

Blood pressure measurement by catheter gages, analyzing error due to wave reflection at catheter tip

09 p1399 A71-22972

Transthoracic measurements of left and right ventricular systolic pressures in anesthetized mice, using fiber optics and strain gage manometer techniques

09 p1401 A71-23371

Venus atmospheric temperature and pressure measurements during and after Venera 7 soft landing

09 p1528 A71-23560

Supersonic and subsonic jets coexistence in rectilinear constant section duct, characterizing flow boundaries by pressure readings and Schlieren flow visualization

09 p1384 A71-23605

Vapor pressure measurements of mineral oils for hydraulic power systems, using transpiration method

09 p1484 A71-23666

MHD Hg flow between concentric cylinders with nonconductive walls, comparing pressure loss and voltage measurements with theoretical predictions for large Hartmann numbers

10 p1647 A71-23862

Carbon dioxide tension in pulmonary arterial blood before/during prolonged rebreathing in oxygen mixtures at rest and exercise

10 p1558 A71-23895

Cold cathode ionization gages dynamic pressure response as function of gas pulse mean speed and gas type, using magnetron test measurements

10 p1610 A71-24182

Mediastinum effect on human esophageal pressure and lung compliance measurements

10 p1565 A71-24678

Rocket propellant performance improvement with boron, giving boiling temperature vs pressure and calculation methods for combustion products composition

11 p1809 A71-25573

Mars surface pressure and elevation differences determined by spectroscopic observation of carbon dioxide band

11 p1825 A71-25714

Blood pressure measurement with Doppler ultrasonic flowmeter, providing sensitive and accurate noninvasive approach for continuous measurement of systemic arterial pressure

12 p1874 A71-27139

Arterial tonometry for atraumatic measurement of arterial blood pressure, considering transient effects of drugs or physiological interventions

12 p1874 A71-27140

Large axial compressor flow straightening stator blades unsteady pressure measurements with short response time detectors

12 p1945 A71-27469

Nonreacting and reacting ideal gases expansion between interconnected chambers, considering nitrogen and carbon dioxide simultaneous pressure measurements

12 p1877 A71-27550

Mechanical sterilization and cleansing of Goldmann applanation tonometer prisms contaminated with coliphage, comparing with germicidal immersion

13 p2020 A71-29036

Base pressure measurement behind wedge-parallelepipeds and cone-cylinder models of variable geometry

13 p2049 A71-29199

True time averaged oscillating pressure measurements and testing in turbomachinery, including hydraulic, mechanical and evaluation methods

[ASME PAPER 71-FE-28] 13 p1995 A71-29464

Fluctuating pressure measurement in mixing zone of axisymmetric jet, using total head and static probes coupled to 1/8 inch microphone

[ASME PAPER 71-FE-31] 13 p2053 A71-29466

Miniature transducers design and fabrication for fluctuating pressure measurements in jet engine testing, noting frequency response and power dissipation

14 p2244 A71-30324

Fluctuating pressure measurements in jet engine testing, using miniature transducers with calibration and data acquisition equipment

14 p2244 A71-30325

Cosmic ray nucleon-meson and barometric pressure data continuous recording equipment, comparing system to conventional instruments

14 p2248 A71-30602

Supersonic hydrogen combustion in vitiated air stream with stepped wall injection, considering temperature, pressure and composition measurements

[AIAA PAPER 71-721] 14 p2286 A71-30772

Hertzian radiometry experimental aspects covering background and medium temperature measurements, sky radiometry and absorbing gas total pressure measurements

14 p2204 A71-30969

Small size calorimetric probe for measuring enthalpy, temperature and pressure in high velocity dense plasma flow

15 p2454 A71-31500

Sonic boom pressure signature laboratory scale measurement after modification by traveling through air jet turbulence, comparing with statistical prediction

[AIAA PAPER 71-618] 15 p2388 A71-31547

Sonic boom wave interaction with topographic models, measuring surface pressure time history

[AIAA PAPER 71-619] 15 p2389 A71-31548

Low density hypersonic flow on flat plate, discussing surface pressure measuring techniques

[AIAA PAPER 71-606] 15 p2346 A71-31580

Unsteady force and pressure measurements by molecular and parametric transducers including strain gage, drag, moment and piezoelectric balance instruments

15 p2411 A71-32563

Turbulent boundary layer growth over flat plate and compression corner model in hypersonic gun tunnels, measuring pressure and heat transfer rate distributions

16 p2554 A71-32880

Shock wave propagation in ducts and cavities of different shapes and cross sections, compensating errors in recorded signals for shock tube pressure measuring equipment development

16 p2555 A71-32885

Plane shock front collapse through logarithmic spiral contraction, obtaining pressure and temperature conditions downstream of front

16 p2556 A71-32919

Geometrical parameters effect on operation of high pressure two-stage nozzle ejector with conical mixing chamber, measuring gas flow rates, total pressures and stagnation temperatures

16 p2521 A71-33612

Wall pressure spectra and rms wall pressure levels measurements in subsonic separated flows, postulating model for pressure fluctuation estimation

17 p2728 A71-35037

Preencapsulated strain gage measurement during water pressure tests on site built vessels

17 p2744 A71-35238

Pressure and heat flux measurements at wall of nose cone in hypersonic wind tunnel flow with high generatrix enthalpy

18 p2844 A71-36182

Pitot and static pressure measurement in low density hypersonic flows, considering thermal transpiration, gas nonequilibrium near measurement cavity and nature of inlet geometry

18 p2921 A71-36415

Vibratory flame propagation and pressure measurements in short closed tubes and vessels, using high speed schlieren cinematography and quartz piezoelectric transducer

19 p3167 A71-38097

Ignition delays of propane-oxygen-argon mixtures in shock tubes from pressure and heat flux measurements in reflected region

19 p3169 A71-38109

Autoclave chronic catheter system and restraining box for blood sampling and pressure measurement for hibernating marmots

19 p3010 A71-38568

Pressure, time and attenuation measurements of high explosive driven air shock in steel pipe, comparing with numerical simulation

20 p3208 A71-38787

Static and transient pressure measurement in turbulent boundary layers, using transducer with piezoelectric sensing element

20 p3233 A71-38822

Dynamic pressure measurement method and apparatus for anode center of heavy current electric arcs in plasmas, applying to plasma welding arcs

20 p3274 A71-39047

Venera 7 satellite data during descent through Venus atmosphere and activity after soft landing on 15 December 1970, noting temperature and pressure measurements

20 p3289 A71-39130

Light pressure measurement acting on Echo 1 satellite, considering integral reflection coefficient

20 p3306 A71-39132

Blunt planetary entry probe full scale flight test base pressure measurements, noting insensitivity to angle of attack variations up to 10 degrees

20 p3176 A71-39353

Transient pressure, temperature and density measurement of dense hot gas

21 p3364 A71-40402

Baric levels determination for weather forecasting from statistical analysis of atmospheric numerical model

21 p3410 A71-40823

Plasma/magnetic field pressure ratio and inductance per unit length in Tokamak plasma pinch with arbitrary cross section

22 p3579 A71-41583

Unbounded turbulent jet transducer element fluidic sensors, measuring ambient velocity and density from pressure data

22 p3531 A71-42768

Transient pressure measurement in plasma exhaust flow of 500 microsec duration, discussing discharge temporal behavior and cold gas pressure front existence

23 p3711 A71-43598

Pressure histories from densification and relaxation measurements on lunar glass and synthetic samples, investigating refractive index changes after annealing

23 p3758 A71-43760

Liquid crystals structural, elastic and optical properties, noting application to measurements of temperatures, pressures and electric and magnetic fields

23 p3717 A71-43958

Piezoelectric probe for pressure measurement in plasma behind shock front, discussing design and measuring circuit

24 p3825 A71-44750

Pressure and mass velocity profiles behind two dimensional shock wave generation on Al flat plates explosive surface

24 p3839 A71-45228

PRESSURE MICROPHONES

U MICROPHONES

PRESSURE OSCILLATIONS

Supersonic and transonic flow including effects of pressure oscillations within cavity, predicting rectangular cavities drag from mathematical model

01 p0002 A71-10931

Pressure fluctuations on fixed blades of axial flow compressor, determining sensor dynamic characteristics

01 p0003 A71-11024

Semiannual atmospheric wind and pressure oscillations relation to seasonal meridional baric systems displacements, considering cosinusoidal wave motion variations between Northern and Southern Hemispheres

04 p0621 A71-14639

Turbulent fluid flow past surfaces, calculating pressure pulsations at boundary layer

04 p0576 A71-15612

Turbulent pressure pulsations at surface of floating body of revolution moving unsteadily in sea water during boundary layer development

04 p0576 A71-15613

Microsensor measurement of spatial correlation between pressure fluctuations of turbulent boundary layer

04 p0600 A71-15636

Sporadic E layer structure and disturbances from pulsed radio signal measurement, noting correlation to pressure oscillation at ground level

04 p0584 A71-15757

Turbulent boundary layer wall pressure fluctuations on hydrodynamically smooth and rough surfaces, investigating eddies, space-time decay rate and flow structure

05 p0736 A71-16961

Power spectra of cosmic ray intensity variations at ground and atmospheric pressure oscillations

06 p0950 A71-17979

Finite amplitude waves from supersonic jet, discussing pressure fluctuations measurement for explaining wave patterns visible on spark shadowgraphs

06 p0645 A71-18593

Boundary layer separation in unsteady pipe flow, examining velocity profiles under influence of periodic pressure fluctuations

07 p1093 A71-20280

Atmospheric pressure pulsation time spectra on earth surface as function of stratification conditions

08 p1286 A71-21876

Liquid fuel rocket combustor longitudinal pressure oscillations nonlinear analysis, using multiple scales technique

09 p1544 A71-22107

Turbulent incompressible air flow in-stream static pressure fluctuations measurement, describing bleed type pressure transducer theory, design and operational characteristics

10 p1611 A71-24516

Soviet book on nonstationary waves covering gravity waves development, moving periodic pressure systems, seismic disturbances and nonhomogeneous ideal liquids

10 p1595 A71-24650

Cavitation in liquids with dissolved gases by acoustic wave induced oscillating pressure, discussing gas bubble formation through rectified diffusion process

10 p1597 A71-24942

Tangential body forces and pressure perturbation interactions in thin liquid film, considering destabilizing effect impairing film cooling efficiency

11 p1751 A71-25491

Wind resonance in ionosphere under pressure fluctuations, noting turbulent friction factor above 110 km

13 p2060 A71-28533

Fluctuating pressure measurement in mixing zone of axisymmetric jet, using total head and static probes coupled to 1/8 inch microphone

[ASME PAPER 71-FE-31] 13 p2053 A71-29466

Monograph on solid propellant rockets combustion instability covering pressure oscillations at acoustic frequencies, swirling nozzle flow, chamber pressure, etc

14 p2287 A71-29577

Fan-produced sound pressure fluctuation in very low speed subsonic wind tunnel test stream, noting resulting anemometer calibration errors

14 p2275 A71-30526

Comparative variable area, pulsed and modified T burners for testing oscillatory combustion and stability of propellants containing aluminum

14 p2289 A71-30714

Turbopropulsion systems thrust augmentor combustion instability, discussing physical causes due to various pressure oscillation modes

14 p2293 A71-30756

Turbojet and turbopump augmentors combustion instability, discussing pressure oscillations elimination by screech liner and flameholder design

14 p2294 A71-30757

Combustion instability with wave motion coupling in solid propellant rocket motors due to energy gain and loss mechanisms within chamber

14 p2296 A71-30787

Missile component vibration environments generation by Minuteman 2 and 3 third stage motors solid propellant oscillatory burning

14 p2296 A71-30790

Solid propellant rocket engines combustion instability, reexamining Culick analysis of longitudinal oscillations with pressure and velocity coupling

15 p2467 A71-31473

Vibratory stresses in heat exchangers due to pressure pulsation induced acoustic resonances, calculating flow pulsations from Karman vortex streets

15 p2513 A71-31635

Acoustic radiation of supersonic jet toward nozzle exit section, plotting pressure pulsations vs active/passive pressure ratio

18 p2903 A71-36122

Inlet turbulent pressure data scaling hypothesis, investigating Reynolds number effect

18 p2956 A71-36774

In-flight noise radiation by wing-mounted jet engines on aircraft fuselage based on correlation with turbulent boundary layer pressure fluctuations

19 p2997 A71-37846

Solid propellant combustion pressure oscillations amplification, developing mathematical model as function of reaction rate constant, chamber pressure, frequency and solid properties

19 p3123 A71-38096

Combustion driven acoustic oscillations in gas fired burner of premixed methane, nitrogen and oxygen, noting mixture ratio and flow rate effects

19 p3123 A71-38098

Atmospheric pressure pulsation time spectra on earth surface as function of stratification conditions

19 p3060 A71-38469

Holographic investigation of acoustical fields, describing shadowgraph recording apparatus for sound pressure amplitude distribution

20 p2322 A71-38811

Unsteady gas pulsations in compliant tube, predicting pressure amplitude extremum as function of mean flow by linear theory with frictional effect

24 p3820 A71-45073

PRESSURE PROBES

U PRESSURE SENSORS

PRESSURE PULSES

Acoustic velocity in water, examining air bubble effects on pressure pulse attenuation

03 p0459 A71-13720

Launching intermediate velocity thin plastic sheets for short duration pressure pulse studies of dynamic materials properties

03 p0427 A71-13916

Stereophotogrammetric measurement of plastic deformations of circular Al membrane loaded by pressure pulse, using high speed cameras

03 p0428 A71-13948

Fuel rod bundle boundary layer in longitudinal fluid flow, investigating turbulent temperature and pressure pulsations

04 p0684 A71-15504

Statistical characteristics of pulsation pressure on surface in turbulent boundary layer of incompressible fluid, discussing effects near smooth flat wall

04 p0575 A71-15607

Plane compression waves propagation into constant state nonviscous fluid, considering shock formation of pressure pulses and overpressure as function of time

07 p1091 A71-19961

Stress waves in elastic spherical shell due to external pressure pulse, approximating near field by saddle point technique

07 p1215 A71-20097

Transient stresses in heat shield generated by short duration pressure pulses, using method of characteristics for interface stresses

11 p1844 A71-25330

Longitudinal space-time correlation function of turbulent near wall pressure pulsations with hydrodynamic wavelength exceeding boundary layer thickness at streamlined model

13 p2049 A71-28846

Baroreflex regulation of pulse interval during bicycling exercise, using systolic pressure-pulse relation to express reflex sensitivity

13 p2012 A71-28951

Pulsed T-burner testing of oscillatory combustion and droplet damping of aluminized solid propellants as function of frequency and sample properties

14 p2289 A71-30713

Error analysis of Corcos hypothesis concerning cross spectra of pseudoacoustic LF turbulent pressure pulsations on flat plate

15 p2389 A71-31708

Surface wave patterns created by constant velocity pressure point on inviscid plasma bounded by magnetic field

19 p3111 A71-37637

Pressure pulse shape effect on final plastic deformation of simply supported thin circular plate

19 p3158 A71-38181

Rectangular plate under lateral and inplane pressure pulses, examining transient response with Mathieu equation

21 p3471 A71-41023

PRESSURE RECOVERY

Flow and dynamic pressure recovery in wall-attachment fluid amplifiers, considering large scale flip-flop

[ASME PAPER 70-WA/FLCS-9]

03 p0354 A71-14085

Cone shaped diffusers effectiveness, noting inlet conditions effect on pressure recovery coefficient

05 p0694 A71-16750

Conical diffusers swirling inlet flow effects on pressure recovery and outlet flow profile

06 p0883 A71-18541

Aerodynamic seals theoretical analysis and experimental test results, considering pressure ratios, pressure recovery coefficients and pump efficiency

07 p1117 A71-19422

Jet pipe valve characteristics, discussing pressure and flow recovery for various loads, nozzle diameter ratios and spacings

07 p1025 A71-20559

Supersonic fluidic bistable switch, developing improved pressure recovery

07 p1029 A71-20590

Supersonic pitot fluidistor in bistable mode, investigating improved pressure and flow recovery at large expansion ratios

07 p1029 A71-20591

Static pressure recovery and core region velocity profile in rectangular wall diffusers with uniform shear flow

[ASME PAPER 71-GT-5]

11 p1751 A71-25951

Truncated conical diffusers with various geometrical configurations and incompressible inlet flow conditions, noting reduced pressure recovery

13 p2047 A71-28468

Pressure recovery performance of straight-wall two dimensional diffusers with subsonic air-water mixtures, studying gas volume flow ratio and diffuser geometry effects

[ASME PAPER 71-FE-20]

13 p2052 A71-29458

Short conical diffusers with radial splitters for flow stabilization with high pressure recovery performance

14 p2225 A71-30304

Submerged free air jet with laminar parabolic profile, investigating pressure recovery characteristics for various tube diameters, spacing and Reynolds number

15 p2389 A71-31683

FLE-251 fluidic NOR gate impact modulator developing equivalent circuit model for pressure gain recovery and cut-off, output capacitance and step response

15 p2351 A71-31684

Conical diffusers outlet flow profile and performance, investigating swirling inlet flow effects on pressure recovery

21 p3323 A71-40950

PRESSURE REDUCTION

NT EXPLOSIVE DECOMPRESSION

Free piston shock drivers concerning plateau pressure reduction

04 p0564 A71-14674

Dynamic pressure reduction method errors in vacuum gages calibration

05 p0754 A71-16949

Carboxyhemoglobin changes in circulating blood volume during lower body negative pressure exposure

06 p0854 A71-18363

Composite propellant transient burning rates continuous measurement during rapid depressurization

[AIAA PAPER 71-173]

06 p0944 A71-18612

Chronic hypoxia effects on capillary development during high altitude exposure in decompression chamber and maintenance at sea level

08 p1237 A71-20679

Surface station pressure reduction to sea level, determining differential expression by least squares method

08 p1329 A71-21727

Accelerated testing of jet fuel containment sealant, using reduced pressure and hybrid fluorocarbon silicone

10 p1632 A71-24083

Composite propellant flame temperature and emission spectra during depressurization by rarefaction waves, using rapid scanning spectrometer

[AIAA PAPER 70-663]

12 p1945 A71-27564

Artificial respiration in elevated gas pressure chamber to revive organism after clinical death by rapid decompression

12 p1876 A71-27745

Depressurization extinguishment of composite solid propellants for thrust termination, considering flame structure, surface characteristics and restart capability

[DFVLR-SONDDR-129]

13 p2113 A71-28615

Simply supported nearly circular cylindrical shell, calculating nonlinear damped dynamic response due to exponentially decaying radial pressure

14 p2330 A71-30688

Nickel sponge preparation by liquid nickel sulfide reaction with NiO under reduced pressure at various temperatures

15 p2433 A71-32178

Solid propellants extinguishment by depressurization, using transient flame model

[AIAA PAPER 71-631]

15 p2466 A71-32283

Functional systems changes in intact and anesthetized rats during increasing hypoxia in decompression chamber

16 p2532 A71-33911

Spontaneous hot zone formation in oil flow through small pipes, showing significance in pressure losses and plain bearings calculations

19 p3046 A71-38275

Unsteady pressure gradient reduction effect on air-foil dynamic stall delay

22 p3481 A71-42841

Vortice generation in laminar boundary layer of water flow under hydraulic pressure reduction, proposing mathematical model

23 p3662 A71-43315

PRESSURE REGULATORS

Book on fluid power circuits and systems covering switching theory, closed loop systems, pneumatic circuits, servo systems and pressure control

02 p0190 A71-11871

Fluidic instrument pressure regulator, noting pressure sensing circuit, confined jet amplifier and control valve

[ASME PAPER 70-WA/FLCS-4]

03 p0428 A71-14080

German monograph on loss estimation for non-steady gasdynamic duct-drum pressure exchangers, discussing design and optimization problems

04 p0568 A71-14925

Pressure regulator design and construction, using high pressure fluidic proportional chain

07 p1027 A71-20580

Series and bypass fluidic pressure regulators, discussing component selection, performance details, sensing circuits, feedback amplifier and flow controller

16 p2579 A71-33526

Valves and regulators development and testing for liquid hydrogen propellant tank pressurization system

22 p3588 A71-41503

Passive gas flow control with compensation for ambient temperature and supply pressure variations, using choked orifice with area variation linearly proportional to diaphragm deflection

[ASME PAPER 70-WA/AUT-14]

24 p3828 A71-45137

PRESSURE SENSORS

Intracranial pressure measurement by miniature transducer with modifications for baseline reading and calibration checking throughout implantation period, giving circuit diagram

01 p0021 A71-10241

Sinusoidal pressure generator for determining frequency response of small pressure transducers, pressure probes and characteristics of small diameter infinite lines

01 p0067 A71-10478

Accelerometers and dynamic pressure transducers calibration, using laser interferometer system

01 p0082 A71-10862

Temperature compensated semiconductor transducers for dynamic pressure measurements, using Si Zener diodes

01 p0057 A71-11289

Noncircular cross section static pressure probes theoretically insensitive to pitch, yaw and Mach number, testing performance

03 p0341 A71-13730

Stress dynamics of optimum high speed piezoelectric pressure probes utilizing backing rod material

03 p0427 A71-13913

Two-wire IC pressure transducer bridge circuit performance features based on circuit analysis

04 p0561 A71-15594

Microsensor measurement of spatial correlation between pressure fluctuations of turbulent boundary layer

04 p0600 A71-15636

Static pressure measurements near oblique shock waves using short probe, evaluating readings accuracy

07 p1090 A71-19911

Piezoelectric and capacitive transducer pressure measurements in low pressure fluidic elements

07 p1026 A71-20571

High performance fighter aircraft engine pressure ratio and turbine inlet temperature measurement, using fluidic sensors

07 p1028 A71-20586

Fluidic ambient velocity and pressure measurement sensors, using unbounded turbulent jets

07 p1029 A71-20595

Back pressure sensor improvement, discussing orifice square law relationship between pressure and flow

07 p1094 A71-20608

Transients estimation for measuring lines of LF pressure sensors, taking into account hydraulic resistance in inlet channel

08 p1286 A71-20834

High altitude radiosonde thermometer and pressure sensor construction, discussing radiation error and wire lag

08 p1293 A71-21740

Miniature pressure transducer with extended temperature capability, discussing design and operation

09 p1445 A71-22723

High temperature ultraminiature pressure transducers, reviewing p-n junctions thermal limitations and thermal properties of dielectric oxides used with solid state epitaxially grown sensors

09 p1448 A71-22772

In-flight profile drag measurement of gliders with total and static pressure sensors in boundary layer wake, using moments method

09 p1384 A71-23667

Fast miniature shielded pitot pressure transducer for spatial resolution of flow details

09 p1453 A71-23728

Turbulent incompressible air flow in-stream static pressure fluctuations measurement, describing bleed

type pressure transducer theory, design and operational characteristics

10 p1611 A71-24516

Cam profile selection for adjustment in computing-resolving unit of aneroid sensors of altimeters

13 p2069 A71-28938

High altitude balloons pressure-altitude transducer assembly, discussing electronic circuitry, calibration and temperature and vibration effects

14 p2240 A71-30070

Altitude-airspeed and Mach number pressure transducer with diaphragm free of temperature and vibration effects

14 p2243 A71-30322

Miniature transducers design and fabrication for fluctuating pressure measurements in jet engine testing, noting frequency response and power dissipation

14 p2244 A71-30324

Fluctuating pressure measurements in jet engine testing, using miniature transducers with calibration and data acquisition equipment

14 p2244 A71-30325

Miniature pressure transducers for wind tunnel aircraft models buffet phenomena measurements, discussing calibration, frequency and pressure range, sensitivity and accuracy

14 p2245 A71-30335

Miniature integrated sensor pressure transducers for inlet air flow distortion and buffet studies of wind tunnel models

14 p2245 A71-30336

Parallel pressure multiplexer and encoder for aerodynamic testing, employing zero pressure detectors coupled with IC digital electronics and reference pressure signal

14 p2222 A71-30342

Total and vapor pressure sensing and hybrid analog/digital electronic controller for multiburn cryogenic spacecraft propulsion pressurization [AIAA PAPER 71-647]

14 p2290 A71-30724

Shock wave attenuation in perforated duct, using pressure transducers and schlieren photography

16 p2554 A71-32884

Laser holographic inspection of silicon bond in pressure sensors for process control systems

19 p3068 A71-37245

Pressure sensors thermal protection by porous Zr disk as heat shield, considering acoustic transparency, linearity, transient response and air flow resistance [ONERA-TP-957]

22 p3547 A71-42501

Fluid amplifiers theory and use as temperature and pressure sensors, discussing applications in chemical and ammunition industries and jet aircraft control [IEEE PAPER 70-TP-120-IGA]

23 p3630 A71-42921

PRESSURE SUITS

NT SPACE SUITS

Analytic functions approximation in complex regions with aid of different systems of functions

07 p1146 A71-19041

Pressure suit assemblies /PSA/ reference for aerospace and environmental control engineers [SAE-AIR-1103]

07 p1049 A71-19641

Emergency backup /secondary pressurization/ devices for aerospace crew and passenger safety and comfort, considering high altitude pressure suits

08 p1244 A71-20716

Reevaluation of emergency pressurization requirements for brief flights over 50,000 feet, considering pressure suit requirement

08 p1247 A71-20822

Anthropometry for aircraft cockpit and pressure suit design compatible with mission requirements

11 p1724 A71-26115

PRESSURE TRANSDUCERS

U PRESSURE SENSORS

PRESSURE VESSEL DESIGN

Petroleum mechanical engineering and pressure vessels and piping - ASME Conference, Denver, September 1970

04 p0665 A71-14767

Ellipsoidal pressure vessel heads failure mode analysis, considering buckling under internal pressure and design formula with safety factors [ASME PAPER 70-PVP-26]

04 p0665 A71-14769

Fiber reinforced cryogenic pressure vessels design, manufacture and testing for space and terrestrial applications, comparing glass fibers to carbon fibers

04 p0618 A71-15650

Weight-optimal cylindrical shells of revolution with uniform strength edge reinforcement, discussing pressure vessel design

06 p0982 A71-17356

Aboveground liquid storage tanks design with fiberglass-reinforced composites based on pressure vessels requirements - [DFVLR-SONDDR-93]

13 p2157 A71-29307

PRESSURE VESSELS

Cryogenic pressure vessels carrying capacity, discussing loading types, materials properties, thermal effects, etc

01 p0097 A71-10077

Energy accumulation effects on pressure vessels strength and failure mode, examining crack propagation and arrest

03 p0517 A71-14586

Pressurized isotropic viscoelastic hollow cylinder bonded to elastic casing, analyzing stress during finite deformation

04 p0668 A71-15191

Carbon fiber evaluation of structural reinforcement potentialities for rocket motor cases and pressure vessels filament winding [PLASTICS INST. PAPER 48]

08 p1297 A71-20924

Pressure vessel method improvement by electronic equipment application in determining data characteristics for propellant powders ballistic properties

10 p1696 A71-24447

Pressure vessel flaw detection at high stress and cryogenic temperatures, noting Lunar Module fuel tanks experience [AIAA PAPER 71-336]

11 p1777 A71-25315

Atmospheric seal leakage control tests for long orbital lifetime space station designs, discussing vacuum chamber monitored pressure shell penetrations [AIAA PAPER 71-337]

11 p1836 A71-25316

Spacecraft structures weight optimization based on fracture mechanics and reliability cost constraints applied to pressure vessel design

11 p1847 A71-25464

Filament wound pressure vessels and composites flaw detection nondestructive tests with X rays and thermography

14 p2262 A71-29644

Aerospace pressure vessels delayed time failure, discussing flaws growth rate in context of linear elastic crack tip stress intensity factors

14 p2325 A71-29898

Cryogenic pressure vessels carrying capacity, discussing loading types, materials properties, thermal effects, etc

16 p2593 A71-33633

Numerical method for limit analysis of axisymmetric shells of revolution, considering truncated conical shells and pressure vessels with rigid circular plates

17 p2818 A71-34400

Preencapsulated strain gage measurement during water pressure tests on site built vessels

17 p2744 A71-35238

Viking Mars spacecraft pressure vessel design, incorporating linear elastic fracture mechanics for long life

18 p2979 A71-36487

PRESSURE WAVES

U ELASTIC WAVES

PRESSURE WELDING

NT DIFFUSION WELDING

NT EXPLOSIVE WELDING

NT ULTRASONIC WELDING

Comparative review of friction welding mechanisms, including inertia and metallurgical aspects

[SME PAPER AD-70-574]

07 p1121 A71-20548

Forge phase rigid and plastic region model of friction welding, deriving interfacial dispersion parameter of weld quality optimization

09 p1459 A71-23456

Air cooled turbine blades activated diffusion brazing and gas pressure welding, using composite finned configuration model

[ASME PAPER 71-GT-32]

11 p1770 A71-25969

Jet engine components inertia welding, discussing process, equipment, low weight-cost advantage and mechanical properties reproducibility [ASME PAPER 71-GT-33]

11 p1770 A71-25970

Soviet book on microwelding by pressure covering semiconductor-metal bonding, ultrasonic soldering and thermal processes

23 p3682 A71-44125

PRESSURIZED CABINS

Aeromedical requirements, control limitations and hazards of aircraft pressure cabins and rapid decompression

08 p1244 A71-20715

Emergency backup /secondary pressurization/ devices for aerospace crew and passenger safety and comfort, considering high altitude pressure suits

08 p1244 A71-20716

Fluidic cabin pressure automatic control systems for military and civil aircraft, discussing design, operation and performance

14 p2182 A71-30308

Polymer odor threshold determination for hygienic considerations in sealed/pressurized chamber construction, comparing static and dynamic methods

24 p3800 A71-44539

PRESSURIZING

NT FUEL TANK PRESSURIZATION

Dynamic response of pressurized thin circular cylindrical shells under moving loads [AIAA PAPER 71-175]

06 p1004 A71-18614

Total and vapor pressure sensing and hybrid analog/digital electronic controller for multiburn cryogenic spacecraft propulsion pressurization [AIAA PAPER 71-647]

14 p2290 A71-30724

PRESTON TUBES

U PITOT TUBES

U SPEED INDICATORS

PRETRAINING

U PRESTRESSING

PRESTRESSING

Thermal stresses on curved surface of initially stressed circular cylinder with smooth rigid insulated cover

01 p0172 A71-10839

Thermally induced preload changes in roller bearings due to temperature gradients measured, using strain gage bridges and thermocouples

01 p0088 A71-11006

Thermal prestress effect on natural vibrations of hinge supported isotropic cylindrical shell, integrating equations of motion by Bubnov-Galerkin method

02 p0322 A71-11738

Circular shallow prestressed arches with fixed ends, considering initial thrust effect on snap buckling

03 p0505 A71-13545

Elastic straightening of slightly curved shell and significantly curved beam, considering prestressed structural stiffness

04 p0672 A71-15771

Nonelastic unloading microstrains in Cu crystals after stage II macroscopic pretraining, discussing stresses action on dislocations

09 p1468 A71-22700

Cold pretraining effect on steady state creep strength and rate of precipitation hardened heat resistant steel

09 p1477 A71-23331

Vibrational characteristics of pretwisted cantilever beams with uniform rectangular cross section, investigating slenderness ratio effect on natural frequencies

09 p1543 A71-23661

Prior deformation and subsequent annealing influence on fatigue response of coarse grained alpha Ti, evaluating relative effects of dislocation locking and mechanical twinning

10 p1626 A71-24445

Optimal prestressing against buckling of structures with reserve capacity, using energy methods of structural analysis

10 p1689 A71-24514

Prestress vibration hardening of shells of revolution for circumferential 0 and 1 wave number, using VALORS and BALORS programs

11 p1848 A71-25486

Coupled natural frequencies in rectangular cross section pretwisted cantilever beams flexural vibrations

15 p2503 A71-31442

Prestressing of two layer fiberglass-reinforced plastic cylindrical shell under internal pressure

16 p2657 A71-33410

Initial strains effect on propagation rate of elastic waves, applying finite deformation theory

16 p2658 A71-33902

Plastic deformation, creep rupture strength, endurance limit and service life of prestressed strain hardenable material

16 p2659 A71-33985

Idealized model for anisotropy of metals inelastic characteristics due to plastic pretraining, demonstrating applicability to polycrystalline materials

16 p2659 A71-33989

Low temperature tensile prestressing effect on recrystallization kinetics of polycrystalline large grain Ni by isothermal annealings method

17 p2755 A71-34194

Prestrain directional effects in steel tension and compression test specimens, noting Bauschinger and work hardening effects

18 p2937 A71-36834

Prestressed thin shells elastic deformation, using Kirchhoff hypothesis of shell theory

19 p3154 A71-37072

Prestressing effect on yield surfaces of Al and Cu thin walled tubes

19 p3079 A71-37705

Creep tests effect on Cr-Mo-V steels mechanical properties during alternating stress fatigue testing, considering preliminary static prestressing

20 p3250 A71-39023

Exact calculations of prestressed networks of arbitrary form and magnitude based on matrix displacement method

21 p3456 A71-40156

Vibration characteristics of cantilever beam about nonlinear equilibrium state, showing flexibility and prestressed state effect

21 p3468 A71-40968

Prior stressing and thermal treatments effect on shock induced substructures in polycrystalline Mo, using transmission electron microscopy

21 p3404 A71-41416

Frequency and buckling stability eigenvalue evaluation for anisotropic circular cylindrical shells under nonuniform lateral prestress

22 p3615 A71-42210

Polycrystalline Ni preloading rate effects on dislocation structure, electrical resistance and flow stress, noting strain hardening mechanism
24 p3837 A71-44675

Prestraining effect on D16 duraluminum corrosion fatigue and tensile strengths
24 p3838 A71-44856

PRETESTS

PRIMARY COSMIC RAYS

NT SOLAR COSMIC RAYS

High energy nucleon passage through lower atmosphere during chemical composition changes of primary cosmic rays, using Proton satellite observations
03 p0476 A71-13851

Primary cosmic ray electrons intensity energy spectrum data, suggesting plots based on electron energy to positive gamma power
03 p0482 A71-14542

Primary cosmic rays heavy ion tracks from balloon-borne emulsion
04 p0641 A71-15368

Primary cosmic ray solar modulation calculations using Trilling formula for response functions and upper limiting rigidity to diurnal variation
06 p0953 A71-18119

Primary cosmic ray electrons energy spectrum measurement at Fort Churchill, examining geomagnetic cut-off rigidity daily variations
06 p0959 A71-18159

Large Z primary cosmic rays charge spectra, using semiautomatic photometer
08 p1350 A71-20953

Primary gamma radiation flux measurement, using spark chamber on satellite
08 p1350 A71-20954

Galactic primary cosmic rays nuclei tracks in meteorite olivine, studying intensity of VH and VVH groups
08 p1351 A71-20961

Primary cosmic ray variations energy spectra on rising and declining solar activity arm, analyzing stratospheric particle intensities
08 p1353 A71-20980

Primary cosmic gamma-quanta fluxes measured using telescope consisting of Cerenkov counters
09 p1513 A71-22556

Antimatter body size determination, using primary high energy cosmic ray flux
09 p1515 A71-23535

Antimatter search in primary cosmic rays by balloon-borne cosmic ray telescope formed from gas Cerenkov detector combined with scintillator elements
10 p1659 A71-23748

Type I fluctuations experienced by extensive air showers generated by protons or heavy nuclei, discussing effect on primary cosmic ray energy determination
10 p1661 A71-23858

Microcraters on Apollo 12 crystalline rocks and breccia surfaces attributed to primary cosmic particles
10 p1673 A71-24427

Planetary distribution of primary cosmic rays and residual charged particles over atmosphere from Cosmos 208 and 228 satellite data
11 p1816 A71-25761

Nuclear component analysis of primary cosmic radiation by Cerenkov spectrometer onboard Cosmos 228 satellite
11 p1817 A71-25780

Cosmic IR sources model based on assumption of cosmic ray particles emitting galactic sources surrounded by dust shells absorbing and reemitting energy
12 p1947 A71-26933

Light flashes in eyes of dark adapted Apollo astronauts, considering Cerenkov radiation effects from primary cosmic ray single charged particles on retinal elements
12 p1933 A71-27383

TeV hadrons lateral energy distributions in air shower cores from Ne hodoscope measurements for

fluctuations between primary energy and shower size, discussing French alpine scintillators array
12 p1951 A71-27386

Electromagnetic longitudinal cascades development numerical treatment based on Boltzmann equation, discussing Monte Carlo computing times for primary energy total electron counts
12 p1933 A71-27387

Surviving high energy primary protons of cosmic ray nuclear bursts in atmosphere without air shower at Chacaltaya
12 p1933 A71-27393

Muon showers underground, considering primary cosmic ray energies greater than 10 TeV
12 p1952 A71-27401

Nuclear emulsion produced cosmic ray jets secondary angular distribution, primary energy and anisotropy
13 p2121 A71-28056

Nucleon-nucleon and meson-nucleon collisions, determining secondary cosmic ray multiplicity dependence on primary particles energy spectra
13 p2121 A71-28057

Extensive air shower size measurements, relating energy spectra to primary energies up to 10 million TeV by calorimetric method
13 p2122 A71-28069

Atmospheric scintillation light detection from air shower, determining interaction mean free path of .1-10 million TeV primary particles
13 p2122 A71-28070

Scintillator array investigation of high transverse momenta occurrence in air showers of primary energy above 1000 TeV
13 p2124 A71-28084

Air shower properties from Monte Carlo simulations, determining electron and muon numbers at sea level for primary protons and copper nuclei
13 p2124 A71-28085

Particle densities and muon spectra at 100-1300 m from sea level extensive air showers axes for primary energies to 10 to 20th eV
13 p2124 A71-28086

Primary cosmic rays mass composition at energy levels above 10 TeV, analyzing muons data from extensive air shower experiments
13 p2125 A71-28094

Muon rich showers, discussing muon density spectrum relation to primary energy spectrum
13 p2126 A71-28099

Primary cosmic ray nuclear component, discussing Cosmos 163 measurements
13 p2128 A71-28547

Primary cosmic rays spectrum and intensity data in 4 to 10 BeV range, evaluating albedo particle effects
14 p2301 A71-30590

Electromagnetic showers triggered in lead by 6 GeV primary cosmic ray electrons, calculating spatial distribution with Monte Carlo method
14 p2302 A71-30594

Primary cosmic ray electron energy and intensity measuring equipment, using Cerenkov and scintillation counters, spark chamber, lead absorber and photorecorder
14 p2247 A71-30598

Electromagnetic showers in lead, using 20 GeV primary cosmic ray electrons to calculate spatial evolution
14 p2302 A71-30603

High energy primary cosmic ray program of Goddard Space Flight Center involving charge composition and energy spectra studies in balloon and satellite experiments
15 p2478 A71-31804

Satellite-borne semiconductor telescope for relativistic heavy primary cosmic rays identification, increasing resolving power by minimum pulse selection method
15 p2407 A71-31806

Mean and standard deviation of fraction of total primary cosmic ray energy losses not measurable by ionization spectrometers
15 p2407 A71-31809

Balloon-borne ionization spectrometer for high energy cosmic ray measurement, discussing calibration and accuracy
15 p2407 A71-31811

Balloon-borne magnetic spectrograph for primary cosmic ray particle trajectory and rigidities measurement
15 p2407 A71-31812

Primary cosmic ray nucleonic component observation by scintillator-Cerenkov telescope on OGO 3 satellite
16 p2628 A71-33932

Underground interactions of primary cosmic ray produced atmospheric muon neutrinos, using large area liquid scintillation detector hodoscope
19 p3105 A71-37288

Primary cosmic ray proton energy spectrum in 50 GeV to 300 TeV range, using Proton 1, 2 and 3 satellite-borne counters
19 p3128 A71-38352

Primary cosmic rays high energy gamma ray intensity spectrometric measurements onboard Cosmos 208 satellite, allowing for charged particles effects
20 p3283 A71-39753

High energy cosmic ray spectrometer onboard Proton 4, discussing ionization calorimeter, nuclear targets, particle charge and radiation detectors and primary measurements
20 p3283 A71-39755

Relativistic primary cosmic rays chemical composition between Be and Fe from charge spectrum obtained with Cerenkov counters
20 p3284 A71-39756

Planetary distribution of primary cosmic rays and residual charged particles over atmosphere from Cosmos 208 and 228 satellite data
22 p3591 A71-41529

Nuclear component analysis of primary cosmic radiation by Cerenkov spectrometer onboard Cosmos 228 satellite
22 p3591 A71-41548

Upper atmospheric primary cosmic ray layer ionization, considering secondary particles, X rays, neutrons, tritons and mesons as ionizing agents
22 p3591 A71-41647

Relative abundances and mass measurements of Li, Be and B isotopes in primary cosmic rays, using balloon flown emulsion stacks
22 p3593 A71-42329

Relative abundances and mass measurements of Li and B isotopes in primary low energy cosmic rays
22 p3593 A71-42339

Primary and secondary cosmic ray muon variations in vertical and zenith angles, determining coupling coefficients
22 p3593 A71-42357

High energy nucleon passage through lower atmosphere during chemical composition changes of primary cosmic rays, using Proton satellite observations
22 p3595 A71-42652

Ultrahigh energy electrons and gamma quanta in ground produced by primary cosmic rays, plotting mean free path vs energy
22 p3595 A71-42669

Underground meson telescope coupling functions calculations, using effective primary threshold energy
23 p3720 A71-43152

Primary cosmic ray and spallation track density distribution in Apollo 12 deep core soil samples
23 p3764 A71-43801

Low energy primary cosmic gamma ray measurements for spectrum latitude dependence and time variations near earth by Cosmos satellite scintillation spectrometer
24 p3865 A71-44564

Pulsar high energy cosmic ray periodic flux detection with favorable interstellar magnetic field configuration along line of sight
24 p3865 A71-44569

High energy gamma quanta flux measurements in primary cosmic rays, using Cosmos 208 satellite data
24 p3866 A71-45026

PRIMATES

NT CHIMPANZEES

Primate restraint harness of nylon jacket and cotton cot on aluminum frame padded seat for bone resorption and calcium metabolism studies
09 p1398 A71-22476

Impulse skin temperature encoding in primate cutaneous thermoreceptors in dynamic thermal conditions
18 p2860 A71-36877

PRIMERS (COATINGS)

Metal-metal bonded structures corrosion resistance improvement by use of primers or Al alloy honeycomb core
10 p1626 A71-24110

Adhesive primers corrosion resistance test methods, noting aircraft design implications
10 p1633 A71-24112

PRINCETON SAILINGS

U SAILINGS

PRINTED CIRCUITS

NT LARGE SCALE INTEGRATION

NT MEDIUM SCALE INTEGRATION

Glass substrates for thin film circuits compared to other materials for properties and suitability, emphasizing surface properties
02 p0230 A71-11816

Masking techniques for printed and thin film circuits and semiconductor devices fabrication
05 p0759 A71-16775

Basket wound and printed circuit moving coil electric and servomotors design characteristics
13 p2000 A71-28794

Electron-optical system with electro- and magneto-static lenses, ensuring large image reduction for producing printed microcircuits
16 p2579 A71-33500

Hybrid circuits thick film technology, discussing printed circuits fabrication processes and electrical and mechanical properties
18 p2888 A71-36224

Commercial production of high reliability components in plane transistors, bipolar integrated circuits and printed circuits technologies

18 p2889 A71-36535

Low power nonpulsating arithmetic unit of 16 bit integer numbers for spaceborne applications, using module printed circuit cards

18 p2886 A71-36570

Complex electronic modules automatic checkout, discussing processing time and cost reduction for large printed circuit logic boards test and diagnostic programs

[ASME PAPER 71-VIBR-115] 21 p3362 A71-40335
Multilayer printed circuit board development, design and production for high reliability and cost effectiveness, emphasizing multidisciplinary communication

21 p3352 A71-40436

Design parameters optimization for flat spiral coils printed on dielectric substrates based on equivalent circuit analysis, emphasizing coil shape effects on Q and inductance

22 p3520 A71-41715

Multilayer printed circuit boards defects detection by temperature field monitoring

22 p3520 A71-41764

Plated through holes interconnection in nine layer phased array antenna printed circuit board, using numerically controlled drilling and plastic encased preform solder system

22 p3525 A71-42765

Printed circuit board components and connections survival under severe vibration and G forces, considering resonant frequency, mounting methods and lead wire strain relief

23 p3652 A71-43538

PRINTED RESISTORS

Ni-Cr thin film resistors reliability, describing deposits on silicon dioxide, intermetallic formation and electromigration

19 p3034 A71-38515

PRINTERS

NT PRINTERS [DATA PROCESSING]

PRINTERS [DATA PROCESSING]

TV display eye movement monitor with automatic coordinate digital printout for permanent record

07 p1053 A71-20402

PRINTING

NT LITHOGRAPHY

Multiple exposure holographic interferometer for static and dynamic photomechanics

03 p0422 A71-13171

High speed magnetic printing apparatus for digital computers, discussing ferrographic process

03 p0382 A71-13819

Standard printing color identification system for DOD mapping, charting and geodesy services standardization

08 p1281 A71-21259

PRIORITIES

Parallel and standby redundancy systems with priority or noninstantaneous switchover, applying renewal theory integral equation

11 p1772 A71-26163

Electronic and electrical systems optimization effectiveness through generation of statistical priorities

22 p3525 A71-41438

PRISMATIC BARS

Test equipment for damping ability of vibration absorbing coatings on prismatic rods under pure bending, using electromagnetic vibration induction system and optical recorder

03 p0396 A71-13417

Thin walled prismatic body resistance to torque by extension of solution for rectangular bars, considering shearing stresses and transverse forces

03 p0505 A71-13542

Euler buckling of hinged slender prismatic bars of rectangular and elliptic cross sections with shear and transverse stress allowance

10 p1685 A71-23959

Hydrostatic extrusion, emphasizing prismatic products fabrication from industrial metals and alloys

14 p2252 A71-30469

Weak discontinuity unloading wave propagation in semiinfinite slender prismatic bar of elastoplastic material

16 p2656 A71-33356

Large deflections of thin piecewise prismatic elastic bars by electronic analog computer simulation

16 p2661 A71-34117

Square cross section prismatic bars transient creep analysis based on strain, time and combined hardening theories

17 p2815 A71-34188

Rectangular composite prismatic bar with T shaped cross section, calculating torsion with summary representation method

17 p2824 A71-34847

Low rigidity stretched prismatic beam bending under tension by force couple

17 p2831 A71-35345

Zero moment reinforced prismatic shells of rectangular cross section with arbitrary load distribution

21 p3472 A71-41146

Elastic stability of prismatic and cantilever bars in torsion

21 p3472 A71-41150

Function construction procedure for ring-shaped structure conformal mapping onto doubly connected regions with simple contours, applying to prismatic rod torsion problem

23 p3776 A71-43419

Algorithm for pure torsion of doubly connected square profile prismatic bars with hole, using R functions and variational technique

24 p3881 A71-44834

PRISMS

NT PRISMATIC BARS

Optical bonding agent for calcite prism on Pioneer F/G mission, emphasizing optical and mechanical properties resistance to Jupiter high energy particles

01 p0081 A71-10835

Gravitational anomaly distributions of rectangular prismatic bodies, using tables

04 p0581 A71-15069

Beam-combining prism/magnifier eyepiece configuration with miniature CRT for superimposing magnified virtual image upon user visual field

04 p0597 A71-15362

Beam splitter prisms with dielectric multilayer coatings

06 p0907 A71-17534

Parallel light beam triangular path interferometer with linear compressive shear effect for flow measurement applications, describing prism system and interference patterns

12 p1905 A71-26816

Diffraction of spherical wave on triangular prism, using reduction by group theory of point sources

12 p1878 A71-26838

Mechanical sterilization and cleansing of Goldmann applanation tonometer prisms contaminated with coliphage, comparing with germicidal immersion

13 p2020 A71-29036

Penta prism angle reduplication by interferometric measurements

14 p2241 A71-30139

PROBABILITY

U PROBABILITY THEORY

PROBABILITY DENSITY FUNCTIONS

NT NORMAL DENSITY FUNCTIONS

NT PEARSON DISTRIBUTIONS

NT RAYLEIGH DISTRIBUTION

NT WEIBULL DENSITY FUNCTIONS

Frequency-wavenumber power spectrum estimators probability distribution, using Gaussian distribution probability density function

02 p0215 A71-12046

Eigenfunction expansions of reduced nonGaussian phase error transition probability density function for first order tracking loop, analyzing spectral properties of Fokker-Planck equation

08 p1324 A71-21341

Distribution curves of F 2 critical frequency variations, considering probability density functions interpretation via asymmetric model

11 p1757 A71-25771

Amplitude-quantized random noise contaminated unknown signal sample, deriving conditional probability density function of combined output error and signal confidence interval

12 p1880 A71-27157

Nonparametric Bayes risk estimation for measurement classification, using nearest neighbor error rate and Parzen probability density function estimators

16 p2602 A71-32822

Digital generation algorithm for random number sequences with specified autocorrelation and probability density function, illustrating computation accuracy and versatility

17 p2719 A71-34745

Probability density function for parameter of exponential measurement model based on structural inference theory, developing prediction densities as life test inferences

17 p2768 A71-35537

Time ordering operators applications to nonlinear unsteady systems, covering stochastic differential equations solution and phase locked loop phase error probability density calculation

18 p2940 A71-36222

Recurrent procedure for probability characteristics analysis of stationary random process, using density functions and Euler equations

19 p3085 A71-37146

Small scale turbulence structure in atmospheric boundary layers over open ocean, noting velocity derivatives probability density function lognormality

19 p3044 A71-37731

Probability density function of optimum phase locked loop synchronizer of sinusoidal signal with white Gaussian noise in partially coherent receiver

20 p3195 A71-38858

Doppler tracking radar systems, obtaining probability density function of Doppler signal amplitude

20 p3200 A71-39907

Distribution curves of F 2 critical frequency variations, considering probability density functions interpretation via asymmetric model

22 p3532 A71-41539

Probability density and distribution functions of clock amplitudes for rectangular IF, determining frequency modulation effect

22 p3513 A71-42386

Random fluctuating longitudinal pressure gradient effect on steady incompressible channel flow for arbitrary power spectrum and probability density

23 p3664 A71-43597

Random processes overshoots, determining probability distributions of overshoot duration and time of first attainment of given level for random sequences

24 p3815 A71-44703

Galactic stochastic magnetic field lines, deriving dynamic equation for probability density function

24 p3871 A71-44902

PROBABILITY DISTRIBUTION FUNCTIONS

Frequency-wavenumber power spectrum estimators probability distribution, using Gaussian distribution probability density function

02 p0215 A71-12046

Statistical analysis of digital data transmission time error distributions in Polish post office and railroad communications network

03 p0380 A71-14375

Randomly used shared communication channels capacity, calculating probability function dependence on frequency assignment policy

05 p0721 A71-16467

Elastic medium residual microstresses probability distribution, noting microdistortion tensor linear and transverse components and tangential and normal stresses relation

06 p1002 A71-18417

Atmospheric turbulence steady random process correlation function, spectral density and probability distribution based on aircraft measurements

07 p1150 A71-18797

Amplitude distribution of nuclear burst electromagnetic pulse propagated through atmosphere, deriving two probability distribution functions by central limit theorem

09 p1410 A71-23524

Steady state photon transfer through homogeneous semiinfinite isothermal atmosphere with two level atoms, deriving linear integral equation for escape probability distribution

10 p1643 A71-24964

Radio noise amplitude probability distribution, considering RMS voltage, average voltage and average logarithm of voltage

13 p2031 A71-28861

Biased angle selection in Monte Carlo shielding calculations, using importance function

13 p2099 A71-29253

Output probability distributions and covariance functions of nonlinear transformations of Gaussian stochastic processes occurring in signal detection and control theory

15 p2379 A71-31822

Ejected photoelectron count probability distribution due to periodic irradiance modulation of amplitude stabilized light beam

15 p2452 A71-32595

Cost distribution theory for various costs of failure, using probability distribution functions for modeling maintainability and reliability

16 p2583 A71-33305

Exact confidence intervals for probability and sampling quantiles of random quantity from beta distribution law

17 p2763 A71-34302

Limits theorems of occupancy problem, concerning asymptotic behavior of random particle distribution to fixed cell with equal probabilities

17 p2764 A71-34574

Recurrent procedure for probability characteristics analysis of stationary random process, using density functions and Euler equations

19 p3085 A71-37146

Fluctuations in parametrically excited subharmonic oscillator, deriving steady state probability distribution for amplitude and phase transitions analogous to Brownian motion of particle in potential well

20 p3203 A71-39094

Statistical fatigue life models, surveying failure probability distributions in reliability studies

22 p3566 A71-42117

Hazard rate functions of systems with identically distributed subsystem failure times in sequential or simultaneous operation

22 p3566 A71-42118

Gaussian errors effect in maximal ratio diversity combiner weighting factors on probability distribution of output SNR

22 p3513 A71-42384

- Probability density and distribution functions of click amplitudes for rectangular IF, determining frequency modulation effect 22 p3513 A71-42386
- Extensive air shower electron and muon components at mountain levels, calculating probability distribution functions by Monte Carlo technique 22 p3595 A71-42662
- Electric circuit component failure prediction and probabilistic distribution in troubleshooting search 23 p3638 A71-42900
- Damped exponential cosine probability distribution function for clipped waveforms of voiced speech signal 23 p3645 A71-43439
- Random processes overshoots, determining probability distributions of overshoot duration and time of first attainment of given level for random sequences 24 p3815 A71-44703

PROBABILITY THEORY

- Solution search strategy optimization by analytic graphic techniques for problem with several approaches involving Bernoulli type trials 01 p0110 A71-10088
- Partial differential equations finite difference approximation, applying convergence theorems with probabilistic method 01 p0111 A71-10318
- Probability method for gyroscope instrumental errors associated with inaccurate fabrication and components assembly, classifying external moments 01 p0800 A71-10534
- ATC system improvement by procedural changes, applying probability concepts to flight safety 02 p0278 A71-11699
- Monograph on visibility of satellite in elliptic orbit covering probabilistic aspects, communication, navigation, weather, reconnaissance and scientific satellites 02 p0319 A71-11970
- Optical scatter channel transmission characteristics, using mathematical model consistent with radiative transfer theory and probability-computing receiver 02 p0249 A71-12012
- Radar signal probability ratio over finite interval 02 p0219 A71-12620
- Maximum likelihood estimation algorithm for arrival direction of narrowband signal under correlated noise 04 p0550 A71-14618
- Increase approximation of estimation errors covariance between discrete measurements due to random forcing function uncertainty 04 p0561 A71-15869
- Random graphs probabilistic characteristics, deriving algorithms for graph connectivity probability estimation 05 p0731 A71-16795
- One dimensional Markovian process residence probability in region with variable boundaries 05 p0732 A71-17021
- Extraterrestrial civilizations, discussing probability theory and radio communication 06 p0852 A71-17739
- Soviet papers on statistical and probabilistic weather forecasting covering computerization problems, atmospheric circulation, correlation methods, etc 07 p1150 A71-18870
- Probabilistic weather forecasts reliability estimation 07 p1150 A71-18871
- Admissible translations of probability measures on sigma algebra of Borel sets of Hilbert space 07 p1147 A71-19200
- Bit error probability estimation from sync word error rate data 07 p1062 A71-19538
- Three element model for choice behavior binary prediction consisting of logical, experiential and error components 07 p1048 A71-19595
- Probability theory for viable microorganism exposure in fractured contaminated solid, using quantum response model 07 p1048 A71-19600
- Perceived and responded to discriminative stimuli identification in probability learning, using parameter free model of event pattern association strength 07 p1049 A71-19775
- Gas laser optical pumping based on photodissociation, calculating spatial temporal distributions of pump radiation absorption probability and main level population 07 p1125 A71-19806
- Lightning stroke probability model for point selection on aerospace vehicles 07 p1020 A71-19928
- Two phase mixture spark ignition dynamics, investigating probabilistic character and ignition energy 07 p1224 A71-20068
- Complex human memory processes large scale simulation/cybernetic modeling/ based on information handling probability and retrieval 07 p1050 A71-20105

- Mercury spin orbit resonance probability computation, making a priori assumptions for long term orbital variations, tidal torque and equatorial asymmetry 07 p1203 A71-20521
- Book on probability theory and applications covering stable distributions, renewal theory, large numbers laws, central limit theorem, Markov processes, random walks, etc 08 p1325 A71-21655
- Probabilistic estimate of aerodynamic imbalance of aircraft gas turbine rotors due to production errors in compressor blade angle 08 p1349 A71-22045
- Shaped beam radiation patterns synthesis by iterative sampling method with line sources or uniformly spaced antenna arrays 09 p1409 A71-23493
- Theory of form based on geometric probabilities, leading to two dimensional retinal type computer programmed to exhibit elementary form perception aspects 10 p1567 A71-23997
- Meteor trails ionization probability determination based on data since 1948, comparing results of theoretical, semiempirical, experimental and simulation method 10 p1669 A71-24031
- Probability of quasi-chemical reactions between point defects in semiconductors due to ionizing radiation 10 p1655 A71-24139
- Signals temporal uncertainty and sensory modality influence on watchkeeping performance, discussing signal density effect on pulses duration increments detection 10 p1568 A71-24183
- Uncertainty factors in management decisions and operations optimization in international air transportation industry 10 p1698 A71-24265
- Structural inference theory applied to stochastic processes class characterized by gamma-distributed interarrival times, deriving conditional probability mass function for process counting variable 11 p1791 A71-25251
- Second order probabilities and strictly proper scoring rules in weather forecasting, discussing subjective judgment role in forecasting processes 11 p1793 A71-25376
- Misconceptions and distortions in n dimensional covariance matrices interpretation regarding probability confidence levels to error ellipsoid and hyperellipsoid 11 p1791 A71-25485
- Fatigue failure probabilistic model under variable amplitude loading, considering relation between safety factor and fatigue failure probability 11 p1848 A71-25492
- Probability theory application to entropy and conductivity matrices 12 p1986 A71-26960
- Statistical estimation techniques for error probability of digital communication systems 12 p1880 A71-27145
- Burst-like signal detectability evaluation in terms of optimum detector performance and probability theory 12 p1882 A71-27442
- Probability characteristics of glass/epoxy plastics mechanical properties, considering tangential and axial tensile and bending strength, modulus of elasticity, buckling and compression strength 13 p2092 A71-28653
- Probabilistic cyclic queue model of overhead time and channel utilization in multiprogrammed computer systems under demand memory paging 13 p2035 A71-28973
- Closed-loop control of discrete time systems with uncertainty, discussing minimax reachability of target sets and tubes 14 p2219 A71-29698
- Book on dynamic probabilistic systems, Volume 1, covering Markov models, linear processes, systems analysis, statistics, recurrent events, population models, time variations, etc 15 p2440 A71-31196
- Book on dynamic probabilistic systems, Volume 2, covering semi-Markov and decision processes 15 p2440 A71-31197
- Probabilistic methods for solving ATC and navigation problems, considering stochastic processes theory 15 p2445 A71-31463
- German textbook on fundamentals of thermodynamics covering energy conversion, reversible/irreversible processes, chemical/molecular thermodynamics, statistical analysis, probability theory, etc 15 p2516 A71-32767
- Human inferences based on partially reliable reports, studying likelihood ratio estimates and probabilistic relations in nature 16 p2534 A71-33103
- Stationary narrow band Gaussian vibration excursion probability based on Markov point process [ASME PAPER 71-APM-19] 16 p2655 A71-33210

- Hybrid computer use for dynamic system probabilistic modeling, determining hydraulic actuator output statistics 16 p2549 A71-33295
- Information model for simulating systems reliability estimates uncertainty, noting state transition matrix, methodology and sensitivity analysis of effectiveness 16 p2583 A71-33304
- Probabilistic approach to prolonged lifetime design and static strength of structures of monocoque and multispar wings, using fatigue characteristics of individual elements 16 p2657 A71-33604
- Kolmogoroff differential equations for probabilities of system states, showing validity for Markovian random processes and processes with aftereffects 16 p2603 A71-33891
- Uniform convergence of frequencies of events in independent tests sequence to probabilities of occurrence 17 p2764 A71-34573
- Linear dynamic system recursive state estimation for set-membership description of uncertainty under unknown input disturbances and observation errors 17 p2718 A71-34734
- Additional redundancy in information transmission systems with feedback to reduce error probability due to incorrect addressing 17 p2702 A71-34975
- Upper bound on error probability due to intersymbol interference for correlated and uncorrelated digital signals, presenting examples for data communication systems 17 p2703 A71-35077
- Measurement uncertainty effects in linear multistage games, considering state variables construction from player measurement sequences 17 p2767 A71-35298
- Computer simulation of error probability performances of binary coherent PSK system under thermal noise and intersymbol and interchannel radio interferences effects 17 p2707 A71-35476
- Binary differentially coherent PSK modulated PCM radio link performance under noise and intersymbol and interchannel interferences effects, deriving error probability 17 p2707 A71-35477
- German monograph on nonlinear distortion correction of binary bipolar signals in Gaussian noise covering receiver, decision theory and error probabilities 18 p2874 A71-35959
- Beam column with probabilistic material and geometric properties, axial loads and boundary conditions, obtaining free vibration and natural frequency stochastic equations 18 p2979 A71-36358
- Adaptive frequency selection for reduction of effects of noise differing irregularly from useful pulse signals, estimating error probabilities 18 p2882 A71-36622
- Image parameters identification and estimation problems /in learning without teacher/, deriving error variance lower bounds and spurious solution probabilities 19 p3024 A71-37225
- Helium-like ion forbidden line emission and transition probabilities, deriving solar densities in active regions 19 p3136 A71-37621
- S-N curve and structural failure probability due to combined random and primary loads based on mathematical model 19 p3157 A71-37847
- Probabilistic weather forecasting for temperature and precipitation, examining feedback and prediction evaluation 20 p3256 A71-39203
- Meteorological prediction from joint frequency of initial and final weather elements conditions, developing conditional probability models from bivariate normal distribution tables and Markov process 20 p3256 A71-39204
- Thermodynamics and statistical mechanics of low temperature physics, including entropy, probability, energy spectra and gas liquefaction 20 p3270 A71-39240
- Binary systems formation probability during triple encounters, considering random initial conditions 20 p3290 A71-39301
- Cumulative probability of target detection for pulse surveillance radars, relating target cross section, velocity and radar frame 20 p3199 A71-39901
- Probabilistic behavior of repairable two-state systems, assuming reliability measurability by operating time 21 p3407 A71-40362
- Generalized reliability function for systems of arbitrary configurations, using path enumeration approach based on probability theory 21 p3407 A71-40369

Molecular beam extraction from equilibrium gas flows, describing shock beam formation model with associated escape probability 21 p3419 A71-40956

Probability approach to visual effectiveness of signal flashing lights, showing graphically Broca-Sulzer effect 22 p3498 A71-41485

Error probability during diversity reception under random radio noise 22 p3510 A71-42253

Signal design and error rate of impulse noise channel, analyzing error probability of smear-desmear and standard data channels through Rice integral evaluation 22 p3513 A71-42381

Two dimensional probabilistic images generation and statistical characteristics determination, noting application to psychophysiological experiments 22 p3518 A71-42422

Exact test particle propagator of Lenard-Bernstein equation for magnetoplasma, applying to transverse plasma echoes 22 p3584 A71-42466

Single channel queueing system with Poisson input and waiting time dependent mass servicing time, deriving arrival number probabilities generating function 22 p3527 A71-42491

Probabilistic system observation at random times, calculating Markov renewal processes optimal long run control 22 p3527 A71-42628

Actual navigation dispersions, estimation uncertainties and resultant Mars orbit insertion statistical delta V requirements for six Mars approach angles in 1977 Mars window [AAS PAPER 71-323] 23 p3726 A71-42997

Probabilistic analysis of random pulse signal gating on time selective zero lag converter with rectangular pulse input 23 p3647 A71-44322

Waiting time distribution in computer controlled queueing system with Poisson input, deriving formulas on basis of total probability and Markov chain theory 24 p3806 A71-44654

Nonlinear control system optimal synthesis by statistical criteria, discussing probability and likelihood function 24 p3813 A71-44682

Linear control system optimal weighting function determination from maximum probability for system output 24 p3814 A71-44687

Cylindrical space simulation chamber with spherical test subject, deriving molecular incidence rate from integral equations with probability matrix for finite partial surfaces 24 p3816 A71-45138

Near circular orbit elements determination as functions of spacecraft initial speed and coordinates deviation by mathematical expectation procedure 24 p3876 A71-45317

PROBES

High input impedance wideband frequency measurement probe with bipolar and unipolar transistor circuits 01 p0051 A71-10284

Mechanized ultrasonic inspection probes with high stable dynamic acoustic coupling coefficient, high sensitivity and wear resistance and low coupling fluid expenditure 09 p1450 A71-22897

HF rake probes with high temperature integrated sensor for inflight aircraft engine intake air flow distortion measurements 14 p2243 A71-30321

Aerodynamic probes for determining flow state of high enthalpy hypersonic flow fields, considering pitot pressure, total enthalpy and current density 18 p2921 A71-36414

PROBLEM SOLVING

NT ASYMPTOTIC METHODS

NT ITERATIVE SOLUTION

NT THEOREM PROVING

Solution search strategy optimization by analytic graphic techniques for problem with several approaches involving Bernoulli type trials 01 p0110 A71-10088

Q approach to problem solving applied to partial derivatives determination on digital computer, discussing approach structure and characteristics 01 p0048 A71-10221

Initial value or boundary value problems in mathematical physics, solving by process of condition elimination 05 p0780 A71-16178

Neumann problem for Helmholtz equation in complex configuration region, developing variational solution method 05 p0782 A71-16884

Thermoelasticity equations solutions for special cases 09 p1535 A71-22259

Human operators performance under control problem programs, determining training and fatigue effects 09 p1398 A71-22483

Boundary value problem for Laplace equations, noting conditions for convergence of solutions sequence 17 p2765 A71-34867

Generalized finite Hankel transform method for engineering problems with complicated boundary conditions 20 p3255 A71-39034

Strategies and tactics for industrial R and D problems selection and solution for products innovation, noting element of chance 24 p3891 A71-44364

PROCEDURES

NT FINITE ELEMENT METHOD

NT OPTICAL CORRECTION PROCEDURE

Standard equipment and procedures for aircraft gas turbine engine exhaust smoke measurement [ASME PAPER 71-GT-88] 11 p1813 A71-25995

PROCESSORS [COMPUTERS]

U CENTRAL PROCESSING UNITS

U COMPUTERS

PROCUREMENT

NT GOVERNMENT PROCUREMENT

Flight simulators procurement and commissioning, discussing difficulties due to different aircraft configurations, advantages of equipment and procedures standardization, etc 01 p0066 A71-10015

Risk assessment associated with reliability demonstration testing, considering fixed price procurement and cost effectiveness 12 p1910 A71-26677

Cost effectiveness of reliability screening program from parts procurement through system test, using experience with attack radar for F-111 aircraft 12 p1885 A71-26683

Government and public agencies procurement policy evolution from legal obligations to economic impact consideration 23 p3786 A71-43464

PROCUREMENT MANAGEMENT

Shillelagh missile reliability program development, deployment using part qualification levels and fly-before-buy procurement 12 p1885 A71-26684

PRODUCT DESIGN

U PRODUCT DEVELOPMENT

PRODUCT DEVELOPMENT

NT WEAPONS DEVELOPMENT

Search procedures selection from heuristic methods of solving design development problems by computer 01 p0087 A71-10408

Technological forecasting by evaluating patent significance, applying to earth moving equipment development 02 p0335 A71-11858

Long term planning of technological and scientific development of machine design and construction on national industrial and enterprise levels 02 p0336 A71-11860

M49 Larzac turbopfan engine, describing design, development, performance data, manufacturing techniques, operation and maintenance 02 p0299 A71-12607

Black Brant 3B sounding rocket design and development, discussing payload capability, static and dynamic stability, flight and ground handling loads [AIAA PAPER 70-1396] 03 p0499 A71-13677

Turbomachinery R and D to improve components and engine performance 03 p0470 A71-13824

BD-1 Yankee aircraft development, design and construction 07 p1018 A71-19084

Microwave plasma device development, noting beam plasma amplifiers and quiescent source 07 p1167 A71-19257

Tools production and shaping for extrusion of light metal profiles 10 p1619 A71-25032

Glass fiber reinforced plastics reinforcement techniques, emphasizing E glass filament manufacture, properties, advantages and products 11 p1788 A71-25653

Vertical straight lift turbojet engine design and development, presenting component materials properties/weights, endurance tests and performance data [ASME PAPER 71-GT-75] 11 p1813 A71-25989

Air Force development programs with graphite reinforced composites, discussing matrix materials and cost and weight savings [ASME PAPER 71-DE-13] 12 p1921 A71-27323

Olympus 593 pure jet twin shaft engine development program for Concorde, discussing engine evolution, design considerations and flight development [SAE PAPER 710422] 13 p2114 A71-28309

Commercial aircraft powerplant development, discussing engine and components test programs and techniques [SAE PAPER 710449] 13 p2114 A71-28327

DC-10 wide body tri-jet aircraft design and development, considering sizing, number of engines and thrust optimization and selection of cruise, approach and stall speeds [AIAA PAPER 71-780] 17 p2674 A71-34525

Phonocardiograph design and calibration for accurate measuring and recording of cardiac vibration displacements, velocities and accelerations 19 p3005 A71-37231

Electronic component products improvement history, discussing electron tubes, future trends and reliability 19 p3027 A71-37345

Synthetic materials technology development, discussing macromolecular materials synthesizing methods and properties 19 p3085 A71-38144

Gas lasers, discussing engineering developments for size and cost reduction, reliability, long life and high power 19 p3074 A71-38227

European research, development and production of solar cells, discussing Intelsat 4 program applications 20 p3179 A71-38851

Low cost high performance rate gas bearing gyroscope development, emphasizing large scale production and overall instrument design optimization 22 p3551 A71-41664

Synthetic fibers and plastics development, chemical composition, physical and mechanical properties, production growth rates and applications 23 p3696 A71-43107

Strategies and tactics for industrial R and D problems selection and solution for products innovation, noting element of chance 24 p3891 A71-44364

NASA program fire safety goals, discussing development of nonflammable materials covering fibrous asbestos, glass, polyimides, Teflon, metallics and halogenated materials [AIAA PAPER 71-1011] 24 p3841 A71-44595

PRODUCTION ENGINEERING

NT PRODUCTION PLANNING

Automated machinery for reinforced plastic structural products manufacture by filament winding [SME PAPER EM-70-135] 01 p0089 A71-11261

Aircraft assembly accuracy parameters, using holes as reference points 02 p0257 A71-12564

Bench-line product assembly analysis, calculating rhythm, cycle and required number of workers 02 p0257 A71-12567

Niobium processing methods from economic standpoint, describing pyrochlore metallurgical reduction 02 p0271 A71-12938

Soviet book on aircraft construction technology covering parts fabrication, protective coatings, production automation, etc 03 p0433 A71-14399

Group and form classification of production errors and tolerances in aircraft construction 04 p0602 A71-14610

Numerical control automation in aircraft bearing production for small batch runs 04 p0603 A71-15672

Solar cell module joints welding technology development under ESO sponsorship, emphasizing resistance welding and process optimization 05 p0704 A71-16095

Aerospace industry engineering company management and marketing, discussing corporate strategy, production control, market analysis and professionally trained managers 05 p0840 A71-17148

Sheet blanks shaping into conical products by rolling, discussing stress-strain state in blank and time dependent rolling process 06 p0906 A71-18711

Mathematical model of small scale versatile aircraft component production process, developing computer production optimization algorithm 06 p0906 A71-18715

Quality management planning for 1970s, discussing reliability, maintainability and production quality programs 07 p1225 A71-19558

Nondestructive testing in product cycle in aerospace industry 07 p1118 A71-19949

Map preparation techniques and cartographic design for cost reduction and production speeding 08 p1280 A71-21247

Ti alloy powders and Ti-base refractory compounds production from Ti alloys wastes 08 p1317 A71-21856

Ti-Mo alloys porous materials for work in hot solutions of nonoxidizing acids, discussing production technology and corrosion resistance 08 p1317 A71-21857

Steady multifiber winding process conditions in compact glass fiber packing for glass fiber reinforced plastic tubes 09 p1482 A71-22817

High temperature steel and alloys metallurgical processes for stationary and aircraft gas turbine engine components, discussing production-quality control-research interrelationship

09 p1456 A71-23301

Quality assurance in Ti and Ti alloys processing, discussing smelting, ingot homogenization staging, costs and facilities

09 p1456 A71-23303

Carbon dioxide production laser for automatic resistors trimming without current carrying capability reduction, noting accuracy, flexibility and speed

09 p1465 A71-23405

Processing variables effects on epoxy adhesive joints fracture toughness and crack extension resistance

10 p1632 A71-24089

Contoured silicone internal pressure bag mandrels for helicopter rotor blades fabrication

10 p1615 A71-24096

Relativity of nondestructive testing as related to production effort, reviewing structural adhesive bonding in U.S. for past ten years

10 p1616 A71-24106

Brittle materials ultrasonic machining, discussing abrasive particle shape, size, temperature and pressure effects on process accuracy, speed, quality and efficiency

10 p1617 A71-24133

Ultrasonic cleaning by cavitation disintegration of highly adhesive surface coatings, discussing cleansing liquid, field parameters and external static pressure effects on process efficiency

10 p1617 A71-24135

Powder metallurgy superalloy parts, discussing production methods and mechanical properties comparison with conventional process products

10 p1618 A71-24763

Three dimensional isostatic pressing process, discussing equipment, tooling and forging preforms and finished parts production

10 p1618 A71-24764

Spark sintering powder metallurgy using alternating and direct current plus pressure, discussing use in Be components production for aerospace applications

10 p1618 A71-24765

Refractory metals and alloys products fabrication for aerospace applications, discussing hydrostatic bulge forming and aluminide coating in Nb alloy nozzle extension production

10 p1618 A71-24766

Space shuttle vehicles and assembly flow manufacturing, development and operations requirements, including ground rules, verification test facilities, cost reduction and interrelationships

[AIAA PAPER 71-316]

10 p1590 A71-24831

Tools production and shaping for extrusion of light metal profiles

10 p1619 A71-25032

SVAM glass reinforced plastics production and properties, discussing drawing, coating and forming oriented laminate on drum

11 p1784 A71-25396

Winding equipment for continuous production of large diameter cylindrical filaments of reinforcing materials and polyester resins

11 p1768 A71-25418

Plastics mold design improvements, discussing steel quality, guiding/heating systems, surface finish and chrome plating

11 p1768 A71-25432

Electroluminescent semiconductor diodes based on GaP and GaAlAs, discussing design, properties, uses and production

11 p1737 A71-25569

Electron beam welding machine reducing number of fabrication variables during final assembly procedure in thermionic converters fabrication, discussing UHV systems

11 p1709 A71-25866

Metal matrix composite fabrication procedures for gas turbine engine fan blades, stressing diffusion bonding process susceptibility to blades volume producibility

[ASME PAPER 71-GT-46]

11 p1770 A71-25979

Total reliability requirement procedure for design, development and production of medium- and large-scale integrated circuits

12 p1884 A71-26660

Optimal reliability proposals for industry competitive posture improvement in difficult market environment, recommending military electronics reliability standards specification

12 p1909 A71-26669

Reliability assurance in product manufacturing, discussing specific tasks during design, preproduction and production phases

12 p1910 A71-26672

Filament winding techniques for glass fiber reinforced plastics, discussing processes, configurations and materials for achieving optimum strength

12 p1920 A71-27011

Human position in socialist productive system, examining pedagogical aspects of leadership

13 p2019 A71-28491

Book on electron beam welding covering generation and control, thermal effects, techniques and equipment, metallurgical and mechanical properties, etc

13 p2074 A71-28736

Book on fusion welding covering workshop problems, production processes, miniature casting and resistance welding techniques

13 p2076 A71-29444

Advanced plastic composites fabrication and processing techniques, using resins, reinforcements and fillers

14 p2263 A71-29653

Complex structural aircraft components manufacture, using group technology principle based on subdivision of parts classes

14 p2252 A71-30267

Ti alloy powders and Ti-based refractory compounds production from Ti alloy scrap, describing electrorefining, hydrogenation and carbidization processing

14 p2260 A71-30835

Porous Ti-Mo alloy materials for operation in hot solutions of nonoxidizing acids, discussing production technology and corrosion resistance

14 p2260 A71-30836

Cost optimization for solar generator thermobatteries by selecting temperature, contact resistance, material parameters and fabrication technology

15 p2351 A71-31671

Titanium carbide based cermet materials with alloy steel binder, investigating production conditions, hardness, machining and quenching properties

15 p2429 A71-32139

Truncated sequential test for production models based on preproduction testing with allowance for unequal sample sizes

15 p2416 A71-32344

Multilevel supply system operationally ready aircraft number evaluator based on item stock levels, demand rates and repair/resupply times

15 p2516 A71-32700

Aircraft industrial cleaning agents, processes and techniques applied to components in course of manufacturing and assembly phases, emphasizing emulsion and alkaline methods

[ASM PAPER C70-4.3]

16 p2584 A71-33542

Production efficiency prerequisites in extruded Al alloy products manufacture, discussing billet material and processing conditions effects

16 p2584 A71-34091

Modular manufacturing for F-14 aircraft at low cost using end product configuration reducing final assembly

16 p2585 A71-34157

Commercial production of high reliability components in plane transistors, bipolar integrated circuits and printed circuits technologies

18 p2889 A71-36535

Communication satellite components reliability assurance method, discussing production and qualification tests

18 p2890 A71-36538

Aircraft jet engine application of electric discharge machining for repetitive continuous production, considering automated closed cycle equipment

[SME PAPER MR-71-143]

18 p2927 A71-36658

Semifinished product production technology influence on heat resistant alloys mechanical properties, considering forging, rolling, casting, melting, diffusion welding and powder metallurgy

18 p2937 A71-36725

Scanning electron microscope for poor metallization detection in manufacturing cycle of semiconductor devices

19 p3034 A71-38519

Multilayer printed circuit board development, design and production for high reliability and cost effectiveness, emphasizing multidisciplinary communication

21 p3352 A71-40436

Beam-lead technology application to complementary MOS IC processing

21 p3357 A71-40814

Masking techniques in monolithic IC production in microelectronics, emphasizing contactless, lens, holographic and electron beam projection methods

22 p3525 A71-41713

Active digital and proportional fluidic devices design and manufacture including turbulence, wall-attachment, focused jet, beam deflection and vortex amplifiers

22 p3483 A71-42783

Quality control organization in British spacecraft projects, discussing material selection system and subsystem tests, process engineering and inspector training

23 p3681 A71-43470

Molins 24 integrated automatic complete-processing system for small light-metal parts, using numerically controlled machine tools integrated with palletized feeder system

23 p3681 A71-43473

Material properties, metallurgy, production technology and operational factors effects on machinery structural strength

23 p3779 A71-44207

PRODUCTION MANAGEMENT

Control reliability in automated system of discrete production management

17 p2721 A71-34961

PRODUCTION METHODS

U PRODUCTION ENGINEERING

PRODUCTION PLANNING

Production startups deviation from increased productivity anticipation patterns, noting management actions minimizing losses

05 p0840 A71-16742

Service support for hardware engineering models from breadboard to preproduction stages, determining spare parts location, quantity and cost requirements

09 p1430 A71-23477

System effectiveness tasks of producibility analysis, maintainability evaluation and tradeoff studies

16 p2664 A71-33316

PRODUCTIVITY

Production startups deviation from increased productivity anticipation patterns, noting management actions minimizing losses

05 p0840 A71-16742

Powder form structural adhesives for cost reduction and increased productivity

10 p1614 A71-24066

Commercial spinoff from government sponsored R and D, considering productivity and industry benefits

14 p2342 A71-31133

Negotiations of BEA/BOAC productivity agreements in aircraft industry

18 p2926 A71-35924

Astronaut teleoperators use for space operations cost reduction and future experiments productivity increase

22 p3503 A71-42033

Defense and aerospace industry demand cyclical variations effect on productivity growth and cost

22 p3624 A71-42525

PRODUCTS

Product test duration and extent from reliability theory viewpoint

05 p0759 A71-16725

PROFICIENCY MEASUREMENT

U HUMAN PERFORMANCE

U PERFORMANCE TESTS

PROFILES

Plane linear cascades of thin curved profiles, obtaining potential flow velocities and lifting force on leading edge

01 p0001 A71-10339

Steady nonrotational flow around rectilinear profile in finite width uniform current in linear theory, calculating fluid exerted forces

10 p1549 A71-23822

Body profile low frequency oscillations in transonic gas flow, investigating nonlinear differential equation boundary value problem by approximation method

10 p1550 A71-24363

Transonic gas flow around profile, proving uniqueness of Frankl solution

13 p1993 A71-29221

PROGNOSIS

Meteor-reflected radio wave propagation diurnal and annual variations prognosis, discussing indispensability of incident meteor particle velocity and density distributions

10 p1669 A71-24034

PROGRAM MANAGEMENT

U PROJECT MANAGEMENT

PROGRAMMED INSTRUCTION

Differential equations of thermodynamics presentation to engineering students in form suitable for programmed study

03 p0518 A71-13526

PROGRAMMING

NT QUADRATIC PROGRAMMING

Space vehicle trajectories, discussing programming method to control motion for prescribed boundary conditions

03 p0495 A71-14236

Optimal control problems, applying direct mathematical programming to linear, nonlinear, continuous and discrete time, deterministic, stochastic and distributed parameter systems

11 p1792 A71-26419

Convergence characteristics of sequential and combined conjugate gradient restoration algorithms for mathematical programming, studying constrained function minimization

17 p2764 A71-34520

Soviet papers on mathematic methods application in programming covering optimal control, game theory, impact problems, thermoelastic waves, etc

22 p3526 A71-41908

Computerized system redundancy optimization formulation as zero-one type variables integer programming problem, obtaining algorithmic solution for maximum reliability

22 p3517 A71-42106

PROGRAMMING (SCHEDULING)

NT THRUST PROGRAMMING

Electron beam welding system, discussing solid state controls, programmed operation and type and thickness of welded materials

01 p0087 A71-10451

Linear system programmed maxmin transfer time problem solvability, investigating control process theory with time inversion
12 p1931 A71-27523

PROJECT MANAGEMENT

Error model and digital computer simulation programs for technical management of missile development and testing
01 p0068 A71-10883

Data transmission/acquisition/processing systems engineering project management using digital simulation models
01 p0184 A71-10885

Rational structure selection for scientific research organizations, using systems analysis
02 p0335 A71-11855

Computer aided network analysis for multiple project planning facilitating readjustments and budgeting
02 p0336 A71-12122

Skyнет project UK and U.S. cooperation, discussing system scope, coordination, contract placing and PERT critical path analysis in management planning
02 p0337 A71-12427

Radio frequency interference project control responsibilities and teamwork, noting communication transmitter design example
03 p0383 A71-13177

Defense and space programs management systems, discussing structured activities planning for efficient resources use
[ASME PAPER 70-WA/MGT-5] 03 p0524 A71-14097

NASA multiple interagency interfaces, surveying work and resource integration, space programs and agency structure
04 p0690 A71-14937

Aerospace systems project management using graphic networking critical path method for planning and control
04 p0691 A71-15293

U.S.-Europe cooperative space programs survey and experience from project management with ESRO-1 satellite
04 p0692 A71-15349

Europa 3 experimental preparatory program, discussing hardware development and project management planning and control
[DGLR-70-064] 05 p0839 A71-15949

R and D management decision making process structural model, discussing technological forecasting based on organized technical information, quantized judgments, optimum resource allocation and hybrid technique
05 p0840 A71-16744

F-15 air superiority fighter, describing military requirements, program management and procedures in terms of speed, maneuverability, acceleration and weaponry
07 p1018 A71-19078

Integrated project information and simulation system for management of aerospace vehicle development, discussing simulation models application
[AIAA PAPER 71-238] 07 p1225 A71-19714

Power spectrum in project management of matrix organizations involving support personnel cooperation
07 p1225 A71-20014

Civil Engineering Systems Laboratory remote terminal interactive time sharing computer facility, discussing consulting engineer design office experiences and computing center management
09 p1412 A71-23277

Research and development project funds allocation, developing mathematical dynamic modeling method for cost management
10 p1699 A71-24539

Failure prevention, test discrepancy reporting and circuit analysis workshop techniques for program audits, integrating reliability managers, performers and customers
12 p1910 A71-26670

Statistical decision theory in reliability and project management, discussing Venus probe loss
12 p1911 A71-26690

Aircraft industry materials development, discussing innovations in governmental programs management, procurement specifications and Department of Defense contracting procedures
12 p1918 A71-27677

Costs-reliability relationships in helicopter development testing and demonstration, emphasizing decision making in program management
[SAE PAPER 710452] 13 p2167 A71-28330

Logistics planning as integral part of phased program planning process, considering preliminary analysis, definition, design, development, fabrication, test and operations phases
13 p2167 A71-28895

Organization and funding criterion of unsuccessful R and D projects, considering project abandonment or failure
14 p2340 A71-29854

Mathematical programming models for resource allocation and project selection decision in R and D
14 p2340 A71-29855

Satellite auxiliary electric propulsion systems survey for program managers and systems engineers, considering cost and component reliability
[AIAA PAPER 71-685] 14 p2292 A71-30747

Criteria for converting aeronautical project operational targets into actual requirements and technical specifications, emphasizing cost effectiveness
14 p2177 A71-30824

Skylab program organization and management, system design, operations and equipment
15 p2499 A71-31457

Safety engineers integration into overall system through basic development programs, involving management, manufacturing, testing and integrated logistic support
16 p2664 A71-33309

Earth remote sensing in Brazil, discussing program organization and data acquisition related to NASA environmental resources technology satellites
16 p2570 A71-33826

Earth orbital space stations modular design, discussing space shuttle use, crew training and program management
[AIAA PAPER 71-824] 17 p2812 A71-34721

Administrative techniques of cost/weight tradeoff program for jet transport airplane
[SAWE PAPER 899] 17 p2750 A71-35812

Reliability in key project decision making, including failure mode/effect analyses, design tradeoff, baseline meetings, hardware storage and data bases
18 p2926 A71-36491

Parallel strategies effectiveness in R and D projects, discussing learning rate as critical parameter in project management decision making process
19 p3173 A71-37629

Optimal investment model for R and D project evaluation and selection, using discrete cash flow and linear programming techniques
19 p3173 A71-37630

International cooperation in aerospace projects, discussing Concorde program organization
22 p3623 A71-42011

Economic analysis effect on R and D projects choice, assessing Space Shuttle system
22 p3624 A71-42526

Space program management - Conference, Paris and Neuilly-sur-Seine, February 1970
23 p3784 A71-43451

Large project management model, presenting schematic diagrams for nature and interrelation of functions
23 p3784 A71-43452

Program management techniques, discussing organization, planning, systems engineering and personnel selection
23 p3785 A71-43453

Project management methods oversophistication, discussing French space activity and managerial apprenticeship
23 p3785 A71-43454

International HEOS project organization, discussing communication, task delegation, decision making and structure
23 p3785 A71-43455

Organization problems of research laboratory for space astronomy experiments, delineating roles of chief scientist, project manager and technical services
23 p3785 A71-43456

Management information techniques, discussing project reports, meetings, decision process, work breakdown, planning schedules and computerization
23 p3785 A71-43457

Space project management techniques under European conditions, covering requirements, style, motivations, concepts and rules
23 p3785 A71-43458

Industrial project management, defining functions and responsibilities of program director, contractor, subcontractor and manufacturer
23 p3785 A71-43460

Industrial project management executive work team for space programs, emphasizing responsibilities of prime contractor
23 p3786 A71-43461

Nuclear test program management, considering reliability problems, delays and cost
23 p3786 A71-43462

Multinational consortiums of industrial firms from member states for ESRO satellite programs
23 p3786 A71-43463

Project management by contractual procedures for ELDO space research
23 p3786 A71-43466

Project management quality control factors learned from Diamant A satellite launching vehicle and French military programs
23 p3786 A71-43469

Quality control organization in British spacecraft projects, discussing material selection system and subsystem tests, process engineering and inspector training
23 p3681 A71-43470

NASA NHB reliability engineering provisions for aeronautical and space system contractors, considering criteria for program management, system engineering, manufacturing and facilities
23 p3682 A71-43497

Technology transfer management, distinguishing between active and passive pursuit of technology, catalyst and vertical and horizontal transfer
[AIAA PAPER 71-1008] 24 p3891 A71-44593

PROJECT PLANNING

Canadian program of remote sensing for gathering information on earth resources and environment
16 p2566 A71-33749

PROJECTED AREAS

U AREA

U PROJECTIVE GEOMETRY

PROJECTILE CRATERING

Thin plate impact and plastic nonperforating deformation by blunt projectiles
07 p1209 A71-19045

Spherical head projectiles collision with hemispherical shells and square plates with and without protective covering, calculating stress distribution
12 p1976 A71-27160

Combat aircraft vulnerability to projectile impact predicted by model giving target penetration, damage size and structural response
[AIAA PAPER 71-777] 16 p2660 A71-34013

Microcrater morphology in lunar soil glass, oligoclase and olivine, determining projectile velocity, impact angle and shape effects
18 p2961 A71-35947

Microcrater morphology in soda-lime-silica glass by polystyrene spheres, detailing shape, density, velocity and incidence angle effects
18 p2961 A71-35948

Craters produced by oblique trajectory missile impact, suggesting crater dimension dependence on target material and missile kinetic energy
19 p3156 A71-37683

Double frustum phenomenon in mushrooming of cylindrical Al projectiles upon high speed impact with hardened steel anvil
21 p3474 A71-41424

Craters produced by high speed hardened spherical particles, investigating depth and diameter relationship to impact speed
24 p3885 A71-45324

PROJECTILE PENETRATION

U TERMINAL BALLISTICS

PROJECTILES

NT HYPERVELOCITY PROJECTILES

NT SABOT PROJECTILES

Projectile P band FM/FM telemetry system for in-barrel data acquisition
01 p0034 A71-10912

Projectile velocity measurement by laser and Fabry-Perot interferometer using Doppler effect
02 p0258 A71-11657

Ballistic projectile velocity measurement using condenser charged thin wire circuit
03 p0422 A71-13273

Projectile entry into water vertically from air, predicting cavity shape as function of time based on hydraulic flow model
[ASME PAPER 70-WA/FE-8] 03 p0402 A71-14129

Trajectories prediction for subsonic spin stabilized projectiles via water tunnel tests, considering blunt nose and tail and rounded nose right circular cylinders
[AIAA PAPER 71-296] 08 p1275 A71-22016

Projectiles yawing and rolling over long flight paths, describing onboard solar aspect sensor and telemetry link to ground stations
[AIAA PAPER 70-538] 11 p1761 A71-25513

Hybrid simulation to increase hit possibility of rocket fired from military tanks at moving targets
11 p1735 A71-25848

Roll moment of inertia to static margin ratio effect on yaw of repose angle magnitude in ballistic match of projectiles
14 p2325 A71-29890

Dynamic response and perforation of thin plates subjected to projectile impact, measuring plastic deformation, dynamic strain and displacement with high speed camera
15 p2503 A71-31422

Electronic time delay fuses with high-g components for gun launched projectiles for placing payloads at high altitudes

18 p2851 A71-36281

PROJECTION

Pseudocylindrical, polyconical pseudocylindrical secant and tangential, isoparametric nonorthogonal cartographic projections

03 p0418 A71-14351

Terrain altitude evaluation in orthoprojections, using off-line systems for contour lines approximation

06 p0901 A71-18290

PROJECTIVE DIFFERENTIAL GEOMETRY

U DIFFERENTIAL GEOMETRY

U PROJECTIVE GEOMETRY

PROJECTIVE GEOMETRY

NT MERCATOR PROJECTION

Meteorological uses of stereographic horizon map projection, permitting placement of map center at any point on earth

16 p2564 A71-33538

Linear, affine and projective coordinate transformation from one mapping plane to another with quick maximum error estimation

17 p2734 A71-35187

PROJECTORS

Real time large scale display system with information image projection on reversible photochromic emulsion via IR laser

02 p0249 A71-12072

Flat field condensing system for illuminating film projected on screen using Hg-Xe short arc lamp

18 p2918 A71-36071

High aperture wide angle lens design for compact electro-optical systems of airborne moving map projection navigational instruments

18 p2947 A71-36605

PROJECTS

NT APOLLO PROJECT

NT GEMINI PROJECT

NT JUPITER PROJECT

NT MARS 69 PROJECT

NT MARS 71 PROJECT

NT ORBITER PROJECT

NT ROVER PROJECT

NT SATURN PROJECT

NT THEMIS PROJECT

PROLATE SPHEROIDS

Steady incompressible flow past oblate and prolate spheroids for Reynolds numbers up to 100, using spherical coordinates and finite difference method

03 p0400 A71-13729

Microwave biological exposure systems implementation in limited space, describing focused prolate spheroid, absorber-lined horn and compact range illumination system

11 p1723 A71-25288

Elastico-viscous liquid steady secondary flow induced by oblate or prolate spheroid rotating about axis of symmetry from linear partial differential equations solution

20 p3214 A71-39967

PROMETHIUM

Rapid neutron capture products evidence on peculiar A star surfaces from observation of promethium and heaviest elements abundance

24 p3865 A71-44567

PROMINENCES

NT SOLAR PROMINENCES

PROPAGATION

Cosmic ray anisotropy fluctuation and propagation function dimensionality relationship, demonstrating essentially one dimensional propagation

02 p0300 A71-12370

Measuring technique for short term laser beam propagation direction fluctuations, discussing atmospheric turbulence effect on initial modulation phase distribution

11 p1774 A71-26047

Cosmic ray nuclei propagation through interstellar medium, solving transfer equation for simple model with allowance for boundary conditions

16 p2625 A71-33325

PROPAGATION [EXTENSION]

NT CRACK PROPAGATION

NT FLAME PROPAGATION

Chaos propagation derivation from Boltzmann equation for dilute gas with intermolecular forces and collisions in pairs

23 p3705 A71-43873

PROPAGATION MODES

Round dielectric waveguides dominant mode radiation losses calculation

01 p0052 A71-10467

EM wave propagation along radially inhomogeneous dielectric cylinders, considering permittivity variation

01 p0037 A71-11170

Wave dispersion and evanescent modes in rectangular waveguides filled with transversely inhomogeneous dielectric rod

01 p0056 A71-11196

Slow mode shocks in interplanetary space detected by Mariner 5 spacecraft 3.5 and 27 million km from earth

01 p0148 A71-11527

Bounded plasma wave interaction matrix elements calculation from orthogonal system formation by normal waveguide modes

02 p0289 A71-11891

Uniform periodic waveguide mode coupling, obtaining mode transducer design

02 p0216 A71-12342

Cladded fibers propagation modes launching coefficients evaluation by Gaussian field laser beam

03 p0433 A71-13170

Propagation modes and circularly polarized wave production in circular waveguides with anisotropic walls

03 p0384 A71-13317

Collisional effects on Taylor and Kelvin instabilities in composite medium, considering longitudinal wave propagation mode

05 p0788 A71-16627

Supraluminous waves modes in field free two component anisotropic plasma by linearized relativistic Vlasov equation

05 p0791 A71-16939

Multimode power obtainable in TEM in solid laser, using convex mirror and in cavity polarization rotator

06 p0906 A71-17304

Solar particles propagation to earth during solar proton event of 25 February 1969, discussing local interplanetary field

06 p0958 A71-18150

Low energy solar and galactic cosmic ray propagation in interplanetary medium from Zond 3 and Venus 2-4 space probes measurements

06 p0958 A71-18152

Propagation modes involved in HF or VHF reception at ground station of beyond-horizon satellite transmission

07 p1097 A71-19024

Radio wave propagation at frequencies near proton gyrofrequency in horizontally stratified ionosphere, taking into account intermode coupling

07 p1102 A71-19666

Hydromagnetic wave propagation with coupled isotropic and guided modes, obtaining steady state solution with toroidal, plasma resonance induced period dependent reflecting barrier

07 p1197 A71-19767

Single mode oversize optical waveguide fabrication and components

07 p1162 A71-20423

Infinitely long dielectric rod waveguide HE sub 11 surface wave mode launching efficiency, using Fourier integral

08 p1262 A71-20754

Dual channel rotary joint combining Tm and Te modes in circular waveguide for X band antenna high average power operation

08 p1252 A71-20758

LF electrostatic wave axisymmetric and nonaxisymmetric propagation modes in weakly ionized plasma column under weak magnetic field

09 p1504 A71-23051

Magnetoionic theory for drifting plasma whistler mode propagation, deriving magnetic field effects on imaginary and real parts of complex refractivity

09 p1505 A71-23385

Multimode slow wave planar spiral antenna design and radiation field characteristics

09 p1420 A71-23510

VLF electromagnetic propagation, calculating mode conversion efficiency at solar terminator on angle based on flat model with finite wall conductivities

09 p1411 A71-23576

Asymptotic solution for conical horn modes, comparing with exact solution for eigenfunctions and eigenvalues

09 p1420 A71-23677

Phase and frequency instabilities in electromagnetic wave propagation - NATO/AGARD Conference, Ankara, Turkey, October 1967

10 p1576 A71-24185

Wideband gas discharge duplexer as transmitter receiver microwave antenna switch in H₀₁/mode circular waveguide

10 p1584 A71-24720

Coupled vacuum mode equations modified for cylindrical stratification for calculation of propagation characteristics of earth-ionosphere waveguide

11 p1731 A71-25664

Electric and magnetic fields of fundamental modes in cylindrical and rectangular dielectric microwave resonators, classifying transmission lines connections

12 p1888 A71-27613

Hydrodynamic wave modes calculation for solar atmospheric model with ionization effects, noting trapped resonant gravity waves calculation agreement with observed oscillations

12 p1969 A71-27647

Numerical solution of current distribution, wave propagation constant and propagation mode cut-off frequencies on periodic linear array

13 p2028 A71-28001

Circular waveguides containing pure dielectrics, examining propagation mode inversion criteria via TE and TM characteristic equations

13 p2037 A71-28606

Propagation constant relation to frequency for waveguide filled with simple moving medium, presenting dispersion curves set

13 p2030 A71-28607

Self modulation of amplitude modulated electromagnetic wave propagation in magnetoplasmas, considering interaction effects for ordinary and extraordinary propagation modes

13 p2107 A71-28787

Solar flare cosmic ray propagation, investigating bounded interplanetary diffusion medium effects

13 p2130 A71-29060

Simply supported normal mode plate time response to traveling wave at oblique incidence, using numerical analysis

14 p2326 A71-30068

Beamguides with inhomogeneities regulated for constant radiation losses of waves-analogs of modes

14 p2211 A71-30077

Power and focusing requirements in recording and reading with Gaussian laser beam in TEM mode

14 p2254 A71-30136

Dielectric loaded waveguides electromagnetic fields solution by finite element method for cutoff modes determination

14 p2212 A71-30509

Hydromagnetic approximation of ELF propagation modes and emission in magnetosphere, using satellite and ground based observations

14 p2202 A71-30953

Dual plane monopulse multimode radar antenna feeds, determining input geometry relationship to generated modes by image method

14 p2218 A71-31065

Modal interference spacing in frequency range 13.6-22.3 kHz during sunrise transitions on middle latitude east-west propagation paths

15 p2369 A71-31432

Acoustic propagation in rigid wall rectangular duct with uniform flow, calculating higher mode energy transmission properties

15 p2392 A71-32195

Plastic strain range-fatigue life behavior as two slope relationship, considering low cycle fatigue laws in terms of crack propagation mode change

15 p2436 A71-32508

Multimode coaxial feed with circular cross section waveguide and concentric ring shaped radiator for parabolic antennas

16 p2546 A71-33480

Normal angle determination by rocket observations for whistler mode waves propagation through magnetosphere and ionosphere from conjugate VLF ground station signals

16 p2569 A71-33805

Centimeter TEM waves excitation in Fabry-Perot cavity of cyclotron resonance maser by helical electron beam

17 p2750 A71-34263

Mode conversion and auroral effects observations on polar VLF propagation path, noting seasonal and solar cycle variations

17 p2731 A71-34319

TE modes propagation in rectangular guide partially filled with dielectric slab, considering two waveguides junction equivalent circuit

17 p2708 A71-35481

Bernstein mode wave instability growth rate in collisionless shocks propagating perpendicular to magnetic field, including pressure gradient effects

18 p2950 A71-35928

Decay instability at ion-sound frequency induced by large amplitude Bernstein mode wave in plasma

18 p2951 A71-35929

Optical coupling of degenerative modes in two parallel dielectric waveguides, applying to slab guides and fibers crosstalk problem

19 p3014 A71-37214

Geomagnetic micropulsation periods variation with latitude and plasmapause presence, calculating uncoupled toroidal and poloidal modes eigenperiods of hydromagnetic waves

20 p3215 A71-38735

Laser beam spatial coherence properties dependence on transverse mode structure for given longitudinal mode

20 p3245 A71-39350

Acoustic signal pressure mode propagation velocity in infinite rectangular hard-walled duct with steady flow, noting Doppler effect

20 p3271 A71-39765

Dispersion equation determining periodic structures natural modes propagation constants, using induced electromotive and magnetomotive forces method

20 p3198 A71-39806

Pulsed ruby laser transmission and reflection holography in single transverse and axial electromagnetic mode, stressing safety aspects

22 p3556 A71-41743

- LF waves and instabilities on positive column in magnetic field, comparing three theories for helical modes for He at low pressures 22 p3582 A71-41897
- Electromagnetic wave propagation and radiation pattern of circular corrugated waveguide antenna feeds, considering unity azimuthally dependent modes 22 p3511 A71-42278
- Field configuration of TM mode in elliptical waveguide, showing inaccuracy of microwave theory 22 p3522 A71-42279
- Ionspheric HF wave ordinary (O) and extraordinary (E) modes coupling effect on satellite signal Faraday rotation 23 p3642 A71-42964
- Ionspheric propagation penetrating and nonpenetrating modes full wave reflection and transmission coefficients determination for height and frequency variation by thin film optical method 23 p3643 A71-42972
- Low latitude whistler propagation characteristics associated with magnetic storms in March 1970 at Sugadaira (Japan) 23 p3644 A71-43364
- Low loss microwave iris-loaded circular TE mode waveguide delay line for pulse compression at X band 23 p3653 A71-43963
- Critical frequencies of higher order modes in circular waveguides with arbitrary thick dielectric sleeve 23 p3647 A71-44319
- Open waveguide field expansion in orthogonal wave system with proper and improper modes 23 p3647 A71-44332
- Spectral representation and propagation mode of microwave transmission line on circular waveguides at great distance 24 p3803 A71-44361
- High order transverse cavity mode selection and propagation in homojunction and heterojunction GaAs injection lasers, using five layer dielectric model 24 p3832 A71-44432
- Spinning acoustic modes transmission and backscatter in nonuniform long cylindrical ducts with throat 24 p3848 A71-44556
- VLF day and night waveguide modes attenuation coefficients and phase velocities, using moving secondary source formed by mode conversion at sunrise and sunset shadow line 24 p3803 A71-44650
- Microstrip line on silicon-silicon oxide system, investigating propagation modes and fringing effect by parallel-plate waveguide model 24 p3809 A71-45091
- PROPAGATION VELOCITY**
- Mathematical model for laser-induced supersonic crack propagation in crystals with weak cleavage planes 01 p0092 A71-10293
- Detonation propagation velocity through tubes with walls coated with thin fuel film, using turbulent boundary layer theory 01 p0181 A71-11305
- Oxygen and homologous hydrocarbon mixtures detonation limits, discussing propagation, fuel molecule structure, critical temperature, initial cracking mechanism and carbonaceous solids condensation 02 p0331 A71-11957
- Transient creep propagation velocity in dead annealed thin walled Al alloy tubes, using constitutive equation for mean stress-strain-time relationship 03 p0508 A71-13761
- Gaseous explosives free detonation waves for hydrogen-oxygen, noting propagation velocity deficit and detonability limit 05 p0834 A71-16512
- Gaseous mixtures turbulent combustion, considering turbulent flame propagation velocity 05 p0836 A71-16536
- Brittle fracture propagation velocity and branching, using high speed photography, electrical and ultrasonic methods 06 p0981 A71-17296
- Rocket engines with nitrogen tetroxide/hydrazine injectors destructive instability due to pressure disturbances, establishing origin, propagation velocity and pops extent by streak photography [WSS/CI PAPER 70-25] 06 p0942 A71-17653
- Time estimation for plasma front propagation in quartz glass circular pipes without imposition of axial magnetic field 08 p1338 A71-20829
- Elastic waves in isotropic body, calculating initial deformation effect on propagation rate based on finite deformation theory 09 p1537 A71-22515
- Ultrasound propagation velocity dependence on high pressure and temperature in carbon dioxide, considering Rao rule applicability to highly compressed gases 09 p1492 A71-22529
- Fatigue crack propagation rate in sheet alloys with holes as stress concentrators related to duration of various development phases 09 p1538 A71-22597
- Reflected radiative shock wave propagation velocity under transverse magnetic field, taking into account radiation pressure and energy 09 p1506 A71-23588
- Age, obliterating arteriopathy and peripheral arterial sclerosis effects on rheographic wave propagation speed to lower limbs 10 p1566 A71-24976
- Lower earth mantle shear velocity models derivation and core radius estimation based on S travel times observation 11 p1760 A71-26060
- Rayleigh wave propagation along edge of thin plate, calculating velocity dependence on frequency 12 p1929 A71-26929
- Surface wave velocity at interface between liquid He 4 and saturated vapor 13 p2101 A71-28769
- Laminar flame speeds in chlorine-fluorine mixtures, predicting low temperature isothermal rates and spontaneous ignition limits 15 p2465 A71-32090
- Tunguska explosion of 30 June 1908, determining air waves propagation velocity 16 p2639 A71-33696
- Initial strains effect on propagation rate of elastic waves, applying finite deformation theory 16 p2658 A71-33902
- Stress wave propagation in quartz-phenolic composite, measuring particle velocity by velocity interferometer 17 p2762 A71-35207
- Ultrasound propagation velocity dependence on high pressure and temperature in carbon dioxide, considering Rao rule applicability to highly compressed gases 17 p2784 A71-35506
- Finiteness of deformations and convective terms effect on medium velocity in terms of displacements on shock wave propagation in three dimensional elastic medium 18 p2982 A71-36788
- Seismic wave velocity measurements in pahoehoe basal flows in lava beds, comparing with laboratory dilatational velocities 19 p3052 A71-37685
- Detonation propagation through tubes with thin fuel film coated walls, obtaining heat transfer coefficients, friction, evaporation rate, reaction zone length and propagation velocity 19 p3171 A71-38129
- Intense relativistic electron beam propagation in drift tube with neutral gas and plasma background, determining front velocity and energy transport 20 p3272 A71-38784
- Acoustic signal pressure mode propagation velocity in infinite rectangular hard-walled duct with steady flow, noting Doppler effect 20 p3271 A71-39765
- Weak discontinuities propagation speeds, equations and eigenvectors in uniform collisionless plasma 21 p3421 A71-40209
- Quantitative schlieren system for shock wave velocity, density ratio and relaxation time measurements, discussing electro-optical modification and calibration technique 21 p3364 A71-40404
- High performance electric arc driven shock tube for shock velocities to 45 km/sec and test times over 4 microseconds, using 80/20 helium-hydrogen mixture 21 p3365 A71-40975
- Ultrasonic time shadow method based on defect detection by sharpness of vibration propagation time change during scanning 22 p3528 A71-41758
- Steady laminar flame propagation speed prediction computation, applying to hydrazine decomposition 22 p3621 A71-42098
- Flexural wave propagation in thin curved rod oscillating in plane, calculating frequency and velocity from boundary conditions according to Saint Venant 22 p3617 A71-42574
- Crack model with strain rate dependent yield stress, calculating stress intensity factor variation with fracture propagation velocity 23 p3774 A71-43145
- Frequency dependence of Rayleigh wave propagation velocity along rough surfaces, based on smooth surface mass loading 23 p3703 A71-43203
- Elastic wave velocities in Apollo 12 rocks 12052 and 12065 at high pressures, noting basalt-like composition and crystal structure 23 p3761 A71-43783
- Elastic surface wave amplitude and propagation velocity in lunar rocks, calculating Poisson ratio 23 p3761 A71-43784
- One dimensional diffusion model for on state propagation along p-n-p-n structure, determining propagation velocity as function of structural parameters and current density 24 p3859 A71-44462
- Crack propagation kinetics in organic glass subjected to monotonically increasing tension perpendicular to crack plane, examining crack contour prior to spontaneous rupture 24 p3883 A71-44858
- PROPAGATORS**

- Gas dynamics of fuel boundary layer combustion and surface pyrolysis in hybrid rocket motors 01 p0178 A71-10131
- Bipropellant droplet supercritical steady combustion temperature measurements in zero gravity near critical point, comparing high and low pressures models for ambient gas solubility 01 p0141 A71-11309
- Erosive burning resulting from nonplanar surface structure of solid propellant 02 p0334 A71-12858
- Propellant low temperature preignition reactions during simulated engine shutdown conditions, discussing IR spectroscopic observation method 02 p0298 A71-12861
- AP composite solid propellant combustion model based on multiple flame structure surrounding individual oxidizer crystals 03 p0469 A71-13440

Pressure effect on combustion rate of model mixtures of ammonium perchlorate with polystyrene and polymethyl methacrylate 03 p0468 A71-13989

Rocket propellants and gun powders performance calculation, using FORTRAN IV program 04 p0637 A71-15678

Tubular powder channel gas velocity distribution and pressure buildup during burning 04 p0638 A71-15680

Gas dynamic analysis of hybrid boundary layer combustion with nonequilibrium surface pyrolysis, using Rayleigh analogy 05 p0837 A71-16539

Transient response of solid propellant combustion to pressure variations and sudden depressurization 05 p0795 A71-16540

Stability criteria for longitudinal combustion instability tested for generality using data from various solid propellant formulations [AIAA PAPER 69-480] 05 p0837 A71-16569

Gas phase reactions near solid-gas interface of deflagrating double base propellant causing abrupt changes in burning rate-pressure curve [AIAA PAPER 70-124] 05 p0837 A71-16571

One dimensional kinetic calculations for hydrogen fluorine rocket nozzles compared to firing data, discussing Cl addition effect on performance [WSS/CI PAPER 70-21] 06 p0943 A71-17656

Liquid hypergolic propellants heat and gas release determination by calorimetric and PVT measurements, using impinging free jets for propellant mixing [WSS/CI PAPER 70-26] 06 p0943 A71-17658
Cellulose, explosives and propellants thermal surface ignition, using heat transport and chemical kinetic equations 06 p0944 A71-18298

Composite propellant transient burning rates continuous measurement during rapid depressurization [AIAA PAPER 71-173] 06 p0944 A71-18612

Electric field effects on burning rates of composite metallized solid propellant containing ammonium perchlorate [AIAA PAPER 71-174] 06 p0947 A71-18613

Solid propellant combustion instability, considering burning propellant mass flux response to periodic thermal radiation [AIAA PAPER 71-209] 06 p0948 A71-18645

Reaction heat for flameless combustion of double-base propellant using differential scanning calorimetry and thermogravimetric analysis, noting pressure effects [AIAA PAPER 70-125] 07 p1183 A71-19898

Ballistic modification of nitric ester based propellant combustion by lead compounds, concerning burning rate-pressure relation 08 p1346 A71-20860

Flame structure in laminar condensed systems, noting burning rate dependence on pressure and specimen layer thickness, composition and mechanical condition 08 p1376 A71-21906

Solid propellant instantaneous burning rates prediction methods based on flame structure model and steady state burning data as functions of pressure and initial temperature [AIAA PAPER 70-667] 09 p1510 A71-22905

Burning rate temperature sensitivity of composite solid propellants, using granular diffusion flame model 09 p1510 A71-22911

Combustion rate of pure ammonium perchlorate propellants derived from ablation theory 10 p1657 A71-23905

Pressure vessel method improvement by electronic equipment application in determining data characteristics for propellant powders ballistic properties 10 p1696 A71-24447

Erosive burning of composite propellants based on ammonium perchlorate, studying oxidizer grain size effect 10 p1658 A71-25122

Compositional and oxidizer particle size effects on combustion instability of plastic propellant based on ammonium perchlorate and polyisobutene [AIAA PAPER 69-478] 11 p1809 A71-25454

Ammonium perchlorate deflagrations, determining intrinsic stability of one dimensional burning configuration based on flame structure modeling [AIAA PAPER 70-123] 11 p1809 A71-25455

Photographic study of burning metallized composite propellant, noting burning rate augmentation by heat transfer from alumina particles retained on propellant surface [AIAA PAPER 69-173] 11 p1809 A71-25502

Regeneratively cooled stainless steel thrust chamber failure related to internal carburization by fuel decomposition and propellant combustion 11 p1810 A71-25505

Aircraft fuel tank nitrogen inerting, fire and explosion suppression for foreign particle contamination, sludge and lacquer reduction [ASME PAPER 71-GT-45] 11 p1810 A71-25978

Solid propellant burning surface irradiance measurement, using optical lightpipe and radiation detector [AIAA PAPER 71-469] 11 p1859 A71-26250

Phenol furfuraldehyde-ammonium perchlorate solid propellant combustion, investigating burning rate 12 p1944 A71-26742

Combustion chamber design with flame stabilizers, deriving gas flow, energy conservation equations and propellant combustion rates 13 p2163 A71-28967

Continuous burning rate measurement for metallized composite solid propellants, using optical sensor for servo tracking propellant surface 14 p2244 A71-30328

Throttleable bipropellant rocket engine, discussing cryogenic and space storable propellants and injection system optimization based on combustion mechanism photographic observation [AIAA PAPER 71-740] 14 p2296 A71-30783

Combustion instability with wave motion coupling in solid propellant rocket motors due to energy gain and loss mechanisms within chamber [AIAA PAPER 71-753] 14 p2296 A71-30787

Minuteman 2 third stage rocket engine instrumentation performance evaluation for oscillatory combustion characteristics analysis [AIAA PAPER 71-755] 14 p2248 A71-30789

Missile component vibration environments generation by Minuteman 2 and 3 third stage motors solid propellant oscillatory burning [AIAA PAPER 71-756] 14 p2296 A71-30790

Acoustic liner design for propellant combustion instability and jet aircraft noise suppression, discussing cross flow and oscillatory pressure effects [AIAA PAPER 71-757] 14 p2296 A71-30791

Surface temperature discrepancy during flameless vacuum burning of trinitroglycerin gunpowder due to vaporization of volatile components 15 p2462 A71-31373

Gunpowder mean burning rate at constant pressure with periodic variation of heat influx into flame zone 15 p2462 A71-31374

Gunpowder unsteady burning as closed dynamic system, studying frequency characteristics and transient processes 15 p2462 A71-31375

Inflammability, burning rates and exothermal decomposition of compact hydroxylamine and hydrazine sulfate and chloride with/without copper chloride additions, plotting pressure variations curves 15 p2463 A71-31377

Burning gunpowder temperature measurement in gaseous phase, describing thermocouple method 15 p2463 A71-31388

Al particles combustion kinetics in propellant flames, showing gas composition and pressure effects on burning rate [WSS/CI PAPER 71-24] 15 p2464 A71-31633

Solid propellants extinguishment by depressurization, using transient flame model [AIAA PAPER 71-631] 15 p2466 A71-32283

Acoustic damping of small amplitude waves by non-burning particles in T burners and rocket motors, noting propellant seeding with zirconium oxide [AIAA PAPER 71-633] 15 p2471 A71-32574

Catalytic role in ammonium perchlorate solid rocket propellants ignition and combustion 17 p2792 A71-34434

Ammonium perchlorate based solid propellants combustion, assuming pyrolysis of solid binder 17 p2792 A71-35549

Solid propellant combustion pressure oscillations amplification, developing mathematical model as function of reaction rate constant, chamber pressure, frequency and solid properties 19 p3123 A71-38096

Deflagration behavior of pure and isomorphously doped ammonium perchlorate, using cinephotomicrography of burning samples and scanning electron microscopy of quenched samples 19 p3120 A71-38118

Perchloric acid catalytic pyrolysis relationship to ammonium perchlorate decomposition and combustion from electric conductivity measurements, IR spectroscopy, chemical and thermal analysis 19 p3120 A71-38119

Photographic study of acceleration and pressure effects on Al agglomerates and combustion processes on solid propellant surface, describing pit growth by combustion model 19 p3120 A71-38121

Combustion model of solid composite propellants containing monopropellant oxidizers ammonium perchlorate, cyclotetramethylene-tetranitramine and potassium perchlorate 19 p3121 A71-38122

Burn time and acceleration effects on molten metallic material chemical composition near burning surface of aluminized composite solid propellant 19 p3121 A71-38298

Acceleration dependent burning rate increases of aluminized composite solid propellants induced by combined erosive and acceleration 21 p3436 A71-40943

Q-switched ruby laser holographic interferometry for hypergolic flame combustion recording 22 p3539 A71-41742

Small hybrid rocket engine using aromatic amines mixture as fuel and nitric acid as oxidizer, discussing regression rate relations and internal ballistics design 22 p3589 A71-42019

Hybrid rocket /Barbarella I/ design, tests, engine, feed system oxidizer tank, fairings fins, propellants and launch facilities 22 p3589 A71-42049

Shock wave initiation of hydrogen-oxygen at 1200-1800 K, using UV absorption spectroscopy in shock tube studies 22 p3587 A71-42097

Solid propellant combustion simplified laminar flame theory, calculating pressure effect on burning rate, surface energy loss and temperature effects 24 p3888 A71-44938

PROPELLANT DECOMPOSITION

High temperature decomposition kinetics in vacuum of mixed ammonium perchlorate-polystyrene solid fuel, using time of flight mass spectrometer 03 p0469 A71-13997

Mass spectrometric technique for investigation of hydrazine catalytic decomposition on heated platinum at low pressure, considering advantages of quadrupole spectrometer 11 p1765 A71-26280

Thermal decomposition rates and explosion of dinitroxydiethyl nitramine from heat release measurements at various pressures 15 p2462 A71-31376

Inflammability, burning rates and exothermal decomposition of compact hydroxylamine and hydrazine sulfate and chloride with/without copper chloride additions, plotting pressure variations curves 15 p2463 A71-31377

Low temperature condensed phase ammonium perchlorate decomposition effects on ballistic and postheat sterilization properties of CTPB propellant [AIAA PAPER 71-717] 15 p2465 A71-32282

Radiation induced etch-pit dislocations and thermal decomposition kinetics in ammonium perchlorate crystals 18 p2955 A71-35967

Perchloric acid catalytic pyrolysis relationship to ammonium perchlorate decomposition and combustion from electric conductivity measurements, IR spectroscopy, chemical and thermal analysis 19 p3120 A71-38119

Exothermic decomposition reaction and sublimation mechanism of ammonium perchlorate burning, showing pressure dependence of burning rate 22 p3587 A71-42100

Carbonyl fluoride thermal decomposition in excess Ar behind incident and reflected shock waves, analyzing reaction rate variation with temperature and total pressure 24 p3802 A71-44941

PROPELLANT EVAPORATION

Liquid fuel droplet transient evaporation in high temperature environment, examining vaporization process with coupled heat and mass transfer [AIAA PAPER 71-126] 06 p1008 A71-18570

Fuel evaporation in combustion chambers L-shaped and annular vaporizers, determining operational parameters effect on evaporation ratio 10 p1658 A71-25123

Surface temperature discrepancy during flameless vacuum burning of trinitroglycerin gunpowder due to vaporization of volatile components 15 p2462 A71-31373

Individual liquid fuel droplets ignition factors, introducing heating-up and evaporation delay 15 p2516 A71-32709

PROPELLANT GRAINS

Nonlinear elastic effect on stress concentration of incased tubular solid propellant grain 03 p0504 A71-13462

Burning rate manual determination for solid propellant rocket motors with sliverless grains 03 p0522 A71-14451

Pressure-temperature equivalences in elasticity problems, considering applications to case bonded solid propellant rocket grains 04 p0638 A71-15197

Stress concentration at interface between bonding agent and fuel element in solid propellant grain 05 p0000 A71-15981

Accelerating flame front generation and propagation controlling mechanism in porous propellant [AIAA PAPER 71-210] 06 p0948 A71-18646

Erosive burning of composite propellants based on ammonium perchlorate, studying oxidizer grain size effect 10 p1658 A71-25122

PROPELLANT OXIDIZERS

U ROCKET OXIDIZERS

PROPELLANT PROPERTIES

Book on aviation fuels covering gasoline and turbine fuel properties, handling problems and future fuels 03 p0469 A71-14298

Liquid rocket propellants characteristics study for explosive yield prediction, using mathematical model and critical mass method

- 04 p0637 A71-15345
- Solid composite propellant mixing influence on viscosity, pot life and motor reject rates based on bench scale production [AICHE PAPER 32D] 13 p2113 A71-28894
- Low modulus solid propellants family for low thrust-to-mass ratio fully case bonded end-burning motors, using polymer network theory for binder formulation [AIAA PAPER 71-654] 14 p2285 A71-30729
- Low temperature condensed phase ammonium perchlorate decomposition effects on ballistic and postheat sterilization properties of CTPB propellant [AIAA PAPER 71-717] 15 p2465 A71-32282
- Hydrazine-hydrazine azide blending for propellant performance improvement and freezing point reduction, presenting engine test data 22 p3588 A71-42778

PROPELLANT SPRAYS

- Liquid fuel droplets in heterogeneous detonation of dilute sprays, noting deformation and fragmentation in reaction zone 07 p1222 A71-19189
- Rocket engine propellant injectors with noncircular orifice geometry, presenting experimental spray patterns and predicted performance for noncircular and circular orifice configurations 11 p1810 A71-25520
- Gas turbine engine combustion chamber start-up and burning performance, considering air injection and propellant atomization 13 p2117 A71-28968
- Gas turbine engine startup igniter with modified propellant atomizer enhanced by air injection 13 p2118 A71-28969
- Cold flow analysis of liquid propellant sprays from rocket engine injectors, relating propellant mixing and combustion performance 15 p2465 A71-32044

PROPELLANT STORAGE

- Piston expulsion seals for storable fueled and ready liquid rockets 06 p0905 A71-18218
- Jet fuels thermal stability and corrosive properties during prolonged storage 07 p1182 A71-19492
- Combustion research laboratory at Purdue University consisting of buildings, housing test cells, data acquisition system, propellant storage and instrument service area 09 p1427 A71-22727
- Superinsulation for long term storage of cryogenic propellants in space tanks using double aluminized Mylar with Dacron needles 09 p1546 A71-23009
- Mixed ullage heating, convection and conduction models of thermal stratification of cryogenic propellants stored in low gravity environment 11 p1810 A71-26507
- Launch facility requirements for liquid fluorine upper stage, considering propellant storage and transfer, vapor disposal, leak detection, spills, aborts and range safety 18 p2898 A71-36457
- Capacitance measurement technique for density and mass flow measurements for hydrogen slush storage and transfer 20 p3237 A71-39276

PROPELLANT TANKS

- Thermodynamic similarity laws for rocket fuel tanks with cryogenic propellants, using dimensional analysis for unsteady temperature distributions 02 p0332 A71-12526
- Spacecraft propellant tank development from Al alloy providing excellent weldability, propellant compatibility and strength to weight ratio 07 p1116 A71-18899
- Structural materials criteria for cryogenic propellant tanks, discussing chosen alloy composition, heat treatment and general properties 07 p1118 A71-19802
- Computerized sloshing frequencies of tilting two dimensional tank of flat free surfaces with respect to effective gravity 11 p1752 A71-26198
- LF vibration qualification tests for Mariner Mars 1971 propellant tanks 11 p1746 A71-26494
- Cryogenic propellant tank thermal insulation system based on polypropylene oxide, polyurethane polyvinylchloride and polymethacrylimide foams, discussing design, technology and model tests 12 p1985 A71-26834
- Rotational stability of spin stabilized satellite with liquid filled propellant tanks, investigating viscous effects on motion coupling between rigid body and liquid 15 p2499 A71-31175
- Liquid hydrogen rocket propellant tanks insulation problems in space shuttle and orbiter 15 p2499 A71-31216

- Reusable space shuttle optimization, discussing earth-to-orbit transportation, economic aspects, booster vehicles design, propellant cryogenic tanks and thermal protection [AIAA PAPER 71-805] 17 p2814 A71-35430
- Saturn S-4B continuous vent system for propellant tanks during parking orbit to prevent excessive pressure, requiring liquid settling with auxiliary ullaging rockets 18 p2973 A71-36453
- Zero-g propellant tank quantity gaging methods, suggesting large cryogenic propellant tanks for space shuttle orbiter stage 18 p2922 A71-36455

PROPELLANT TESTS

- Combustion instability data with same solid propellants by T-burner and L super asterisk burner, discussing theoretical models of transient combustion 05 p0837 A71-16570
- Replica technique facilitating investigation of quenched solid propellant sandwich sample characteristics 08 p1271 A71-20868
- Pressure vessel method improvement by electronic equipment application in determining data characteristics for propellant powders ballistic properties 10 p1696 A71-24447
- Pulsed T-burner testing of oscillatory combustion and droplet damping of aluminized solid propellants as function of frequency and sample properties [AIAA PAPER 71-634] 14 p2289 A71-30713
- Comparative variable area, pulsed and modified T burners for testing oscillatory combustion and stability of propellants containing aluminum [AIAA PAPER 71-635] 14 p2289 A71-30714
- Low flame temperature propellants, investigating temperature and humidity aging effects on physical and ballistic properties [AIAA PAPER 71-664] 14 p2286 A71-30732
- Ignition and combustion tests of storable boron/magnesium/hexane slurry injected directly in high speed air stream [AIAA PAPER 71-723] 14 p2286 A71-30773

PROPELLANT TRANSFER

- Saturn 5 S-2 stage propellant feedlines and V-2 engines simulating structural longitudinal oscillation by analog computer [AIAA PAPER 70-626] 03 p0472 A71-14430
- Spacecraft propellant expulsion systems, comparing capillary with conventional techniques [AIAA PAPER 70-685] 07 p1183 A71-19856
- Hydrogen slush storage and transfer density and flow measuring instrumentation, emphasizing capacitance measurement [NAS PAPER M-2] 08 p1292 A71-21695
- Soviet book on liquid propellant rocket engines non-stationary operation covering dynamic processes, transient conditions, component elements, fuel delivery, etc 10 p1659 A71-24649
- Space shuttle operation phases hazards, emphasizing propellant loading, fire suppression systems, survival equipment and self contained life support devices 17 p2813 A71-34784
- Centaur/shuttle integration and operations, considering ground tanking modes and in-flight propellant transfer 18 p2973 A71-36477
- Capacitance measurement technique for density and mass flow measurements for hydrogen slush storage and transfer 20 p3237 A71-39276

PROPELLANTS

PROPELLER BLADES

- Density gradient visualization with schlieren optical system, discussing propeller aerodynamics 10 p1616 A71-24103
- Propeller blade profile thickness distribution for given pressure distribution, deriving integral equation

- with singular kernel function via source-sink and vorticity distribution linearized theory 10 p1553 A71-24945
- Aerodynamic design of VTOL propellers, demonstrating possibility of cyclic control of XC-142 experimental propeller [DGLR-71-017] 15 p2347 A71-32784
- Propeller blade structures for high speed tilt wing turboprop V-STOL aircraft, considering materials selection, weight control, cyclic pitch control, noise reduction, etc [DGLR-71-018] 15 p2350 A71-32785
- Dirichlet problem in hodograph plane of compressible fluid flow from aircraft, helicopter blades or turbine blade airfoils 17 p2672 A71-35470

PROPELLER DRIVE

NT HELICOPTER PROPELLER DRIVE

PROPELLER EFFICIENCY

- Propeller driven VTOL aircraft performance improvement, comparing variable camber/diameter counterrotating and blowing device equipped propellers [DGLR-71-023] 15 p2350 A71-32786

PROPELLER FANS

- Prop-fan propulsion system for V-STOL short haul transport aircraft, discussing performance, noise and weight characteristics [SAE PAPER 710470] 13 p2115 A71-28338
- Noise research facility for fan and multistage compressor sound radiation, discussing anechoic chamber, power drive, test control, recording and real time analysis system 16 p2553 A71-33418

PROPELLER SLIPSTREAMS

- VTOL aircraft wing-propeller interaction, using mean flow deflection angle in lift and drag characteristics prediction 04 p0526 A71-14988
- Aerodynamics of wing immersed in propeller slipstreams, presenting calculation method for lift, drag, pitching moment, normal force distribution and wake characteristics [DGLR-70-057] 05 p0693 A71-15947
- Wing flap slipstream deflection correction method for evaluation of propeller power effect on lift and drag coefficients of Arava twin engine STOL aircraft 11 p1706 A71-25164
- Propeller vortex theory, calculating vortex streets pitch distributions and wake configuration 14 p2170 A71-30443
- Interference analysis of wing with overlapping multipropellers in uniform velocity stream confined in elliptical cross section cylinder [AIAA PAPER 71-614] 15 p2346 A71-31583

PROPELLER SYNCHRONIZERS

U PROPELLERS

U SYNCHRONIZERS

PROPELLERS

- NT PROPELLER FANS
- NT SHROUDED PROPELLERS
- NT TILTED PROPELLERS
- Soviet book on aircraft power plant systems and devices covering layout, engine attachment, propellers, control, fuel and oil systems, fire fighting, monitoring, etc 02 p0299 A71-12722
- Experimental arrangement for delay times in propeller/rpm controller system 08 p1271 A71-20832
- Biological oscillating propulsion systems, investigating plate propeller, boundary layer control, low drag fuselage shapes and VTOL engine installations 10 p1569 A71-24235
- Low disk-loading propotor application to propeller and fanjet STOL and fanjet VTOL short haul aircraft [AIAA PAPER 71-781] 17 p2674 A71-34481
- Propeller vortex noise analysis by on-line 1/3 octave band resolution, discussing characteristic results from noise measurements on various propeller configurations 21 p3325 A71-40868

PROPHYLAXIS

- Natural or endogenous fibrinolysis and its pharmacological enhancement as possible approach to prophylaxis of vascular occlusions 02 p0200 A71-12417
- Prophylactic radiation protection through lipid toxicants reduction in white rats tissues by high efficiency chemical radioprotectors 06 p0849 A71-17391
- Radiation sickness prophylaxis chemical compounds, discussing protection mechanisms, radical inactivation and afflicted cell recovery 22 p3505 A71-42710
- Prophylactic medication for radiation damage treatment, covering toxicity, pharmacological properties, metabolism, dosage and physiological action 22 p3505 A71-42711

PROPORTIONAL CONTROL

- Automatic temperature monitor and proportional solid state DC controller for electrophysiological use 01 p0022 A71-10247

Proportional fluidic elements jet nozzle discharge coefficients as function of control pressure and geometrical parameters

03 p0354 A71-13959

High gain proportional fluid amplifier, examining defined region geometry with flow visualization and quantitative data

[ASME PAPER 70-WA/FLCS-12]

03 p0354 A71-14087

Proportional navigation vs optimally evasive constant speed target in two dimensions, considering lateral acceleration and time constraints in pursuer control

03 p0455 A71-14438

Eigen proportional control method for second order system with time varying parameters, applying to aircraft autopilot systems

06 p0925 A71-18308

Large model fluid proportional amplifier, investigating optimum static and dynamic pressure gain by methodological and transmission line approach

07 p1025 A71-20558

Fluidic proportional amplifier circuit with two bistable element stages, using pulse width modulation techniques

07 p1027 A71-20579

Pressure regulator design and construction, using high pressure fluidic proportional chain

07 p1027 A71-20580

Liquid fuel atomization spectrum in nozzles, examining proportion control of droplet size

08 p1348 A71-21262

Proportional fluidic element static characteristics, calculating main jet interaction with control jet

09 p1386 A71-22655

Quasi-optimal proportional navigation, deriving feedback guidance laws for interceptor aerodynamically controlled missiles

11 p1796 A71-26409

Structural stability for two beam plasma model with proportional controller using distributed feedback

15 p2456 A71-31846

Proportional fluid amplifier, measuring deflection angle, jet turbulence and noise level

15 p2390 A71-32052

Facility for signal noise measurement in proportional fluidic amplifiers, discussing stored sweep spectra interpretation

15 p2351 A71-32053

Transistorized analog multiplication circuit for automatic control system requiring controller input proportional to product of two values

17 p2719 A71-34787

Modal control for linear multivariable time-invariant systems incorporating multiloop single input proportional controllers

18 p2896 A71-36235

Proportional navigation for trajectory control of missile homing on target in planar pursuit

20 p3261 A71-38856

Active digital and proportional fluidic devices design and manufacture including turbulence, wall-attachment, focused jet, beam deflection and vortex amplifiers

22 p3483 A71-42783

PROPORTIONAL COUNTERS

Low energy particle variable flux measurement in midlatitude ionosphere, using rocket-borne thin window proportional counters

03 p0421 A71-14539

Gas proportional counting system gain stabilization, using feedback loop radioactive X ray emitter and correction signal

06 p0901 A71-18225

X ray source in Perseus region, studying Aerobee rocket proportional counters measurements

09 p1512 A71-22348

Versatile pulse amplifier for use with scintillation counters, surface barrier detectors, proportional counters or channel electron multipliers

13 p2067 A71-28163

Cosmic X ray background observations, using rocket-borne proportional counter

13 p2131 A71-29269

Proportional counters design for ionizing radiation detection, examining cosmic ray meson component

15 p2408 A71-31814

Liquid Xe filled single wire proportional and multiple wire ionization chambers, measuring gain and time/spatial resolution properties

19 p3065 A71-38178

Laser beam ionization of gold investigated by proportional electron counter

21 p3392 A71-40516

Cosmic soft X rays in energy range 0.14-7 keV from rocket soundings with thin polypropylene window proportional counters, covering field of view in Cygnus-Cassiopeia region

22 p3593 A71-42330

PROPORTIONAL LIMIT

Deformation fatigue theory extended to tests at stresses below elastic limit, explaining cyclic loading frequency effect on fatigue life

12 p1984 A71-27681

Linear plastic deformation of steel under tension, investigating anisotropy in elastic modulus and strength

15 p2503 A71-31478

PROPRIOCEPTION

NT AUTOKINESIS

Ocular pursuit movement evocation by visual and proprioceptive stimulation

01 p0009 A71-10235

Proprioception role in perception of arm bending and extension during weightlessness and accelerations in aircraft flight along parabolic trajectory

01 p0014 A71-11143

Human performance in optical high inertia tracking system interface, considering proprioceptive feedback, display magnification, control dynamics view field and anticipatory processes effects

18 p2873 A71-36912

Eye movement neurophysiology, discussing ocular proprioception, oculomotor muscle sensory receptor role, extraocular muscle afferent and efferent innervation and central nervous system control effect

22 p3488 A71-42433

Vestibular and proprioceptive stabilization of eye movements

22 p3489 A71-42448

PROPRIOCEPTORS

Labyrinths and proprioceptors from aerospace medicine viewpoint, discussing motion sickness, spatial disorientation, manned space flight and rotation in space

08 p1244 A71-20711

Proprioceptive thermoregulatory mechanism of sweat secretion during positive and negative work in man

09 p1401 A71-23369

Reflex mechanisms and programmed command in insect flight stabilization, discussing gravity proprioceptors, wind sensing and optomotor control

21 p3326 A71-39987

Proprioceptive gravity perception in Hymenoptera, noting joint located hair plates and constant angle space orientation in dark

21 p3327 A71-39989

U PROPULSION

PROPULSION SYSTEM CONFIGURATIONS

NT DESCENT PROPULSION SYSTEMS

German monograph on systems analysis of future jet and fan propulsion systems for VTOL commercial aircraft weight and cost reduction

01 p0142 A71-10115

Auxiliary propulsion devices for satellite stabilization, discussing monopropellant, bipropellant, post-combustion, hydrazine plenum, electrical, plasma jet, ion and colloid systems

02 p0299 A71-12749

V/STOL aircraft in civil air transportation, discussing safety, reliability, maintainability and propulsion system concepts

03 p0348 A71-13576

Astrobree D low cost high performance sounding rocket with long duration radial burning propulsion system for D region and meteorological research

03 p0498 A71-13670

Aircraft propulsion, discussing piston, turbojet, turboprop and turbofan engines in terms of thrust to weight ratio, specific fuel consumption and propulsive efficiency

04 p0638 A71-14977

Composite propulsion systems including Turbo-Ram-Scramjet, Ejector Ramjet, Hyperjet and Biliquid Ramjet Rocket

04 p0638 A71-15285

Bora-Sond rocket for upper atmosphere low cost sounding, describing propulsion system design and chemistry

05 p0816 A71-16417

Ground effect vehicles limiting volumetric dissipations from air cushion and propulsion systems with fluid boundary by Coanda effect

07 p1019 A71-19923

Lift fan propulsion for civil VTOL transports, considering applicability, attitude control, system design, fan transition and cross flow noise

07 p1022 A71-20373

Composite rocket cum hypersonic airbreathing propulsion reducing space exploration program cost

08 p1348 A71-21301

Air cushion vehicle technology, considering economics, propulsion, structures, controllability, flexible skirt systems and R and D

08 p1231 A71-21713

Electric propulsion systems integration into SERT 2 spacecraft, discussing launch imposed environment, thrust vector control, thruster breakdown, power conditioning, etc

[AIAA PAPER 70-1123]

09 p1511 A71-22898

Biological oscillating propulsion systems, investigating plate propeller, boundary layer control, low drag fuselage shapes and VTOL engine installations

10 p1569 A71-24235

SIRIO satellite project, discussing orbital dynamics, propulsion system, attitude control, onboard and ground electronic equipment

10 p1682 A71-24272

Aladin 2 French STOL project, consisting of suitably flapped wings with multiple propulsion units with fishtail exhaust nozzles inside rectangular ejectors

10 p1556 A71-24283

Space shuttle main, auxiliary and air breathing propulsion systems, describing various design concepts

10 p1682 A71-24284

Propulsion system and fuel regulator design effect on thrust change during air ejection for VTOL aircraft stabilization in hovering flight

10 p1659 A71-24753

Supersonic transport inlet-engine-airframe compatibility programs, noting exhaust nozzle installation effects, distortions and noise

10 p1659 A71-24854

Helicopter jet propulsion systems, considering turbocompressors, gas generators, turbine air jet systems, pulsed jet engines, ramjet engines and rocket engines

11 p1706 A71-25259

Lightweight high performance regenerative gas turbine designs for aircraft propulsion, comparing various compressor, turbine, combustor and recuperator arrangements

[ASME PAPER 71-GT-67]

11 p1812 A71-25983

Ablative thermal insulation materials testing for naval missile propulsion system application

11 p1789 A71-26032

Convertible fan/shaft engine for V/STOL tactical and transport aircraft, detailing mechanical arrangement, design and performance

11 p1813 A71-26054

Analytical method for optimal rocket motors cluster arrangement in multistage spacecraft, considering horizontal trajectories rated terminal velocity performance

11 p1839 A71-26335

Space shuttle propulsion systems, describing main engine prototype designs, booster attitude and docking control systems

12 p1946 A71-27606

Prop-fan propulsion system for V/STOL short haul transport aircraft, discussing performance, noise and weight characteristics

[SAE PAPER 710470]

13 p2115 A71-28338

Propulsion, guidance and stability of ground effect vehicle with perimetric Coanda fluid boundary

13 p1997 A71-29308

Nuclear fusion powered pulsed space propulsion systems with laser initiation, discussing energy conversion to momentum, limitations, vehicle configuration and mission performance

[AIAA PAPER 71-636]

14 p2288 A71-30095

Wind tunnel force test program design for jet aircraft configurations, including propulsion system simulation

14 p2176 A71-30605

VTOL turboshaft engine powered propulsion system development, detailing design requirements, program planning, component research and system integration

[AHS PREPRINT 562]

14 p2297 A71-31109

STOL commercial aircraft propulsion systems, considering two stream augmentor wing engine and high bypass ratio three stream engine

[AIAA PAPER 71-746]

15 p2467 A71-31325

European electric propulsion systems for flight trajectories within low gravity fields and orbital parameter attitude control and correction

15 p2469 A71-31730

Composite materials fabrication primary and secondary aerospace and aeropropulsion structural components

[SME PAPER EM-71-710]

15 p2416 A71-32343

Propulsion system design and performance requirements for space shuttle booster and orbiter vehicle,

- considering low cost, long life, reliability, safety and minimum maintenance
[AIAA PAPER 71-657] 15 p2471 A71-32577
- Propeller blade structures for high speed tilt wing turboprop V/STOL aircraft, considering materials selection, weight control, cyclic pitch control, noise reduction, etc
[DGLR 71-018] 15 p2350 A71-32785
- Gas turbine design advances for helicopter powerplants, illustrating by Turbomeca engines
16 p2624 A71-33416
- VTOL transport optimal airframe/propulsion systems design, discussing thrust requirements, performance, control, cruise functions, fuel consumption and fan characteristics
[AIAA PAPER 71-744] 17 p2792 A71-34225
- Supersonic aircraft propulsion by external heat addition, discussing numerical method for suitable caret wing design
17 p2793 A71-35398
- Lunik 16 and 17 automatic lunar landing stations and Lunokhod-1 lunar surface vehicle, describing propulsion systems, control elements and scientific equipment
17 p2724 A71-35401
- Solar electric propulsion system design for interplanetary spacecraft, describing Hg bombardment ion engine
17 p2794 A71-35546
- Space shuttle auxiliary propulsion subsystems for attitude control, orbit maneuvering and power supply, discussing design requirements with emphasis on fail-operational and fail-safe criteria
[AIAA PAPER 71-661] 17 p2795 A71-35624
- Propulsion systems trends for 1980s, discussing environmental noise levels, stoichiometric gas turbine engines for military aircraft, high bypass ratio engines for V/STOL aircraft, etc
17 p2795 A71-35625
- Mixed mode propulsion system for optimization of reusable space shuttle, discussing one-stage-to-orbit vehicle advantages and feasibility
19 p3121 A71-37126
- Space transport rendezvous and docking techniques, emphasizing guidance, propulsion system configuration and sensors
19 p3149 A71-37306
- Civil aircraft future propulsion requirements, considering larger engine sizes, higher takeoff thrusts and lower noise levels
[CASI PAPER 72/10] 19 p3122 A71-37600
- Attitude control propulsion system for booster and orbiter of space shuttle in European participation package
21 p3454 A71-40159
- Cold gas rocket propulsion systems design parameters, determining performance and weight formulae
21 p3437 A71-41050
- Book on aircraft propulsion covering design, dynamics, control, installation, gas turbine, ramjet, rocket and piston engines, compressors, combustion and energy cycles, etc
22 p3589 A71-42427
- PROPULSION SYSTEM PERFORMANCE**
- Hybrid rocket propulsion engine combustion efficiency, burnout patterns and operating conditions, using nitric acid oxidizer
02 p0298 A71-12070
- Air transportation reliability through turbojet engine performance monitoring
02 p0298 A71-12368
- M49 Larzac turbofan engine, describing design, development, performance data, manufacturing techniques, operation and maintenance
02 p0299 A71-12607
- Electric propulsion in space, emphasizing rocket performance relation to exhaust velocity, propellant consumption, thrust duration and payload capability
03 p0469 A71-13285
- FOILAC solid propellant rocket motors for high thrust short action time propulsion, reviewing development status and performance
[AIAA PAPER 70-1385] 03 p0470 A71-13668
- LES 6 satellite solid Teflon pulsed plasma thruster performance, determining energy balance thrust and circuit parameters
[AIAA PAPER 70-179] 03 p0472 A71-14429
- Book on ion propulsion covering technology, performance, accelerator design, propellant feed and control, etc
04 p0638 A71-14797
- Inertial and semiinertial propulsion systems output power and efficiency, taking into account continuous kinetic and potential energy buildup and fuel release
06 p0979 A71-17583
- Nuclear electric space propulsion size and cost factors, discussing scaling laws use for size-performance relationships
[AIAA PAPER 71-193] 06 p0947 A71-18631
- Spacecraft high performance resistojet engines, discussing design criteria for high temperature long term operation with minimum thermal losses
[AIAA PAPER 71-195] 06 p0948 A71-18633
- Oxygen difluoride/diborane propellant thrust chamber and injector technology, discussing engine duty cycles and performance
[AIAA PAPER 70-717] 07 p1183 A71-18890
- Resistojet design criteria for performance modeling of ammonia propellant thrusters and manned space stations using biowaste propellants
[AIAA PAPER 70-211] 07 p1183 A71-18898
- Aerospace Recommended Practice for gas turbine engine steady state performance presentation for digital computer programs, describing engine type, operating and control characteristics
[SAE-ARP-681B] 07 p1183 A71-19647
- Colloid microthruster system life test, discussing design and steady state performance
[AIAA PAPER 70-1110] 07 p1184 A71-19864
- Space shuttle safety, discussing rocket engine durability, turbine life, flaw detection, radiation hazards, etc
[AIAA PAPER 71-302] 09 p1511 A71-22616
- SERT 2 spacecraft ion thruster ground tests and flight operation, tabulating performance data
[AIAA PAPER 70-1125] 09 p1511 A71-22899
- Low power MPD arc thruster performance with downstream cathode, using Xe propellant
[AIAA PAPER 70-1084] 09 p1511 A71-22903
- Optimal low thrust power plant for spacecraft payload-maneuver tradeoff
09 p1512 A71-23139
- VTOL heat engine and propulsion system design and performance, citing Pegasus jet lift engine as compromise between takeoff and cruise function
10 p1659 A71-24751
- Supersonic compressor performance, discussing shock and dump losses and wave structure model errors
10 p1553 A71-24869
- Stable limit cycles and triggering limits of first radial mode in nonlinearly unstable liquid propellant rocket motors, using wave equation and Galerkin method
11 p1836 A71-25162
- Lunar flying vehicle propulsion system optimization, discussing weight, performance, engine life, reliability, etc
[AIAA PAPER 70-605] 11 p1810 A71-25504
- Drag-free satellite design and propulsion requirements, noting orbit perturbation mechanisms
[AIAA PAPER 70-1145] 11 p1838 A71-25522
- Out-of-core thermionic converter system using heat pipes as electrical resistive elements, discussing design and performance
11 p1710 A71-25875
- Thrust measurement of aircraft and rocket propulsion systems, comparing cost and characteristics of mechanical, electrical and hydraulic systems
12 p1894 A71-26991
- Air transport propulsion systems, discussing aircraft operating economics with reference to weight, size, powerplant efficiency, noise and air pollution
12 p1946 A71-27542
- CF6 turbofan engine development, discussing performance and endurance tests and design changes for reliable low cost operation
[SAE PAPER 710421] 13 p2114 A71-28308
- Aircraft propulsion system testing, stressing noise reduction and inlet-engine exhaust system compatibility
[SAE PAPER 710450] 13 p2114 A71-28328
- Thrust measurement of aircraft propulsion systems, considering hydraulic piston device, edge clearance, oil quantity and calibration
14 p2251 A71-29860
- Direct digital control and data acquisition system for propulsion research testing, transmitting data over differential signal pairs to remote test cell
14 p2208 A71-30316
- V/STOL propulsion units lift ratings based on aircraft system requirements
[SAE PAPER 710471] 14 p2176 A71-30537
- Airframe installation effects on underwing nacelle nozzle performance, using calibrated engines and load cells on F-106 for measurements
[AIAA PAPER 71-681] 14 p2292 A71-30745
- Ion thruster technology and subsystem development program status, describing design and performance characteristics
[AIAA PAPER 71-690] 14 p2293 A71-30750
- High thrust density colloid emitting source development as basic microthruster for electrostatic propulsion systems
[AIAA PAPER 71-694] 14 p2293 A71-30753
- Radiation cooled MPD thruster with permanent and superconducting magnets, describing test facilities and measurement techniques for performance tests
[AIAA PAPER 71-696] 14 p2293 A71-30755
- Multimission strategic aircraft installation effects testing in propulsion and aerodynamic wind tunnels, yielding flowfield definition, inlet internal performance, drag, forebody shape and orientation
[AIAA PAPER 71-759] 14 p2171 A71-30792
- Space shuttle engine design based on reusable XLR129 rocket engine, presenting performance data
15 p2467 A71-31469
- High performance superheated subliming solid ammonium carbamate thruster using resistojet technology for specific impulse increase
[WSS/CI PAPER 70-210] 15 p2469 A71-32048
- High performance low cost space shuttle propulsion systems airbreathing engines, attitude control thruster and orbital maneuvering
[AIAA PAPER 71-656] 15 p2470 A71-32292
- Biowaste resistojet engine design and performance for various propellants and propellant mixtures
[AIAA PAPER 71-687] 15 p2470 A71-32293
- Propulsion system design and performance requirements for space shuttle booster and orbiter vehicle, considering low cost, long life, reliability, safety and minimum maintenance
[AIAA PAPER 71-657] 15 p2471 A71-32577
- Maximum temperature engine concept, definition and application to future aircraft propulsion system performance
[SAE PAPER 710461] 17 p2792 A71-34498
- Exit stream velocity increase in propulsion units by adding latent heat of vaporization by condensation in supersonic nozzle
17 p2728 A71-34882
- Performance characteristics of jet engines equipped with afterburner, discussing combustion, flame stabilization, outlet nozzle regulation and operational cost
17 p2793 A71-35439
- Electron bombardment mercury ion rocket engine, considering mass flow rate and magnetic field strength effect on performance
17 p2794 A71-35540
- V/STOL aircraft with vectored thrust propulsion systems, noting weight and center of gravity lift-thrust relationship changes effect on performance
[SAWE PAPER 894] 17 p2676 A71-35817
- Civil aircraft future propulsion requirements, considering larger engine sizes, higher takeoff thrusts and lower noise levels
[CASI PAPER 72/10] 19 p3122 A71-37600
- Ultraplannary probes for exploration beyond solar system, discussing heliosphere, cometary, interstellar and stellar mission categories propulsion system selection
[AAS PAPER 71-164] 19 p3141 A71-37961
- Flight mechanics of point with limited power propulsion system and energy storage unit, investigating variational maximum payload problem with singular control optimization
20 p3288 A71-39125
- Apollo/Saturn 5 propulsion system design, development, testing and integration
22 p3589 A71-42026
- Solar electric multimission spacecraft effects on low thrust performance by characteristic surface representation
[AAS PAPER 71-324] 23 p3772 A71-42998
- Supersonic propulsion system inlet, engine and exhaust nozzle in wind tunnel and flight tests, discussing boundary layer effects on performance
23 p3718 A71-43599
- PROPULSIVE EFFICIENCY**
- NT PROPELLER EFFICIENCY**
- Air cooled opposed 4, 6 and 8 cylinder light aircraft engines with or without turbosupercharging, considering horsepower improvement and torsional vibration control
[SAE PAPER 700205] 01 p0142 A71-10129
- Submillipound mercury electron bombardment ion thruster efficiency, noting cathode pole piece, baffle position and geometry influence on ion chamber performance
[AIAA PAPER 70-616] 01 p0143 A71-11577
- Thrust equation, control volume and propulsive efficiency for rockets and air breathing jets from energy conservation principle
02 p0299 A71-12681
- Aircraft propulsion, discussing piston, turbojet, turboprop and turbofan engines in terms of thrust to weight ratio, specific fuel consumption and propulsive efficiency
04 p0638 A71-14977
- Inertial and semiinertial propulsion systems output power and efficiency, taking into account continuous kinetic and potential energy buildup and fuel release
06 p0979 A71-17583
- Electron bombardment mercury ion thruster plasma properties and performance, computing ion beam current, discharge losses and propellant utilization efficiency
[AIAA PAPER 69-256] 07 p1184 A71-19881
- Two-spool turbojet engine nozzle diameter adjustment system for increasing thrust, fuel economy and reliability, describing automatic clamshell shutter control mechanism
15 p2471 A71-32527
- Turbojet engines thrust and fuel economy improvement by gas-air jet mixing, discussing efficiency increase and noise reduction
15 p2472 A71-32717
- Multistep rocket mass ratios optimization, including exhaust gas velocities, structure and efficiency
16 p2644 A71-32843

Cold gas rocket propulsion systems design parameters, determining performance and weight formulae
21 p3437 A71-41050

PROPYL COMPOUNDS

Ion cyclotron resonance application to propanol ion structure formed in double McLafferty rearrangement, demonstrating direct enol ion formation instead of by isomerization or ketonization
07 p1055 A71-19598

PROPYLENE

Ions association constant with water in propylene carbonate from proton magnetic resonance measurements
13 p2026 A71-29040

Liquefied gas solutions of methane in carbon tetrafluoride and propylene, calculating pressure and temperature dependence of density
15 p2462 A71-31246

Shock tube isomerization of cyclopropane to propylene as model system for small ring compounds, noting rate constants
19 p3010 A71-37272

Fluorinated ethylene propylene covers for silicon solar cells, describing processing parameters effects on optical and electrical characteristics
20 p3182 A71-38944

PROSTHETIC DEVICES

NT ARTIFICIAL EARS

Hybrid computer simulation for cardio-circulatory assist device, discussing atrium to aorta and ventricle to aorta optimal output, time tension index and flow control
07 p1048 A71-19584

Biped locomotion machines dynamic analysis and synthesis by minimum energy criteria for prosthetic-orthotic equipment design and human locomotion analysis
09 p1399 A71-22971

Mechanical impedance measurement of artificial and human mastoids for bone vibrator calibration as function of frequency
11 p1725 A71-26189

Lower extremity Army aviator amputee retention on flight status regarding service need, amputation and prosthetic fit, age, career, hours flown and time in military
16 p2535 A71-33120

Low cost Ti substitutions for Ni and alloys in corrosion resistant applications, prosthetic devices and pollution control equipment
20 p3251 A71-39339

PROTECTION

NT ACCELERATION PROTECTION

NT CIRCUIT PROTECTION

NT CORROSION PREVENTION

NT EYE PROTECTION

NT METEOROID PROTECTION

NT RADIATION PROTECTION

NT RADIATION SHIELDING

NT SOLAR RADIATION SHIELDING

NT THERMAL PROTECTION

Materials and construction techniques in lightning protection for aircraft and helicopters
07 p1020 A71-19930

Lightning protection for nonmetallic helicopter rotor blades
07 p1021 A71-19939

Lightning protection for dielectric composites, analyzing damage from shock waves, vaporization pressure, magnetic forces and burning
07 p1021 A71-19942

Ground space facilities protection from lightning and electromagnetic interference
07 p1084 A71-19947

PROTECTIVE CLOTHING

NT HELMETS

NT PRESSURE SUITS

NT SPACE SUITS

Antihat protective clothing effectiveness for aircraft crews, discussing outer coating reflectivity and emissivity, insulating layer and internal surface
05 p0715 A71-16934

Flight personnel green protection system from nuclear weapons high intensity thermal effects
06 p0858 A71-17609

Water cooled head cap for heat stress amelioration in subjects working in warm environments
06 p0859 A71-17611

Water cooled garments, discussing human thermoregulation, developments and current suits
06 p0859 A71-17957

Flammability and heat transfer characteristics of flame retardant cotton, Nomex and polybenzimidazole (PBI) protective fabrics
07 p1145 A71-19573

Astronaut protection from solar flare high energy protons, discussing spacecraft orientation and solid, electrostatic, magnetic and plasma shielding
13 p2021 A71-29252

Fire fighter protective clothing, considering efficiency as function of garment weight and heat stress loading
17 p2690 A71-34785

Cold climate clothed human windchill tables, considering various heat transfer modes and skin temperature
20 p3192 A71-39205

Heat acclimatization by evaporative cooling prevention in men wearing vapor barrier suits, considering body temperature and heart and sweat rates
21 p3331 A71-40355

PROTECTIVE COATINGS

NT ANODIC COATINGS

NT CERAMIC COATINGS

NT PRIMERS [COATINGS]

U-tube rocket nozzle and fuel element fabrication methods for NERVA space engine, emphasizing coating process
01 p0126 A71-10006

Diffusion boride protective coatings on Nb, Ta, Mo and W against carbon diffusion from carburizing agents
01 p0100 A71-10401

Composite Ni coatings, adding mullite crystals to enhance oxidation resistance
01 p0102 A71-10784

High voltage thermionic module eliminating power conditioning and multiple units series connection, discussing design and coating technologies
02 p0195 A71-12244

Niobium alloys for gas turbine blades, examining working temperatures, protective coatings and ductility
02 p0271 A71-12939

Al based protective coatings on Nb and Nb alloys considering structure, formation and aluminide component
02 p0271 A71-12941

Niobium aluminide pest, investigating oxidation effects on Nb-Al protective coatings from 600 to 1400 C
02 p0271 A71-12942

Nb oxidation protection by Ti or Cr modified silicide coating, noting results with various Cr-Si mixtures
02 p0272 A71-12944

Mechanical stability of self healing viscous glass layer in porous oxidation protection coating on Ni under high acceleration
02 p0272 A71-12945

Mechanical stability of liquid phase in porous oxidation protective coating on Ni turbine blades under acceleration
02 p0272 A71-12946

Structure and durability of self healing silicide based coatings for niobium oxidation protection at high temperatures
02 p0272 A71-12947

Soviet book on aircraft construction technology covering parts fabrication, protective coatings, production automation, etc
03 p0433 A71-14399

Vacuum UV degradation of thermal control coatings on ATS-1 satellite, comparing with laboratory simulation
04 p0618 A71-14896

Heat transfer boundary conditions determination in studying heat protective coatings effectiveness, discussing measurement methods for stagnation temperatures and heat fluxes from exhaust gases
04 p0618 A71-15643

Low stress integral coverslips deposition by high vacuum ion beam sputtering for solar cell manufacturing cost reduction
05 p0702 A71-16078

Electron, proton and UV irradiation effects on CdS solar cell protective plastic films with or without adhesive coatings, measuring transmission changes
05 p0771 A71-16087

Protective oxide formation on single phased Cu-Al-Si alloys during high temperature oxidation
05 p0770 A71-17099

Temperature profile similarity and thermal protective coating thickness for single reentered spacecraft [AIAA PAPER 71-37]
06 p0916 A71-18498

Stainless steel coatings vacuum deposition on Ti alloy plates, considering product cryogenic and mechanical properties
07 p1118 A71-19853

Composite plastic aircraft structures lightning protection, considering hazard to composite materials and use of metal filled or plasma sprayed coatings and metal foil coverings
07 p1021 A71-19943

Lightning protective coatings for boron and graphite fiber reinforced plastics
07 p1021 A71-19944

Si solar cells transparent radiation protective coatings stability and degree of blackness, discussing UV irradiation and proton and electron bombardment
08 p1287 A71-21024

Aluminum high temperature resistant diffusion type coatings structure and chemical composition, outlining turbine blades testing for thermal shock, oxidation and sulfur and sea salt corrosion
09 p1474 A71-23287

High temperature turbine parts protective coatings, discussing aluminum diffusion prevention and crack and oxidation resistance
09 p1456 A71-23290

High temperature oxidation protective coatings behavior, emphasizing jet engine applications
09 p1483 A71-23296

Polymer adhesive protective coatings for improving fatigue resistance of butt and lap welded joints in thin Al sheet construction
09 p1478 A71-23355

Nonflammable self extinguishing nontoxic fluorocarbon elastomers as adhesives and coatings for Apollo program
10 p1632 A71-24097

Nonflammable elastomeric materials and coatings for oxygen enriched atmospheres
10 p1632 A71-24098

Polyurethane coatings development for subsonic rain erosion protection for aircraft structures, using whirling arm apparatus with simulated rainfall
10 p1632 A71-24101

Elastomeric seals for aircraft fastener countersinks, providing corrosion protection to static metal surface treatments and organic coatings
10 p1633 A71-24118

Protective coatings of Ta, Nb and Ti alloys for high performance thermal protection systems, discussing space shuttle reentry heat shield
11 p1778 A71-25554

Superalloy dispersion strengthened and fused sulfur silicide coatings for aircraft gas turbine engines and space shuttle heat shields
11 p1778 A71-25555

Thermal control coating materials, measuring separate and combined electron and UV radiation effects on reflectance and emittance in vacuum
11 p1800 A71-26519

Space stable thermal control coatings, noting reflectance optical spectroscopy of zinc oxide based paints and zinc orthotitanate
11 p1747 A71-26520

Spherical head projectiles collision with hemispherical shells and square plates with and without protective covering, calculating stress distribution
12 p1976 A71-27160

Silicide coated Nb alloys for gas turbine engine components operating at temperatures above 2000 F [SAE PAPER 710460]
13 p2115 A71-28334

Temperature dependence and mechanical properties of Mo materials with various diffusive protective base coatings based on continuity and density
14 p2256 A71-29623

Materials and processing methods for rain erosion resistant ceramic coated plastic structures for supersonic aircraft, considering fiberglass reinforced polyimide radomes with alumina coating
14 p2262 A71-29645

Hypersonic flight load bearing refractory alloy control surface protective coatings, emphasizing oxidation screening tests
14 p2262 A71-29646

Surfacing materials based on transition metal borides with boron carbide additions, testing brittleness, hardness and abrasive wear resistance
15 p2431 A71-32163

High temperature oxidation protection of niobium by molybdenum disilicide coatings applied by hot pressing powder metallurgy method
18 p2934 A71-35952

Metallographic examination of inorganic, metal plated and intermetallic coatings on martensitic stainless steels for pitting and surface corrosion prevention
19 p3081 A71-37902

Si solar cells transparent radiation protective coatings stability and degree of blackness, discussing UV irradiation and proton and electron bombardment
20 p3240 A71-39604

PROTECTORS

NT EAR PROTECTORS

PROTEIN METABOLISM

NT LIPID METABOLISM

Blood cholesterol and protein fraction concentrations in pathogenesis of hypothalamic atherosclerosis patients
02 p0201 A71-12531

Long term hypoxia effects on granuloma and various organs in rats, noting collagen and noncollagenous proteins formation stimulation and/or inhibition
05 p0706 A71-16293

Decaborane effects on amino acid metabolic patterns of various rat tissues, considering holoenzyme inactivation
05 p0706 A71-16294

Liver and skeletal musculature morphology during hypokinesia and protein deficiency in mice
06 p0855 A71-18377

Bicycle ergometer workout effects on serum proteins, noting intravascular redistribution, tissue damage and membrane permeability
07 p1052 A71-20328

Division cycle of *Myxococcus xanthus*, considering kinetics of cell growth and protein synthesis
09 p1396 A71-23473

Photoreduction regulation in *Rhodospirillum rubrum* by ammonium chloride, discussing nitrogen fixation and protein metabolism

16 p2527 A71-33058

Polysomal RNA disaggregation and attendant reduction in hepatic protein synthesis in rats as result of decreased feed ingestion during hypoxia

16 p2529 A71-33190

Urinary metabolites relationship to fatigue, considering excretion of proteins, electrolytes, simple organic compounds and hormones

17 p2679 A71-34357

Chlorella extracellular metabolites, identifying indole nature biologically active substances

19 p3004 A71-38544

Protein content in cytoplasm of neurons and glial satellite cells in supraoptical and red nuclei of white rat brains during natural and paradoxical phase deprived sleep

19 p3005 A71-38545

Exercise-induced human protein catabolism not due to caloric deficit

19 p3008 A71-38552

Urinary protein excretion rates in high altitude inhabitants, showing polycythemia effect on creatinine clearances levels

19 p3009 A71-38561

Cerebral gamma-aminobutyric acid metabolism and hyperbaric oxygen induced seizures in chicks during brain development, noting increased membrane permeability

20 p3186 A71-38970

PROTEINOIDS

Microfossil structures from morphological alterations of proteinoid microspheres due to inclusion of organic or synthetic polyamino acids

14 p2190 A71-30178

Proteinoids self assembly into primitive cell from observations of polypeptide generation during amino acid heating

14 p2190 A71-30179

PROTEINS

NT ADENINES
NT ADENOSINE DIPHOSPHATE [ADP]
NT ADENOSINE TRIPHOSPHATE [ATP]
NT ADENOSINES
NT ALBUMINS
NT ASPARTATES
NT CARBOXYHEMOGLOBIN
NT COENZYMES
NT ELASTIN
NT FIBRIN
NT GAMMA GLOBULIN
NT GLOBULINS
NT NUCLEOTIDES
NT OXIDASE
NT OXYHEMOGLOBIN
NT PEPTIDES
NT PROTEINOIDS
NT PYRIDINE NUCLEOTIDES
NT URIDYLIC ACID

Hypokinetic effect on sarcoplasmic and myofibrillar protein composition of skeletal muscles in rats

01 p0013 A71-11130

Chlorella ration effect on internal organs of protein-deficient mice compared with casein and soybean rations

01 p0025 A71-11145

Space diets for maximum energy consisting of fats and proteins from biological systems and carbohydrates from chemical systems

01 p0027 A71-11573

Polymorphic nucleus leukocytes pyrogenic protein fraction effects on rabbits hypothalamus thermal control structures

05 p0707 A71-16386

Computer applications in analysis of biological structures, considering tissues, cells, chromosomes, proteins and lipids

06 p0863 A71-18691

Human crystalline lens protein and lipid discussing cholesterol accumulation with age

09 p1390 A71-22421

Proteins hydrolysis, investigating temperature effect on reaction, determining optimum conditions for maximum amino acids yields

11 p1728 A71-26066

Lipid, protein and carbohydrate concentrations in *Chlorella* biomass from pyrolysis and aluminogel column chromatography

13 p2017 A71-28407

Biochemical luminescence reaction for ferroporphyrin proteins determination in extraterrestrial life detection

13 p2009 A71-28684

Mars physical conditions compared to earth, simulating Martian conditions and low temperature and UV effects on proteins

13 p2009 A71-28688

Deleterious mutations and neutral substitutions, discussing molecular evolution model for DNA and proteins

13 p2013 A71-29096

Nonproteins detection in presence of protein amino acids with Beckman analyzer chromatograms

13 p2026 A71-29478

Hypoxic hypoxia and hypercapnia effect on calcium, inorganic phosphorus and total protein in rats blood during hypodynamic syndrome

15 p2356 A71-31306

Anabaena cylindrica alga chromosomes protein components, noting histone absence

16 p2536 A71-33359

Rhodopsin kinetics mathematical analysis by cyclic five-component model, applying to flash and extended photolysis in rat retina

17 p2680 A71-34653

Photolysis of metarhodopsin I, discussing rate and extent of conversion to rhodopsin

17 p2680 A71-34654

Halophilic bacteria electron transport chain, studying protein, phospholipids, flavoproteins and cytochromes sedimentation properties by electron microscopy and light scattering technique

21 p3334 A71-40593

Coronary dilating substances of low molecular weight separated through dialysis from hypothalamus protein carriers

21 p3338 A71-41072

Solute diffusion coefficients dependence on proteins concentrations in human plasma from experiment, presenting equation for prediction

23 p3637 A71-44253

PROTON BEAMS

Cross sections of metastable H formation by charge transfer of hydrogen ion beam on helium, argon, nitrogen and oxygen targets

11 p1803 A71-26371

Auroral radio noise from electrostatic oscillations excited by fast proton beams

19 p3018 A71-38046

PROTON BELTS

Trapped protons east-west asymmetry observations during Gemini 4 flight, using on-board high sensitivity plastic-scintillation spectrometer

03 p0479 A71-14041

Equatorial proton belt radial profile analysis by satellite electron distribution data

08 p1351 A71-20962

Cyclotron instability of high energy protons in magnetosphere with refraction of growing Alfvén waves

09 p1435 A71-22437

Quasi-steady spectrum of hydromagnetic noise in proton belt, using random excited broad wave fields in nonisothermal magnetosphere

12 p1947 A71-26643

Geomagnetic Pc-1 type micropulsations appearance and development due to proton belt cyclotron instability

14 p2301 A71-30350

Solar wind proton penetration through earth magnetosphere, taking into account drift, force lines curvature and nonstationary plasma boundary

19 p3129 A71-38376

Noon-midnight high latitude proton trapping and precipitation boundary variations associated with polar magnetic substorms observed by ESR0 1A satellite

23 p3719 A71-43127

PROTON DAMAGE

LES 6 synchronous orbit solar cells experiments, determining various type cells degradation due to low energy proton damage

05 p0702 A71-16085

Silicon solar cells radiation damage from low energy protons, discussing current degradation as function of exposed area and particle energy

16 p2621 A71-33414

PROTON DENSITY [CONCENTRATION]

Directional differential energy spectra for proton intensities in outer radiation zone near magnetic equator from satellite observations

06 p0949 A71-17261

Polar cap atomic processes stimulated by photons, electrons and protons, considering particle morphology

10 p1661 A71-24311

Earth corotating plasma tail evidence in plasmopause variations from high resolution proton distribution data obtained by Ogo 4 satellite during magnetic storm

23 p3668 A71-43166

PROTON ENERGY

Solar energetic protons measurements by ESR0 1 satellite following flare of 18 November 1968, noting cut-off latitude over northern polar cap

03 p0478 A71-14039

Electron and proton energy measurements by near-polar orbit ESR0 1 satellite, noting anisotropy and isotropy near and in proton zones

03 p0479 A71-14040

Simple two fluid solar wind speed and proton temperature model, discussing nonthermal energy dissipation

03 p0481 A71-14504

Auroral zone electron and proton energy spectra measurements, using sounding rockets with electrostatic analyzers

03 p0419 A71-14524

Short duration proton energy increases observation by Explorer 34, considering interpretation as acceleration associated interplanetary shocks

06 p0949 A71-17254

Magnetotail plasma sheet electron and proton energy spectra and angular distribution over auroral zone, comparing Vela satellite and rocket measurements

06 p0887 A71-17260

Directional differential energy spectra for proton intensities in outer radiation zone near magnetic equator from satellite observations

06 p0949 A71-17261

Periodic drift echoes in magnetospheric energetic proton fluxes from satellite observation

06 p0950 A71-17283

Low energy protons radial gradient in interplanetary space measured with intercalibrated solid state detectors on Venus bound Mariner 5 and earth orbiting Explorer 33

06 p0952 A71-18113

Zond 4 and 5 space probes proton flux measurements at 1.5-50 MeV, describing instrument equipment used and results obtained

06 p0953 A71-18120

Fine structure of geomagnetic Pc 1 micropulsations by cyclotron instability due to anisotropic energetic proton velocity

06 p0895 A71-18283

Proton flux range between solar wind and cosmic radiation protons energy by spacecraft observation

08 p1350 A71-20952

ATS-5 satellite-borne auroral electron and proton energy spectrum measuring instrument using cylindrical coordinate electrostatic analyzer

08 p1294 A71-21845

Satellite-borne scintillation spectrometers for medium and high energy electron and proton measurements

09 p1513 A71-22555

Midlatitude upper atmospheric low energy proton intensity obtained from meteorological rocket data

09 p1513 A71-22579

Proton energy change effects on charged particles propagating in interplanetary space, using low energy solar flare proton fluxes observations

09 p1514 A71-22801

Satellite instruments to measure intensity and energy spectrum of high energy electrons and protons

10 p1683 A71-24464

Interplanetary space low energy cosmic ray protons steady state anisotropy based on radial gradient model of outward convection at solar wind speeds

10 p1663 A71-24777

Geomagnetically trapped protons differential energy spectrum in Van Allen inner and outer radiation belts over various energies, using thin solid state detector

10 p1663 A71-24784

Surviving high energy primary protons of cosmic ray nuclear bursts in atmosphere without air shower at Chacaltaya

12 p1933 A71-27393

Inelastic proton-proton and proton-carbon interaction cross sections, measuring proton energy with ionization calorimeter on Proton 1, 2 and 3 satellites

13 p1212 A71-28060

Proton recoil measurements of PuBe neutron source spectra, using pressurized hydrogen spherical proportional counter and liquid scintillator measurements

14 p2276 A71-29918

Proton flux measuring spectrometer with automatic tracking of distribution maxima over energy range from 0.15 to 4 keV

14 p2247 A71-30578

Thermal properties of solar wind plasma, determining electron and proton temperature distributions, proton heating rate, electron thermal conductivity and energy exchange rates

15 p2480 A71-32754

Energetic solar protons asymmetric access to north south polar caps by satellite observation during 24 January 1969 event

16 p2628 A71-33935

Stable auroral red arcs generation at plasmopause from ion cyclotron wave turbulent dissipation of ring current proton energy

16 p2572 A71-33947

Radiation belt proton intensities and energy spectra measurements by Azur satellite solid state detector telescope with energy level discrimination electronics

19 p3125 A71-37417

Auroral zone proton measurements during slowly varying cosmic noise absorption, obtaining energy spectrum by rocket soundings

19 p3125 A71-37418

Energetic electrons, protons and alpha particle measurements by Azur satellite over polar cap and in radiation belt during March 1970 solar particle event

19 p3126 A71-37419

Primary cosmic ray proton energy spectrum in 50 GeV to 300 TeV range, using Proton 1, 2 and 3 satellite-borne counters
19 p3128 A71-38352

Magnetospheric high energy protons relaxation due to interaction with Alfvén waves, presenting Einstein-Kolmogoroff equation numerical solution for particle momentum distribution function
20 p3278 A71-39074

PCA due to solar proton event, measuring electron-ion densities and temperatures, proton/electron energy flux spectrum, Lyman alpha radiation and X rays
20 p3281 A71-39730

Solar high energy cosmic ray proton burst observations, examining maximum flux delay time with Venus 6 satellite
20 p3281 A71-39730

Midlatitude ionosphere and magnetosphere thermal protons dynamic behavior, investigating magnetic storm effects
23 p3720 A71-43129

Enhanced low energy nuclear resonance reaction cross section estimation, finding Be 9 isotope reaction with proton for clean controlled thermonuclear reactor
24 p3847 A71-44495

Suprathermal proton bremsstrahlung cross section calculation, using Weizsacker-Williams method
24 p3865 A71-44905

PROTON FLUX DENSITY

Proton fluxes at 300 keV associated with propagating interplanetary shock waves, noting alpha particle enhancement
01 p0146 A71-11487

Directed proton fluxes measurements in bow shock, magnetosheath and solar wind by OGO 5 satellite ion spectrometer
01 p0147 A71-11491

Polar ionospheric auroral zone ionization, obtaining ion production function for single electron and proton flux
02 p0244 A71-11772

Energetic solar neutrons near maximum, calculating continuous flux and proton emission from balloon measurements
02 p0302 A71-12768

Solar proton flares, coronal radio diameter and cosmic radiation intensity relationship
03 p0473 A71-13788

Black Brant rocket measurement of PCA event at Churchill, Canada on 19 November 1968, discussing electron density and alpha particle and proton flux
03 p0417 A71-14038

Energetic proton bursts in magnetotail, examining flux direction and intensity, spectral energies and origin
03 p0482 A71-14517

Auroral ionosphere, examining low energy proton fluxes parallel to geomagnetic field lines of force
05 p0738 A71-16160

Proton whistlers damping compared to predictions by cyclotron damping theory, discussing proton density
06 p0949 A71-17262

Zond 4 and 5 space probes proton flux measurements at 1.5-50 MeV, describing instrument equipment used and results obtained
06 p0953 A71-18120

Quiet time fluxes and differential energy spectra of protons and alpha particles at 2-20 MeV measured by cosmic ray detectors on OGO-3
06 p0954 A71-18127

Cosmic rays anomalous diurnal variations, describing proton excess flux from direction outside geomagnetic field
06 p0956 A71-18139

Solar flares of 25-27 February 1969 effects on polar cap and interplanetary space flux rates, confirming magnetospheric modulation of proton density peaks
06 p0958 A71-18151

Solar proton event on 9 June 1968 observed at polar caps by ESO 2 satellite, noting flux profile structure
06 p0958 A71-18154

Solar flare on 9 June 1968, observing proton energy spectra and flux variation with time profiles
06 p0958 A71-18155

Particle flux energy spectra and time dependence of 25 February 1969 solar proton event
06 p0959 A71-18156

Low energy electron and proton fluxes observation by Isis 1 satellite, concluding solar wind penetration to low altitudes through magnetopause cusp
07 p1186 A71-19659

Magnetopause electric field accounting for ATS 5 energetic proton and electron flux measurements, comparing to various models
07 p1186 A71-19660

Ionospheric low energy electron and proton fluxes near equator from Isis 1 satellite soft particle spectrometer observations, considering energy spectra and pitch angle distribution
07 p1187 A71-19679

Proton flux range between solar wind and cosmic radiation protons energy by spacecraft observation
08 p1350 A71-20952

Midlatitude upper atmospheric low energy proton intensity obtained from meteorological rocket data
09 p1513 A71-22579

Charge source density during interaction between atmosphere and electron/proton fluxes at prescribed boundary parameters
09 p1513 A71-22675

Proton energy change effects on charged particles propagating in interplanetary space, using low energy solar flare proton fluxes observations
09 p1514 A71-22801

Altitude spectrum of ion formation in interaction of proton flux with atmosphere, using Bragg dissipation function
09 p1514 A71-23153

Solar cycle time variations in trapped radiation belt proton flux, deriving proton transport equation from Boltzmann equation
10 p1663 A71-24785

Comparative proton flux and Pc-1 pulsations from Explorer 26 satellite and ground observations
11 p1756 A71-25648

Shower size distributions of accompanying energetic protons at mountain altitude as function of released energy
12 p1951 A71-27392

Solar proton anisotropy measurements, discussing flux directional distribution
14 p2297 A71-29670

Low energy electron and proton fluxes in geomagnetic tail of equatorial magnetosphere forming plasma sheet related to auroral oval
14 p2299 A71-30029

Proton flux measuring spectrometer with automatic tracking of distribution maxima over energy range from 0.15 to 4 keV
14 p2247 A71-30578

Proton measurements in ring current by OGO-3 satellite compared with geomagnetic field data at low and high latitudes
16 p2626 A71-33663

Ionospheric electron concentration and proton flux rocket-borne measurements during nighttime PCA event, discussing atomic oxygen role in recombination processes
16 p2575 A71-33974

Precipitating protons measurement in 2.5-200 KeV energy range by OV1-15 satellite, comparing spatial distribution with plasmopause profile
19 p3125 A71-37358

Electron and proton fluxes intercorrelation in recovery phase of auroral substorm
19 p3125 A71-37362

Radiation belt proton intensities and energy spectra measurements by Azur satellite solid state detector telescope with energy level discrimination electronics
19 p3125 A71-37417

Radionuclides depth distribution gradient in lunar samples, suggesting solar proton medium flux constancy over last million years
19 p3127 A71-38004

Ion and electron production rate during PCA event, computing electron/ion density, differential proton flux spectrum and ion production rate
20 p3225 A71-39729

Solar proton enhancement over auroral zone observed aboard near earth polar orbiting ESO 2 satellite
20 p3282 A71-39735

Solar proton events intensity forecasts using time parameters of microwave bursts
22 p3590 A71-41465

Solar proton flux from 7 July 1966 flare observation via Proton 3 satellite, obtaining cosmic rays integral spectra
22 p3591 A71-41549

PROTON IMPACT

Lunar atomic hydrogen atmosphere from solar wind proton bombardment, considering detection by scattered Lyman alpha radiation measurements
04 p0659 A71-15854

Inelastic ionization cross sections for protonic and atomic hydrogen collisions with atomic and molecular gases in 0.5 keV to 5 MeV energy range
06 p0928 A71-17266

Cross sections for simultaneous ionization and charge transfer in fast proton-helium atom collisions, using Born approximation
09 p1497 A71-22416

Nitrogen excitation by fast protons and electrons impact, obtaining primary collision cross sections by measurements extrapolation to zero pressure
10 p1664 A71-24793

Dust particle angular momentum orientation in comet tails through bombardment by solar wind protons, noting role in scattered light polarization
11 p1832 A71-26182

Electron production by proton impact on nitrogen, oxygen, neon and argon, measuring cross sections angular and energy distribution by electrostatic analysis and electron counting
14 p2277 A71-30660

Si solar cells transparent radiation protective coatings stability and degree of blackness, discussing UV irradiation and proton and electron bombardment
20 p3240 A71-39604

Glauber scattering amplitudes for atomic hydrogen excitation by electrons or protons, presenting closed form expressions requiring no numerical integration
21 p3420 A71-41195

PROTON IRRADIATION

Quasi-nucleon nuclear interactions of high energy protons in photoemulsion irradiated in pulsed magnetic field
01 p0131 A71-11368

Absorbed dose equivalent from high energy neutrons and protons incident on tissue, using nucleon-meson cascade calculations
04 p0624 A71-14804

N-p Si solar cells, investigating mechanism of low energy proton irradiation damage to back contacts
05 p0702 A71-16084

Electron, proton and UV irradiation effects on CdS solar cell protective plastic films with or without adhesive coatings, measuring transmission changes
05 p0771 A71-16087

Shielding effectiveness of different body portions during repeated proton irradiation on dogs
06 p0861 A71-18360

Electron-proton radiation effects on scintillating materials in space environment chamber, evaluating background light degradation of active source monitoring
07 p1175 A71-19066

Si surface barrier radiation detectors depletion region low energy proton irradiation damage determination from capacitance-voltage curves and capacitance recovery techniques
07 p1071 A71-19071

Low energy proton irradiation damage to ATS and Intelsat satellites Si solar cells junction properties
07 p1022 A71-19072

Proton irradiation on Fe and Ni targets, measuring spallation cross sections
07 p1158 A71-19074

Ce 138 excited states identification in beta decay spectra of Pr 138m and Pr 138 sources, using proton target bombardment
07 p1163 A71-19547

Hydrogen outgassing from proton irradiated aluminum samples, determining gas evolution and blister formation during annealing
07 p1139 A71-20173

Low energy proton irradiation induced thin polymer contaminant films effect on far UV reflecting mirrors reflectance and scattered light
08 p1290 A71-21382

Renal anatomical pathology in dogs long after high energy proton irradiation, noting similarity to natural aging
09 p1388 A71-22194

Electron emission from He ion by proton bombardment, calculating double differential cross sections relative to ejection energy and angle
09 p1497 A71-22415

Radiation defects distribution in Si irradiated by protons, deuterons and alpha particles
10 p1655 A71-24140

Reflectance restoration of proton and UV degraded spacecraft thermal control coatings by low temperature oxygen plasma treatment applied to Surveyor 3 [AIAA PAPER 71-463]
11 p1800 A71-26244

Junction conversion and fabrication of Hg-Cd-Te n-p photovoltaic detectors by proton bombardment
13 p2066 A71-28043

Capacitance/voltage characteristics of MOS capacitors before/after 25 MeV proton irradiation
14 p2210 A71-29797

Impurity photoconductivity spectra determination for n and p type Si crystals under 660 MeV proton irradiation
21 p3433 A71-41311

Low temperature proton irradiation damage and recovery in discontinuous Ta films sputtered in oxygen and nitrogen
22 p3585 A71-41804

Optical line spectrum and ionization equilibria of hard UV radiation and energetic proton heated hydrogen, helium, nitrogen, oxygen and neon
22 p3601 A71-42160

Reactivity changes to pharmacocochemical preparations under total proton and gamma ray irradiation of abdomen and head shielded rats
22 p3492 A71-42717

High energy proton irradiation of rats with partial shielding of abdominal region, observing pathomorphological changes in myocardium, nervous system and radiosensitive organs
22 p3493 A71-42721

Lunar fines luminescence emission spectra in visible and near IR region under proton and electron excitations, discussing cause and plagioclase distribution
23 p3760 A71-43777

Proton irradiation damage on lunar surface, considering solar wind sputtering, reduction, chemical bond breakage and electron paramagnetic resonance
24 p3867 A71-44423

Trapped hydrogen atoms detection in proton irradiated KCl and NaCl single crystals at 77 K, using electron paramagnetic resonance spectroscopy
24 p3802 A71-44425

CNES hypotheses and methods determining current delivered by solar generator of FR 1 satellite, discussing electrical performance due to electron and proton irradiation 24 p3793 A71-44760

PROTON MAGNETIC RESONANCE
Ions association constant with water in propylene carbonate from proton magnetic resonance measurements 13 p2026 A71-29040

Magnetic drift waves near proton cyclotron frequency, noting magnetic field gradient role in plasma instability 23 p3709 A71-43181

PROTON PRECESSION
Time dependence of signal emf induced in toroidal proton precession magnetometer sensor with elliptical cross section 14 p2246 A71-30481

German monograph on calibrating induction coil and proton precession magnetometers for polar electrojet rocket experiments 18 p2915 A71-35922

PROTON PRECIPITATION
Electrostatic fields parallel to geomagnetic field role in charged particles acceleration mechanism to auroral energies, considering electron and proton precipitation 06 p0893 A71-17989

Energetic electron and proton precipitation measurements by sounding rocket-borne particle detectors in pulsating aurora 07 p1186 A71-19669

Auroral electron and proton precipitation patterns observed at Fort Churchill, discussing particle energies 08 p1282 A71-21636

Particle precipitation at auroral heights, examining ground based observations evidence for existence of protons, neutrons and electrons 12 p1947 A71-26864

Ring current as source region for proton auroras, calculating energetic proton lifetimes for model magnetosphere 13 p2064 A71-29167

Geomagnetic tail influence on polar ionosphere proton and electron precipitation, considering ionospheric ionization and polar cap absorption 14 p2300 A71-30034

Electron and proton precipitation observations in auroral, polar cap and outer radiation zones by electrostatic analyzers on earth satellite Injun 5 15 p2397 A71-31756

Lyman alpha emission cross sections for collisions of hydrogen ion and atom beams with thin target nitrogen and oxygen relevant to proton auroral analysis 15 p2397 A71-31763

Electron and proton precipitation, studying effects at high latitudes on 2 February 1969 magnetic storm 16 p2627 A71-33795

Pitch distribution of protons precipitated from auroral radiation region measured by scintillation detector aboard Cosmos 261 satellite in Northern Hemisphere 17 p2731 A71-34320

Precipitating protons measurement in 2.5-200 KeV energy range by OVI-15 satellite, comparing spatial distribution with plasmopause profile 19 p3125 A71-37358

Diurnal variations in equatorial and precipitating low energy solar proton-produced gamma rays in magnetosphere 19 p3125 A71-37359

Equatorial and precipitating solar proton fluxes interrelationship in magnetosphere from riometer absorption in auroral and polar cap regions 19 p3125 A71-37360

Magnetospheric current effects on geomagnetic field structure, noting electron and proton precipitation into auroral zone 19 p3059 A71-38396

Auroral luminosity patterns over northern Scandinavia based on ESRO all-sky camera recordings, noting relationship to electron and proton precipitation 19 p3060 A71-38573

Auroral electrons and protons precipitation patterns from ESRO 1A northern polar cap observations, identifying electron energy zones 19 p3060 A71-38574

Low energy electron and proton precipitation pattern in northern polar region, using low orbit satellite-borne spectrometer 20 p3281 A71-39728

Proton auroras ionization and excitation cross sections of atmospheric constituents by energetic hydrogen ions and atoms, presenting recent measurements and H emission laboratory results 20 p3228 A71-39845

Auroral electron and proton precipitation patterns, noting LF radio noise emissions relationship to low energy electron flux through Cerenkov process 20 p3228 A71-39846

Low energy auroral particle measurements from polar satellites, obtaining electron and proton

precipitations location, and angular and energy distributions 20 p3228 A71-39847

Auroral electron and proton precipitation patterns, measuring airglow emissions 20 p3284 A71-39848

Large and small scale auroral formation dynamics, covering precipitating electron and proton acceleration and plasma instabilities role 20 p3229 A71-39860

Proton precipitation satellite observation, comparing with simultaneous ground based measurement of auroral radar echoes 20 p3285 A71-39887

Magnetospheric plasma observation by Sirio 1 satellite, measuring protons, electrons and magnetic field with sensors 20 p3307 A71-39959

High latitude auroral particle precipitation patterns and connections to plasma sheet, ring current, cusp and radiation belt sources, using rocket and satellite observations 21 p3439 A71-41179

Noon-midnight high latitude proton trapping and precipitation boundary variations associated with polar magnetic substorms observed by ESRO 1A satellite 23 p3719 A71-43127

PROTON PROTUBERANCES
Solar proton and electron events from viewpoint of particle acceleration and magnetic field configuration in active region 03 p0478 A71-14036

PROTON RESONANCE
Auroral protons and substorm resonance concept, eliminating discrepancy between hydrogen emission spectroscopic and direct measurements 09 p1513 A71-22674

Resonant proton drift in asymmetric rotating magnetosphere, discussing flow from boundary or tail to auroral zone 13 p2128 A71-28235

Magnetospheric electric field dynamics, examining resonant protons role in magnetic storms 19 p3127 A71-37760

PROTON SATELLITES
NT PROTON 1 SATELLITE
NT PROTON 2 SATELLITE
NT PROTON 4 SATELLITE

PROTON SCATTERING
Inelastic scattering of protons from In 115, using proton beam cyclotron 01 p0130 A71-10482

Slow positive ion and electron production in collisions of protons and hydrogen atoms with gases of planetary atmospheres 03 p0460 A71-13494

DWBA optical model coupled channels comparison in 2s-1d shell for predicting proton scattering elastic cross sections 06 p0929 A71-17579

Fast neutron energy spectrum from free proton elastic scattering in emulsion plates, studying upper atmospheric altitude and latitude factors 06 p0962 A71-18180

Interplanetary magnetic field irregularities and solar proton diffusion mean free path during 25 February 1969 event 10 p1677 A71-24556

Unaccompanied hadron vs primary proton spectra in atmosphere and proton-air inelastic cross sections above 500 GeV from cosmic ray measurements 12 p1951 A71-27394

Charged particles magnetic scattering on cyclotron instability waves of radiation belt plasma, estimating proton relaxation time 13 p2129 A71-28552

Glauber approximations for elastic and inelastic scattering of protons by ground state hydrogen atoms, comparing with measurements 20 p3272 A71-39578

High energy proton spallation cross sections for several radionuclides from Ti targets, discussing application to lunar materials and meteorites analysis 23 p3706 A71-43199

High energy proton spallation cross sections for several radionuclides from Fe targets, discussing application to beam monitoring and meteoritic studies 23 p3706 A71-43200

PROTON TELESCOPES
U PARTICLE TELESCOPES

PROTON 1 SATELLITE
Electron flux and energy spectra measurements at 200-600 km altitude by Cerenkov counters onboard Proton 1 and 2 19 p3129 A71-38375

PROTON 2 SATELLITE
Atmospheric density variations determination from Proton 2 braking data for aerodynamic drag coefficient, constructing model for rarefied gas flow-satellite interaction 05 p0804 A71-16043

Atmospheric excess radiation flux azimuthal asymmetry in equatorial region, discussing angular intensity distribution data from Proton 2 Cerenkov counter 08 p1354 A71-21011

Atmospheric density variations determination from Proton 2 braking data for aerodynamic drag coefficient, constructing model for rarefied gas flow-satellite interaction 16 p2635 A71-33447

Electron flux and energy spectra measurements at 200-600 km altitude by Cerenkov counters onboard Proton 1 and 2 19 p3129 A71-38375

Atmospheric excess radiation flux azimuthal asymmetry in equatorial region, discussing angular intensity distribution data from Proton 2 Cerenkov counter 20 p3279 A71-39591

PROTON 4 SATELLITE
Proton 4 satellite high and superhigh energy cosmic ray spectrometer, discussing principles of operation and parameters 03 p0426 A71-13833

High energy cosmic ray spectrometer onboard Proton 4, discussing ionization calorimeter, nuclear targets, particle charge and radiation detectors and primary measurements 20 p3283 A71-39755

Proton 4 satellite high and superhigh energy cosmic ray spectrometer, discussing operational principles and parameters 22 p3594 A71-42634

PROTON-PROTON REACTIONS
Strongly magnetized relativistic degenerate electron gas proton-proton reaction rates and electron capture over various temperatures, densities and magnetic field strengths 10 p1661 A71-24305

Proton-proton interactions at 70-600 GeV in Echo Lake cosmic ray experiment, discussing multiplicity, prongs, hadron flux and ionization calorimeter 12 p1933 A71-27391

PROTONS
NT RECOIL PROTONS
NT SOLAR PROTONS

Interstellar H I region Lyman alpha production by suprathermal protons, determining temperature and ionization equilibrium 04 p0640 A71-14873

Eddington theory validity based on formulas connecting light velocity, Planck and gravitational constants and electron, proton and neutron masses 04 p0626 A71-15136

Resonant proton drift in axisymmetric rotating magnetosphere, discussing flow from boundary or tail to auroral region 05 p0800 A71-17178

Pitch angle distribution of protons and helium ions in magnetosphere from numerical solution of Fokker-Planck equation 06 p0964 A71-17285

Subprotonospheric and ion cyclotron whistlers generated by same lightning discharge observed by OVI-10 satellite 06 p0869 A71-17995

Galactic cosmic ray proton and He spectrum measurements in 1968 compared to electron spectra, explaining solar modulation features by models incorporating energy loss effects 06 p0952 A71-18112

Secondary cosmic ray spectrum latitude knee based on nucleon, proton and muon energy spectra 06 p0960 A71-18167

Electron and proton whistlers polarization reversal and mode coupling, explaining magnetic latitude dependence 07 p1062 A71-19667

Galactic cosmic ray proton and He nuclei spectra measurements aboard Pioneer 8 spacecraft over large energy range, considering solar modulation parameters 08 p1355 A71-21626

Type I fluctuations experienced by extensive air showers generated by protons or heavy nuclei, discussing effect on primary cosmic ray energy determination 10 p1661 A71-23858

Magnetospheric numerical model with two-monoenergetic-component proton distribution function, examining ring current belt formation causing inflation 10 p1663 A71-24782

Proton form factors and radius determination from experimental data analysis of cross sections of electron scattering by protons over wide transferred-momentum range 12 p1901 A71-27180

High energy nuclear bursts without accompanying air showers, considering surviving primary protons without inelastic collision in atmosphere 13 p2121 A71-28054

Proton release association with whole blood oxygenation at constant plasma pH and carbon dioxide partial pressure, using alkaline titration 13 p2007 A71-28433

- Solar wind modulation effects on galactic protons and cosmic rays, using radial magnetic field mathematical model and Monte Carlo method
17 p2795 A71-34373
- Air shower pion/proton and neutral/charged ratios at mountain altitude, using cloud chamber, Cerenkov counter and spectrometer measurements
20 p3279 A71-39323
- Auroral substorm model refinements for proton aurora by classifying substorms according to intensity or magnitude
20 p3284 A71-39858
- Trapped protons flux vs L profile measurement on-board sounding rocket near equator, comparing results with calculation from neutron albedo source and atmospheric losses
20 p3284 A71-39881
- Proton form factors and radius determination from experimental data analysis of cross sections of electron scattering by protons over wide momentum transfer range
22 p3578 A71-42454
- Equatorial proton and electron pitch angle distributions in loss cone and at large angles from geostationary ATS 5 satellite observation
23 p3720 A71-43165
- Proton recording equipment onboard automatic interplanetary stations Zond 4 and 5 at 1.5-50 MeV using silicon drift counters
23 p3675 A71-43274
- Nonadiabatic and atmosphere induced energy losses as causes of proton capture in geomagnetic field
24 p3867 A71-45320

PROTOPLASM

- Soviet monograph on coacervates and protoplasm covering colloidal-chemical properties, enzyme catalysts and multiphase cell and organism simulation
21 p3336 A71-40870

PROTOSTARS

- NT T TAURI STARS
Neutral condensations and protostars in H II regions noting original density distributions
06 p0973 A71-18340
- Protosun and primordial solar nebula evolution based on dust particles behavior
11 p1819 A71-25221
- Prestellar evolution, discussing interstellar medium, star development phases, cloud formation, gravitational/thermal instability and protostars
12 p1960 A71-26783

PROTOTYPES

- Missile prototype reliability prediction, using reliability theory concepts in establishing computation and test programs without damage probability determination
02 p0298 A71-12366
- Pilot vacuum pump with piston-rotor compression action to enhance pumping performance, comparing to single stage pumps
22 p3554 A71-42490

PROTOZOA

- NT PARAMEDIA
Hypoxia effects on organism resistance and immunobiological reactivity, noting bacterial and protozoa infections aggravation
13 p2006 A71-28401
- Infusoria adaptation ability to extreme environmental conditions with emphasis on Mars surface
22 p3496 A71-42825

PROTUBERANCES

- NT PROTON PROTUBERANCES

PROVING

- NT THEOREM PROVING

PROXIMITY

- Microwave receiving and transmitting antennas proximity effects on permittivity measurements of dielectric layer
01 p0057 A71-11206
- Proximal changes and stimulus patterns associated with rotation direction evoking visually perceived oscillation
10 p1570 A71-24606
- Microwave receiving and transmitting antennas proximity effects on permittivity measurements of dielectric layer
17 p2697 A71-34258

PSEUDOMONAS

- Phosphoenolpyruvate as enzyme inhibitor of phosphoribulokinase in *Pseudomonas facilis* with respect to ribulose-5-phosphate and ATP
20 p3185 A71-38820

PSEUDONOISE

- PCM telemetry receiving stations testing, comparing bit error probabilities of coherent and noncoherent methods of synchronizing pseudonoise sequences
01 p0033 A71-10890
- Noiselike signals frequency modulation via pseudorandom sequence, deriving relationships for spectra and combined frequency-lag correlation functions
03 p0378 A71-13393
- Coherent communication link pseudonoise synchronization error due to white Gaussian noise and amplitude jitter produced by reference carrier phase error, discussing digital simulation
05 p0725 A71-17072

PSEUDORANDOM SEQUENCES

- Reception and transmission of reduced sidelobe pseudorandom FM signals using quaternary S-sequence synthesis
01 p0037 A71-11082
- Filter output voltage in pseudorandom signals correlation processing, using Duhamel integral
03 p0378 A71-13392
- Multiplex spectrometer for eclipse spectra photoelectric observation, using pseudorandom binary sequences as encoding pattern
03 p0424 A71-13634
- Uniform frequency distribution pseudorandom digital sequences, using shift register generator
04 p0560 A71-14745
- Subsequences of pseudorandom sequences for correlation detection, discussing algorithms for weight distribution moments determination
05 p0724 A71-17062
- Binary pseudorandom codes sequences correlation properties in PSK telemetry
09 p1404 A71-22154
- Interference threshold probabilities of pseudorandom frequency hopped signals in conventional spread spectrum communications relative to Gaussian receiver bandwidth
12 p1881 A71-27428
- Pseudorandom binary codes for improved microwave antenna range measurements by suppressing unwanted reflections
15 p2373 A71-32370
- Binary sequences generated by conventional pseudorandom shift register sequences for communication and system identification
18 p2881 A71-36568

PSYCHIATRY

- Aerospace psychiatry, discussing relationships between personality patterns and environmental factors, adaptability to occupational situations in combat flying and space activities
08 p1238 A71-20722
- Pilot psychic states in flight, including preliminary demobilization, drowsiness, stunning, euphoria and phobias
16 p2536 A71-33576

PSYCHOACOUSTICS

- Broadcast sound loudness level monitor as measuring and indicating instrument, discussing technological and psychoacoustical evolution
20 p3271 A71-39763

PSYCHOLOGICAL EFFECTS

- NT ILLUSIONS
NT OCULOGRAPHIC ILLUSIONS
Human subjective responses to approaching and receding aircraft sounds during flight over stationary observer
01 p0127 A71-10345
- Moderate acoustic stimuli effects, discussing subjective noise ratings relation with physiological and mental state changes
02 p0208 A71-12838
- Physiological and psychological human responses to sonic booms in France, UK and U.S. considered as acceptability criteria
03 p0371 A71-13167
- Mechanical, physiological and psychological responses of man to sinusoidal whole body vibration
08 p1248 A71-21230
- Psychoreactive action caused by flying accident in group, discussing repercussions in civil and military aviation fields
10 p1572 A71-24982
- Noise disturbance near large airports, considering aircraft noise, public annoyance and socio-psychological conditions
12 p1875 A71-27478
- Psychobiological effects of prolonged bed rest in young healthy volunteers from EEG recording, psychological testing and psychomotor performance
13 p2022 A71-29363
- Large subsonic jet aircraft civil pilots performance under physiological and psychological stresses induced during severe atmospheric turbulence
14 p2188 A71-29783
- Young pilot performance in emergency situations including communication system failure and other equipment breakdowns, noting emotional reactions
16 p2534 A71-32831
- Pilot psychic states in flight, including preliminary demobilization, drowsiness, stunning, euphoria and phobias
16 p2536 A71-33576
- Elevated atmospheric pressure effects on human psychophysiological qualities including attention, memory and time-estimating capabilities and nervous processes equilibrium
16 p2536 A71-33578
- Visual evoked potentials and cortical recovery cycle data for normal and psychiatric subjects of various ages
17 p2682 A71-35113
- Zoellner illusion as function of inducing and test lines intersect angle and lines density, deriving error functions
18 p2863 A71-37019

SUBJECT INDEX

- Noise exposure effects on human physiological and psychological functions and performance
20 p3192 A71-38959
- Long term exposure to electric shock and associated stimuli on squirrel monkeys, considering aggressive and manual responses
20 p3187 A71-39070
- Apparent motion effects associated with stationary flashing lights configurations, noting frequency response characteristics analogous to real motion effects in human visual system model
22 p3498 A71-41487
- Presentation modality as encoding variable in short term memory, obtaining mean recall score as function of trials
23 p3639 A71-43113
- Observer psychological response to air defense oriented visual information displays
23 p3640 A71-43904
- Affect adjective checklist assessment of mood changes as function of stress in air traffic controllers
23 p3640 A71-44240
- Biorhythms and related physiological and psychic disturbances, stressing importance in aerospace medicine
23 p3637 A71-44245
- Averaged potentials in vertex and occipital region of human cranium evoked by emotional visual stimuli
24 p3798 A71-45057
- PSYCHOLOGICAL FACTORS
Behaviorally induced hypertension in squirrel monkey following conditioned key-pressing response schedules
01 p0015 A71-11330
- Statistical analysis of airline flight crew psychological unfitness
01 p0028 A71-11598
- Flying motivation loss, considering psychogenesis and physiological causes
05 p0715 A71-16933
- Pilot nervous-emotional state during flight conditions determined from uropepsin excreted in urine
05 p0711 A71-17028
- Complex psychomotor task time duration relation to subtask performance and psychological measures
07 p1047 A71-19459
- Psychopathology identification by manifest phenotypic behavior, discussing syndrome identification, misperceptions and distorted impressions
07 p1042 A71-19697
- Psychological aspects influencing aircrewman capacity to perform useful work, detailing selection, training, operational environment and global factors
08 p1245 A71-20724
- Visual recognition process for simple achromatic image confined within simultaneous-perception viewing angles, deriving hypothetical model based on psychological factors
10 p1567 A71-24162
- Motivation principles in industry based on Maslow theory of hierarchy of needs, discussing selection of supervisory personnel
13 p2167 A71-28798
- Motivations of scientists, engineers and technicians, considering changing nature of R and D projects
13 p2167 A71-28800
- Shower habitability requirements for adequate cleansing of body and hair to satisfy physiological, psychological and social needs of crew members on long space missions
[AIAA PAPER 71-873]
18 p2870 A71-36629
- Psychological training for personality development of aircraft stewardesses for conscious passenger relation establishment
19 p3008 A71-38224
- Soviet book on psychology and outer space covering astronaut experiences and emotions during training and flights, daily routine, equipment, food, habits and personal characteristics
21 p3336 A71-40876
- Sick and injured transportation aboard regular airliners, considering pathological and psychological contraindications
22 p3500 A71-41572
- Psychopathological causes for French Air Force flying personnel inaptitude, considering motivational problems and age factor
22 p3500 A71-41575
- Human adaptive behavior under psychological stress of astronauts tasks posture-motor characteristics, discussing stabilographic platform test results
22 p3503 A71-42041
- Short term central fatigue as causal factor of delayed psychological refractory period in multiple choice visual signal tasks
23 p3634 A71-43864
- PSYCHOLOGICAL INDEXES
U PSYCHOLOGICAL TESTS
PSYCHOLOGICAL TESTS
Visual slant averaging mechanism evidence from binocular disparator tests, considering gradient slant perception theory and neurophysiological averaging mechanism
04 p0546 A71-15170

Psychometric measurements approaches for pilot training questionnaires, considering personality traits standard model

10 p1559 A71-23929

Pretask instructions effect on vigilance task performance, measuring time related signal detection correct and incorrect response percentages

10 p1571 A71-24808

Psychological selection of pupil pilots, discussing statistical correlations between values of some single parameters of Zulliger test and instructional data

10 p1572 A71-24981

Rhesus monkeys concurrent avoidance and appetitive behavior patterns with counter discontinuities in shock proximity indicator tests

10 p1573 A71-25136

Multiple suprathreshold visual and auditory monitoring tasks, evaluating vigilance decrement, individual differences, intertask relationships and channel capacity

12 p1874 A71-27248

Sensomotor activity tests of operator perceiving high speed stimuli in broad visual field for psychological selection of aircraft and spacecraft pilots

13 p2018 A71-28416

Psychological tests for aerial photograph interpreter selection and performance prediction

16 p2534 A71-32829

Psychosociological and medical evaluation of private pilots to promote flight safety

17 p2690 A71-34824

Recognition response time experiments for word number effects in target set, discussing familiarity judgment and response decision

17 p2683 A71-35250

Stimulus familiarization effects on visual selection patterns during exposure to banal and incongruous paired stimuli

17 p2683 A71-35251

Human visual depth impression by gradient patterns, discussing experimental verification for hypothesis concerning perceptual economy principle

17 p2684 A71-35252

Risk additivity in portfolios from experiments on accommodation role in binocular rivalry control

17 p2684 A71-35254

Human visual system differential luminance sensitivity tests using simultaneous stimuli in yes-no procedure

17 p2684 A71-35256

Autokinetic motion of luminous target, relating apparent visual movement to experienced displacement

17 p2694 A71-35739

Human performance in rotating environment, discussing Stromberg Dexterity, pursuit rotor, mental arithmetic, verbal learning and NAMI Ataxia tests

18 p2871 A71-36637

Artificial gravity selection by rats in centrifugal acceleration fields superimposed on weightlessness during sounding rocket flights

18 p2857 A71-36646

Fear measurement and mastery, investigating relationship between experience and electrodermal arousal in responses to stimulus words of varying relevance

18 p2862 A71-36944

Time duration judgment under visual stimulus, noting numerosity effects

18 p2863 A71-37018

Mental work capacity investigation methodology, including Kekchev, Kosilov, Zinchenko, Pratushevich and Kraepelin tests

19 p3006 A71-37446

Test equipment for evaluating human higher nervous activity, noting use for radiotelegraphist selection

19 p3007 A71-37775

Computer generated buffered displays for psychological experiments involving interception, tracking, steering, memory and calculation tasks

21 p3341 A71-40136

Flashing lights attention attraction classification based on experimental results conversion into psychometric scale

22 p3498 A71-41486

Pilot EEG, behavioral and subjective correlates of natural and drug induced sleep at atypical hours, using calculation and vigilance tests

22 p3502 A71-41835

Psychophysiological and conversion mechanisms as unconscious expression of student pilot motivation decrease for further flight training, presenting case histories

22 p3502 A71-41837

Visual stimulus control removal and restoration in rhesus monkeys, analyzing test errors

22 p3497 A71-42860

Psychological screening of pilot trainees, showing neurosis noncorrelation with learning ability to fly

23 p3639 A71-43221

Psychological screening of pilot trainees, investigating Minnesota Multiphasic Personality Inventory test data correlation with learning ability to fly

23 p3639 A71-43222

Human visual system color and edge-sensitive channels confirmation by psychological tests of tuning for orientation

23 p3640 A71-43548

Stereoacuity role in pilot ability to land aircraft at minima, questioning adequacy of Verhoeff depth perception test administration conditions

23 p3637 A71-44244

Psychophysiological loudness and annoyance indices application in sonic boom comfort level evaluation, pulsating noise estimation and sound insulation system effectiveness determination

24 p3799 A71-44399

PSYCHOLOGY

NT MILITARY PSYCHOLOGY

NT PSYCHOACOUSTICS

NT PSYCHOPHYSICS

Perception - Conference, New York, October 1970

07 p1042 A71-19694

Gestalt psychology perceptual organization, analyzing contextual background and residual stimuli, interaction concepts, configurational principles and organismic factors

07 p1042 A71-19696

Psychological and neurophysiological definitions of vigilance, considering alcohol and tranquilizers effects

16 p2533 A71-34040

Psychological correlates of pattern identification tasks and invariance of pattern recognition under rotation, using Kabrisky model of human visual system

17 p2694 A71-35792

Human factors engineering, discussing industrial, engineering and experimental psychology, human relations, research on attention, perceptual motor skills and control systems laboratory

18 p2864 A71-36296

PSYCHOMETRICS

Input-output transformations for judgments of area of circles and paired weights, using nonmetric scaling

05 p0713 A71-16548

Relevant cue placement effects in concept identification tasks employing enforced verbal encoding

07 p1048 A71-19514

Computer aided statistical model of visual evoked potential in man as normality criterion for pathological indicator

09 p1397 A71-22253

Psychometric measurements approaches for pilot training questionnaires, considering personality traits standard model

10 p1559 A71-23929

Psychometric analysis of annoyance by wideband noise with superimposed narrow band component, using multiple regression and scaling method

19 p3008 A71-38061

Flashing lights attention attraction classification based on experimental results conversion into psychometric scale

22 p3498 A71-41486

PSYCHOMOTOR PERFORMANCE

NT PSYCHOSOMATICS

Proprioception role in perception of arm bending and extension during weightlessness and accelerations in aircraft flight along parabolic trajectory

01 p0014 A71-11143

Impulsive activity of neuron populations in cerebral sections controlling psychic and motor functions in man

01 p0014 A71-11149

Slow cortical potentials associated with human motor and mental acts differentiated via spatial distribution

01 p0015 A71-11220

Information feedback distortion and countertraining effects on learning and performance in lever displacement-target test

01 p0026 A71-11415

Figural noise and rotation effects on visual form perception, using random and redundancy figures in figure cancellation task

01 p0026 A71-11417

Vestibular nystagmus and display luminance effects on hand-eye coordination in compensatory tracking of aircraft instrument

02 p0207 A71-12381

Reward magnitude effects on runway performance of rats with intertrial feeding

03 p0372 A71-13693

Pursuit tracking skill acquisition in humans, considering sex, initial ability, age, aptitude and proficiency levels and psychomotor performances

05 p0713 A71-16549

Complex psychomotor task time duration relation to subtask performance and psychological measures

07 p1047 A71-19459

Hypoxia from aerospace medicine viewpoint, discussing respiration physiology, oxygen transport, altitude effects, psychomotor functions, etc

08 p1238 A71-20705

CO exposure effects on human psychomotor performance for blood carboxyhemoglobin saturation levels, using sleep monitored EEG methods

11 p1726 A71-26509

Psychobiological effects of prolonged bed rest in young healthy volunteers from EEG recording, psychological testing and psychomotor performance

13 p2022 A71-29363

Human factors engineering, discussing industrial, engineering and experimental psychology, human relations, research on attention, perceptual motor skills and control systems laboratory

18 p2864 A71-36296

Human psychomotor performance measurements in rotating environments, using Langley complex coordinator and decision response time devices

19 p3006 A71-37275

Human EEG changes and motor analyzer activity during mental visualization of motions

19 p3002 A71-37445

Conditioned motor reactions characterizing higher nervous activity, using logokinetic method

19 p3006 A71-37447

Computer generated buffered displays for psychological experiments involving interception, tracking, steering, memory and calculation tasks

21 p3341 A71-40136

Human perceptual motor skill development in tracking performance, using feedback control system gain and effective time delay as measures

21 p3343 A71-40909

Human adaptive behavior under psychological stress of astronauts tasks posture-motor characteristics, discussing stabilographic platform test results

22 p3503 A71-42041

Healthy males immersion in water containing NaCl, determining modified gravitational field effect on motor functions

22 p3505 A71-42792

Alpha activity parameters during human performance of motor tasks with open and closed eyes

23 p3631 A71-43108

PSYCHOPHYSICS

NT PSYCHOACOUSTICS

World four dimensional and space three dimensional characters and psychophysical sensations dependence on Weber-Fechner law and tritstimulus principle in psychology

09 p1530 A71-23730

Thresholds comparison for angular acceleration derived by subjective cupulometry and by staircase method, determining thresholds for rotation perception and oculogyral illusion

10 p1570 A71-24605

Human color vision investigation by psychophysical methods, discussing spectral sensitivity, pigment absorption and defective color vision as function of stimulus wavelength

12 p1873 A71-26863

Ergonomic evaluation of flight crew working conditions from viewpoint of static and dynamic adaptation of aircraft system design to human psychophysical capabilities

19 p3007 A71-38016

PSYCHOPHYSIOLOGY

Psychophysiological, strict engineering-psychological and systems engineering analyses, solving engineering-psychological problems in large control systems for human operators

03 p0369 A71-13001

Book on visual perception covering physics of light, rods and cones, color vision, brightness psychophysiology, stimulus generalization, etc

06 p0850 A71-17409

Mean period spontaneous EEG as psychophysiological characteristics of higher nervous activity in human individuals

06 p0858 A71-17600

Human operator psychophysiological analysis by memory-activity interdependence simulation, noting buffer memory, reflex system and habit acquisition

07 p1050 A71-20107

Psychological aspects influencing aircrewman capacity to perform useful work, detailing selection, training, operational environment and global factors

08 p1245 A71-20724

Psychobiological stress of prolonged weightlessness/bed rest/ in man in terms of adaptive homeostatic state and decreased sensory-motor-muscular input

11 p1725 A71-26120

Color and music distraction for operator in isolated environment and counteract psychophysiological activity impairment

20 p3193 A71-39225

Psychophysiological reactions to understimulation and overstimulation, noting catecholamine output, heart rate and performance efficiency in humans

21 p3329 A71-40177

Psychophysiological and conversion mechanisms as unconscious expression of student pilot motivation decrease for further flight training, presenting case histories

22 p3502 A71-41837

Two dimensional probabilistic images generation and statistical characteristics determination, noting application to psychophysiological experiments

22 p3518 A71-42422

Psychophysiological loudness and annoyance indices application in sonic boom comfort level evaluation, pulsating noise estimation and sound insulation system effectiveness determination
24 p3799 A71-44399

PSYCHOSES

NT SCHIZOPHRENIA

Endocrine and metabolic effects of noise in normal, hypertensive and psychotic subjects, considering increased corticoadrenal and adrenergic activity
03 p0359 A71-13154

Psychopathology identification by manifest phenotypic behavior, discussing syndrome identification, misperceptions and distorted impressions
07 p1042 A71-19697

PSYCHOSOMATICS

Instrumental learning of cardiovascular and visceral responses and behavioral, physiological and biochemical consequences in relation to psychosomatic therapy
20 p3190 A71-39548

PSYCHOTHERAPY

Brain cortical-subcortical functions in psychic processes, indicating developments in psychotherapy
08 p1241 A71-21940

PSYCHROMETERS

Mean dry bulb temperature estimation during daylight hours by subtracting proportion of average daily range from daily maxima average
18 p2944 A71-36961

PSYCHROPHILES

Thermophilic, mesophilic and psychrophilic anaerobes fatty acid composition, discussing results obtained by mass spectral analysis
15 p2360 A71-32050

PTM [MODULATION]

U PULSE TIME MODULATION

PUBLICATIONS

U DOCUMENTS

PULMONARY CIRCULATION

Direct continuous radiotelemetry of blood pressure measurements taken from aorta, pulmonary artery and inside heart during normal activity of test subjects
03 p0371 A71-13070

Mixed venous oxygen tension oxide determination by nitrogen-carbon rebreathing method, considering pulmonary blood flow and oxygen carrying capacity
03 p0360 A71-13182

Pulmonary gas exchange relation to cyclical pattern of ventilatory flow, considering alveolar dead space and metabolic and respiratory rate effects
03 p0361 A71-13183

CO pulmonary diffusing capacity rebreathing measurements at rest and while exercising, noting relationship to oxygen consumption
04 p0545 A71-15162

Main pulmonary artery velocity profiles in dogs and man, using thin-film resistance anemometer
05 p0706 A71-16324

Lung volume direction and change rate effects on pulmonary vascular conductance and arterial flow in isolated dog lung lobe
05 p0711 A71-16952

Right and left ventricular systolic time intervals from high fidelity pulmonary arterial pulse wave measurements
06 p0852 A71-17875

Acute pulmonary embolism diagnoses, using vasculature angiography
07 p1042 A71-19838

Physiological characteristics in llamas pulmonary circulation at sea level and changes after 5 and 10 weeks at 3,420 m above sea level, noting arterial hypertension
08 p1237 A71-20678

Premature pulmonary valve closure due to severe mitral insufficiency by left atrial V wave retrograde transmission
08 p1240 A71-21888

Excitation-contraction coupling of papillary muscles from hypertrophied right ventricles of cats with pulmonary artery artificial stenosis
09 p1395 A71-23257

Blood plasma hyperosmolality and pulmonary vascular resistance in cats, infusing hyperosmolar solutions of sodium chloride, mannitol, urea, glucose, thiourea and ethylene glycol
09 p1396 A71-23258

Book on gravity and acceleration effects on lungs covering breathing mechanics, ventilation distribution, blood flow, gas exchange, arterial oxygen saturation and pulmonary shunting
[AGARDOGRAPH-133] 09 p1402 A71-23620

Pulmonary circulation - Conference, Prague, June 1969
10 p1560 A71-24121

Volume, compliance and flow resistance of pulmonary vascular compartments of dogs
10 p1560 A71-24122

Stroke-pulmonary blood volume relation and vascular recruitment and distensibility in dogs, allowing independent control of flow, heart rate and left atrial pressure
10 p1561 A71-24123

Gradual unilateral hypoxia effects on pulmonary blood flow partition, noting interaction with hypercapnia
10 p1561 A71-24125

Regional pulmonary vasomotor activity in sitting man, determining pulmonary flow distribution with Xe 133 technique
10 p1561 A71-24126

Pulmonary arterial blood flow regulation by hydrostatic pressure in low resistance circulatory system
10 p1561 A71-24127

Aging effects on blood pressure-flow relations and cardiac output/ventricular end diastolic pressure, discussing pulmonary vascular bed capacity dependence on increasing flow during supine exercise
10 p1561 A71-24128

Age effect on pulmonary circulation in normal subjects, measuring oxygen consumption, cardiac output and pulmonary arterial pressure by floated catheter technique
10 p1561 A71-24129

Closed steady streamline creeping flow in cylindrical cavity applied to bubble or plug train in pulmonary and peripheral capillaries
10 p1571 A71-24614

Pulmonary arterial system impedance and transmission properties, noting hypoxia and serotonin infusion vasoconstrictor effects
11 p1719 A71-25929

Hypertensive heart and pulmonary vascular disease, examining chronic alveolar hypoxia effects
11 p1719 A71-25931

Human heart rate, minute ventilation and oxygen uptake measurement during treadmill and track running at three speeds
12 p1874 A71-27134

Pulmonary circulation regulating factors, examining heart disease effects on lung capillary blood flow
13 p2003 A71-27861

High altitude pulmonary edema in unacclimatized humans, discussing symptoms, etiology incidence and prevention
14 p2183 A71-30277

High altitude blood coagulation, determining hypercoagulability relationship to altered pulmonary hemodynamics
14 p2183 A71-30278

High altitude pulmonary edema syndrome, investigating increased alveolar-arterial oxygen gradients of humans during treadmill exercise
14 p2184 A71-30279

High altitude residents cardiovascular evaluations, showing right ventricular enlargement and reactive pulmonary hypertension
14 p2184 A71-30285

Vago sympathetic nerve trunk stimulation effects on pulmonary blood volume changes magnitudes and pattern in isolated perfused lungs
14 p2187 A71-31135

Validity and reproducibility of cardiac output determination by thermolulution, using dual thermistor catheter introduced in pulmonary artery
16 p2531 A71-33366

Pulmonary blood volume changes in cat due to neurogenic, pharmacological and mechanical effects on cardiovascular system, noting pulmonary function role
16 p2533 A71-34112

M-cholinergic and adrenergic subcortical structures blockage effects on blood flow rate in dog pulmonary circulation system
16 p2534 A71-34113

Automatic regulation of volumetric blood flow rate during artificial blood circulation, using electromechanical system for controlling arterial pump of cardiopulmonary machine
19 p3010 A71-38641

Right and left heart and pulmonary blood volume determination, using radiocardiograms and analog computer analysis
20 p3191 A71-38801

Analog computer analysis of radiocardiograms, determining cardiac function and pulmonary blood volume
20 p3191 A71-38802

Pulmonary nitrogen washout and carbon monoxide uptake, developing dynamic mathematical models for volume and distensibility distributions in airways and alveoli
20 p3193 A71-39441

Pulmonary circulation pressure and flow telemetry of free ranging intact animals, describing instrumentation and technique for transduction and transmission
23 p3640 A71-44243

Pulmonary blood flow and carbon monoxide diffusing capacity uneven distribution measurements, determining body position effects
24 p3798 A71-44782

PULMONARY FUNCTIONS

Human gas metabolism under rarefied atmosphere via gas chromatography, discussing pulmonary ventilation determination and exhaled samples collection equipment
01 p0025 A71-11142

Lung volume direction and change rate effects on pulmonary vascular conductance and arterial flow in isolated dog lung lobe
05 p0711 A71-16952

Air blast effects on pulmonary ventilation, gas exchange, venous-arterial shunt and blood gas parameters
06 p0851 A71-17601

Lipid peroxidation in pulmonary hyperoxia, noting effects of hyperbaric oxygen, ascorbic acid and ferrous iron
06 p0851 A71-17604

Right and left ventricular systolic time intervals from high fidelity pulmonary arterial pulse wave measurements
06 p0852 A71-17875

Respiratory mechanics and ventilatory response to carbon dioxide during positive pressure breathing in conscious man
06 p0861 A71-18379

Time constant for collateral ventilation in human, dog and pig lungs under various physiological conditions
06 p0856 A71-18385

Oxygen tension effect on pulmonary diffusion capacity and postnatal lung growth in rats under hypoxic, normoxic and hyperoxic atmospheres
10 p1559 A71-23899

Pulmonary vasoconstrictor response to temperature dependent acute hypoxia, using isolated rat lungs with heparinized homologous blood under constant volume pulsatile inflow
10 p1561 A71-24124

On-line computer technique for pulmonary ventilation continuous/automatic measurement of cardiac patients exercise and work tolerances
11 p1734 A71-25255

Alveolar air samples of human subjects at various altitudes, determining gas composition and partial pressure
12 p1876 A71-27658

Abdominal pressure decrease resulting in transpulmonary pressure cranio-caudal gradient increase under gravitational effect simulation
13 p2008 A71-28437

Pulmonary oxygen toxicity, considering composition of endobronchial saline extracts of rats and edema development
13 p2015 A71-29362

Lung diffusing capacity for oxygen during exercise and alveolar hypoxia measured without blood samples by ear oximeter
13 p2023 A71-29492

Position, exercise and lung volume effects on healthy males pulmonary diffusing capacity for CO at rest and during exercise
13 p2015 A71-29493

Airway smooth muscle relaxation mechanical consequences concerning lung volumes, airway conductance, isovolume pressure flow, maximum expiratory flow volume and static lung recoil
13 p2024 A71-29497

Pulmonary oxygen toxicity development rate and effects on lung volume and alveolar-arterial gas exchange during oxygen breathing
13 p2024 A71-29501

Human hypoxic ventilatory drive data for high altitude breathing, noting motivation reduction inversely related to time and altitude
14 p2185 A71-30288

Ventilatory control in acute hypoxia, detailing polycythemia effects on respiratory chemoreceptor sensitivity
14 p2185 A71-30289

Regulation patterns of external respiration rate in man during physical exertion, showing load dependent pulmonary ventilation in accord with minimum energy expenditure principle
15 p2358 A71-31321

Diaphragm mechanics, discussing thoracic pressure-lung volume and air flow relationships of respiratory system during electrophrenic stimulation in men and cats
16 p2530 A71-33239

Pulmonary blood volume changes in cat due to neurogenic, pharmacological and mechanical effects on cardiovascular system, noting pulmonary function role
16 p2533 A71-34112

Oxygen pulmonary diffusion capacity estimation by rebreathing procedure based on gas-blood partial oxygen-pressure equilibration
17 p2678 A71-34173

Human physiological responses to rotating environment, evaluating heart rates, blood pressure, pulmonary functions, visual observations and vital capacities [ALAA PAPER 71-890]
18 p2856 A71-36639

Pulmonary diastolic pressure relation to left ventricle and atrium of patient with diagnostic heart catheterization at rest
19 p3004 A71-38296

Rabbit tolerance to pulmonary edema by lung exposure to low ozone dosage
19 p3009 A71-38558

- Low ozone dosage exposure effects on rabbit lung endogenous defense mechanisms 19 p3009 A71-38559
- Respiratory reflex mechanism of deep breath occurrence after period of airway occlusion in rabbits related to stimulation of vagal receptors 20 p3187 A71-39040
- Inspired oxygen concentrations effects on arterial and mixed venous pH, carbon dioxide uptake and oxygen partial pressure in normal subjects 20 p3189 A71-39442
- Human expiratory oxygen and carbon dioxide partial pressure and dissociation curves for intrapulmonary gas mixing, using mass spectrometry 21 p3328 A71-40098
- Pulmonary dissipation of gas emboli produced by oxygen, nitrogen and carbon dioxide intravenous injection in unanesthetized sheep with chronically implanted ultrasonic Doppler flow probes 21 p3330 A71-40342
- Pulmonary antibacterial defenses with pure oxygen breathing mice, noting inhibition of early interpulmonary clearance of *Staphylococcus aureus* and enhanced clearance of *Klebsiella pneumoniae* 22 p3487 A71-42241
- Respiratory function and gas metabolism shift under high transverse accelerations in reclined centrifuged subjects 22 p3495 A71-42795
- Pulmonary carbon monoxide diffusing capacity of sea level and high altitude dwellers at various altitudes, noting early postnatal lung growth effects 24 p3797 A71-44778
- PULMONARY LESIONS**
- Generalized hyperoxia and local effects of oxygen on lungs in etiology of pulmonary damage due to oxygen, noting nitrogen and carbon monoxide effects 08 p1237 A71-20681
- Succinic dehydrogenase activity inhibition and pentobarbital sodium protection of lung tissue in mouse breathing oxygen at atmospheric pressure 11 p1721 A71-26125
- PULSARS**
- Crab pulsar optical pulses time of arrival measurements, discussing various emission mechanisms as cause for pulsar slowdown characteristics 01 p0153 A71-10363
- Pulsar distances tabulation, discussing possible IR emission 01 p0153 A71-10365
- Pulsars characteristics including rotation periods, age, magnetic field strength, gravitational fields and translational motion 01 p0160 A71-11066
- Pulsars periods distribution at different galactic latitudes 01 p0161 A71-11339
- Pulsars as rotating neutron stars with frozen-in magnetic field, accounting for energy and angular momentum losses due to gravitational radiation 02 p0300 A71-12473
- Vela pulsar optical emission identification using phase selective image tube photographs 02 p0315 A71-12658
- Vela pulsar optical emission identification by photoelectric measurements 02 p0315 A71-12659
- Pulsar pulse arrival times measurement for general relativity theory test, determining positions and period change rates 02 p0315 A71-12660
- Gas heating near quasars, Seyfert galaxies nuclei and pulsars by induced Compton effect 02 p0317 A71-12872
- Pulsar radio signal characteristics, examining pulse profiles, nulls interstellar scintillation and optical and X ray bursts 02 p0318 A71-12914
- Pulsar PSR 1237 plus 25, noting correlated subpulse structure with Fourier analysis method 02 p0318 A71-12951
- Physical processes in galactic and extragalactic sources of nonthermal radio emission, assuming pulsars as principal magnetic field and cosmic rays sources 03 p0483 A71-13201
- Small angular diameter radio source in central Crab Nebula association with pulsar NP 0532 based on spectra and pulse duration 03 p0483 A71-13203
- Pulsar radio wave generation, discussing emission theory and frequency independence of beam width and polarization 03 p0493 A71-14208
- Pulsar free rotational dynamics accounting for amplitude and time variations in signals, considering nonrigidity and viscosity effects 03 p0493 A71-14211
- Runaway pulsar formation and ejection in supernova collapse, fragmentation, condensation, radiation and disruption 04 p0643 A71-15046
- Pulsar NP 0532 average polarization absence due to Crab Nebula depolarization or unpolarized radiation on emission 04 p0643 A71-15047
- Pulsar radiation intensity time variations at radio frequencies, noting observations of CP 1133 04 p0649 A71-15273
- Crab Nebula pulsar radio pulses polarization using polarimeter feed in Mark I telescope comparison to analysis by integration and photographic recording 04 p0649 A71-15274
- Coherent emission mechanisms for pulsar models, discussing plasma wave conversion into radio emission 04 p0650 A71-15582
- Nonpulsing pulsar model, discussing idealized neutron star with spin axis aligned with uniform internal magnetic field 04 p0650 A71-15585
- Crab Nebula pulsar NP 0532, examining radio pulse shapes, flux densities and dispersion 05 p0800 A71-15926
- Phase modulation drift of radio emission from pulsar MP 0031-07 05 p0801 A71-15927
- Extragalactic pulsars visible and X ray detection and luminosity 05 p0801 A71-15928
- Pulsars CP 0328, CP 0834, CP 1133 and CP 1919 radio spectra, examining interstellar scintillation model, transverse velocities and line widths 05 p0802 A71-15939
- Radio pulsars optical counterparts, comparing absolute intensity with Crab Nebula NP 0531 05 p0802 A71-15940
- Pulsars relationship to very high energy cosmic ray electron propagation, examining far IR background and radiation sources 05 p0797 A71-15941
- Pulsar number-period distribution, using oblique rotator model under electromagnetic and gravitational torque effects 05 p0804 A71-16106
- Crab Nebula pulsar NP 0532 light flash arrival times, suggesting oscillations due to growing amplitude instabilities 05 p0806 A71-16201
- Optical pulsar search, using Fourier and correlation techniques 05 p0806 A71-16207
- Interstellar scintillation index and fading time of pulsar signals at 2388 MHz 05 p0807 A71-16208
- Pulsars optical and X ray luminosity secular decrease, examining emission close to velocity of light radius 05 p0807 A71-16209
- Pulsar PSR 1237 plus 25 pulse sequence change, examining profile at 318 MHz 05 p0807 A71-16213
- Crab pulsar magnetic field structure measurements, using optical wavelengths linear polarization 05 p0808 A71-16454
- Crab Nebula pulsar PSR 0531 plus 21 at 410-1664 MHz, noting mean pulse profiles and spectral indices 05 p0812 A71-16697
- Quasi-stellar radio sources similarity to pulsars based on similar characteristics 05 p0814 A71-17235
- Pulsar MP 0628 meter wave radiation, noting linear polarization and frequency dependence of pulse rate 06 p0965 A71-17387
- Pulsar data tabulation of positions, dispersion measures, and class I pulse periods and widths 06 p0966 A71-17676
- HF modulation of optical, X ray and gamma radiation of Crab pulsar, discussing radiation production mechanisms 06 p0970 A71-18033
- Pulsar 150 MHz radiation linear polarization measurements, correlating interstellar Faraday rotation with determinations from neighboring extragalactic radio sources 06 p0971 A71-18242
- Galactic magnetic field observation, investigating cluster polarization, Zeeman effect, pulsar rotation and signal dispersion, interstellar cloud elongation and models 06 p0972 A71-18331
- Maserlike pulsar radiation mechanism using Coulomb bremsstrahlung near strong quantizing magnetic field 07 p1190 A71-18858
- Precursor pulse disappearance of Crab Nebula pulsar NP 0532 at 606 MHz 07 p1190 A71-18864
- Electromagnetic radiation pumping by stimulated Compton scattering near pulsars, determining secondary emission frequencies from energy and momentum conservation laws 07 p1192 A71-19292
- X ray observations of NP0532 and other radio pulsars and galactic X ray sources 07 p1200 A71-20052
- Crab Nebula pulsar characteristics, discussing neutron star hypothesis, optical counterparts, magnetic fields, mass, radius and origin 07 p1201 A71-20214
- Radiotelescopic observations of period and declination of pulsar Mp 0450 in South India 07 p1201 A71-20499
- Long term fluctuations in pulsar radiation intensity due to interstellar scintillation 08 p1359 A71-20935
- Crab Nebula and pulsar NP 0532 X ray spectra discussing pulse profile, emission and interstellar absorption 08 p1353 A71-20984
- Pulsars as rotating magnetic neutron stars, examining radio emission via maser amplification 08 p1363 A71-21174
- Pulsar model consisting of rotating neutron star with strong magnetic field 09 p1517 A71-22337
- Pulsar association with supernova remnants as energy source for supernova explosions, considering Crab Nebula, Vela X, Cas A and eta Car observations 09 p1518 A71-22350
- Crab Nebula pulsar NP 0532, discussing possible planetary system existence 09 p1522 A71-22975
- Pulsar radiation circular polarization component Stokes parameter, noting average value different from zero 09 p1522 A71-22978
- Crab Nebula pulsar magnetic field structure, discussing linear polarization modifications and wisps 10 p1668 A71-23870
- Pulsar dispersion measures for spatial distributions above galactic plane, determining mean interstellar electron density of local spiral arm 10 p1671 A71-24304
- Planetary mass system as pulsar timing error sources, noting change in barycenter of solar system 10 p1675 A71-24493
- Pulsar oblique magnetic rotator model, noting large amplitude EM traveling wave effects on electron motion 10 p1679 A71-24956
- Pulsar CP 0328 data at 1420 MHz, examining mean intensity and long term fluctuation due to interstellar scintillations 10 p1680 A71-25008
- Pulsar mechanism relation to solar cycle mechanism, discussing magnetic flux correlation to period 10 p1681 A71-25073
- Southern galactic plane search for high dispersion pulsars, giving calibration data for Molonglo searches 11 p1820 A71-25295
- Periodic rotational LF synchrotron model of magnetic neutron star for pulsar radiation 12 p1947 A71-26649
- Pulsars CP 0950 and CP 1133, examining pulse spectra characteristics in 83-111 MHz frequency range 12 p1963 A71-27076
- Relativity and neutronization effects on radial pulsations and density decrease of rotating cold white dwarfs near stability loss, using energetic method 12 p1966 A71-27236
- Maximum toroidal magnetic fields of rotating neutron stars dependent on central density, using relativity corrections to plasma hydrodynamic and Maxwell equations 12 p1966 A71-27237
- Cosmic rays origin from pulsar model with particles accelerated by magnetic dipole radiation, producing equal energy spectrum 12 p1948 A71-27365
- Pulsar electrodynamics, considering oblique rotator with dense magnetosphere to supply particles for Gunn-Ostriker mechanism 12 p1968 A71-27539
- Gravitational waves from rotating relativistic neutron stars (pulsars) in far field region, assuming small velocity and spherical deformation 13 p2133 A71-27971
- Crab Nebula pulsar NP0532 radio observations, noting long term slowing down and irregular perturbations in periodicity 13 p2137 A71-28591
- Critique on pulsar distance estimates based on dispersion measure, introducing period luminosity function 13 p2137 A71-28592
- Rotating Jacobi ellipsoid evolution by gravitational waves emission, discussing triaxial nonaxisymmetrical configurations for rapidly rotating pulsars 13 p2140 A71-29000
- Pulsar nature and radiation mechanism, examining rotating neutron stars structure and atmospheric dynamics 13 p2140 A71-29041
- Pulsar CP 0834 pulse energy fluctuations spectra secondary periodicities fluctuations from radioheliographic observation 13 p2141 A71-29099

Long term pulsar intensity observations, noting periodic variations and power spectrum analysis 13 p2143 A71-29270

Neutron stars origin and nature, discussing pulsars structure, mass and frequency variations 13 p2143 A71-29297

Pulsar cosmic rays emission mechanisms, noting high energy particle, X and gamma rays direction 13 p2131 A71-29298

Pulsar signature on diffuse X ray background, converting fraction of luminosity into k series photons 14 p2297 A71-29584

Pulsar MP 0628 meter wave radiation, noting linear polarization and frequency dependence of pulse rate 14 p2310 A71-30166

Pulsar oblique rotator model wobble and alignment time scales, considering Crab and Vela pulsars precession damping mechanism by internal friction of crust 14 p2313 A71-30428

Pulsars origin from type 2 supernovae, deriving characteristics of exploding massive stars 14 p2313 A71-30436

Radio pulses from Crab Nebula pulsar NP 0532, determining multipath scattering delay distribution function and distortion 14 p2314 A71-30641

Pulsars 0527 and 0531 as remnants of binary star supernova explosion, considering mass exchange and measured proper motion of 0531 and Crab Nebula 14 p2315 A71-30657

Crab pulsar optical time of arrival measurements from four observatories, discussing errors in data reduction to inertial reference frame 14 p2315 A71-30658

Neutron stars with pulsar characteristics in binary systems, discussing matter accretion relationship to X ray source evolution 15 p2483 A71-31342

Cosmic ray particles acceleration in pulsar strong electromagnetic fields, investigating refractive index effects 15 p2473 A71-31717

High energy pulsed gamma rays detection from pulsars emission based on time averaged phase histograms 15 p2479 A71-31838

Crab pulsar frequency increase associated with nebula activity surge 15 p2494 A71-32549

Crab nebula pulsar model, discussing charged particles acceleration to relativistic energies by intense LF electromagnetic wave 16 p2632 A71-33236

Pulsating gamma ray flux from pulsar NP 0532 in energy range from 250 keV to 2.3 MeV 16 p2626 A71-33389

Rotation measure and intrinsic angle of Crab pulsar emission, discussing optical and radio radiation origin 16 p2634 A71-33390

Crab Nebula pulsar rotation and magnetic axes disposition from pulse shape and polarization data at optical and radio wavelengths 16 p2634 A71-33391

Supernovae outburst remnant radio emission from Crab Nebula, discussing synchrotron mechanism and connection with pulsars 16 p2635 A71-33472

Exploding universe phenomena, considering supernovae, exploding galaxies, Crab Nebula, pulsars, quasars and radio galaxies 16 p2643 A71-34036

Pulsar emission data, presenting average phase shapes and pulse to pulse intensity fluctuations 17 p2797 A71-34372

Pulsars as neutron stars, explaining fast rotation by tendency to conserve angular momentum during compression 17 p2804 A71-34857

Gamma rays in Crab Nebula pulsar, considering synchrotron radiation and inverse Compton scattering as production mechanisms 17 p2796 A71-35335

Pulsar polarization characteristics and pulse profile observations in 250-450 MHz range 17 p2807 A71-35417

Neutron star cooling behavior models based on neutrino emission theory, explaining galactic steady state cosmic rays and pulsar radiation 18 p2959 A71-35931

Pulsar radiation generation by charged particles nonlinear Thomson scattering of strong LF electromagnetic wave and nonthermal radio emission 18 p2960 A71-35940

Cyg X-1 X ray pulsar age determination and emission model speculations based on observation data for supernova remnant and radio counterpart absence explanation 18 p2962 A71-36151

Compton synchrotron spectra of gamma rays produced in Crab Nebula by photons scattered by relativistic electrons, assuming magnetic field due to pulsar 18 p2963 A71-36154

Pulsed X ray emission from NP 0532 at 20-200 keV measured by balloon flown sun sensor controlled azimuth stabilized detectors 18 p2958 A71-36760

Coherent neutral sheet radiation from pulsars, examining relationship between pulsation-driving energy source and mechanisms for pulsed emission 18 p2958 A71-36928

Scorpius X-1 cocoon pulsar thermal X ray emission model, describing hot gaseous region around rotating neutron star 18 p2969 A71-37043

Temperature limit determination of rotating neutron stars based on heat dissipation due to slowing by frictional forces, noting Crab and Vela pulsars 19 p3131 A71-37337

Pulsed emission of hard X rays from Crab Nebula pulsar NP 0532, using balloon-borne telescope 19 p3124 A71-37338

Pulsars CP 0950 and CP 1133, examining pulse spectra characteristics in 83-111 MHz frequency range 19 p3133 A71-37426

Pulsars electromagnetic radiation, considering bunch of relativistic charged particles 19 p3134 A71-37513

Crab Nebula pulsar timing measurement leading to model involving inflation of closed magnetosphere with explosively released plasma 19 p3142 A71-38007

Neutron star models based on Nemeth-Sprung equation of state, discussing dynamic stability and Crab pulsar central density 19 p3143 A71-38161

Short term timing stability of Crab pulsar clock from telescope observations at 256 and 405 MHz 19 p3144 A71-38173

Pulsar periods change rate and radio luminosity decay, discussing magnetic field braking 20 p3286 A71-38762

Crab pulsar NP 0532 low energy gamma radiation emission data, observing flux ratios and pulsations 20 p3278 A71-39109

Crab pulsar observations analysis by means of nonaligning or stabilized oblique rotator, discussing starquake theory and stressed magnetic field instability as alternative interpretations 20 p3288 A71-39115

Gas heating by LF radiation due to Compton scattering near quasars, Seyfert galaxies nuclei and pulsars 20 p3289 A71-39293

Linear polarization of pulsar PSR 22 18 plus 47 radio emission pulses, attributing periodic fine structure of spectrum to rotation of polarization plane in interstellar medium 20 p3291 A71-39316

Gamma ray production by pulsar-emitted particles interaction with surrounding nebula matter, investigating radiation intensity time variation 20 p3279 A71-39325

Critique of Smith oblique rotator model for Crab pulsar radiation, concerning observation of optical pulse position angle variation and interpulse offset location 20 p3279 A71-39402

Hard X ray pulsations limits in higher energy range from Cyg X-1, comparing with Crab Nebula pulsar 20 p3279 A71-39407

Negative search for radio pulsar near Cyg X-1 or associated variable radio source, using fast holding algorithm 20 p3292 A71-39408

Crab Nebula pulsar NP 0532 pulsed gamma emission from balloon flight measurements with spark chamber equipped gamma ray telescope 20 p3283 A71-39754

Crab Nebula and pulsar gamma ray emission from synchrotron or inverse Compton mechanism 20 p3301 A71-39919

Crab Nebula pulsar radio properties, observing energy release due to increase in period, multipath propagation effects, intensity and time dependence 20 p3302 A71-39923

Identity relation of LF compact source to Crab pulsar NP 0532 with respect to interstellar scattering 20 p3302 A71-39924

Radio pulse shapes from NP 0531 observed with swept frequency machine, showing broadening due to interstellar scattering 20 p3302 A71-39925

Structure and polarization differences of strong pulses from pulsar NP 0532, showing discontinuous frequency spectrum 20 p3302 A71-39926

Time variable dispersion of Crab Nebula pulsar, showing coincidence with occultation by solar corona 20 p3302 A71-39927

Crab Nebula optical pulse timing, noting neutron star crust rotation speedup and relaxation, eccentric planetary orbits and sinusoidal effects 20 p3302 A71-39928

Crab Nebula pulsar timing observations, correcting arrival times to solar system barycenter and dispersion effect 20 p3302 A71-39929

Short time variability of intensity of optical pulses from pulsar NP 0532, using telescopes 20 p3303 A71-39930

Time arrival measurements of optical pulses from Crab Nebula pulsar correlated to solar system barycenter 20 p3303 A71-39931

Pulsars luminosity, z-distance and period distribution in Galaxy, comparing supernova remnants 20 p3303 A71-39933

Comparative properties of pulsars, discussing Crab Nebula pulsar period, outside radio band emission, amplitude variations and interpulse intensity 20 p3303 A71-39934

Polarization characteristics of pulsars, considering angular position changes due to interstellar magnetic field using Faraday rotation measurements 20 p3303 A71-39935

Timing measurements of pulsar NP 0527 relating frequency, position and transverse velocity with NP 0532, excluding origin in supernova explosion 20 p3303 A71-39936

Vela pulsar interstellar scattering, studying pulse broadening, rotation measure and radiation origin near magnetic pole 20 p3303 A71-39937

Pulsar pulsed optical radiation search, noting dependence on determination of accurate positions by radio methods 20 p3303 A71-39938

Visible optical pulsars search with Fourier and correlation techniques in X ray sources, supernova remnants, white dwarfs, IR stars, planetary nebulae, etc 20 p3304 A71-39939

Observation probability of orbital motion and mass transfer of pulsars in close binary systems, excluding supernova explosion origin for runaway velocities 20 p3304 A71-39943

Supermassive pulsar model of quasars periodicity and luminosity for Kelvin-Helmholtz contraction, concerning gravitational-rotational energy transformation 20 p3304 A71-39946

Multiple pulsar ejection in supernova core collapse and neutron star formation energy loss 20 p3305 A71-39947

Crab Nebula pulsar magnetosphere, considering model of rotating magnetized neutron star rate of energy generation and rotation law exponent 20 p3305 A71-39948

Pulsar radio emission via maser amplification, presenting model based on electrons behavior in intense magnetic field 20 p3285 A71-39949

Radio pulses from pulsars, noting relativistic energy of particles from volume emissivity and surface flux density 20 p3305 A71-39950

Radio pulses from pulsars based on model of coherent synchrotron radiation from magnetosphere trapped charged particles 20 p3285 A71-39951

Pulsar radiation from oscillating interface with steady current sheet between rotating radiating magnetic dipole and external plasma 20 p3285 A71-39952

Pulsar radiation beaming due to strong magnetic field, computing Compton scattering and opacity 20 p3285 A71-39953

Crab Nebula pulsar and extra emission from collapsed star magnetosphere, accounting for physical characteristics with nonthermal plasma mechanism 20 p3285 A71-39954

Pulsars radio wave emission characteristics, intensity variation, duration, bandwidth, similarity to space radio beacons and evidence as neutron stars 21 p3442 A71-40144

Radio stars classes, discussing red dwarf flare, red supergiants, blue dwarf companion, novae, pulsars and X ray stars 21 p3448 A71-40582

Polarization and pulse profiles of pulsars at 410 and 1665 MHz, indicating radiation originating close to star surface 21 p3453 A71-41244

Pulsars properties, examining pulse profile and duration, subpulse phase modulation and polarization 22 p3598 A71-41918

Period-age distribution of pulsars, using radio and optically emitting neutron star model 22 p3599 A71-41925

UK 5 spacecraft experiments in X ray astronomy, investigating spatial distribution and energy spectra of emissions in space, polarization and pulsar periodicities 22 p3610 A71-42015

Balloon obtained Crab pulsar gamma ray emission data searched for pulsation above 50 MeV 22 p3592 A71-42220

Pulsar radio emission from expanding charge sheets moving relativistically along dipolar magnetic field near neutron star polar caps, calculating energy distribution 22 p3604 A71-42336

Cosmic rays origin, discussing nuclear, electron and electromagnetic components, supernovae, pulsars, white dwarfs and gas motions in Galactic Center 22 p3594 A71-42550

Southern pulsars pulse energy flux average nightly values at 80 MHz 22 p3606 A71-42602

Pulsar characteristics suppression in neutron stars of binary systems, discussing matter accretion relationship to X ray source evolution 22 p3606 A71-42617

Pulsar speedup due to neutron starquakes, deriving self gravitating elastic incompressible sphere model for time prediction 23 p3722 A71-42894

Pulsar radio pulse shape and structure, discussing pulse widths and polarization angle change 23 p3769 A71-43989

Mode changing in pulsar radiation, observing intensity profiles and polarization characteristics 23 p3769 A71-43995

Tables of Crab Nebula pulsar radio pulse arrival times at Arecibo observatory 24 p3867 A71-44435

Pulsar 0833-45 LF radiation spectrum decrease explained by pulse broadening due to interstellar scattering 24 p3868 A71-44565

Pulsar high energy cosmic ray periodic flux detection with favorable interstellar magnetic field configuration along line of sight 24 p3865 A71-44569

Pulsar CP 0950 radio emission intensity variation measurement, using dispersion removal technique for interstellar medium signal distortion 24 p3871 A71-44903

Quasar and pulsar gamma ray absorption by critical energy collisions with low energy photons 24 p3866 A71-44917

Optical pulsar NP 0532 circular polarization upper limit from measurements throughout light curve 24 p3872 A71-44918

Pulsar JP 1933 distance lower limit from 21 cm absorption and galactic rotation model, noting scintillation parameters consistency with observations in thin screen model 24 p3873 A71-45141

PULSATING FLOW
U UNSTEADY FLOW
PULSE AMPLITUDE
 Light echo obtained via giant laser pulse peak overlapping in space and time 01 p0095 A71-11034

Pulse rise, fall times and peak current values in sawtooth-voltage generator relaxation circuits with avalanche transistors 03 p0387 A71-13998

Self giant pulsed operation of ruby and Nd-YAG lasers obtained by mirror misalignment 04 p0606 A71-14714

Pendulum clock with contactless drive for isochronal autooscillation period, outlining pulse amplitude and duration stabilization 04 p0592 A71-14863

Nonuniform feed effects on height of electrospar surface machining microsperties, investigating linear elliptical interpolator pulse sequence 08 p1296 A71-20851

ELF atmospheric pulse trains recordings at widely separated stations for spectral amplitude ratio differentials, using lightning and ionospheric heating mechanisms 09 p1489 A71-23445

Random response of stationary linear system to pulse noise in time with independent amplitudes 10 p1588 A71-24901

Auroral pulsation analysis from rocket soundings, investigating oxygen green linear excitation sources 11 p1753 A71-25549

Output pulse amplitude from lithium-drifted detector-amplifier combination under conditions of carrier diffusion and bulk and surface recombination 11 p1802 A71-25804

Air shower radio pulse amplitude variations with zenith and azimuth angle, distance from shower axis and primary energy, examining frequency spectrum characteristics 13 p2127 A71-28105

Angular momentum influence on linear axisymmetric motions of centrally condensed bodies, considering finite amplitude pulsations of rapidly rotating columns 15 p2481 A71-31202

Pc-type micropulsation amplitude variation correlation at separate places up to 10,000 km distances, suggesting pi-type as cause 15 p2395 A71-31435

Large amplitude periodic X ray pulsations from Centaurus X-3, observing abrupt source intensity and pulse rate changes 17 p2798 A71-34375

Optimum pulse transmission through thin exponentially inhomogeneous plasma region for maximum amplitude signal reception, using matched filter theory 17 p2788 A71-34768

Computer controlled pulse counting technique application to astronomical photoelectric photometry for improved telescope efficiency 17 p2740 A71-34989

Structure and polarization differences of strong pulses from pulsar NP 0532, showing discontinuous frequency spectrum 20 p3302 A71-39926

Comparative properties of pulsars, discussing Crab Nebula pulsar period, outside radio band emission, amplitude variations and interpulse intensity 20 p3303 A71-39934

Nanosecond solid dielectric discharger fired by Q switched ruby laser for commutation of coaxial line forming high amplitude voltage pulses 24 p3835 A71-45238

Electron multiplier pulse height distribution for single electron input, investigating relative variance correlation with statistical fluctuations of gain 24 p3811 A71-45329

PULSE AMPLITUDE MODULATION
 Multiplexed PAM signal transmission over random time multichannel and diversity systems, discussing optimization for receiver frequency response by numerical solution [IEEE PAPER 70-TP-47-COM] 05 p0723 A71-17053

Traveling wave phototube for demodulating pulse amplitude modulated laser emission, investigating equivalent resistance 06 p0900 A71-18184

PAM/FM radio telemetry coder including electronic commutator for sampling and sequential time control, discussing design, operation, performance and reliability 06 p0870 A71-18399

Eight channel micropowered miniature biomedical PAM/FM telemetry system for implantation in research subjects aboard orbiting space station 14 p2189 A71-30930

PAM data transmission systems timing recovery, discussing maximum likelihood estimation method for timing parameter from random data 15 p2377 A71-32314

Arbitrary shape pulsed AM systems prediction technique improvement, using time-domain signal 15 p2373 A71-32371

Rapidly converging first order training algorithm for adaptive equalizer design in PAM signal reception, using variable step sizes for mean-square error minimization 16 p2545 A71-32821

PAM signal transmission through statistically rough waveguide, calculating wall roughness effects on transient response by multiple scattering theory 23 p3645 A71-43566

Single- and multivariable discrete nonlinear control systems with pulse amplitude modulation, deriving frequency criteria for stochastic stability in mean 24 p3812 A71-44397

PULSE CODE MODULATION
NT DELTA MODULATION
 NRZ PCM signal conditioning, bit and group synchronization and decommutation techniques 01 p0034 A71-10901

Optical PCM communications system with lithium tantalate traveling wave modulator capable of one gigabit/sec transmission and detection rate 02 p0215 A71-12042

Gigabit PCM data communications system using functional circuits with microstrip interconnect 05 p0719 A71-16152

Band limiting effects on PCM/split phase signal detection, considering signal to noise ratio degradation 07 p1061 A71-19263

PCM bit synchronization and signal detection by nonlinear filter theory, giving optimum sequential estimator 07 p1061 A71-19536

Bandlimiting effects on PCM/split phase signal detection 07 p1066 A71-20431

Long distance PCM-AM pulse regenerator for 4 GHz band and millimeter wave communication 08 p1265 A71-21285

PCM TV photographic data communication for grand tour of outer planets, emphasizing adaptive information-preserving data compression system for optimal performance 08 p1254 A71-21346

PCM signal encoding redundancy reduction using discrete code transformation, considering telephony implementation 08 p1255 A71-21593

Power spectral density /PSD/ analysis of multilevel binary coded signals for high density PCM recording 09 p1412 A71-22784

Acquisition system consisting of positioning of local station burst signal in time slot for PCM-TDMA satellite communication system, discussing design and performance tests 13 p2034 A71-29393

Concorde SST flight test equipment installation with PCM recording and visual instruments 14 p2174 A71-30055

Error estimates in transmission of pulse code telemetering signals by nonredundant binary code through asymmetric channel 16 p2543 A71-33706

Transmission performance of thin route satellite communication system for northern Canada, comparing FM, PCM and delta modulation techniques 17 p2703 A71-35081

Comparison of demand assignment multiple access/modulation techniques for satellite communication using high quality telephone channels 17 p2706 A71-35103

Binary differentially coherent PSK modulated PCM radio link performance under noise and intersymbol and interchannel interferences effects, deriving error probability 17 p2707 A71-35477

Range and range rate measuring equipment for PCM-TDMA satellite communications system data feed and orbit observation 18 p2879 A71-36533

Digital speech interpolation technique application to PCM-TDMA demand assignment system, noting traffic handling capacity and cost reduction 18 p2880 A71-36549

PSK modem for PCM-TDMA system, discussing performance tests on INTELSTAT 3 18 p2880 A71-36551

Message distortions analysis in PCM communications systems due to phase fluctuations of synchronization signal 19 p3022 A71-38494

Critique of paper on additional signal power for optimum performance of PCM binary signal detection under channel band limiting effect in white noise 20 p3196 A71-38870

Signal to quantizing noise ratios for differential PCM systems used to encode analog signals from Markov processes into digital form 22 p3514 A71-42391

Common channel signaling system for demand assigned multiple access satellite communication, discussing design features and applications to PCM-TDMA 22 p3514 A71-42520

Pulse code modulation systems measurement techniques, deriving diagrams with preset limit patterns incorporated 23 p3652 A71-43925

PULSE COMMUNICATION
 Information collection from ocean data stations networks by satellite and HF digital data communications, noting feasibility of VHF telemetry communications 01 p0037 A71-10991

Wall loss influence on energy flow center velocity of rectangular carrier pulses in circular waveguide for long distance transfer 01 p0056 A71-11195

Atmospheric turbulence effects reduction in optical communication by statistical communication theory, considering digital system and waveform estimation 02 p0213 A71-12019

Direct detection, heterodyne and optimum receivers for optical scattering channels in digital communication 02 p0214 A71-12020

Digital communication hybrid phase locked loop nonlinear feedback system with modulation and carrier components enhancing phase estimation 03 p0391 A71-14312

Signal parameter estimation during pulse sequence reception on background of nonstationary additive noise 04 p0549 A71-14614

Synchronous digital communication system with each station clock rate established by phase locked oscillator input average, calculating two-station network dynamic stability 05 p0729 A71-17051

Daytime pulsed optical communication within line-of-sight using GaAs IR laser 06 p0907 A71-17570

Digital multiple access communications for commercial transmission via Intelsat satellites 07 p1057 A71-18817

Optimum low pass filter bandwidth for pulse detection in exponential noise, using two dimensional spectrum 07 p1059 A71-18849

Binary signal parameters estimation mixed with Gaussian noise, using method of moments 07 p1065 A71-20420

Laboratory test set for integration of data compression and error correction encoding of digital communications system 07 p1065 A71-20424

Transform coding techniques using orthogonal matrices to implement bandwidth or dimensionality reduction for image processing in digital communications systems 08 p1259 A71-21591

Unique word detection in digital burst communication, determining effects on voice quality from analytic study and digital simulation 08 p1255 A71-21595

Gunn diodes and heterojunction laser applications in optical pulse communication systems synthesis

11 p1772 A71-25235

Gram-Charlier error probabilities of digital satellite communication systems due to intersymbol interference and additive noise applied to Chebyshev, Gaussian and cutoff filters

12 p1879 A71-27069

Statistical estimation techniques for error probability of digital communication systems

12 p1880 A71-27145

Stretch technique for pulse time transformation including signal slowdown, speedup or time reversal performed within window with duration determined by time-bandwidth product

12 p1881 A71-27427

Two cavity ring-type channel dropping filters for millimeter wave guided communication system, calculating pulse response and interchannel crosstalk characteristics

14 p2210 A71-29569

Heuristic signal design for digital communication over fast-fading Gaussian channels, stressing nonorthogonal signaling schemes

14 p2193 A71-30010

Two theorems on minimax transversal filter equalization at receiver for digital communication systems distortion reduction

14 p2193 A71-30012

Digital communication system frame synchronizer performance analysis, using mean time formula and state transition matrices

14 p2201 A71-30925

Binary pulse sequences correlation and synchronization, developing effectiveness criteria with two stage measures

14 p2201 A71-30927

Noise stability at reduced peak signal power of PTM-AM communications using wideband linearly frequency modulated carrier pulses

15 p2368 A71-31228

Solar system interstellar communication with Galaxy, discussing information transmission, coding decoding, recording, display, pulse use and economics

15 p2371 A71-31747

Pulse detection equipment by peak voltage and current value sampling, using avalanche transistors

15 p2377 A71-32324

Phased array pulsed X band microstrip Gunn diode transmitters with temperature stabilization at 9.4 GHz

16 p2547 A71-33555

Long distance FM signal pulse propagation and maximum compression synthesis in dispersive media, using asymptotic theory for mathematical treatment

17 p2701 A71-34761

Upper bound on error probability due to intersymbol interference for correlated and uncorrelated digital signals, presenting examples for data communication systems

17 p2703 A71-35077

PSK signals time division multiplexing and frequency multiplexed subcarrier systems equivalence and efficiency for digital communications

17 p2706 A71-35107

Synchronization of high-speed digital data communication systems with continent-wide interconnected switching centers, discussing elastic storage buffering to compensate for transmission time delay variations

17 p2712 A71-35784

Digital filtering in PCM communication systems with active repeater satellites and space vehicle telemetry

18 p2881 A71-36569

Amplitude distribution of pulse train with given constant pulse durations in communication channels

18 p2882 A71-36621

Adaptive frequency selection for reduction of effects of noise differing irregularly from useful pulse signals, estimating error probabilities

18 p2882 A71-36622

Automatic equalizer with fast startup time for digital communication systems including partial response and single subband Nyquist systems

19 p3026 A71-37220

Probability error calculation for digital signals contaminated by intersymbol interference and additive Gaussian noise

19 p3015 A71-37222

Amplifier effects on phase distortion of pulse signals passing through power amplifier stages of coherent pulse communication systems

19 p3015 A71-37257

Wideband spectrum utilization above 10 GHz for high rate digital communications and ecology monitoring of sea state, earth surface contour and atmospheric pollutants

19 p3020 A71-38407

Message distortions analysis in PCM communications systems due to phase fluctuations of synchronization signal

19 p3022 A71-38494

Capacitive memory storage for filtration of repetitive pulse radio signals mixed with additive noise

19 p3022 A71-38500

Transient RF pulse dispersion along plasma loaded coaxial gas discharge, noting group delay

20 p3272 A71-38783

Short-pulse high-rate space digital laser communication components technology, discussing mode locked and frequency doubled Nd-YAG laser source

21 p3348 A71-40806

Signal parameter estimation during pulse sequence reception on background of nonstationary additive noise

22 p3510 A71-42254

Dynamic frequency and phase response of digital communications system of synchronized oscillators from time-incremental computer simulation

22 p3523 A71-42376

Bit synchronization in high SNR digital communication system, using Kalman filtering algorithm

22 p3513 A71-42383

Radio pulse synchronous detection with wideband preamplifier, evaluating frequency mismatch effects on signal distortion by transient response analysis

23 p3644 A71-43287

Mn-Zn ferrite for pulse transformers, discussing permeability and temperature range

23 p3650 A71-43348

Probabilistic analysis of random pulse signal gating on time selective zero lag converter with rectangular pulse input

23 p3647 A71-44322

Binary nonconsecutive one code for time-tag data compression in digital communication, noting transmission power and bandwidth requirements reduction

24 p3803 A71-44651

PULSE COMPRESSION

Weather radar resolution enhancement by pulse compression system for signal bandwidth increase by phase coding

01 p0030 A71-10597

Holographic amplitude modulation procedure for pulse compression in synthetic aperture radar

02 p0215 A71-12037

Frequency modulation and compression of ultrashort light pulses by optical Kerr effect

04 p0552 A71-15035

Mode locked He-Ne laser pulse compression and expansion by electro-optic internal modulator

10 p1619 A71-23873

Low power vertical-incidence solid state pulse compression FM ionosonde

14 p2246 A71-30480

Pulse compression and optical data correlation in side-looking radar, considering Doppler effect

15 p2374 A71-32650

Long distance FM signal pulse propagation and maximum compression synthesis in dispersive media, using asymptotic theory for mathematical treatment

17 p2701 A71-34761

Pulse compression circuit techniques combined with radar system philosophy for signal encoding application to pulse radar

20 p3201 A71-39911

Pulse compression dispersive filters for signal processing

20 p3206 A71-39912

Swept frequency or chirp signals for data transmission and pulse compression, considering long range air ground communication in HF band

22 p3510 A71-42277

Low loss microwave iris-loaded circular TE mode waveguide delay line for pulse compression at X band

23 p3653 A71-43963

PULSE DIFFRACTION

Radio meteor orbit velocity and radiant measurements by pulse diffraction technique

09 p1520 A71-22829

Radar equipment for meteor velocity and radiants measurement at VHF by pulse diffraction method

19 p3067 A71-38635

PULSE DOPPLER RADAR

NT MONOPULSE RADAR

NT PULSE RADAR

Severe thunderstorm warning by single pulse Doppler radar plan shear indicator

01 p0117 A71-10572

Constant false alarm rate /CFAR/ operation of airborne pulse Doppler radar in nonhomogeneous and point clutter, using similar critical region test

07 p1065 A71-20421

Atmospheric vertical particle motion inside convective storms observed by airborne pulse Doppler radar techniques

11 p1794 A71-25378

Electromagnetic compatibility performance of pulse Doppler radar receivers, considering CW or synchronous pulse interference

19 p3020 A71-38430

Optical correlation for surveillance and pulse Doppler radar receivers signal processing

20 p3200 A71-39910

Book on pulse, CW, Doppler, pulse Doppler and space radar theory, operation and maintenance, describing equipment, tracking and siting

22 p3509 A71-41621

PULSE DURATION

Ultrasonic frequency characteristics for flaw detection, discussing short and long pulses coupling to test samples

01 p0086 A71-10303

Transverse gain inhomogeneity effect on monopulse duration and development in multimode spherical laser resonator

01 p0094 A71-11026

Multiphase multivibrator with nanosecond pulse duration and parallel transistorized inductive correction, analyzing flip-flop circuit

02 p0230 A71-11831

Giant pulses composed of shorter pulse trains obtained in Q switched carbon dioxide laser with transverse modes

02 p0259 A71-11880

Multiatomic molecules emission spectra excitation by superhigh frequency short duration pulsed gas discharges

02 p0286 A71-11889

Cavity resonator length effect on lasing threshold, output energy, pulse power and duration and spectral width of hybrid single pulse mode laser with passive Q switch

02 p0259 A71-11933

Short pulse optical tracking systems ranging error, analyzing effects of tracker, target and propagating medium characteristics

02 p0214 A71-12029

Small angular diameter radio source in central Crab Nebula association with pulsar NP 0532 based on spectra and pulse duration

03 p0483 A71-13203

Long pulse rhodamine 6G flash lamp-pumped circulating dye laser with cyclooctatetraene cycloheptatriene as triplet state quenchers, testing performance

03 p0437 A71-13884

Nd glass laser radiation time and spectral structure

03 p0437 A71-13885

Electron beam welding and boring, considering temperature distribution relation to pulse duration

03 p0433 A71-14271

Atmospheric pressure pulsed carbon dioxide laser, investigating gain, peak power and pulse duration as function of gas pressure and discharge voltage

03 p0440 A71-14461

Laser technology, discussing short duration pulse generation

04 p0606 A71-14713

Frequency modulation and compression of ultrashort light pulses by optical Kerr effect

04 p0552 A71-15035

Active directional nanosecond pulse filter design based on hybrid technique, using metal semiconductor field effect transistors /MESFET/

04 p0559 A71-15698

Crab Nebula pulsar NP 0532, examining radio pulse shapes, flux densities and dispersion

05 p0800 A71-15926

Laser beam modulation by nanosecond rise time mechanical chopper for rectangular variable duration pulses, considering use in fluorescence lifetimes measurement, photomultipliers and photodiodes

05 p0761 A71-16270

LF oscilloscope display of periodic subnanosecond optical pulses from mode locked lasers

05 p0761 A71-16334

Pulse transmission mode Q switched neodymium laser, discussing pulse duration

05 p0762 A71-16374

Mode locked high pressure carbon dioxide lasers subnanosecond pulse widths measurement based on photon flux and fast shutter in semiconductor

06 p0907 A71-17310

Ultrafast Q switched laser induced shock waves in solids, discussing model for picosecond impulse

06 p0907 A71-17311

Pulsar data tabulation of positions, dispersion measures, and class I pulse periods and widths

06 p0966 A71-17676

Q switched Nd laser pulse duration control as function of KDP crystal orientation and pumping power

07 p1122 A71-19138

Mode locked picosecond laser pulse duration measurement by beat frequency detection

07 p1123 A71-19211

Stimulated thermal Rayleigh scattering with picosecond pulses, discussing contributory processes

07 p1164 A71-19779

Light pulses from tandem bisected GaAs lasers nonuniform excitation, determining width by intensity correlation in lithium iodate crystal

07 p1126 A71-20167

High energy narrow pulsewidth HF chemical laser emission from transverse multiple electrode nitrogen fluoride and nitric tetrafluoride discharge

07 p1128 A71-20397

Statistical scatter of pulse duration in relaxation oscillator with common-emitter coupling concerning mass production

08 p1261 A71-20739

Electron beam pumped CdS laser, investigating output pulse time duration based on laser oscillation quenching model

08 p1302 A71-21433

Pulse rise time effect on nanosecond magnetic thin film switching with flux reversal and stray field interaction

09 p1508 A71-22704

Controllable pulse length Q switched Nd-YAG laser using lithium iodate doubling crystal

09 p1463 A71-22757

Coupled fiber lasers maximum energy transfer between passive conductors, determining minimum pulse duration

09 p1464 A71-23112

Ionospheric dispersion of FM electromagnetic pulse, examining distortion of amplitude, pulse length and modulation in terms of integrated electron density along transmission path

09 p1410 A71-23523

Metallic target in radiation damage from focused ruby laser beams as function of energy and luminous pulse duration

09 p1465 A71-23563

Foveal vision absolute thresholds for various duration light pulses and flash pairs at different separations

10 p1560 A71-23992

High pressure laser action in gas mixtures with pulsed transverse excitation, observing molecular and atomic transitions

10 p1620 A71-24045

C and higher band pulse modulated signal generation with nanosecond duration, using TEM- mode pulse-forming network

10 p1577 A71-24211

Electron and ion plasma heating by subnanosecond neodymium laser pulses, using computer calculations of hydrodynamic equations

11 p1806 A71-26089

Tunnel diode driven multivibrator, noting triggering signal amplitude and duration effects on output pulse width

11 p1740 A71-26550

Pulsars CP 0950 and CP 1133, examining pulse spectra characteristics in 83-111 MHz frequency range

12 p1963 A71-27076

Cavity mirror transmittance variation effect on output power and pulse length of single-pulse Nd-doped glass laser with nonuniform inverted population distribution

13 p2077 A71-27855

Energy level threshold gradients for steady and unsteady lasing in four-level lasers, obtaining power output and pulse duration

13 p2077 A71-28153

Subpicosecond structure and frequency sweep observation results of single pulse of Nd-glass laser, considering explanation by mode locking theory

13 p2079 A71-28712

Ultrashort optical pulse propagation through two level attenuating or amplifying atomic medium

13 p2080 A71-29136

Transverse spatial diffusion of phase-dispersed pulses, showing effects on dechirped pulse duration, output beam cross section and two-photon fluorescence display

13 p2081 A71-29332

Argon ion laser mode locking in UV lines with intracavity acousto-optic modulator, describing pulse duration and average power

15 p2423 A71-32588

Cavity loss dependent erbium glass laser line oscillations in lower threshold region under Q switch and long pulse conditions

15 p2424 A71-32612

Optimum pulse width and information carrying capacity for dielectric single mode glass optical waveguides under distortion due to attenuation and phase velocity dispersion

16 p2541 A71-33127

Theta pinch deuterium plasma heating by carbon dioxide laser as function of pulse duration and energy

16 p2587 A71-33188

Short light pulse evolution from noise, considering time dependence of pulse duration and peak intensity

16 p2589 A71-34137

Intense pulsed electron beam formation during current flow through plasma

17 p2786 A71-34279

Picosecond duration coherent light pulse propagation in resonant medium, discussing basic equation, self induced transparency, Bloch equations, soluble model and higher conservation laws

17 p2754 A71-35375

Weber antenna sensitivity for short pulses of gravitational radiation, giving limit for connection coefficient of piezotransducer with detector

18 p2946 A71-35979

Amplitude distribution of pulse train with given constant pulse durations in communication channels

18 p2882 A71-36621

Pulsars CP 0950 and CP 1133, examining pulse spectra characteristics in 83-111 MHz frequency range

19 p3133 A71-37426

Ultrashort pulse formation in short pulse stimulated Raman oscillator, achieving partial group velocity matching

19 p3071 A71-37475

Ruby laser Q switching by hydrogen and copper phthalocyanin vapors, obtaining nanosecond single pulses with high power density

19 p3072 A71-37768

Vibrational behavior of nonlinear systems subjected to finite duration pulse excitation, transforming original differential equation into Lighthill method solvable form

20 p3267 A71-38798

Ultrafast camera with picosecond framing times for photographic measurement of light pulses

20 p3235 A71-39189

Radio pulse shapes from NP 0531 observed with swept frequency machine, showing broadening due to interstellar scattering

20 p3302 A71-39925

Pulsars radio wave emission characteristics, intensity variation, duration, bandwidth, similarity to space radio beacons and evidence as neutron stars

21 p3442 A71-40144

Nanosecond ruby laser pulse generation using electro-optic shutter switching circuit external to Q-spoiled cavity

21 p3391 A71-40179

Nonlinear absorption in transparent semiconductors of picosecond light pulses from Nd laser with locked modes

21 p3431 A71-41256

Absolute foveal thresholds as function of flashes pulse length and null period

22 p3497 A71-41480

Pulsars properties, examining pulse profile and duration, subpulse phase modulation and polarization

22 p3598 A71-41918

Nonlinear losses in ultrashort light pulse generators and amplifiers, attributing to self focusing of laser radiation in active and optical media

22 p3558 A71-42457

Pulse duration of atmospheric radio noise bursts at 3 MHz from lightning flashes, considering effect on data communication

23 p3643 A71-42970

Second harmonic aperture in ultrashort pulses length measurement by mixing two AM light beams in nonlinear crystals

23 p3683 A71-43397

Mode-locked laser ultrashort pulse duration measurement from field intensities autocorrelation functions

23 p3685 A71-43562

Pulsar radio pulse shape and structure, discussing pulse widths and polarization angle change

23 p3769 A71-43989

CW dye laser mode locking with lithium niobate phase modulator, observing 500 psec pulse generation

23 p3687 A71-44134

Self focusing in gas breakdown produced by nanosecond laser pulses, using schlieren photography and laser light forward transmission measurements

24 p3832 A71-44358

Pulsar 0833-45 LF radiation spectrum decrease explained by pulse broadening due to interstellar scattering

24 p3868 A71-44565

Carbon dioxide-helium-nitrogen laser with nonlinearly absorbing cell, presenting emission pulse duration and rate

24 p3834 A71-45111

PULSE DURATION MODULATION

First and second order lag system frequency response to pulse width modulated input signals [ASME PAPER 70-WA/AUT-8] 03 p0380 A71-14149

Satellite voice communication by suppressed clock pulse duration modulation technique, using optimum digital modulation and processing for maximum traffic and cost effectiveness

04 p0555 A71-15340

Static friction influence on readings of gyrotachometer with pulse width modulated torque sensor current

07 p1108 A71-19306

Chirped optical pulses nature, properties, generation and applications in pulse shape measurement in nonlinear wave propagation, ultrashort pulse generation and adiabatic population inversions

07 p1160 A71-19778

Pulse width controlled, regulated DC-DC converter with passive low pass filtering, discussing open loop transfer functions, stability analysis and linear models

07 p1024 A71-20413

Fluidic proportional amplifier circuit with two bistable element stages, using pulse width modulation techniques

07 p1027 A71-20579

Measuring transformer for AC input signal with pulse width modulated semiconductor multiplier feedback

08 p1261 A71-20737

PULSE FREQUENCY MODULATION

Nonlinear closed loop control system with PFM and PWM, obtaining asymptotic stability condition by Liapunov and La Salle theorems

12 p1893 A71-27726

Pulse width modulation controlled DC motors, deriving formulas for speed and torque characteristics

13 p1999 A71-28630

Fluidic servo amplifier operation by PWM mode with PD computation and ripple removal circuit

15 p2352 A71-32069

Pulse width modulated output voltage analysis in autonomous inverters, using Fourier series and digital computer

15 p2353 A71-32078

Dynamic stability and reliability analysis of pulse width modulated control systems by point-to-point mapping method

15 p2382 A71-32621

N-order continuous linear automatic control system compensation method, using model of sampled systems with duration modulation

16 p2549 A71-33377

Feedback control system with combined PFM and PDM, obtaining nonlinear discrete equivalence

21 p3360 A71-40615

Soviet book on nonlinear sampled-data control systems with PFM and PDM covering mathematical description, transient analysis and system stability problems

22 p3526 A71-41821

Cost functional gradient optimization of pulse width modulated control inputs for nonlinear dynamic systems

23 p3658 A71-44088

Phase sensitive magnetic semiconductor pulse width modulator with diode bridge consisting of single saturable-core choke input and transistor circuit output arms

24 p3810 A71-45155

PULSE FREQUENCY MODULATION

Transient response of pulse frequency modulation automatic control systems for zero or nonzero initial conditions, using signal Laplace transforms

01 p0059 A71-10528

Neural pulse frequency modulation model limitations and modification for error sampled control system stability analysis

01 p0038 A71-11312

Pulse frequency modulated pulsed control systems, deriving sufficient conditions for limit boundedness/dissipativity

02 p0236 A71-12621

Neural pulse frequency modulated error sampled control system stability, considering model limitations and modifications

03 p0390 A71-14307

Mode locked Nd-glass laser, describing dispersion and Kerr effects on pulse frequency modulation

08 p1301 A71-21125

Pulse frequency modulation feedback system nonlinear discrete equivalence, investigating stability by Liapunov method

09 p1422 A71-22280

Sampled data feedback control systems with neural pulse frequency modulation, deriving periodic oscillations existence conditions

09 p1424 A71-23387

Optimal reception of Markov radio signals with intrapulse FM, using nonlinear filtration theory

10 p1578 A71-24711

Phase controlled linear FM pulse generation by digital square wave carrier phase modulation, using parabolic function generator

12 p1879 A71-26995

Current controlled unstable pulse oscillator, discussing depletion layer transistors and upper frequency limit as function of thermal loads and switching times

12 p1887 A71-27043

Nonlinear closed loop control system with PFM and PWM, obtaining asymptotic stability condition by Liapunov and La Salle theorems

12 p1893 A71-27726

Pulse frequency modulated control systems stability analysis by Liapunov method, introducing discrete correction into modulation law

15 p2381 A71-31979

Linearly increasing input signal tracking in nonlinear control systems with pulse frequency modulation, discussing error determination, asymptotic stability and equations of motion

15 p2381 A71-31980

Long distance FM signal pulse propagation and maximum compression synthesis in dispersive media, using asymptotic theory for mathematical treatment

17 p2701 A71-34761

Two dimensional nonlinear discrete/pulse frequency modulation/control system stability, using Liapunov direct method and mathematical model

17 p2721 A71-35134

Transmission characteristics of communication systems with incoherent carriers through fading and nonfading media, showing advantage of PFM-AM with clipped noise carrier

20 p3201 A71-39913

- Feedback control system with combined PFM and PDM, obtaining nonlinear discrete equivalence 21 p3360 A71-40615
- Soviet book on nonlinear sampled-data control systems with PFM and PDM covering mathematical description, transient analysis and system stability problems 22 p3526 A71-41821
- Sampled data control systems with pulse frequency modulation and time lag element, determining error response 22 p3527 A71-42493
- Comparative qualitative simulation of pulse frequency modulation control with/without error signal derivatives 23 p3656 A71-43867
- PULSE FREQUENCY MODULATION TELEMETRY**
Eight channel micropowered miniature biomedical PAM/FM telemetry system for implantation in research subjects aboard orbiting space station 14 p2189 A71-30930
- PULSE GENERATORS**
Start-stop pulse generator for gas laser in quasi-steady monoimpulse mode with given emission duration 01 p0093 A71-10621
- Light pulse generator for amplitude-frequency analysis of photoreceivers, using wideband modulated semiconductor injection laser emission 01 p0093 A71-10624
- Laser technology, discussing short duration pulse generation 04 p0606 A71-14713
- High power pulsed electron beam generator, using distilled water as dielectric and multiblade cathode electron gun 06 p0876 A71-18077
- Long distance PCM-AM pulse regenerator for 4 GHz band and millimeter wave communication 08 p1265 A71-21285
- Programmable solid state pulse generator for charge-sensitive amplifier excitation at high pulse repetition rates, discussing circuit elements and applications 08 p1267 A71-21850
- Pulsed plasma accelerator energy balance determination by spectroscopic measurement 09 p1498 A71-22100
- Single mode laser pumping generator of stimulated Brillouin scattering pulse in water 09 p1462 A71-22399
- Nonstationary stress modeling in aircraft structures using random pulse generator applied to jet landing gear break strut fatigue test 10 p1692 A71-24954
- Phase controlled linear FM pulse generation by digital square wave carrier phase modulation, using parabolic function generator 12 p1879 A71-26995
- Versatile pulse amplifier for use with scintillation counters, surface barrier detectors, proportional counters or channel electron multipliers 13 p2067 A71-28163
- High speed rotating optical attenuator for sub-second sawtooth radiance pulse generation for detection, cooling or heating experiments 19 p3063 A71-37249
- Nanosecond ruby laser pulse generation using electro-optic shutter switching circuit external to Q-spilled cavity 21 p3391 A71-40179
- Massive main sequence stars pulsation kinetics, examining amplitude growth, time scale ratios and evolutionary stabilization 22 p3596 A71-41447
- Nonlinear losses in ultrashort light pulse generators and amplifiers, attributing to self focusing of laser radiation in active and optical media 22 p3558 A71-42457
- Circuit generating short rectangular current pulses for pumping semiconductor lasers 23 p3685 A71-43528
- Solid state lasers, discussing ruby lasers application for welding and drilling, mode coupling of glass lasers and extremely short pulses generation 23 p3685 A71-43953
- PULSE HEATING**
Transient heat conduction in dual-layer insulated plate exposed to pulse heating, discussing temperature response [AIAA PAPER 70-14] 03 p0522 A71-14439
- Production welding and annealing, investigating low heat input, intermetallics formation, atmospheric contamination, hot short cracking, speed and cost 09 p1458 A71-23408
- Mo high temperature melting point and electrical resistivity measurement by pulse heating method 10 p1624 A71-23912
- Computerized use of transient thermal resistance and power pulses superposition to calculate instantaneous transistor junction temperatures for various pulse conditions 13 p2038 A71-28770
- Thermoelastic stress generation in Cu and Ta samples by linear accelerator produced monochromatic MeV electron pulses, comparing measurements with wave theory predictions 15 p2414 A71-31973
- Surface melting, spallation and stress response prediction for metals under pulsed electron beam heating, using one dimensional finite difference computer program 15 p2390 A71-32005
- Pulsed electron beam heating of metals, determining surface melting, spallation and induced stresses with one dimensional computer programs 15 p2429 A71-32006
- High speed system for thermophysical properties measurement of electrical conductors above 2000 K in subsecond experiments 19 p3062 A71-37246

- Pulse radar moving target indication and stationary targets reflection suppression, using recursive type digital filter and quadrature channels for improving signal detectability 10 p1579 A71-25068
- Pulse-burst radar design optimization and performance comparison with low and high pulse repetition frequency Doppler radar 14 p2197 A71-30797
- Onboard meteorological pulse radars for cloud formations detection, navigational aids, ground reference points determination and relief surveillance 15 p2371 A71-31920
- Varactor tuned FM pulsed Gunn oscillator for testing X band delay lines for pulse compression radar 16 p2546 A71-33415
- Magnetically conjugate range-time observations of E region radio aurora by pulsed VHF radar echoes 16 p2875 A71-35963
- General purpose pulsed microwave radar receiver, describing balanced mixer and transistorized IF amplifier design and construction 18 p2887 A71-36015
- Resolution and clutter performance of simultaneous Doppler and acceleration measurement with coherent pulse trains 20 p3195 A71-38855
- Doppler distortions of clutter and resolution performance of pulse trains with large time bandwidth products 20 p3195 A71-38861
- Cumulative probability of target detection for pulse surveillance radars, relating target cross section, velocity and radar frame 20 p3199 A71-39901
- Pulse compression circuit techniques combined with radar system philosophy for signal encoding application to pulse radar 20 p3201 A71-39911
- Book on pulse, CW, Doppler, pulse Doppler and space radar theory, operation and maintenance, describing equipment, tracking and siting 22 p3509 A71-41621
- Airborne radar sea return averaged pulse shape measurements over various water surfaces, noting clear distinction between specular and scattered reflection components 24 p3824 A71-45083

PULSE RATE

Lithium niobate crystal electro-optical shutter to Q switch calcium difluoride-Dy laser emitting giant pulses at high repetition rate

01 p0095 A71-11210

Temperature distribution in heat conducting cylindrical laser rod at large pumping pulse repetition rates

03 p0435 A71-13512

Reactive Q switching in carbon dioxide multimode multipass laser with movable end mirror, measuring pulse rates and amplitudes

03 p0438 A71-13892

Huffman /impulse-equivalent/ pulse sequence design, examining energy distribution form control of signal in time-frequency plane

04 p0551 A71-15005

Catheter-flush system for continuous monitoring of central arterial pulse waveform and pressure

04 p0545 A71-15165

Pulsar PSR 1237 plus 25 pulse sequence change, examining profile at 318 MHz

05 p0807 A71-16213

Pulse repetition rate of Q switched YAG-Nd oscillator-amplifier laser systems

05 p0762 A71-16479

Pulsar MP 0628 meter wave radiation, noting linear polarization and frequency dependence of pulse rate

06 p0965 A71-17387

Carotid pulse wave slope variations in normal subjects, aortic valvular diseases and hypertrophic sub-aortic stenosis

09 p1392 A71-22590

Uncooled GaAs injection laser with high pulse repetition rate, discussing structural features and current-power characteristics

10 p1619 A71-23811

Jet pilots flight stresses assessment via biotelemetric transmission of pulse rate, respiratory rate, electrocardiographic data, flight altitude and velocity

10 p1567 A71-23880

Pulse rate and pumping power effects on emission spectra and I-V characteristics of multielement GaAs injection lasers

10 p1622 A71-24884

Pulse wave velocity measurements in human veins by transcutaneous ultrasonic flow detectors, noting respiration and Valsalva effects

12 p1874 A71-27136

Alpha radiation machmeter with semiconductor pulse detectors, discussing supersonic regime effects on rate variations

12 p1908 A71-27607

Carbon dioxide laser pulse shape, duration and power dependence on repetition rate during continuous pumping

13 p2077 A71-28366

Pulsar MP 0628 meter wave radiation, noting linear polarization and frequency dependence of pulse rate

14 p2310 A71-30166

Triangular pulse shaper using transistors and dynistors, obtaining pulse duration, rise time and maximum repetition frequency

14 p2213 A71-30581

High speed pulse response and power-delay product of planar Gunn diodes, noting delay time and power delay product

14 p2215 A71-30834

Truncated pulse signal height distributions of atmospheric sources

14 p2203 A71-30960

Pulse frequency behavior during acquisition of perceptual and motor skills with particular attention to rest periods

15 p2362 A71-31195

Crab pulsar frequency increase associated with nebula activity surge

15 p2494 A71-32549

Circulatory fatigue during shift work, determining pulse rate/oxygen intake at two different loads on bicycle ergometer

17 p2687 A71-34358

Pulsar emission data, presenting average phase shapes and pulse to pulse intensity fluctuations

17 p2797 A71-34372

Pc 3 and 4 micropulsations period structure data, observing multiple frequencies during magnetically active times

19 p3048 A71-37397

Avalanche Si photodiode current pulse formation frequency governing mechanism, considering roles of free carriers and electron tunneling

21 p3358 A71-41344

Radar echoes maximal intensity measurements from meteorological formations, describing pulse by pulse recording system

24 p3826 A71-44883

Carbon dioxide-helium-nitrogen laser with nonlinearly absorbing cell, presenting emission pulse duration and rate

24 p3834 A71-45111

PULSE RECORDERS

U COUNTERS

PULSE TIME MODULATION

NT PULSE DURATION MODULATION

NT PULSE POSITION MODULATION

Noise stability at reduced peak signal power of PTM-AM communications using wideband linearly frequency modulated carrier pulses

PULSE WIDTH

U PULSE DURATION

PULSE WIDTH MODULATION

U PULSE DURATION MODULATION

PULSED JET ENGINES

LES 6 satellite solid Teflon pulsed plasma thruster performance, determining energy balance thrust and circuit parameters

[ALAA PAPER 70-179] 03 p0472 A71-14429

Dynamic I-V characteristics of megawatt pulsed MPD-arc plasma thruster under various axial magnetic fields given for Ar and hydrogen propellants

[ALAA PAPER 70-164] 05 p0796 A71-16574

Solid Teflon fuel pulsed plasma thruster optical measurements, showing different exhaust velocities for neutral, singly, doubly and triply ionized atoms

[ALAA PAPER 71-194] 06 p0948 A71-18632

Pulsed megawatt MPD arc thruster exhaust pressure measurements, discussing time dependence, peak dynamic and static pressures, etc

[ALAA PAPER 71-196] 06 p0948 A71-18634

Pulsed plasma rail mercury propellant thruster for satellite attitude control, measuring thrust and exhaust velocity with balance and Langmuir probe respectively

18 p2956 A71-36243

Pulsed plasma thrusters, propellants, trigger and feed systems developments for long life secondary spacecraft propulsion

22 p3588 A71-41975

PULSED LASERS

NT Q SWITCHED LASERS

Silicon avalanche photodiode detectors for near IR laser pulse receivers, discussing quantum efficiencies, internal gains and room temperature responsivities

01 p0092 A71-10011

Pulsed hydrogen fluoride gas laser output line spectral distribution, describing experimental setup and measurements

01 p0092 A71-10371

Output properties of electrically pulsed carbon dioxide laser as functions of partial gas pressure and discharge voltage

01 p0092 A71-10372

Light echo obtained via giant laser pulse peak overlapping in space and time

01 p0095 A71-11034

Pulsed laser emissions in atmosphere, noting backscattered light spatial and temporal structure under various meteorological conditions

01 p0120 A71-11105

Surface destruction of glass dielectric by pulsed laser beam, considering plasma clouds, shock waves, ablation and crack formation

02 p0258 A71-11640

Self locked He-Cd 114 laser pulse velocity behavior, discussing stability

02 p0260 A71-11948

Dynamic cross-field photomultiplier sampling function characteristics measurement using self-mode-locked He-Ne pulsed laser

02 p0248 A71-12006

Atmospheric pressure pulsed carbon dioxide lasers electrical excitation using double transverse discharge technique

02 p0260 A71-12130

Nd-glass pulsed solid state laser amplifier gain characteristics, deriving flux density and population inversion equations

02 p0261 A71-12173

Giant pulse laser emission stabilization, describing technique for eliminating short time oscillations in subnanosecond range

02 p0261 A71-12321

Mode locked continuously pumped Nd-YAG laser pulse shape, using optical correlation technique

02 p0262 A71-12730

Vacuum UV laser emission from molecular hydrogen in Lyman band using short risetime traveling wave discharge

03 p0434 A71-13478

Temperature distribution in heat conducting cylindrical laser rod at large pumping pulse repetition rates

03 p0435 A71-13512

Nd-YAG pulsed laser, comparing Kr and Xe flash lamps for pumping performance

03 p0437 A71-13880

Mode locked pulsed lasers statistical amplitude and phase variations effects on time dependent output intensity and nonlinear optical processes efficiency

03 p0437 A71-13881

Homogeneously broadened pulsed laser mode locking with internal frequency or amplitude modulation

03 p0437 A71-13882

Nd-YAG pulsed laser mode locking with internal FM modulation

03 p0437 A71-13883

Long pulse rhodamine 6G flash lamp-pumped circulating dye laser with cyclooctatetraene cycloheptatriene as triplet state quenchers, testing performance

03 p0437 A71-13884

Real time oscilloscope observation of ultrafast photodiode response to mode locked laser pulses

03 p0438 A71-13886

IR gas pulsed lasers continuous self mode locking, observing optical spectra with scanning Fabry-Perot interferometer

03 p0438 A71-13889

Pulsed laser threshold measurements in YAG activated by Ho, Er and Tm isotopes, noting temperature dependence

03 p0438 A71-13890

Real time analysis and display of pulsed laser propagation data in rectangular X-Y field

03 p0427 A71-13920

Quantitative spectrographic microanalysis using laser pulse vaporization and spark discharge

03 p0438 A71-13975

Atmospheric pressure pulsed carbon dioxide laser, investigating gain, peak power and pulse duration as function of gas pressure and discharge voltage

03 p0440 A71-14461

Helium effects on dissociation and population inversion dynamics in pulsed carbon dioxide lasers

04 p0605 A71-14628

Laser technology, discussing short duration pulse generation

04 p0606 A71-14713

Self giant pulsed operation of ruby and Nd-YAG lasers obtained by mirror misalignment

04 p0606 A71-14714

Thermal conductivity determination for materials by pulsed laser or flash lamp energy absorption

04 p0595 A71-14961

Subnanosecond laser pulses interaction with thin Ni foil targets leading to energetic pulsed plasma beam production

04 p0608 A71-15134

Pulsed laser holography, discussing illumination source and holocameras for high contrast recording with Q switched ruby lasers

04 p0597 A71-15363

Photodetector triggered single pulse selection from mode locked ruby laser

04 p0608 A71-15595

LF oscilloscope display of periodic subnanosecond optical pulses from mode locked lasers

05 p0761 A71-16334

Homogeneous pulsed laser with intracavity FM modulator, predicting modulation frequency detuning effect on mode locking behavior

05 p0762 A71-16340

Spontaneous mode locking in high pressure carbon dioxide laser with nanosecond pulse separations

05 p0763 A71-16496

Double pulse laser holographic interferometry for large noisy vibrating subjects, including demonstration on Al plate

05 p0751 A71-16580

Mode locked high pressure carbon dioxide lasers subnanosecond pulse widths measurement based on photon flux and fast shutter in semiconductor

06 p0907 A71-17310

Pulsed carbon dioxide laser amplifier, examining spatial and temporal refractive index variations with interferometric measurements

06 p0910 A71-18667

Multipass carbon dioxide pulsed laser mode competition and self locking

06 p0910 A71-18668

Upper atmosphere investigation by ground based pulsed laser radar

06 p0910 A71-18719

Pulse gated binary modulation /PGBM/ visible laser communications for earth orbital missions

07 p1056 A71-18810

Pulsed laser emissions in carbon dioxide under high pressure, discussing onset inversion and pulse duration

07 p1121 A71-19128

Luminescence excitation in chelates under pulsed ruby and neodymium laser radiation action, examining two photon absorption mechanism

07 p1122 A71-19130

Chirped optical pulses nature, properties, generation and applications in pulse shape measurement in nonlinear wave propagation, ultrashort pulse generation and adiabatic population inversions

07 p1160 A71-19778

High power pulsed laser applications, considering satellite orbit determination, distant satellite ranging and precise triggering of high voltage spark gaps

07 p1124 A71-19780

Pulsed laser holography physical principles and applications in stress and vibration analysis, flow pattern visualization, biophysical and medical research

07 p1113 A71-19783

Plasma refractive index effects in pulsed HCN lasers, calculating stable cavity mirror curvatures constriction as function of electron density by ray matrix approach

07 p1124 A71-19795

Optically pumped pulsed ruby laser welding unit, noting joining and hole drilling problems

07 p1119 A71-19968

Erbium ions stimulated emission, spectroscopic properties, pulsed laser action and absorption spectra in yttrium orthoaluminate

07 p1126 A71-20165

Light pulses from tandem bisected GaAs lasers nonuniform excitation, determining width by intensity correlation in lithium iodate crystal

07 p1126 A71-20167

Pulsed ruby laser radiation energy characteristics relation to crystal temperature distribution, thermal deformation and compensating lens focal length

07 p1126 A71-20188

Single mode ruby and Nd glass lasers axial mode selection by dye filters, noting radiation spectra and spatial coherence

07 p1126 A71-20190

Partial mode locking in picosecond self pulsing GaAs injection lasers

07 p1128 A71-20394

Mode locked pulsing from carbon dioxide-nitrogen-helium multipass laser by cavity end reflector sinusoidal modulation along axis

07 p1128 A71-20395

Carbon dioxide laser IR pulses self focusing in liquid carbon disulfide, calculating nonlinear refractive index

07 p1128 A71-20396

Nd-glass laser amplified mode locked pulse measurements, noting signal to noise ratio above 10,000

07 p1129 A71-20617

Nitrogen-carbon dioxide electric discharge mixing laser /EDML/ used as pulse amplifier, using high flow rate for waste heat removal

07 p1129 A71-20618

Sparks induced in gases by transversely excited atmospheric pressure carbon dioxide IR pulsed lasers, observing plasma filament forward propagation

07 p1129 A71-20619

Pulsed laser emissions in atmosphere, noting backscattered light spatial and temporal structure under various meteorological conditions

08 p1325 A71-20849

Pulsed laser schlieren system for ultrasonic wave front imaging in nondestructive testing techniques

08 p1286 A71-20949

Mode locked Nd-glass laser, describing dispersion and Kerr effects on pulse frequency modulation

08 p1301 A71-21125

Gaussian shaped laser pulse holographic brightness analysis, presenting theoretical and experimental holographic coherence length curves for Q switched laser oscillator and amplifier system

08 p1290 A71-21390

Near Gaussian intensity distributions from multimode high power pulsed ruby lasers, using rotating diffuser

08 p1302 A71-21407

Pulsed optical parametric oscillators, investigating effects of spatially nonuniform pumping with beams having Gaussian intensity profiles

08 p1302 A71-21432

Electron beam pumped CdS laser, investigating output pulse time duration based on laser oscillation quenching model

08 p1302 A71-21433

Single longitudinal mode operation and mode locking of pulsed high pressure transversely excited carbon dioxide laser by saturable absorbers

09 p1463 A71-22758

Spectral mode, band to band carrier decay, pulsed and CW operation of laser quality In-Ga-P

09 p1463 A71-22765

Energetic highly ionized plasma production by pulsed laser heating of lithium hydride pellets

09 p1503 A71-22867

Infrared laser output from giant pulse laser beam photoexcited alkali metal vapors, assuming buffer gas collisional mechanism

09 p1464 A71-23380

Long pulse glass laser welder-driller, determining mean energy densities and spot sizes

09 p1464 A71-23404

Spontaneous self locking axial modes in transversely excited high pressure carbon dioxide laser of helical geometry, measuring emission pulses in MW power range

09 p1465 A71-23483

Laser fluid flow velocimeter pulse output resolution approximation, using spectrum analyzer or discriminator measurements

09 p1453 A71-23726

Uncooled GaAs injection laser with high pulse repetition rate, discussing structural features and current-power characteristics

10 p1619 A71-23811

Spectral bandwidth of Q switched giant pulse laser as function of single pass gain, optical switch and resonator loss

10 p1619 A71-23955

Molecular gases dissociation due to pulsed carbon dioxide laser radiation, observing luminescence temporal, spatial and spectral characteristics prior to breakdown

10 p1620 A71-24040

NASA pulsed laser ranging systems for scientific satellite tracking, determining accuracy by trajectory and long arc orbital comparison

10 p1576 A71-24051

Cross-excited electrically pulsed carbon dioxide laser investigating self mode locking as function of cavity length, operating pressure and bleachable absorber sulfur hexafluoride

10 p1620 A71-24152

Pulsed HF chemical laser output as function of fluorine source, flow rate and output coupling

10 p1620 A71-24153

Controlled thermonuclear reactions produced by exposing LiD target to short pulses of Nd-glass laser, measuring neutrons number and plasma temperature

10 p1620 A71-24208

Atmospheric pressure carbon dioxide laser electrode design for uniform pulse excitation discharge

10 p1621 A71-24508

Hydrodynamic model for heating of pulsed laser produced plasma generated at plane solid target, deriving electron temperature and ion expansion energy

10 p1621 A71-24673

Emission dynamics of pulsed laser with optical delay line in resonator

10 p1622 A71-24885

Self consistent hydrodynamic heating of solid substance by laser pulse for nonequilibrium ionization

10 p1653 A71-24887

Pulsed ion laser electron density measurement by cavity method in S band, evaluating relaxation time

10 p1623 A71-25021

Gunn diodes and heterojunction laser applications in optical pulse communication systems synthesis

11 p1772 A71-25235

Time delay in pulsed optical carbon dioxide laser pumping mechanism in high current gaseous discharge

11 p1773 A71-25796

Nd-YAG laser cavity dumping for continuously pumped efficient pulsing at various repetition rates

11 p1773 A71-25797

Pulsed laser holographic applications to aerospace components nondestructive testing, inspecting electron beam welds and internal structural flaws

11 p1770 A71-25988

Laser pulse produced energetic ion and plasma measurements fore and aft side of targets including Al and Au foils

11 p1775 A71-26084

High density and temperature plasmas produced by laser pulse heating massive solid targets, discussing interaction processes

11 p1807 A71-26094

Nonlinear photoelectric electron emission due to picosecond mode locked laser pulse irradiation

11 p1776 A71-26426

Capacitor discharge excited atmospheric pressure carbon dioxide-nitrogen-helium pulsed IR laser, investigating laser output dependence on gas flow and electrical parameters

12 p1913 A71-26976

Thermal transient effects in optically pumped pulsed lasers, presenting approximate calculation of temperature distribution and laser rod distortion effect on collimated light beam

12 p1914 A71-26979

Transversely excited atmospheric pressure carbon dioxide lasers, considering multimewatt laser pulse generation

12 p1914 A71-27279

Barium titanate pyroelectric receivers for giant pulse laser emission measurements

12 p1915 A71-27756

Cavity mirror transmittance variation effect on output power and pulse length of single-pulse Nd-doped glass laser with nonuniform inverted population distribution

13 p2077 A71-27855

Carbon dioxide laser pulse shape, duration and power dependence on repetition rate during continuous pumping

13 p2077 A71-28366

Subpicosecond structure and frequency sweep observation results of single pulse of Nd-glass laser, considering explanation by mode locking theory

13 p2079 A71-28712

Electron and laser pulse plumes, using thermomechanical shock wave theory

13 p2079 A71-28768

Frequency and temperature variations of active diode region in pulsed GaAs laser, using Fabry-Perot interferometer

13 p2079 A71-28923

Pulsed Xe ion laser properties, considering emission divergence, coherence and cross section

13 p2080 A71-29028

Transverse spatial diffusion of phase-dispersed pulses, showing effects on dechirped pulse duration, output beam cross section and two-photon fluorescence display

13 p2081 A71-29332

Nd-YAG laser operation with simultaneous intracavity frequency doubling and mode locking, ob-

serving mode-locked pulse lengthening and circulating power decrease

13 p2081 A71-29335

Simultaneous mode locking and pulse coupling of carbon dioxide laser achieved by single internal GaAs element, discussing possible application to pulse code modulation

13 p2081 A71-29341

Airborne equipment for CAT detection ahead of aircraft, considering pulsed Doppler laser and IR detectors

14 p2268 A71-29765

Pulsed atmospheric pressure carbon dioxide laser output pulse characteristics and self mode locking

14 p2253 A71-29799

Cadmium sulfide pulsed laser spectrum analysis, discussing output stabilization by mode selection and electron beam scanning

14 p2253 A71-30092

CW 28 micron signal resonant regenerative amplification in pulsed water vapor laser, showing pulse to pulse frequency coherence

14 p2255 A71-30832

Cold cathode pulsed gas laser construction with glass plasma tube allowing operation with oxygen and variety gases

14 p2255 A71-30882

Parametric amplification of two laser waves with amplitude and phase modulation under exponential signal growth applied to Raman scattering in picosecond pulse field

15 p2418 A71-31188

Pulsed lasers coherence measurements by holographic techniques, considering high fraction of near field pattern with appreciable coherence

15 p2419 A71-31255

Pulsed gas dynamic laser for radiation generation at high power levels, using shock tube

[AIAA PAPER 71-572]

Motion and collision of plasma blobs generated by giant pulse ruby laser irradiation on lithium plate

15 p2455 A71-31643

Ultrasonic effects on synchronization of ruby laser radiation, investigating emission pulse structure and peak sequence

15 p2419 A71-31712

Pulsed nitrogen-pumped dye laser output spectral narrowing by injection of argon laser monochromatic radiation into cavity

15 p2420 A71-32382

Self induced second order mode locking optical pulsing of double heterostructure stripe geometry junction lasers operating continuously at room temperature

15 p2421 A71-32388

Pulsed semiconductor laser as high resolution optical range spectroscopy, noting application to Cs hyperfine absorption

15 p2421 A71-32403

Thermomechanical damage by pulsed lasers in metals, discussing energy deposition and stress wave generation for optimal fracture conditions

15 p2422 A71-32555

Rhodamine 6 G in ethanol partial mode locked dye laser picosecond pulses, using pulsed nitrogen laser pumping

15 p2422 A71-32580

Multiple laser cavities in single lasing medium, describing spatial separation of single giant pulses

15 p2422 A71-32584

Pulsed output, delay time and rotational-vibrational transitions of high pressure transverse discharge CO laser

15 p2424 A71-32613

Compact pulsed carbon dioxide laser with uniform volume excitation, obtaining output energy as function of discharge voltage, gas composition and pressure

15 p2424 A71-32698

Giant pulse ruby laser, using potassium dihydrophosphate crystals linear electro-optical effect for Q modulation

15 p2424 A71-32758

Pulsed laser double exposure holographic interferometry for measuring transverse wave propagation in beams

15 p2413 A71-32790

Electron density gradient and radial compression waves in pulsed IR laser gas discharge tube

16 p2585 A71-32795

High average power flash lamp pumped pulsed dye laser development and application in atmospheric sodium probing

16 p2586 A71-33148

Optical interferometry and schlieren photography involving high power pulsed lasers, discussing applications to plasma diagnostics and holography

16 p2586 A71-33159

Pulse laser holographic interferometry for refractivity measurement, considering wave front reconstruction principles

16 p2578 A71-33160

High power carbon disulfide-oxygen combustion pulsed laser, discussing foreign gases effects on performance and energy transfer mechanism

16 p2586 A71-33165

Luminous pulse production by internally modulated Ar laser, observing overall modes amplitudes 16 p2587 A71-33381

Two photon method of measuring ultrashort pulses and nonlinear optical effectiveness of lasers in synchronized mode 16 p2587 A71-33644

Ultrafast laser pulses, revealing fluorescence decay, stimulated Raman scattering and plasma formation transient details 16 p2588 A71-33873

Mode locked laser pulse signal recovery from time integrated correlation functions of arbitrary order, including field amplitude fluctuations 16 p2588 A71-34075

Flash lamp pumped pulsed dye lasers using triplet quenchers cycloheptatriene and cyclooctatetraene with 600 microsec emission times in rhodamine 16 p2589 A71-34122

Transversely excited atmospheric pressure pulsed carbon dioxide laser with helical electrode, discussing diverging lens effect due to cavity transverse electric discharges 17 p2750 A71-34370

Time variation of electron density and temperature in pulsed lasers operating on nitrogen band transitions, using charged particle balance equation 17 p2751 A71-34382

Pulsed emission and modulation of output power of He-Ne laser at 0.63 and 1.15 micron wavelengths as function of external longitudinal magnetic field 17 p2751 A71-34385

Book on optical holography covering basic concepts, Fourier transform, propagation and diffraction, pulsed lasers, interferometry, geometric analysis of point source hologram, etc 17 p2738 A71-34450

Short pulse Nd-YAG direct detection laser system for space communications, noting RF links complementation, high data rates, practical size, weight and power requirements 17 p2705 A71-35093

Holography with single transverse longitudinal mode pulsed ruby laser, emphasizing carrier frequency shift as limiting factor on depth of field 17 p2745 A71-35587

Pulsed chain reaction chemical lasers using flash photolysis of hydrogen-fluorine-helium mixtures 17 p2754 A71-35750

Time resolution enhancement in laser photography, recording fast events with long pulse length laser without auxiliary shutters 18 p2914 A71-35851

Self pulsing in homogeneously broadened oscillator, using materials with short recovery time for appreciable inverted population density modulation 18 p2929 A71-35901

Emission characteristics of neodymium glass laser with polymethine dye passive shutters of finite relaxation time, investigating ultrashort pulse separation 18 p2929 A71-35985

Double exposure pulsed laser holographic interferometry application to transverse wave propagation in Al plate 18 p2977 A71-36233

Dye lasers developments and applications, including flash lamp pumps, frequency narrowing and tuning and picosecond pulse mode locking 18 p2931 A71-36602

High power GaAs injection laser diodes characteristics and array module design for pulsed operation, using confinement junction formation and reflective end coating 18 p2931 A71-36604

Pulsed ruby laser high speed photography for accurate measurements of models contours in hypervelocity flight within aeroballistic range 18 p2923 A71-36612

Reflection, material and resonator losses correlation in solid state lasers, investigating pulse power in Q switched operation 18 p2932 A71-36801

Pulsed combustion heated carbon dioxide gas dynamic laser with expansion separation, showing composition and stagnation pressure dependent gain and energy variations 19 p3071 A71-37144

Beam splitting photocell for pulsed laser power and energy measurement 19 p3072 A71-37551

Oscillatory variation of optical length of pulsed laser resonators during lasing, testing with ruby laser in free emission mode 19 p3073 A71-37791

High repetition line selectable compact electrically pulsed hydrogen fluoride lasers operating on sulfur fluoride and hydrogen mixture 20 p3242 A71-38825

Platelet lasers optically pumped by pulsed xenon laser, investigating single mode operation, threshold-temperature curves, efficiency and gain spatial inhomogeneity 20 p3243 A71-39006

High pressure transversely excited pulsed nitrous oxide laser active mode locking at subatmospheric pressures 20 p3244 A71-39101

Pulsed laser oscillation from F atoms in mixed helium-fluorine gases using electric discharge excitation 20 p3244 A71-39107

Dual beam pulsed gas laser magnetic resonance spectrometer for magneto-optic studies of solids in far IR frequencies 20 p3244 A71-39177

Time resolved gain measurements of pulsed two level laser system, using computer for curve analysis 20 p3245 A71-39179

Pulsed ruby laser holographic instrumentation for materials tests, detailing reflected wave front complex amplitude characterization 20 p3245 A71-39347

Pulsed Nd laser source mass spectroscopy application to geological material analysis, tabulating assessed limits of detection for various elements 20 p3245 A71-39422

Repetitively pulsed flashlamp pumped dye laser, noting high average outputs in red end of spectrum with rhodamine B 20 p3246 A71-39760

Radial energy contours of pulsed ruby laser beam in direct determination of thermal conductivity by flash technique, using heat flux transducer 21 p3391 A71-40180

High resolution spectroscopy of Na D resonance lines in saturated absorption with repetitively pulsed tunable dye laser 21 p3391 A71-40199

Pulsed laser emission chemically pumped by exothermic chain reaction between hydrogen and fluorine mixed with He initiated by flash photolysis 21 p3391 A71-40238

Pulsed argon ion laser data, presenting excitation mechanisms and time resolved gain measurements 21 p3392 A71-40625

Pulsed ruby laser holography improvement by coherence length increase with temperature controlled multitelons and beam uniformity through ruby crystals improvement 21 p3393 A71-40925

High resolution portable hologram recording camera with pulsed ruby laser light source and rechargeable storage batteries as self contained power supply 21 p3380 A71-40926

Electrons heating by matter interaction with ultrashort laser pulses, considering hard bremsstrahlung generation 21 p3394 A71-41134

Self consistent hydrodynamic heating of solid substance by laser pulse for nonequilibrium ionization 21 p3424 A71-41253

CdS crystals faces damage caused by picosecond light pulses from free oscillating Nd-glass laser 21 p3432 A71-41305

Frequency and temperature variation with time in active region of pulsed GaAs laser diode, using Fabry-Perot interferometer 21 p3394 A71-41318

Optical spacecraft tracking, using pulsed ruby lasers at Baker-Nunn camera stations of Smithsonian Astrophysical Observatory for retroreflector-equipped satellites ranges 21 p3349 A71-41404

High energy neutralized ion beam generation by focusing ultrashort laser pulses on thin foils, applying to nuclear reaction for superheavy nuclei production 22 p3555 A71-41595

Pulsed ruby laser transmission and reflection holography in single transverse and axial electromagnetic mode, stressing safety aspects 22 p3556 A71-41743

High intensity light sources hazards analysis, discussing thermal detectors and vacuum and semiconductor photodiodes for pulsed laser outputs measurement 22 p3541 A71-41795

Vacancies production in pure Ni and V foils by bombardment with high intensity laser pulses 22 p3556 A71-41812

Mode locked transversely excited atmospheric carbon dioxide laser with Ge ultrasonic diffraction cell active loss modulator generating 10.6 micron wavelength pulses 22 p3557 A71-42132

Pulsed atmospheric pressure carbon dioxide laser, studying pulse power and shape as functions of energy storage capacitor value, charging voltage and gas composition 22 p3557 A71-42159

Helium effects on dissociation and population inversion dynamics in pulsed carbon dioxide lasers 22 p3558 A71-42268

Pulse shape of mode locked frequency doubled Nd-YAG laser, using single crystal for second harmonic generation and phase modulation 22 p3558 A71-42348

Heating dynamics of transparent dielectrics exposed to pulsed laser beam operating in free laser mode 23 p3683 A71-43270

Spatiotemporally coherent pulsed Ne and Ti vapor lasers superradiation, showing coherence time dependence on pulse length and gas pressure 23 p3683 A71-43395

Interferometric fringes from study of gas plasma produced by ruby laser pulses, using Nd glass laser for heating 23 p3710 A71-43409

Mode-locked laser ultrashort pulse duration measurement from field intensities autocorrelation functions 23 p3685 A71-43562

Spectral properties and tunability of far IR from ZnTe and lithium niobate crystals from difference-frequency mixing of mode-locked Nd glass laser pulses 23 p3686 A71-43997

N-hexane-air mixture ignition by giant pulse laser beam, analyzing probability and development time to formation of measurable nucleus 23 p3686 A71-43998

Mode locked CW dye laser operation, describing output stability and pulse rate and widths 23 p3687 A71-44133

CW dye laser mode locking with lithium niobate phase modulator, observing 500 psec pulse generation 23 p3687 A71-44134

Explosion-pumped gas dynamic carbon dioxide laser, obtaining high pulse energy by common hydrocarbon fuels 23 p3687 A71-44135

Laser pulse produced plasma in freely expanding high density nitrogen gas jets, measuring electron temperature and light-plasma interaction time 23 p3687 A71-44140

Pulsed neon laser high gain oscillation at 486.1 and 434.0 nm identified as Balmer beta and gamma lines of atomic hydrogen 23 p3688 A71-44296

R-branch multiline performance of transversely excited pulsed HF chemical laser 23 p3688 A71-44297

Self focusing in gas breakdown produced by nanosecond laser pulses, using schlieren photography and laser light forward transmission measurements 24 p3832 A71-44358

Ultrarapid motion photogrammetry using three dimensional holography with pulsed laser recording 24 p3825 A71-44757

Liquid-state pulsed laser active element lens parameters effects on output radiation divergence 24 p3835 A71-45240

PULSED RADIATION

NT ELECTROMAGNETIC PULSES

Crab pulsar optical pulses time of arrival measurements, discussing various emission mechanisms as cause for pulsar slowdown characteristics 01 p0153 A71-10363

Gain measurement on pulsed radiation from high voltage discharges in mixtures of carbon dioxide, nitrogen and helium 01 p0096 A71-11423

Q switched ruby laser facility for measuring light pulse transmission spatial and temporal response through clouds 02 p0213 A71-12013

Unstable massive main sequence stars nonlinear pulsation, using small amplitude tests of approximation technique 05 p0806 A71-16202

High power continuous and pulsed coherent radiation generation by gas lasers, discussing transmission by proton generators and transforming engines [AIAA PAPER 71-106] 06 p0946 A71-18557

GaAs lasers self-induced pulses signal structure, measuring pulse width, repetition rate and amplitude fluctuations 06 p0910 A71-18671

Carbon dioxide laser IR pulse transmission under moderate pressure conditions using four state model of molecular laser passive Q switching and double resonance 07 p1128 A71-20391

Coherent radiative phenomena with nontrivial zero-pi pulses propagation behavior in attenuating media 08 p1334 A71-21194

Pulse propagation from time-step point force at surface of transversely isotropic elastic half space, obtaining solutions by integral transforms 08 p1371 A71-21428

Pulsed radio wave interactions with various lower ionosphere models, estimating cross modulation by computer calculation for comparison with measurements 09 p1405 A71-22443

Pulsed optical range finders, predicting transmitter pulse waveshape effects on calibration, precision and efficiency by probability density function 12 p1903 A71-26792

Low density plasma-double gridded antenna system for ion and electron signal propagation studies, observing multiple reflections of acoustic and ballistic pulses and bulk phenomenon

12 p1935 A71-26913

Radio pulses at 2 MHz from cosmic ray air showers, using high speed digital techniques in statistical data analysis

12 p1948 A71-26936

Ion sources designs involving high energy electron beam injections, discussing input power continuous and pulsed modes optimal efficiencies

12 p1940 A71-27507

Simultaneous equatorial ionospheric absorption measurements at different longitudinal locations, using pulse reflection technique at 2.0-7.5 MHz

12 p1902 A71-27671

Extensive cosmic rays high and low frequency radio pulses investigation, using plastic scintillator triggered receivers

13 p2127 A71-28107

Gated light pulse technique for multiple-pass interferometry

13 p2067 A71-28444

Pulsating aurora observations, noting light intensity, diurnal variations and power spectra

14 p2229 A71-29671

Pulsed gamma radiation from rotating neutron star, discussing synchrotron emission mechanism based on electron pulses incident on high intensity sharply localized magnetic field

15 p2474 A71-31724

Auroral 1.2-4 second periodicity X ray pulsations during magnetic storms, using omnidirectional detector at balloon altitude

15 p2474 A71-31775

High energy pulsed gamma rays detection from pulsars emission based on time averaged phase histograms

15 p2479 A71-31838

Continuously tunable pulsed UV source using broadband dye laser emission input to rotatable KDP crystal

16 p2586 A71-33141

Two frequency ultrasonic flaw detector for determination of defects opening widths, examining ultrasonic pulse transmission through thin air layers

16 p2580 A71-33562

Laser light pulses in anisotropic crystal, investigating nonlinear thermal rotation of polarization plane

16 p2587 A71-33570

Optical crossed or collinear light pulse pairs for production and sounding of instantaneous processes kinetics in nanosecond and picosecond range

16 p2580 A71-33624

Short narrow light pulse reflection from thick turbid medium with strong anisotropic scattering, obtaining backscattering signal power from unsteady transport equation solution

16 p2544 A71-34105

Galactic center isolated radio pulse search at 151.5 MHz, correlating with Weber gravitational events

17 p2805 A71-35378

Pulsar polarization characteristics and pulse profile observations in 250-450 MHz range

17 p2807 A71-35417

Time dependent multiple backscattering of pulsed light for linearly polarized incident radiation

17 p2709 A71-35809

Thermal self focusing of pulsed millimeter waves transmitted through cylindrical plasma, observing power dependence and beam asymmetry

18 p2951 A71-35986

High efficiency avalanche diode microwave oscillator design guidelines based on oscillation mode theory, covering CW and pulsed operations

18 p2888 A71-36131

Automatic fringe counting pulsed ultrasonic interferometer for transit time measurement, using phase sensitive multiple echo detection

18 p2922 A71-36586

Coherent neutral sheet radiation from pulsars, examining relationship between pulsation-driving energy source and mechanisms for pulsed emission

18 p2958 A71-36928

High speed rotating optical attenuator for sub-second sawtooth radiance pulse generation for detection, cooling or heating experiments

19 p3063 A71-37249

Pulsed gamma radiation detection from Crab Nebula by balloon-borne telescope

19 p3124 A71-37333

Pulsed emission of hard X rays from Crab Nebula pulsar NP 0532, using balloon-borne telescope

19 p3124 A71-37338

Infrasound pulsations of optical auroral luminosity in 3914 A positive molecular nitrogen ion and 5577 A O I emission measurement by double photometer system

19 p3048 A71-37395

Organic dyes pulse emission spectra shifts during pumping by ruby and neodymium-glass lasers, discussing vibrational relaxations role in mechanism

19 p3072 A71-37766

High peak power microwave oscillators, discussing pulsed limited space charge accumulation and TRAPATT diodes pulsed radiation sources performance

19 p3029 A71-38294

Auroral pulsations physical correlation with cosmic noise absorption, using statistical correlation analysis

20 p3215 A71-38734

Auroral zone ionosphere time lag observations, noting delay in cosmic noise absorption pulsations to fast bremsstrahlung X rays, luminosity and micropulsations

20 p3215 A71-38740

Higher order noisy optical pulse intensity correlations interpretation by statistical model, estimating spike amplitude

20 p3196 A71-39103

Cygnus X-1 X ray data with temporal resolution, examining pulsations and flare activity

20 p3278 A71-39110

Cygnus XR-1 X ray intensity fluctuations, discussing time scales and periodicities

20 p3278 A71-39111

Critique of quasar model of independent random pulse emitting sources conglomeration from incompatibility with light curve

20 p3289 A71-39294

Pulsar pulsed optical radiation search, noting dependence on determination of accurate positions by radio methods

20 p3303 A71-39938

Power spectral analyses of auroral light and X ray pulsations, discussing damping due to velocity dispersions of electrons with various energies

21 p3373 A71-40069

Periodic current pulse and superradiant radiation pulsing in DC excited xenon plasma with increased cathode-anode capacitance

21 p3424 A71-41046

Massive main sequence stars pulsation kinetics, examining amplitude growth, time scale ratios and evolutionary stabilization

22 p3596 A71-41447

Absolute foveal thresholds as function of flashes pulse length and null period

22 p3497 A71-41480

Flashing lights radiation characteristics photometric measurement, discussing measuring apparatus sensitivity and errors analysis

22 p3499 A71-41496

Circinus pulsating X ray source spectrum analysis, considering bremsstrahlung and black body models

22 p3592 A71-41928

Low cost two channel pulse counter (RUFAS) for astronomical photoelectric occultation observations, describing resolution, data output and computer interfacing

22 p3542 A71-41932

Quasi-optical transmission line stability improvement, investigating pulsating light beam concept

22 p3512 A71-42309

Monte Carlo method calculation for light pulse reflection from clouds for all orders of multiple scattering

22 p3576 A71-42562

Southern pulsars pulse energy flux average nightly values at 80 MHz

22 p3606 A71-42602

Atmospheric triggered VLF emissions theory, examining magnetospheric whistler Morse pulses

23 p3643 A71-43135

Radiant heat flux measurement during pulsed processes from surface in high temperature emitting gas, using thin film sensor with small time constant

23 p3782 A71-43922

Pulsed signal secondary forward scattering in optical fiber transmission lines

23 p3646 A71-43968

Pulsar radio pulse shape and structure, discussing pulse widths and polarization angle change

23 p3769 A71-43989

Extensive air shower radio pulse emission by geomagnetic charge separation mechanism, using antenna and scintillation counters arrays

23 p3646 A71-44012

X ray sources pulsation limits and locations determination by rocket-borne rotating modulation collimator

24 p3866 A71-44914

Dielectrics breakdown under ultrashort neodymium laser pulses at fundamental and second harmonic frequencies

24 p3834 A71-45120

PULSES

NT ELECTRIC PULSES
NT ELECTROMAGNETIC PULSES
NT GEOMAGNETIC MICROPULSATIONS
NT GEOMAGNETIC PULSATIONS
NT MICROPULSATIONS

Transistor collector pulse response characteristics measurement at high voltages in avalanche multiplication region, considering dissipated power curve

01 p0051 A71-10282

Numerical analysis for flexural stress pulse propagation in nonuniform elastic bars by geometric acoustics

22 p3616 A71-42213

Load stress pulse shape and frequency effects on macroscopic dislocations during plastic deformation of crystalline materials

23 p3777 A71-43875

PULVERIZING

U GRINDING [COMMINUTION]

PUMP IMPELLERS

Impeller radial forces in volute casing centrifugal pumps, using potential theory

03 p0431 A71-13145

Experimental materials for axial flow vane pumps operating under cavitation conditions, considering separated flow around impeller blades

20 p3241 A71-39169

Turbomolecular vacuum pump impeller theoretical efficiency with allowance for diffuse law of interaction between gas molecules and interblade channel walls

20 p3183 A71-39170

Flow rate and heating analysis of centrifugal pumps with variable cross section impeller blade ring inlet

22 p3554 A71-41850

Photogrammetric flow rate determination in centrifugal pump impeller, using rotating camera

24 p3825 A71-44754

PUMPING

YIG C band microwave amplifier using longitudinal pumping, comparing to other systems

02 p0228 A71-11692

Capillary and electro-osmotic flow pumping in heat pipes, discussing capacity increase

11 p1857 A71-26214

Peristaltic pumping mechanism as progressive wave train of transverse wall displacement in plane two dimensional channel

15 p2366 A71-32559

PUMPS

NT AXIAL FLOW PUMPS
NT CENTRIFUGAL PUMPS
NT CONDENSATION PUMPS
NT DIFFUSION PUMPS
NT ELECTROMAGNETIC PUMPS
NT FUEL PUMPS
NT ION PUMPS
NT JET PUMPS
NT MOLECULAR PUMPS
NT RAMS (PUMPS)
NT TURBINE PUMPS
NT VACUUM PUMPS

Hydraulic vane pumps, including variable displacement, double and compound pumps

01 p0006 A71-10815

Hydraulic system axial- and radial-piston pumps design and operation principles, considering cost reduction

01 p0006 A71-10817

Aircraft gear pumps bearing elements design for increasing service life

08 p1295 A71-20793

Performance testing of fluorosilicone hydraulic fluid in high temperature supersonic aircraft piston pumps

12 p1921 A71-27040

PUNCHED TAPES

Fluidic 8 track punched tape reader, discussing design simplicity, flexibility, accuracy, wear and long life operation

07 p1025 A71-20560

PUNCHES

Circular planform punch pressure on elastic half space, solving system of two dimensional dual integral equations

19 p3160 A71-38478

PUPIL SIZE

Pupil neurological control system for reaction to light and accommodation process by statistical eye noise analysis and microelectrode recordings of brain stem neurons

03 p0367 A71-12985

Pupil size effect on dynamics of pupillary movements, considering reactions to light and darkness

13 p2013 A71-29032

Pupil size influence on surface area and radius of inner/pupillary/ and outer/ciliary/iris ring

13 p2013 A71-29034

PUPILLOMETRY

Commercial airline pilots alertness tests, using IR pupillometry

04 p0543 A71-15051

Human afterimage and pupillary activity in darkness after strong light exposure, noting dependence on stimulus intensity and duration

13 p2018 A71-28463

Pupil size influence on surface area and radius of inner/pupillary/ and outer/ciliary/iris ring

13 p2013 A71-29034

Eye pupil response during short term memory task, noting postsignal cycle of dilation-constriction

23 p3638 A71-43112

PUPILS

Mathematical model for eye crystalline lens accommodation control interaction with pupil, deriving dynamic equations from human/cat experiments with/without neurological control

03 p0356 A71-12984

Cat pupillary system static and dynamic response determination under light and electrical stimulation, using TV pupilometer and on-line computer

17 p2691 A71-35044

PURGING

Continuous impurities purging from hydrogen oxygen fuel cells gas compartments, describing operation mode and design techniques

21 p3326 A71-41250

PURIFICATION

NT AIR PURIFICATION

Gas-metal reactions in refractory metals purification, discussing reaction kinetics, thermodynamic equilibria and dissolved gases induced mechanical properties changes

22 p3564 A71-42423

PURIFIERS

U PURIFICATION

PURINES

NT ADENINES

Pentose breakdown photosensitivity from UV irradiation in presence of minerals, considering prebiological period carbohydrates evolution and interaction with purines and pyrimidines

01 p0029 A71-11561

Paper chromatography combination with dinitrophenyl amino acids mass spectrometry for analyzing purine and pyrimidine bases

06 p0865 A71-17574

Purine and pyrimidine derivatives of cattle hypothalamus determined by gel filtration and subsequent spectral analysis and chromatography

21 p3338 A71-41071

PURITY

Real time modal purity and data quality assessment techniques

11 p1853 A71-26501

Metallic materials static to dynamic transition in creep noting temperature and purity effects

13 p2084 A71-28110

Be sheet plastic bend ductility and yield strength, considering purity and processing effects

13 p2088 A71-29403

PURSUIT TRACKING

Ocular pursuit movement evocation by visual and proprioceptive stimulation

01 p0009 A71-10235

Extremal strategies of differential pursuit game for nonlinear controlled plants

01 p0128 A71-10654

Pursuit game strategy based on Hamilton-Jacobi formalism, considering internal and external potential fields, optimum trajectories and gravitational and electromagnetic fields

03 p0483 A71-13116

Proportional navigation vs optimally evasive constant speed target in two dimensions, considering lateral acceleration and time constraints in pursuer control

03 p0455 A71-14438

Pursuit tracking skill acquisition in humans, considering sex, initial ability, age, aptitude and proficiency levels and psychomotor performances

05 p0713 A71-16549

Efficient evasion strategies for vehicle pursuit-evasion games with imperfect information, using computer solution

06 p0846 A71-17331

Soviet monograph on differential games of encounter of motions covering optimal control, rendezvous, pursuit, evasion, extremal guidance, etc

06 p0926 A71-17438

Optimal control epsilon technique solution for capture conditions in pursuit and evasion problems

06 p0918 A71-17597

Capture and control of derelict spacecraft drifting through gravitational field of solar system by pursuit craft

06 p0927 A71-17642

Pursuit and evasion games, proving existence and approximation theorems

06 p0921 A71-18238

Human performance in pursuit tracking task with realistic structured and blank backgrounds

07 p1047 A71-19460

Human performance in continuous pursuit tracking with temporary target obscurations, noting positional and velocity control systems

07 p1047 A71-19461

Two body pursuit problem minimax and optimum absorption time control algorithm

07 p1082 A71-20642

Extremal strategies of differential pursuit game for nonlinear controlled plants

14 p2266 A71-30988

Optimization of linear tracking strategies, considering time independent and translation invariant N point predictor

15 p2379 A71-31411

Adaptive mathematical model of human operator during pursuit tracking, synthesizing brain in accordance with arbitrary reasonability criterion

17 p2692 A71-35169

Visual target pursuit tracking test confirming error amending by central mechanism without sensory feedback

19 p3007 A71-37545

Unmanned spacecraft pursuit of evading manned vehicle by game theory, assuming full information availability to both players

19 p3038 A71-38014

Rapid saccadic and smooth pursuit tracking eye movement systems characteristics

22 p3489 A71-42445

PUSH-PULL AMPLIFIERS

Push-pull power amplifiers with class B complementary transistors, describing driver stage

02 p0229 A71-11693

Modulator-demodulator type push-pull DC amplifier input noise reduction, using electromechanical vibrators

15 p2355 A71-32451

PWM [MODULATION]

U PULSE DURATION MODULATION

PYRAMIDAL BODIES

Aerodynamic characteristics of conical and pyramidal configurations with various planforms by slender body theory, replacing three dimensional flow by two dimensional flow

08 p1227 A71-20776

German monograph on three dimensional steady hypersonic flow of perfect gas past pyramid shaped bodies of rhombic planform

21 p3323 A71-40774

PYRAZINES

NT AZINES

NT CYANURATES

PYREX [TRADEMARK]

U BOROSILICATE GLASS

PYRIDINE NUCLEOTIDES

Pyridine nucleotide concentration in cerebral hemispheres of rats under hyperoxia

09 p1391 A71-22534

PYRIDINES

Self consistent field /SCF/ calculations of dipyrindine glyoxal and bianthrone photoproduct molecules with triplet ground state, using unrestricted Hartree-Fock theory

11 p1727 A71-25576

PYRIDOXINE

Vitamin B6 protection against asymmetrical dimethylhydrazine poisoning, administering B6 alone and with cortical phospholipids in mice

10 p1572 A71-24979

Dietary pyridoxal deficiency causing amino acid content reduction in liver, kidney, brain and heart tissues

13 p2003 A71-27837

Pyridoxine and serotonin metabolism changes and vestibular disorders observation in space flight

16 p2532 A71-33677

PYRIMIDINES

NT MITOCHONDRIA

NT THYMIDINE

NT THYMINE

NT URACIL

Pentose breakdown photosensitivity from UV irradiation in presence of minerals, considering prebiological period carbohydrates evolution and interaction with purines and pyrimidines

01 p0029 A71-11561

Paper chromatography combination with dinitrophenyl amino acids mass spectrometry for analyzing purine and pyrimidine bases

06 p0865 A71-17574

Laboratory and clinical investigations of radiosensitization of cells and viruses by halogenated pyrimidine analogs

07 p1032 A71-18929

Tumor DNA increase of halogenated pyrimidines incorporation compared to normal tissue DNA, discussing intraarterial infusion of radiosensitizing agents

07 p1040 A71-18989

Purine and pyrimidine derivatives of cattle hypothalamus determined by gel filtration and subsequent spectral analysis and chromatography

21 p3338 A71-41071

PYROELECTRICITY

Barium titanate pyroelectric receivers for giant pulse laser emission measurements

12 p1915 A71-27756

Thermal, pyroelectric and photoelectric detectors for middle IR wavelength range

19 p3064 A71-38064

Pyroelectric IR detectors performance, investigating strontium barium nitrate, lithium sulphate and triglycine sulfate materials effects on frequency range and sensitivity

22 p3542 A71-42122

Pyroelectric detector linear arrays for IR thermal imaging at room temperature

22 p3543 A71-42131

Pyroelectric, pneumatic and thermocouple detectors comparison, discussing IR detectors availability for use in spectrophotometers in 2-20 micron region

22 p3544 A71-42142

PYROGRAPHALLOY

U COMPOSITE MATERIALS

U PYROLYTIC GRAPHITE

U REFRACTORY MATERIALS

PYROHELIOMETERS

Circumsolar radiation and atmospheric turbidity effects on readings of compensation type pyroheliometers with allowance for receiver sensitivity

21 p3384 A71-41382

Compensation type reference pyroheliometer design and calibration, considering accuracy, constant characteristics and turbidity effects

21 p3384 A71-41383

PYROLYSIS

Gas dynamics of fuel boundary layer combustion and surface pyrolysis in hybrid rocket motors

01 p0178 A71-10131

Reaction mechanism for ammonium nitrate thermal decomposition, discussing chloride catalytic effects

01 p0141 A71-10344

Pyrolyzing vinyl polymers thermal degradation kinetics, deriving surface regression rates relationship to temperature

01 p0109 A71-10935

Ablative heat shield char layer, examining reacting nonequilibrium pyrolysis gas flow

01 p0181 A71-11297

High temperature decomposition kinetics in vacuum of mixed ammonium perchlorate-polystyrene solid fuel, using time of flight mass spectrometer

03 p0469 A71-13997

Gas dynamic analysis of hybrid boundary layer combustion with nonequilibrium surface pyrolysis, using Rayleigh analogy

05 p0837 A71-16539

Acetylene pyrolysis kinetics, considering isothermal vs adiabatic conditions and surface catalyzed vs homogeneous gaseous

06 p0943 A71-17660

Plastics thermal decomposition, investigating combustion products and toxicity

06 p0916 A71-18089

Radiation effects on thermal decomposition induction period in ammonium perchlorate and other pseudostable inorganic solids

06 p0944 A71-18301

Epitaxial boron phosphides single crystals growth, using thermal decomposition and reduction for deposition on hexagonal silicon carbide substrates basal plane

07 p1180 A71-20174

Methyl radicals reactions produced by azomethane or ethane pyrolysis in reflected shock waves, describing chain reaction mechanism

08 p1250 A71-20668

Silver oxides stability, considering solubility, reduction by hydrogen and thermal decomposition

08 p1234 A71-21085

Composite solid propellant binders thermal decomposition investigation by differential scanning calorimetry method, discussing kinetic data relevance to solid propellant combustion

10 p1657 A71-24046

Hydrocarbons pyrolysis in Knudsen cells at low pressures, using mass spectrometry to study reactions and products

11 p1727 A71-25229

Polyphenylene thermal degradation and curing, discussing pyrolytic effects of chlorine and polynuclear structure

11 p1855 A71-26035

Nylon-phenolic composites pyrolysis, deriving kinetic coefficients from thermogravimetric analysis at various heating rates

11 p1728 A71-26043

Pyrolysis-gas chromatography locating degradation front in phenolic ablative plastics, giving percent phenolic resin vs distance normal to surface

11 p1728 A71-26044

German monograph on gaseous detonations stability covering carbon dioxide thermal decomposition, initial temperature/pressure, reflected shock waves and water adsorption

13 p2049 A71-28878

Carbon/graphite cloth reinforced aromatic/heterocyclic resins ablative composites pyrolysis kinetics by computer code analysis

14 p2262 A71-29649

Nonequilibrium modeling of pyrolysis gas products flow through char layer of ablative heat shield

14 p2334 A71-29876

Thermal decomposition rates and explosion of dinitroxydiethyl nitramine from heat release measurements at various pressures

15 p2462 A71-31376

ClF diluted solutions in Ne, investigating thermal decomposition mechanism behind shock waves by mass spectroscopy

15 p2367 A71-31874

Thermal decomposition kinetics of nitrous oxide in shock tube, measuring IR emission behind reflected wave 16 p2539 A71-32910

Sodium superoxide isothermal decomposition, detailing metallic oxide effects with differential thermal analysis, thermogravimetry and differential thermogravimetry 17 p2694 A71-34672

Ammonium perchlorate based solid propellants combustion, assuming pyrolysis of solid binder 17 p2792 A71-35549

Radiation induced etch-pit dislocations and thermal decomposition kinetics in ammonium perchlorate crystals 18 p2955 A71-35967

Dissociation reaction in presence of halogen atoms produced in shock wave by thermal decomposition of hydrogen fluoride 19 p3012 A71-38085

Porous material slab pyrolysis, studying density and thermal conductivity changes and reaction kinetics 19 p3170 A71-38117

Perchloric acid catalytic pyrolysis relationship to ammonium perchlorate decomposition and combustion from electric conductivity measurements, IR spectroscopy, chemical and thermal analysis 19 p3120 A71-38119

Carbon fibers grown on graphite by thermal decomposition of hydrocarbons, investigating external morphology and structure 21 p3406 A71-40837

Apollo 12 lunar surface samples analysis for organic compounds by mass spectroscopy and pyrolysis-gas chromatography 23 p3756 A71-43741

PYROLYTIC GRAPHITE

Pyrolysis products of polyacrylonitrile fibers in low pressure apparatus, using mass spectrometer [PLASTICS INST. PAPER 4] 08 p1250 A71-20926

Highly ordered pressure-annealed pyrolytic graphite majority carrier electrons and holes locations in Brillouin zone from measurements in magnetic fields 08 p1344 A71-21363

Pyrolytic graphite hemispherical emissivity measurement on surface parallel and perpendicular to deposition surface at 1200-2300 K 08 p1323 A71-21921

Stress equations for thin pyrolytic graphite shells with thermal allowance 09 p1534 A71-22095

Pyrolytic graphite microcalorimeter for X ray absorbed dose measurement, exploiting for calibration self heating 10 p1608 A71-23742

Thermal conductivity prediction during ablation of phenolic-carbon and phenolic-graphic composites for heating and cooling conditions [AIAA PAPER 71-380] 11 p1783 A71-25304

Pyrolytic graphite, discussing fabrication by chemical vapor deposition process, mechanical and physical properties, residual stresses, applications in reentry vehicle heat shields, rocket nozzle throats, etc 11 p1789 A71-25743

Pyrolytic graphite heat conductivity coefficients in direction perpendicular to deposition surface at high temperatures 13 p2090 A71-27883

Radioisotope heat sources protection from reentry ablation and thermal stress with outer anisotropic pyrolytic graphite shield 13 p2099 A71-29259

Electrical conductivity of pyrographite at high temperatures along and across deposition plane, using optical pyrometer measurements 17 p2761 A71-34304

Pyrolytic graphite hemispherical emissivity measurement on surface parallel and perpendicular to deposition surface at 1200-2300 K 17 p2763 A71-35265

Analog analysis of shape history of ablating graphite nose tips of reentry vehicle, eliminating geometrical instabilities 18 p2984 A71-35953

PYROLYTIC MATERIALS

NT PYROLYTIC GRAPHITE

Beryllium hydride pyrolytic decomposition kinetics noting temperature range, time distribution, linear growth rate and X ray irradiation 07 p1182 A71-19241

PYROMETERS

NT RADIATION PYROMETERS

NT THERMOCOUPLE PYROMETERS

PYROMETRY

U TEMPERATURE MEASUREMENT

PYROPHORIC MATERIALS

Pyrophoric materials literature, discussing nature, behavior, production, safe handling and fire control 13 p2158 A71-27854

PYROPHYLLITE

Van der Waal bound lamellar solids interlayer binding energy computational model, discussing talc and pyrophyllite equilibrium stacking arrangements and force constants 10 p1573 A71-24541

PYROTECHNICS

Crystal laser pyrotechnic illumination lamps with noncompacted explosive mixture, noting Nd ion doped calcium tungstate and YAG laser tests 19 p3073 A71-37788

PYROXENES

NT ENSTATITE

Nonseparated grain low iron olivine and pyroxene in carbonaceous meteorite Orgueil, using optical and electron probe microanalysis 02 p0318 A71-12904

Cations partitioning between coexisting single and multisite phases in pyroxenes and olivines 06 p0894 A71-18236

Apollo 12 clinopyroxenes exsolution and epitaxy by electron microprobe and single crystal X ray diffraction 10 p1672 A71-24391

Apollo 12 soils composition and derivation, finding feldspathic orthopyroxene rich rock and chemically comparable glass fragments 10 p1672 A71-24393

Core binding energy difference between bridging and nonbridging oxygen atoms in silicate chain of pyroxenes, using X ray photoelectron spectra 19 p3011 A71-37415

Static ductile deformation in quartz, olivine, pyroxenes and plagioclase, noting plastic deformation and recovery 19 p3050 A71-37664

Fe content of clinopyroxene in basalt-basaltic andesite-andesite-laitite of Mogollon Plateau (New Mexico) 20 p3216 A71-39386

High temperature phase transition and composition of Apollo 12 pigeonite/augite clinopyroxene crystal rock 12021 from X ray diffraction 23 p3738 A71-43607

Oxidation state of iron and cation distribution over M1 and M2 sites in clinopyroxenes from Apollo 12 by Mossbauer absorption spectroscopy, noting cooling history 23 p3738 A71-43609

Exsolution lamellae structure of Lunar pyroxenes from Apollo 12 samples, using electron microscopy and diffraction 23 p3738 A71-43610

Mineralogical and petrographic investigation of olivines, feldspars and pyroxenes in Apollo 12 fines and igneous rocks, using optical and X ray diffraction 23 p3741 A71-43631

Pyroxenes morphological significance in Apollo 12 lunar igneous rock samples petrogenesis, analyzing crystallization process history 23 p3742 A71-43642

Clinopyroxene crystallization histories of Apollo 12 porphyritic basalt rocks 12021 and 12052 from Oceanus Procellarum 23 p3742 A71-43643

Pyroxenes and olivines in lunar rocks from Ocean of Storms, observing plastic deformational processes since crystallization by optical, X ray and electron microprobes 23 p3744 A71-43657

Spontaneous fission fossil tracks of U, Pu and extinct transuranic elements in pyroxenes of Apollo 11 and 12 soil samples 23 p3764 A71-43803

PYROXYLIN

U CELLULOSE NITRATE

PYRRHOTITE

NT TROILITE

PYRROLES

NT INDOLES

NT TRYPTOPHAN

PYRRONES (TRADEMARK)

High temperature pyrrones molding, discussing covalent organic bonds breakage and subsequent structural rearrangement of crosslinked polymer network 01 p0107 A71-10459

Imide-pyrone copolymers preparation by solution polymerization, considering base/acid degradation resistance and thermal stability in air and vacuum 04 p0549 A71-15749

Pyrone foams molding, considering chemically blown and syntactic foams mechanical properties 14 p2262 A71-29650

PYRUVATES

Pyruvate and lactate concentrations in muscle tissue and blood at rest and during exercise 14 p2187 A71-31136

Heart rate variation during and after muscular exercise, discussing correlated measurements of rectal and mean skin temperatures, blood lactate, pyruvate and glucose 20 p3185 A71-38891

ing collisionless theory, thermalization, alkali metals, ion recombination, etc 01 p0131 A71-10102

Collisional drift instability remote feedback suppression in Q machine Cs plasma by microwave modulation at upper hybrid frequency 06 p0932 A71-17464

Q-machine with boundary segments to provide passive feedback for reducing Kelvin-Helmholtz instability and plasma losses 06 p0933 A71-17467

Longitudinal ionic wave excitation by grid in collisionless Q machine plasma 15 p2456 A71-31820

Stationary collisional shock observation in continuous supersonic plasma wind tunnel involving Q device modified into magnetic de Laval nozzle 21 p3426 A71-41403

Plasma flow around disk in single ended Q machine with magnetic field parallel to flow velocity, measuring density profile for wake structure 22 p3580 A71-41587

Stationary stable cellular pattern onset relationship to plasma confinement in single ended Q machine 23 p3713 A71-44153

Q FACTORS

Gunn oscillator frequency characteristics vs displacement voltage in low Q factor resonance circuits 04 p0557 A71-14634

High Q microwave diodes on n-type germanium using carrier counterdiffusion in reducing atmosphere 06 p0873 A71-17539

Frequency modulation technique based on injection phase locking theory applied to microwave oscillator Q measurement 07 p1074 A71-19127

Superconducting microstrip microwave resonators with high Q, using vacuum deposited lead on alumina substrate 07 p1079 A71-20162

High Q factor rotor systems applications in dielectrics electromagnetic viscosity measurement and radio transmitters with low oscillation phase drift 09 p1492 A71-22363

Optical resonators with anisotropic elements, altering natural oscillations Q factor and spectrum 09 p1461 A71-22384

Microwave resonator Q factor and coupling and matching characteristics measurement using line probe with AM and FM signals 10 p1584 A71-24724

Q factor of control systems as mathematical expectation of functional on input signal set with prescribed probabilistic measure and random initial conditions 10 p1588 A71-24904

Linear optimal control system quality functional, deriving sensitivity upper estimate 13 p2041 A71-28635

Transforming network conditions for two state one port terminations Q factor existence from Mobius transformations and invariance properties 14 p2209 A71-29545

Microwave resonator Q factor measurement by reflection coefficient method, using swept signal generator to eliminate incidental FM problem 15 p2376 A71-32310

Inductive voltage divider bridge network for ferrite coils inductance and Q measurements 17 p2723 A71-35713

Real operational amplifier analysis application to state variable filter design emphasizing high-Q HF phenomena, noting undesirable behavior by heuristic argument 21 p3360 A71-40808

High Q micropower filters for VHF applications based on conditionally stable negative resistance operation, describing computer-aided design, construction and performance 21 p3361 A71-40822

Stability and quality diagrams of linear discrete automatic control systems with time constant parameters 21 p3361 A71-41142

Apollo 11, 12 and 14 lunar seismometer results suggesting lunar material Q factors up to 3000 21 p3453 A71-41407

Tapered distributed RC low pass network configuration with voltage-controlled sources for sensitivity reduction low and high Q factors 21 p3361 A71-41409

Design parameters optimization for flat spiral coils printed on dielectric substrates based on equivalent circuit analysis, emphasizing coil shape effects on Q and inductance 22 p3520 A71-41715

System quality analysis by reliability measures /mean time between failures/, using distribution free evaluation models 22 p3566 A71-42114

Gunn oscillator frequency characteristics vs displacement voltage in low Q factor resonance circuits 22 p3521 A71-42274

Gunn oscillator frequency stabilization at minus 10 to 60 C by high Q single tuned oscillator circuit, considering requirements for 20 GHz radio relay system 23 p3651 A71-43438

Q

Q DEVICES

Monograph on particle diffusion losses in contact ionization plasmas under Q machine conditions cover-

- HF and LF transistors suitability for integrated high Q LC circuits, studying inductivity, Q and component frequency dependence 24 p3807 A71-44377
- Pulsed modulation of continuous laser resonator Q factor, recording output on oscillograph 24 p3834 A71-45045
- SHF resonator small resonant frequency shift and Q factor changes measurement based on FM signal envelope shape analysis 24 p3858 A71-45237
- Q SWITCHED LASERS**
- Spark discharge ignition in air by Q switched ruby laser 01 p0093 A71-10684
- Pulse transmission control equipment for Q switched ruby laser output 01 p0095 A71-11171
- Lithium niobate crystal electro-optical shutter to Q switch calcium difluoride-Dy laser emitting giant pulses at high repetition rate 01 p0095 A71-11210
- Q switched monomode ruby laser coherence length measurements, using holography at various beam intensities 01 p0096 A71-11374
- Giant pulses composed of shorter pulse trains obtained in Q switched carbon dioxide laser with transverse modes 02 p0259 A71-11880
- Cavity resonator length effect on lasing threshold, output energy, pulse power and duration and spectral width of giant single pulse mode laser with passive Q switch 02 p0259 A71-11933
- Q switched ruby laser facility for measuring light pulse transmission spatial and temporal response through clouds 02 p0213 A71-12013
- Q switched ruby laser-Raman radar for real time air pollution probe 02 p0213 A71-12014
- Q switched laser wave birefringence thermal variations in liquids, calculating optical anisotropy temperature dependence 02 p0261 A71-12172
- Discharge current oscillations attributed to acoustic wave excitation by Q switched carbon dioxide laser 02 p0261 A71-12341
- Constant dispersion rotating grating Q switch for carbon dioxide laser with simultaneous band selection and cavity adjustment 03 p0436 A71-13652
- Vibrating mirror for continuously pumped ND/YAG laser repetitive Q switching 03 p0438 A71-13888
- Single mode locked Nd-glass laser pulse time synchronization with Q switched ruby laser 03 p0438 A71-13891
- Reactive Q switching in carbon dioxide multimode multipass laser with movable end mirror, measuring pulse rates and amplitudes 03 p0438 A71-13892
- Q switched ruby laser ranging system of tracking station for use with retroreflecting satellites 03 p0379 A71-14007
- IR Q switched gas laser with Michelson interferometer for plasma diagnostics, describing equipment operation 03 p0439 A71-14056
- Hologram and optical elements insertion in Q switched laser for generation switching, using YAG /Nd/ basic laser 03 p0439 A71-14176
- Atmospheric air breakdown by mode-locked Q switched laser pulse train, investigating threshold electric field dependence on characteristic diffusion length 03 p0440 A71-14178
- IR lasers, discussing carbon dioxide CW and Q-switched operation and semiconductor lasers 04 p0606 A71-14712
- Carbon dioxide laser with simultaneous active rotating mirror Q switch and passive absorbing gas cell 05 p0760 A71-16256
- Rare gases interaction with focused multimode Q switched laser beam, measuring orders of nonlinearity and multiphoton ionization probabilities 05 p0761 A71-16335
- Pulse transmission mode Q switched neodymium laser, discussing pulse duration 05 p0762 A71-16374
- Pulse repetition rate of Q switched YAG-Nd oscillator-amplifier laser systems 05 p0762 A71-16479
- High repetition rate Q switched Nd-YAG lasers, graphing theoretical Q switching from rate equations of ideal four-level laser 05 p0764 A71-17076
- Ultrafast Q switched laser induced shock waves in solids, discussing model for picosecond impulse 06 p0907 A71-17311
- Contact electro-optic KDP crystal shutters for Q switching ruby laser 06 p0907 A71-17530
- Ruby Q switched lasers with modular electro-optic shutters for low insertion loss and high optical radiation resistance 06 p0908 A71-18303
- Time dependent Q switched energy storage of trifluoromethane photodissociation laser 06 p0910 A71-18661
- Q switched Nd laser pulse duration control as function of KDP crystal orientation and pumping power 07 p1122 A71-19138
- Ruby laser passive Q switching by phototropic thin film shutter, outlining advantages over bleachable dyes 07 p1122 A71-19140
- Plasma produced by focused Q switched ruby laser beam, considering use for minimum ignition energy measurement 07 p1123 A71-19577
- Emission of ruby laser with resonator containing passive Q switch solution and lenses, investigating regular self oscillation region 07 p1125 A71-19811
- Carbon dioxide lasers passive Q switching by saturable absorbers, using four state kinetic model 07 p1128 A71-20390
- Carbon dioxide laser IR pulse transmission under moderate pressure conditions using four state model of molecular laser passive Q switching and double resonance 07 p1128 A71-20391
- Gaussian shaped laser pulse holographic brightness analysis, presenting theoretical and experimental holographic coherence length curves for Q switched laser oscillator and amplifier system 08 p1290 A71-21390
- Doppler effect mechanism for laser Q switching with rotating mirror, noting pulse width dependence on wavelength 08 p1302 A71-21434
- Controllable pulse length Q switched Nd-YAG laser using lithium iodate doubling crystal 09 p1463 A71-22757
- Continuously pumped Q switched neodymium doped YAG laser micromachining tool for resistor trimming, resonator/filter frequency tuning and diode/transistor vaporizing 09 p1457 A71-23402
- Q switched and continuous laser collimated radiation exposure limits for eye cornea and skin, discussing environmental contamination 09 p1402 A71-23414
- Spectral bandwidth of Q switched giant pulse laser as function of single pass gain, optical switch and resonator loss 10 p1619 A71-23955
- Superregenerative linear mode amplification in Q switched He-Xe laser as function of resonator phase, length and signal angle 10 p1621 A71-24713
- Amplitude characteristics of Q switched He-Xe laser at 3.5 microns, using rotating reflection prism and velocity equations 10 p1621 A71-24715
- Microwave frequency sound generation in solids with Q switched ruby laser 10 p1621 A71-24838
- Q switched ruby laser time dependent spectrum analysis by high speed camera with Fabry-Perot interferometer, noting holographic interferometry application 10 p1622 A71-24962
- Carbon dioxide laser design and characteristics, discussing lasing action, spectral properties of continuous and Q switching output power 10 p1623 A71-25089
- Nd-YAG folded center lasers Q switching and cavity dumping, using fused silica and Brewster cut intracavity acousto-optic modulator 11 p1773 A71-25798
- Carbon dioxide plasma discharge current changes from Q switched laser irradiation, studying excitation and relaxation mechanisms 11 p1774 A71-25933
- Q switched ruby laser emission effect on long wave pigment system of photosynthesizing organisms 11 p1774 A71-26006
- Kinetic and ionization phenomena in Q switched laser produced plasmas, considering gas dynamic plasma parameters /velocity, density distribution, pressure and temperature/ 11 p1806 A71-26086
- Plane and three dimensional dynamic holograms recording in bleachable dyes, using ruby laser with gallium chloride phthalocyanin in chlorobenzene as Q switch 11 p1767 A71-26565
- Lossless KDP Pockels cell modulator for high power laser Q switching based on tuned face electro-optical crystal 12 p1905 A71-26813
- P-type gallium selenide crystals impurity photoconductivity measurements by Q switched ruby laser 13 p2077 A71-27959
- Repetitive passive Q switching of single frequency carbon dioxide laser with intracavity saturable absorber, developing nonlinear model 15 p2423 A71-32602
- Optimal pulsed power output of continuously pumped Q switched Nd-YAG laser as function of mode parameters 15 p2423 A71-32603
- Cavity loss dependent erbium glass laser line oscillations in lower threshold region under Q switch and long pulse conditions 15 p2424 A71-32612
- Giant pulse ruby laser, using potassium dihydrophosphate crystals linear electro-optical effect for Q modulation 15 p2424 A71-32758
- Stark effect saturable absorber modulation of passively Q switched carbon dioxide laser, using difluoroethane, difluoroethylene, methyl fluoroform, trichloroethylene and vinyl chloride 16 p2586 A71-33147
- Rarefied plasma flow generation by Q-switched laser pulse focusing on solid target, measuring plasma properties with Langmuir probes and microwave interferometers 16 p2586 A71-33162
- Three dimensional hologram recording, showing He-Ne laser reconstruction of Q switched ruby laser hologram image of mosquito flight 16 p2579 A71-33528
- Self focusing effect of Q switched single mode ruby laser emission in CdS crystal, noting 60 kW minimum threshold power 16 p2588 A71-33645
- Transparent polymer dielectric luminescence and destruction under Q switched laser radiation with subthreshold power and picosecond pulses 16 p2588 A71-33652
- Balance equations expansion for giant-pulse Q switched laser model, considering output intensity 16 p2589 A71-34138
- Upper atmosphere density observation by Q switched ruby laser radar 17 p2753 A71-34748
- Hydrated electrons photoexcitation by giant pulse Q-switched ruby laser, investigating absorptivity over wide range of light intensities 17 p2753 A71-34950
- Plane and three dimensional dynamic holograms recording in bleachable dyes, using ruby laser with gallium chloride phthalocyanin in chlorobenzene as Q switch 17 p2745 A71-35507
- High coherence Q switched spatially filtered Nd-glass laser operating in fundamental mode for high power 17 p2754 A71-35747
- Operating characteristics of Q switched CO-He laser, discussing energy transfer processes leading to population inversion 18 p2929 A71-35835
- Q switched laser range finders, discussing programmed ephemeris guided, divergence data utilizing and semiautomatic tracking systems with emphasis on target acquisition [ONERA-TP-964] 18 p2945 A71-36029
- Q switched ruby laser holography, using controlled multimode emission for contour recordings of reflected light scenes 18 p2920 A71-36102
- Solid state laser with Nd ions in YAG, discussing crystal growth and structure, optical pumping continuous and Q switched operation and mode locking 18 p2930 A71-36146
- Carbon dioxide laser, discussing mixture composition, vibrational energy levels, excitation and relaxation mechanisms, output characteristics, CW and Q switching, mode locking and applications 18 p2930 A71-36147
- Reflection, material and resonator losses correlation in solid state lasers, investigating pulse power in Q switched operation 18 p2932 A71-36801
- Optical radar aircraft tracking and position system, using IR Q switched flash pumped Nd-YAG laser transmitter and pulse receiver with magnetic tape recorder and real time computer 18 p2900 A71-36905
- Carbon dioxide laser high efficiency driven Q switching, using Stark effect in molecular gases 18 p2933 A71-37015
- Relaxation processes in Michelson interferometer as integral part of carbon dioxide laser cavity in phase Q switching regime 19 p3071 A71-37389
- Ruby laser Q switching by hydrogen and copper phthalocyanin vapors, obtaining nanosecond single pulses with high power density 19 p3072 A71-37768
- Low vibrational level CO transitions of flowing electrochemically excited liquid nitrogen cooled helium-air-methane-carbon monoxide laser in Q switched operation 20 p3244 A71-39100

Spatially periodic inhibition of gold vapor condensation by intense optical standing wave using Q switched laser radiation

20 p3245 A71-39403

High efficiency room temperature lasing operation assisted by energy transfer in holmium doped yttrium lithium fluoride

20 p3247 A71-39761

Nanosecond ruby laser pulse generation using electro-optic shutter switching circuit external to Q-spoiled cavity

21 p3391 A71-40179

Enhanced scattering signal observation at electrostatic plasma wave frequency by focusing Q switched laser beam on hydrogen plasma

22 p3580 A71-41596

Q-switched ruby laser holographic interferometry for hypergolic flame combustion recording

22 p3539 A71-41742

Characteristic energies of exponential band tails in GaAs junction lasers from wavelength shift with cavity Q and spontaneous emission line width

22 p3558 A71-42360

Optical second harmonic generation in excised tissues by Q switched ruby laser irradiation, observing narrow band emission line in collagenous tissues

22 p3559 A71-42567

Single mode ruby laser spatiotemporal coherence characteristics with emission moment controlled by Q switch operating on modulated ultrasonic traveling waves

23 p3683 A71-43394

Nd glass laser system with Pockels cell Q switched oscillator for producing highly ionized plasmas

23 p3686 A71-43954

Q switched inorganic Nd liquid laser oscillator, noting output capability

23 p3686 A71-43957

Nanosecond solid dielectric discharger fired by Q switched ruby laser for commutation of coaxial line forming high amplitude voltage pulses

24 p3835 A71-45238

Q VALUES

Distribution laws of statistical Q characteristics and of junction capacitance of varicaps

11 p1740 A71-26542

Sobolev function Q in radiative transfer, using invariant imbedding approach for integral equation transform

19 p3133 A71-37506

Ionospheric heating Q calculation of electron gas, evaluating heat inflow at various altitudes

20 p3281 A71-39725

Q values, costs, efficiencies and radioactive evaluation of D-D, D-T and D-He 3 mirror fusion plasma power systems

24 p3847 A71-44493

QSO [RADIO SOURCES]

U QUASARS

QUADRATIC EQUATIONS

Nonlinear quadratic elasticity theory of isotropic tube and hollow shell under small linear deformations, obtaining stress-strain relation

02 p0326 A71-12294

Real polynomial quadratic divisors determination with maximum accuracy in floating point arithmetic, using Bairstow method algorithm

03 p0450 A71-13118

Flat triangular elements for shell analysis, describing membrane and bending displacements by identical quadratic polynomials [AIAA PAPER 71-114]

06 p1003 A71-18564

Nonlinear proportional navigation guided homing missile and minimum time to turn, developing quadratic equation with close larger positive root approximation

07 p1156 A71-19878

Nonlinear systems optimal control, presenting Hamilton-Jacobi equations analytical solutions for quadratic cost function minimization

11 p1742 A71-26420

Structural properties of equilibrium solutions of quadratic matrix equation, using variational interpretation of associated Riccati equation, transform techniques and Parseval formula

13 p2095 A71-28815

Optimal numerical solutions of linear control systems with quadratic integral form, using dynamic programming, successive optimization and algorithm-aided dynamic programming

21 p3360 A71-40617

Computational method determining quadratic Liapunov functions for high order nonlinear systems

23 p3705 A71-43944

Integral quadratic control quality estimates in terms of system coefficients with allowance for system oscillation characteristics

24 p3812 A71-44483

QUADRATIC PROGRAMMING

Nonlinear control laws successive stochastic optimization through nonlinear and subsequent quadratic programming

03 p0392 A71-14403

Incremental plastic analysis under large displacement and physical instabilizing effects, using finite element models and quadratic programming

11 p1849 A71-25679

Third order oscillatory system optimal terminal-state control synthesis by quadratic functional minimization iterative procedure algorithm, using ODR-1204 computer program

21 p3359 A71-40164

Linear elastic structures analysis by quadratic programming, considering equilibrium equations for forces at joints

22 p3618 A71-42589

QUADRATURE APPROXIMATION

U QUADRATURES

QUADRATURES

Laminar boundary layer convective heat transfer with constant wall temperature, using Gaussian quadrature formulas

02 p0332 A71-12394

Transient heat flow mean and first moments prediction by discontinuous linear or quadratic trial functions and variations

05 p0831 A71-16491

Subharmonic quadrature components in parametron with balance modulated pumping voltage

11 p1740 A71-26540

Automatic numerical evaluation of definite integrals of analytic functions, considering Simpson rule, Gauss quadrature, subdivision and whole interval formulas

12 p1923 A71-27732

German monograph on Fourier-Chebyshev approximation of primary functions, giving quadrature method

17 p2764 A71-34484

Definite interval values calculations of integral of smooth functions, using quadrature formulas with high algebraic degree of accuracy

17 p2765 A71-34845

Weakly singular integrals numerical compound quadrature error bound and convergence rate estimate by applying Peano theorem with modification for avoiding singularity

18 p2941 A71-36355

Convergence theorem for singular integrands numerical quadratures, assuming domination near singularity by monotone integrable function

18 p2941 A71-36356

Quadrature formula for Cauchy integrals

19 p3086 A71-37883

First kind Fredholm integral equation approximation by numerical quadrature formulas plus collocation, using singular value decomposition for solution

22 p3567 A71-42296

Quadrature errors in satellite geodesy via geopotential simple layer model, investigating different size surface elements and methods of subdivision [AAS PAPER 71-340]

23 p3666 A71-43013

QUADRUPOLE LENSES

U MAGNETIC LENSES

QUADRUPOLE NETWORKS

Optimum L shaped quadrupole filter for controlled valve voltage inverters

15 p2353 A71-32079

QUADRUPOLES

Electric quadrupole atomic transitions in muonic PB208, charting X ray spectrum showing transitions

01 p0131 A71-11439

Solar magnetic field variation observation, revealing sun as quadrupole magnetic rotator

04 p0657 A71-15828

Relativity and solar quadrupole moment effects in time delay measurements of signal traveling from earth to artificial satellites

05 p0808 A71-16446

Dipole conversion to equivalent quadrupoles and multipoles, replacing resistances by corresponding h matrices

06 p0872 A71-17373

Quadrupole interaction in crystals of diamond-like semiconductors gallium telluride and indium telluride

07 p1177 A71-19275

Frequency generators using RC /RL/ designs with odd selective quadrupole element numbers as converters

07 p1078 A71-20062

Geomagnetic quadrupole field secular oscillation causing earth rotation change, discussing earth core induced velocity field and field attenuation

10 p1603 A71-24599

Perturbed magnetic surfaces topology in quadrupole, estimating local imperfections size for plasma control

10 p1652 A71-24661

Theoretical and experimental performance studies of quadrupole mass analyzers with round and hyperbolic field forming surfaces, noting resolving power superiority of hyperbolic rods

11 p1760 A71-25219

Quadrupole mass spectrometry in studies of heterogeneous and flash photolytic reactions and unstable intermediates detection

11 p1765 A71-26279

Dipole, quadrupole and octapole measurements in isolated beating hearts

13 p2016 A71-28150

Dense interstellar cloud radio recombination lines in H I regions, calculating quadrupole effects on line splitting

15 p2498 A71-32771

Particle motion in combined gravitational field of monopole and prolate quadrupole, deriving exact solution in Newtonian mechanics and general relativity

16 p2609 A71-33256

Quadrupole mass spectrometer ultimate characteristics concerning resolution, range, recording speed, working pressure and sensitivity

17 p2737 A71-34288

Computer algorithm determining transfer function of linear electronic circuit in autonomous quadrupole form with zero initial conditions

18 p2887 A71-35884

Weber antenna sensitivity for short pulses of gravitational radiation, giving limit for connection coefficient of piezotransducer with detector

18 p2946 A71-35979

Quadrupole probe for measuring magnetospheric electric currents, noting transfer impedance dependence on probe motion relative to ambient plasma

18 p2912 A71-36198

Swept Langmuir probe with sweep speeds greater than 150 V/microsec, considering electron cyclotron resonance heated hydrogen plasma confined in toroidal quadrupole

18 p2952 A71-36582

Ionospheric low hybrid resonance measurements by rocket-borne quadrupole probe, deriving electron density and effective ion mass along trajectory

20 p3224 A71-39722

Ion-quadrupole effects in ion-molecule collisions by numerical calculations of capture cross sections and computer-plotter studies of ion trajectories

21 p3419 A71-40906

Thermal analysis-quadrupole mass spectrometric analyses on inorganic released gases of Apollo 11 and 12 samples and synthetic lunar analogs

23 p3750 A71-43699

QUALITY CONTROL

Nondestructive high reliability rapid comparison and identification of metals by electrical interpretation method for product variation control and laboratory unknowns determination

01 p0085 A71-10258

Fiberglass reinforced plastics heavy duty structural parts quality control, discussing strength parameters, safety coefficients, testing methods, etc

01 p0088 A71-10689

Reference standards for nondestructive ultrasonic inspection for quality control

01 p0091 A71-11424

Soviet book on bolting and coupling elements threads used in aircraft industry covering configurations selection, cutting, tolerance requirements and quality control

02 p0258 A71-12723

Aviation products liability and warranty law, noting reliability trends and quality control methods

03 p0523 A71-12971

Apollo Applications Program command and service module test requirements to achieve reliable hardware for extended missions [AIAA PAPER 70-378]

03 p0500 A71-14436

Deformation monitoring of large multilens astronomical objective during assembly, using annular image reflection

04 p0593 A71-14868

Product test duration and extent from reliability theory viewpoint

05 p0759 A71-16725

Corrosion damage relationship to military aircraft accidents, discussing quality control, material selection and manufacturing processes

06 p0911 A71-17415

MIL-STD-414 sampling procedures and tables for inspection by variables for percent defective

06 p0905 A71-18059

Intelsat 3 satellite mechanical and electronic components fabrication, emphasizing quality and reliability assurance procedures and assembly techniques

06 p0905 A71-18403

ESRO 2 satellite program reliability prediction and procedures in design and manufacture, defects during development and tests and performance in orbit

07 p1207 A71-19552

Metal film resistors rapid evaluation method including thermal, load and shock tests devised by British electronic component manufacturers

07 p1076 A71-19553

Quality management planning for 1970s, discussing reliability, maintainability and production quality programs

07 p1225 A71-19558

Satellite electronic equipment reliability engineering, considering circuit and system design, components screening, assembly and test procedures and quality assurance plans

07 p1207 A71-19563

High strength and modulus continuous carbon fibers, discussing preparation and quality control [PLASTICS INST. PAPER 5] 08 p1297 A71-20925

Quality control for Minuteman zinc silver oxide battery production 08 p1298 A71-21109

Primitive centralized quality control program model applicable to Department of Commerce environmental sciences 08 p1329 A71-21728

Meteorological data quality control, discussing inconsistencies, data interrelationships and frequency distribution 08 p1329 A71-21729

Quality control role in meteorological instruments maintenance 08 p1329 A71-21730

Defective resistors physical processes during thermal control method, appraising quality from surface temperature distribution 08 p1300 A71-21901

Polished surface quality control using laser divergent coherent beam 09 p1460 A71-22310

IC quality control by temperature fields contactless measurement, using microthermographs 09 p1450 A71-22894

Mathematical model system analysis methods for reliability assurance, discussing worst case and Monte Carlo techniques 09 p1423 A71-23040

High temperature steel and alloys metallurgical processes for stationary and aircraft gas turbine engine components, discussing production-quality control-research interrelationship 09 p1456 A71-23301

Quality assurance in Ti and Ti alloys processing, discussing smelting, ingot homogenization staging, costs and facilities 09 p1456 A71-23303

He-Ne laser as detectors in mine boring, quality/compensational control, data collection/reduction and positioning accuracies 09 p1458 A71-23409

Fabricated product test program design for meeting customer specifications, outlining routine tests for preimpregnated film adhesive materials 10 p1616 A71-24107

Brittle materials ultrasonic machining, discussing abrasive particle shape, size, temperature and pressure effects on process accuracy, speed, quality and efficiency 10 p1617 A71-24133

Deferred state sampling plans using accept/reject decisions dependent on future lot disposition according to quality drift 12 p1909 A71-26661

Reliability assurance in product manufacturing, discussing specific tasks during design, preproduction and production phases 12 p1910 A71-26672

Product quality characterization, using Harrington dimensionless scale of desirability as optimization criterion 12 p1988 A71-26709

Traversing Infrared Inspection System for C-5 aircraft fail-safe strap panels of bonded Ti-Al laminates, discussing design and application [ASME PAPER 71-DE-37] 12 p1911 A71-27327

Transistor resistances difference measurement under reversed polarities during quality control testing 14 p2214 A71-30635

Truncated sequential test for production models based on preproduction testing with allowance for unequal sample sizes 15 p2416 A71-32344

Laser pulse shape, beam modulation and power fluctuation quality control measurements, using non-selective, thermally stable piezoelectric sensor with low time constant 15 p2421 A71-32456

Producer risk determination and tables for Method 4 maintainability demonstration plan of MIL-STD-471 16 p2583 A71-33303

Gallium antimonide synthesis without antimony evaporation stoichiometry disturbances, describing zone refining procedures and quality control 16 p2621 A71-33473

Scanning electron microscope examination of components and materials quality and reliability in satellite onboard equipment 18 p2890 A71-36537

Adhesively bonded structures inspection by laser holography, producing diffraction pattern recording of amplitude and phase shift 18 p2925 A71-37057

Parts qualification and acceptance for outer planet mission spacecraft, minimizing random and wear-out failures to meet weight and other constraints [AAS PAPER 71-161] 19 p3153 A71-37958

Characteristic smooth test bar ductility correlation and prediction in high temperature creep rupture tests, noting application to material quality control 19 p3082 A71-38138

Aerial and satellite environmental water quality control surveillance, discussing remote sensing techniques and objectives 19 p3059 A71-38402

Systems oriented components selection optimization technique by reliability/quality levels, considering repair and failure cost, storage time and mission duty cycle 19 p3034 A71-38518

Scanning electron microscope for poor metallization detection in manufacturing cycle of semiconductor devices 19 p3034 A71-38519

Cost effectiveness screening program for integrated circuits, considering four stages of life cycle 20 p3202 A71-38753

Semiconductor components reliability assurance under assumption of failure rate decrease with time for IC quality and performance improvement 21 p3356 A71-40746

Spacecraft tape recorder design for five years minimum continuous unattended reliable operation, describing quality control and environmental/life testing procedures 22 p3608 A71-41507

Dielectric articles thickness and flaw control by microwave magic tee junction waveguide, describing instrument design and operating characteristics 22 p3521 A71-41772

Quality control for space programs hardware suppliers, discussing contractual aspects 23 p3786 A71-43468

Project management quality control factors learned from Diamant A satellite launching vehicle and French military programs 23 p3786 A71-43469

Quality control organization in British spacecraft projects, discussing material selection system and subsystem tests, process engineering and inspector training 23 p3681 A71-43470

NASA NHB reliability engineering provisions for aeronautical and space system contractors, considering criteria for program management, system engineering, manufacturing and facilities 23 p3682 A71-43497

Nondestructive pulse technique for quality control of electroexplosive devices, noting cost reduction 24 p3864 A71-45279

QUANTIZER
U COUNTERS

QUANTUM AMPLIFIERS
Semiconductor quantum amplifier dynamic range in steady operation mode, analyzing monochromatic signal gain 01 p0096 A71-11219

Frequency characteristics calculation of regenerative two cavity microwave bandpass amplifiers, applying to parametric and quantum amplifiers and underexcited microwave relaxation oscillators 09 p1413 A71-22157

Optimal location of nonreciprocal disk shaped YIG element of traveling wave quantum ruby paramagnetic amplifier for weak magnetic field levels 10 p1585 A71-24883

Computer synthesis of nondegenerate parametric amplifiers with single mesh filter for maximum flat or Chebyshev frequency response applicable to quantum devices 12 p1886 A71-26844

Gasdynamic lasers optically active medium two-fluid model, deriving solutions for CW generators and quantum amplifiers 17 p2754 A71-35397

Two stage decimeter wavelength quantum paramagnetic amplifier, noting noise temperature and gain 23 p3652 A71-43529

QUANTUM COUNTERS
Quantum counting efficiency of commercial photomultiplier at 0328 A by direct measurements, including signal and background dependence 11 p1766 A71-26300

Papers on quantum electronics, Volume 1, covering carbon dioxide and YAG lasers, quantum counter action and interference holography 18 p2930 A71-36144

Quantum counter action in various media including trivalent and divalent rare earth ions, Fe group transition metal ions, semiconductors and gases 18 p2930 A71-36145

QUANTUM ELECTRODYNAMICS
Functional method application to ultrarelativistic particles in external fields quantum electrodynamics, discussing electromagnetic field superposition 07 p1162 A71-20549

Electron mass and photon wave renormalizations functional relationships, studying perturbation theory based electrodynamic divergences 07 p1162 A71-20550

Quantum electrodynamic analysis of relaxation processes in two level laser 11 p1774 A71-26005

Quantum electrodynamics on null planes in Minkowski space, discussing applications to lasers, wave packet construction, Heisenberg and Furry pictures and Compton scattering 13 p2080 A71-28998

Magnetostriiction and magnetoelastic quantum oscillations in p-PbTe, using thermodynamic derivatives of Lifshitz-Kosevich expression for oscillatory part of electronic free energy 17 p2791 A71-34860

QUANTUM GENERATORS

- Quantum optics - NATO Conference, Musselburgh, Scotland, July 1969 04 p0607 A71-14803

- Stark induced quantum beats in H Ly alpha emission, using beam foil excited hydrogen 05 p0785 A71-16701
- Electron-ion recombination in dense molecular gas, presenting semiquantitative method for hydrogen, nitrogen, carbon dioxide and damp gas mixtures 05 p0785 A71-16726
- Physics laws and simplifications, discussing Newtonian mechanics, electrodynamics, relativity, atomic physics and quantum theory 07 p1163 A71-19603
- Soviet papers on quantum radio physics covering injection lasers, high intensity beam and material interactions and laser dynamics 07 p1126 A71-20251
- Oxygen molecules photolysis at 1849 and 1931 A, investigating ozone formation quantum yield 08 p1337 A71-20663
- Partial wave method for nonspherical quantum scatterer, applying to electron elastic scattering by molecules 09 p1496 A71-22237
- Relativity - Conference, Cincinnati, June 1969 11 p1798 A71-25279
- Zero point fluctuations measurement standards for thermal and quantum noise, considering microwave network analytic application 11 p1733 A71-26366
- Closed universes quantization and gravitational field in general relativity, emphasizing superspace concept and finite-dimensional model quantum theories construction 13 p2100 A71-28395
- Raman effect quantum theory, considering light scattering about atomic system 13 p2078 A71-28449
- Intense magnetic fields in astrophysics, emphasizing flux conservation law and quantum effects 13 p2144 A71-29436
- Laser quantum theoretical analysis, considering atomic thermal motion, photon emission and absorption induced recoil effects on lasing threshold and operating frequency 14 p2253 A71-29574
- Experimental solar blind photomultipliers for stellar photometry above earth atmosphere at 1450-2800 A, giving spectral response and quantum efficiency 14 p2240 A71-30122
- Quantum-theoretical transport equation for dilute gases with internal degrees of freedom, generalizing for arbitrary spacing between internal energy levels 14 p2275 A71-30449
- Electromagnetic and gravitational waves scattering by static gravitational field, comparing classical general relativistic and quantum field theoretic results 14 p2275 A71-30861
- Laser action internal differential quantum yield estimation using GaAs injection lasers near field emission patterns 15 p2422 A71-32461
- Canonical quantization, discussing Schroedinger equation, Hamilton-Jacobi theory, Feynman integrals and sandwich conjecture 16 p2609 A71-33258
- Classical gravitational field equations modification for virtual quantized matter, taking into account additional mass due to attractive forces 16 p2610 A71-33271
- Image amplifier camera resolution as function of light level based on photon statistics and cathode quantum efficiency 17 p2746 A71-35762
- Equations of multiple periodic motions, considering quantification of parameters with Hamilton-Jacobi equation 18 p2948 A71-36947
- Coherent optical fields properties, discussing equivalence of quantum and classical descriptions 18 p2932 A71-36959
- HF gravitational radiation due to quantum transitions, studying absorption, emission and sources 21 p3439 A71-40612
- Gravitation theory within Lorentz covariant and second quantized formalism framework from gravity interaction with binding energy, discussing graviton behavior 21 p3416 A71-41035
- Partial wave method for nonspherical quantum scatterer, applying to electron elastic scattering by molecules 21 p3420 A71-41119
- Electron beam modulation at optical frequencies, calculating excited radiation characteristics with quantum theory 21 p3420 A71-41254
- Quantum theory of molecular or atomic spontaneous emission while simultaneously undergoing stimulated emissions or absorptions 21 p3421 A71-41401
- Quantum fluctuations in gas laser radiation, obtaining photon diffusion coefficients for traveling and standing waves 22 p3558 A71-42456

- Vacuum symmetry and asymmetry, analyzing physical meaning of Dirac vacuum in quantum field theory 22 p3577 A71-42853
- Quantum phase fluctuations in IR gas lasers, noting nearly Lorentzian power spectrum with bandwidth inversely proportional to output power 23 p3688 A71-44269
- QUARKS**
- Quark regions in massive stars internal structure, discussing plasma superconductivity and spectral line emission 01 p0160 A71-11112
- Quark fusion in quasi-stellar objects, deriving approximate formula for efficiency of converting rest mass into photons 05 p0785 A71-16686
- Quark flux measurement by simulating fractional charge particle pulses, testing calibration procedures by comparing simulated and genuine quarklike events 10 p1613 A71-24957
- Relativistic quarks in cosmic rays at sea level and at mountain altitude, estimating production cross section vs absorption mean free path and mass 11 p1815 A71-25589
- Penetrating particle observations on showers produced at 70 mwe underground, revealing weakly ionized group in quark flux contradiction 12 p1951 A71-27396
- Quark detection by telescope using production models, discussing extreme energy transfer conditions and upper production limits 12 p1952 A71-27398
- Quarks search near extensive air shower cores, discussing apparatus and results for detection of long delayed particles 13 p2120 A71-28052
- Quark flux and generation cross sections above atmosphere from Proton 3 satellite elementary particle spectrometer data 13 p2121 A71-28053
- Quarks search in cosmic rays at sea level and mountain altitude, using telescope with plastic scintillation counters and wire spark chambers 13 p2121 A71-28055
- Apollo 11 and 12 fines analysis, observing no quarks 23 p3765 A71-43809
- QUARTZ**
- NT COESITE**
- High quality quartz single crystal synthesis by hydrothermal recrystallization in autoclave 02 p0229 A71-11718
- High power carbon dioxide laser radiation absorption on vaporized and heated quartz 02 p0260 A71-11944
- Small tissue equivalent ionization chamber quartz fiber electrometer dosimeter system, for use as space qualified radiation detection instruments 02 p0250 A71-12136
- Heat transfer to walls of quartz discharge tube in Ne, Ar and Xe, measuring integral energy flux 02 p0290 A71-12191
- Electronic frequency divider with discrete correction of negative quartz clock rate 04 p0592 A71-14859
- Automatic amplitude control of transistorized quartz clock master oscillator 04 p0592 A71-14860
- Quartz magnetometer design and operation for simultaneous geomagnetic field declination and horizontal component measurements 05 p0756 A71-17216
- Quartz magnetic variometer allowing simultaneous recording of magnetic field variations and suspension axis inclination changes 06 p0901 A71-18285
- Quartz astatic galvanometer resistant to geomagnetic field variations, vibrations or microseismic noise 06 p0901 A71-18286
- Kaolin and quartz powder additions effect on glasslike polymethyl methacrylate specific heat, thermal conductivity and diffusivity 07 p1144 A71-18922
- Ionizing radiation effect on piezoelectric properties of quartz plates, covering X rays, gamma rays, electrons, protons and alpha particles 10 p1656 A71-24146
- Thermosensitive quartz anemometer operating in vibrational mode, discussing design and applications in low airflow velocity measurement 12 p1906 A71-26826
- Single loop quartz vacuum tube oscillators, calculating oscillation spectral line width due to thermal and shot noise and circuit parameters fluctuations 12 p1889 A71-27622
- Quartz magnetometer design and operation for simultaneous geomagnetic field declination and horizontal component measurements 13 p2067 A71-28270
- Cylindrical microwave cavity partially containing cold nonuniform plasma enclosed by quartz tube, calculating resonant frequency by exact, multistrata and series methods 13 p2029 A71-28500

- Field components, frequency, quality and filling factors effects of storage quartz bulbs in master microwave cavities 14 p2254 A71-30563
- Quartz, organic glass and plexiglass luminescence under giant pulse ruby laser radiation 15 p2422 A71-32462
- Stress wave propagation in quartz-phenolic composite, measuring particle velocity by velocity interferometer 17 p2762 A71-35207
- Static ductile deformation in quartz, olivine, pyroxenes and plagioclase, noting plastic deformation and recovery 19 p3050 A71-37664
- Coupled resonator AT cut quartz crystal bandpass filter design in ladder configuration with low sensitivity and simple manufacturing methods 21 p3360 A71-40810
- UV and IR transmissivity and absorption coefficients of fused quartz between room temperature and 1500 C 22 p3565 A71-42559
- QUARTZ CRYSTALS**
- Quartz clock nonsystematic and frequency fluctuation statistical properties compared with GBR radio station 04 p0600 A71-15664
- High vacuum calibration of cryogenic quartz crystal for atmospheric density 07 p1113 A71-19852
- QUARTZ LAMPS**
- Aircraft flash light designs, discussing tandem oscillating lights, fixed lamp rotating reflectors and lamps, xenon flashtube, quartz-iodine lamp and flash frequencies 22 p3483 A71-41494
- QUARTZ TRANSDUCERS**
- Piezotron accelerometer for vibration measurement, combining quartz sensing element with subminiature solid state electrostatic amplifier 11 p1767 A71-26442
- QUASARS**
- Energy spectra of expanding relativistic particle clouds producing quasar and Seyfert galaxy nuclei outbursts 02 p0307 A71-12082
- Mass estimation for quasars and galactic nuclei with absorption line shift into long wave region 02 p0307 A71-12090
- Quasars spatial distribution and luminosity functions based on red shift observation 02 p0314 A71-12576
- Turbulent plasma radio emission theory of photon production and transport, considering application to quasars 02 p0292 A71-12587
- Quasars optical positions and magnitude identification for radio sources of 4C catalog 02 p0317 A71-12862
- Quasars PKS 2345-16 and NRAO 512 optical flares photometric observation 02 p0317 A71-12864
- Gas heating near quasars, Seyfert galaxies nuclei and pulsars by induced Compton effect 02 p0317 A71-12872
- Compton scattering in quasars, discussing gamma rays effects on core chemical abundances 03 p0481 A71-14266
- High red shift quasars linear polarization, examining absorption lines and depolarization due to Faraday rotation 04 p0649 A71-15272
- Multiple absorption red shifts in quasars, discussing measured properties and negative clues 04 p0650 A71-15584
- High galactic latitude faint blue stars from Tonantzintla and Asiago catalogs, finding quasars and subwarps by spectroscopy and UVB photoelectric photometry 04 p0651 A71-15659
- Quasars as images of Seyfert galaxies nuclei resulting from gravitational lens mechanism 04 p0658 A71-15829
- Intergalactic gas photoionization by quasars UV radiation, using Friedman cosmological model 05 p0805 A71-16111
- Quasars radio spectra in 1-5 GHz frequency range, examining emission from expanding clouds due to synchrotron radiation with self absorption 05 p0805 A71-16112
- Hot stars, supergiants and quasars extended and expanding atmospheres, examining resonance line profile formation by coherent scattering 05 p0806 A71-16203
- Quasars primordial He abundance, discussing relation to galactic evolution 05 p0808 A71-16406
- Quasars spectrophotometry data, obtaining physical conditions, abundances and electron temperature 05 p0811 A71-16685
- Quark fusion in quasi-stellar objects, deriving approximate formula for efficiency of converting rest mass into photons 05 p0785 A71-16686
- Quasi-stellar radio sources similarity to pulsars based on similar characteristics 05 p0814 A71-17235
- Ionized gas galactic cluster stabilization model construction, considering ionizing radiation enhanced cosmic flux and quasar PKS 1116 plus 12 absorption spectrum 07 p1198 A71-19830
- Quasars red shift and absorption lines observations, discussing distance measurement, brightness and intergalactic matter 07 p1200 A71-20211
- Cosmic objects and phenomena research, considering matter and galaxy compacting and dispersing processes, red shift, quasars, etc 08 p1358 A71-20890
- Quasars radio structures observations in S band, using NRAO interferometer 08 p1358 A71-20934
- Energy spectra of expanding relativistic particle clouds producing quasar and Seyfert galaxy nuclei outbursts 08 p1362 A71-21132
- Mass estimation for quasars and galactic nuclei with absorption line shift into long wave region 08 p1362 A71-21140
- Modulation of long scale time variations of quasi-stellar radio sources and Seyfert galaxies due to intergalactic scintillations 08 p1364 A71-21414
- Expanding source model verification for radio outbursts in quasars and Seyfert galaxy nuclei 08 p1365 A71-21424
- Radio source OZ-252 radiant flux density spectrographic observation, noting quasi-stellar object emission spectra 09 p1516 A71-22065
- Optical quasi-stellar objects searched for radio emissions, disproving previously claimed detections 09 p1518 A71-22352
- Variable stars, quasars and X ray source ScoXR-1 UVB light photoelectric data, examining optical emissions and brightness variations 09 p1524 A71-23186
- Quasar radio emission fine structure measurements by very long baseline interferometry, using Goldstone Mars antenna and Haystack radio telescope 10 p1671 A71-24325
- Quasars or blue stars possibility of radio sources usually identified with galaxies 10 p1674 A71-24448
- Quasar 3C 147 angular structure observations, using long baseline interferometer 11 p1830 A71-26113
- Quasar evolution, considering cosmological red shifts 12 p1958 A71-26695
- Optical variation and radio spectral index statistics of extragalactic sources, including quasars from photographic monitoring with 30 inch reflector 12 p1962 A71-26932
- Quasars and X ray sources, observing UVB magnitude variation with photoelectric data 12 p1963 A71-27077
- Optical luminosity function and space density of quasars from 4C and Parker survey, assuming cosmological red shifts 12 p1966 A71-27233
- Galaxy nuclei and quasars model, considering supernova explosions, neutron stars matter accretion and energy radiation 12 p1968 A71-27541
- Universe global structure and quasar frequency distribution based on red shifts and cosmological interpretations 12 p1968 A71-27642
- Galactic structure and spectra, examining universe expansion, Hubble law and quasar distances 13 p2142 A71-29129
- Matter density in universe, comparing delayed galactic growth with observed radio sources and quasars 14 p2305 A71-29675
- Quasar-like N-type and Seyfert galaxies optical characteristics, discussing optical variability and radio spectrum characteristics 14 p2307 A71-29866
- Quasars circular polarization measurements at 21 cm, noting synchrotron self absorption 14 p2307 A71-29867
- Large and small red shift quasars relative probability correlation with cataloged galaxies clusters direction 14 p2315 A71-30656
- Quasars as nuclei of nascent galaxies, proposing protogalaxy model from spectroscopic or color observations 15 p2482 A71-31328
- Quasar mass lower limit estimation from emission and absorption red shift data 15 p2483 A71-31368
- Rapidly rotating early stars and quasars, determining magnetic field generation by turbulent dynamo mechanism 15 p2485 A71-31725
- Quasar 3C 48 observations at 408 MHz, noting scintillations due to interplanetary plasma inhomogeneities 15 p2487 A71-32035
- Long baseline radio interferometers, considering quasars, interstellar masers, geodesy and geology applications 15 p2412 A71-32705
- Bright quasi-stellar radio sources B2 1215 plus 30 and ON231, discussing positions and spectrum 16 p2634 A71-33401
- Exploding universe phenomena, considering supernovae, exploding galaxies, Crab Nebula, pulsars, quasars and radio galaxies 16 p2643 A71-34036
- Quasi-stellar objects, investigating velocity dispersion, column densities and abundance of Mg and Fe in absorbing region by Stromgren method of line pairs 17 p2797 A71-34371
- Quasar internal kinematics and fine structure rapid time variations from radio interferometry 17 p2799 A71-34502
- Quasars as proto-blackholes in galactic nuclei blackhole model, discussing lifetimes, dust and IR radiation using models 17 p2811 A71-35745
- Statistical analysis of radio structure of quasars, considering red shift and anisotropy in angular size distribution 17 p2811 A71-35746
- Upper limits to quasars masses with optical emission lines inside radio sources, using method independent of red shift composition 18 p2961 A71-35965
- Inhomogeneous synchrotron source model calculation for correlation between linear and circular polarization, comparing with quasars observation 18 p2963 A71-36157
- Synchrotron radiation reabsorption in inhomogeneous sources, considering IR spectra of quasars and galactic nuclei 18 p2963 A71-36158
- Kinematic illusions in connection with retardation effects involving extragalactic sources with varying microwave output, noting occurrence in quasar 3C 279 18 p2925 A71-36924
- Quasars and X ray sources, observing UVB magnitude variation with photoelectric data 19 p3133 A71-37427
- Quasar red shifts distribution, indicating discretization in form of geometrical series 19 p3142 A71-38154
- Mass of virtual particle responsible for gravitation of vacuum and expansion of universe, considering correspondence to red shift in quasar spectra 19 p3146 A71-38644
- Gas heating by LF radiation due to Compton scattering near quasars, Seyfert galaxies nuclei and pulsars 20 p3289 A71-39293
- Critique of quasar model of independent random pulse emitting sources conglomeration from incompatibility with light curve 20 p3289 A71-39294
- Supermassive pulsar model of quasars periodicity and luminosity for Kelvin-Helmholtz contraction, concerning gravitational-rotational energy transformation 20 p3304 A71-39946
- Double radio emission sources during occultation period, noting structure, angular size components, positional errors and association to quasars 21 p3443 A71-40189
- Galaxy active nucleus and quasar fragmentation based on model of rotating supermassive star releasing thermal radiation 21 p3449 A71-40610
- Quasar brightness estimates on celestial photographs, noting variability on time scale 21 p3451 A71-40722
- Quasars emission line red shifts distribution observations, evaluating selection effects 22 p3605 A71-42351
- Quasars as nuclei of nascent galaxies, proposing test of protogalaxy model from spectroscopic or color observations 22 p3606 A71-42603
- Book on cosmology covering stars, galaxies, radio galaxies, universe models, quasars, expansion, intergalactic matter and microwave radiation 22 p3607 A71-42773
- Quasars light curves and intensity-time tables 23 p3769 A71-43993
- Quasar and pulsar gamma ray absorption by critical energy collisions with low energy photons 24 p3866 A71-44917
- Photographic monitoring of radio sources with flat or peaked spectra, identifying as quasars or unstable galactic nuclei by optical variations 24 p3872 A71-44920
- QUASI-STEADY STATES**
- Intrinsic helical and quasi-rigid hydrodynamic motions of incompressible, ideal and viscous fluids, using mobile frame method 11 p1804 A71-25175

Initial value problem in quasi-static thermoelasticity, using heat equation and Somiglian tensor 15 p2504 A71-31698

Energy transfer to MPD quasi-steady accelerator having electrolytic capacitors with large series resistance, integrating transmission line equations with Runge-Kutta method [DGLR-71-037] 17 p2794 A71-35539

U NONLINEARITY

QUATERNARY ALLOYS

Heat, solution and cooling treatment of Ti-Al-V-Sn alloy for high strength and plastic properties 05 p0765 A71-16199

Nb-W-Hf-Y creep rupture properties in thermal vacuum, achieving strength improvement by pretest annealing 05 p0766 A71-16242

Ordered phases precipitation in ternary and quaternary ferritic alloys, investigating morphology, structure, distribution, coarsening kinetics and mechanical properties 07 p1133 A71-19443

Notch geometry and temperature effects on Ti-Al-Mo-V alloy creep rupture behavior 07 p1134 A71-19470

Ti-Al-Mo-V alloy stress corrosion cracking, using controlled potential technique in aqueous and methanol environments with and without halogen ions 11 p1777 A71-25448

Nb-Ti-Zr-Hf alloys superconductivity properties, obtaining improved critical current values in tempered vs cold worked samples 13 p2083 A71-27962

High strength corrosion resistant multiphase Co-Ni-Cr-Mo alloys with fcc structure hardened to hcp by mechanical deformation 13 p2084 A71-28148

Solidus-liquidus surfaces and isothermal phase diagrams of quaternary system of Cr with Ti, Zr, Nb and Ta, showing Laves phase interactions and continuous solid solutions 15 p2426 A71-31407

Phase equilibria of Al-Mg-Li-Mn system in Al-rich region, noting composition effects on mechanical properties 19 p3078 A71-37470

QUATERNIONS

Solid body finite rotation theory involving formal operations on quaternions 10 p1642 A71-24576

Optimum normalization of computed rotation quaternions to update space vehicle orientation 12 p1923 A71-27443

Quaternion representation of successive rotations in space vehicle control, locating final position of coordinate frame with respect to original position 17 p2773 A71-35066

QUENCHING

Laser excited atoms quenching by iodine molecules from light pulse induced photodissociation of perfluoropropyl iodide active media 07 p1126 A71-20195

Quenching rates for oxygen during 1470 A pulse photolysis in carbon dioxide, nitrogen and helium mixtures 09 p1404 A71-23382

Temperature dependent differential quenching rates of vibrationally excited CO fluorescence by ortho and para hydrogen, using Born-Bethe approximation 19 p3107 A71-38052

Partial quenching of radiation from ionized inert gases during bases irradiation by IR produced with carbon dioxide lasers 22 p3581 A71-41808

QUENCHING (COOLING)

Hot forming/die quenching of aluminum and titanium alloy integrally stiffened panels [SME PAPER EM-70-178] 01 p0089 A71-11259

Quenched Al-Mg alloys, investigating dislocation mechanisms for plastic flow by creep tests at various temperatures 04 p0613 A71-15744

Al alloys nucleation and precipitation hardening, examining quenching rate effects with hardness measurements and electron microscopy 01 p0105 A71-11605

High speed quenching on zone refined molybdenum, considering retained vacancies as contamination effects 05 p0765 A71-16163

Structural elements carrying capacity increase by strain hardening and nonuniform quenching 05 p0826 A71-16752

Zr solid state solubility in Mo as function of quenching temperature, using optical microscopy and microhardness testing techniques 07 p1130 A71-19300

Amorphous semiconducting thin films quenching fabrication techniques and electrical properties 07 p1181 A71-20410

Loop patterns of secondary defect structures in quenched Al based alloys interpreted in terms of internal stress and stacking fault energy 08 p1310 A71-21531

WC-Co system binder phase composition and properties, studying W content as function of initial carbide grain size, Co content, sintering and quenching time 09 p1466 A71-22170

Rapidly quenched CuAu ordered state development on low temperature annealing, presenting Young modulus variation as function of heat treatment time 09 p1477 A71-23350

Stress and structure effects on creep rate of two austenitic steels in quenched state, considering decorated stacking faults 09 p1479 A71-23624

Al alloys microstructure and mechanical properties after rapid solidification, considering rapid quenching techniques and resulting metastable variations 10 p1627 A71-24596

Rapid melt quenching in Al alloys metastably extended supersaturated solid solutions, discussing strengthening mechanisms, high temperature decomposition and powder metallurgy utilization 10 p1628 A71-25027

Quenched and aged Pt, investigating secondary defects for vacancies clustering modes by transmission electron and field-ion microscopy 11 p1779 A71-26016

Al-Zn-Mg-Cu alloys, investigating minor elements Cr, Mn and Zr effects on quench sensitivity 11 p1780 A71-26018

Cr and Zr additives influence on Al-Zn-Mg-Cu alloys quench sensitivity, discussing mechanical properties and electron microscopic investigation of microstructural characteristics 11 p1780 A71-26021

Ti-V alloys, observing as-quenched omega phase and transition to aged form by selected-area diffraction and dark-field electron microscopy 11 p1783 A71-26479

Al-Ni alloys rapidly quenched from melt, determining solid solutions mechanical and microstructural properties 12 p1916 A71-26893

Mechanical properties and heat treatment of Ti-V and Ti-V-Al alloys in quenched and quenched-aged states 13 p2083 A71-28772

High flash point polyalkylene glycol base synthetic quenchants for high strength alloy heat treatment, noting application to aluminum, titanium and steel parts 13 p2073 A71-28144

Field ion emission microscopic study of isothermal order-disorder transformation kinetics in water quenched Ni-Mo alloys 13 p2085 A71-28577

Stress relief cracking in Cr-Mo steel, considering correlation with embrittlement of water quenched base metal tempered at low temperature 13 p2086 A71-29091

Al-Mg-Si alloy development with low quenching sensitivity and high tensile strength 14 p2259 A71-30471

Al-Zn-Mg-Li solid solutions isothermal phase diagrams, obtaining Al-rich alloys phase compositions for quenching and aging temperatures 15 p2426 A71-31405

Co-Mo and Co-Mo-Ti stainless maraging steels tensile strength after quenching, establishing Mo and Co alloying limits 15 p2427 A71-31526

Flame quenching device for distances determination by burning premixed laminar propane-air at atmospheric pressures between nonparallel walls 15 p2385 A71-32089

Thin thermally insulating film on metallic sample, showing vapor layer elimination during liquid nitrogen quenching 18 p2934 A71-36172

Mechanical properties of carburized cermet steel with hypereutectic structure after water quenching and tempering at 300 C 19 p3076 A71-37113

Chromium stainless steels fine structure, noting quenching and tempering temperatures effects 19 p3076 A71-37118

GaAs laser diode junction temperature measurement methods for verification of stimulated emission quenching due to heating 19 p3074 A71-38231

Formation and interdependence of quenched induced defect structure in Al-Zn, discussing nucleated loops and screw dislocation developed helical dislocations 20 p3249 A71-39001

Fe-C alloys martensitic transformation, investigating high quench rate effects 21 p3397 A71-40451

Quenching effects on glazed and unglazed alumina rods in various media, noting improved flexural and tensile strength, thermal shock resistance and impact resistance 22 p3565 A71-42342

Weakly diffracted beam observation of small quenching vacancy loops and Guinier-Preston precipitate zones in Al and Al-Cu, using transmission electron microscopy 23 p3691 A71-43359

QUEUEING THEORY

Queueing model for analyzing video scan converter 01 p0047 A71-10215

Queueing model of statistical multiplexer buffer behavior for batch Poisson arrivals and single constant output, applying to time sharing computer buffer design 05 p0724 A71-17063

Probabilistic cyclic queue model of overhead time and channel utilization in multiprogrammed computer systems under demand memory paging 13 p2035 A71-28973

Queueing theory approach to communication satellite network design, applying to ocean air traffic control and worldwide military broadcast systems 17 p2721 A71-35106

Single channel queueing system with Poisson input and waiting time dependent mass servicing time, deriving arrival number probabilities generating function 22 p3527 A71-42491

Feedback controlled computerized queueing system, deriving generating functions for system state probabilities corresponding to different service time types 24 p3806 A71-44653

Waiting time distribution in computer controlled queueing system with Poisson input, deriving formulas on basis of total probability and Markov chain theory 24 p3806 A71-44654

Summation theory of random number of independent random variables relation to queueing and reliability theories 24 p3843 A71-44873

Algorithm for rational function incomplete decomposition into partial fractions 20 p3255 A71-39490

R

RABBITS

Amino acid content alteration in internal organs in rabbits under HF electromagnetic and ultrasound oscillations 04 p0547 A71-15573

Respiratory diaphragmatic center, investigating motor-neuron system integral activity by recording and analyzing phrenic-nerve signals in rabbits 10 p1562 A71-24164

Holographic amplitude modulation procedure for pulse compression in synthetic aperture radar 02 p0215 A71-12037

Telecommunication developments covering coaxial cables, waveguides, error elimination, information theory, sound transmission and radars 19 p3016 A71-37340

RADAR ALTIMETERS

U RADIO ALTIMETERS

RADAR ANTENNAS

Soviet book on monopulse radar covering surveillance and target tracking systems, antennas, angular resolution, directional sensitivity, etc 01 p0038 A71-11300

Soviet book on antenna radomes of flight vehicles covering electromagnetic wave transmission through dielectric media, fabrication, construction materials, etc 01 p0057 A71-11322

Phased array radar systems accuracy increase, using ferrite core magnetic flux feedback for phase shifter control 02 p0215 A71-12174

Wideband radar array antenna system with suppressed grating lobes 06 p0867 A71-17712

Airborne X band reflect phased array radar antenna design for simultaneous functions including large 06 p0867 A71-17712

volume search, target attack with general surveillance and low altitude assist

06 p0876 A71-18096

Beam scanning radar antenna, deriving optimum field distributions in aperture

08 p1266 A71-21462

Envelopes of antenna beams produced by variation of one antenna dimension in radar system

09 p1406 A71-23031

Double curved reflectors assembly methods for rotating search radar antennas, considering parabolic and elliptic strip shapes for sidelobe suppression modification

09 p1409 A71-23495

Radiation patterns of radar antennas with single near field cylindrical obstructions, considering directional S band antenna

09 p1420 A71-23678

Static wind loading on large radar antenna structures from wind tunnel tests, considering forces and moments reduction by perforated reflectors and shallow curved cover

10 p1591 A71-23757

Book on phenomenological theory of radar targets covering wave polarization and antennas, single, statistical independent and distributed targets, decomposition theorems and surface scattering

12 p1877 A71-26568

Reinforced plastics components in supersonic transport nose radome and missile radar antennas, discussing molding, sandwich materials and computer controlled spraying techniques

12 p1887 A71-27016

Radar target direction variation /glint/ sensed by amplitude monopulse tracking antenna receiving nonuniform waves

14 p2214 A71-30807

High speed airborne scanning navigational radar antenna with matched patterns, using offset horn fed reflector and polarization modes for improved visual display

14 p2216 A71-31036

Microwave wideband and multiband radome design for strength, environmental and electrical requirements, achieving transmission efficiencies with dielectric and wall thickness selection

14 p2216 A71-31037

Antenna and radome constructions/shape effects on minimizing cross polarization produced by flat, cylindrical, conical and paraboloidal randoms in linear and circular beams

14 p2216 A71-31039

Structural design, mechanical stability and aircraft compatibility for airborne side-looking radar antennas, using end fed slotted waveguide arrays

14 p2205 A71-31041

Dual plane monopulse multimode radar antenna feeds, determining input geometry relationship to generated modes by image method

14 p2218 A71-31065

Slotted waveguide arrays in precision Doppler radar antennas, correlating predicted and actual performance

14 p2206 A71-31073

Radar antenna interference determination based on model using electrical and physical characteristics of reflector type antenna for statistical gain distribution prediction

19 p3021 A71-38458

Harmonic analysis of signal processing radar antennas spatial filtering process, noting application to physical optics theory

20 p3200 A71-39903

Infrared and thermal evaluation of tactical aircraft phased array radar antenna design with cooling air distribution for steady state operating temperature maintenance

21 p3352 A71-40434

Polarization transforming feed horns for rapid scan X-band radar antenna, allowing transmission in various polarization modes and parallel and orthogonal-polarized return reception

23 p3655 A71-44167

Antenna radome noise temperature under aerodynamic heating as function of losses in material, interface reflection and dielectric surfaces

23 p3647 A71-44324

Circular aperture illuminations for high beam efficiency and low sidelobes in search radar antenna applications, using Fredholm integral equation

24 p3809 A71-44990

RADAR APPROACH CONTROL

Airborne radar as helicopter approach aid

04 p0624 A71-15425

V/STOL microwave scanning beam approach and landing system, describing ground and airborne station equipment and operation

08 p1332 A71-21680

RADAR ASTRONOMY

Radar observation of planetary surface characteristics, emphasizing albedo, surface roughness and differentiation

02 p0309 A71-12154

Radar astronomy principles, applications and types of measurements, discussing solar, lunar, planetary and meteor observations

02 p0313 A71-12490

Venus planetary science, discussing radar and space probe measurements as basis for different atmospheric models

05 p0814 A71-17226

Lunar radar reflectivity mapping at 7.5 m wavelength for maria and highlands echo powers, using interferometric techniques

11 p1834 A71-26451

Mars surface harmonics and continental drift from radar and spectroscopic topographic height determination

16 p2638 A71-33519

Radar observation of lunar distance, motion and surface statistical nature, noting enhanced reflectivity associated with craters

17 p2804 A71-35178

RADAR ATTENUATION

Reflectivity and attenuation observations of hail and radar bright band during storms, discussing rain effects

01 p0115 A71-10554

Radar attenuation along slant paths due to precipitation, comparing ATS-5 direct measurements with calculations based on backscatter and sky temperature measurements

01 p0030 A71-10579

Auroral absorption of HF radar waves over high latitude ionospheric paths

01 p0041 A71-11610

Dry radar reflectivity and attenuation due to wet ice spheres exponential distributions, noting hail detection procedures

11 p1794 A71-25379

Airborne Doppler velocity sensors, considering hydrometeors effects on HF signal attenuation and reflection

17 p2747 A71-35768

Terrain and atmospheric parameters affecting radar system design at microwave frequencies, discussing radar backscatter cross section and attenuation

20 p3200 A71-39904

RADAR BACKSCATTER

U BACKSCATTERING

U RADAR SCATTERING

RADAR BEACONS

Radarscope net for target azimuth and distance and for direct altitude readout through beacon numerics

13 p2033 A71-28886

Performance prediction model for electromagnetic compatibility of ATC radar beacon system, testing interrogator-transponder links along air route

19 p3102 A71-38435

RADAR BEAMS

Optimal control law for regulating energy distribution of emitted radar signals in multichannel system for minimizing target search duration

10 p1579 A71-24722

Vertical plane dual beam properties of doubly curved shaped reflector, considering surveillance radar antenna modification to improve performance with ground clutter

13 p2028 A71-27990

Point target horizontal speed determination with circular beam radar for measuring signal intensity and range, noting application to insects in atmospheric waves

17 p2706 A71-35122

Remote double resonance coupling of radar energy to ionospheric irregularities by sweeping radar modulation frequency through whole range

18 p2914 A71-36929

RADAR CHAFF

U CHAFF

RADAR CORNER REFLECTORS

Trihedral metallic post corner reflector for radar echo enhancement, reflecting same sense rotation as incident circularly polarized signal

04 p0559 A71-15879

Luneberg lens antenna theory and gain for communication satellite radio links, discussing shielding from hostile space environment

10 p1583 A71-24450

Multiple planar Luneberg lens circular array for airborne electronically scanned X band narrow beam antenna mounted under aircraft nose or fuselage

14 p2216 A71-31038

Missile system passive radar echo enhancement, discussing dielectric enhancers comprising antennas and corner reflectors

14 p2206 A71-31070

RADAR CROSS SECTIONS

Average radar cross section relative values for echoes from rain, considering horizontal, vertical and circular polarization in various sea states

04 p0551 A71-15008

Rain and drizzle millimeter wave attenuation and radar scattering cross section calculation

05 p0718 A71-15988

Terrain backscatter characteristics in EHF band, establishing average radar cross sections for various incidence angles

06 p0867 A71-17713

Average radar backscattering cross section calculation for conducting obstacles for arbitrary transmitter and receiver antenna polarizations, obtaining results for straight wires, circular loops and helices

09 p1410 A71-23516

Thin metallic disk radar cross sections for near resonance frequencies backscatter, comparing experimental and computer results

09 p1410 A71-23518

Handbook on radar cross section, Volume 1, covering scattering theory, edge/tip diffraction, creeping/traveling waves and various geometric shapes

11 p1733 A71-26008

Handbook on radar cross sections, Volume 2, covering scattering from planar surfaces, complex bodies, rough surfaces, ionized media, plasmas, radar targets and various objects

11 p1733 A71-26009

Radar cross section data analysis, considering economical approximation techniques in HF and LF ranges

12 p1882 A71-27440

Electromagnetic wave multiple scattering by colinear spheres, computing radar cross sections with recursion relation for computer solution

17 p2701 A71-34757

Bistatic radar frequency spectra and cross sections dependence on surface scattering laws, studying echo bandwidth

17 p2702 A71-35026

Bistatic radar scattering cross section from slightly rough perfectly conducting infinite surface, using Fourier transform

19 p3024 A71-38609

Cumulative probability of target detection for pulse surveillance radars, relating target cross section, velocity and radar frame

20 p3199 A71-39901

Terrain and atmospheric parameters affecting radar system design at microwave frequencies, discussing radar backscatter cross section and attenuation

20 p3200 A71-39904

Rain and drizzle submillimeter wave attenuation and radar scattering cross section calculation

22 p3515 A71-42737

RADAR DATA

Automatic aerological ground station with processing and transmission facilities for radio probe and radar data

01 p0029 A71-10360

Clear air convective process, examining dynamic model with radar patterns

01 p0116 A71-10562

Radar reflectivity pattern calculation from cumulus cloud growth numerical model, noting similarity with radar data from on-line computer system

01 p0118 A71-10584

Storm reflectivity models using weather radar and surface rainfall data correlations

01 p0118 A71-10585

Weather radar automatic data processing system for digitizing echo reflectivity by Video Integrator and Processor

01 p0050 A71-10594

Computerized acquisition and processing of radar precipitation signals and lightning data

01 p0050 A71-10595

Radar weather echo data processing by digital computer, providing economical means for analyzing large quantities of data

01 p0050 A71-10596

Acquisition and processing of aircraft search radar data obtained by track-while-scan technique, using off-line digital computer

01 p0040 A71-11392

Radar information digital extractors for processing signals from airborne transponder

03 p0382 A71-13570

Data communication role in National Airspace System, concerning radar and flight data acquisition, intersystem transfer and voice control [AIAA PAPER 71-248]

07 p1063 A71-19722

Analog surveillance radar signal analysis by digital storage and evaluation methods

08 p1252 A71-20745

Radar cross section data analysis, considering economical approximation techniques in HF and LF ranges

12 p1882 A71-27440

Discretization interval in discrete analog filters for optimal processing of complex radar signals, estimating systematic errors

14 p2194 A71-30081

Real time radar instrumentation data processing and control system, discussing computer selection, software requirements and configuration, etc

14 p2196 A71-30338

Digital techniques for tactical radar signal processing functions, discussing low cost integrated

- circuitry, moving target indicators, and analog to digital converters. 21 p3348 A71-40588
- National Aviation System stage A ATC displaying digitized radar data positions together with automatic track positions 22 p3570 A71-41634
- Soviet papers on radar meteorology covering formations classification, signal intensity measurement, detection probability, efficiency and errors 24 p3844 A71-44876
- Meteorological formation classification problems from radar data, discussing optimal solution with discrete selection space 24 p3844 A71-44877
- RADAR DETECTION**
- Hail detection by dual wavelength radar overcoming prior limitations, discussing equipment design and technique limitations 01 p0115 A71-10552
- Hail cells aloft interactions and radar detectability inferred from surface data, giving statistically random model 01 p0115 A71-10553
- Mesoscale meteorological structure during radar CAT detection at Wallops Island during January-March 1968 and 1969 01 p0116 A71-10568
- Snow storms wind field and turbulent region detection, using Doppler VAD pattern and mapping 01 p0117 A71-10576
- Optimal detection of narrow band signal with random phase and arrival time in radar or sonar, using nonlinear adaptive filter 02 p0211 A71-11720
- Radar detection problem, using pseudo Bayes techniques to determine likelihood ratio computational algorithms for stochastic process 04 p0551 A71-15007
- Radar detection ranges on nonfading targets as function of sea state in marine environment 05 p0723 A71-16972
- Radar altimeter use for ocean roughness determination 07 p1095 A71-18824
- Airborne severe storm surveillance, including radar detection hurricane model 07 p1058 A71-18826
- Double threshold detection radar performance, defining M out of N algorithm for nonfluctuating target and false alarm cases 07 p1058 A71-18841
- Radar performance with multipath using complex angle /CA/ method for resolving low angle target, comparing S/N ratio with monopulse system without CA 07 p1058 A71-18844
- Atmospheric turbulence measurement and detection using non-Doppler radar 07 p1058 A71-18845
- Video MTI pulse radar Doppler filter optimum symmetrical weighting factors in clutter-plus-noise environment 07 p1059 A71-18847
- Frequency agile waveforms effects on detection and tracking radars performance, decorrelating distributed clutter echoes 08 p1253 A71-20798
- Detection characteristics of optimal interperiod processing radar pulse systems for arbitrary correlation of signal and noise fluctuations 10 p1578 A71-24710
- Optimal control law for regulating energy distribution of emitted radar signals in multichannel system for minimizing target search duration 10 p1579 A71-24722
- Pulse radar moving target indication and stationary targets reflection suppression, using recursive type digital filter and quadrature channels for improving signal detectability 10 p1579 A71-25068
- Power spectrum symmetry effect on radar signal correlation function and bandwidth 10 p1580 A71-25107
- Moving window and feedback integrator type scanning radar detectors performance comparison based on probability and position estimates by Monte Carlo simulation 12 p1882 A71-27441
- Threshold and power relations for optical radars in pure and turbid atmospheres, determining visibility range for object detection 13 p2027 A71-27856
- Optimal correlating detector of fluctuating two frequency radar signals in unknown random noise 14 p2195 A71-30112
- Radar target detection in nonGaussian sea clutter, calculating trimmed-mean detector performance under Rayleigh fluctuation 14 p2197 A71-30805
- Airborne ECM receiver, determining conditions for detecting victim radar signal before signal reflection from aircraft 15 p2368 A71-31207

- Passive and active radar detection theory and practice, considering advances in sensors, signal generators, processors and filters 15 p2371 A71-31907
- Civil and military aviation operational problems, including cloud masses and CAT detection, landing aids and radar navigation 15 p2446 A71-31917
- Optimal discrete time detection of radar signal parameters in nonGaussian correlated and noncorrelated noise, using Markov model 15 p2373 A71-32619
- Two stage noncoherent rank detector of fluctuating radar signals in noise with unknown distribution 15 p2373 A71-32630
- Comparative detection performance of Siebert and Dicke-fix constant false alarm rate /CFAR/ radar detectors for signals in Gaussian noise 20 p3195 A71-38866
- Cumulative probability of target detection for pulse surveillance radars, relating target cross section, velocity and radar frame 20 p3199 A71-39901
- Surface based moving target indicator radar systems history, performance and problems 20 p3200 A71-39909
- Time resolved tropospheric scatter layers from simultaneous bistatic and monostatic radar detection 23 p3646 A71-44174
- Optimal mismatched filter design for radar ranging, detection and resolution by reduction to transversal equalizer, determining parameters by nonlinear programming 24 p3815 A71-44935

NT PLAN POSITION INDICATORS
NT RADAR ANTENNAS
NT RADAR BEACONS
NT RADAR CORNER REFLECTORS
NT RADAR FILTERS
NT RADAR RECEIVERS
NT RADAR REFLECTORS
NT RADARSCOPES

Remote sea state information acquisition system using video attachment to radar for sea return spectrum recording and analysis

01 p0031 A71-10600

Digital simulation computer program in FORTRAN IV for radar systems performance evaluation in various environments

02 p0211 A71-11796

Radar information digital extractors for processing signals from airborne transponder

03 p0382 A71-13570

Deception repeaters for erroneous information transmission to radar, considering echo signal level, burnthrough, target size, sensitivity, gain and bandwidth

04 p0555 A71-15359

Electron tubes for radars, discussing history and development of magnetrons, Thomson-CSF display tube and power amplifiers

06 p0874 A71-17568

S band pulsed cotal radar transponder for ground base Centaur rocket trajectory tracking from takeoff to splashdown

06 p0870 A71-18475

Terrain-following radar for TSR-2 aircraft, discussing reliability trials and improvement

07 p1062 A71-19557

Multiradar tracking system with monoradar units interconnected by central digital computers for wide airspace surveillance

08 p1255 A71-21598

Radar analog simulators for Polish air traffic controllers training, describing optical and electronic equipment

09 p1428 A71-22950

Computerized finite element techniques for stress and structural analysis for space communication and radar applications

10 p1684 A71-23756

Broadband multicavity multimegawatt klystron design for superpower amplifiers in radars and particle accelerators

11 p1734 A71-26433

Cost effectiveness of reliability screening program from parts procurement through system test, using experience with attack radar for F-111 aircraft

12 p1885 A71-26683

Radar duct surface interference phenomena and focusing effects on radar beam energy propagation

14 p2201 A71-30936

Passive and active radar detection theory and practice, considering advances in sensors, signal generators, processors and filters

15 p2371 A71-31907

Helicopter radar equipment for obstacle avoidance in all-weather low altitude flight, describing components installation, cockpit display and controls

15 p2446 A71-31919

Airborne traffic situation display for use with national airspace/automatic radar control terminal system, using computer selected message, map and heading data

19 p3097 A71-37175

[AIAA PAPER 71-929]
Radar equipment for meteor velocity and radiants measurement at VHF by pulse diffraction method

19 p3067 A71-38635

Ultrasonic radar simulator to produce data for radar system performance evaluation, describing automated short range and manual long range systems

20 p3196 A71-39376

Gunn effect devices properties and applications, discussing microwave energy sources tunable and local oscillators, parametric amplifier pumps and radar transmitters

21 p3357 A71-40819

Radar data video extractor adaptive threshold device synthesis criteria to quantize echoes for ensuring constant false alarm rate and target visibility

22 p3508 A71-41525

Book on pulse, CW, Doppler, pulse Doppler and space radar theory, operation and maintenance, describing equipment, tracking and siting

22 p3509 A71-41621

Radar systems performance constraints, discussing environmental effects, carrier frequency, aerial directivity, clutter echoes, transmitter power, etc

22 p3509 A71-42199

Solid state airborne weather radar for civil aviation, discussing design, weight and power requirement reduction

23 p3647 A71-44273

RADAR FILTERS

Moving target indicator detection filters with nonuniform interpulse periods, discussing design

01 p0058 A71-11575

Video MTI pulse radar Doppler filter optimum symmetrical weighting factors in clutter-plus-noise environment

07 p1059 A71-18847

Noise bandwidth of optimum second order and bandpass Butterworth, Bessel and Chebyshev filters for communication and radar systems

07 p1081 A71-19539

Clutter signals simulation with predetermined auto- and cross correlation, describing mathematical method for filter weighting function

16 p2541 A71-33424

Optimal mismatched filter design for radar ranging, detection and resolution by reduction to transversal equalizer, determining parameters by nonlinear programming

24 p3815 A71-44935

RADAR IMAGERY

Spatial and temporal structure in turbulent breakdown of shear flows in stably stratified atmosphere from radar images of vertical cross sections

01 p1116 A71-10569

Side-looking airborne radar (SLAR) imagery and site selection for soil pattern topography

02 p0244 A71-11952

Synthetic endfire hologram radar for small target and clear air turbulence detection

03 p0381 A71-14476

Pseudo radar imagery by high contrast aerial photography at low sun angles for aiding geological analysis

04 p0598 A71-15370

Automatic pattern recognition, discussing texture as discriminant of crops on radar imagery

05 p0743 A71-17145

Side-looking airborne radars ground and slant range imagery mosaic preparation and geoscience interpretation, analyzing terrain geometry, radar shadow and layover

06 p0898 A71-17561

Department of Defense data processing equipment for all weather airborne terrain imaging radar mapping

08 p1288 A71-21250

Cumulative frequency curves of terrain slopes by radar shadow frequency method

09 p1439 A71-23216

Vegetation penetration with K-band side-looking airborne imaging radars, noting multifrequency multipolarization system application for terrain reconnaissance

18 p2875 A71-36365

Side-looking airborne radars and image recording scanners design for geoscience applications, discussing gray scale improvement, multispectral sensing, target discrimination, etc

18 p2875 A71-36366

Active synthetic aperture coherent imaging technique to fill and double diameter of sparsely sampled aperture array

22 p3574 A71-41783

RADAR MAPS

NT RADAR IMAGERY

Radar interferometric mapping of Venus surface reflectivity in polarized mode at 70 cm wavelength

03 p0490 A71-13782

Onboard air navigation computers direct correction by mapping radar, calculating position by region overflown image/measured geographic features comparison

06 p0925 A71-17952

Mapping by position data extraction from airborne high resolution side-looking radar

06 p0869 A71-18295

Cumulative frequency curves of terrain slopes by radar shadow frequency method

09 p1439 A71-23216

Lunar Apennine-Hadley region geological implications from high resolution earth-based radar map and Lunar Orbiter photography

20 p3287 A71-38977

Radar Meteor 50 PPI taken pictures concerning Adriatic regions meteorologic situations

21 p3411 A71-40828

RADAR MEASUREMENT

Reflectivity and attenuation observations of hail and radar bright band during storms, discussing rain effects

01 p0115 A71-10554

Free fall speed characteristics of simulated hailstones measured by tracking radar, discussing roughness effects on speed and drag

01 p0115 A71-10556

Radar and air flow structure of Alberta hailstorms from radiosonde data, aircraft measured cloud base updrafts and weak echo region concept

01 p0115 A71-10558

Surface and aircraft radar observations of updrafts within weak echo region of Alberta hailstorm,

discussing adiabatic flow breakdown into turbulent flow

01 p0115 A71-10559

Clear air radar structures temperature, wind components and true gust velocities combined with radar data for observed traveling wave features

01 p0030 A71-10560

Land breeze fronts observed by X and S band radars at Wallops Island

01 p0116 A71-10563

Breaking waves and resulting CAT characteristics from ultrahigh resolution FM-CW radar observation, using model of unstable waves at sheared inversion layer

01 p0116 A71-10565

CAT radar observation from instrumented and uninstrumented jet fighter flights, analyzing data statistically for spatial correspondence of ground and airborne observations

01 p0116 A71-10566

Thin CAT layer detection in lower stratosphere by L band radar complemented by radiosonde and U-2 aircraft probes

01 p0116 A71-10567

CAT layer simultaneous radar and instrumented aircraft observations, noting eddy dissipation rate computation from radar reflectivity measurement

01 p0116 A71-10570

Dual Doppler radar method of convective storms observation, noting optimization via COPLAN scanning

01 p0117 A71-10574

Snowflakes melting region radar observation, discussing fall speed, reflectivity profile, particle size distribution, Doppler characteristics, etc

01 p0117 A71-10575

Lower atmosphere turbulence model derivation from data obtained by Doppler radar windfield measurements in snowfall environment

01 p0117 A71-10578

Radar precipitation measurement accuracy improvement, using various Z-R relationships for correlation of radar data and rainfall rates

01 p0117 A71-10581

Meteorological radar rainfall estimates comparison with dispersed tipping bucket gage measurements during storms

01 p0118 A71-10582

Cloud and precipitation boundaries in convective storms studied by stereophotogrammetry and radar, discussing radar echo motion within cloud envelope

01 p0118 A71-10586

Anticyclonic eddy formation and emergence within severe thunderstorm observed by radar and surface data, noting wave development along pseudocold front

01 p0118 A71-10588

Radar observation of planetary surface characteristics, emphasizing albedo, surface roughness and differentiation

02 p0309 A71-12154

Neutral atmospheric wind measurements at 75-110 km by radar observation of meteor trail drift, discussing diurnal variations

03 p0407 A71-13308

Comparative simultaneous ionospheric temperature and plasma concentration by Explorer 31 probes and ground based radar measurements

03 p0407 A71-13311

VHF radar measurements of scattering by field aligned irregularities associated with equatorial spread F

03 p0420 A71-14532

Clear air turbulence due to large amplitude Kelvin-Helmholtz billows, noting simultaneous measurements by instrumented aircraft and radar

04 p0621 A71-15043

Seasonal and year-to-year crop radar sensing in agriculture for socioeconomic applications

07 p1095 A71-18825

X band radar system to compare electrical lengths in 100 m range with 10 to minus 6 accuracy, noting applications in geodetic and radio waves phase fluctuation measurements

07 p1075 A71-19345

Areal precipitation quantitative radar measurements, describing signal processing and digital system for contour mapped displays and numerical summaries

08 p1257 A71-21738

Meteor observations by radar, determining number, range, velocity, deceleration, duration, radiants, orbits and densities

09 p1517 A71-22212

Meteor trails azimuth angle measurement by radar interferometry, describing system advantages with respect to receiver noise, angular resolution and calibration

10 p1576 A71-24053

Solar corona plasma turbulence spectra, evaluating radar echo structure

12 p1963 A71-27080

Radar based values of neutral night exospheric temperature, discussing dominant effect of annual variation

13 p2055 A71-27921

Wind profile data in Cape Kennedy area from FPS-16 radar/Jimsphere master tapes 13 p2098 A71-29346

Meteorological tower high resolution CW-FM radar measurements for studies of temperature inversions, waves, thermal plumes and convection in atmospheric boundary layer 14 p2192 A71-29707

Planet Mercury density, discussing optical and radar measurements and theory comparison with observation 14 p2306 A71-29728

Large amplitude formations and turbulence in Kelvin-Helmholtz instability, comparing with radar observations 14 p2267 A71-29760

High power 10 cm radar as CAT detector, comparing with radar and aircraft data coincident in space and time 14 p2267 A71-29761

Wind profile determinations at 90-100 km from meteor trail drift and ionosphere inhomogeneity radar data, noting semidiurnal harmonics in wind components 15 p2395 A71-31450

Laser radar system using retroreflector on lunar surface for measurement of distance between earth and moon 16 p2543 A71-33811

Geomagnetic equatorial ionospheric ion temperature, comparing incoherent scatter radar and OGO-D retarding potential analyzer values 16 p2573 A71-33956

Ionospheric atomic oxygen concentration estimates from radar backscatter and rocket probe measurements of electron and ion temperatures and concentration 16 p2574 A71-33965

Radar observation of lunar distance, motion and surface statistical nature, noting enhanced reflectivity associated with craters 17 p2804 A71-35178

Tropospheric stratification structure from high resolution FM/CW radar sounder, comparing with internal gravity wave atmospheric models 17 p2771 A71-35808

Lower atmospheric multiple wavelength laser radar data compared to clear atmosphere model and radiosonde measurements, discussing mixing layer location 18 p2882 A71-36617

Solar corona plasma turbulence spectra, evaluating radar echo structure 19 p3133 A71-37430

Laser radar observation of comet Bennett dust at 40-90 km, deducing particle size from rate of descent 19 p3142 A71-38041

Power density prediction based on electromagnetic compatibility analysis of radar environments, comparing predicted propagation losses with measurements 19 p3021 A71-38455

Radar measurements of vertical structure and motion trajectories of cumulus-rain clouds, studying vertical flows velocities and radar echo characteristics 19 p3094 A71-38701

Automated meteorological radar information operation methods for cloud fields, discussing data analysis and processing 19 p3094 A71-38702

Simultaneous radar and instrumented aircraft observations in clear air turbulent layer for eddy dissipation rates calculation 20 p3256 A71-39207

Proton precipitation satellite observation, comparing with simultaneous ground based measurement of auroral radar echoes 20 p3285 A71-39887

Radar determination of reference change related to sudden acceleration, deducing Galilean-accelerated reference transition in two dimensional space-time 21 p3415 A71-40513

Emitted signal delay time effect on operational precision of semiconductor laser radar for measuring lower cloud boundary heights 21 p3394 A71-41239

Detailed wind velocities and temperature profile measurements by FPS-14 radar/Jimsphere technique for space vehicle and SST applications 22 p3569 A71-42543

Radar vs visual observation of cloudiness and hazardous weather phenomena, emphasizing storm warnings 24 p3845 A71-44885

Ocean surface wave height /sea state/ measurement by high resolution random-signal radar based on model characterized by Poisson distributed scatterer density function 24 p3823 A71-45082

RADAR NAVIGATION

ATC automated systems, discussing National Airspace System En Route Stage A and Advanced Radar Terminal System [AJAA PAPER 71-244] 07 p1156 A71-19719

Terrain following radar for airborne guidance of low flying military aircraft 12 p1927 A71-26881

Radar avoidance action logic for converging aircraft safe passage, discussing near miss and collision situations 12 p1927 A71-27600

Air navigation techniques history, considering radio, radar, loran Doppler and inertial navigation 14 p2272 A71-30712

Radio and radar air navigation for civil aviation, discussing Doppler effect, inertia and satellite systems 19 p3100 A71-37344

RADAR OBSERVATION

U RADAR TRACKING

RADAR PHOTOGRAPHY

Electron attachment rate determination by combined photographic and radar observation of meteors 13 p2137 A71-28545

Small meteor bodies fragmentation, using radar diffractional pictures 16 p2639 A71-33697

Radar Meteor 50 PPI taken pictures concerning Adriatic regions meteorologic situations 21 p3411 A71-40828

RADAR RANGE

Geodetic survey adjustment and accuracy improvement using satellite radar range and ballistic camera data 04 p0583 A71-15302

Radar detection ranges on nonfading targets as function of sea state in marine environment 05 p0723 A71-16972

Meteor trails distance determination by radar pulses reflection observation, estimating reflected signal delay dispersion and plotting mean square errors 10 p1576 A71-24037

Suboptimal estimation of remaining flight distance of aircraft at each radar range measurement by limited state recursive estimators 11 p1741 A71-25489

Radar ranging experiment onboard Jupiter orbiter, concerning perturbations, gravitational harmonics and short arc orbit determination 15 p2487 A71-32041

Three dimensional ATC radar supporting simultaneous range, azimuth and elevation information for indefinite number of targets by continuous searching 15 p2371 A71-32167

Mars motion 1751-1969, comparing Clemence theory and Newcomb Tables of sun with meridian and radar ranging Mars observations 19 p3144 A71-38166

Optimal mismatched filter design for radar ranging, detection and resolution by reduction to transversal equalizer, determining parameters by nonlinear programming 24 p3815 A71-44935

RADAR RECEIVERS

Radar receiver dynamic range centering for log-normal target statistics for minimum probability of signal exclusion 05 p0725 A71-17084

Operating mode of semiconductor AFC mixer of radar receiver under large signal 06 p0874 A71-17546

Noise effects on characteristics of automatic radar rangefinder with logarithmic receiver, showing discrimination curve deformation with increasing SNR 09 p1415 A71-22297

Airborne ECM receiver, determining conditions for detecting victim radar signal before signal reflection from aircraft 15 p2368 A71-31207

L band microwave IC front end for identification friend or foe (IFF) receiver, noting environmental and filtering requirements 16 p2547 A71-33556

Ku band monopulse receiver with electronically tunable Gunn oscillator, discussing negative resistance diodes dynamic impedance properties 16 p2547 A71-33557

IF nonlinearities effect on Gaussian clutter rejection associated with noncoherent MTI radar receiver 17 p2708 A71-35483

General purpose pulsed microwave radar receiver, describing balanced mixer and transistorized IF amplifier design and construction 18 p2887 A71-36015

Electromagnetic compatibility performance of pulse Doppler radar receivers, considering CW or synchronous pulse interference 19 p3020 A71-38430

Moving target indicator receivers design and techniques, discussing performance limitations 20 p3200 A71-39905

Optical correlation for surveillance and pulse Doppler radar receivers signal processing 20 p3200 A71-39910

RADAR RECEPTION

Radar signal probability ratio over finite interval 02 p0219 A71-12620

Radar station-satellite contact times using horizon crossing, lunar occultation and keyhole constraints 02 p0280 A71-12898

Shading reflector transverse motion effect on radar signal spectrum based on geometric optics approximation 05 p0719 A71-15999

Doppler pulse radar signal reception, calculating noise signal optimal relationship for comparison with adapted filtration technique 05 p0722 A71-16707

Asymptotic optimal rank criterion for noncoherent detection of fluctuating radar signal in noise of unknown intensity 19 p3015 A71-37253

Signal processing techniques for clutter suppression in moving target indicator radar 20 p3200 A71-39908

Shading reflector transverse motion effect on radar signal spectrum based on geometric optics approximation 22 p3515 A71-42748

RADAR REFLECTIONS

U RADAR ECHOES

RADAR REFLECTORS

Antenna array radar reflector for simulating objects with given polarization characteristics during radar equipment tuning and calibrating 02 p0233 A71-12634

Shading reflector transverse motion effect on radar signal spectrum based on geometric optics approximation 05 p0719 A71-15999

Radar target optimal detection algorithms in cloud of passive reflectors, noting space surveillance regularities 05 p0722 A71-16870

Vertical plane dual beam properties of doubly curved shaped reflector, considering surveillance radar antenna modification to improve performance with ground clutter 13 p2028 A71-27990

Shading reflector transverse motion effect on radar signal spectrum based on geometric optics approximation 22 p3515 A71-42748

RADAR RESOLUTION

Weather radar resolution enhancement by pulse compression system for signal bandwidth increase by phase coding 01 p0030 A71-10597

Echoing area relation to radar range resolution cell size and aircraft dimensions, using mathematical model 02 p0210 A71-11643

Air traffic control radar separation by pulse repetition frequency discrimination for double and triple stagger configurations 05 p0720 A71-16347

Uniqueness theorem for sources of electromagnetic fields expressible as magnitude integrable functions of time, considering implications for antenna aperture limitations on radar resolution 06 p0868 A71-17729

Iterative method for good aperiodic binary sequences in radar range resolution 07 p1148 A71-19769

High sensitivity S band meteorological radar detecting clear air echoes from low horizontal layers and high altitude turbulence 12 p1880 A71-27156

Correlation function of modulation of radar sounding signals with nonwhite nonstationary Gaussian noise, obtaining target range and velocity maximum likelihood estimates 12 p1882 A71-27616

Resolution and clutter performance of simultaneous Doppler and acceleration measurement with coherent pulse trains 20 p3195 A71-38855

Doppler distortions of clutter and resolution performance of pulse trains with large time bandwidth products 20 p3195 A71-38861

Radar resolution performance for targets with range acceleration, determining matched filter or correlation radar effects 20 p3195 A71-38868

Radar systems performance constraints, discussing environmental effects, carrier frequency, aerial directivity, clutter echoes, transmitter power, etc 22 p3509 A71-42199

Optimal mismatched filter design for radar ranging, detection and resolution by reduction to transversal equalizer, determining parameters by nonlinear programming 24 p3815 A71-44935

RADAR SCANNING

Acquisition and processing of aircraft search radar data obtained by track-while-scan technique, using off-line digital computer 01 p0040 A71-11392

Stochastic model for analysis of track-while-scan technique for aircraft search radar, based on Kalman filter theory 01 p0065 A71-11393

Cartographic characteristics and applications of airborne radar sensors, stressing synthetic aperture radar and electronic techniques and equipment 09 p1452 A71-23219

Thunderstorms environment analysis from radar and aircraft scanings, determining cumulonimbus

- cloud air kinematic properties for three dimensional circulation model
09 p1488 A71-23252
- Moving window and feedback integrator type scanning radar detectors performance comparison based on probability and position estimates by Monte Carlo simulation
12 p1882 A71-27441
- Space shuttle scanning beam landing guidance system, discussing accuracy in penetration, alignment, flare out and touchdown maneuvers and trajectories
17 p2773 A71-35068
- Low level target locating by monopulse and conical scanning radar, solving balance equation
17 p2708 A71-35482
- Real time interactive simulation of multifunction phased array radar, using digital computer links
23 p3648 A71-44272
- ### RADAR SCATTERING
- Radar reflectivities in South Dakota hailshafts from hailstone momentum data, applying microwave scattering theory
01 p0115 A71-10557
- Radar reflectivity pattern calculation from cumulus cloud growth numerical model, noting similarity with radar data from on-line computer system
01 p0118 A71-10584
- Radar scattering from turbulent underdense ionized wakes, showing relationship between Doppler spectrum and wake characteristics
04 p0551 A71-15011
- Radar target backscattering characteristics description using scattering matrix invariants
04 p0619 A71-15329
- Coupling effect on monostatic-bistatic radar equivalence for monochromatic wave and short pulse scattering
07 p1060 A71-19260
- Radar scattering law derivation method for small regions of Venus surface, synthesizing CW spectra
08 p1357 A71-20872
- Average radar backscattering cross section calculation for conducting obstacles for arbitrary transmitter and receiver antenna polarizations, obtaining results for straight wires, circular loops and helices
09 p1410 A71-23516
- Radar backscattering from thin metallic conductive films, giving results for Al and Ni from anechoic chamber measurements
09 p1410 A71-23517
- Radar incoherent scatter technique for ionospheric propagation forecasting, using nocturnal and diurnal electron density profiles measurements
10 p1575 A71-23867
- Covariance matrix of coordinate fluctuations of instantaneous radar center of reflection from set of scatterers
10 p1578 A71-24709
- Handbook on radar cross section, Volume 1, covering scattering theory, edge/tip diffraction, creeping/traveling waves and various geometric shapes
11 p1733 A71-26008
- Handbook on radar cross sections, Volume 2, covering scattering from planar surfaces, complex bodies, rough surfaces, ionized media, plasmas, radar targets and various objects
11 p1733 A71-26009
- Book on phenomenological theory of radar targets covering wave polarization and antennas, single, statistical independent and distributed targets, decomposition theorems and surface scattering
12 p1877 A71-26568
- Electromagnetic wave scattering from rough surfaces, discussing radar return differences for different polarizations
14 p2203 A71-30968
- Bistatic radar frequency spectra and cross sections dependence on surface scattering laws, studying echo bandwidth
17 p2702 A71-35026
- Stable auroral red arc excitation observations by HF radar scattering, scanning photometers and Alouette 1 satellite, noting local electron concentration increase
19 p3054 A71-38034
- Bistatic radar scattering cross section from slightly rough perfectly conducting infinite surface, using Fourier transform
19 p3024 A71-38609
- Cumulonimbus cloud hail danger, precipitation and water content measurements with scattering and attenuation of centimeter radar waves, including automated echo subtraction device
19 p3094 A71-38700
- Inverse scattering at low frequencies, estimating target diameter for various shapes
20 p3195 A71-38869
- Solar wind origin in active regions by radar exploration, noting signal backscattering from coronal plasma turbulent pulsations
20 p3281 A71-39732
- Ocean surface condition correlation to radar backscattering cross sections and wind velocity from scatterometer data
22 p3569 A71-42545
- ### RADAR SIGNATURES
- Midlatitude ionospheric signatures from narrow beam HF radar backscatter sounder, discussing diurnal and seasonal occurrences
13 p2031 A71-28782
- ### RADAR TARGETS
- Radar energy loss estimate over space targets, considering various energy distributions in given search volume, target acquisition probability, signal to noise ratio, etc
02 p0212 A71-11879
- Coherent laser synthetic aperture radar at microwave frequencies for airborne ground point target mapping
02 p0215 A71-12044
- Radar target optimal detection algorithms in cloud of passive reflectors, noting space surveillance regularities
05 p0722 A71-16870
- Radar detection ranges on nonfading targets as function of sea state in marine environment
05 p0723 A71-16972
- Double threshold detection radar performance, defining M out of N algorithm for nonfluctuating target and false alarm cases
07 p1058 A71-18841
- Fluctuating radar target detection in clutter by sidelobe blanking system, discussing false alarm adaptive threshold procedure
07 p1154 A71-18842
- Unresolved radar targets or multipath distortion determination by measurement of complex indicated angle on two pulses separated by short interval
07 p1058 A71-18843
- Woodward ambiguity function generalization for case of radar signal reflection from rapidly fluctuating target, mixed with white Gaussian noise
09 p1404 A71-22292
- Ground based coherent radar synthetic aperture procedure against uniform velocity targets, discussing airborne holographic synthetic gain applications to stationary antennas
09 p1405 A71-22697
- Omnidirectional radar moving target detection from clutter, using Doppler filter system
09 p1407 A71-23047
- Book on phenomenological theory of radar targets covering wave polarization and antennas, single, statistical independent and distributed targets, decomposition theorems and surface scattering
12 p1877 A71-26568
- Correlation function of modulation of radar sounding signals with nonwhite nonstationary Gaussian noise, obtaining target range and velocity maximum likelihood estimates
12 p1882 A71-27616
- Signals single set synthesis for simultaneous target information transmission and range and velocity measurement
12 p1883 A71-27617
- Variable target reflectivity effect on weather radar measurements, using extended echo fluctuation theory for average and maximum signals
13 p2031 A71-28723
- Target trajectory detector optimization, using surveillance radar data and Markovian chain apparatus
13 p2033 A71-28993
- Quasi-point type radar target angular motion simulation by controlling electromagnetic wave phase front in receiving field
14 p2193 A71-29825
- Instantaneous frequency statistical characteristics of passive noise spectra and fluctuating signals reflected from nonpoint moving radar targets
14 p2195 A71-30111
- Electromagnetic inverse scattering model of electrical radius of conducting spherical radar target employing expansion of scattered field in vector wave functions
14 p2196 A71-30564
- Target movement effects on airborne coherent sidelooking synthetic aperture imaging radar during scan rate and compression ratio increases
14 p2197 A71-30798
- Radar target detection in nonGaussian sea clutter, calculating trimmed-mean detector performance under Rayleigh fluctuation
14 p2197 A71-30805
- Radar target direction variation /glint/ sensed by amplitude monopulse tracking antenna receiving nonuniform waves
14 p2214 A71-30807
- Meteorologic bistatic radar equation for randomly distributed targets, applying to raindrops, refractivity perturbations, etc
14 p2197 A71-30830
- Three dimensional ATC radar supplying simultaneous range, azimuth and elevation information for indefinite number of targets by continuous searching
15 p2371 A71-32167
- Point target horizontal speed determination with circular beam radar for measuring signal intensity and range, noting application to insects in atmospheric waves
17 p2706 A71-35122
- Radar glint reduction by diversity techniques, indicating tracking improvement by error signal choice
19 p3022 A71-38587
- Radar resolution performance for targets with range acceleration, determining matched filter or correlation radar effects
20 p3195 A71-38868
- Inverse scattering at low frequencies, estimating target diameter for various shapes
20 p3195 A71-38869
- Binary moving-window integrator radar target azimuth measurement error determination, presenting target detection probability curves obtained by digital simulation
21 p3348 A71-40725
- ### RADAR TRACKING
- Meteor population radar observation data at Antarctica station, noting monthly variations
01 p0149 A71-10054
- Radar tracking systems stretcher detector circuit output signal amplitude and spectral distribution analysis
01 p0029 A71-10308
- Stochastic model for analysis of track-while-scan technique for aircraft search radar, based on Kalman filter theory
01 p0065 A71-11393
- Statistical connection strategies for automatic multiradar air traffic surveillance using track computer
03 p0380 A71-14395
- Synthetic aperture holographic techniques in continuous wave bistatic radars for moving targets
03 p0381 A71-14477
- German monograph on digital simulation system for ergonomic investigation of radar observation problems covering flight plan data with density variation
04 p0551 A71-14900
- Hurricane Gladys structure and dynamics observations by Apollo 7 spacecraft, satellites and radar, noting large cloud feature
05 p0777 A71-16662
- S band pulsed cotal radar transponder for ground base Centaur rocket trajectory tracking from takeoff to splashdown
06 p0870 A71-18475
- SAGE/Buic vs Kalman filters for aircraft tracking, determining accuracy by radar model [AIAA PAPER 71-58]
06 p0925 A71-18517
- Meteor population radar observation data at Antarctica station, noting monthly variations
08 p1361 A71-21048
- Multiradar tracking system with monoradar units interconnected by central digital computers for wide airspace surveillance
08 p1255 A71-21598
- Meteor observations by radar, determining number, range, velocity, deceleration, duration, radiants, orbits and densities
09 p1517 A71-22212
- Woodward ambiguity function generalization for case of radar signal reflection from rapidly fluctuating target, mixed with white Gaussian noise
09 p1404 A71-22292
- Upper atmosphere wind measurement by meteor trails radar sounding, discussing seasonal variations, amplitudes and phases of harmonic components
09 p1487 A71-22302
- High order conditional algebraic equations in determination from azimuthal radar observation sporadic meteor density distribution over celestial sphere, discussing solution procedure and convergence
10 p1576 A71-24030
- Wind velocity data processing technique for azimuthal radar observations in meteor zone, using least squares method
10 p1600 A71-24035
- Atmospheric turbulence parameters determination from radar meteor observation, calculating antenna radiation patterns effect on error
10 p1583 A71-24036
- Sounding rocket flight accurate trajectory data, determining cost effective radar tracking system
10 p1610 A71-24149
- Vertical air motions measurement by balloon radar tracking, discussing method of radar noise error reduction by ascent rate smoothing technique
11 p1794 A71-25385
- Electron attachment rate determination by combined photographic and radar observation of meteors
13 p1317 A71-28545
- Space trajectory radars for measurements on military firing ranges and civil space centers, using microelectronics for data processing
16 p2544 A71-34098
- Low level target locating by monopulse and conical scanning radar, solving balance equation
17 p2708 A71-35482
- Optical radar aircraft tracking and position system, using IR Q switched flash pumped Nd-YAG laser transmitter and pulse receiver with magnetic tape recorder and real time computer
18 p2900 A71-36905

- Computer-based aircraft tracking with aid of twin radar air traffic control system, discussing components and operation 18 p2883 A71-36993
- On-line radar tracking of six orbital elements of thrust maneuvering spacecraft, obtaining discrete non-linear measurement and dynamical equations [AIAA PAPER 71-902] 19 p3095 A71-37153
- Radar returns from convective fields and cells in visually clear atmosphere explained by thermal effects and air motion 19 p3090 A71-37753
- Antenna azimuthal radiation patterns and meteor radial distribution effects on wind velocity measurement by radar observation of meteor trains 19 p3145 A71-38372
- Radar glint reduction by diversity techniques, indicating tracking improvement by error signal choice 19 p3022 A71-38587
- Nonlinear filters performance comparison for reentry vehicle trajectory estimation from radar tracking, noting coordinate systems effect on extended Kalman filter accuracy 19 p3039 A71-38712
- Book on pulse, CW, Doppler, pulse Doppler and space radar theory, operation and maintenance, describing equipment, tracking and siting 22 p3509 A71-41621
- Radar observation of convective process in clear air, presenting turreted top cell contour tracings from PPI sequence 23 p3700 A71-43088
- Fokker-Planck-Kolmogoroff equation for radar tracking meter with nonlinear discriminator and second-order smoothing loops, obtaining steady solution by separated variables method 24 p3815 A71-44702
- RADAR TRANSMISSION**
- Soviet book on radar signal processing optimization covering detection and measurement, electronic analog and discrete digital filters design, etc 06 p0867 A71-17445
- Optimal phased array radar pulse scheduling multiple transmissions and receptions in minimum time, using integer programming 08 p1254 A71-21339
- Book on detection, estimation and modulation theory, Part 3, Gaussian and radar-sonar signals in noise, covering point targets, random process and scatter channels 15 p2371 A71-31841
- Performance levels prediction for airborne solid state phased array radar transmission sources, considering TRAPATT devices 22 p3509 A71-41630
- Model aspects of sea echoes and clutter unsteadiness on radar 22 p3514 A71-42470
- RADARSCOPES**
- NT PLAN POSITION INDICATORS**
- Radarscope net for target azimuth and distance and for direct altitude readout through beacon numerics 13 p2033 A71-28886
- ATC radar display systems mapping techniques using vectors and optical projections 14 p2271 A71-30014
- ATC display devices with computer-derived alphanumeric labels on radar screen, examining feasibility and effectiveness 21 p3413 A71-40118
- RADIAL DISTRIBUTION**
- Radially loaded bearings rolling on flat track, determining slip-stick areas and creep conditions 01 p0086 A71-10298
- Laser radial-shear common path interferometer for lens testing 02 p0250 A71-12144
- Direction indicating color schlieren system displaying radial refractive index gradients, comparing with knife edge monochrome image resolution 03 p0423 A71-13459
- Underground cosmic ray showers muon pairs lateral distribution measurement 04 p0640 A71-14815
- Cylindrical electromagnetic wave amplification in TWT with radial line and diverging electron flux 05 p0727 A71-16003
- Low energy protons radial gradient in interplanetary space measured with intercalibrated solid state detectors on Venus bound Mariner 5 and earth orbiting Explorer 33 06 p0952 A71-18113
- Radial microdistribution of absorbed dose in heavy charged particle track, allowing for delta electron emission 06 p0963 A71-18365
- Radial density distribution in plasmoid and radial expansion of plasmoid investigated by microwave measurements 06 p0940 A71-18703
- Plasma instabilities under radial magnetic field effect across homogeneous field, considering oscillation modes 07 p1167 A71-19231
- Saturn rings radial structure model featuring purely gravitational forces association with primary and perturbers, using planar restricted three body problem formalism 07 p1202 A71-20518
- Equatorial proton belt radial profile analysis by satellite electron distribution data 08 p1351 A71-20962
- Radio meteor orbit velocity and radiant measurements by pulse diffraction technique 09 p1520 A71-22829
- Hypothetical geocentric/interplanetary dust cloud concentration detection possibility by earth shadow 10 p1601 A71-24449
- Fe meteorite Grant, measuring radial distribution of cosmogenic nuclides of K, Ca, Ti, V, Cr and Mn produced by cosmic rays 11 p1819 A71-25224
- Radial load effects along length of hinged cylindrical shell for maximum displacement positions, using trigonometric Fourier series 11 p1850 A71-25942
- Plasma instabilities under radial magnetic field effects across homogeneous field, considering oscillation modes 12 p1934 A71-26749
- Radial distribution of electric potential in Penning discharge based on relation between sulfur hexafluoride negative ions transit time and initial energy 13 p2107 A71-28852
- Gas particle radial reflection model application to hypersonic nearly-free molecular flow about convex bodies, solving steady state problem 13 p1991 A71-29153
- Pioneer 9 interplanetary observations, presenting deep space data for solar rotations and radial gradient in VLF electric field behavior 13 p2064 A71-29163
- Modular digital TDM switch for radially distributed clock synchronization, discussing design and control 13 p2034 A71-29318
- Axisymmetrical dense plasma, calculating radiation intensity radial distribution with approximate method 15 p2459 A71-32458
- Electrical conductivity of lunar rock, considering radial variation of bulk composition with oxygen loss in outer layers due to thermal cycles and vacuum 16 p2634 A71-33388
- Stresses in smooth circular cylindrical shell under radial local load applied on small area 17 p2828 A71-35303
- Plasma confinement in injector-diverter system of stellarator, measuring radial density distribution 19 p3109 A71-37131
- Radial temperature profiles of long induction discharge in argon at atmospheric pressure 19 p3111 A71-37579
- Hydrogen near-critical point flow in heated cylindrical tube, measuring flow parameters radial profiles by combination pitot tube/thermopile/hot-wire sensor probe [ASME PAPER 71-HT-25] 19 p3165 A71-37995
- RF magnetic field radial distribution measurement in thermal argon induction plasma flame 20 p3273 A71-38841
- Electric discharge carbon dioxide laser gas temperature, electron and current densities radial distribution from mathematical model 20 p3242 A71-38844
- High pervance three electrode electron gun with longitudinal compression, examining beam profiles and radial current density distributions 20 p3204 A71-39161
- Radial distribution of electric potential in Penning discharge based on relation between sulfur hexafluoride negative ions transit time and initial energy 21 p3425 A71-41281
- Radial electric field and electrostatic potential in solar wind from two fluid model 22 p3592 A71-41921
- Dynamic model for Saturn rings radial structure, considering outside composition material, Titan perturbation effect and particle space density 22 p3603 A71-42186
- Muon showers underground phenomenology in terms of density spectra, shower size and radial density distributions 22 p3594 A71-42407
- Cylindrical electromagnetic wave amplification in TWT with radial line and diverging electron flux 22 p3524 A71-42752
- Temperature field profiling along radius in front of gas turbine stage, applying to regeneratively cooled turbine engine 24 p3864 A71-45011
- RADIAL FLOW**
- Compressible flow similarity parameters, establishing dimensionless relations for radial turbomachines design 03 p0343 A71-13830
- Three dimensional nonboundary layer laminar radially inward incompressible Newtonian fluid flow between corotating disks, using integral method [ASME PAPER 70-WA/FE-4] 03 p0402 A71-14126

Anomalous low magnetospheric He alpha/proton flux ratio in terms of electrostatic radial diffusion taking into account charge exchange and pitch angle loss processes 06 p0964 A71-17284

Gas turbine cascade radial gap inverse heat transfer, calculating release coefficients 06 p1006 A71-18002

Magnetically confined laser produced plasma radial oscillations, deriving equation of motion for expanding boundary [AIAA PAPER 71-108] 06 p0938 A71-18558

Two axisymmetric jets impingement in fluid amplifiers, discussing velocity profiles of radial jet 07 p1029 A71-20592

Radial flow energy losses in rotating cylindrical cascade of inward-flow turbine wheel, determining profile losses and exit blade angle 08 p1349 A71-22044

Axial-radial and radial compressor stage optimum exit blade angle, considering flow rate control by variable pitch nozzle guide vanes 08 p1230 A71-22049

Unsteady inward and outward velocities of subsonic radial air flow between two disks, using hot-wire anemometer and cylindrical wave equation 10 p1550 A71-24000

High pressure ratio radial outflow compressor analysis, design, construction and testing 10 p1550 A71-24217

Galactic wind as steady radial perfect gas flow from stars and central gravitating source 11 p1818 A71-25207

Viscous liquid unsteady flow in long circular tube as function of mean velocity distribution, discussing radial flow and pressure distribution 11 p1749 A71-25268

Flow variation effect on velocity and flow angle distribution at exit of shrouded radial flow impeller with backward swept blades, using streamline curvature method [ASME PAPER 71-GT-15] 11 p1703 A71-25961

Two dimensional flow in radial turbomachine bladed impeller, comparing numerical solution based on potential theory with experimental results [ASME PAPER 71-GT-20] 11 p1703 A71-25964

Quasi-three dimensional method for radial flow compressor blade loadings computation, presenting combined meridional plane and blade to blade solutions for adaptation to computer [ASME PAPER 71-GT-60] 11 p1704 A71-25982

Gas dynamic test assemblies experiments for demonstrating theoretical basis of supersonic nozzle design with radial flow section 13 p1992 A71-29173

Nondimensional entrance loss equation for radial turbulent flows without swirl between parallel disks 14 p2226 A71-30415

Incompressible laminar flow between rotating and stationary disks with small gap width and radial mass flow, using Navier-Stokes and continuity equations 15 p2387 A71-31168

Gas flow behind cylindrical nozzles at roots and along periphery for narrow blades, using radial equilibrium equation 16 p2521 A71-33617

Laminar flow in incompressible fluid between rotating disk and fixed wall at small distances with radial mass stream, using finite difference method for Navier-Stokes equations 17 p2726 A71-34581

On-design performance characteristics of radial gas turbines, investigating blade geometry, rotor losses and pressure ratio effects 19 p3123 A71-38269

Motor starting techniques for 2-15 kW Brayton space power system with turbine driven radial flow compressor and Lundell type alternator 20 p3180 A71-38911

Laminar-turbulent inverse transition in divergent radial flow between two parallel flat disks 21 p3366 A71-40101

Radially symmetric shocked flows computation method, using momentum equation in conservation form in original Cartesian coordinates 21 p3368 A71-40848

Inclined radial jet drive systems for noiseless gas bearings, comparing with turbine drive device 22 p3553 A71-41681

Flow acceleration coefficient effect at inlet on centrifugal compressor wheel characteristics during axial-radial rotation 23 p3626 A71-43553

RADIAL VELOCITY

Stellar distances inaccuracy effects on kinematical parameters estimation from radial velocities 04 p0643 A71-14907

Fabry-Perot etalon and focal reducer parameters for extragalactic radial velocities measurement, comparing optical mountings 04 p0593 A71-14909

Thermal variations of all-glass and air-gap Fabry-Perot etalons for radial velocities measurement, discussing resolution 04 p0593 A71-14910

Ghost images due to reflection between interference filters and Fabry-Perot etalons during measurement of radial velocities

04 p0593 A71-14911

Stellar radial velocity measurements using Doppler shifted absorption lines, discussing cluster stars

04 p0646 A71-15227

Binary star radial velocity measurement, discussing formation, evolution, motion frequency and H-R diagram

04 p0647 A71-15242

White dwarf data, examining continuous energy distribution, degenerate star theory, mass-radius relation, spectra, radial velocities and Einstein shift

04 p0648 A71-15244

OH absorption line measurements for longitude range near galactic center, suggesting existence of radial velocity gradient

04 p0657 A71-15760

Plasma jet radial velocity distribution measurement by probe technique, calculating current density from azimuthal magnetic field via Maxwell equation [DPVLR-SONDDR-88]

05 p0788 A71-16643

Galaxy cluster expansion theory, noting dispersion in radial velocities of members

05 p0812 A71-16694

Changing rotational velocity recording device for vestibular apparatus tests, examining stimulus reaction speed

05 p0714 A71-16810

Atlas of 21 cm H I emission line profiles of outer part of Galaxy in Galactic anticenter region, plotting brightness temperature vs radial velocity

06 p0964 A71-17348

Double galaxies mass distribution from pair components motion dependence on radial velocity

06 p0966 A71-17750

Radial velocity distribution-magnetic fields connection in solar atmosphere active and quiet regions

06 p0975 A71-18437

Pulkovo observatory six channel two slit single photomultiplier rotating photographic plate magnetograph, for solar spectra polarization and radial velocities observation

07 p1109 A71-19337

Sunspot observations on 3 July and 14 September 1967, examining transverse magnetic field distribution and radial gas velocities and motion with magnetograph

07 p1195 A71-19338

External galaxies radial velocity relationship to extragalactic nebulae spectral lines red shift

07 p1200 A71-20054

Light and radial velocity curves of binary HD 175514, obtaining spectroscopic and photometric orbital elements

07 p1204 A71-20633

Solar disk active region gas development radial velocities on two levels /4 July 1966/, using double magnetograph

07 p1205 A71-20636

Galactic optical radial velocity measurements compared to 21 cm red shifts derived velocity

08 p1357 A71-20873

Zeta Aurigae chromospheric lines observed radial velocities mean variations, taking into account H ion gas acceleration, K star mass ejection and rotation

08 p1364 A71-21417

Quasi-radial hypervelocity approximation of rotating azimuthally dependent solar wind under magnetic field

09 p1515 A71-23709

Sunspot group magnetic field distribution and radial velocities, investigated at H alpha and 6302.499 A atmospheric levels

10 p1666 A71-23788

RR Lyrae type variable star statistical population indices evaluation based on space and radial velocities and position

11 p1820 A71-25247

Atmospheric wind velocity radial components measurements for meteor drift as function of wind direction, using transmitter and receiver antennas synchronized orientation method

11 p1758 A71-25791

Radial velocity fields-magnetic fields relationship in solar atmosphere active and quiet regions

12 p1955 A71-26587

Hercules galaxies cluster rotation, determining radial velocities, axis position angle and center position

12 p1962 A71-26911

Laminar source flow between rotating parallel porous disks with equal suction/injection rates solved for infinite radius series, discussing radial velocity and shear stress distributions

12 p1896 A71-27052

Nonlinear limit rotation velocity and circulation induced by wheel in axial flow turbomachine for incompressible ideal fluid, using iterative numerical algorithm [ONERA-TP-946]

12 p1866 A71-27715

Solar active region photospheric radial velocity field time variations, using magnetograph in Fe I line

14 p2308 A71-29977

Visual binary stars spectroscopic observations, discussing spectra, luminosity, parallax and radial velocities of mass center and individual stars

14 p2311 A71-30365

Radial velocity differences between components of close visual binary stars by spectroscopic and oscilloscopic measurements

14 p2311 A71-30366

Visual binaries high resolution spectroscopy, obtaining radial velocity changes with Coude spectrograph

14 p2311 A71-30368

White dwarfs from Catalog of Nearby Stars, indicating radial and tangential velocities, proper motions, positions luminosity and UVB spectra

14 p2317 A71-31009

Galactic clusters characteristics tabulation and statistical analysis, calculating dimensions, luminosity and radial velocities dispersion

17 p2804 A71-34841

Solar atmosphere mean radial velocity relation to low excitation potential based on Fraunhofer lines blue shifts observations

17 p2808 A71-35576

Supermassive double galaxy spectrographic and photometric data for cluster Abell 1775, showing radial velocity difference, visual magnitude and mass estimates

18 p2969 A71-37041

Wavelength table for determination of stellar radial velocities in spectral classes F6-M2, including Hyades cluster and Coma Berenices

19 p3144 A71-38168

Hydroxyl emission at T Tauri stars positions in Taurus-Auriga region, discussing radial velocities of stars and dust clouds

19 p3144 A71-38172

Orbital elements of W Ursae Majoris systems, considering radial velocity curves, spectroscopic orbital solution, spectral peculiarities and spectrophotometry

20 p3300 A71-39820

Radio observation for radial velocities in center region of Perseus cluster of galaxies

21 p3445 A71-40408

Spectroscopic radial velocity study of Algol eclipsing variable stars, deriving masses and apsidal motion evidence in short period orbit

21 p3446 A71-40418

B star in galactic north pole region, noting high radial velocity

21 p3448 A71-40517

Atmospheric wind velocity radial components measurements for meteor drift as function of wind direction, using transmitter and receiver antennas synchronized orientation method

22 p3533 A71-41559

H II regions kinematic properties in Large Magellanic Cloud, presenting emission line profiles and radial velocities

23 p3723 A71-42939

RADIANCE

Laser data on coherence and radiance, deriving from manufacturer specifications for application selection

02 p0261 A71-12325

Polarization and sky radiance data before, during and after 7 March 1970 solar eclipse

03 p0425 A71-13688

Mutual information between radiance of incoherently radiating object plane and field of observing system aperture, obtaining Shannon type formula

04 p0627 A71-15684

Optically thick clouds reflected light radiance and polarization for haze and nimbostratus models

05 p0781 A71-16252

Strongly coherent Nd doped glass laser development by decreasing cavity Fresnel number, discussing maximized radiance and infrared output

09 p1465 A71-23564

Graphite arc radiance temperature measurements with submillisecond resolution, using high speed photoelectric and photographic pyrometers

12 p1905 A71-26812

Earth radiance analysis by IR interferometric spectrometer of Nimbus 3 satellite, noting cloud cover as dominant variable

18 p2912 A71-36065

Earth IR radiance at 5-20 microns from interferometric spectrometer /IRIS/ aboard NIMBUS 3 satellite

18 p2912 A71-36101

Earth upper atmosphere outgoing thermal radiation radiance calculation in near IR spectrum

19 p3054 A71-37968

Global atmospheric ozone distribution from inverted radiance measurements by IR interferometer spectrometer onboard Nimbus 3 satellite

20 p3220 A71-39668

Nimbus 2 satellite observed 6.7 micron water vapor radiation, compared to calculated radiances

21 p3373 A71-40224

RADIANT COOLING

Tropical storms and cyclones development numerical simulation with ten-level model, considering radiational cooling and physical parameters effects

03 p0453 A71-14202

Nongray absorption and radiation cooling on smooth symmetric blunt bodies included in modified Maslen flow field method for radiation and large blowing

[AIAA PAPER 69-637]

05 p0694 A71-16566

Evolutionary cooling sequences and lifetimes for low mass white dwarfs in Hyades cluster, considering near surface convection in models with hydrogen envelopes

07 p1190 A71-18856

Optimal shape of single radiative cooling elements without self irradiation relative to cross sections and linear generatrices of radiator

13 p2165 A71-29179

Low density collisionally ionized plasma at equilibrium, calculating permitted, forbidden and semiforbidden radiative cooling coefficients

15 p2460 A71-32776

Radiative cooling system for nearly spherical or polyhedral bodies using radially attached diverging conical elements

17 p2836 A71-34307

Aerodynamic heating of reentry vehicle, suggesting shielding by radiative cooling

18 p2848 A71-36432

Heat shields for space applications, reviewing heat sinks, double wall cooling techniques and radiative, transpiration and ablation cooling systems

18 p2848 A71-36433

Generalized radiation cooling of convex solid, demonstrating existence of unique stable positive solution to boundary value problem related to temperature distribution

21 p3477 A71-41184

Thermal radiative cooling system characteristics determination allowing surface material thermal conductivity and blackness degree dependence on temperature

23 p3782 A71-43919

Space vehicle radiative cooling system rib temperature field calculation, taking into account material heat conductivity temperature dependence

24 p3889 A71-45023

RADIANT FLUX DENSITY

NT ELECTRON FLUX DENSITY

NT ILLUMINANCE

NT IRRADIANCE

NT LUMENS

NT LUMINANCE

NT LUMINOUS INTENSITY

NT NEUTRON FLUX DENSITY

NT PARTICLE FLUX DENSITY

NT PROTON FLUX DENSITY

NT RADIANCE

NT SOLAR CONSTANT

NT SOLAR FLUX DENSITY

Radiometric temperature measurement via source radiated power/photon flux ratio, using Planck equation variation

01 p0178 A71-10140

Galactic EM energy radiation, discussing flux upper limits in Low model

01 p0153 A71-10364

Laser light statistical properties, emphasizing time evolution of density matrix equation

01 p0094 A71-10811

Limb flares relationships to solar soft X ray bursts intensity growth phase

01 p0144 A71-10868

Solar hard X ray absorption in D region, calculating integral flux radiation

01 p0145 A71-11076

Supernovae positrons and low energy cosmic rays flux, determining ejected matter plasma properties

01 p0145 A71-11338

Diffuse galactic X ray background intensity as function of galactic scattering and discrete sources

01 p0145 A71-11345

He-Ne discharge regular oscillations effect on laser output power

02 p0259 A71-11930

Solar cell array for high radiation intensity application in Helios solar probe

02 p0191 A71-12068

Long wave radiation fluxes calculation in troposphere based on principal radiant heat transfer components separation

02 p0277 A71-12117

Spherical nebula BESM-3M radiation intensity fluxes, calculating optical thickness, particle albedos and light scattering indicatrices

02 p0312 A71-12359

Solar flare classification based on X ray intensity, offering geophysical significance advantages [AIAA PAPER 70-1370]

02 p0301 A71-12697

Hydrogen Lyman alpha radiation intensity and atmospheric absorption before and during solar eclipse of 20 May 1966, considering D region ion production

03 p0407 A71-13376

Solrad 8 satellite monitoring of Lyman alpha and UV radiation, discussing flux variation at 1080-1350 Å 03 p0479 A71-14043

Forbush decreases vertical cutoff rigidity dependence, comparing cosmic ray intensities from Pioneer 8 detector and ground based neutron monitors 03 p0481 A71-14501

Cosmic ray data, showing perpendicular density gradient to ecliptic plane 03 p0482 A71-14547

Radiation intensity produced by inverse Compton effect between solar flux and Van Allen belt trapped high energy electrons 04 p0640 A71-14875

Intensity correlation functions as parameters for cosmic radiation activity 04 p0640 A71-15086

Pulsar radiation intensity time variations at radio frequencies, noting observations of CP 1133 04 p0649 A71-15273

Crab Nebula pulsar NP 0532, examining radio pulse shapes, flux densities and dispersion 05 p0800 A71-15926

Gamma radiation flux distribution and spectral composition by satellite observation, analyzing background effects 05 p0798 A71-16047

Near space annihilation gamma radiation intensity and spectral energy composition by satellite observation, considering possible antimatter nature of comets and meteor streams 05 p0798 A71-16048

Si solar cell low temperature low solar illumination intensity I-V performance deficiencies, considering corrective design modifications 05 p0701 A71-16073

Helios solar probe satellite solar array techniques for high temperature and illumination intensity 05 p0702 A71-16080

X ray source Sco X-1 gamma radiation due to Compton synchrotron process, comparing flux observation for synchrotron origin validity 05 p0799 A71-16476

Chemiluminescent NO-O reaction spectral radiant intensity and absolute rate constant redetermination in premixed gaseous free jet and hydrogen flame atmosphere 05 p0837 A71-16568

Forbush midlatitude microdecreases effects on diurnal cosmic ray intensity, using neutron monitor 05 p0799 A71-16624

H II regions compact radiation sources flux densities observation at centimeter wavelengths 05 p0812 A71-16690

North Galactic Pole soft X ray flux measurements, using Teflon windowed proportional counter 05 p0799 A71-16699

W, Nb, Mo and Ta spectral radiative power at wavelengths from 0.66 to 5.12 μm at various high temperatures 05 p0768 A71-16780

Semidiurnal variation of galactic cosmic ray intensity, using neutron and meson monitor data 05 p0800 A71-17008

Atmospheric path effects on spectral radiance intensity in remote airborne multispectral sensors 06 p0898 A71-17559

Absolute intensities measurement method for spectrum of solar disk center at 2962-4087 Å 06 p0967 A71-17902

Interplanetary cosmic ray gradients and anisotropies from Pioneer 8 probe 06 p0952 A71-18111

Solar cosmic ray intensity yearly variation by pressure corrected neutron monitor, discussing atmospheric temperature effects, coronal emission heliolatitude distribution and annual wave amplitude 06 p0953 A71-18117

Solar activity correlation with cosmic ray intensity and solar wind properties, analyzing hysteresis diagrams for wind modulation characteristics dependence on heliolatitude 06 p0954 A71-18123

Cosmic ray mu meson intensity power spectrum frequency dependence, comparing to interplanetary field spectra 06 p0954 A71-18125

Cosmic ray intensity variations from magnetic fields of micrometeor streams in interplanetary plasma 06 p0954 A71-18126

Cosmic ray solar modulation anisotropy during 23 March 1966, 25 May 1967 and 26 January 1968 events in preForbush phase, evaluating multidirectional meson observations 06 p0956 A71-18138

Cosmic ray intensity Forbush decrease on 23 September 1966 coincidence with magnetic storm sudden commencement from satellite and ground based monitors data 07 p1184 A71-18750

Vertical planes at various points on lunar surface, calculating radiant energy fluxes 07 p1191 A71-18906

Planetary atmospheres radiant energy fluxes, developing validity of isolated line approximation in finite spectral intervals 07 p1191 A71-18908

Backscattered radiation energy during laser beam scanning of diffusely scattering surface 07 p1123 A71-19309

Atmospheric refractive index diurnal and seasonal variations determination by measuring He-Ne laser radiation intensity through turbulent inhomogeneous atmosphere 07 p1061 A71-19374

Electromagnetic and thermal energy fluxes during magnetic storms, using interplanetary spacecraft and D variation data 07 p1099 A71-19397

Cosmic ray intensity mean diurnal variation, taking into account angle between solar corotational velocity and earth equatorial plane 07 p1187 A71-19683

Near equilibrium shock layers nonequilibrium radiant emission calculation, noting application to Mars entry conditions [AIAA PAPER 70-773] 07 p1091 A71-19914

Laser beam evaporation of dense substances, examining luminous flux densities with gas dynamic equations 07 p1127 A71-20253

Radio telescope measurements of circular polarization and total flux of Jupiter at 13.1 cm wavelength 08 p1357 A71-20871

Long term fluctuations in pulsar radiation intensity due to interstellar scintillation 08 p1359 A71-20935

Low energy cosmic X ray observations, examining diffuse background and absolute flux values 08 p1349 A71-20936

Primary gamma radiation flux measurement, using spark chamber on satellite 08 p1350 A71-20954

Cosmic ray modulation processes, spectrum variation and intensity restoration delay, discussing solar activity indices and wind models 08 p1351 A71-20965

Interplanetary space cosmic ray density gradient from three dimensional anisotropic diffusion model 08 p1352 A71-20970

Galactic cosmic ray density space-time variations in interplanetary space with solar wind, using spherically symmetrical model with diffusion approximation 08 p1352 A71-20974

Galactic cosmic ray density modulation by solar wind, assuming heliolongitudinal asymmetry 08 p1353 A71-20975

Solar activity heliolongitudinal distribution effect on interplanetary space electromagnetic conditions governing galactic cosmic ray intensity 08 p1353 A71-20977

Cosmic ray intensity annual variations relationship to heliolongitudinal solar activity index HL, providing hysteresis curves for effective angular width parameter estimation 08 p1353 A71-20978

Atmospheric excess radiation flux azimuthal asymmetry in equatorial region, discussing angular intensity distribution data from Proton 2 Cerenkov counter 08 p1354 A71-21011

Solar X-ray flare region structure and emission flux density and spectral composition, using satellite-borne photometers and spectroheliographs 08 p1354 A71-21014

Aircraft altitude cosmic ray intensity measurements in lower atmosphere by neutron monitor, considering long term nucleonic intensity variations 08 p1355 A71-21629

Low energy cosmic ray intensity increase at propagating interplanetary shock wave front, discussing one dimensional model with particles undergoing convection and diffusion 08 p1356 A71-21630

Solar radiation flux standard instruments development for meteorological measurements, discussing calorimetric techniques and high precision radiometers 08 p1293 A71-21737

Radio source OZ-252 radiant flux density spectrographic observation, noting quasi-stellar object emission spectra 09 p1516 A71-22065

Radiant flux diffraction effectiveness of amplitude holograms with allowance for nonlinearity of photomaterial 09 p1442 A71-22400

Interplanetary magnetic field inhomogeneities structure from galactic cosmic rays intensity fluctuations observation 09 p1513 A71-22424

Primary cosmic gamma-quanta fluxes measured using telescope consisting of Cerenkov counters 09 p1513 A71-22556

Solar activity effects on midlatitude upper atmosphere corpuscular radiation intensity studied by rocket sounding 09 p1513 A71-22580

Cosmic ray and radiation belt data from vertical probes, determining radiation in instantaneous cross section of atmosphere 09 p1513 A71-22666

Optimum mounting angles for direct solar radiation flux on solar battery on circular orbit satellite 09 p1386 A71-22673

Predicted UV fluxes for main sequence stars, comparing stellar observations with models described by Kucz, Carbon and Gingerich 09 p1522 A71-22962

Giant elliptical galaxy Maffei I continuous radiation emission data at 1415 MHz, examining radio luminosity magnitude 09 p1523 A71-22982

Earth intrinsic radiation flux incident angular coefficient, examining effect on partially screened flat spacecraft elements 09 p1546 A71-23154

Solar surface radiation brightness and intensity for different disk regions and wavelengths 09 p1526 A71-23419

Soft X ray radiation correlations to radio emission flux at various frequencies in 20th solar activity cycle 09 p1515 A71-23529

Balloonborne radiometric instrumentation for solar and thermal radiations upward and downward flux measurements, discussing net radiation balance as function of solar elevation 09 p1515 A71-23558

Interplanetary shock waves sounding and geomagnetic storm forecasting based on cosmic ray intensity increases from ground observations 09 p1515 A71-23633

Twenty-seven day variation and cosmic ray intensity modulation relationship, examining 11 year variation from superposition of transient decreases 10 p1660 A71-23800

Flux density measurements of Ohio radio source survey at 1415 MHz compared with 1400 MHz measurements by Australian National Radio Astronomy Observatory telescope 10 p1668 A71-23881

Intensity variations of Cygnus X ray sources, analyzing high resolution results of Adelaide and Tasmania universities 10 p1661 A71-23882

Negative sudden phase anomalies, related signal strength enhancements and short wave fadeouts, considering maximum flux density of solar X-ray flares 10 p1575 A71-23883

Neutrino luminosity in strongly magnetized degenerate relativistic electron gas plasma from URCA energy loss rate calculations 10 p1671 A71-24303

Polar cap cosmic radiation intensity measurement for deducing electromagnetic conditions near earth and in interplanetary space 10 p1661 A71-24310

Spherical harmonics differential approximation generalized from one dimensional radiation specific intensity angular dependence Jacobi polynomial expansion 10 p1696 A71-24536

Extensive air showers and multiple muons frequencies, considering parent pions mean transverse momentum, multiplicity law form and primary cosmic ray intensity 10 p1664 A71-25046

Horizontal electric dipole gain dependence on height above plane lossy earth, deriving radiation intensity expression from Hertzian potential integral representation 11 p1730 A71-25249

Solar X-ray and radio fluxes at earth for high order temperatures by free-free transitions and Maxwell electron velocities in corona 12 p1947 A71-26770

Universe UV radiation intensity, estimating inverse Compton effect interaction of cosmic relativistic electrons with relict radiation 12 p1948 A71-27079

Earth surface formations and clouds angular brightness distribution based on reflected solar radiation intensity 12 p1901 A71-27102

Cosmic ray storm analysis, showing enhanced daily/shortlived variations, radiation intensity increase and solar flare observations 12 p1949 A71-27375

Cosmic radiation nucleonic component intensity diurnal variations relation to solar activity semiperiod 12 p1950 A71-27378

Soft solar X-ray bursts characteristics, discussing temporal and intensity differential distributions, flux measurements and decay time 12 p1953 A71-27654

Uniformly spaced linear arrays directivity as function of spacing, scan angle and current distribution, approximating element radiation intensity 13 p2028 A71-28000

Radiation intensity spatial dependence on laser polarization, giving three dimensional model for wave function phase calculation 13 p2077 A71-28046

- Transverse mode locking effect on radiation intensity of injection semiconductor laser as function of time and p-n junction refractivity 13 p2077 A71-28172
- Sky radiation background stellar component in far UV spectral region, determining intensity with Venera instruments 13 p2133 A71-28200
- Cosmic ray density distribution inside modulating spherical cone over long-lived solar wind regions, noting modulation depth quasi-periodic variation 13 p2129 A71-28550
- F 2 layer critical frequency variations relation to solar radio flux intensity, using mathematical approximations 13 p2062 A71-28557
- Long term pulsar intensity observations, noting periodic variations and power spectrum analysis 13 p2143 A71-29270
- Galactic cosmic ray intensity solar diurnal and semidiurnal variations outside magnetosphere 13 p2131 A71-29437
- Photometric IR observations of Nova Serpentis 1970, showing visual flux decrease 14 p2303 A71-29576
- Interstellar grain temperatures, considering radiant energy distribution and optical properties effects 14 p2305 A71-29679
- Magnetic cutoff variations during geomagnetic storm from counting rates of neutron monitors, noting cosmic ray intensity augmentation 14 p2298 A71-29748
- Flux estimates of gamma quanta with energies of 5 TeV from celestial objects due to bremsstrahlung and inverse Compton scattering of relativistic electrons 14 p2299 A71-29985
- Solar radio emission at 3.15 cm wavelength via 22-meter radio telescope, determining relation between source brightness and areas of sunspot groups 14 p2299 A71-29990
- Aries-Taurus region as soft X ray source, determining energy flux and source 14 p2301 A71-30426
- M87 nucleus radio flux density variations observation at 5 GHz 14 p2301 A71-30451
- Primary cosmic rays spectrum and intensity data in 4 to 10 BeV range, evaluating albedo particle effects 14 p2301 A71-30590
- High energy X ray flux from source in Centaurus Crux detected by balloon sounding 14 p2303 A71-30654
- Rapid fluctuations in high energy X ray flux from source in Centaurus Crux from balloon sounding 14 p2303 A71-30655
- Noise measurements on discrete radio sources spectra, studying Cas A and Cyg A flux density ratio 14 p2316 A71-30975
- Far zone field and radiated power equations for corner driven traveling wave loop antenna in warm plasma, comparing data for Ariel 3 satellite 14 p2283 A71-31040
- Positions and flux densities of radio sources from Fourth Cambridge catalog by pencil beam measurements at 408 MHz, using Molonglo telescope 15 p2485 A71-31697
- Cosmic ray mean intensity drop observation after Forbush decrease, noting rigidity dependence and daily variation from exponential recovery curve 15 p2474 A71-31777
- Cosmic ray intensities investigation by worldwide neutron- and supermonitors network, obtaining density and three dimensional current values 15 p2478 A71-31807
- Isotropic cosmic gamma ray flux, discussing extragalactic point sources detection by high resolution spectrometers 15 p2478 A71-31837
- VLF atmospherics integrated intensities changes probably due to ionization by meteors 15 p2371 A71-31839
- Cosmic ray intensity gradient measurement from Lost City meteorite Ar 37/Ar 39 ratio 15 p2479 A71-32361
- Axisymmetrical dense plasma, calculating radiation intensity radial distribution with approximate method 15 p2459 A71-32458
- Solar microwave bursts spectrum, calculating maximum radiation fluxes and frequencies from statistical data 15 p2480 A71-32749
- IR stars and galaxies measurements, determining 3.5 mm continuum radiation intensity 15 p2498 A71-32775
- Rayleigh scattering planetary atmosphere radiative transfer equation, calculating phase curves for flux and polarization 15 p2498 A71-32778
- Radiation flux calculation and divergence in regions with stepwise temperature and chemical composition distribution 16 p2661 A71-32798
- Cosmic ray annual intensity variations indicating gradient perpendicular to solar equatorial plane 16 p2625 A71-32801
- Equatorial airglow enhancement data, observing 6300 and 5577 A intensity variations 16 p2562 A71-32809
- W, Nb, Mo and Ta spectral emissive power at wavelengths from 0.66 to 5.12 μ m at various high temperatures 16 p2591 A71-33032
- Cygnus-X region radio photography, presenting radio brightness intensity modulated display supplementing contour map 16 p2630 A71-33124
- Pulsating gamma ray flux from pulsar NP 0532 in energy range from 250 keV to 2.3 MeV 16 p2626 A71-33389
- Gamma radiation flux distribution and spectral composition from Cosmos satellite observation, analyzing background effects 16 p2626 A71-33451
- Near space annihilation gamma radiation intensity and spectral energy composition by Cosmos satellite observation, considering possible antimatter nature of comets and meteor streams 16 p2626 A71-33452
- Upper atmosphere atomic hydrogen H sub alpha emission, correlating intensity and hydroxyl vibration temperature 16 p2564 A71-33665
- Ionospheric geocoronal L sub alpha emission intensity related to solar activity level from Cosmos 215 satellite data 16 p2564 A71-33667
- Background phonon X ray and gamma quanta intensities dependence on solar activity from Geiger counter recordings in outer space 16 p2626 A71-33675
- Optically dense plasma spectral characteristics, calculating reabsorbed line intensity distribution 16 p2619 A71-33707
- Altitude variation of forbidden line of 5577 A and 3914 A auroral emissions intensities ratio from rocket sounding 16 p2566 A71-33748
- Corpuscular flux intensities in upper atmosphere from meteorological rocket measurements in polar arctic region, discussing altitude-time dependence 16 p2627 A71-33777
- Solar modulation origin of sidereal diurnal variation in cosmic ray intensity anisotropies as function of interplanetary field direction, using underground muon telescopes 16 p2628 A71-33931
- Pulsating auroral patches with sudden intensity dependent spatial expansion, noting relation to triggering instabilities of precipitating electron beam 16 p2573 A71-33954
- Cyg X-1 X ray intensity and energy spectrum variation data, using balloon-borne telescope 16 p2629 A71-34076
- Pulsar emission data, presenting average phase shapes and pulse to pulse intensity fluctuations 17 p2797 A71-34372
- Large amplitude periodic X ray pulsations from Centaurus X-3, observing abrupt source intensity and pulse rate changes 17 p2798 A71-34375
- Convective flow at stagnation point relation to radiation flux decrease as result of absorption in cold boundary layer 17 p2671 A71-35259
- Critique of Vela 4 scattered Lyman alpha experiment, discussing maximum flux region and radiation intensity 17 p2805 A71-35380
- Extragalactic objects luminosity upper limits in hard gamma ray band, using Cosmos 208 scintillation Cerenkov telescope 17 p2796 A71-35736
- Gas flow energy transport, discussing thermal radiation, radiant flux density, planetary atmosphere entry, thermodynamic equilibrium and differential approximations 18 p2847 A71-36426
- Supermassive double galaxy spectrographic and photometric data for cluster Abell 1775, showing radial velocity difference, visual magnitude and mass estimates 18 p2969 A71-37041
- Optically identified B2 radio sources at 5 GHz, presenting flux density measurements, spectral index and visual identity 18 p2970 A71-37066
- Discrete galactic and extragalactic radio sources observations at 3.3 mm, detailing flux and variability measurements 18 p2970 A71-37067
- Light curve and apsidal motion of AR Cas from photoelectric photometry 18 p2971 A71-37069
- Universe UV radiation intensity, estimating inverse Compton effect interaction of cosmic relativistic electrons with relict radiation 19 p3126 A71-37429
- Electromagnetic and thermal energy fluxes during magnetic storms, using interplanetary spacecraft and D variation data 19 p3053 A71-37821
- Radiation energy density and radiation heat flux in small rectangular cavity, assuming modes excitation spectrum according to Planck distribution function [ASME PAPER 71-HT-16] 19 p3164 A71-37987
- NO, CO and Ar mixtures IR spectral emission radiant intensities behind shock tube generated reflected shock waves 19 p3012 A71-38087
- Earth radiation flux spectral intensity measurements, noting latitudinal distributions, day and night variations and oceanic and continental curves 19 p3056 A71-38355
- Power density prediction based on electromagnetic compatibility analysis of radar environments, comparing predicted propagation losses with measurements 19 p3021 A71-38455
- Peak optical flux density for catastrophic damage in close confined and double heterojunction injection Al-GaAs-GaAs lasers 19 p3075 A71-38507
- True central intensities of Fraunhofer lines, describing solar telescope and Czerny-Turner spectrometer 19 p3146 A71-38661
- Solar limb D3 He line intensity distribution measurements during eclipse of 22 September 1968 19 p3147 A71-38666
- Stray-light and sunspot intensity measurements of sunspot umbra and aureole during Mercury transit 19 p3147 A71-38668
- Sunspot intensity during 9 May 1970 Mercury transit with corrections for scattered light from solar limb observations 19 p3147 A71-38669
- Stray radiant flux effects on scanning IR radiometer for low temperature objects measurement 19 p3067 A71-38706
- Forbush decreases comparison with 11 year cosmic ray intensity variation, examining rigidity dependence and modulation functions 20 p3277 A71-38742
- Pulsar periods change rate and radio luminosity decay, discussing magnetic field braking 20 p3286 A71-38762
- Crab pulsar NP 0532 low energy gamma radiation emission data, observing flux ratios and pulsations 20 p3278 A71-39109
- Cygnus XR-1 X ray intensity fluctuations, discussing time scales and periodicities 20 p3278 A71-39111
- Daylight photometric flux derivation from filtered measurements of global sun and sky radiant energy, using natural illumination and short wave radiation relationship 20 p3234 A71-39175
- Automatic single beam recording spectroradiometer system for measurements of spectral irradiance, radiance, transmittance and reflectance 20 p3235 A71-39176
- Sunspot number relationship with solar radio flux, using cross spectral method for high and moderate activity periods 20 p3279 A71-39324
- Gamma ray production by pulsar-emitted particles interaction with surrounding nebula matter, investigating radiation intensity time variation 20 p3279 A71-39325
- Atmospheric excess radiation flux azimuthal asymmetry in equatorial region, discussing angular intensity distribution data from Proton 2 Cerenkov counter 20 p3279 A71-39591
- Solar X-ray flare region structure and emission flux density and spectral composition, using satellite-borne photometers and spectroheliographs 20 p3280 A71-39594
- Short wave radiation fluxes estimation for earth-atmosphere system from Cosmos satellite data, studying brightness field angle structure 20 p3260 A71-39681
- Mesospheric soft corpuscular radiation flux and temperature rocket observations, during solar flare activity 20 p3222 A71-39704
- Primary cosmic rays high energy gamma ray intensity spectrometric measurements onboard Cosmos 208 satellite, allowing for charged particles effects 20 p3283 A71-39753
- Trapped protons flux vs L profile measurement onboard sounding rocket near equator, comparing results with calculation from neutron albedo source and atmospheric losses 20 p3284 A71-39881
- Rhea and Titan UBV photoelectric observations, obtaining light curve magnitude variation 21 p3440 A71-40056
- Radio telescopic observations of Jupiter, Venus and radio source 3 C 273 at 2 and 8 mm wavelengths, determining brightness temperatures and radiation flux densities 21 p3445 A71-40258

Thin-shelled ensemble of noncolliding stars surrounding black hole, calculating spectral flux density and brightness

21 p3446 A71-40420

Seyfert galaxy micron photometry measurements, determining IR radiation flux changes with time

21 p3449 A71-40611

Cen X-3 source X ray flux periodic variations due to white dwarf star radial vibrations based on nonrotating model

21 p3449 A71-40613

Radiant monatomic gas flux boundary conditions derivation, considering all points in local thermodynamic equilibrium

21 p3475 A71-40660

Photometric determination of solar granulation rms intensity fluctuation, using ground telescope

22 p3596 A71-41453

Solar flares gamma ray flux, describing production by downward moving high energy particles

22 p3590 A71-41468

Diffuse 0.2-2 keV cosmic X ray flux, discussing energy spectrum and spatial distribution

22 p3591 A71-41914

Cosmic ray transport in random magnetic fields, deriving coupled integrodifferential equations for radiant intensity and flux

22 p3592 A71-41915

Astronomical polarimetry at 5 and 10 microns for intensity measurements of IR sources

22 p3545 A71-42147

Cosmic ray muons absolute intensity determination, using Durham vertical spectrograph

22 p3593 A71-42353

Variations in 10 micron flux from NGC 1068, noting strong nucleus emission modulation

22 p3605 A71-42397

Southern pulsars pulse energy flux average nightly values at 80 MHz

22 p3606 A71-42602

Astronomical radio sources from Parkes catalog, calculating daily and hourly variations in flux density

23 p3722 A71-42937

Two dimensional maps of circularly polarized solar emission at 7.8 GHz, noting flux density and polarization time dependence before flare

23 p3732 A71-43072

Scorpius X-1 X ray flux observations, noting high frequency oscillations responsible for radiation production

23 p3733 A71-43078

Linearly and circularly polarized electromagnetic field effective scattering surfaces relationships determination as value proportional to reflected and transmitted rms flux density ratio

23 p3644 A71-43285

Radiant flux from finite cylindrical volume to coaxial screen calculated under quasi-homogeneous medium and arbitrary optical thickness assumptions

23 p3782 A71-43920

Planetary nebulae microwave radiation emission survey by Algonquin Radio Observatory, determining flux densities

23 p3769 A71-43988

Mode changing in pulsar radiation, observing intensity profiles and polarization characteristics

23 p3769 A71-43995

Cygnus X1 short term X ray flux pulsation variability from Southern Hemisphere sounding rocket flight

24 p3865 A71-44445

Cloud and precipitation effects on radio echoes intensity measurement, discussing pulse dimensions influence on average signal magnitude

24 p3845 A71-44881

Radio echo average power measurement errors due to clouds

24 p3845 A71-44882

Pulsar CP 0950 radio emission intensity variation measurement, using dispersion removal technique for interstellar medium signal distortion

24 p3871 A71-44903

Ohio catalog radio source spectra and positions, presenting flux density and RMS errors

24 p3871 A71-44913

Laser radiation intensity modulation by time varying magnetic field

24 p3834 A71-45055

Radiation flux induced material dispersion of solid surface, taking into account radiation energy absorption by discontinuity introduction

24 p3835 A71-45225

RADIANT HEATING

F region electrons heating by RF energy at or near ionospheric plasma frequency, detecting temperature changes via optical nightglow intensity variations

01 p0040 A71-11533

Ionospheric modification by electrons radiant heating, discussing effects on 1.27 micron radiation

01 p0078 A71-11534

Ionosphere artificial Joule heating by RF energy, deriving expressions for deposition function frequency dependence

01 p0040 A71-11538

Laminar flow of liquid in duct with zero heat resistance of walls, calculating temperature distribution during radiative convective heating

03 p0519 A71-13745

Temperature field of radiation heated bodies, using analytic method based on backradiation law approximation by linear function with limit error in Stark range

03 p0519 A71-13746

Two dimensional incompressible laminar boundary layer flow along ablative blunt body in irradiant environment

04 p0679 A71-15467

Heat conduction three dimensional problem in radiation heated thin crystalline plates with temperature dependent thermophysical characteristics

05 p0831 A71-16184

Microwave radiation nonthermal biological damage, describing beetle pupae irradiation and radiant heating experiments

11 p1717 A71-25285

Calorimetric determination of reactor gamma source heating as function of specimens thickness and atomic number, discussing slab and cylindrical geometrical effects

11 p1797 A71-26078

Reentry heating simulation, noting UV radiation effects as shock layer thickness decreases

[AIAA PAPER 71-467]

11 p1859 A71-26248

Haze scattering effect on solar radiative heating rate due to water vapor absorption in near IR

17 p2736 A71-35561

Atmospheric radiant heat influx spectral distribution, evaluating vertical profiles of short wave radiation and aerosol effects

19 p3047 A71-37281

Heat conduction effect on propagation of laser radiation absorption shock wave

01 p0092 A71-10068

Hot stellar atmospheres, calculating mean radiation absorption coefficients as function of temperature and electron pressure

01 p0158 A71-10805

Early phase model of F region heating and hydrodynamic expansion by deviative absorption of radio waves

01 p0040 A71-11530

Fat lean cellular and bone mineral mass determination in living bodies, using radiation absorption spectrometry

02 p0210 A71-12954

Ultrasonic absorption in hydrogen sulfide, measuring vibrational and rotational relaxation times as function of temperature

03 p0459 A71-13718

Cosmic rays intensity measurement in deep ocean with Cerenkov counter, determining Muon energy spectrum and absorption in water

03 p0477 A71-13862

Radiation absorbing detonation waves calculation by finite difference techniques based on pseudoviscosities

03 p0439 A71-14064

Visible radiation absorption by aerosol particles, noting gray absorption and imaginary portion of complex index of refraction

04 p0582 A71-15072

Thermal radiation absorbing and emitting medium in flow between parallel plates, examining heat transfer for simultaneous radiation and convection

04 p0685 A71-15517

Solar Lyman alpha radiation absorption by molecular oxygen, examining optical thickness with Intercomos-1 satellite

05 p0807 A71-16214

Nongray absorption and radiation cooling on smooth symmetric blunt bodies included in modified Maslen flow field method for radiation and large blowing

[AIAA PAPER 69-637]

05 p0694 A71-16566

Interaction between radiation from shock wave region and oncoming cold air flow in hypersonic flow past blunt body

07 p1014 A71-19730

Gas laser optical pumping based on photodissociation, calculating spatial temporal distributions of pump radiation absorption probability and main level population

07 p1125 A71-19806

Radiant heat transfer from heated cylindrical enclosure with black/gray walls to absorbing gas or gas having black particles, calculating absorption coefficients

07 p1224 A71-20018

Self focusing in media with resonance absorption, determining simulated Raman scattering threshold in bleachable absorbers as function of absorber concentration

07 p1161 A71-20381

Far IR cryogenic black paints absorptive throughout IR with surface stability at liquid He temperature and resistance to abrasion and flaking

08 p1335 A71-21383

Type 2 and 3 solar radio bursts, discussing models without reabsorption

08 p1356 A71-21755

Middle latitude night E region ionization, describing solar EM and corpuscular radiation absorption effects

08 p1286 A71-21853

Heat conduction effect on propagation of laser radiation absorption shock wave

09 p1464 A71-23263

Xe flash tube discharge saturable absorption effects, using YAG-Nd laser radiation for plasma attenuation measurements

09 p1465 A71-23484

Boundary layer equations for radiating and absorbing gas flow at large Reynolds numbers

10 p1593 A71-24367

Extinction parameters of submicron carbon, tungsten and Si particles in hydrogen measured at various temperatures, discussing scattering amplitude functions and Monte Carlo calculations

[AIAA PAPER 70-838]

11 p1854 A71-25507

HF electromagnetic waves absorption as function of discharge current intensity in ionized H, using gas pressure or uniform magnetic field as parameters

11 p1805 A71-25598

Observational test of Planck constant variation on cosmic scale in terms of radiation absorption by interstellar and intergalactic gases

11 p1832 A71-26183

Low resolution measurements of IR absorption of sulfur dioxide at room temperature

[ASME PAPER 70-WA/HT-4]

13 p2025 A71-28979

Rotational line overlap effect on laser IR radiation absorption in high pressure carbon dioxide, comparing calculated absorption coefficient with measurements

13 p2081 A71-29337

Cosmic radio noise absorption measurements at subauroral latitude for ionospheric absorption, discussing ionization regions spatial nonuniformity and horizontal extension

14 p2196 A71-30561

Black radiation absorption by isothermal gas in entire spectrum, discussing Hotel empirical formula

17 p2836 A71-34214

Atmospheric absorption of 10.6 micron laser beam radiation, noting effect on refractive index

18 p2910 A71-35843

Synchrotron radiation reabsorption in inhomogeneous sources, considering IR spectra of quasars and galactic nuclei

18 p2963 A71-36158

Gas dissociation in carbon dioxide laser by IR absorption method, investigating role in population inversion

18 p2932 A71-37008

Excited state absorption in sulfur hexafluoride traversed by carbon dioxide laser beam

18 p2933 A71-37014

Interstellar absorption at H alpha line wavelength in Orion nebula, obtaining contour map for comparison with radio intensity

19 p3131 A71-37230

Collisional broadening of IR absorption lines in vibration-rotation bands of carbon monoxide and hydrochloric acid

19 p3106 A71-37374

Argon plasma electron temperature by laser absorption and electron density measurements

19 p3110 A71-37406

Extragalactic background soft X ray diffuse flux consistent with absorption by Small Magellanic Cloud

20 p3278 A71-39108

Soviet book on optically dense plasma spectroscopy covering radiation reabsorption, transport equation, photon frequency, resonance energy, quantum mechanical calculations and spectral characteristics

20 p3274 A71-39145

Atmospheric optical stability control in ozone or other selectively absorbing gases measurements, filtering out spurious scattered light from aerosol particles

20 p3257 A71-39331

Young dust-filled planetary nebulae models with hot central stellar black body radiation, evaluating IR radiation absorption and reradiation in H region

21 p3446 A71-40417

Venus 3-4 micron region continuum absorption from high resolution spectra of Venus and sun

21 p3448 A71-40448

Traveling wave power resonances in ring laser with nonlinearly absorbing cell, noting role of absorbing component lamb saturation

21 p3394 A71-41257

Quantum theory of molecular or atomic spontaneous emission while simultaneously undergoing stimulated emissions or absorptions

21 p3421 A71-41401

- Interstellar Lyman alpha absorption equivalent widths in hot stars spectra, examining rocket and satellite observations
22 p3598 A71-41913
- UV and IR transmissivity and absorption coefficients of fused quartz between room temperature and 1500 C
22 p3565 A71-42559
- Cosmic rays intensity measurement in deep ocean with Cerenkov counter, determining muon energy spectrum and absorption in sea water
22 p3595 A71-42663
- UV absorber dyes in fluorescent tracers, discussing theory of dimensional sensitivity and use in liquid-film developers to quench background fluorescence
23 p3681 A71-43194
- Carbon dioxide photolysis at 1849 A and various pressures, suggesting gas dissociation at wavelengths with appreciable absorption
23 p3641 A71-43328
- Venusian atmosphere, observing dayside solar radiation absorption generated upward dayside and downward nightside vertical motions
23 p3735 A71-43333
- Jovian geometric albedo at 1800-1950 A decrease explained as absorption by gaseous and solid ammonia in cubic crystal form
23 p3736 A71-43345
- Monochromatic absorption coefficients determination for Ar heated in wall-stabilized arc at high temperatures and pressures
23 p3712 A71-43915
- Quasar and pulsar gamma ray absorption by critical energy collisions with low energy photons
24 p3866 A71-44917
- ## RADIATION BELTS
- NT INNER RADIATION BELT
NT OUTER RADIATION BELT
NT PROTON BELTS
- Jupiter decimetric emission circular polarization, observing equatorial magnetic field strength in radiation belt
02 p0317 A71-12868
- Intercoms 3 satellite for radiophysical and geophysical observations of radiation belts and ionosphere, discussing design, configuration and instrumentation
03 p0423 A71-13419
- C, N and O nuclei abundances in radiation belt near geometric equator, using data obtained by OGO-5 satellite in 1968
03 p0473 A71-13475
- Radiation intensity produced by inverse Compton effect between solar flux and Van Allen belt trapped high energy electrons
04 p0640 A71-14875
- Zone of unstable radiation in magnetosphere localizing auroral and quasi-captured particles
05 p0798 A71-16046
- Plasma containment in adiabatic magnetic traps, discussing particles, Coulomb collisions, instabilities, cyclotron resonance masers, Van Allen belts, etc
07 p1166 A71-19097
- Soviet book on active protection of space vehicles covering measures against penetrating radiation from Van Allen belts, solar flares and galactic cosmic rays
07 p1207 A71-19474
- Temporal intensity variations of geomagnetically trapped solar alpha particles from Injun 5 observations
08 p1356 A71-21644
- Electron loss by resonant interaction with whistlers in nonuniform magnetic field, taking Fokker-Planck equation as distribution function
09 p1513 A71-22423
- Cosmic ray and radiation belt data from vertical probes, determining radiation in instantaneous cross section of atmosphere
09 p1513 A71-22666
- Geomagnetically trapped particles radial diffusion across L shells, considering influence on steady state structure and dynamics of radiation belts
09 p1514 A71-23460
- Solar cycle time variations in trapped radiation belt proton flux, deriving proton transport equation from Boltzmann equation
10 p1663 A71-24785
- Earth radiation belts high energy electron flux intensity monotonic decrease during magnetically quiet periods from satellite data analysis
11 p1816 A71-25759
- Solar wind effects on space around earth, discussing dipole image of magnetic field, radiation belt feeding and atmospheric phenomena based on artificial satellite observations
11 p1817 A71-26337
- Soviet book on earth radiation belts and cosmic rays covering space-borne experiments, Van Allen belt, charged particle motion, origin hypotheses, etc
11 p1818 A71-26525
- Energetic charged particle motion in magnetosphere, considering radiation belt dynamics
12 p1949 A71-27372
- Magnetospheric electron echo probe experiment, using sounding rocket and injecting gun for controlled particle trapping investigation
12 p1953 A71-27674
- Charged particles magnetic scattering on cyclotron instability waves of radiation belt plasma, estimating proton relaxation time
13 p2129 A71-28552
- Trapped charged particle cyclotron, bounce and drift motion in distorted geomagnetic field
14 p2300 A71-30033
- Charged particles distribution in magnetosphere beyond radiation belts, proposing unstable radiation zone model containing auroral and semitrapped particles
16 p2626 A71-33450
- Electron lifetime in earth radiation belt due to resonant scattering with hiss VLF radiation
16 p2626 A71-33674
- Van Allen radiation belts and plasma sheet energy loss control, using cold plasma injection
16 p2629 A71-33976
- Radiation belt proton intensities and energy spectra measurements by Azur satellite solid state detector telescope with energy level discrimination electronics
19 p3125 A71-37417
- Energetic electrons, protons and alpha particle measurements by Azur satellite over polar cap and in radiation belt during March 1970 solar particle event
19 p3126 A71-37419
- Pioneer Jupiter probe missions as precursor to subsequent outer planets exploration, discussing primary objective of asteroid belt and Jupiter radiation belt hazards evaluation
19 p3152 A71-37911
- Jupiter radio observations, measuring nonthermal emission, magnetic field and trapped radiation belts
19 p3140 A71-37933
- Cosmic rays and solar energetic particles properties near earth and requirements on measurement during outer planets missions
19 p3127 A71-37940
- Cosmos satellite data on mainland China thermonuclear explosion of 27 December 1968, observing radiation effects on particles in natural radiation belts
20 p3278 A71-39128
- Magnetospheric electrons and protons acceleration and slot injection between radiation belts during magnetic storms, using flux measurements onboard Molniya 1 satellite
20 p3282 A71-39738
- High latitude auroral particle precipitation patterns and connections to plasma sheet, ring current, cusp and radiation belt sources, using rocket and satellite observations
21 p3439 A71-41179
- Radiation belt particles nonadiabatic changes, calculating rigidity as function of magnetic field lines
21 p3439 A71-41357
- Earth radiation belts high energy electron flux intensity monotonic decrease during magnetically quiet periods from satellite data analysis
22 p3591 A71-41527
- ## RADIATION CONTROL
- ### U RADIATION PROTECTION
- #### RADIATION COUNTERS
- NT CERENKOV COUNTERS
NT ELECTRON COUNTERS
NT GEIGER COUNTERS
NT NEUTRON COUNTERS
NT PARTICLE TELESCOPES
NT PROPORTIONAL COUNTERS
NT QUANTUM COUNTERS
NT SCINTILLATION COUNTERS
NT SPARK CHAMBERS
- Optical systems using photoelectron counter system for optical signal detection and demodulation
02 p0214 A71-12031
- Extensive air shower experiments, considering origin, particle interactions and detectors
03 p0475 A71-13838
- High energy cosmic ray particle charge and direction detector on Proton 3 satellite
04 p0596 A71-15122
- Energetic electron and proton precipitation measurements by sounding rocket-borne particle detectors in pulsating aurora
07 p1186 A71-19669
- Detectable information rate changes of photon counter with finite observation time and background noise
08 p1289 A71-21286
- Radiosonde with radiation sensor, minimizing temperature measurement errors in free atmosphere
08 p1293 A71-21745
- Micrometeoroid detector design for hypervelocity particle impacts, discussing solar radiation pressure effects on satellite measurements
11 p1761 A71-25544
- Alpha radiation machmeter with semiconductor pulse detectors, discussing supersonic regime effects on rate variations
12 p1908 A71-27607
- Critique on photomultiplier tube for photon counting, considering pulse height distribution, SNR and electron collection efficiency errors
16 p2578 A71-33146
- French monograph on system reliability of particle detection device covering methodology, functional
- models, Monte Carlo simulation, spectrometers and DC/DC converters
17 p2767 A71-35231
- Diamond radiation counters for C 14 containing carbon dioxide in extraterrestrial life detection, noting radioactivity curves as function of sample microflora
21 p3378 A71-40571
- Low cost two channel pulse counter (RUFAS) for astronomical photoelectric occultation observations, describing resolution, data output and computer interfacing
22 p3542 A71-41932
- Extensive air shower experiments, considering origin, particle interactions and detectors
22 p3594 A71-42639
- ## RADIATION DAMAGE
- Comparative radiation damage at different depth-dose tissue distributions in dogs
01 p0013 A71-11132
- Surface destruction of glass dielectric by pulsed laser beam, considering plasma clouds, shock waves, ablation and crack formation
02 p0258 A71-11640
- Vacuum UV degradation of thermal control coatings on ATS-1 satellite, comparing with laboratory simulation
04 p0618 A71-14896
- Impurity effects of annealing of radiation defects in p-type silicon, considering annealing temperature
04 p0636 A71-15037
- Si solar cells under low temperature electron irradiation, noting damage rate dependence on measurement temperature
05 p0701 A71-16076
- N-p Si solar cells, investigating mechanism of low energy proton irradiation damage to back contacts
05 p0702 A71-16084
- Defects and annealing in electron irradiated lithium diffused silicon solar cells
05 p0703 A71-16092
- Structural damage by laser radiation in polymethyl methacrylate, using polarized light microscopy
05 p0772 A71-16370
- Solar cells characteristics for space power systems, considering angle of incident sunlight, radiation damage, array design and mounting
05 p0705 A71-17151
- Radiation damage to HeLa cells at liquid nitrogen temperature and dry fern spores at room temperature
07 p1033 A71-18937
- Drug-radiation damage interaction relationship to radiosensitization in mammalian cells
07 p1034 A71-18946
- Embryo chemical sensitization to low radiation doses damage by radiosensitizer iodoacetamide
07 p1037 A71-18963
- Ionizing radiation induced surface damage dependence in matched oxide passivated silicon planar epitaxial transistors on junction fringing electric field strength during exposure
07 p1174 A71-19052
- Surface ionization effects on planar silicon bipolar transistors, considering damage reduction by device exposure to high ionizing radiation dose
07 p1174 A71-19057
- Neutron induced lifetime damage short term annealing dependence on minority carrier density in p-type silicon, considering majority carrier repulsion by positively charged centers
07 p1175 A71-19061
- Ion implantation lattice damage effects in crystalline silicon with allowance for optical reflectivity, considering annealing temperature and amorphous layer formation
07 p1175 A71-19062
- Statistical analysis of neutron induced gain degradation of silicon power transistors, determining failures distribution fit to Weibull function
07 p1070 A71-19063
- Nuclear radiation damage to ruby laser power output
07 p1121 A71-19067
- Neutron radiation damage on high efficiency microwave avalanche diode sources (TRAPATT oscillators)
07 p1071 A71-19068
- Neutron irradiation induced degradation in epitaxial Gunn diode performance
07 p1071 A71-19069
- Si surface barrier radiation detectors depletion region low energy proton irradiation damage determination from capacitance-voltage curves and capacitance recovery techniques
07 p1071 A71-19071
- Low energy proton irradiation damage to ATS and Intelsat satellites Si solar cells junction properties
07 p1022 A71-19072
- Electron radiation bulk damage effects on Si surface barrier detectors, determining reverse leakage current density and alpha particle response changes
08 p1345 A71-21842
- Metallic target in radiation damage from focused ruby laser beams as function of energy and luminous pulse duration
09 p1465 A71-23563

- Irreversible damage effects of visible light on retina in rats as function of irradiation, exposure time and vitamin A deficiency cell adaptation
10 p1563 A71-24327
- Cochlear/vestibular apparatus, ganglion cells, spinal roots and nerve trunk damage from ionizing radiation based on neural elements transirradiation in neoplasms
10 p1566 A71-25039
- Exposure time and power effects of CW Ar laser damage to rabbit iris, comparing with pulsed ruby laser effects
10 p1572 A71-25076
- Microwave radiation nonthermal biological damage, describing beetle pupae irradiation and radiant heating experiments
11 p1717 A71-25285
- Cataract production from microwave radiation exposure by lens nutrition alteration and surface shape changes
11 p1718 A71-25292
- Reflectance restoration of proton and UV degraded spacecraft thermal control coatings by low temperature oxygen plasma treatment applied to Surveyor 3 [AIAA PAPER 71-463]
11 p1800 A71-26244
- Chorioretinal temperature increases from naked solar eclipse observations for various observation angles and pupil diameters, considering solar irradiance and atmospheric transmittance spectra
11 p1726 A71-26484
- Spacecraft electric systems semiconductor devices radiation damage from high energy particles during space missions, noting radiation resistant devices development possibility
12 p1943 A71-26981
- Radiation resistance variations of n-type and p-type silicon photocells due to formation of one or two vacancy recombination centers
15 p2461 A71-31670
- Acoustical wave generation measurement during iris and retina photocoagulation and ruby laser burns, noting intraocular pressure surge simultaneous with ocular tissue explosion
15 p2365 A71-32346
- Histopathological and fluorescein angiographic studies of rhesus monkey chorioretinal lesions produced at threshold and suprathreshold power levels of Ar laser
15 p2365 A71-32347
- Thermomechanical damage by pulsed lasers in metals, discussing energy deposition and stress wave generation for optimal fracture conditions
15 p2422 A71-32555
- Silicon solar cells radiation damage from low energy protons, discussing current degradation as function of exposed area and particle energy
16 p2621 A71-33414
- IR absorption of oxygenated dislocationless phosphorus doped fast neutron irradiated n-type silicon, investigating dominant defects for different radiation dosages
17 p2790 A71-34199
- Focused laser beam interaction with liquid metal particles, discussing fluid phase light screening effect, droplet evaporation and mass expulsion characteristics
17 p2750 A71-34291
- Surface/volume damage induced by Nd-YAG laser irradiation to LiNbO₃ and KDP crystals in frequency doublers and Pockels cells, using scanning electron micrographs
17 p2790 A71-34376
- Curve power factors and radiation induced changes in silicon photovoltaic solar cells, considering junction depth, bulk resistivity, temperature and illuminating light intensity
17 p2677 A71-35049
- Carrier diffusion length change in damaged gamma irradiated silicon solar cells by numerical analysis, using experimentally obtained voltage or current
17 p2677 A71-35050
- Laser-induced retinal damage model based on energy interaction modes, including thermal and acoustic transients, vaporization and dielectric breakdown
18 p2863 A71-35955
- Radiation induced etch-pit dislocations and thermal decomposition kinetics in ammonium perchlorate crystals
18 p2955 A71-35967
- Retinal damage thresholds of rhesus monkeys to ocular radiation from yellow line 568.2 nm emitted by krypton CW gas laser
19 p3008 A71-38284
- Semiconductor neutron hardness assurance by irradiation of wafer, probe, die rejection and anneal screening technique
19 p3034 A71-38520
- Neutron irradiation effects on radiative, nonradiative and threshold currents in epitaxial GaAs laser diodes at room temperature
20 p3275 A71-38785
- Activation energy and temperature dependence of radiation induced free radical destruction in N-acetyl-DL-valine, using Arrhenius plots
21 p3345 A71-40203
- Beryllium reflector plate failure in NASA Plum Brook Reactor, discussing irradiation induced mechanical and physical property changes and internal/external stress effects
21 p3414 A71-40904
- Crystalline dislocations and impurity atmospheres role in kinetics of accumulation of radiation defects in Ge under fast electron bombardment
21 p3429 A71-41209
- CdS crystals faces damage caused by picosecond light pulses from free oscillating Nd-glass laser
21 p3432 A71-41305
- Low temperature proton irradiation damage and recovery in discontinuous Ta films sputtered in oxygen and nitrogen
22 p3585 A71-41804
- Prophylactic medication for radiation damage treatment, covering toxicity, pharmacological properties, metabolism, dosage and physiological action
22 p3505 A71-42711
- Rat organs pathomorphological changes under gamma neutron irradiation with head and abdomen shielding, noting intestines early damage
22 p3493 A71-42722
- Aminothiol class radiation protector influence on tissue damage of white rats under single and two-fold gamma radiation at various test conditions
22 p3494 A71-42729
- Thin film silicide resistors in monolithic IC for high sheet resistance or radiation hardness using sputtering deposition without protective overlayer
23 p3655 A71-43428
- Ultramicroscopic texture and radiation damage in Apollo 11 and 12 micron sized lunar dust grains compared with meteoritic rocks
23 p3758 A71-43756
- Proton irradiation damage on lunar surface, considering solar wind sputtering, reduction, chemical bond breakage and electron paramagnetic resonance
24 p3867 A71-44423
- Biological effects of ionizing radiation and non-radiative factors on radiation damage from satellite space flight tests on dogs and plants
24 p3798 A71-44891
- Electron transmission microscopy of Mo single crystals irradiated with fission neutrons and defect structures prior/after postirradiation anneal
24 p3839 A71-45192
- Irradiation defects and electrical quality of ion implanted silicon, using minority carrier lifetime measurements
24 p3863 A71-45357
- ### RADIATION DETECTORS
- #### NT DOSIMETERS
- #### NT GOLAY DETECTOR CELLS
- #### NT SILICON RADIATION DETECTORS
- #### NT THRESHOLD DETECTORS [DOSIMETERS]
- Solar radio bursts at 19 GHz, investigating single frequency proton warning technique
03 p0481 A71-14506
- IR astronomy, considering basic principles, instrumentation energy production and radiation, spectroscopy, detectors and atmospheric absorption and emission
04 p0649 A71-15254
- Soviet book on experimental methods in nuclear physics covering operation, structural features and application of radiation detectors
06 p0903 A71-18731
- Soviet book on thermal radiation sensing covering system functional circuits, radar conversion, military application and personnel training
07 p1060 A71-19100
- Optical astronomy instrumentation automation including telescopes, computer control, filters and detectors
07 p1114 A71-20051
- Gravitational radiation experimentation, discussing detector, directivity, equations of motion, etc
08 p1333 A71-21175
- Satellite-borne Ge radiation detectors, investigating design criteria and performance at elevated temperatures
08 p1267 A71-21847
- Heavy cosmic rays identification by charge spectrum analysis of balloon-borne combined plastic detectors and nuclear emulsions, noting astrophysical implications
09 p1514 A71-22804
- Cerenkov detectors and He filled spark chambers with large interelectrode spaces in high energy nuclear interaction studies, noting cosmic ray applications
10 p1612 A71-24667
- Large Cerenkov detectors in absorption spectrometers during high mountain cosmic ray measurements
10 p1612 A71-24668
- Gravitational shock waves from tachyons, considering capability for Weber gravitational radiation detection apparatus excitation across astronomical distances
11 p1798 A71-25591
- Solid propellant burning surface irradiance measurement, using optical lightpipe and radiation detector [AIAA PAPER 71-469]
11 p1859 A71-26250
- Cosmic ray neutrino results from deep underground detector near Johannesburg
12 p1952 A71-27399
- Cosmic ray muon flux at sea level, allowing for showers, multiple scattering, straggling, zigzag motion, detector efficiency and electronic equipment dead time
12 p1952 A71-27403
- Satellite-borne anisotropy and energy spectra measurement instruments for cosmic ray electrons and protons and solar and galactic X-rays
12 p1954 A71-27711
- Semiconductor radiation detectors, discussing minority charge carrier diffusion length measurements by nuclear method
13 p2065 A71-27957
- Planetary disks brightness temperature measurement using 22 m radio telescope with indium antimonide detector at 1.4 mm
13 p2141 A71-29102
- OSO-G satellite instrumentation for solar and celestial X ray detection, exploring spectral distribution, temporal intensity variations, sources and atmospheric albedo
13 p2070 A71-29135
- Sound radiation and pressure fields inside vibrating turbomachine blades, using miniaturized microphones and compact capacitive detectors
14 p2288 A71-30517
- Solar neutrino detection using capture reaction in perchloroethylene medium
15 p2478 A71-31803
- Proportional counters design for ionizing radiation detection, examining cosmic ray meson component
15 p2408 A71-31814
- He-Ne IR laser resonator as quadrature detector for modulated filtered laser radiation, noting strong LF noise
17 p2750 A71-34269
- Paraterphenyl coated photomultiplier as detector in far UV spectra, detailing efficiency range and sensitivity
17 p2745 A71-35589
- Specular reflecting passive radiators for synchronous satellite radiation detectors cooling [ASME PAPER 71-AV-30]
18 p2869 A71-36397
- Pulsed X ray emission from NP 0532 at 20-200 keV measured by balloon flown sun sensor controlled azimuth stabilized detectors
18 p2958 A71-36760
- End-on shock tube detection technique sensitivity for monitoring light emission behind reflected shock waves
20 p3209 A71-38830
- High resolution charged particle detector with wire cathode for synchrotron applications, discussing design and advantages
20 p3238 A71-39423
- High energy cosmic ray spectrometer onboard Proton 4, discussing ionization calorimeter, nuclear targets, particle charge and radiation detectors and primary measurements
20 p3283 A71-39755
- Semiconductor radiation detectors, discussing minority charge carrier diffusion length measurements by nuclear method
21 p3383 A71-41346
- P-type germanium photon drag detectors with carbon dioxide lasers, discussing response speed and sensitivity
22 p3543 A71-42129
- Auroral X rays passage through atmosphere, discussing integral spectral measurements with collimated and omnidirectional detectors
22 p3593 A71-42399
- Gravitational wave astronomy, discussing phenomenon relationship to Einstein relativity theory and detector configurations
23 p3733 A71-43120
- Electron emitter photomultipliers and photocathodes for low light level and scintillation counter applications, using negative electron affinity
23 p3651 A71-43432
- Wideband solid state converter circuit for quantization of signals from semiconductor nuclear radiation detectors, noting cost reduction
23 p3677 A71-43527
- He-Ne laser coherent radiation photodetection by variable diaphragm photomultiplier, analyzing photocurrent spectra as function of diaphragms aperture size and shape
23 p3687 A71-44175
- Millimeter and submillimeter wave radiation detection by paramagnetic materials, noting noise equivalent power dependence on various parameters
23 p3717 A71-44293
- Photon noise limited interferometer transducer for gravitational radiation antenna, using piezoelectric driver to generate subangstrom vibrations
24 p3835 A71-45209
- Microchannel plates detection efficiency for 2-150 keV electrons from C 14 pellet and electron gun
24 p3829 A71-45336
- ### RADIATION DISTRIBUTION
- #### NT ANTENNA RADIATION PATTERNS
- #### NT DIFFRACTION PATTERNS

**NT KOSSEL PATTERN
NT SIDELOBES**

Directional cosmic ray cut-off and loop-cone folding distribution at geomagnetic midlatitude sites
01 p0146 A71-11485

Statistical properties of multimode quantized optical fields, using density matrix in P-representation
02 p0259 A71-11932

Galactic radio corona existence, measuring northern galactic hemisphere sky brightness and cosmic ray distribution
03 p0483 A71-13204

GaAs heterojunction diode injection lasers, predicting high order transverse cavity modes and far field patterns from theoretical model
03 p0434 A71-13482

Room temperature spatial distribution of emission from injection lasers with single and triple heterojunctions in AlAs-GaAs system
03 p0439 A71-13980

Mathematical model of stellar atmospheres using radiation emission by elementary cylinder
04 p0647 A71-15236

Helicopter in-flight noise radiation pattern and spectra measurements for various operating parameters
04 p0531 A71-15406

Angular distribution and polarization of solar X-ray bremsstrahlung, taking into account magnetic field effects
05 p0000 A71-16032

Layer boundaries and critical concentrations of anomalous increase of radiation in earth and Venus atmospheres along tangential directions
05 p0738 A71-16044

Ruby laser with lens resonator, studying radiation patterns and angular divergence, lasing threshold and spectra width
05 p0763 A71-16831

Neodymium glass lasers, investigating pump-induced birefringence effect on polarization and radiation distribution
06 p0907 A71-17398

Soviet papers on satellite meteorology covering atmospheric radiation fields, wind determination, temperature distribution transformations and cloud forms identification
06 p0922 A71-17507

Meteorological satellite data interpretation, including atmospheric layers thermal balance and global absorbed and outgoing radiation distribution mapping
06 p0923 A71-17508

Radiation fields of various background and atmospheric cloud formations by reflected short wave radiation aircraft measurements
06 p0923 A71-17511

Radiation temperature fields and cloud distributions seasonal and latitude characteristics by meteorological earth satellite data
06 p0924 A71-17517

Global radiation temperature distribution inhomogeneities in underlying surfaces, atmosphere and radiation absorbing areas
06 p0924 A71-17518

Phenomenological one dimensional model of solar cosmic ray propagation for anisotropy and intensity as function of time during early phases of events
06 p0950 A71-18102

Isotropic galactic cosmic ray diffusion in interplanetary space from solar wind velocity and diffusion coefficient dependence on heliolatitude and heliolongitude
06 p0953 A71-18118

Cosmic rays transient north-south polar asymmetry, confirming time lag between Forbush decrease onsets
06 p0956 A71-18140

Tropospheric and lower stratospheric radiation balance components vertical profiles, using balloon sounding
07 p1151 A71-18913

Long wave radiation balance components vertical profiles, showing temperature stratification effect
07 p1151 A71-18914

Low profile optical system producing annular cone of radiation from point source for high speed aircraft beacon
07 p1107 A71-19203

Electron scattering effect on emission and absorption lines in stellar atmosphere, considering primary radiation sources uniform distribution and photosphere radiation transmission through electron atmosphere
07 p1192 A71-19291

Continuous optical conversion to IR and directional stellar radiation flow conversion to diffused radiation fields in circumstellar dust envelopes
07 p1187 A71-19821

Free nitrogen jets ejected from small orifices, measuring acoustic emission level and spectral pattern dependence on pressure
07 p1161 A71-20058

Compressible isotropic plasma slab effect on magnetic dipole radiation pattern, using reciprocity theorem
08 p1253 A71-21274

Electromagnetic wave scattering by perfectly conducting cylinder in anisotropic plasma with external

magnetic field, deriving radiation pattern from asymptotic expression
08 p1253 A71-21295

Statistical analysis of center-limb variations of intensity, spectrum and polarization of solar microwave impulsive bursts
08 p1364 A71-21419

Lunar surface electromagnetic sounding, presenting analysis of radiation fields and polarization characteristics for magnetic dipole situated on layered half space
10 p1576 A71-24054

Angular discretization effect on calculations of emerging radiation and integrated albedo from model cloudy atmosphere, using multiple scattering with terrestrial particle phase functions
10 p1643 A71-24972

Far field sound radiation pattern from vibrating circular piston set in nonrigid baffle for sonar detectors
11 p1798 A71-25186

Stimulated Compton effect in compact radio sources, giving formulas for energy flow between relativistic electron and radiation field
11 p1831 A71-26169

Power law dependence of lateral distribution function and core location of showers detected by Haverah Park array
13 p2122 A71-28068

Cerenkov light distribution calculation from gamma ray initiated air shower model obtained from Monte Carlo computer program
13 p2125 A71-28093

Book on laser physics covering radiation theory, atomic system interactions, Fresnel diffraction, Gaussian beam, Lamb theory and cavity engineering
13 p2078 A71-28429

Ultrasonic field distribution patterns from metallic and ceramic concave spherical reflectors under excitation by single or multiple piezoelectric elements
13 p2101 A71-29267

Radiation field description with spatial complex variables, considering application to scattering and waveguide problems
14 p2209 A71-29567

Galactic Lyman alpha emission, describing radiative transfer in radiation diffusion
14 p2306 A71-29683

Radiation patterns from piezoelectric transducers on Y face of lithium niobate, using Green function analysis
14 p2283 A71-29795

Radiation patterns and scattering cross sections of plane black disks excited by electromagnetic and acoustic waves
14 p2194 A71-30079

Acoustic tone radiation from subsonic rotor near potential field by interaction with nonuniform inlet flow based on Lighthill aerodynamic sound equation
14 p2225 A71-30210

Jet aircraft sound spectrum on ground and in air, comparing calculation with experiment
14 p2289 A71-30524

Solid state laser emission divergence, calculating far zone fields for arbitrary amplitude and phase distributions
15 p2418 A71-31243

Laser action internal differential quantum yield estimation using GaAs injection lasers near field emission patterns
15 p2422 A71-32461

Aperture field distribution for excitation of surface waves with high efficiency and gain
15 p2378 A71-32627

Optical detection of laser or scattered radiation transmitted through turbulent atmosphere, taking into account independent additive background radiation
16 p2608 A71-33145

Resonant energy exchanges between gaseous media and externally applied radiation fields from wavelength-tunable lasers
16 p2586 A71-33164

Plasma instabilities effectiveness for high energy cosmic rays confinement in galactic disk
16 p2625 A71-33238

Layer boundaries and critical concentrations of anomalous increase of radiation in earth and Venus atmospheres along tangential directions
16 p2635 A71-33448

Radiation attenuation volume coefficients for water clouds and fogs thermal sources and laser outputs
16 p2543 A71-33708

Atmospheric optics and geophysics problems modeling arrangement reproducing radiation field within light scattering medium
16 p2605 A71-34106

Temporal distribution of photons radiated by He-Ne laser operating in five modes
17 p2750 A71-34202

Pitch distribution of protons precipitated from auroral radiation region measured by scintillation detector aboard Cosmos 261 satellite in Northern Hemisphere
17 p2731 A71-34320

Laser longitudinal oscillation modes and maximum radiation envelope formation from noise at start of emission, using electric field strength recurrent relations
17 p2751 A71-34386

Scattering obstacle with surface currents and radiating fields, determining characteristic current distributions and values of elliptical loops, straight wires and circular arcs
17 p2700 A71-34753

Ray acoustic treatment, estimating diffusion of radiation patterns due to scattering by random inhomogeneities
17 p2783 A71-35036

Radiation field inhomogeneity effect on radiation gas jet flow, taking into account radiative energy transfer by differential approximation
17 p2728 A71-35117

Thermoluminescent dosimeter for skin basal layer dose measurement in mixed beta and gamma radiation fields
17 p2693 A71-35450

Incoherent radiation distribution analysis by image multiplex coding with SNR gain applied to IR region [ONERA-TP-972]
18 p2916 A71-36031

Coherent optical fields properties, discussing equivalence of quantum and classical descriptions
18 p2932 A71-36959

Azimuthal IR radiation distribution of atmospheric brightness cross sections at various zenith angles from balloon programmed-control radiometer data
19 p3054 A71-37969

Quasar red shifts distribution, indicating discretization in form of geometrical series
19 p3142 A71-38154

Wide angle paraboloid reflector electromagnetic field intensity distribution measurements in focal region
19 p3035 A71-38601

Diffraction loss equality in field distribution at con-focal laser resonator mirrors with circular coupling holes
20 p3242 A71-38850

Solar array technology for lunar surface applications including silicon cells, cadmium sulphide thin films, temperature effects, prototype module and radiation degradation
20 p3181 A71-38941

Elliptical cylinder pump cavity design for solid state laser with ideal beam geometry
20 p3246 A71-39493

Exact solutions to radiation-filled Brans-Dicke cosmologies, using Robertson-Walker metric
20 p3294 A71-39558

Earth-atmosphere system radiation budget, comparing meteorological satellites actinometric data with calculated climatological maps of planetary long wave radiation distribution
20 p3259 A71-39678

Earth atmosphere radiation fields analysis from Nimbus 3 five-channel scanning radiometer measurements, determining mean planetary albedo and temperature
20 p3259 A71-39679

Reflected radiation brightness field statistical structure in IR range from Cosmos 121 satellite measurements, calculating correlation functions and spectral densities
20 p3259 A71-39680

Stratosphere and mesosphere physics and dynamics, studying composition, radiation fields, temperature, winds, wave phenomena and relations to meteorological theory
20 p3230 A71-39872

Scorpius X-1 radio emission detection at 1415 MHz, discussing brightness distribution
21 p3441 A71-40068

Radiation energy contours of pulsed ruby laser beam in direct determination of thermal conductivity by flash technique, using heat flux transducer
21 p3391 A71-40180

Non-LTE picket fence model in radiative equilibrium solutions for thermal coupling and line strength parameter
21 p3438 A71-40243

Temperature control bracket energy equation as measure of temperature distribution in pure hydrogen stellar atmosphere, considering electron energy and radiation field
21 p3446 A71-40419

Diffuse radiation field inside homogeneous spherically symmetric dust nebula from radiative transfer equation solution as expansion after Legendre polynomials
21 p3451 A71-40716

GaAs luminescent p-n junction diode spontaneous emission measurement in magnetic field, noting redistribution in Lorentz force direction
21 p3432 A71-41303

Electromagnetic field distributions and far field radiation patterns of three layer waveguide GaAs heterostructure injection lasers, using Maxwell equations
22 p3555 A71-41688

- Electromagnetic wave propagation and radiation pattern of circular corrugated waveguide antenna feeds, considering unity azimuthally dependent modes 22 p3511 A71-42278
- Transfer equation formulation for radiation field determination in anisotropically scattering medium 22 p3621 A71-42598
- Long term vertical and horizontal variations of long wave radiation field in free atmosphere over U.S.S.R., using actinometric sounding data 22 p3570 A71-42848
- Radiation field profiles and applications of broadband ultrasonic transducers, including thickness and viscosity measurements 23 p3674 A71-42919
- Traveling wave laser with confocal, plane and semiconcentric resonators, calculating emission field spatial-temporal structure and inversion distribution 23 p3685 A71-43561
- Normal wave scattering on random permittivity inhomogeneities of stratified waveguide dielectric layer, calculating beam width and energy loss by perturbation procedure 23 p3645 A71-43567
- Ni-Fe film exposure to continuous IR laser light for laser radiation structure 23 p3686 A71-44056
- Mach bands appearance in red/green triangular wave intensity distributions generated on CRT, quantifying perceived brightness distribution by matching with variously positioned light slit 24 p3800 A71-44468
- Radiation diffusion in finite thickness medium with variable optical properties, giving equations for illumination levels and excited atom density in steady state medium 24 p3833 A71-44660
- Radiative transfer in linearly anisotropic-scattering conservative and nonconservative slabs with reflective boundaries, obtaining angular radiation distribution by normal mode expansion technique 24 p3888 A71-44966
- Airborne measurement of directional variation in reflected solar radiation over soil surface and vegetation, using scanning radiometer 24 p3826 A71-44984
- High energy charged particles angular distribution measurements in equatorial region cosmic radiation above atmosphere, using Proton 2 satellite data 24 p3866 A71-45027
- Lunar IR directional characteristics theory, noting agreement with observations at all observational and phase angles 24 p3874 A71-45188
- Liquid-state pulsed laser active element lens parameters effects on output radiation divergence 24 p3835 A71-45240
- RADIATION DOSAGE**
- Comparative radiation damage at different depth-dose tissue distributions in dogs 01 p0013 A71-11132
- Photogrammetry in precision three dimensional X ray stereoradiography, comparing doses with Kymography, Tomography and Seriescopy 02 p0203 A71-11951
- Absorbed dose equivalent from high energy neutrons and protons incident on tissue, using nucleon-meson cascade calculations 04 p0624 A71-14804
- Soviet papers on dosimetry of ionizing radiation intense fluxes covering electron collision, neutron spectra and gamma radiation 04 p0593 A71-14913
- Ionization chamber for high intensity isotopic gamma radiation dose measurement, discussing saturation current and Compton interaction process 04 p0594 A71-14917
- Computerized human body anatomical geometrical model with life size skeleton and organs scaling for radiation dosage analyses in space missions 04 p0546 A71-15282
- Radiation energy deposition profiles in transparent liquids, using holographic interferometer 05 p0748 A71-16263
- Radioprotectors and antibody formation in rats, determining ionizing radiation survival rate index for lethal dose and hematological indices 05 p0710 A71-16819
- Radial microdistribution of absorbed dose in heavy charged particle track, allowing for delta electron emission 06 p0963 A71-18365
- Relative biological effectiveness of multicharged C ions during single irradiation of *Chlorella*, noting dose dependent mutability 06 p0854 A71-18366
- Respiratory inhibitor KCN for killing increase from single radiation doses and reduction of dose fractionation sparing effect 07 p1036 A71-18962
- Embryo chemical sensitization to low radiation doses damage by radiosensitizer iodoacetamide 07 p1037 A71-18963
- Surface ionization effects on planar silicon bipolar transistors, considering damage reduction by device exposure to high ionizing radiation dose 07 p1174 A71-19057
- Failure criteria percentages for bipolar transistors, determining adequacy of Weibull distribution for low gamma ray dose survival probability 07 p1071 A71-19064
- Acceptable gamma radiation dosages for extended manned space flights based on prolonged irradiation of dogs 09 p1388 A71-22193
- Probable solar flare doses on interplanetary mission calculated by MCFLARE computer program using Monte Carlo methods 09 p1399 A71-22809
- Pyrolytic graphite microcalorimeter for X ray absorbed dose measurement, exploiting for calibration self heating 10 p1608 A71-23742
- Microwave/high frequencies safe exposure limits, discussing radiating aerial near field, radio hazards and human body absorption 10 p1573 A71-25080
- Microwave radiation nonthermal and cumulative biological effects, discussing dose/irradiation safety standards 11 p1717 A71-25283
- Microwave biological exposure systems implementation in limited space, describing focused prolate spheroid, absorber-lined horn and compact range illumination system 11 p1723 A71-25288
- Life prolongation during high intensity microwave exposures with ambient air temperature control for radiation bioeffects studies 11 p1717 A71-25291
- Cataract production from microwave radiation exposure by lens nutrition alteration and surface shape changes 11 p1718 A71-25292
- Spacecraft thermal control coatings for long-duration exposure to near-earth orbital conditions, determining optical properties degradation and solar absorptance [AIAA PAPER 71-454] 11 p1859 A71-26237
- Spacecraft systems radiation hardening design, discussing Tiroso satellite mission hazards and space exposure prediction for electronic parts, using flow chart rationale 11 p1839 A71-26333
- Soviet book on radiation dosimetry and spectrometry of ionizing radiations covering chemical, electrochemical, thermoluminescence, scintillation and diffuse reflection methods 11 p1797 A71-26450
- PAX intermediate spectrum reactor neutron and photon dose rates and fast and thermal neutron flux calculation, comparing results with experiment 13 p2099 A71-29258
- Human tissues neutron induced physical doses calculation 13 p2021 A71-29260
- Cosmic radiation doses measurement on Soyuz 3 spacecraft by nuclear emulsions, giving averaged doses absorbed by various cosmonaut tissues 15 p2362 A71-31314
- Hematopoietic injury and recovery from radiation exposure for dogs and monkeys, showing dose protraction effects 16 p2532 A71-33774
- Double standard for national levels of exposure and biological hazards of microwave radiation, comparing Soviet work to U.S. 19 p3008 A71-38442
- Irradiation dose effect on alpha particle irradiated Al foil electrical resistivity recovery, using Wheatstone bridge measurement 23 p3689 A71-42934
- Apollo 12 lunar core sample thermoluminescence dependence on radiation dose rates, detecting temperature gradients in regolith by differential thermal analysis 23 p3760 A71-43776
- Radiation exposure history from fossil tracks in Apollo 12 surface rocks and double core regolith samples, comparing with Saint Severin meteorite 23 p3764 A71-43802
- Radiation dose effects on polymer strain magnitude under critical cyclic loading 23 p3697 A71-44033
- Pion beam dosimetry with silicon detectors and plastic scintillators, presenting depth dose and isodose distributions and differential range curves 24 p3799 A71-44359
- Cosmic ray dosimetric monitoring in manned spacecraft, discussing ionization, thermoluminescent and nuclear photoemulsion methods of radiation measurement 24 p3826 A71-44888
- Manned spacecraft radiation protection against cosmic rays, considering proton attenuation in shielding materials and dose formation in body tissues 24 p3801 A71-44889
- Cosmic ray biological effects and admissible dose level normalization in space flight from prolonged tests on dogs 24 p3798 A71-44890
- RADIATION EFFECTS**
- NT RADIATION DAMAGE
- NT RADIATION INJURIES
- NT RADIOLYSIS
- Cryogenic fluids nucleate boiling dependence on solid surface characteristics, considering hysteresis, boiling site spreading and radiation effects 01 p0178 A71-10005
- Polymethyl methacrylate lifetime under simultaneous mechanical stresses and ionizing radiation 01 p0106 A71-10044
- C 14 incorporation from labeled glucose into cerebral glycogen of normal and X ray irradiated rats 01 p0011 A71-10850
- Bone marrow physiological regeneration after chronic gamma irradiation, noting effect on fission processes and chromosome apparatus of cells 01 p0014 A71-11146
- GaAs strongly doped p-n junctions, examining I-V characteristics changes under electron bombardment and mixed reactor field irradiation 01 p0140 A71-11458
- UV effect on airborne bacteria survival in simulated Martian dust clouds 01 p0019 A71-11557
- Free radicals role in photodynamic inactivation of Rhodotulra glutinis subjected to high intensity light irradiation 01 p0019 A71-11560
- Reactor gammas effects on thermionic diode output simulated in electron accelerator 02 p0238 A71-12228
- Kr 85 disposition following Mo-uranium oxide cermet fuels irradiation in test chamber 02 p0296 A71-12240
- Cylindrical thermionic converter irradiation tests under Incore Thermionic Reactor (ITR) Project, discussing postmortem examinations 02 p0195 A71-12243
- High temperature neutron irradiation properties of uranium oxides, carbides and nitrides coated with tungsten-rhenium 02 p0296 A71-12246
- Omega West Reactor isothermal irradiation experiments, determining long term fast neutron irradiation effects on Al 995, Lucalox and yttrium oxide insulator 02 p0280 A71-12251
- Microwave effects on living creatures, considering thermal and nonthermal effects on individual body organs and systems, permanent changes and protective measures 02 p0208 A71-12845
- Radiation effects on cylindrical magnetohydrodynamic shock propagation in plasma, deriving jump conditions in terms of Mach number and pressure ratios 02 p0294 A71-12847
- IR radiation effect on gas molecular dissociation, showing dissociation temperature decrease due to IR photon absorption 02 p0288 A71-12850
- Thermal radiation effects on M-2 double base solid propellant ignition, deflagration and burning rate 02 p0298 A71-12851
- Rare earth polycrystalline powders luminescence stimulation by ruby laser radiation, discussing two photon mechanism, luminous intensities relations and UV radiation 03 p0435 A71-13510
- X ray effects on dogs with and without UV preexposure, determining blood protein and chemical composition, hemoglobin content and thermostability 03 p0364 A71-13524
- Atmospheric air breakdown by mode-locked Q switched laser pulse train, investigating threshold electric field dependence on characteristic diffusion length 03 p0440 A71-14178
- Clear potting polymers, investigating temperature and ionizing particle irradiation effects on properties 04 p0618 A71-14898
- Ultrasonic viscosimeter for gamma irradiation effects on materials structure, determining fluid viscosity changes from rate of damping of plate vibrations 04 p0594 A71-14918
- Radiation effects on compression shock in hot gases, considering hypersonic flow around blunt body during planetary atmosphere entry [DFVLR-SONDDR-60] 04 p0526 A71-15101
- Amino acid content alteration in internal organs in rabbits under HF electromagnetic and ultrasound oscillations 04 p0547 A71-15573
- Nongray thermal radiation effect on laminar forced convection over heated horizontal flat plate, determining temperature profiles for optically thin and thick boundary layers 04 p0688 A71-15741
- Solar cells for Jupiter mission, discussing radiation and environmental tests concerning I-V characteristics 05 p0701 A71-16074

- Si solar cells electrical performance tests, considering 1 MeV electron irradiation effect on efficiency
05 p0702 A71-16082
- Electron, proton and UV irradiation effects on CdS solar cell protective plastic films with or without adhesive coatings, measuring transmission changes
05 p0771 A71-16087
- Surface roughness and thermal radiation effects on rural and urban boundary layer turbulence and diffusion by wind fluctuations observations
05 p0777 A71-16665
- Atmospheric ionization by vertical gamma and alpha radiation of natural radioactive products, comparing to vertical behavior of conductivity
05 p0799 A71-16843
- Ion-acoustic waves generation mechanism in outer space by strong electromagnetic radiation, considering quasars, supernovae shells, pulsars and solar super-corrna
05 p0800 A71-17196
- Geomagnetic field anomalous variations due to solar eclipse of 22 September 1968
05 p0746 A71-17211
- UV light starvation prevention, describing biological effects and illumination equipment for working areas
06 p0858 A71-17528
- Rectangular panel acoustic response by variational finite element method, including radiated sound field effects on structural vibration
06 p0984 A71-17622
- Apollo 11 igneous rocks potassium content vs irradiation exposure age, comparing lunar geology models
06 p0966 A71-17897
- Low and high linear energy transfer /LET/ cycloctron-accelerated alpha particles effects on *Drosophila melanogaster* longevity
06 p0853 A71-18028
- Radiation effects on thermal decomposition induction period in ammonium perchlorate and other pseudostable inorganic solids
06 p0944 A71-18301
- Gamma irradiation effects on physicochemical and organoleptic properties of food products
06 p0861 A71-18367
- X ray influence on protein and mineral content of blood serum in dogs
06 p0858 A71-18728
- Lethal radiation in *Escherichia coli* B/r, investigating post irradiation DNA breakdown inhibitors
07 p1033 A71-18940
- Methylhydrazine radiosensitization of Ehrlich ascites tumor cells, investigating X radiation enhanced cell killing effect via deoxyribonucleic acid strand breakage
07 p1035 A71-18955
- Ehrlich ascites tumor cell membrane potassium and electrophoretic mobility loss, investigating radiation effects under radiosensitizing and radioprotecting drugs
07 p1036 A71-18956
- Short and long term radiation effects reduction by chemical radioprotectors mixtures, noting improved survival and decrease in leukemia and cancer incidence in X ray irradiated mice
07 p1037 A71-18970
- Central nervous system role in radioprotective contribution of 5-hydroxytryptamine
07 p1038 A71-18972
- Nuclear and space radiation effects - NASA/IEEE Conference, University of California at San Diego, July 1970
07 p1070 A71-19051
- Permanent IR electron radiation effects on hardened MOS integrated inverter circuits, using units with plasma grown and vapor deposited aluminum oxide
07 p1174 A71-19053
- Long term IR X ray irradiation effects on complementary MOS logic networks with several p and n channels on single silicon, determining radiation induced failure modes
07 p1174 A71-19054
- X irradiation induced currents across aluminum oxide films sandwiched between thin metal electrodes as function of voltage and time
07 p1174 A71-19056
- Microcircuits component vulnerability, deriving time independent nonlinear terminal I-V characteristics, electrical switching response and ionizing radiation induced transient response
07 p1070 A71-19059
- Ionizing radiation effects on monolithic metal oxide semiconductor inverters, including testing and hardening techniques
07 p1070 A71-19060
- Radiation hardened semiconductor device technique by irradiating silicon wafers on lot to lot basis
07 p1071 A71-19065
- Electron-proton radiation effects on scintillating materials in space environment chamber, evaluating background light degradation of active source monitoring
07 p1175 A71-19066
- Light emitting diodes performance comparison under electron irradiation effect in space environment
07 p1071 A71-19070
- Luminescence excitation in chelates under pulsed ruby and neodymium laser radiation action, examining two photon absorption mechanism
07 p1122 A71-19130
- Negative resistance diodes characteristics under laser radiation, investigating switching properties, temperature effects and noise characteristics
07 p1076 A71-19373
- Laser ocular effects, discussing corneal /retinal/ lens lesion production, damage thresholds and application to clinical ophthalmological problems
07 p1049 A71-19792
- Scanning electron microscope for surface morphological investigations of materials after laser irradiation
07 p1113 A71-19793
- Soft galactic X rays role in interstellar grains alignment
07 p1188 A71-20056
- Heavy ion track registration in nonconductor minerals, discussing radiation damage and atomic species along trajectory
07 p1158 A71-20270
- Dinitrophenol inhibition of rejoining of X ray induced DNA breaks by L cells
07 p1045 A71-20447
- Al-Li alloy precipitation hardening after neutron irradiation, noting yield stress increase after aging at various temperatures
07 p1143 A71-20487
- Fast neutron irradiation effects on Mo recovery stages 1 to 3 in bcc metals using electrical resistivity measurements
07 p1143 A71-20491
- Neutron irradiation effects on Al-Mg alloys tensile properties, noting yield stress increase and appearance of Lueders strain
07 p1143 A71-20492
- Microwave irradiation effects on peripheral blood and bone marrow in dogs and rabbits
07 p1053 A71-20539
- Radiation-anneal hardening and radiation effects on yield stress temperature dependence in bcc metals
08 p1312 A71-21550
- Human gastrointestinal tract functional disturbances after prolonged work in UHF field
08 p1249 A71-21955
- Large gamma radiation doses effect on neodymium activated glass laser emission properties
09 p1460 A71-22256
- Transducer design selection for strain gage applications in high nuclear radiation environments based on system requirements
09 p1445 A71-22718
- Ionizing radiation inhibition of spinal cord neurons ribonucleic acid synthesis and enzyme activity in mice, using autoradiographic method
09 p1393 A71-22925
- Space travel genetic effects, discussing radiation, weightlessness, vibration and acceleration
09 p1394 A71-23149
- Radiative flux effect on magnetogasdynamical shock in self-gravitating gaseous stars
09 p1506 A71-23589
- Type I fluctuations experienced by extensive air showers generated by protons or heavy nuclei, discussing effect on primary cosmic ray energy determination
10 p1661 A71-23858
- Laser pulse induced rapid reversible crystallization of amorphous chalcogenide semiconductor films using photon flux model
10 p1655 A71-24044
- Soviet papers on radiation physics of nonmetallic crystals covering effects of neutron, proton, electron, gamma and X ray irradiation on physical properties
10 p1655 A71-24137
- Carrier concentration, radiation dose and temperature effects on radiation defect formation in Si and Ge during gamma irradiation
10 p1655 A71-24138
- Probability of quasi-chemical reactions between point defects in semiconductors due to ionizing radiation
10 p1655 A71-24139
- Radiation defects distribution in Si irradiated by protons, deuterons and alpha particles
10 p1655 A71-24140
- Gamma radiation effect on electrical properties of n-type GaAs single crystals with doping impurities, calculating defect introduction rate and forbidden zone energy levels
10 p1656 A71-24141
- Formation kinetics of radiation defects produced by gamma rays in Sb doped n-type Ge single crystals at 77 K
10 p1656 A71-24142
- Annealing and white light illumination effect on I-V characteristics of long Ge diodes irradiated by 5 MeV electrons at 77 K
10 p1583 A71-24144
- P-n junctions formation in p-silicon irradiated by alpha particles
10 p1656 A71-24145
- Ionizing radiation effect on piezoelectric properties of quartz plates, covering X rays, gamma rays, electrons, protons and alpha particles
10 p1656 A71-24146
- Lunar soil particle production, noting radiation erosion effects
10 p1673 A71-24414
- Radiation and gas-dust interactions, examining dispersion relation and instability for cosmological models
10 p1675 A71-24490
- Dry heat and Co 60 gamma radiation combined effects on spacecraft sterilization, discussing kinetic analysis of spore inactivation
10 p1565 A71-24613
- Coagulative and delayed cumulative cataract production by microwaves investigated by hypothermic technique
10 p1572 A71-25077
- Pathophysiological aspects of microwave irradiation, considering thermal response of human and animal organisms to electromagnetic radiation exposure
10 p1573 A71-25079
- Gravitational radiation damping of slowly moving systems, discussing treatment as singular perturbation problem with approximation solution by method of matched asymptotic expansions
11 p1797 A71-25139
- Fe meteorite Grant, measuring radial distribution of cosmogenic nuclides of K, Ca, Ti, V, Cr and Mn produced by cosmic rays
11 p1819 A71-25224
- Thermal and nonthermal effects of microwave and RF radiation in biological systems, discussing dielectric constant and conductivity for high water content tissues
11 p1716 A71-25281
- Low power density modulated RF energy illumination effects on mammalian biological functions, noting possible hazards to personnel
11 p1716 A71-25282
- Microwave radiation nonthermal and cumulative biological effects, discussing dose/irradiation safety standards
11 p1717 A71-25283
- Negative heart rate response during low level microwave irradiation of dorsal head in rabbits
11 p1717 A71-25284
- Life prolongation during high intensity microwave exposures with ambient air temperature control for radiation bioeffects studies
11 p1717 A71-25291
- Microwave irradiation of animals, noting analeptic effect and increased alertness
11 p1718 A71-25293
- Air- and vacuum-melted Hastelloy-N/Ni-based alloy/ creep-rupture properties dependence on irradiation temperature
11 p1781 A71-26077
- Spherical plasma ball thermokinetic expansion model, considering solid state laser irradiation
11 p1806 A71-26091
- Venus-Mercury flyby vehicle solar cells, cover glasses, adhesives and Kapton film, investigating space radiation effects on solar absorbance and transmittance
11 p1859 A71-26236
- Reentry heating simulation, noting UV radiation effects as shock layer thickness decreases
11 p1859 A71-26248
- Radiating laminar convective flow in vertical heated channel, noting radiation effects on temperature and velocity
11 p1860 A71-26446
- Lunar soil albedo, discussing radiation darkening, lunar rock particles size and mineral contents effects
11 p1835 A71-26460
- Thermal control coating materials, measuring separate and combined electron and UV radiation effects on reflectance and emittance in vacuum
11 p1800 A71-26519
- Intergalactic gas ionization and heating by UV radiation
12 p1955 A71-26579
- Solar energy absorbance changes in spacecraft thermal control surfaces exposed to particulate radiation at simulated synchronous altitude, using computerized model
12 p1928 A71-26761
- Space radiation environmental effects on reactively encapsulated zinc orthotitanates and paints
12 p1920 A71-26762
- MOS transistors on P substrates, investigating ionizing radiation effects on I-V characteristics
12 p1885 A71-26830

Photomagnetic effect in ferric borate, noting photoinduced change, radiation sensitivity and temperature effects

12 p1943 A71-26857

Book on electromagnetic fields and life environment covering biological effects of radio waves, protection, radiation sources, permissible intensities, working conditions

12 p1873 A71-26868

Gamma irradiation effect on conductivity of varistors made of p-type black SiC

12 p1886 A71-26897

Solar simulator with wide range irradiation strength variability for laboratory investigation of radiation effects on spacecraft components

12 p1894 A71-26982

Radiative emission effects on viscous flow in shock structure of low density hypersonic flow around blunt body

12 p1986 A71-27583

Radiation induced visual phosphores observed by dark adapted human subjects in fast neutron, X ray and positive pion beams at Berkeley comparative to primary cosmic ray effects

12 p1871 A71-27675

Thermal flutter of satellite storable tubular extensible members, determining static flexural and torsional vibrations due to solar radiation

12 p1984 A71-27736

Fast neutron irradiation effect on Ni-Cr alloy electrical resistivity as function of temperature and initial composition

13 p2083 A71-27964

Ion-acoustic waves generation in outer space by strong electromagnetic radiation, considering quasars, supernovae shells, pulsars and solar supercorona

13 p2128 A71-28251

Flash UV photolysis of ozone/water vapor mixtures, noting OH radical nonreaction with ozone

13 p2025 A71-28349

Soviet book on vestibular reactions covering functional relationship between stimulus parameters and labyrinth nonauditory part, adaptation to Coriolis forces and response to ionizing radiation

13 p2008 A71-28672

Mars physical conditions compared to earth, simulating Martian conditions and low temperature and UV effects on proteins

13 p2009 A71-28688

Atomic Ba excitation, ionization and oxidation during emission in sunlight at high altitudes

13 p2026 A71-29038

Microwave exposure effects on organisms and biological functions responses and thermal stresses as function of specific frequencies, power density and environmental temperature

13 p2021 A71-29325

Multiple starlike flashes and short streaks reported by subjects exposed to neutrons under 25 mev, discussing interaction with retinal rods by proton recoils

13 p2022 A71-29353

Preferential pairing detection in GaS at 4.2 K through electron radiation damage of donor-acceptor pair green edge emission, discussing resulting wavelength shift

14 p2284 A71-29818

Creep rupture strength and durability of Al, Ni and Cu irradiated by neutron flux

14 p2258 A71-30004

Electromagnetic field action on living organism simulated with infinite homogeneous cylinder in infinite cylindrical solenoid EM media

14 p2182 A71-30026

Melting body disintegration in hypersonic gas flow under radiation influence from shock layer, assuming optically thin boundary layer and intense vaporization

14 p2336 A71-30222

Neutron irradiation effects on diffusion-ion doped HF n-p-n silicon transistors of moderate power, showing radiation stability

14 p2213 A71-30625

Erythrocytes life span and bone marrow production in dogs subjected to gamma irradiation in doses simulating prolonged space flight conditions

15 p2356 A71-31307

Peripheral blood and bone marrow morphological composition in dogs subjected to chronic and repeated gamma irradiation

15 p2357 A71-31308

Amyotetrate and ATP effect on hemopoiesis of dogs subjected to chronic and repeated gamma irradiation

15 p2357 A71-31312

Neutron irradiation effect on lattice parameters and distortion energy of titanium and chromium carbides, using X ray analysis

15 p2430 A71-32152

Quartz, organic glass and plexiglass luminescence under giant pulse ruby laser radiation

15 p2422 A71-32462

Radiation effects on epoxy adhesive mechanical properties including compressive shear stress, modulus of elasticity and tensile strength

15 p2439 A71-32510

Radiation effects on bonding characteristics of epoxy-metal and epoxy-glass adhesive joints

15 p2439 A71-32511

Rat irradiated spinal cord, detailing orthodromic ventral root and monosynaptic reaction to rhythmic and increasing frequency stimulation

15 p2362 A71-32735

Soviet army medical appraisal of chronic microwave field induced affections, noting evaluation procedures inadequacy

16 p2534 A71-32827

Plasma generation by photon irradiation, radiolytic mechanism and high energy particle bombardment, discussing ionized media chemical reactions

16 p2540 A71-32971

Earth orbital radiation variations effect on climate, noting minor temperature, wind and hydrological changes

16 p2562 A71-33069

Plane and cylindrical waves three dimensional propagation, investigating finite electrical fluid conductivity and radiation effects in MGD

16 p2618 A71-33172

Plasma flow wave propagation, investigating compressibility, radiation and finite electrical conductivity effects with plane asymptotic solution combinations

16 p2618 A71-33173

Radiation defects isochronal annealing effects on absorption spectral distribution of gallium arsenide irradiated with fast neutron flux

16 p2620 A71-33184

GaAs single crystals defects formation during low temperature gamma photons and electron irradiation, considering electrical properties

16 p2620 A71-33185

Neutron and gamma radiation effects on electrophysical properties of high resistivity Si single crystals grown in hydrogen atmosphere

16 p2621 A71-33186

Gamma radiation induced changes in parameters of black silicon carbide nonlinear semiconductor resistors/varistors

16 p2546 A71-33464

Cosmic and telluric radiation biological effects on parameria, discussing relationship between dosage and growth rate

16 p2532 A71-33757

Tungsten single crystals under deuteron bombardment, noting structural defects formation as function of irradiation energy

16 p2595 A71-33883

Endurance limit of construction materials under fast and thermal neutron irradiation in reactor channel

16 p2598 A71-33986

Periodic orbits around Lagrange libration points of restricted three body problem disturbed by gravitational and radiative influences

17 p2809 A71-35599

Microwave radiation biological effects review and bibliography covering protein activity, genetic, central nervous system and cardiovascular effects

18 p2864 A71-35956

Apollo astronauts light flashes observation during lunar flight, discussing interpretation as scintillations in eye lens by multiply charged cosmic rays focusing on retina

19 p3001 A71-37299

Gas and surface temperature distributions for laminar flow in circular tube, considering conduction, convection and radiation effects

[ASME PAPER 71-HT-17]

19 p3164 A71-37988

Plasma radiation effects in gas tube electric arc heating, obtaining temperature and heat flux profiles and I-V characteristics from energy transport mathematical model

[ASME PAPER 71-HT-18]

19 p3164 A71-37989

Book on biological effects of radiation covering ionizing radiation properties and effects at molecular, cellular and tissue levels

19 p3002 A71-38048

Equivalent circuits for planar devices behavior under ionizing radiation, considering bipolar and MOS transistors

19 p3034 A71-38521

Cystine synthesis in simulated primitive conditions by UV irradiation of methane, ethane, ammonia, water vapor and hydrogen sulfide in spherical vessel

19 p3014 A71-38678

Cosmos satellite data on mainland China thermonuclear explosion of 27 December 1968, observing radiation effects on particles in natural radiation belts

20 p3278 A71-39128

Combined action of vibration and gamma irradiation on sporulation dynamics, survival rate and mutability of *Chlorella*

20 p3193 A71-39237

Gas heating by LF radiation due to Compton scattering near quasars, Seyfert galaxies nuclei and pulsars

20 p3289 A71-39293

Medical, zoological and biological effects of ELF signals in atmosphere, comparing with EEG alpha and gamma rhythm

20 p3193 A71-39478

Soyuz observation of tritium and He-3 nuclei in Al targets exposed to space radiation

20 p3280 A71-39601

Solar radiation effects on upper atmosphere soft electron flux and energy spectrum during day and night

20 p3281 A71-39724

Biosatellite 2 onboard experiments studying weightlessness effects on biological processes and interaction with radiation from Sr 85 gamma ray source

21 p3341 A71-40007

Radiation role in nonequilibrium boundary layer during atmospheric reentries at speeds exceeding escape velocity

21 p3368 A71-40694

Atmospheric wind, temperature, turbulence, hydrometeors, ozone, cosmic radiation and radio activity effects on commercial SST Concorde flight

21 p3325 A71-40829

Gangliosides and cerebroside content in rat brain under normal conditions, during hypoxia and under small X ray doses action

21 p3337 A71-41057

Semiconductor radiation-induced electrical conductivity changes correlation to forbidden band from theoretical model, considering radiation defects as conductivity compensators

21 p3431 A71-41230

Monte Carlo method computer simulation for displacement cascades energy and space structure in Ge, Si and PbS, interpreting semiconductor electrical properties under hard radiation

21 p3432 A71-41304

Auger recombination coefficient determination for nonequilibrium carriers in n-type InAs from photoconductivity and light absorption under laser excitation at high levels, noting electron mobility

21 p3433 A71-41310

Impurity photoconductivity spectra determination for n and p type Si crystals under 660 MeV proton irradiation

21 p3433 A71-41311

Gallium selenide excitation by ruby laser radiation, investigating impurity photoconductivity dependence on radiation intensity

21 p3395 A71-41352

Soviet book on animals morphophysiological changes in cardiovascular and nervous systems and various internal organs under RF wave exposure

21 p3344 A71-41369

Circumsolar radiation and atmospheric turbidity effects on readings of compensation type pyroheliometers with allowance for receiver sensitivity

21 p3384 A71-41382

Intense ionizing radiation and thermal treatment effects on electrical parameters of Si semiconductor devices

22 p3584 A71-41619

Kinetic theory of optically pumped gas, incorporating atomic line radiation effects on spatial and time evolution of velocity distribution

22 p3530 A71-41888

Electromagnetic radiation in stagnation flow region, determining temperature distribution absorption coefficient of carbon dioxide at rest between two parallel plates

22 p3621 A71-42024

Methane atmosphere polymerization by solar UV to form primordial oil slick, discussing importance to life development

22 p3535 A71-42074

Computer predictions of postirradiation reliability of electrical circuits, using Sceptre program and component tests

22 p3518 A71-42111

Neutron irradiation effects on Si p-n junction field effect transistors I-V characteristics, charge distribution in space charge region and transconductance

22 p3586 A71-42297

Radiation effects on components of science instruments used on outer planets Grand Tour mission

22 p3574 A71-42299

Book on high power laser radiation covering heating, melting, vaporization, particle emission, plasma production, gas and transparent material breakdown and biological effects

22 p3558 A71-42426

Optical second harmonic generation in excited tissues by Q switched ruby laser irradiation, observing narrow band emission line in collagenous tissues

22 p3559 A71-42567

Thermal radiation effect on laminar boundary layer of nonabsorbing fluid for plane heat emitting surface under natural and forced convection

22 p3622 A71-42680

Gamma emission effect on cystamine toxicity elimination in rats organism

22 p3492 A71-42715

Reactivity changes to pharmacological preparations under total proton and gamma ray irradiation of abdomen and head shielded rats

22 p3492 A71-42717

Glutamicoaspartic and glutamicoalanine aminotransferases activity in blood serum of dogs

- under gamma irradiation with shielded abdomen or head, observing hyperfermentemia
22 p3493 A71-42720
- Acceleration tolerance of gamma irradiated mice with and without radioprotectors
22 p3493 A71-42724
- Mice under combined gamma radiation and vibration and acceleration dynamic factors, studying radioresistance recovery rate
22 p3494 A71-42725
- Dogs peripheral blood reaction to complex action of transverse accelerations and gamma irradiation
22 p3494 A71-42727
- Radiation effects on rats peripheral blood state in low pressure environment with sea level value oxygen tension
22 p3494 A71-42732
- Composite tissue blocks method for comparative pathomorphological investigation of radiation pathology
22 p3505 A71-42734
- Radiation damage diagnosis in humans, investigating free amino acid excretion with urine by paper chromatography method
22 p3495 A71-42736
- Prolonged small radiation dosage effects on vestibular analyzer in normal and antiradiation drug protected dogs
22 p3495 A71-42798
- UV radiation effect on amino acids and peptides in different gas atmospheres in presence of salts and metal oxides
22 p3496 A71-42829
- Irradiation dose effect on alpha particle irradiated Al foil electrical resistivity recovery, using Wheatstone bridge measurement
23 p3689 A71-42934
- Ozone concentration measurements near sunrise by balloon-borne electrochemical ozonesonde, noting scattered radiation effect
23 p3667 A71-43074
- Mgd shock propagation in viscous heat conducting gas, investigating radiation escape effect
23 p3708 A71-43100
- Neutron bombardment effect on dislocation mobility in Ge single crystals investigated by bending and etching techniques
23 p3715 A71-43309
- Neutron irradiation effects on dissociative high temperature zinc diffusion in indium and gallium arsenides
23 p3716 A71-43480
- Microprobe measurements of rare gas composition for lunar rock 12013,10,31 mineral separates, noting cosmic ray bombardment role in K and Ar production
23 p3753 A71-43721
- Apollo 11 and 12 rocks luminescence under proton, electron, UV and X irradiation
23 p3760 A71-43774
- Apollo 12 returned Surveyor 3 component materials analysis for lunar exposure effects by nondestructive and destructive tests
23 p3765 A71-43811
- Nonsteady heat conduction of multilayer cylindrical and conical shells in periodic radiation flux, calculating temperature distribution
23 p3783 A71-44067
- Silicon carbide single crystal photoluminescence under pulsed ruby laser light irradiation at 77 K, discussing radiative recombination of excitons
24 p3833 A71-44666
- Cosmic ray biological effects and admissible dose level normalization in space flight from prolonged tests on dogs
24 p3798 A71-44890
- Monatomic gas flow in radiation field, noting effects on mass transfer
24 p3821 A71-45182
- Radiation flux induced material dispersion of solid surface, taking into account radiation energy absorption by discontinuity introduction
24 p3835 A71-45225
- Thermal dissociation reactions and radiation effects on flow variables in front of and behind strong normal shock, using gray gas approximation
24 p3822 A71-45368
- RADIATION EXPOSURE**
U RADIATION DOSEAGE
RADIATION FIELDS
U RADIATION DISTRIBUTION
RADIATION HAZARDS
Laser systems radiation hazards, considering operational requirements, personnel protective equipment, biological effects and exposure levels
01 p0021 A71-10008
- Cosmic ray heavy ion component biological effect, describing histological and radioautographic high altitude balloon experiment with black mice and rabbits
01 p0019 A71-11555
- Radiological risks of cosmic radiation during high altitude supersonic flights, considering galactic, solar and incident particles in aircraft atmosphere
03 p0473 A71-13099
- Control of biological laser radiation hazards
07 p1049 A71-19791
- Near field electromagnetic radiation probe for microwave measurements in proximity of hazard source
09 p1453 A71-23626
- Microwave/high frequencies safe exposure limits, discussing radiating aerial near field, radio hazards and human body absorption
10 p1573 A71-25080
- Source-subject coupling, reactive near field, multipath components and arbitrary polarization in hazardous EM fields quantification, discussing measuring techniques and instruments
11 p1717 A71-25286
- Radio frequency and microwave radiation hazards determination and elimination aboard naval ships
11 p1723 A71-25290
- Spacecraft systems radiation hardening design, discussing Tiroos satellite mission hazards and space exposure prediction for electronic parts, using flow chart rationale
11 p1839 A71-26333
- Biological tests of laser protective filters for eye as function of optical density and wavelength by sensitivity of in vivo ocular tissue response
13 p2020 A71-29035
- Aircraft personnel radiation hazards from radioactive luminous paint on instrument dials, signs and operational elements
13 p2021 A71-29145
- Environmental controls, health services and safety programs for outdoor range laser applications, considering USAF hazard regulations, public address system, etc
17 p2723 A71-34524
- Double standard for national levels of exposure and biological hazards of microwave radiation, comparing Soviet work to U.S.
19 p3008 A71-38442
- Environmental radiation exposure in air travel, comparing integral radiation dosages for conventional jet transport aircraft and SST
20 p3192 A71-38976
- High intensity light sources hazards analysis, discussing thermal detectors and vacuum and semiconductor photodiodes for pulsed laser outputs measurement
22 p3541 A71-41795
- Manned spacecraft hazard from charged particles radiation during solar flares and trapped particles by geomagnetic field, recommending protection methods
24 p3865 A71-44887
- RADIATION HEATING**
U RADIANT HEATING
RADIATION INDICATORS
U DOSIMETERS
U INDICATING INSTRUMENTS
RADIATION INJURIES
Book on eye injuries covering mechanical traumata, neuro-ophthalmology, chemical, thermal, radiation, electrical and sonic injuries, etc
05 p0711 A71-17010
- Respiratory inhibitor KCN for killing increase from single radiation doses and reduction of dose fractionation sparing effect
07 p1036 A71-18962
- Taurine restorative effect in patients with marked leucopenia induced by radiotherapy
07 p1040 A71-18991
- Chromosome radiation injury preservation in generations of X ray irradiated cells of human diploid strains
08 p1242 A71-21966
- Renal anatomical pathology in dogs long after high energy proton irradiation, noting similarity to natural aging
09 p1388 A71-22194
- Laser thermal/photochemical burns and electric shock prevention by preemployment/regular physical examinations and safety requirement education
09 p1402 A71-23412
- Hematopoietic injury and recovery from radiation exposure for dogs and monkeys, showing dose protraction effects
16 p2532 A71-33774
- RADIATION INTENSITY**
U RADIANT FLUX DENSITY
RADIATION LAWS
NT KIRCHHOFF LAW OF RADIATION
NT STEFAN-BOLTZMANN LAW
RADIATION MEASUREMENT
Radiometric temperature measurement via source radiated power/photon flux ratio, using Planck equation variation
01 p0178 A71-10140
- He-Ne laser LF radiation parameters calculations verified experimentally
01 p0092 A71-10334
- Global ozone distribution from inverted radiance measurements by IR interferometer spectrometer /IRIS/ on Nimbus 3 satellite
01 p0074 A71-11249
- Water vapor emission measurement, using shock tube for gas heating and black body calibrated optical system for radiation measurement
01 p0028 A71-11348
- Gain measurement on pulsed radiation from high voltage discharges in mixtures of carbon dioxide, nitrogen and helium
01 p0096 A71-11423
- Venera probes UV radiation measurement, discussing photometric equipment and spectra for hot stars and Milky Way in L alpha line
02 p0304 A71-11912
- Absolute measurements of solar flux density at 9500 MHz, comparing Nagoya and Heinrich-Hertz Institute radiometric observations
02 p0302 A71-12760
- Cosmic rays intensity measurement in deep ocean with Cerenkov counter, determining Muon energy spectrum and absorption in water
03 p0477 A71-13862
- Concave mirror interferometer for laser radiation spectra measurements, featuring piezoelectrically tuned optical system
03 p0439 A71-14000
- Zodiacal light interpretation based on ground-based, satellite and deep space probe Helios observations, considering particle flux measurements
03 p0491 A71-14012
- Night airglow spectral components by Cosmos 92 satellite measurements, considering UV region sources and intensity variations
03 p0417 A71-14050
- IR radiation measurement of chain branching rates in hydrogen-oxygen mixtures ignited by reflected shock waves
04 p0548 A71-14695
- Underground cosmic ray showers muon pairs lateral distribution measurement
04 p0640 A71-14815
- Simultaneous meteorological satellite IR radiation measurements and cloud photographs for superposition and mutual interpretation
05 p0752 A71-16676
- He I 584 A dayglow radiation measurement by retarding potential photoelectron analyzer on Javelin sounding rocket
06 p0887 A71-17267
- Monte Carlo calculations of intrinsic radiation and blackness degree of nonisothermal cavities with non-specific temperature profile
06 p0897 A71-17529
- Absolute intensities measurement method for spectrum of solar disk center at 2962-4087 A
06 p0967 A71-17902
- Statistical reliability tests for cosmic ray intensity records from ground stations, stressing time series aspect
06 p0951 A71-18108
- Morphology and dynamics of low intensity monochromatic midlatitude auroral arcs of 6300 A /O I/, comparing results with observation during IGY
07 p1103 A71-19766
- Ethylene diffusion flame radiation measurements, determining pressure effects and contributory ratio of carbon particles and gaseous radiation
08 p1346 A71-20859
- Solar radiation flux standard instruments development for meteorological measurements, discussing calorimetric techniques and high precision radiometers
08 p1293 A71-21737
- Longitudinal electron plasma waves generated by electron beam-plasma interactions, discussing simultaneous radiation and incoherent microwave scatter measurements in relation to theory
08 p1341 A71-21746
- Pyrolytic graphite hemispherical emissivity measurement on surface parallel and perpendicular to deposition surface at 1200-2300 K
08 p1323 A71-21921
- Be, V, Cu and Al foils low temperature integral radiant emission, describing calorimetric assembly
09 p1466 A71-22264
- SNAP 15A heat source gamma ray intensity measurements and identification of gamma ray producing isotopes, describing measurement apparatus
09 p1491 A71-22456
- Auroral X radiation at magnetoconjugate points Kerguelen/Archangel region, using balloon-borne spectrometers
09 p1438 A71-23146
- Balloonborne radiometric instrumentation for solar and thermal radiations upward and downward flux measurements, discussing net radiation balance as function of solar elevation
09 p1515 A71-23558
- Polar cap cosmic radiation intensity measurement for deducing electromagnetic conditions near earth and in interplanetary space
10 p1661 A71-24310
- IR astronomical background radiation measurements at very near IR and longer wavelengths for interplanetary, galactic and intergalactic sources
10 p1677 A71-24582
- Nuclear interactions superhigh energy measurements in cosmic particles on high mountain large sandwich assembly
10 p1662 A71-24666

Mean neutron monitor multiplicity time variations for solar cosmic ray events and Forbush decreases with modulation spectrum allowance

11 p1816 A71-25753

Quantum counting efficiency of commercial photomultiplier at 0328 Å by direct measurements, including signal and background dependence

11 p1766 A71-26300

Vertical geophysical sounding rocket research program and equipment for observing ionospheric parameters, solar UV and X rays, atmospheric absorption and meteorites

11 p1839 A71-26353

Thermal control coating materials, measuring separate and combined electron and UV radiation effects on reflectance and emittance in vacuum

11 p1800 A71-26519

Superfluid-helium-cooled rocket-borne far-IR radiometer for night sky radiation measurement, discussing cryogenic, optical detection and electronic systems design features and performance

12 p1903 A71-26791

Extensive air shower size measurements, relating energy spectra to primary energies up to 10 million TeV by calorimetric method

13 p2122 A71-28069

Radio particle correlation of extensive air showers at large zenith angles, using twofold coincident 44 MHz receiver trigger-scintillator system

13 p2127 A71-28108

Venera probes UV radiation measurement, discussing photometric equipment and spectra for hot stars and Milky Way in L alpha line

13 p2133 A71-28199

Primary component corrections for global cosmic ray variations from latitudinal expeditions, discussing method adaptation to computer

13 p2128 A71-28528

Zenith skylight spectral intensity distribution measurement during total solar eclipse of 7 March 1970, using optical scanning spectrometer

14 p2309 A71-30121

Extragalactic X ray sources from Explorer 42 flight, confirming explosive nature of Seyfert galaxies revealed by optical telescopes

14 p2313 A71-30401

Sidereal anisotropy in muon signal observed by cosmic ray telescope above sea level, indicating production by neutral particle and leakage relative to anticoincidence factor

15 p2477 A71-31797

Cosmic ray muon and neutrino measurements with deep underground scintillation detector array

15 p2477 A71-31800

Low energy gamma ray measurements by balloon flights, detecting peak energy due to electron-positron annihilation

15 p2479 A71-32077

Cosmic ray intensity gradient measurement from Lost City meteorite Ar 37/Ar 39 ratio

15 p2479 A71-32361

Cosmic ray produced radionuclides in Lost City meteorite, determining concentrations by nondestructive two-parameter gamma ray analysis

15 p2479 A71-32363

IR transducer with detector for space applications, measuring capacitance on electronic bridge circuit based on temperature and pressure effects [ONERA-TP-963]

16 p2576 A71-32845

Optical diagnosis and measurements for radiation from gases in nonequilibrium flow

16 p2578 A71-33153

Solar flare activity and sunspot distribution over central meridian from optical data by NASA solar particle alert network 1967-69

16 p2635 A71-33437

Primary cosmic ray nucleonic component observation by scintillator-Cerenkov telescope on OGO 3 satellite

16 p2628 A71-33932

Statistical measurements of solar protons, alpha particles and heavier nuclei by lunar orbiting Explorer 35

16 p2628 A71-33933

Solar protons penetration over polar cap during 25 February 1969 event from particle and magnetic field measurements inside and outside magnetosphere by satellites

16 p2628 A71-33934

Solar particle flux profile and low latitude cut-off observation by low altitude satellite during March 1969 to July 1970 events

16 p2628 A71-33936

German monograph on ozone determination from sky radiance, considering Rayleigh and Mie scattering

17 p2733 A71-34794

Pyrolytic graphite hemispherical emissivity measurement on surface parallel and perpendicular to deposition surface at 1200-2300 K

17 p2763 A71-35265

Flame temperature measurement by radiation and gas dynamic methods

17 p2745 A71-35440

Solar radiation field in polluted atmosphere, measuring intensity, polarization and flux due to aerosol scattering for comparison with Mie theory computation

17 p2736 A71-35563

Polarization measurement of cosmic ray muons at sea level as function of energy and zenith angle

19 p3124 A71-37284

Vertical 1 single stage geophysical rocket design and instrumentation for X rays, solar UV and meteoritic concentration measurements

19 p3154 A71-38530

Time resolved gain measurements of pulsed two level laser system, using computer for curve analysis

20 p3245 A71-39179

Radiometric measurement of total normal emittances of real surfaces at cryogenic temperatures

20 p3313 A71-39289

Vertical temperature profiles from Nimbus 3 satellite spectral radiance measurements, stressing importance for atmospheric circulation prediction

20 p3258 A71-39666

Relativistic primary cosmic rays chemical composition between Be and Fe from charge spectrum obtained with Cerenkov counters

20 p3284 A71-39756

Extensive air showers attenuation length measurement in Japan 1964-1968, using scintillator

20 p3284 A71-39863

Low energy solar particle observation by widely separated Mariner and Explorer spacecraft, noting flare-associated and nonflare intensity peak correlation with sun

20 p3284 A71-39876

Balloon Sonde I experiment, discussing telemetry from flying body and temperature effects on earth IR radiation measurement

22 p3535 A71-42053

Astronomical polarimetry at 5 and 10 microns for intensity measurements of IR sources

22 p3545 A71-42147

Cosmic rays intensity measurement in deep ocean with Cerenkov counter, determining muon energy spectrum and absorption in sea water

22 p3595 A71-42663

Isentropic nature of stratospheric air masses motion from balloon measurements of temperature and radiation

23 p3671 A71-43338

Lower stratosphere submillimeter wavelength radiation measurement using Fourier transform spectroscopy with phase modulation

24 p3822 A71-44448

Low energy primary cosmic gamma ray measurements for spectrum latitude dependence and time variations near earth by Cosmos satellite scintillation spectrometer

24 p3865 A71-44564

Airborne measurement of directional variation in reflected solar radiation over soil surface and vegetation, using scanning radiometer

24 p3826 A71-44984

Long wave radiation earth-atmosphere balance measuring devices, discussing pyrogeometer, balometer and tests in Antarctica

01 p0080 A71-10541

Semiconductor photoelectric sensor for monitoring laser emission energy in conjunction with memory oscillograph or single pulse peak voltmeter

01 p0093 A71-10623

Radiation measuring instruments assembly for extensive air showers and cosmic ray particle nuclear interactions at high energies

01 p0084 A71-11367

Power meter for large or divergent CW or pulsed laser beams

03 p0427 A71-13919

Solar X-ray radiation measurements using real time telemetry from SOLRAD satellites

05 p0799 A71-17001

Optical system for spatially resolved measurement of extended bodies radiative emission and self absorption, describing design for measuring gas discharge plasma radiative properties

06 p0928 A71-18224

Magnetic Compton spectrometer for high intensity pulsed gamma ray environments and nuclear device spectral measurement

08 p1294 A71-21840

ATS-5 satellite-borne auroral electron and proton energy spectrum measuring instrument using cylindrical coordinate electrostatic analyzer

08 p1294 A71-21845

X ray astronomy, discussing measurement methods and equipment, radiation mechanism and cosmic sources, with particular reference to hot rarefied plasma and pulsar types

09 p1516 A71-22058

Near field electromagnetic radiation probe for microwave measurements in proximity of hazard source

09 p1453 A71-23626

Cosmic particle gradient perpendicular to solar equator plane and semiannual cosmic ray variations, using worldwide neutron monitor network

10 p1660 A71-23839

Total normal emittance under simulated reentry conditions, using emissometer with aluminum oxide reference cavity integral within sample

11 p1764 A71-26249

[AIAA PAPER 71-468] Barium titanate pyroelectric receivers for giant pulse laser emission measurements

12 p1915 A71-27756

Balloon-borne transistorized stratospheric cosmic ray probe, describing simultaneous gas discharge and dual coincidence telescope counters data transmission

14 p2247 A71-30596

Primary cosmic ray electron energy and intensity measuring equipment, using Cerenkov and scintillation counters, spark chamber, lead absorber and photorecorder

14 p2247 A71-30598

Cosmic ray measurements at various altitudes, describing magnet spectrograph for momentum spectra and particle identification

15 p2408 A71-31813

Integral wavelength solar radiation constant measurements by jet and rocket research aircraft, high level balloons and Mariner space probes

20 p3260 A71-39682

Atmospheric background radiation measurements with balloon-borne Michelson interferometer, noting data reduction and calibration methods

22 p3549 A71-42563

RADIATION MEDICINE

NT RADIOBIOLOGY

Unified approach to dosimetry in radiological protection, discussing practical application and instrument calibration to existent standards

06 p0859 A71-18030

Lethal radiation in *Escherichia coli* B/r, investigating post irradiation DNA breakdown inhibitors

07 p1033 A71-18940

Radiosensitizers indanetrione, menadione Synkavit and N-ethylmaleimide, noting effects on murine ascitic tumor

07 p1035 A71-18950

Anoxic fern spores X ray sensitization, observing diacetyl and isatin effects

07 p1036 A71-18961

6-azauridine effect on radiation induced inhibition of Yoshida sarcomas, Ehrlich carcinomas, benzopyrene-induced carcinomas and spontaneous mammary carcinomas growth and transplantability

07 p1039 A71-18978

Bromouridine as radiosensitizing agent improving effectiveness of radiation therapy of malignant brain tumor cells

07 p1040 A71-18990

Monograph on protection against ionizing radiation from external sources covering medical, veterinary and industrial uses

08 p1248 A71-21311

RADIATION METERS

U RADIATION MEASURING INSTRUMENTS

RADIATION NOISE

U ELECTROMAGNETIC NOISE

RADIATION PRESSURE

NT ELECTRON PRESSURE

NT ILLUMINANCE

NT LUMENS

NT LUMINANCE

NT LUMINOUS INTENSITY

NT SOUND PRESSURE

Gravity gradient satellite librational dynamics under solar radiation pressure, using analytical and numerical integration methods

01 p0163 A71-10755

Wolf-Rayet star atmospheres, discussing matter density distribution, light pressure effects on particle motion and H and He ionization levels

01 p0158 A71-10803

Optically thin medium convective instability, examining radiant pressure and magnetic field effects

01 p0158 A71-10804

Satellite orbit perturbations by solar radiation pressure, considering earth shadow in homogeneous field and long term effects

02 p0313 A71-12491

Magnetic and thermal pressures in solar wind from Explorer 34 data

05 p0797 A71-16016

Lunar satellite motion semianalytic solution, considering perturbative effects due to gravitational fields, solar radiation pressure and libration

05 p0809 A71-16541

Sunlight pressure forces and moments on complex shape artificial earth satellites, assuming uniform incident flux

09 p1492 A71-22374

Reflected radiative shock wave propagation velocity under transverse magnetic field, taking into account radiation pressure and energy

09 p1506 A71-23588

Solar radiation pressure acceleration effects on flat satellite in earth synchronous orbit, examining orbital shift and counteracting thrust velocity applications

10 p1671 A71-24333

Planetary nebulae mass ejection by radiation pressure, describing mathematical models for time independent outflowing envelopes

11 p1821 A71-25537

Spin dynamics and deformation measurements on PAGESOS balloon satellite by photoelectric photometry, noting solar radiation pressure torque

11 p1761 A71-25546

Short term interval satellite orbit perturbations, computing direct solar radiation pressure effects with computer program

13 p2137 A71-28477

Complex geometry surface light pressure momenta determination by body image projection onto photometric wedge and linear edge sliding screen procedure respectively, considering errors

13 p2071 A71-29154

Photoelectric, bolometric and photographic recording assembly for measurement of light pressure and aerodynamic forces on complex shape body in free molecular flow

13 p2071 A71-29155

Plane photogravitational restricted circular three body problem symmetrical periodic orbits closing on rotating plane after revolutions

15 p2483 A71-31340

PAGESOS spacecraft orbital acceleration prediction by radiation pressure perturbation theory accounting for nonisotropic scattering of solar spectra from rotating ellipsoidal body

16 p2641 A71-33772

German book on satellite geodesy covering two body problem, perturbation theory, earth gravitational field, gravitational effects of sun and moon, radiation pressure, etc

17 p2799 A71-34470

Light pressure measurement acting on Echo 1 satellite, considering integral reflection coefficient

20 p3306 A71-39132

Attitude control of gravity orientated satellite in arbitrary orbit by solar pressure, showing libration damping characteristics of radiation force

20 p3306 A71-39396

Mathematical model for studying solar radiation pressure effects on artificial satellite motion

21 p3438 A71-40104

Plasma confinement in bounded systems, considering externally induced field HF pressure effect on plasma density distribution

22 p3580 A71-41600

Jump conditions across three dimensional curved shock in radiation gas dynamics, considering radiation pressure number effect

22 p3530 A71-41695

Coupled librational dynamics of gravity oriented cylindrical satellite, calculating solar radiation pressure effects on attitude control behavior

22 p3611 A71-42042

Plane photogravitational restricted circular three body problem symmetrical periodic orbits closing on rotating plane after revolutions

22 p3606 A71-42615

Covariance analysis of Mars gravity harmonics, ephemeris and radiation pressure from Mariner 1971 range and Doppler radio tracking data [AAS PAPER 71-343]

23 p3727 A71-43016

Mathematical model of solar radiation pressure force and torque acting on spacecraft surface intercepting solar photon stream [AAS PAPER 71-352]

23 p3728 A71-43024

RADIATION PROTECTION

NT RADIATION SHIELDING

NT SOLAR RADIATION SHIELDING

Laser systems radiation hazards, considering operational requirements, personnel protective equipment, biological effects and exposure levels

01 p0021 A71-10008

Microwave effects on living creatures, considering thermal and nonthermal effects on individual body organs and systems, permanent changes and protective measures

02 p0208 A71-12845

Si solar cell radiation resistance improvement through Li doping, noting efficiencies in excess of state-of-art N/P cells after exposure to 1 MeV electrons

05 p0703 A71-16088

Radioprotectors and antibody formation in rats, determining ionizing radiation survival rate index for lethal dose and hematological indices

05 p0710 A71-16819

Prophylactic radiation protection through lipid toxicants reduction in white rats tissues by high efficiency chemical radioprotectors

06 p0849 A71-17391

Unified approach to dosimetry in radiological protection, discussing practical application and instrument calibration to existent standards

06 p0859 A71-18030

Biological radioprotectants in space flights including amino acids, bacterial polysaccharides, hormones and vitamins

06 p0861 A71-18358

Cosmic radiation protection of spacecrews by drugs, extrapolating animal data to humans

06 p0861 A71-18359

Radiation protection and sensitization - Conference, Rome, May 1969

07 p1031 A71-18926

Molecular mechanisms of bacterial cell radiosensitization and protection, discussing radiation produced free radicals interactions

07 p1031 A71-18927

Radiosensitizer and radioprotector action mode in altering X ray effects on DNA in biological systems of different complexity

07 p1032 A71-18928

Chemical protection against ionizing radiation by thiols and disulfides, discussing hydrogen transfer

07 p1032 A71-18930

Radioprotective action of amines and hypoxic agents by blocking oxygen transport to tissues

07 p1032 A71-18931

Radioprotective effect of cysteine on lysozyme in dilute aqueous solution, discussing scavenging water radicals

07 p1032 A71-18932

Chemical radioprotection by selenium containing compounds in biological and chemical systems tested in irradiated rats

07 p1032 A71-18933

Reactivity measurements of protective agent selenourea toward primary water radiolysis radicals

07 p1033 A71-18934

Structure-function studies of aminoethiol radioprotectants on *Escherichia coli* B/r, discussing radiation response at 274 and 77 K

07 p1033 A71-18936

Sulfur containing organic chelating compounds as radiation protective agents

07 p1034 A71-18941

Cysteamine protection of hydroxyurea sensitized Chinese hamster lung cells during X ray exposure

07 p1034 A71-18947

Thiol and disulphide compounds radiation protection capacity at cellular level in tissue culture, using reproductive integrity as protection criteria

07 p1034 A71-18948

Organic free radical radioprotective and radiosensitizing effect, reporting Chinese hamster cell line survival characteristics after treatment

07 p1035 A71-18949

Radioprotective drugs relationship to modification of glycolysis in Ehrlich ascites tumor cells

07 p1035 A71-18954

Para-aminopropiophenone and propylene glycol radiation protective effect on hematopoietic stem cells of mice

07 p1036 A71-18959

Hematoporphyrin chlorhydrate radioprotective effects on mice, removing, weighing and fixing spleens for hematopoietic colonies count

07 p1036 A71-18960

Chemical radioprotective effectiveness modification by open skin wounds, discussing results with whole body X ray irradiated mice

07 p1037 A71-18964

Toxicity reduction of aminoethylisothionium compounds through n-substitution with amino acids, noting slight decrease in radioprotective effectiveness

07 p1037 A71-18965

Hypoxia protection against ionizing irradiation by anaerobic glycolysis stimulation, lactic acid increase and blood glucose level elevation

07 p1037 A71-18966

Sodium fluoracetate as radiation protective agent, noting dependence on selective blockade of enzyme aconitase

07 p1037 A71-18967

Temperature effect in sodium fluoracetate protective action mechanism for mice irradiation

07 p1037 A71-18968

Cysteamine AET, serotonin and mexamine antiradiation drugs, investigating protective effect against fractionated lethal gamma irradiation

07 p1037 A71-18969

Short and long term radiation effects reduction by chemical radioprotectors mixtures, noting improved survival and decrease in leukemia and cancer incidence in X ray irradiated mice

07 p1037 A71-18970

Rat bone marrow chromosomes radiation protection, using 5-hydroxytryptamine

07 p1038 A71-18973

Irradiation protection in mice, dogs and sheep by bacterial endotoxin injection, discussing hematopoietic system stimulation and leukocyte counts

07 p1038 A71-18974

Mice protection against irradiation damage by adrenochrome monoguanilylhydrazine methan-sulphonate

07 p1038 A71-18977

Biochemical mechanism of radioprotective action of aminoethiols in mammals

07 p1039 A71-18979

Rats and mice blood redox potentials injected with cystamine, investigating increased radioprotection

07 p1039 A71-18980

Radioprotective mercaptoethylamine (MEA) effect on aerobic resynthesis of ATP in thymus nuclei and oxidative phosphorylation in rat liver mitochondria

07 p1039 A71-18984

Amino-ethyl-S-2-isothiuronium radio protective dose effects on enzyme activity, cardiovascular changes, blood transaminases concentration, bone marrow and peripheral circulation

07 p1040 A71-18986

Si solar cells transparent radiation protective coatings stability and degree of blackness, discussing UV irradiation and proton and electron bombardment

08 p1287 A71-21024

Monograph on protection against ionizing radiation from external sources covering medical, veterinary and industrial uses

08 p1248 A71-21311

Industry safe laser laboratory operating environments with reflection free walls, restrictive admittance and periodic personnel examinations

09 p1402 A71-23413

Book on electromagnetic fields and life environment covering biological effects of radio waves, protection, radiation sources, permissible intensities, working conditions

12 p1873 A71-26868

NASA space station design, describing operational procedures, structure, meteoroid, thermal and radiation insulation and living quarters

15 p2498 A71-31137

Magnetic shield design for protecting cylindrical space vehicle from space electron radiation, using simulator for engineering data

15 p2500 A71-32042

Antixposure suits physiological evaluation for subjective comfortableness, oral and skin temperatures and pulse rate, determining optimum environmental temperature

17 p2692 A71-35195

Si solar cells transparent radiation protective coatings stability and degree of blackness, discussing UV irradiation and proton and electron bombardment

20 p3240 A71-39604

Radiation protection drugs effects on albino rats hypoxia resistance, discussing hypoxic hypoxia response to intraperitoneally and perorally administered cysteamine and aminoethylisothiuronium

22 p3491 A71-42704

Radiation sickness prophylaxis chemical compounds, discussing protection mechanisms, radical activation and afflicted cell recovery

22 p3505 A71-42710

Prophylactic medication for radiation damage treatment, covering toxicity, pharmacological properties, metabolism, dosage and physiological action

22 p3505 A71-42711

Death rates, median life span and weight in mice exposed to gamma radiation after intra-abdominal injections of cysteamine

22 p3505 A71-42712

Chemical agents protective properties on albino mice under gamma-neutron radiation, noting dose and composition effects

22 p3492 A71-42713

Cystamine elimination rates in rats, extending radiation protective action by reinjection of eliminated portions

22 p3492 A71-42714

Cystamine hydrochloride or vitamin B complex with vitamin C for radiation sickness prevention and therapy

22 p3493 A71-42723

Mice acceleration before and after gamma irradiation, determining protective effect of cystamine in adrenaline and amphetamine mixture

22 p3494 A71-42726

Radioprotective effectiveness of cystamine and S beta-aminoethylisothiuronium in mice under combined gamma irradiation and transverse acceleration loads

22 p3494 A71-42730

- Radiation protection biological aspects - Conference, Kyoto, October 1969 23 p3638 A71-44325
- Radiation protection of Soyuz-9 crew, using solar activity forecasts 24 p3800 A71-44531
- Manned spacecraft hazard from charged particles radiation during solar flares and trapped particles by geomagnetic field, recommending protection methods 24 p3865 A71-44887
- Manned spacecraft radiation protection against cosmic rays, considering proton attenuation in shielding materials and dose formation in body tissues 24 p3801 A71-44889

RADIATION PYROMETERS

- Active cavity radiometric and international pyrheliometric scales comparison and solar constant from simultaneous solar irradiance measurements 16 p2581 A71-39399

RADIATION RESISTANCE

U RADIATION TOLERANCE

RADIATION SHIELDING

NT SOLAR RADIATION SHIELDING

- Hydrogen impregnated glass covers of solar cells preventing irradiation caused darkening and loss of power output under space environment conditions 05 p0700 A71-16066

- Self shielding effect of various substances under intense light 05 p0762 A71-16380

- Shielding effectiveness of different body portions during repeated proton irradiation on dogs 06 p0861 A71-18360

- Multilayer insulation systems for cryogenics protection aboard spacecraft, considering mechanical properties, radiation shielding, component evacuation rate and outgassing 08 p1375 A71-21748

- Nuclear radiation shielding design for space base SNAP 8 reactor, discussing geometry constraints for lithium hydride and U loop layers model 09 p1492 A71-22808

- Reactor shield weight optimization using FASTER-III Monte Carlo computer program for neutron and gamma ray transport 09 p1539 A71-22810

- Earth intrinsic radiation flux incident angular coefficient, examining effect on partially screened flat spacecraft elements 09 p1546 A71-23154

- Luneberg lens antenna theory and gain for communication satellite radio links, discussing shielding from hostile space environment 10 p1583 A71-24450

- X ray astronomy, including celestial sources emission, discrete cosmic sources, recording techniques, isotropic background and shielding 10 p1681 A71-25117

- In-core thermionic power system for manned space station application, discussing driver fuel elements, nuclear radiation shield, heat rejection and coolant outlet temperature 11 p1710 A71-25869

- Lunar dust deposition and brushing effects on spectral solar reflectance of thermal control materials in vacuum [AIAA PAPER 71-459] 11 p1799 A71-26241

- Spacecraft systems radiation hardening design, discussing Tiros satellite mission hazards and space exposure prediction for electronic parts, using flow chart rationale 11 p1839 A71-26333

- Self shielding effect of solid surfaces under intense light 12 p1915 A71-27457

- Biased angle selection in Monte Carlo shielding calculations, using importance function 13 p2099 A71-29253

- Reactor shielding design in U.S. based on Boltzmann transport equation solutions and Monte Carlo method 13 p2099 A71-29254

- Reactor shielding problems solutions involving removal-diffusion theory, two dimensional transport theory and Monte Carlo method 13 p2099 A71-29255

- Reactor-shield-containment system models under impact tests, noting cracks, leaks and deformations 16 p2606 A71-33250

- Fast neutron spectra in lead and water shielded reactor, comparing liquid scintillator measurements with discrete ordinates code calculations 16 p2606 A71-33253

- Multilayer insulation systems development and selection for cryogenics thermal protection on space vehicles, considering mechanical properties, radiation shielding, components, evacuation rate and outgassing 19 p3171 A71-38547

- Brayton cycle electric space power supply systems, describing shielded reactor and heat exchanger design 20 p3263 A71-38924

- Comparative abdomen and head shield effect during gamma irradiation of dogs on protein fractions in

- blood serum, noting increased globulins and glutamate aspartate transferases 20 p3188 A71-39222

- Radiation condenser computer program generalization to include effective radiative steady state node multiple enclosure simplification shield for thermal analysis optimization 20 p3314 A71-39357

- Nuclear characteristics of plutonium fuel for thermoelectric generators and required shield thicknesses for sensitive radiation experiment in outer planet spacecraft 22 p3592 A71-42300

- Partial body shielding effects on rats radiation sickness survival rates under gamma-neutron radiation, comparing head and belly shielding effectiveness at different intensities 22 p3492 A71-42716

- Reactivity changes to pharmacological preparations under total proton and gamma ray irradiation of abdomen and head shielded rats 22 p3492 A71-42717

- Head and abdomen shielding effects on radiation sickness evolution in dogs under lethal gamma irradiation 22 p3493 A71-42718

- Abdomen shielding effects on chromosome aberrations in bone marrow cells of guinea pigs and rats under gamma irradiation 22 p3493 A71-42719

- High energy proton irradiation of rats with partial shielding of abdominal region, observing pathomorphological changes in myocardium, nervous system and radiosensitive organs 22 p3493 A71-42721

- Rat organs pathomorphological changes under gamma neutron irradiation with head and abdomen shielding, noting intestines early damage 22 p3493 A71-42722

- Manned spacecraft radiation protection against cosmic rays, considering proton attenuation in shielding materials and dose formation in body tissues 24 p3801 A71-44889

RADIATION SICKNESS

- Muric preparation effect on DNA and RNA contents in hemopoietic organs during acute radiation sickness due to low power radiation 01 p0013 A71-11118

- Antihistamine treatment of hypotension and early transient incapacitation in monkeys under supralethal mixed gamma-neutron radiation 11 p1720 A71-26118

- Radiation sickness prophylaxis chemical compounds, discussing protection mechanisms, radical inactivation and afflicted cell recovery 22 p3505 A71-42710

- Partial body shielding effects on rats radiation sickness survival rates under gamma-neutron radiation, comparing head and belly shielding effectiveness at different intensities 22 p3492 A71-42716

- Head and abdomen shielding effects on radiation sickness evolution in dogs under lethal gamma irradiation 22 p3493 A71-42718

- White rats resistance to acute anoxic, anemic and histotoxic hypoxia during various phases of X radiation sickness, studying adrenal cortex histophysiological state 22 p3494 A71-42731

RADIATION SOURCES

NT MONOCHROMATORS

NT NEUTRON SOURCES

NT POINT SOURCES

- Criticism of paper on synchrotron sources energy spectra formation, examining time dependent spectrum on boundary conditions
11 p1832 A71-26170
- Binary system of neutron star paired with matter-losing star, discussing X ray emission variability causes
12 p1956 A71-26605
- Milky Way Galaxy X ray sources, discussing bremsstrahlung, synchrotron radiation, Compton effect optical objects, supernova remnants and X ray astronomy
12 p1959 A71-26780
- Cosmic IR sources model based on assumption of cosmic ray particles emitting galactic sources surrounded by dust shells absorbing and reemitting energy
12 p1947 A71-26933
- Quasars and X ray sources, observing UVB magnitude variation with photoelectric data
12 p1963 A71-27077
- Cosmic ray diffusion from discrete sources in random galactic location, studying chemical constituents anisotropy and age with scattering model
12 p1948 A71-27367
- Atmospheric altitude of soft X ray source volume in solar flares from optical and radio observations
12 p1954 A71-27709
- Laser resonator properties with flat outlying mirrors, examining stimulated radiation generation and energy distribution
12 p1916 A71-27764
- Soft X ray background source, discussing north polar galactic spur as supernova outburst remnant
14 p2298 A71-29732
- German book on radiation climate of earth covering EM, corpuscular IR radiation sources, spectral composition, biological effects, etc
14 p2298 A71-29941
- Intense vacuum UV atomic line source excited in 2450 MHz microwave discharge cavity with clean spectrum, noting window deterioration and self absorption
14 p2240 A71-30127
- Aries-Taurus region as soft X ray source, determining energy flux and source
14 p2301 A71-30426
- High thrust density colloid emitting source development as basic microthruster for electrostatic propulsion systems
14 p2293 A71-30753
- [AIAA PAPER 71-694]
Laser radiation source time and spatial coherence effect on brightness distribution of image produced by hologram
15 p2402 A71-31254
- Fourier transform holography with partially coherent light from incoherent quasi-monochromatic source, considering bias problem
15 p2402 A71-31256
- Galactic discrete X ray sources identification with black nebulae, H II regions, close binary stars, Wolf-Rayet stars and planetary nebulae
15 p2482 A71-31330
- Neutron stars with pulsar characteristics in binary systems, discussing matter accretion relationship to X ray source evolution
15 p2483 A71-31342
- Thermal X ray sources associated with rotating collapsed stars with surrounding plasma shells, discussing plasma density profile and electron distribution in stellar magnetosphere
15 p2497 A71-32762
- Cygnus X-1 distance estimate based on low energy X ray spectrum obtained by sounding rocket
15 p2497 A71-32763
- Radiation from electrostatic waves in thin current sheet in geomagnetic tail into cold magnetized plasma, noting wave damping for wide frequency range
16 p2562 A71-32805
- Continuously tunable pulsed UV source using broadband dye laser emission input to rotatable KDP crystal
16 p2586 A71-33141
- Extragalactic cosmic X ray source, at high galactic latitude from sounding rocket experiments, correlating with galactic clusters
16 p2626 A71-33357
- Rotation measure and intrinsic angle of Crab pulsar emission, discussing optical and radio radiation origin
16 p2634 A71-33390
- Solar UV radiation data during 7 March 1970 eclipse from photometers sensitive to narrow bands, discussing sources, atmospheric absorption and D region ionosphere
16 p2627 A71-33773
- Solar flare X-ray emission source position during eclipse of 7 March 1970, using OSO-5 satellite data
16 p2627 A71-33813
- Cyg X-1 X ray intensity and energy spectrum variation data, using balloon-borne telescope
16 p2629 A71-34076
- Large amplitude periodic X ray pulsations from Centaurus X-3, observing abrupt source intensity and pulse rate changes
17 p2798 A71-34375
- Radiation source consisting of porous wall heated internally by hot gas, noting application as high altitude or space flare
17 p2728 A71-34888
- Critique of Vela 4 scattered Lyman alpha experiment, discussing maximum flux region and radiation intensity
17 p2805 A71-35380
- Coma cluster X ray source data from Uhuru satellite, observing size, luminosity, spectra, thermal bremsstrahlung mass and stability
17 p2796 A71-35413
- Vela X supernova remnant blast wave model and Gum Nebula formation, discussing kinetic and rotational energy transformation into radiation
17 p2807 A71-35414
- Lyman alpha resonant radiation in regions distant from cometary tails due to additional atomic hydrogen production from dust particles
17 p2809 A71-35595
- Extragalactic objects luminosity upper limits in hard gamma ray band, using Cosmos 208 scintillation Cerenkov telescope
17 p2796 A71-35736
- High intensity continuous gas discharge line source for extreme UV with low electromagnetic interference
18 p2914 A71-35845
- IR astronomy review covering semiconductor detectors and astronomical radiation sources including thermal and nonthermal sources
18 p2959 A71-35909
- IR radiation sources, discussing intermediate and early stars, galactic nucleus and extragalactic sources
18 p2958 A71-37029
- X ray source Cygnus X-1 position determination by Aerobee rocket-borne rotating modulation collimator
18 p2970 A71-37053
- Quasars and X ray sources, observing UVB magnitude variation with photoelectric data
19 p3133 A71-37427
- Nighttime D region behavior under ionization by X ray spectrum of Scorpius source
19 p3017 A71-37864
- Rotating magnetic white dwarf stars possibility as X ray sources with thermal spectrum, considering evidence based on Sco X-1 emission relationship to bremsstrahlung
19 p3127 A71-38010
- High peak power microwave oscillators, discussing pulsed limited space charge accumulation and TRAPATT diodes pulsed radiation sources performance
19 p3029 A71-38294
- Optimal radiant source power for photoelectric two axis autocollimation angle trackers, considering detector threshold sensitivity
19 p3067 A71-38659
- Finite thickness infinite slab with radiation from time dependent source, solving nonhomogeneous boundary value problem for linear transport equation
20 p3269 A71-39079
- Uniformly moving homogeneous isotropic non-dispersive conducting medium with arbitrarily distributed electromagnetic radiation sources, deriving solution in four dimensional covariant form
20 p3196 A71-39083
- Gamma radiation due to cosmic rays interaction with Mars surface/atmosphere and natural radioactive rocks elements decay, calculating intensity and spectral composition
20 p3280 A71-39630
- X ray rocket observations of Sco X-1 on 7-8 August 1969 compared to simultaneous optical observation, interpreting in terms of hot plasma model
20 p3283 A71-39751
- Vela pulsar interstellar scattering, studying pulse broadening, rotation measure and radiation origin near magnetic pole
20 p3303 A71-39937
- Jupiter and Saturn IR radiation sources, radio emission storms, magnetic fields, life existence, Grand Tour missions, etc
21 p3442 A71-40150
- Double radio emission sources during occultation period, noting structure, angular size components, positional errors and association to quasars
21 p3443 A71-40189
- Cosmic X and gamma radiation, discussing galactic and extragalactic sources, generation processes and spectrometric characteristics
21 p3438 A71-40522
- HF gravitational radiation due to quantum transitions, studying absorption, emission and sources
21 p3439 A71-40612
- Cen X-3 source X ray flux periodic variations due to white dwarf star radial vibrations based on nonrotating model
21 p3449 A71-40613
- Earth resources survey satellites, discussing natural sources/radiation, matter-energy interactions and perturbing media, remote sensors, space applications and reconnaissance
21 p3455 A71-40910
- High voltage source model for fast neutral particles, showing energy and yield as function of potential, pressure and magnetic field
21 p3421 A71-41295
- X ray variable source GX 1 plus 4 balloon observations in sky region near galactic center
22 p3592 A71-41927
- Circinus pulsating X ray source spectrum analysis, considering bremsstrahlung and black body models
22 p3592 A71-41928
- Variations in 10 micron flux from NGC 1068, noting strong nucleus emission modulation
22 p3605 A71-42397
- Galactic discrete X ray sources identification with black nebulae, H II regions, close binary stars, Wolf-Rayet stars and planetary nebulae
22 p3606 A71-42605
- Pulsar characteristics suppression in neutron stars of binary systems, discussing matter accretion relationship to X ray source evolution
22 p3606 A71-42617
- Highly compact X ray source spectrum fitted by black body model at 15 million K
23 p3732 A71-43076
- Scorpius X-1 optical and X ray flux transient short period oscillations correlation from Aerobee sounding rocket data
23 p3733 A71-43077
- Scorpius X-1 X ray flux observations, noting high frequency oscillations responsible for radiation production
23 p3733 A71-43078
- X ray astronomy, considering emissions and intensities of various classes of sources
23 p3736 A71-43449

Precision calibration system with adjustable temperature extended radiance source for long wavelength IR radiometer, discussing performance tests

23 p3676 A71-43512

Cosmic X ray astronomy, considering discrete sources and isotropic background X radiation

23 p3768 A71-43863

Cygnus X1 short term X ray flux pulsation variability from Southern Hemisphere sounding rocket flight

24 p3865 A71-44445

Vela X and Puppis A soft X ray observations using rocket-borne methane counter

24 p3866 A71-44907

X ray sources pulsation limits and locations determination by rocket-borne rotating modulation collimator

24 p3866 A71-44914

Galactic nucleus X ray source observations by Uhuru satellite, discussing emission and absorption spectra

24 p3866 A71-44915

Radiation spectral and kinetic characteristics in neodymium glass laser in frequency scanning mode

01 p0095 A71-11029

Body radiative properties, examining degree of blackness dependence on surface roughness factor

02 p0331 A71-12188

Radio sources LF spectra distortions at critical value brightness temperature, noting induced Compton scattering effect on ambient gas thermal electrons

02 p0317 A71-12865

Venus spectra 10488 A carbon dioxide band from high dispersion spectroscopy

03 p0488 A71-13556

Extragalactic LF background radiation spectra, using model for free-free absorption in galactic disk

03 p0473 A71-13563

Concave mirror interferometer for laser radiation spectra measurements, featuring piezoelectrically tuned optical system

03 p0439 A71-14000

Radiation spectra kinetics of compound ruby lasers containing two crystals and Nicol prism

05 p0763 A71-16830

Absolute particle spectra above atmosphere and magnetosphere during solar flare of 23 February 1956

05 p0800 A71-17198

Solar modulation variation of secondary cosmic ray energy spectra, noting dependence on atmospheric depth and geomagnetic cut-off

06 p0955 A71-18135

Moon momentum spectra and charge ratio at 60 deg in east-west plane

06 p0961 A71-18176

Ce 138 excited states identification in beta decay spectra of Pr 138m and Pr 138 sources, using proton target bombardment

07 p1163 A71-19547

Ammonia inversion radiation at 1.25 cm in direction of three galactic center sources, setting upper limits on densities in other areas

07 p1188 A71-19834

Acoustic radiation spectra from turbulent jets, assuming approximate Gaussian statistics and second order velocity correlation space-time characteristics obtainable from frozen flow

07 p1016 A71-19959

Cosmic ray modulation spectrum function properties during Forbush decrease by spectrographic analysis

08 p1352 A71-20968

Statistics effect of quasi-monochromatic exciting radiation on generated radiation spectrum in nonlinear optics

09 p1461 A71-22396

High energy gamma rays in steady state universe assuming primary cosmic ray spectrum in extragalactic space by simple power law

10 p1664 A71-25045

Absolute spectra above atmosphere and magnetosphere and of particles accelerated in solar atmosphere during solar flare of 23 February 1956

13 p2128 A71-28253

Planetary nebula NGC 7009 narrow band filter photographs and spectra, detailing emission lines, intensity and velocity variations and model

14 p2313 A71-30430

Primary cosmic rays spectrum and intensity data in 4 to 10 BeV range, evaluating albedo particle effects

14 p2301 A71-30590

Body radiative properties, examining degree of blackness dependence on surface roughness factor

15 p2512 A71-31495

Cosmic ray rigidities spectra measurements above geomagnetic cutoff using balloon-borne emulsion plates in superconducting magnet field

15 p2407 A71-31805

Equatorial airglow enhancement data, observing 6300 and 5577 A intensity variations

16 p2562 A71-32809

Analytic approximations for ionization structure of nebula photoionized by flat spectrum

16 p2632 A71-33319

Low energy solar X-ray emission spectra observations, discussing nonthermal electron spectrum relation to acceleration by electric fields

16 p2626 A71-33725

Operational calibration of airborne IR spectrometer over hydrogeologically significant terrains, obtaining radiance spectra

18 p2920 A71-36363

Stellar rotation effects on radiation spectral characteristics, calculating He line profiles by LTE method

19 p3143 A71-38158

Electron distribution functions construction from spectrum of laser light Thomson scattering by rarefied plasma

19 p3074 A71-38215

Earth radiation flux spectral intensity measurements, noting latitudinal distributions, day and night variations and oceanic and continental curves

19 p3056 A71-38355

Galactic high energy electron differential spectrum, estimating spatial distribution and random magnetic field intensity

19 p3129 A71-38358

Cosmic ray spectrum at nonrelativistic energy region, noting ionization loss effects

19 p3129 A71-38359

Electromagnetic phenomena extraneous to established scientific and engineering disciplines, considering eclipotics, dowsing, hydronics, radionics, radiesthesia, orgone, backster phenomena, etc

19 p3031 A71-38441

Spectral measurements of nitrogen continuum radiation behind incident shocks at high speeds, suggesting free bound neutral atom-electron interactions origin

19 p3172 A71-38718

Spectrum and galactic isotropy of diffuse cosmic X rays by balloon-borne detector

21 p3438 A71-40605

Sea level high energy cosmic ray muon spectra calculation based on phenomenological model of nucleon-nucleus collisions

22 p3594 A71-42408

Magnetic modulation observation in plasma light scattering spectra experiments, noting dependence on angle between scattering and magnetic field vectors

23 p3713 A71-44150

Pulsar 0833-45 LF radiation spectrum decrease explained by pulse broadening due to interstellar scattering

24 p3868 A71-44565

Solar cosmic ray spectra at time of ejection from flare region and arrival near earth

24 p3866 A71-45040

RADIATION THERAPY

Mumie preparation effect on DNA and RNA contents in hemopoietic organs during acute radiation sickness due to low power radiation

01 p0013 A71-11118

L-erythro-alpha, beta-dihydroxybutyraldehyde radiosensitizing effect on adrenocarcinoma Ehrlich ascites tumor cells

07 p1035 A71-18952

Tumor DNA increase of halogenated pyrimidines incorporation compared to normal tissue DNA, discussing infraarterial infusion of radiosensitizing agents

07 p1040 A71-18989

Bromouridine as radiosensitizing agent improving effectiveness of radiation therapy of malignant brain tumor cells

07 p1040 A71-18990

Taurine restorative effect in patients with marked leucopenia induced by radiotherapy

07 p1040 A71-18991

Cystamine hydrochloride or vitamin B complex with vitamin C for radiation sickness prevention and therapy

22 p3493 A71-42723

RADIATION TOLERANCE

Optical bonding agent for calcite prism on Pioneer F/G mission, emphasizing optical and mechanical properties resistance to Jupiter high energy particles

01 p0081 A71-10835

Lithium concentration and defects in doped radiation resistant silicon solar cells during electron irradiation

05 p0703 A71-16089

Li doped Si solar cells recovery after irradiation, examining temperature dependence

05 p0704 A71-16105

Primary immune response chemical radioprotection in white mice during gamma irradiation, using serotonin as chemical protective and sheep red blood cells as immunizing agents

05 p0710 A71-16816

Ruby Q switched lasers with modular electro-optic shutters for low insertion loss and high optical radiation resistance

06 p0908 A71-18303

Radiation protection and sensitization - Conference, Rome, May 1969

07 p1031 A71-18926

Molecular mechanisms of bacterial cell radiosensitization and protection, discussing radiation produced free radicals interactions

07 p1031 A71-18927

Laboratory and clinical investigations of radiosensitization of cells and viruses by halogenated pyrimidine analogs

07 p1032 A71-18929

Sulfhydryl cysteamine and disulfide cystamine effect on bacteriophage survival rate at high anaerobic doses

07 p1033 A71-18938

DNA modification in Escherichia coli exposed to X rays and sensitized by triacetoneamine N-oxyl and oxygen

07 p1033 A71-18939

Cysteine incorporation in Escherichia coli B, noting X ray sensitivity and radioprotection

07 p1034 A71-18942

Radioreistant yeast strain Saccharomyces cerevisiae, discussing cycloheximide and gamma irradiation treatment influence on growth

07 p1034 A71-18943

Bacteria and mammalian cells radiosensitization, using phenylglyoxal and various carbonyl compounds

07 p1034 A71-18944

Age dependent changes in mammalian cells radiosensitivity, emphasizing endogenous nonprotein sulphhydryl effects

07 p1034 A71-18945

Drug-radiation damage interaction relationship to radiosensitization in mammalian cells

07 p1034 A71-18946

Organic free radical radioprotective and radiosensitizing effect, reporting Chinese hamster cell line survival characteristics after treatment

07 p1035 A71-18949

Radiosensitizers indanetrione, menadione Synkavit and N-ethylmaleimide, noting effects on murine ascitic tumor

07 p1035 A71-18950

Polycation effect on tumor cells, describing growth rate inhibitions, X ray sensitivity and DNA interference

07 p1035 A71-18951

L-erythro-alpha, beta-dihydroxybutyraldehyde radiosensitizing effect on adrenocarcinoma Ehrlich ascites tumor cells

07 p1035 A71-18952

Mouse Ehrlich ascites tumor cells, examining Co-60 gamma ray influence in presence of radiosensitizing 5,8-dihydroxypсорalen

07 p1035 A71-18953

Radiosensitizing effect of iodine compounds in dilute solution on Ehrlich ascites tumor cells and SH enzymes

07 p1036 A71-18957

Mitomycin C radiosensitizing effect on hematopoietic colony forming cells, using technique based on bone marrow cells spleen colonies forming ability

07 p1036 A71-18958

Anoxic fern spores X ray sensitization, observing diacetyl and isatin effects

07 p1036 A71-18961

Embryo chemical sensitization to low radiation doses damage by radiosensitizer iodoacetamide

07 p1037 A71-18963

Cytotoxic and radiosensitizing effect of thiol binding agents iodoacetamide (IAA), N-ethylmaleimide (NEM) and iodoacetic acid (IA) on crypt cells of mice duodenum

07 p1038 A71-18975

O-barenylacetic and methyl-O-benylcarboxylic acids effects on mice radiosensitivity to fast neutrons and gamma rays

07 p1038 A71-18976

Failure criteria percentages for bipolar transistors, determining adequacy of Weibull distribution for low gamma ray dose survival probability
07 p1071 A71-19064

Radiation resistance of center fed dipole antenna with transversely displaced feed points, using Schell-kunoff moment method
07 p1075 A71-19267

Radiation tolerant monolithic amplifier design, considering IF amplifier
07 p1080 A71-20411

Q switched and continuous laser collimated radiation exposure limits for eye cornea and skin, discussing environmental contamination
09 p1402 A71-23414

Seasonal effect on daily periodicity of mice radiosensitivity related to changes in bright/dark daytime proportion and feeding
10 p1565 A71-24654

Satellite square loop antennas radiation resistance in warm plasma, comparing calculated values with Ariel 3 satellite measurements
12 p1883 A71-27700

Radiation resistance of Alford loop antenna immersed in warm plasma, comparing theoretical values with measurements from Ariel 3 satellite experiment
13 p2034 A71-29290

Radiative capacity of materials with low thermal conductivity at high temperatures determination from reflectivity measurements for oblique light incidence
14 p2240 A71-30051

Antenna radiation resistance and efficiency in dissipative medium, using concept of modified power density
17 p2701 A71-34764

Nonplanar dipole antenna with transversely displaced feed points, considering effects on far field radiation patterns, radiation resistance, power gain, effective aperture and efficiency
18 p2887 A71-35970

Feed point axial displacement effects on radiation resistance and patterns of dipole antenna in weakly ionized plasma
18 p2875 A71-35971

Nonplanar dipole antenna with arbitrarily displaced feedpoints, considering far field radiation patterns, radiation resistance, power gain, effective aperture and efficiency
18 p2887 A71-35970

Radiation hardening of silicon solar cells, analyzing performance in low temperature environments
18 p2852 A71-36963

Equipment survival in natural and nuclear explosion electromagnetic and particle radiation environment
19 p3027 A71-37450

Semiconductor neutron hardness assurance by irradiation of wafer, probe, die rejection and anneal screening technique
19 p3034 A71-38520

Radiation resistance of small filamentary loop antenna in cold collisionless uniform multicomponent magnetoplasma, assuming uniform current distribution along loop
19 p3023 A71-38594

Surface cover materials thermal radiation characteristics and radiation resistance of plastics and solar cells, discussing friction in vacuum and spacecraft surface contamination by outgassing
20 p3210 A71-39453

Radioprotectants effect on mice against ionizing radiation and tolerance to back-to-chest accelerations in space flight
21 p3330 A71-40345

Radiation resistance, power gain, effective aperture and efficiency of modified log periodic dipole antenna
21 p3352 A71-40378

Living organisms life-sustaining possibility under simulated Martian temperature, humidity and atmospheric composition conditions, emphasizing unicellular organisms radiation resistance
21 p3334 A71-40572

High energy proton irradiation of rats with partial shielding of abdominal region, observing pathomorphological changes in myocardium, nervous system and radiosensitive organs
22 p3493 A71-42721

Mice under combined gamma radiation and vibration and acceleration dynamic factors, studying radioresistance recovery rate
22 p3494 A71-42725

Vibration influence on peripheral blood reaction to gamma radiation in dogs, using clinico-hematological indices
22 p3494 A71-42728

Unicellular organisms increased tolerance to UV radiation, discussing cells repairing ability in dark and pigments and protective compounds screening role
22 p3496 A71-42828

Polyethylene coating physicochemical properties under UV radiation, discussing density and modulus of elasticity, internal stresses, microcrack formation and preventive heat treatment
23 p3697 A71-44032

RADIATIVE HEAT TRANSFER

Nongray equilibrium radiative heat transfer in viscous radiating shock layer around blunt body entering high temperature nonisothermal carbon dioxide-nitrogen atmosphere
[AIAA PAPER 69-636] 01 p0180 A71-10938

Physiological effects of heat exchange between human organism and ambient medium by evaporation, radiation, conduction and convection
01 p0028 A71-11597

Long wave radiation fluxes calculation in troposphere based on principal radiant heat transfer components separation
02 p0277 A71-12117

Venus equatorial stratosphere structure, presenting approximate radiative dynamical calculation for zonal flow mechanism
03 p0488 A71-13552

Radiative and convective heat transfer from conducting fins on plane surface, describing interactions among heat conduction and radiant exchange
[ASME PAPER 70-HT-F] 03 p0519 A71-13701

High temperature gases radiative heat exchange, evaluating approximation methods
03 p0519 A71-13744

Radiative properties of construction properties and working media, noting importance to radiative heat transfer calculation
03 p0519 A71-13747

Radiation heat transfer from parallel plates with grooved surfaces for direction dependent radiation properties
03 p0521 A71-14293

Minimum core storage forms for radiant heat transfer doubly subscripted nonsymmetric equations, giving simple modifications for interchange between emitting and reflecting surfaces
03 p0522 A71-14454

Heat transfer - Conference, Versailles, August-September 1970, Volume 3, Forced convection and radiation
04 p0681 A71-15484

Total radiative interchange kernel measurements, describing remote excitation/detection
04 p0684 A71-15511

Radiative heat transfer between opaque interacting surfaces, investigating surface roughness effects
04 p0684 A71-15513

Radiative/convective heat transfer in moving media, reducing boundary problem to integral equations
04 p0685 A71-15514

Thermal radiation-conduction interaction in horizontal fluid layer, obtaining temperature profiles with Mach-Zehnder interferometer
04 p0685 A71-15515

Axisymmetrical, optically thick nonNewtonian, power law boundary layer with injection and suction, obtaining similarity transformations for simultaneous convection and radiation
04 p0685 A71-15516

Thermal radiation absorbing and emitting medium in flow between parallel plates, examining heat transfer for simultaneous radiation and convection
04 p0685 A71-15517

Blunt body nose protection from radiation-convective heat transfer, using porous injection of radiation absorbing substance
04 p0685 A71-15518

Atmospheric temperature, computing carbon dioxide concentration effect on radiative heating rates
05 p0742 A71-16677

Local radiative heat transfer and equilibrium temperature between identical uniform surface geometry planes, discussing directional dependent emittance and absorptance effects
[AIAA PAPER 71-76] 06 p1008 A71-18533

Heat transfer by radiation, convection and molecular thermal conductivity in gray absorbing medium flat layer bounded by parallel diffusively radiating planes
07 p1219 A71-18757

Radiative heat transfer during entry into shocked Venus model atmosphere
07 p1199 A71-19870

Radiant heat transfer from heated cylindrical enclosure with black/gray walls to absorbing gas or gas having black particles, calculating absorption coefficients
07 p1224 A71-20018

Combustion chamber radiant heat transfer measurements, describing radiometer
08 p1288 A71-21270

Combined radiative-convective heating test facility for atmospheric entry simulation
[AIAA PAPER 71-255] 08 p1273 A71-21984

Thermospheric heating by solar radiation in Schumann-Runge continuum, taking into account height and atmospheric components distribution
09 p1435 A71-22431

Steady one dimensional temperature field of cylindrical shell spacecraft, allowing for heat conduction and convective and radiative heat transfer within shell
09 p1546 A71-23148

Selective optical coatings efficiency and thermal properties under solar radiation and radiative heat exchange
09 p1510 A71-23418

Supernovae light curves theory based on numerical integration of gas dynamics and radiative heat conductivity equations
09 p1528 A71-23591

Turbulent mixing and radiative transfer relationship to micrometeorological temperature structure of atmospheric boundary layer
10 p1638 A71-23878

Mass entrainment products effect on radiative and convective heat transfer during decomposition of graphite blunt body in steady hypersonic flow of radiating air
10 p1696 A71-24364

Higher approximations of spherical harmonic method and moment method applied to propagation of periodic disturbances in radiating gas
10 p1696 A71-24545

Perturbation theory of supersonic flow with nonequilibrium radiative heat transfer, investigating pressure, density, temperature and velocity as function of relaxation time
10 p1697 A71-24943

IR radiative heat transfer in nongray nonisothermal gases, giving solutions for radiative equilibrium and combined conduction and radiation
10 p1698 A71-25094

Thermal louvers radiative heat transfer characteristics with solar irradiation effects, using Monte Carlo method
11 p1854 A71-25190

Satellite solar radiative heat input variations effect on optimal launch time, considering angular factor and thermal design
11 p1836 A71-25192

Radiatively interacting adjacent plates in presence of collimated solar flux, considering surface roughness effects on equilibrium temperature distribution
[AIAA PAPER 70-817] 11 p1854 A71-25511

Atmospheric modeling for earth and Venus heterosphere structure using multicomponent radiative hydrodynamic equations, determining atmospheric temperature and constituents height variation
11 p1828 A71-25764

Earth atmospheric zonal circulation model, using hydrothermodynamic equations with Newton law for radiative heat sources
11 p1795 A71-25919

Nongray surface property effects on radiant heat transfer between interacting opaque surfaces, analyzing spectral emittance wavelength and temperature dependence
[AIAA PAPER 71-464] 11 p1859 A71-26245

Spacecraft radiator thermal scale model, using forced convection, conduction and radiation heat transfer
11 p1860 A71-26517

Venusian atmosphere heat transfer processes, calculating radiant fluxes and convective motion model
12 p1958 A71-26640

Venus subcloud layer, investigating radiant heat transfer in convective lower atmosphere
12 p1958 A71-26646

Flowfields behind reflected shock waves, predicting end-wall pressure, radiative heat transfer and radiative gas dynamic coupling effects
[AIAA PAPER 70-774] 12 p1986 A71-27562

Soviet papers on upper atmosphere physics covering thermosphere, dynamic processes and radiative energy transport in stratosphere and mesosphere, and ionospheric parameters radio measurement
13 p2056 A71-28017

Upper atmosphere radiative energy transport equation derivation with allowance for deviations from Kirchhoff law, examining fluorescence mechanism and effect on radiative heating
13 p2057 A71-28025

Heat exchange during stabilized laminar flow of incompressible liquid in circular pipe with radiative cooling, deriving temperature profile and Nusselt number dependence
13 p2046 A71-28180

Radiant heat transfer measurements on sintered gauzes, considering mathematical model of porous wall with sweat cooling
13 p2161 A71-28750

Combined conductive and radiative heat transfer in absorbing and scattering materials, using two-flux model for transport and local energy balance equations solution
13 p2164 A71-28983

Honeycomb cell multilayer and reinforced structures, examining temperature field radiative heat transport and thermal conductivity and emissivity
13 p2165 A71-29180

Radiative and convective heat transfer for stagnation point flow of emitting carbon dioxide and nitrogen gas mixture, assuming thermodynamic equilibrium in shock layer
14 p2335 A71-30212

German monograph on network method application for conductive and radiative energy transfer coupling problems
14 p2336 A71-30231

Nuclear light bulb engine based on thermal radiation energy transfer from gaseous uranium fuel through internally cooled transparent wall to seeded hydrogen [AIAA PAPER 71-642] 14 p2274 A71-30719

Radiative heat transfer equilibrium in earth, Venus and Mars atmospheres, taking into account interaction with ground 15 p2395 A71-31448

Radiative heat transfer effects on small fires in zero gravity spacecraft and free falling chamber environments from diffusion flame models 15 p2514 A71-32084

Radiative heat transfer effects behind reflected and incident shock waves in high temperature air and xenon respectively 16 p2662 A71-32888

Temperature stabilization with self controlled water and radiation cooled heat pipes using argon in addition to K heat transfer medium 16 p2663 A71-34039

Optimal radiative capacity of star shaped radiator with mirror reflecting surfaces for vacuum cooling of elongated finned bodies 17 p2836 A71-34311

Cooling fin shape optimization for minimum volume, considering convective and radiative heat exchange for assumed temperature distribution 17 p2837 A71-34442

Radiative heat transfer in model water clouds by IR radiation, using method of discrete ordinates 17 p2735 A71-35560

Nonlinear radiative heat transfer in hydrogen plasma gas, obtaining temperature distributions 19 p3161 A71-37404

Radiative heat transfer in atomic lines through shock heated nonhomogeneous gases by analytical frequency integration, using separability approximation 19 p3162 A71-37407

Reflecting and ablating Teflon heat shields for radiative environment of outer planets atmosphere [AAS PAPER 71-147] 19 p3084 A71-37950

Radiation heat transfer volume interchange factors approximation for gases with nonuniform temperature, composition or pressure, comparing with exact numerical computations [ASME PAPER 71-HT-19] 19 p3164 A71-37990

Transient simultaneous conductive and radiative heat transfer in plane gray layer bounded by black walls, yielding nonlinear integrodifferential equation [ASME PAPER 71-HT-22] 19 p3165 A71-37993

Vertical motions, turbulent heat exchange and radiative heat input role in stratus clouds evolution, deriving humidity and heat transfer equations as functions of time 19 p3093 A71-38690

Earth atmospheric zonal circulation model, using hydrothermodynamic equations with Newton law for radiative heat sources 20 p3256 A71-39210

Heat transfer by radiation, conduction and convection, including various types of thermal insulation 20 p3311 A71-39244

Radiative-conductive heat transfer systems optimum thermal design, using nonlinear programming with mathematical model based on nodal analysis [ASME PAPER 71-VIBR-120] 21 p3474 A71-40339

Soviet book on long wavelength radiative heat exchange in atmosphere covering radiation relationship to circulation, cloud formation and weather prediction 21 p3411 A71-40873

Thermal stress distribution and temperature profiles in nearly opaque spherical shell under radiant and convective heating flux 21 p3476 A71-40942

Atmospheric rotation, anisotropic turbulence and long wave radiative heat transfer effects on cellular heat convection 21 p3412 A71-41387

Atmospheric modeling for earth and Venus heterosphere structure using multicomponent radiative hydrodynamic equations for atmospheric temperature and constituents height variation determination 22 p3598 A71-41532

Radiative and turbulent heat transfer in atmospheric surface layer, measuring radiative heat flux divergence and temperature fluctuations at different heights 22 p3534 A71-41860

Conductive and radiative axial heat transfer in packed/stagnant beds at 20-750 C, giving temperature profiles 22 p3620 A71-41877

Combined radiative and conductive heat transfer prediction in semitransparent solids by Taylor series expansion, defining radiative conductivity 22 p3620 A71-41883

Radiative heat transfer from lunar and Mercurian surfaces during eclipse 22 p3603 A71-42188

Laminar incompressible flow velocities and heat transfer by radiation and convection in inlet section of parallel plate duct 23 p3781 A71-43313

Nonstationary radiative heat transfer between cylindrical body and ambient medium, determining regular heating condition region 23 p3782 A71-43921

Radiant heat flux measurement during pulsed processes from surface in high temperature emitting gas, using thin film sensor with small time constant 23 p3782 A71-43922

Two dimensional radiative heat transfer in absorbing-emitting medium bounded by nonisothermal gray walls from Monte Carlo simulation, showing gas emissive power distribution 23 p3784 A71-44276

Nongray radiative heat transfer in finite slab with discrete absorption coefficient and specularly and diffusely reflecting boundary surfaces of uniform temperature 24 p3886 A71-44372

Solar coronal plasma radiative capacity and temperature structure from cooling function in thermal balance equation 24 p3869 A71-44806

Heat exchange during stabilized laminar flow of incompressible liquid in circular pipe with radiative cooling, deriving temperature profile and Nusselt number dependence 24 p3888 A71-44933

RADIATIVE LIFETIME

Fluorine ions excited levels mean lives from beam-foil line spectrum analysis 01 p0129 A71-10138

Ne, Ar, Kr and Xe ionized states transition and level lifetimes from photographically recorded beam foil spectra, discussing particle energies 04 p0629 A71-14805

Vibrationally excited ground state hydroxyl in fast flow system, considering mean radiative lifetime and reaction rate with ozone 08 p1250 A71-20662

Boron and carbon hydrides and carbon deuteride molecular ions radiative lifetime measurements, computing absolute oscillator strengths 08 p1250 A71-20671

Metastable radiative lifetimes of molecular states of nitrogen and CO, using time of flight and high resolution electron gun techniques 09 p1497 A71-22417

O I and II resonance transitions radiative lifetimes in vacuum UV, using beam foil method 10 p1676 A71-24501

Radiative lifetimes of UV multiplets in atomic C, N and O, using modified phase shift technique 10 p1645 A71-24547

Radiative mean lives and transition probabilities of electronic states in beam foil excited atomic and ionic carbon 11 p1803 A71-26061

Benzene, benzene-d sub 6 and sulfur dioxide radiative lifetime measurement comparison, investigating internal conversion behavior 14 p2190 A71-30570

Oxygen /super IS/ effective lifetime measurements in pulsating aurora, discussing mechanisms, quenching coefficients and heights 15 p2397 A71-31762

Ca, Mg, B and Al prominent resonance transitions radiative lifetimes and absolute oscillator strengths 15 p2452 A71-32596

Radiative mean life measurements by low energy beam foil excitation, considering branching ratio of transition probabilities equal to unity 16 p2576 A71-33051

Ion beam-foil produced oxygen spectra in wavelength range between 450 and 2200 A, determining mean radiative lives of O I - O VI excitation levels 16 p2529 A71-33183

Cosmic rays lifetime in Galaxy in presence of particle acceleration in interstellar space 16 p2626 A71-33463

Carbon monoxide in metastable state, considering quenching and radiative lifetime 16 p2615 A71-34089

Dynamic rate equation model of single wavelength flash lamp pumped rhodamine dye laser accounting for short molecular triplet state lifetimes 18 p2929 A71-35958

Deactivation and radiative lifetime of CO Cameron forbidden transition spectral bands produced by photon absorption 21 p3418 A71-40232

RADIATIVE RECOMBINATION

Stimulated recombination radiation from PbSe laser diodes at 77 K, showing stepwise curve of emission power vs pumping current 01 p0094 A71-10780

H-He partially ionized plasma bremsstrahlung, radiative and dielectronic recombination, discrete levels excitation and collisional ionization 05 p0787 A71-16489

Gallium phosphide current carriers radiative recombination, discussing electro- and photoluminescence phenomena 06 p0940 A71-17350

Nanosecond laser produced lithium hydride spherical plasma expansion model, taking into account three body and radiative recombinations 06 p0938 A71-18457

Recombination emission by atoms or radicals used with population for inversion thermal gas laser production 07 p1128 A71-20529

Metastable atom destruction, collision-radiative recombination and electron heating in low temperature decaying helium plasmas, using spectroscopic resonance line measurements 10 p1654 A71-24896

Li photoionization cross sections determined from spectral intensity measurements as function of threshold wavelength, discussing radiative electron-ion recombination into first excited state 10 p1646 A71-24992

Argon ionization and recombination in solar corona at electron temperatures of 2.0-4.5 times ten to sixth power K 11 p1832 A71-26180

Low temperature plasma collisional-radiative ionization and recombination coefficients, discussing nonequilibrium factors affecting electron density change rate 12 p1939 A71-27270

Collisional radiative volume recombination and ionization coefficients for quasi-stationary helium, considering singlet and triplet systems as two coupled individual systems 13 p2106 A71-28452

Metastable atom destruction, collision-radiative recombination and electron heating in low temperature decaying helium plasmas, using spectroscopic resonance line measurements 21 p3425 A71-41276

Jovian ionospheric electron and ion densities and temperatures, considering radiative association role 22 p3603 A71-42181

RADIATIVE TRANSFER

NT RADIATIVE HEAT TRANSFER

Galactic EM energy radiation, discussing flux upper limits in Low model 01 p1533 A71-10364

Radiative transfer equations averaging over quantum angles and energies, discussing use for nonsteady gas dynamic problems 01 p0179 A71-10666

Radiation transfer equation in extended hot stellar atmospheres, discussing scattering effects due to free electrons 01 p0158 A71-10802

Radiative transfer in plane layer of nongray absorbing and emitting medium bounded by black parallel plates, using rectangular model 01 p0180 A71-10945

Optical scatter channel transmission characteristics, using mathematical model consistent with radiative transfer theory and probability-computing receiver 02 p0249 A71-12012

Radiative transfer by shock profile spectral line in thermally inhomogeneous layers of radiating gas 02 p0240 A71-12184

Transformation properties of radiation field and electromagnetic energy fluxes of relativistic charged particles in magnetic field 02 p0312 A71-12362

Book on stellar atmospheres covering radiative transfer, opacity, equation of state, LTE, line spectra, atomic levels, etc 03 p0483 A71-13100

Solar chromosphere model, investigating radiative transfer effect on temperature structure of plane slab heated by thermal conduction 03 p0483 A71-13186

Cyclotron radiation emission and absorption in nonequilibrium plasma, deriving radiative transfer equation 03 p0465 A71-14268

German monograph on radiative transport in freely expanding gas clouds covering analytical and numerical calculations and experiments 03 p0418 A71-14369

Radiative transfer equation for atmospheres of rotating stars, deriving expression for flux distribution 03 p0495 A71-14381

Soviet book on optical properties of hot air covering spectral lines, radiative transfer, cross sections, pressure effects and absorptivity 03 p0460 A71-14397

Discrete values of inverse diffusion length occurring in solutions of anisotropic transfer equations 04 p0642 A71-14904

Soviet book on optics of scattering media covering visible radiation transfer in water, atmosphere, powders, tissues, dyes, inhomogeneous systems and photometry 04 p0626 A71-15224

Radiatively driven acoustic waves, studying radiative transfer-gas motion interaction under local molecular equilibrium for vibrational rate processes 05 p0836 A71-16532

One dimensional gas flow with radiative transfer, using time dependent difference scheme

05 p0735 A71-16714

Radiative transfer in nonuniform turbid medium with constant absorption coefficient

05 p0742 A71-16840

Unsteady heat conduction due to radiative energy transfer in dispersed powders, hydrosols and aerosols

06 p1009 A71-18729

Gas ionization relaxation phenomena behind strong shock waves, discussing ionization kinetics, radiation transfer effects, relaxation time and radiative heating

07 p1087 A71-19172

Radiation transport equations for stellar atmosphere model with variable depth magnetic field, considering absorption line formation and polarization characteristics

07 p1205 A71-20637

Low temperature plasma radiation transfer equation, discussing constraints to applicability in real radiation transfer problems

08 p1339 A71-21055

Atmospheric emission and absorption measurements at millimeter wavelengths, comparing with radiative transfer equation values

08 p1257 A71-21880

Radiative transfer theory extended to cosmological red shift and expansion effects on uniform isotropic X rays and gamma rays in homogeneous intergalactic medium

09 p1512 A71-22333

Optical-electrical analogy of thermal radiation impedance of thin dielectric films in low temperature insulation

09 p1494 A71-23003

Molecular flux distributions and capture by cryopanel in space simulation chamber using homogeneously emitting spherical gas source

09 p1428 A71-23006

Spherical harmonics differential approximation generalized from one dimensional radiation specific intensity angular dependence Jacobi polynomial expansion

10 p1696 A71-24536

Steady state photon transfer through homogeneous semiinfinite isothermal atmosphere with two level atoms, deriving linear integral equation for escape probability distribution

10 p1643 A71-24964

Vibrational nonequilibrium influence on IR radiative energy transfer in nongray nonisothermal gases

10 p1643 A71-24967

Analytic approximations in closed form for curves of growth of Doppler-Lorentz broadened lines, considering radiative transport in nonisotropic gases

10 p1646 A71-24991

Polarized radiation transfer in collective plasma, analyzing proper modes phase correlation effects by Liouville equation perturbation technique

10 p1654 A71-24996

Radiative transfer in nongray gas with local molecular and slightly disturbed radiative equilibrium, deriving linearized differential equation with application to radiatively driven acoustic waves

10 p1697 A71-25065

Spherically symmetric radiative transfer problems, constructing model with neutron transport theory [AIAA PAPER 71-466]

11 p1859 A71-26247

Visible and IR radiative transfer in water and ice clouds, calculating radiance and polarization from Mie theory

11 p1800 A71-26299

Quantitative UV radiative transfer and photolysis in model Jupiter atmosphere, considering coloration by ammonia and hydrogen sulfide gases in cloud region

11 p1834 A71-26455

Fredholm equation solution for radiative transfer between parallel plate configuration at midpoint

13 p2159 A71-27981

Electron scattering effects on spectral emission at optical and X ray wavelengths for homogeneous spherical ionized hydrogen plasma cloud, discussing radiation transfer

14 p2297 A71-29592

Galactic Lyman alpha emission, describing radiative transfer in radiation diffusion

14 p2306 A71-29683

Spherically symmetric systems radiative transfer problems using iteration on Eddington factor

14 p2307 A71-29864

Low temperature plasma radiation transfer equation, computing problems with absorption coefficient accounting for re-emission

14 p2280 A71-30168

Least squares method for inversion of radiative transfer equation, considering atmospheric temperature profiles determination from outgoing radiance

14 p2337 A71-30296

Atmospheric optics and radiative transfer, including earth albedo, sky brightness, heat balance, cloud/rain reflectance, molecular spectroscopy and multiple scattering

14 p2275 A71-30497

Radiative transfer equations averaging over quantum angles and energies, discussing use for nonsteady gas dynamic problems

14 p2339 A71-30999

Semiinfinite atmospheric multiple conservative Rayleigh scattering, describing polarized radiation transfer

15 p2449 A71-31333

Radiative transfer by shock profile spectral line in thermally inhomogeneous layers of radiating gas

15 p2511 A71-31492

Coupled radiative transfer-gas dynamic interactions in unsteady wave propagation, two dimensional steady flows and atmospheric motions

15 p2515 A71-32562

Bondi condition gravity waves, investigating radiation and energy transfer in given coordinate system

15 p2451 A71-32726

Radiative energy transfer equations solution in magnetic field, facilitating magnetograph calibration

15 p2496 A71-32740

Diffuse interstellar medium hydrogen radio recombination lines radiation transfer, investigating thermodynamic equilibrium effects

15 p2498 A71-32770

Rayleigh scattering planetary atmosphere radiative transfer equation, calculating phase curves for flux and polarization

15 p2498 A71-32778

Altitude and amplitude of winter stratospheric warmings from satellite measured radiance changes, considering radiative transfer equation and variable model of temperature structure

16 p2605 A71-33537

Radiation field inhomogeneity effect on radiation gas jet flow, taking into account radiative energy transfer by differential approximation

17 p2728 A71-35117

Non-LTE problems computation based on integral equation approach, using discrete operator for radiative transfer equation solution

17 p2808 A71-35552

Pulsating variable star spectral line formation from integral equation solution of radiative transfer and gas flow through shock front

17 p2808 A71-35553

Newton-Raphson method application to iterative solution of atomic excitations and radiative transfer in plasma

17 p2838 A71-35554

Radiative transfer in two-component stellar atmosphere, discussing lines corresponding to solar Ca K-line

17 p2839 A71-35555

Gray radiative transfer equations, bridging Planck and Rosseland mean absorption coefficients

17 p2839 A71-35557

Model cloudy atmosphere construction, reviewing computational techniques for radiative transfer analysis

17 p2735 A71-35559

Model radiative transfer across random air-sea interface, determining reflected sky radiance

17 p2736 A71-35562

Direct numerical integration for equation of radiative transfer in turbid atmosphere with allowance for scattering on molecules and aerosols

17 p2736 A71-35564

Radiative transfer in terrestrial clouds, inferring colloidal state from measurements of multiple scattering angular and wavelength dependence

17 p2736 A71-35566

Variational principle with reflectivity extremum for inhomogeneous planetary atmospheric line spectra profile calculation from radiative transfer equation

18 p2964 A71-36286

Physics and phenomenology of radiation field in spectral lines, considering radiation transfer with optical depth effects and kinetic energy transformation into radiation

18 p2968 A71-37035

Absorption intensities of R branch J manifolds of methane band, using half widths and pressure shifts

19 p3106 A71-37410

Sobolev function Q in radiative transfer, using invariant imbedding approach for integral equation transform

19 p3133 A71-37506

Surface relief effect on radiative properties of solid body with random surface roughness distribution

19 p3162 A71-37581

Radiation temperature profiles in low pressure oxygen-calcium wire diffusion flames from optical measurements based on radiative transfer equation

19 p3170 A71-38115

Radiative ignition of polymeric fuels /polystyrene and epoxy/ in oxygen/nitrogen mixtures

19 p3121 A71-38125

Nonlinear coupling between thermal conduction and radiative transfer in solar chromosphere by iterative method

19 p3143 A71-38159

Radiative transfer in inhomogeneous anisotropically scattering spherical shell atmospheres with radial symmetry, using invariant imbedding technique

20 p3287 A71-39082

Aircraft sounding of atmospheric microwave radiation transfer compared with IR method, measuring optical Mie characteristics, water vapor content, cloudiness, ice cover, etc

20 p3259 A71-39673

Ionization relaxation phenomena behind strong shock waves, discussing ionization kinetics, radiation transfer effects, relaxation time and radiative heating

21 p3365 A71-40087

Gas dynamic model for coupled vibrational and radiative nonequilibrium in carbon dioxide, obtaining macroscopic collisional and radiative transfer equations

21 p3418 A71-40233

Radiative transfer effects on hydromagnetic stellar atmospheres thermal-convective instability in presence of uniform rotation and uniform magnetic field

21 p3421 A71-40579

Diffuse radiation field inside homogeneous spherically symmetric dust nebula from radiative transfer equation solution as expansion after Legendre polynomials

21 p3451 A71-40716

UV and IR transmissivity and absorption coefficients of fused quartz between room temperature and 1500 C

22 p3565 A71-42559

Semiinfinite atmospheric multiple conservative Rayleigh scattering, describing polarized radiation transfer

22 p3576 A71-42608

Isotropic light scattering in unsteady plane layer of finite optical thickness, obtaining reflection and transmission coefficients for radiative transfer

22 p3607 A71-42869

Phase dependent spectra of Cepheids from multifrequency group calculations in radiative transfer model

23 p3723 A71-42946

Bondi condition gravitational waves, investigating radiation and energy transfer in given coordinate system

23 p3704 A71-43300

Iterative solution for radiant energy transport equation by Wiener Hopf operator equations, investigating convergence conditions

23 p3699 A71-43573

Spherical stellar atmosphere radiative transfer equation, using regional averaging method with opacity dependence on layer geometrical radius

23 p3766 A71-43828

Multiple scattering theory of Neumann transfer boundary value problems, showing Neumann intensity expansion coefficients relation to singular normal modes

24 p3848 A71-44788

Radiative thermal flux model of Venus atmosphere, using Venera data and greenhouse effect

24 p3870 A71-44822

Radiative transfer in linearly anisotropic scattering conservative and nonconservative slabs with reflective boundaries, obtaining angular radiation distribution by normal mode expansion technique

24 p3888 A71-44966

RADIATORS

Radiator systems field calculation based on waveguide and resonator excitation method, noting field amplitudes in two and three dimensional arrays

01 p0038 A71-11202

Plane curvilinear radiators synthesis for horizontal or vertical radiation patterns, obtaining current phase amplitude distributions by symmetrical striplines

01 p0056 A71-11205

Radiator system field calculation based on waveguide and resonator excitation method, noting field amplitudes in two and three dimensional arrays

17 p2697 A71-34254

Plane curvilinear radiators synthesis from horizontal or vertical radiation patterns, obtaining current phase amplitude distributions by symmetrical striplines

17 p2697 A71-34257

RADICALS

Dissociative electron attachment excess energy correlation with fragment ion translational energies, determining radical affinity

08 p1338 A71-21782

Excited radical and ion formation in unperturbed acetylene-air and superimposed HF discharge flames, determining activation energy

09 p1402 A71-22379

Propulsion system atom and radical concentrations measurements, using low pressure gas discharge flow system for combustion environment control

11 p1729 A71-26285

Flash photolysis produced methyl and methylene radical transitions maximum extinction coefficients and oscillator strength in vacuum UV

12 p1876 A71-26788

- Interstellar formyl radical and carbon 13 formyl ion search in galactic radio sources 13 p2142 A71-29103
- Radical and formaldehyde daytime concentrations predictions from steady state model of unpolluted surface atmosphere 16 p2575 A71-34048
- RADIO**
- Planet Mars polar and equatorial radii optical measurements comparison with radar and Mariner probes occultations results, determining optical ellipticity 03 p0493 A71-14200
- Gravity anomaly and lunar radar measurement at Apollo 12 landing site, using data telemetered to earth from surface module 16 p2636 A71-33507
- RADIO ALTIMETERS**
- Doppler radar velocity sensors and altimeters for lunar and planetary spacecraft instruments soft landing 04 p0597 A71-15324
- Radar altimeter use for ocean roughness determination 07 p1095 A71-18824
- Frequency modulated radio altimeters, discussing problems of altitude measurement independent of airplane motions in pitch and roll and immunity to fog effects 15 p2408 A71-31918
- Geodetic and oceanographic surface mapping by satellite radar altimeter system, discussing measurement technique, orbital parameters and data processing equipment [AIAA PAPER 71-845] 17 p2733 A71-34708
- GEOS-C geodetic satellite purpose and equipment, discussing earth gravitational field study, radar altimeter possibility and tracking systems usefulness 20 p3306 A71-39657
- Tidal analysis of sea surface elevations from satellite-borne altimeter as function of instrument errors and orbital determinations 22 p3536 A71-42549
- RADIO ANTENNAS**
- VHF/UHF telemetry antenna stellar calibration using radio stars 01 p0054 A71-10909
- Low loss cylinder loop as normalization antenna for meter waves 01 p0055 A71-11187
- Monograph on dual beam parabolic antennas in radio astronomy covering atmospheric effects, EM surface current density and scalar aperture field, etc 07 p1077 A71-19725
- Radio propagation and antennas transmission formulas, discussing fundamental circuit elements with inductors and capacitors 11 p1798 A71-25596
- Refractive errors in spaced antenna radio angle-of-elevation measurements based on comparison with use of single directional antenna 12 p1881 A71-27424
- Signal rejection characteristics of receiver preselector and antenna system, requiring receiver mixer efficiency and transmitter parameters 13 p2032 A71-28862
- Transhorizon radio propagation by atmospheric heterogeneities, discussing effect on attenuation, antenna gain reduction and transmission bandwidth 13 p2033 A71-29239
- Active antennas for frequency range 100 kHz to 250 MHz, discussing transistor circuitry optimization with respect to noise and linearity 14 p2210 A71-29822
- Airborne blade antenna tunable for 26-100 MHz by individual bands, using binary related inductors switched by miniature high vacuum relays 14 p2216 A71-31044
- Light aircraft notch antenna for efficient radiation at HF band lower end and minimal interference with aircraft structure 14 p2217 A71-31053
- Radio direction finding with discrete antenna scanning and multilevel beacon signal quantization, investigating accuracy 15 p2370 A71-31591
- Antenna tracking, RF and boresight alignment on ships and ground stations using Apollo lunar surface experiments package /ALSEP/ 18 p2876 A71-36473
- Minimum spacing between two base station antennas for mobile radio diversity reception 19 p3014 A71-37217
- Noise factor formula of multiple loop receiver input network with series connected stages for antenna matching and coupling parameters 19 p3022 A71-38498
- Linear antenna in anisotropic plasma, calculating reactance change with surrounding dielectric layer thickness with allowance for ion depletion 20 p3204 A71-39142

- H85 alpha recombination line in planetary nebula NGC 7027, considering IR physical parameters consistent with radio observations 14 p2313 A71-30432
- Radio pulses from Crab Nebula pulsar NP 0532, determining multipath scattering delay distribution function and distortion 14 p2314 A71-30641
- Galactic nebula YM 29 radiometric observations showing thermal source, mass and Balmer line fluxes comparable to planetary nebula 14 p2314 A71-30643
- Radioheliographic 80 MHz observations of harmonic type 2 solar burst near limb flare 15 p2472 A71-31688
- Culgoora 80 MHz radioheliographic observations of 13 October 1969 harmonic solar type 2 burst attributed to explosive flare behind west limb 15 p2472 A71-31689
- Harmonic type 3 solar bursts radioheliographic observations, discussing polarization characteristics 15 p2473 A71-31691
- Moving type 4 solar radio burst observation on 10 October 1969 with radioheliograph, noting circular polarization, movement direction, speed and structure 15 p2473 A71-31694

Lunar radioactive layer effective thickness by radio astronomical methods and from Apollo 11 flight
15 p2486 A71-31892

Mars radio spectrum discrepancy with elementary theory, assessing microwave observations
15 p2490 A71-32416

Data processing technique for radio mapping of sun, discussing unwanted harmonics elimination and noise reduction
15 p2491 A71-32447

Diffuse interstellar medium hydrogen radio recombination lines radiation transfer, investigating thermodynamic equilibrium effects
15 p2498 A71-32770

Dense interstellar cloud radio recombination lines in H I regions, calculating quadrupole effects on line splitting
15 p2498 A71-32771

Cygnus-X region radio photography, presenting radio brightness intensity modulated display supplementing contour map
16 p2630 A71-33124

Radio contour map of Crab nebula at 3.5 mm, giving brightness distribution and flux density
16 p2632 A71-33235

Fixed base two element interferometer for radio astronomy, obtaining beavertail radiation pattern by use of earth rotation
16 p2579 A71-33486

Radio astronomy signals reception and interpretation, detailing solar, galactic and extragalactic spectrum sources
17 p2797 A71-34242

Space radio astronomy, discussing frequency range in terrestrial atmosphere, RAE-1 satellite, cosmic and solar emissions and magnetopause generation, propagation and absorption processes
17 p2797 A71-34243

Decimeter wave multichannel spectrograph design for radio astronomy, stressing HF section
17 p2739 A71-34600

Lunar microwave thermal emission observation and theoretical predictions based on lunar surface models
17 p2804 A71-35177

Pulsar polarization characteristics and pulse profile observations in 250-450 MHz range
17 p2807 A71-35417

Filled aperture antennas for radio astronomy, considering mm wave observations, parabolic cylinder antennas and active/passive control of antenna surfaces
18 p2901 A71-37036

Radio astronomy, covering invisible stars discovery and instrumentation techniques comparison with UV and X ray astronomy
19 p3131 A71-37342

Cosmic radio astronomy, evaluating sensitivity and resolution limitation of ground based radio telescopes
19 p3138 A71-37762

Planetary LF radio emission experiments on Grand Tours, discussing models and spectrum, polarization, position and time variation measurements
19 p3141 A71-37965

Radio sources position data table based on high accuracy telescope observation including calibration uncertainties and measurement random errors
19 p3142 A71-38008

Electromagnetic compatibility in radio astronomy, discussing frequency spectrum pollution and national radio quiet zone
19 p3032 A71-38454

Joint American-Soviet astronomical radio interferometry, discussing resolution and quasar and galaxies structural difference
19 p3145 A71-38569

Monochromatic radio emission from decihertz years distant stars, discussing search experiment by low noise multichannel receivers
20 p3291 A71-39319

Microwave spectral line receivers for radio astronomy observation of molecular clouds in interstellar space
20 p3238 A71-39401

IAU Executive Committee, General Assembly and commissions reports on astronomy, including manuscripts preparation guidelines, handbook, etc
20 p3315 A71-39425

Heat release from elemental decay in radioactive layer from radio astronomical observations and lunar rock chemical analysis
20 p3295 A71-39620

Saturn planetary system optical and radio observations during 1966, discussing Janus satellite, D ring, rarefied envelope and brightness temperature distribution
20 p3297 A71-39632

Radio telescopic search for extraterrestrial oxygen 18 containing water microwave emission, suggesting water vapor maser pumping mechanism dependence on isotopic species
21 p3444 A71-40223

Cas A and Cyg A radio stars scintillation measurement by two element phase switched interferometers in ionospheric irregularities study
21 p3378 A71-40377

Radio observation for radial velocities in center region of Perseus cluster of galaxies
21 p3445 A71-40408

Tabular listing of frequency allocations for space services and radio astronomy made at Extraordinary Administrative Radio Conference
21 p3348 A71-40476

High resolution astronomical radio interferometry, discussing radio telescope system design
21 p3452 A71-41052

Australian National Radio Astronomy Observatory integrated time and frequency system with cesium beam frequency standard and digital computer for real time operation
22 p3547 A71-42498

Extragalactic radio sources catalog from Parkes Australian National Radio Astronomy Observatory 2700 MHz survey of plus/minus 4 deg zone and selected regions
22 p3607 A71-42769

Maffei 2 spiral galaxy hydrogen line and adjacent continuum observation by radio interferometry
23 p3733 A71-43080

Radio astronomic intercontinental base interferometry, discussing independent local oscillators requirements and atomic clock frequency standards
23 p3674 A71-43087

Planetary nebulae microwave radiation emission survey by Algonquin Radio Observatory, determining flux densities
23 p3769 A71-43988

RADIO ASTRONOMY EXPLORER SATELLITE
RAE satellite flexible boom vibration, obtaining antenna boom static deflection, natural frequencies and thermal bending effects
[ASME PAPER 71-DE-J]
12 p1977 A71-27319

RADIO ATTENUATION
Signal detection processes selection and components sizing for stand for echometric measurement of attenuation in long distance waveguide connection
01 p0029 A71-10309

Polar aurora pulsations of 4-12 sec intensity with associated cosmic radio noise absorption, using photometric measurements
02 p0242 A71-11761

Space-time structure of ionospheric regions of anomalous radio wave absorption during auroras, discussing ionization region
02 p0243 A71-11765

ELF and VLF radio attenuation for propagation below inhomogeneous isotropic ionosphere with realistic vertical variation models for electron density and collision frequency
02 p0212 A71-11964

Nondissipative focusing and ionospheric reflecting effects on MF radio wave absorption measurements for magnetically quiet and disturbed periods
03 p0409 A71-13391

Attenuation and phase velocities of ELF slow tail atmospherics for easterly and westerly nighttime propagation over Pacific Ocean
04 p0552 A71-15217

D region electron density profile relation to radio wave absorption frequency dependence
05 p0746 A71-17204

Time structure of auroral radio absorption from magnetically conjugate and closely spaced observations
06 p0892 A71-17977

Ionospheric radio wave absorption above polar aurora during solar activity minimum, discussing diurnal and annual behavior
09 p1435 A71-22429

Effect of asymmetrical inviscid flow from Trailblazer flight measurements, discussing windward leeward attenuation variation in transmitted VHF signal
09 p1406 A71-22916

Direct broadcast television service by satellite transmission, calculating trees and woods effects on attenuation and suggesting receiving system design modification
09 p1408 A71-23384

Venus atmosphere mm and cm radio wave propagation calculated from temperature, pressure and chemical composition data
11 p1823 A71-25695

Obliquely incident radio wave absorptions measurements from January-October 1968 vertical ionospheric soundings, correlating diurnal variations with solar zenith angular changes
11 p1732 A71-25787

Winter day absorption variability of HF radio waves reflected at oblique incidence from ionosphere, using ray tracing method
13 p2027 A71-27799

Nondeviative absorption of RF signal at 2.2 MHz in presence of cusp type sporadic E layer
13 p2055 A71-27926

D region electron density profile relation to radio wave absorption frequency dependence
13 p2059 A71-28259

Electron density profile determination in D region based on frequency dependence of radio waves absorption, discussing lower ionosphere anomalous ionization
13 p2061 A71-28539

Radio propagation attenuation calculation by tropodiffusion, using meteorological parameters from Brazilian weather stations
14 p2192 A71-29573

Venusian atmosphere RF refractive attenuation height dependence, field strength measurements comparison, inversion layer influence and surface echoes effects
14 p2309 A71-30098

Ionospheric absorption of 20 MHz radio waves as function of solar activity level, using electron density and temperature profiles
15 p2401 A71-32686

Ionospheric absorption measurements at 272 kHz, using surface wave attenuation factor as calibration technique
16 p2562 A71-33072

Percent-of-time distributions of attenuation by rain, clouds and atmospheric gases on earth-space paths at frequencies below 30 GHz
17 p2704 A71-35089

Radiometric measurements of frequency distribution of radio emission attenuation due to troposphere, noting sun-earth communication paths
17 p2707 A71-35124

Solar activity effects on equatorial ionospheric absorption of radio waves, deriving solar cycle constant
19 p3055 A71-38042

F region radio wave absorption dependence on electron-ion temperature difference from energy balance considerations, testing by radar backscatter measurements
19 p3055 A71-38045

D region ionization by electron fluxes as explanation for latitudinal radio wave absorption
19 p3057 A71-38370

Recalculated radio wave absorption during oblique transit through ionosphere from vertical measurements using rhombic antenna at 25 MHz
19 p3058 A71-38388

Broadband antenna twist reflector with wire grids, deriving design formulas and theoretical performance in terms of polarization attenuation
19 p3036 A71-38606

Rain attenuation measurements, noting limitations on microwave transmission at SHF
19 p3024 A71-38612

Cumulonimbus cloud hail danger, precipitation and water content measurements with scattering and attenuation of centimeter radar waves, including automated echo subtraction device
19 p3094 A71-38700

Sensitivity requirements for attenuation measurement radio receivers, considering minimum input SNR for absolute measurement error not to exceed preestablished value
20 p3197 A71-39550

Obliquely incident radio wave absorptions measurements from January-October 1968 vertical ionospheric soundings, correlating diurnal variations with solar zenith angular changes
22 p3509 A71-41555

Ionospheric geomagnetic field effect on ELF/VLF radio propagation
23 p3643 A71-42967

Phase integral correction for reflected radio wave absorption in ionosphere, comparing with ray theory
23 p3643 A71-42969

Stratospheric warmings effect on F 2 region parameters and ionospheric radio wave absorption, assessing time lag
23 p3673 A71-44049

Atmospheric vertical humidity profile from ground measurements of radio wave absorption at 1.35 cm water vapor line
24 p3822 A71-44820

Radio absorption in lower ionosphere, determining vertical distribution of electron density and production rates from solar protons energy spectrum
24 p3867 A71-45041

RADIO AURORAS
Magnetically conjugate range-time observations of E region radio aurora by pulsed VHF radar echoes
18 p2875 A71-35963

Radio and optical aurora correlation and control by polar electrojet, using VHF backscatter and geomagnetic recordings
20 p3229 A71-39853

Auroral ELF and VLF emission at high latitudes, discussing chorus and hiss generation regions and noise mechanism
20 p3229 A71-39854

RADIO BEACONS
Microwave local oscillator and beacon generator for Intelsat 3, discussing design, operation and performance
06 p0877 A71-18400

Sea trials with dummy payloads of sounding rocket recovery systems, using parachutes, flotation torus, radio beacons, fluorescent dyes and smoke generators
06 p0881 A71-18674

- French Geol spatial system utilization in polar zones, combining satellite with ground beacons, telemetry ground receiving station and computer 10 p1599 A71-23860
- Modeling of differences between actual and estimated flight times over radio beacon, obtaining cumulative frequency distributions 13 p2167 A71-28490
- Radio direction finding with discrete antenna scanning and multilevel beacon signal quantization, investigating accuracy 15 p2370 A71-31591
- Geodetic system with satellites and automatic radio beacons, establishing network on earth surface to track isolated points 18 p2913 A71-36529
- Single seater turbojet aircraft landing via automatic band switch for ARK-5 and ARK-10 radio compass 19 p3101 A71-38017
- Automatic pulsating locator beacons and receivers to determine emergency transmitters locations, using satellites with computer analysis 20 p3261 A71-38865
- Pulsars radio wave emission characteristics, intensity variation, duration, bandwidth, similarity to space radio beacons and evidence as neutron stars 21 p3442 A71-40144

Optimum positioning and structure of light hogged antenna masts for radio communications and broadcasting networks 01 p0068 A71-11085

Cassegrain antenna electrical and structural design and control system for microwave propagation and communication research, using moon reflected signals as atmospheric probes 02 p0234 A71-12806

Extraterrestrial civilizations, discussing probability theory and radio communication 06 p0852 A71-17739

Radio amateur satellites contribution to space research and communications 07 p1057 A71-18814

Radio communication system hypersonic delay lines, investigating coupled resonators matching efficiency in parallel and series connection 07 p1074 A71-19142

Short wave communication channel quality estimate for discrete signal transmission based on signal level variations calculation with allowance for ionospheric parameters 08 p1252 A71-20773

Statistical properties of radio communication system polarization reception coefficient as function of receiving antenna and signal polarization characteristics 09 p1405 A71-22294

Optimal two stage signal search in frequency vs arrival time indeterminacy plane of communication system 10 p1579 A71-24714

Digital synthesizers design and operation for radio communications, discussing reception and transmiss-

sion noise performance, frequency stability and acquisition time 10 p1579 A71-24757

Airborne radio communication systems, stressing electronic equipment design reliability 12 p1878 A71-26880

Radio communication accuracy characteristics in calculation of maximum frequency, skip distance and emission angle by transmission curves for midlatitude ionosphere 13 p2030 A71-28544

Multichannel modular tropospheric scatter equipment as economic solution for medium range HF communication 13 p2034 A71-29317

ATS 1 and 3 satellite VHF transponders for ships and aircraft location, communication and remote sensing, discussing performance test results 14 p2198 A71-30898

Lunar roving vehicle telecommunication system requirements concerning vehicle functions, science experiments, crew operations and safety 14 p2200 A71-30915

Helicopter aerial design problems, considering antenna multiplicity use of nonmetallic structures and complexity of airborne radio systems 14 p2217 A71-31048

Communication blackout during missile and spacecraft high altitude flight, considering convective effects on gas breakdown by microwaves 14 p2206 A71-31071

Space radio communications, considering radio links reliability between multistage launcher rocket and ground stations 17 p2696 A71-34228

International radio regulations adopted by Geneva space conference with reference to frequency band allocations in 1-10 GHz range with equal rights to space and terrestrial services 17 p2697 A71-34246

International cooperation in space radio science, considering real time telemetry application via Solrad, Tiros and Alouette satellites 17 p2697 A71-34252

Radio communication system optimization from viewpoints of global synthesis including economics and partial synthesis based on noise stability, precision and reliability 17 p2698 A71-34392

Radio engineering of signal detection, filtration, information processing and recognition, discussing game theory methods for problems solution 17 p2698 A71-34393

Short wave frequency-diversity radio communication systems operating at extremal frequencies of group, estimating noise reduction effectiveness 17 p2698 A71-34395

Single sideband mechanical filters for voice multiplex transmission in radio and telephone systems, discussing material characteristics 17 p2714 A71-34608

Space radio communication - Conference, Paris, March 1971 17 p2699 A71-34676

Averaging method for nonlinear oscillations in celestial mechanics, radio engineering and electronics and for time lag, random forces and integrodifferential equations 17 p2779 A71-34904

Airborne communications with AN/ARC-154 transceiver in single radio, discussing extended frequency coverage, multimode operation, navigation and input/output provisions 17 p2775 A71-35758

Omnidirectional one slot aerial energized by dielectric waveguide for hypersonic vehicle-ground communication through ionized shock layer [ONERA-TP-949] 18 p2887 A71-36022

Earth-spacecraft radio communication requirements for future unmanned planetary missions, emphasizing imaging experiments and sensors 18 p2877 A71-36518

Performance characteristics and reuse intervals of high capacity mobile radio systems with dynamic channel assignment, using computer simulations 19 p3014 A71-37216

Radio wave propagation studies evolution, considering ionospheric signal reflection, equipment optimal characteristics and transversed medium composition and properties probing 19 p3016 A71-37341

Intercontinental point to point radio communication, discussing Hertzian beam /radio relay links/ and satellite communication comparison with underground and submarine cables 19 p3016 A71-37343

Marine navigation and data communications at L band via synchronous satellite, assessing capabilities by tests on ATS-5 satellite 19 p3102 A71-38070

RF communications spectrum pollution, discussing corrective and preventive electromagnetic compatibility measures 19 p3020 A71-38427

Soviet monograph on astronomical foundation of meteor communications, covering radio wave scattering by meteor trails and computer simulation of signal time-amplitude characteristics 21 p3349 A71-41373

Electronic broad banding of VLF/LF antennas for FSK radio communication through switched magnetically coupled reactor, determining antenna transient response 22 p3513 A71-42388

RADIO CONTROL

Telecontrolled Rotomobile flying crane with jet powered lifting rotor for carrying heavy loads over short distances 10 p1556 A71-24420

Radio controlled small aircraft as measurement platform for meteorological sensors, discussing development and performance from field tests 17 p2675 A71-35334

Soviet book on radio control of various flight vehicles covering closed loop synthesis, missile guidance, spacecraft trajectory correction and air traffic control 17 p2775 A71-35403

RADIO DIRECTION FINDERS

Frequency selective conical scanning for direction finding earth station antennas for communication satellite automatic tracking, using waveguide mode conversion 02 p0223 A71-12809

Satellite tracking by radio direction finder, noting periodic azimuth deviations related to ionospheric Faraday effect 03 p0377 A71-13169

Direction finding problems involving several waves of same frequency, discussing nonlinear computation methods with hybrid computers 06 p0927 A71-18205

Phase locked automatic direction finder /ADF/ flight test results, indicating signal to noise threshold reduction by coherent detection 07 p1057 A71-18815

Wideband microwave monopulse radar direction finding techniques, discussing concept, operation theory, characteristic equations and error analysis 07 p1059 A71-18846

Rawin system performance and technical features, describing radio direction finder design, operation, capabilities and carrier balloons 08 p1330 A71-21741

Radio direction finding of celestial bodies from moving platform, determining plane rotation effects on angle measurements 09 p1532 A71-22661

Phase sector direction finder for VHF range, using log periodic dipole arrays 11 p1738 A71-26338

Direction finder for point source signals from two simultaneous transmitters 14 p2210 A71-29810

Emitter location techniques for airborne passive ECM, discussing accuracies in terms of geometry, sample number, random and bias errors 15 p2375 A71-31205

Radio direction finding with discrete antenna scanning and multilevel beacon signal quantization, investigating accuracy 15 p2370 A71-31591

Polarization direction finder determining electromagnetic waves azimuth on basis of field intensity vectors 19 p3014 A71-37074

Atmosphere meteorological sounding, measuring geodetic quadrangle sides and diagonals by aircraft radio direction finder 19 p3065 A71-38175

Multicomponent signal arrival angles wave front analysis from antenna array phase and amplitude measurements for radio direction finding 24 p3803 A71-44647

RADIO ECHOES

Faint sporadic meteors mass distribution from forward and backscatter of radio echoes 01 p0151 A71-10254

Signal detection processes selection and components sizing for stand for echometric measurement of attenuation in long distance waveguide connection 01 p0029 A71-10309

D region electron density time variations, using partial radio reflection technique during solar eclipse of 20 May 1966 03 p0407 A71-13379

FM radio link fluctuating intermodulation distortions reduction by additive superpositioning of several compensating echoes with adaptive equalizer 03 p0380 A71-14334

Beam-plasma mechanism of very long delayed radio echoes from ionosphere 03 p0381 A71-14552

Electron concentration vertical profile in ionosphere as function of altitude of radio wave reflection and group refraction and velocity characteristics 06 p0895 A71-18278

- Group delay times criterion of multibeam propagation of ionospheric radio echoes for communications systems 06 p0869 A71-18281
- Topside sounders received frequencies of oblique echoes at plasma resonance, using WKB technique 07 p1168 A71-19676
- Trapped waveguide mode frequency of whispering gallery propagation in F region explaining round world echoes and long distance satellite observations 10 p1577 A71-24292
- Echo reflections and transition through critical coupling in D and E regions at low and medium frequencies, using nighttime electron density distributions 11 p1754 A71-25601
- Far ionospheric propagation of round-the-world echo signals from Moscow to Antarctic station Molodezhnaia and back to Moscow 11 p1731 A71-25773
- Small scale F layer inhomogeneities parameters and motion characteristics from radio echo observations 13 p2056 A71-27935
- Monograph on persistent radio meteor echoes fading relation to upper atmosphere wind structure 14 p2192 A71-29579
- Receiver triangle size effect on ionospheric drifts near 2 MHz, using partial and total reflections from lower ionosphere 14 p2230 A71-29710
- E layer phase height measurements with spaced receivers without ultra stable oscillators, calculating scale height 14 p2230 A71-29712
- Optimal noncoherent receiver for signal detection in mixture of noise and chaotic echoes in media with frequency dependent attenuation 15 p2369 A71-31231
- Ground based HF radio sounding of earth magnetosphere echoes due to propagation along electron density enhancement 15 p2398 A71-31769
- Magnetospheric whistler mode signal propagation paths and amplification, investigating echoes of ground to satellite transmission 19 p3016 A71-37400
- Polarization ellipse and depolarization coefficients for monochromatic radio waves reflected from F 2 ionosphere using Stokes parameters 19 p3056 A71-38362
- Electron concentration and collisions number fluctuations effect on D region profiles based on radio waves partial reflection data 19 p3057 A71-38365
- Meteor bodies mass distribution function for Geminid stream, determining parameter S from radio echoes 19 p3145 A71-38528
- Incident meteor flux density seasonal variations from radio reflections from trains and light scattering from micrometeoroids 20 p3298 A71-39642
- Sporadic and shower meteoroids mass distribution temporal variations as function of magnitude and solar longitude from visual and radio echo measurements 20 p3298 A71-39643
- Auroral radio reflections mechanism in terms of auroral plasma instability processes, identifying ion acoustic wave characteristics among other echo components 20 p3199 A71-39852
- Far ionospheric propagation of round-the-world echo signals from Moscow to Antarctic station Molodezhnaia and back to Moscow 22 p3509 A71-41541
- Rocket and radio wave wind profiles from 60 km to E region near 53N, presenting partial reflections and zonal winds time cross section 23 p3700 A71-43343
- Radio echoes from clouds and precipitation, determining detection threshold, station potential and statistical distribution numerical characteristics 24 p3844 A71-44879
- Cloud and precipitation effects on radio echoes intensity measurement, discussing pulse dimensions influence on average signal magnitude 24 p3845 A71-44881
- Radio echo average power measurement errors due to clouds 24 p3845 A71-44882
- Multiple mismatch reflection and mode conversion echo effect on error rate in guided millimeter wave phase shift keying systems 24 p3804 A71-44989
- Diurnal fluctuations in radio echo producing ionospheric region horizontal scale and height, discussing dependence on solar position 24 p3804 A71-45042
- RADIO ELECTRONICS**
- Soviet book on nonlinear and parametric radio circuits covering amplification, detection, modulation, oscillation generation and frequency division, multiplication and conversion 06 p0867 A71-17441
- Soviet papers on nonlinear and microwave radio engineering systems covering antenna arrays, tunnel diode multivibrators and binary logic elements, sub-harmonic oscillators, etc 11 p1739 A71-26535
- Culgoora radioheliograph electronic imaging system for diffraction pattern generation 24 p3828 A71-45205
- RADIO EMISSION**
- NT SOLAR RADIO BURSTS
- NT SOLAR RADIO EMISSION
- NT TYPE 2 BURSTS
- NT TYPE 3 BURSTS
- NT TYPE 4 BURSTS
- Explosion shock wave induced short wave radio emission, deriving time related gas ionization state of wave front 02 p0284 A71-11927
- Lunar radio emission measurements at 1.42 mm, using radio telescope and wideband superheterodyne radiometer 02 p0309 A71-12104
- Planetary and lunar thermal radio emission and brightness temperature measurements using sensitive receivers and large aperture radio telescopes 02 p0309 A71-12155
- Turbulent plasma radio emission theory of photon production and transport, considering application to quasars 02 p0292 A71-12587
- Small radio sources emission, examining correlation with optical photometric properties abnormalities 02 p0317 A71-12863
- Radio emission upper limits from galaxies in Markarian catalog 02 p0317 A71-12866
- Earth surface and atmosphere thermal radio emission measurement by radio telescope on Cosmos 243 satellite 03 p0409 A71-13420
- Electron-photon showers, discussing cascade theory equilibrium spectra, avalanches and radio emission 03 p0475 A71-13840
- Spatial distribution and polarization of radio emission from extensive air showers, using Geiger and scintillation counters, muon detectors and antennae 03 p0477 A71-13865
- Solar flare X ray and radio wave emission measurement byOGO 4 and Solrad 9 satellites 03 p0479 A71-14046
- Pulsar radio wave generation, discussing emission theory and frequency independence of beam width and polarization 03 p0493 A71-14208
- Radio source W58, investigating continuum emission structure and spectrum 04 p0641 A71-14736
- LF radio emission from Jupiter at 3-8 MHz 04 p0641 A71-14737
- Supernova remnant X ray and radio emission secular behavior, considering hot plasma and synchrotron models and continuous injection 04 p0640 A71-14874
- Coherent emission mechanisms for pulsar models, discussing plasma wave conversion into radio emission 04 p0650 A71-15582
- Phase modulation drift of radio emission from pulsar MF 0031-07 05 p0801 A71-15927
- Methyl alcohol detection in Sagittarius, examining radio line emission at 834 MHz 05 p0802 A71-15945
- Quasars radio spectra in 1-5 GHz frequency range, examining emission from expanding clouds due to synchrotron radiation with self absorption 05 p0805 A71-16112
- Radio emission from small galactic nebulosities, describing position, flux densities, identification and exciting stars 05 p0811 A71-16683
- Convective cyclotron instability in whistler mode, discussing magnetosphere as generation mechanism and taking into account magnetospheric plasma inhomogeneity 05 p0743 A71-17003
- Martian radio emission measurements at millimeter wavelength and surface thermal and electric parameters estimation 07 p1193 A71-19314
- Lunar radio emission measurements at 1.42 mm, using radio telescope and wideband superheterodyne radiometer 08 p1362 A71-21151
- Pulsars as rotating magnetic neutron stars, examining radio emission via maser amplification 08 p1363 A71-21174
- Optical quasi-stellar objects searched for radio emissions, disproving previously claimed detections 09 p1518 A71-22352
- Uranus radio emission model, considering presence of gaseous ammonia at saturation pressure in atmosphere 09 p1519 A71-22526
- Long wave cosmic radio background emission in circumlunar space by Luna 11 and 12 satellites, observing increase in earth magnetosphere tail 09 p1513 A71-22576
- Giant elliptical galaxy Maffei 1 continuous radiation emission data at 1415 MHz, examining radio luminosity magnitude 09 p1523 A71-22982
- Soft X ray radiation correlations to radio emission flux at various frequencies in 20th solar activity cycle 09 p1515 A71-23529
- Quasar radio emission fine structure measurements by very long baseline interferometry, using Goldstone Mars antenna and Haystack radio telescope 10 p1671 A71-24325
- Automatic frequency spectrum recorder related to monitor radio emissions in space service allocated bands 10 p1578 A71-24583
- Contour map of galactic radio emission in Cassiopeia and Cepheus region, noting discrete sources 11 p1831 A71-26132
- Jupiter magnetic field geometry related to Io modulated Jovian decametric radio emission 12 p1956 A71-26620
- Earth surface thermal radio emission measurements by UHF radiometry onboard Cosmos 243 satellite, showing brightness profiles of water, ice and land areas 12 p1899 A71-26639
- Galactic radio emission, considering continuum radiations, radio polarization, H I regions structure and physics, recombination and absorption lines 12 p1959 A71-26778
- Radio pulses at 2 MHz from cosmic ray air showers, using high speed digital techniques in statistical data analysis 12 p1948 A71-26936
- Uranus radio emission measurements at 8.22 mm wavelength, noting brightness temperature and atmospheric properties 12 p1965 A71-27226
- Antenna effective area and radiation pattern measurement using emission characteristics of extraterrestrial radio sources, sun and moon 12 p1967 A71-27422
- One- and two-component gas models for explaining interstellar gas kinematics and 21 cm line emission brightness temperature dependence on galactic longitude 12 p1970 A71-27747
- Hellswell VLF discrete emission theory application to determination of electron stream energy spectrum and structure 13 p2027 A71-27915
- Radio pulse production by extensive air shower charges geomagnetic separation 13 p2126 A71-28101
- Air showers emitted radio pulses polarization, noting inconsistency with geomagnetic origin 13 p2127 A71-28102
- Extensive air showers radio wave emission based on cascade theory, determining polarization characteristics 13 p2127 A71-28103
- Air shower radio emission properties, presenting electric field strength measurements at various frequencies 13 p2127 A71-28104
- Air shower radio pulse amplitude variations with zenith and azimuth angle, distance from shower axis and primary energy, examining frequency spectrum characteristics 13 p2127 A71-28105
- Radio emission measurement from extensive air showers by system of half wave dipoles in complex array of Moscow State University 13 p2127 A71-28106
- Extensive cosmic rays high and low frequency radio pulses investigation, using plastic scintillator triggered receivers 13 p2127 A71-28107
- Radio particle correlation of extensive air showers at large zenith angles, using twofold coincident 44 MHz receiver trigger-scintillator system 13 p2127 A71-28108
- Extensive air showers radio emission pulse shape, noting amplifying system response to input signal 13 p2128 A71-28109
- Average function for lateral distribution of radio emission in extensive air showers 13 p2128 A71-28170
- Galactic LF nonthermal radio emission origin, considering mechanisms of synchrotron radiation from cosmic ray electrons and enhanced bremsstrahlung 14 p2304 A71-29593
- LF whistler mode radio noise emissions observations in polar regions with Alouette 2, noting association with energetic particles influx into ionosphere 14 p2300 A71-30036
- Oscillations in second cavity of ammonia maser containing two resonators successively traversed by molecular beam, studying polarization and radioelectric emission 14 p2254 A71-30440

Cosmic radio emission coherent generation mechanism, involving derelativization and relativization of particles in small space

15 p2483 A71-31343

Light and radio emission from Orion nebula flare stars in meter waveband, discussing coherent mechanisms of plasma oscillations and gyro/synchrotron radiation amplification

15 p2485 A71-31696

Martian radio emission measurements at millimeter wavelength and surface thermal and electric parameters estimation

15 p2486 A71-31894

Astronomical 4C catalog radio sources statistical analysis, showing mean spectral indices dependence on radio emission fluxes and red shifts

15 p2487 A71-32037

Heat balance and 8.22 mm radio emission of Mars, evaluating surface thermal and electrical parameters including brightness temperature

15 p2490 A71-32411

Uranus radio emission measurement at 8.22 mm, obtaining brightness temperature

15 p2490 A71-32412

Mars and Jupiter radio emission at 2.3 mm and 8.15 mm, determining brightness temperature and electrical and thermal waves soil penetration depth ratio

15 p2490 A71-32413

Chromosphere and solar quiet regions transition zone model, investigating radio and UV emission and height dependence of temperature and density

15 p2497 A71-32745

Aperture synthesis observations of neutral hydrogen radio emission in spiral galaxy M 101, using twin-element interferometer

16 p2632 A71-33329

Rotation measure and intrinsic angle of Crab pulsar emission, discussing optical and radio radiation origin

16 p2634 A71-33390

Supernovae outburst remnant radio emission from Crab Nebula, discussing synchrotron mechanism and connection with pulsars

16 p2635 A71-33472

Saturn radio emission and brightness temperature measurements, determining rings optical thickness upper limit

16 p2639 A71-33692

Very long baseline interferometry of radio emissions from geostationary satellites, determining orbital elements and inertial position

16 p2544 A71-33845

Discrete VLF emissions triggered by naturally occurring whistler trains or man-made signals of constant frequency

16 p2544 A71-33950

Soft optical, radio and X ray emission during accretion of interstellar gas by neutron star with magnetic dipole moment

17 p2800 A71-34570

Field strength of radio emission from cosmic ray showers at 3.6 MHz, stressing data analysis procedure

17 p2732 A71-34623

Uranus radio emission model, indicating presence of gaseous ammonia at saturation pressure

17 p2807 A71-35501

Pulsar radiation generation by charged particles nonlinear Thomson scattering of strong LF electromagnetic wave and nonthermal radio emission

18 p2960 A71-35940

Radio emission from cosmic ray showers, discussing detection, particle populations and energy spectra

18 p2957 A71-36211

Uranus radio emission measurements at 8.22 mm wavelength, noting brightness temperature and atmospheric properties

19 p3132 A71-37378

Thermal radio emission of Jovian planets atmospheres, deriving brightness temperature [AAS PAPER 71-109]

19 p3139 A71-37909

Narrow band magnetospheric radio noise between electron plasma and upper hybrid resonance frequencies from satellite observations

20 p3285 A71-38728

Radio emission detection of para-formaldehyde and 2 mm formaldehyde distribution in Orion IR nebula

20 p3287 A71-39112

Monochromatic radio emission from decilight years distant stars, discussing search experiment by low noise multichannel receivers

20 p3291 A71-39319

Atmospheric moisture from Cosmos 243 satellite measurements of intrinsic atmospheric radiothermal emission

20 p3218 A71-39587

High latitude VLF radio emissions rate of occurrence at all magnetic times, noting diurnal variations

20 p3198 A71-39745

VLF emissions and low energy electrons relation to other auroral phenomena from satellite-borne data associating midnight maximum with particles from plasma sheet

20 p3229 A71-39855

ELF and VLF emissions during PCA, correlating data with particle and photometer recordings from ground based, satellite and rocket-borne observations

20 p3229 A71-39856

Continuous injection models for secular X ray and radio emission from supernova remnants in Crab Nebula, Cas A and Tycho

20 p3304 A71-39942

Pulsar radio emission via maser amplification, presenting model based on electrons behavior in intense magnetic field

20 p3285 A71-39949

Radio pulses from pulsars, noting relativistic energy of particles from volume emissivity and surface flux density

20 p3305 A71-39950

Radio pulses from pulsars based on model of coherent synchrotron radiation from magnetosphere trapped charged particles

20 p3285 A71-39951

Scorpius X-1 radio emission detection at 1415 MHz, discussing brightness distribution

21 p3441 A71-40068

Pulsars radio wave emission characteristics, intensity variation, duration, bandwidth, similarity to space radio beacons and evidence as neutron stars

21 p3442 A71-40144

Jupiter and Saturn IR radiation sources, radio emission storms, magnetic fields, life existence, Grand Tour missions, etc

21 p3442 A71-40150

Double radio emission sources during occultation period, noting structure, angular size components, positional errors and association to quasars

21 p3443 A71-40189

M supergiants hot corona base density determination from radio emissions observations, noting equivalence to solar type 4 microwave bursts

22 p3598 A71-41916

Pulsar radio emission from expanding charge sheets moving relativistically along dipolar magnetic field near neutron star polar caps, calculating energy distribution

22 p3604 A71-42336

Brightness and polarization distributions for supernova remnants IC443 and Puppis A, considering magnetic field orientation and thermal radio emission

22 p3606 A71-42601

Cosmic radio emission coherent generation mechanism involving derelativization and relativization of particles in small space

22 p3606 A71-42618

Electron-photon showers, discussing cascade theory, equilibrium spectra, avalanches and radio emission

22 p3594 A71-42641

Lateral distribution and polarization of radio emission from extensive air showers, using Geiger and scintillation counters, muon detectors and antennae

22 p3595 A71-42666

Red dwarf flare stars sporadic outbursts, considering light and radio emission curves, outburst energy and galactic emission

22 p3607 A71-42881

Atmospheric triggered VLF emissions theory, examining magnetospheric whistler Morse pulses

23 p3643 A71-43135

Planetary nebulae microwave radiation emission survey by Algonquin Radio Observatory, determining flux densities

23 p3769 A71-43988

Extensive air shower radio pulse emission by geomagnetic charge separation mechanism, using antenna and scintillation counters arrays

23 p3646 A71-44012

Pulsar CP 0950 radio emission intensity variation measurement, using dispersion removal technique for interstellar medium signal distortion

24 p3871 A71-44903

Ionosphere artificial Joule heating by RF energy, deriving expressions for deposition function frequency dependence

01 p0040 A71-11538

Effective electron collision frequency and RF conductivity along geomagnetic lines in magnetosphere

03 p0377 A71-13272

NASA program concerning determination of RF spectrum sharing criteria and automatic data processing in aerospace systems

03 p0381 A71-14588

Absorption coefficient of plane wave scattering by thin spherical resistive shell for broadband RF radiation monitoring

04 p0558 A71-15149

Pulsar radiation intensity time variations at radio frequencies, noting observations of CP 1133

04 p0649 A71-15273

Measuring instruments for hyperabrupt varactor tuning diodes in RF, VHF and UHF ranges

05 p0728 A71-16396

Dynamic stabilization of drift dissipative instability by inhomogeneous RF electric field parallel to magnetic field

06 p0934 A71-17475

Drift wave instability suppression by homogeneous RF electric field in DC discharge diffused plasma

06 p0934 A71-17482

Low gain microwave amplifier cascade DC to RF conversion efficiency analysis

07 p1073 A71-19115

Second harmonic voltage effects on quenched domain mode Gunn effect oscillator for DC to RF conversion efficiency, discussing negative device conductance at multiharmonic frequencies

09 p1417 A71-22696

Lower ionosphere RF whistlers polarization and electromagnetic structure, determining earth-ionosphere waveguide resonance frequency

10 p1575 A71-23828

Thermal and nonthermal effects of microwave and RF radiation in biological systems, discussing dielectric constant and conductivity for high water content tissues
11 p1716 A71-25281

Low power density modulated RF energy illumination effects on mammalian biological functions, noting possible hazards to personnel
11 p1716 A71-25282

Radio frequency and microwave radiation hazards determination and elimination aboard naval ships
11 p1723 A71-25290

RF transparent ablator of silica filled elastomeric silicone, describing thermal, mechanical and electrical properties at various heating rates
11 p1790 A71-26046

IMPATT oscillators noise properties at large RF amplitudes, deriving expression for noise current as function of threshold current
11 p1733 A71-26369

Wide range nonimmersive RF coil with marginal oscillator for plasma electrical conductivity measurements tested for simulated reentry vehicle
12 p1908 A71-27285

Venusian atmosphere RF refractive attenuation height dependence, field strength measurements comparison, inversion layer influence and surface echoes effects
14 p2309 A71-30098

RF power absorption of uniform hot ion-electron plasma column, considering collision effects and EM radiation
14 p2281 A71-30556

Dynamic stabilization of plasma column drift dissipative instability by inhomogeneous RF electric field, using two fluid macroscopic equations
14 p2196 A71-30560

Primary and secondary standardization and precision measurement of thermal noise power at various radio frequencies and temperatures
14 p2204 A71-30977

Radio frequency measurements below 30 GHz, considering power, impedance, phase shift, voltage and current data
14 p2205 A71-30981

Radio frequency power meters comparison, reducing mismatch and directivity errors with directional coupler
14 p2205 A71-30984

Preferred frequencies for RF measurement and calibration based on Renard number series
14 p2205 A71-30986

Nonnose whistlers noise frequency and minimum group delay measurements
17 p2732 A71-34323

Magnetospheric conjugate ducts characteristics for HF radio propagation from Alouette 2 topside sounder ionograms analysis
19 p3016 A71-37369

Tabular listing of frequency allocations for space services and radio astronomy made at Extraordinary Administrative Radio Conference
21 p3348 A71-40476

RF power absorption by magnetized uniform hot electron-ion plasma column submitted to TE and TM waves
24 p3852 A71-44498

RADIO FREQUENCY DISCHARGE
Multiatomic molecules emission spectra excitation by superhigh frequency short duration pulsed gas discharges
02 p0286 A71-11889

Radio frequency electrostatic ion thruster using mercury ion source electrodeless self sustaining discharge
02 p0283 A71-12313

Steady state RF glow, abnormal glow and DC arc discharges in air at atmospheric pressure
12 p1881 A71-27274

RF discharge quasi-homogeneous plasma device for measuring antenna impedance and sheath effects
13 p2105 A71-27996

RF ion thruster /RIT-10/ optimization, investigating energy balance and plasma diagnostics [DGLR-71-041]
17 p2794 A71-35547

RF magnetic field radial distribution measurement in thermal argon induction plasma flame
20 p3273 A71-38841

RADIO FREQUENCY HEATING
Power transfer in plasma heating with combined RF and steady magnetic fields
01 p0137 A71-11481

Ionospheric modification of F region through high power HF transmitter heating
01 p0040 A71-11529

Plasma column ohmic and collisional heating by RF electromagnetic field, deriving energy transfer expressions
03 p0464 A71-13550

Electrical shock tube performance with RF induction heating of downstream gas
04 p0564 A71-14672

Stochastic model for electron-cyclotron plasma heating by high power microwaves in magnetic mirror
21 p3422 A71-40762

Off-resonance electron heating by microwaves in mirror contained high beta plasmas
24 p3852 A71-44486

Lower hybrid frequency heating and wave absorption efficiency in inhomogeneous HF cylindrical plasma
24 p3852 A71-44492

RADIO FREQUENCY IMPEDANCE PROBES
Series impedance elements in RF immittance measurements
07 p1112 A71-19772

Ionospheric electron density profiles at various altitudes determined by HF impedance probe method
09 p1436 A71-22575

High latitude F region electron density irregularity measurements, using rocket-borne impedance probe
11 p1755 A71-25617

Electric field angular distribution of short radio frequency probe in warm anisotropic plasma under magnetic field
13 p2104 A71-27852

Lower ionosphere charged particle concentrations and collision frequencies determination by LF impedance probe
13 p2058 A71-28028

Rocket-borne RF capacitance probe design for determining lower ionospheric electron densities
18 p2921 A71-36367

Interference levels in UHF band measured from aircraft altitudes using LES-6 receiver adapted to KC-135 aircraft
01 p0037 A71-11166

Secondary currents on conducting cylinder near dipole antenna manifested as radio frequency interference, considering effect on radiation pattern
01 p0037 A71-11167

Papers on radio frequency interference and control
03 p0383 A71-13176

Radio frequency interference project control responsibilities and teamwork, noting communication transmitter design example
03 p0383 A71-13177

Statistical model for interference to terrestrial radio relay systems from geostationary satellites
07 p1060 A71-19214

Lightning and static electricity effects on helicopter design, considering rotor protection, cargo hook operation and passive dischargers for radio interference reduction
07 p1021 A71-19938

Optimal temporal and spatial temporal resolution for unknown parameter of interfering signal on white noise background
09 p1404 A71-22219

Radio interference suppression rules optimization, using mathematical model to characterize interference voltage, antenna sensitivity and radio transmitter field strength
11 p1733 A71-26339

Man-made HF noise interference with satellite broadcasting, giving special consideration to automotive ignition systems
12 p1878 A71-26994

Interference pattern of ground and sky waves at 16 kHz during summer near solar maximum
12 p1880 A71-27155

Interference threshold probabilities of pseudorandom frequency hopped signals in conventional spread spectrum communications relative to Gaussian receiver bandwidth
12 p1881 A71-27428

RF noise measurement instrumentation using statistical analysis for better interference characterization
13 p2035 A71-28865

Radar duct surface interference phenomena and focusing effects on radar beam energy propagation
14 p2201 A71-30936

Modal interference spacing in frequency range 13.6-22.3 kHz during sunrise transitions on middle latitude east-west propagation paths
15 p2369 A71-31432

Broadband radiated interference measurement of nonhyperbolic propellant rocket engine spark gap ignition for electromagnetic compatibility
15 p2471 A71-32372

Upper bound on error probability due to intersymbol interference for correlated and uncorrelated digital

signals, presenting examples for data communication systems
17 p2703 A71-35077

Computer simulation of error probability performances of binary coherent PSK system under thermal noise and intersymbol and interchannel radio interferences effects
17 p2707 A71-35476

Binary differentially coherent PSK modulated PCM radio link performance under noise and intersymbol and interchannel interferences effects, deriving error probability
17 p2707 A71-35477

Binary and quaternary PSK systems performance with intersymbol, interchannel and cochannel interferences and fading
17 p2707 A71-35478

HF radio communication receiver performance requirements and realization, considering gain, noise, interference, filtering, reciprocal mixing, intermodulation and frequency stability
18 p2895 A71-36998

RF communications spectrum pollution, discussing corrective and preventive electromagnetic compatibility measures
19 p3020 A71-38427

Linearization techniques for multiple signal interference reduction in broadband transistor power amplifiers in 225-400 MHz range
19 p3030 A71-38434

Time sharing technique application to RF interference with ATC resulting from transmitting and receiving antennas collocation
19 p3102 A71-38436

RF noise surveys in urban areas for effective space to earth communication link design at UHF
19 p3021 A71-38443

Radio frequency interference environment measurement in VHF range by subsynchronous Lincoln experimental satellites 5 and 6
19 p3021 A71-38452

Electromagnetic compatibility in radio astronomy, discussing frequency spectrum pollution and national radio quiet zone
19 p3032 A71-38454

Streamer discharges effects on integrated aircraft antenna and associated avionics, emphasizing RF interference and component damage
19 p3033 A71-38462

Parasitic radar echoes of meteorological, ground and sea origin
22 p3514 A71-42468

Demodulator interference noise in FM modulation radio relay system as function of ratio between interfered and interfering carrier powers and AM sensitivity
24 p3804 A71-44988

RADIO FREQUENCY NOISE
U ELECTROMAGNETIC NOISE
RADIO FREQUENCY RADIATION
U RADIO WAVES
RADIO FREQUENCY SHIELDING
Electronic equipment shielding against spurious signals, determining minimum metal thickness for desired effectiveness based on transmission line theory
03 p0383 A71-13178

Shielded enclosure resonance effects reduction on cavity impedance measurement by technique analogous to wave traps for notching out RF signal at selected frequencies
19 p3032 A71-38459

RADIO GALAXIES
Radio galaxies emission source, examining Patchy model for prestellar matter magnetic field strength
01 p0150 A71-10063

Energetic relativistic particles diffusion from radio galaxies
01 p0161 A71-11384

Transient annular structures in galaxies with nuclear explosion and fragmentation, examining radiogalaxy dynamics
04 p0655 A71-15724

Radio galaxies flux density measurements at 8000 MHz
08 p1357 A71-20869

Cosmological evolution in radio galaxies, discussing stellar populations, optical luminosity, model choice, red shift uncertainties, etc
09 p1522 A71-22974

Source count statistics of radio galaxy lifetimes and intergalactic heating, assuming multiple explosions
12 p1968 A71-27540

Exploding universe phenomena, considering supernovae, exploding galaxies, Crab Nebula, pulsars, quasars and radio galaxies
16 p2643 A71-34036

Photometric and spectroscopic study of NGC 3627 galaxy nucleus during optical observation of radio point galaxies
18 p2963 A71-36192

Critical evaluation of spectroscopic and photometric observations related to radio source 3C 386, sug-

- gesting foreground galactic star superposition on radio galaxy 21 p3447 A71-40443
- Book on cosmology covering stars, galaxies, radio galaxies, universe models, quasars, expansion, intergalactic matter and microwave radiation 22 p3607 A71-42773
- Radio galaxies cosmological evolution, discussing rate and spectrophotometric data 23 p3766 A71-43823
- Balloon flight detected gamma ray source Lib gamma-1, discussing possible identification with PKS 1514-24 radio galaxy 24 p3865 A71-44444

RADIO HORIZONS

- Propagation modes involved in HF or VHF reception at ground station of beyond-horizon satellite transmission 07 p1097 A71-19024

RADIO INTERFERENCE

U RADIO FREQUENCY INTERFERENCE

RADIO INTERFEROMETERS

- Ionospheric electron concentration measurement by bifrequency dispersion interferometer on Luna 14 orbiter 02 p0244 A71-11911
- Compact radio sources of high angular resolution observed via joint U.S.-U.S.S.R. radio interferometry 02 p0307 A71-12086
- Very long baseline interferometry (VLBI) of Jupiter decametric bursts at HF 02 p0310 A71-12326
- Very long baseline interferometry of galactic hydroxyl radical microwave emission sources 02 p0310 A71-12327
- Loran C transmissions for long baseline time and frequency synchronization 02 p0216 A71-12328
- Optimum frequency channels and delay estimates in very long baseline interferometry with large bandwidth for fringe and phase measurements 02 p0216 A71-12329
- Ionospheric and tropospheric effects on differential phase path in very long baseline interferometry, using ray tracing computer program 02 p0251 A71-12331
- Very long baseline interferometry (VLBI) one-bit instrumentation using videotape recorders in geodetic and geophysical measurements 02 p0251 A71-12332
- Frequency and phase analyses of cross correlated signals from very long baseline interferometry of decametric radiation from Jupiter 02 p0310 A71-12333
- Solar radio bursts multifrequency observation using simple image forming system with multielement interferometer 02 p0302 A71-12765
- Long baseline radio interferometry, discussing phase difference measurement principles in terms of signal characteristics and wave forms, astronomy and geodesy applications 03 p0484 A71-13244
- Servosystems errors of indicator-receiver for recording electromagnetic field pattern extremes in amplitude radio interferometers 04 p0557 A71-14635
- Long base line radio interferometry role in earth rotation rate measurement 06 p0891 A71-17892
- Long base line radio interferometry principles and geophysical applications 06 p0892 A71-17893
- Satellite radio interferometer multipath reflections effect on accuracy 07 p1106 A71-18839
- Quasars radio structures observations in S band, using NRAO interferometer 08 p1358 A71-20934
- Compact radio sources of high angular resolution observed via joint U.S.-U.S.S.R. radio interferometry 08 p1362 A71-21136
- Meteor trails azimuth angle measurement by radar interferometry, describing system advantages with respect to receiver noise, angular resolution and calibration 10 p1576 A71-24053
- Quasar radio emission fine structure measurements by very long baseline interferometry, using Goldstone Mars antenna and Haystack radio telescope 10 p1671 A71-24325
- Ionospheric electron concentration measurement by bifrequency dispersion interferometer on Luna 14 orbiter 13 p2058 A71-28198
- Radio interferometry techniques and instrumental advances, examining transionospheric waves coherence properties and ionospheric source distribution 13 p2031 A71-28783
- Optical synthetic aperture analogs of Covington-Drane and thin annular radio interferometers, discussing aperture resolution and spatial frequency response 14 p2238 A71-29802

- Solar image correction in high resolution radio interferometer by digital data processing technique maintaining required phase relations in antenna elements 15 p2373 A71-32446
- Minimum redundancy high resolution radio interferometer for observing H II, planetary nebulae, nonthermal supernova remnants, radio galaxies and solar features 15 p2385 A71-32463
- Long baseline radio interferometers, considering quasars, interstellar masers, geodesy and geology applications 15 p2412 A71-32705
- Water vapor emission map at 22 GHz from W 49, using three-station long baseline radio interferometer data 16 p2631 A71-33179
- Fixed base two element interferometer for radio astronomy, obtaining beavertail radiation pattern by use of earth rotation 16 p2579 A71-33486
- Quasar internal kinematics and fine structure rapid time variations from radio interferometry 17 p2799 A71-34502
- Joint American-Soviet astronomical radio interferometry, discussing resolution and quasar and galaxies structural difference 19 p3145 A71-38569
- Cas A and Cyg A radio stars scintillation measurement by two element phase switched interferometers in ionospheric irregularities study 21 p3378 A71-40377
- High resolution astronomical radio interferometry, discussing radio telescope system design 21 p3452 A71-41052
- Tracking servosystems errors of indicator-receiver of amplitude radio interferometers for recording electromagnetic field pattern extremes 22 p3521 A71-42275
- CH radical 10 cm line frequency determination by photographic Fabry-Perot interferometry 23 p3733 A71-43082

RADIO METEOROLOGY

- Passband circuits improving radio telemetry channel potential in atmospheric sounding system 01 p0080 A71-10543
- Atmospheric humidity and cloud moisture determination, considering meteorological satellites radio measurements errors relation to turbulent sea surface spectral radiant emittance ambiguity 04 p0621 A71-14638
- Radiometeorological measurements of atmospheric structure, using SHF troposcatter synchronously off-set beams on great circle propagation path 04 p0584 A71-15545
- Lower ionospheric irregularities drift from neutral air motion measurements compared to meteor radar system determination 12 p1900 A71-27057

RADIO METEORS

- Radio meteor orbit velocity and radiant measurements by pulse diffraction technique 09 p1520 A71-22829
- Atmospheric wind velocity radial components measurements for meteor drift as function of wind direction, using transmitter and receiver antennas synchronized orientation method 11 p1758 A71-25791
- Monograph on persistent radio meteor echoes fading relation to upper atmosphere wind structure 14 p2192 A71-29579
- Seasonal variations in semidiurnal tidal wind velocities in upper atmosphere for Northern Hemisphere radio meteor observations 14 p2231 A71-29720
- Atmospheric wind velocity radial components measurements for meteor drift as function of wind direction, using transmitter and receiver antennas synchronized orientation method 22 p3533 A71-41559

RADIO NAVIGATION

- NT HYPERBOLIC NAVIGATION
- NT LORAN
- NT LORAN C
- NT TACAN
- NT VHF OMNIRANGE NAVIGATION
- Aircraft radio compass navigation errors due to loop antenna inclinations during maneuvering 08 p1331 A71-20787
- Weather influence on long range radio navigation aids, considering supersonic aircraft operation and inertial navigation 10 p1640 A71-24963
- Area navigation system based on radio aids by airborne receivers and sensors for aircraft movement improvement, noting advantages of pilot displays (SAE PAPER 710457) 14 p2272 A71-30533
- Air navigation techniques history, considering radio, radar, loran Doppler and inertial navigation 14 p2272 A71-30712
- Radio and radar air navigation for civil aviation, discussing Doppler effect, inertia and satellite systems 19 p3100 A71-37344

- Unaided, integrated and differential OMEGA radio navigation configurations, comparing accuracy and suitability for airways system operations 22 p3571 A71-42082
- Agusta helicopter design and testing criteria, discussing four-blade rotor, fuselage and radio navigation equipment 22 p3482 A71-42224
- Aeronautical radio navigation aids photo-optical calibration, describing photogrammetric procedure and ground equipment for checking out airport ILS systems 23 p3702 A71-43587
- Long distance radio navigation and tracking systems, discussing Dioscures, Loran C and Omega 24 p3845 A71-44351

RADIO OBSERVATION

- Radio sources position errors, comparing optical and radio measurements 02 p0314 A71-12579
- Solar radio bursts multifrequency observation using simple image forming system with multielement interferometer 02 p0302 A71-12765
- Earth surface and atmosphere thermal radio emission measurement by radio telescope on Cosmos 243 satellite 03 p0409 A71-13420
- Soviet book on radio measurement methods and mathematical data processing in space trajectory measurements 04 p0555 A71-15375
- Sporadic E layer structure and disturbances from pulsed radio signal measurement, noting correlation to pressure oscillation at ground level 04 p0584 A71-15757
- Solar coronal magnetic field patterns from radio observations 05 p0802 A71-16014
- Interplanetary magnetic field sectors correlated to solar coronal active centers and condensations in metric wavelengths from radio observations 05 p0802 A71-16015
- Jupiter magnetospheric rotation period based on RF observations 06 p0971 A71-18240
- Geostationary radio beacon specifications and observational opportunities on ionospheric satellite ATS-F in 1972 07 p1096 A71-19016
- Ionospheric electron content observation by ATS-3 radio signals, noting gravity waves effect 07 p1098 A71-19034
- Atmospheric meteor zone turbulent motions under Archimedes forces based on radio observations 07 p1101 A71-19412
- Space vehicle landing trajectories calculation from visual and radio observations of orbital parameters 07 p1196 A71-19495
- Uranus physically self consistent atmosphere model based on spectroscopic, photometric and radio observational data 07 p1198 A71-19828
- Corotating solar wind electron number density from sun orbiting Pioneer spacecraft radio propagation measurements 07 p1189 A71-20320
- Radio emission observations at 8 mm wavelength from 3C 273 and 3C 279 07 p1204 A71-20626
- Orbital elements of small high velocity meteors determined by oblique radio sounding 09 p1520 A71-22840
- German space radio monitoring service, describing facilities for receiving and evaluating 20 MHz to 1 GHz transmissions 09 p1407 A71-23046
- Lunar rocks permissivity and density and surface roughness from radio wave scattering data 09 p1523 A71-23105
- F2 region ionospheric disturbances association with severe thunderstorms from radio observations 09 p1490 A71-23559
- Geminid meteoroids characteristics observation by radio, noting distributions of major semiaxes, plane inclination, elliptic eccentricities and day-by-day number variations 12 p1963 A71-26965
- Jovian atmosphere radio observations, discussing helium- and ammonium-hydrogen molecules ratio, brightness temperature spectra and RF wavelength absorbing agents 12 p1964 A71-27087
- Solar type 3 radio bursts polarization measurement by recording and subsequent digital processing 12 p1969 A71-27653
- Soviet papers on upper atmosphere physics covering thermosphere, dynamic processes and radiative energy transport in stratosphere and mesosphere, and ionospheric parameters radio measurement 13 p2056 A71-28017
- Pulsar CP 0834 pulse energy fluctuations spectra secondary periodicities fluctuations from radiohelio-graphic observation 13 p2141 A71-29099

- Satellite atmospheric temperature sounding by radiometric measurements, obtaining vertical temperature profile by mathematical inversion process
14 p2236 A71-30938
- Ionospheric drift rate measurements by closed space 2.2 MHz receiver method at vertical and oblique incidence, obtaining atmospheric circulation patterns
15 p2395 A71-31431
- Solar type 3 bursts with fundamental and second harmonic structure for corona reflected and direct rays at 80 MHz observed with Culgoora radioheliograph
15 p2473 A71-31690
- Polarized meandering type 4 burst of solar flare from 80 MHz radioheliographic observations, noting association with plasmoids containing synchrotron emitting relativistic electrons
15 p2473 A71-31695
- Ground based HF radio sounding of earth magnetosphere echoes due to propagation along electron density enhancement
15 p2398 A71-31769
- Daytime electron density profiles above 90 km from Doppler radio measurements by rockets launched from Southern Hemisphere site
16 p2567 A71-33779
- Jovian atmosphere radio observations, discussing helium- and ammonium-hydrogen molecules ratio, brightness temperature spectra and RF wavelength absorbing agents
19 p3133 A71-37437
- Lunar interior thermal radiation measurement in meter wavelength range during period of solar radio image behind limb, showing inverse temperature gradient with depth
19 p3138 A71-37756
- Atmospheric meteor zone turbulent motions under Archimedes forces based on radio observations
19 p3054 A71-37836
- Jupiter radio observations, measuring nonthermal emission, magnetic field and trapped radiation belts [AAS PAPER 71-108]
19 p3140 A71-37933
- Mars motion 1751-1969, comparing Clemence theory and Newcomb Tables of sun with meridian and radar ranging Mars observations
19 p3144 A71-38166
- Geminid meteoroids characteristics observation by radio, noting distributions of semiaxes, plane inclination elliptic eccentricities and day-by-day number variations
19 p3144 A71-38260
- Crab Nebula pulsar radio properties, observing energy release due to increase in period, multipath propagation effects, intensity and time dependence
20 p3302 A71-39923
- Radio observation for radial velocities in center region of Perseus cluster of galaxies
21 p3445 A71-40408
- Interplanetary scintillation radio observations interpretation by theory for atmospheric scintillations optical observations
21 p3447 A71-40426
- Radio-optical dispersometer for atmospheric water vapor density measurement with increased sensitivity
24 p3809 A71-44985
- Ionospheric integral electron concentration data from Elektron 1 and 3 satellites, using coherent radio wave measurements
24 p3866 A71-45028
- RADIO PHYSICS**
- Soviet papers on quantum radio physics covering injection lasers, high intensity beam and material interactions and laser dynamics
07 p1126 A71-20251
- Radio science - Conference, Ottawa, August 1969
14 p2203 A71-30966
- Solar gravitational deflection of radio waves measured by Cambridge one-mile telescope, observing radio source 3C 279 before/after 8 October 1970 occultation
23 p3769 A71-43990
- Radio-optics prospects in signal and information processing, image reconstruction, data transmission, computer storage, display and holographic movies and TV
23 p3681 A71-44344
- RADIO PROBING**
- Automatic aerological ground station with processing and transmission facilities for radio probe and radar data
01 p0029 A71-10360
- Ionospheric F layer modification by artificial heating, using radio echo detection of electron temperature changes
01 p0040 A71-11537
- Radio wave ionospheric heating effect on absorption of probing waves of different polarization
06 p0888 A71-17289
- Rocket-borne HF capacitance probe for measuring ionospheric electron density profile
07 p1116 A71-20498
- Ionospheric layers critical frequencies recording, using automatic interplanetary station type probe
09 p1436 A71-22450
- Radio wave propagation studies evolution, considering ionospheric signal reflection, equipment optimal characteristics and transverse medium composition and properties probing
19 p3016 A71-37341
- Lunar crust exploration by VLF surface waves, discussing frequency dependent depth penetration, conducting layers detection and communication or navigation use
20 p3291 A71-39313
- RADIO PROPAGATION**
- U RADIO TRANSMISSION**
- RADIO RANGE**
- LOLA /Location and Orientation of Lunar Astronauts/ system using RF ranging and solar sensor, discussing configuration, operation, accuracy and electronics
04 p0623 A71-15303
- Tropospheric height integral of refractivity for predicting atmospheric electromagnetic range at arbitrary elevation angle from surface weather data
08 p1257 A71-21881
- Long range tropospheric radio wave propagation, calculating signal impulse function and time lag between diffraction and reflection
09 p1404 A71-22217
- Short wave skip distance calculation as function of path inclination to ionospheric layer for linear and parabolic ionization distributions
13 p2030 A71-28556
- VHF and UHF ground reflection measurements for antenna site layout, showing feasible operations at short ranges
14 p2217 A71-31050
- Laboratory model for ionospheric perturbations effects on long range VLF paths
19 p3017 A71-37865
- RADIO RANGES**
- U RADIO BEACONS**
- RADIO RECEIVERS**
- NT SUPERHETERODYNE RECEIVERS**
- NT TRANSMITTER RECEIVERS**
- PCM telemetry receiving stations testing, comparing bit error probabilities of coherent and noncoherent methods of synchronizing pseudonoise sequences
01 p0033 A71-10890
- Microwave receiving and transmitting antennas proximity effects on permittivity measurements of dielectric layer
01 p0057 A71-11206
- Radio propagation at 84 MHz, investigating moving receiving terminal and aircraft reflection effects on signal distortions
02 p0216 A71-12344
- Skyнет ground stations operations and equipment, discussing receiving systems parametric amplifiers, local oscillators, demodulators, noise temperature, frequency flexibility and reliability
02 p0217 A71-12433
- Uncooled low noise microwave parametric amplifier for small receiving earth stations, describing three stage design, gain and bandwidth
02 p0234 A71-12814
- Radio sets integrated selection components, noting ceramic capacitors and filters and coil circuits
03 p0388 A71-14336
- Radio signals and receiving equipment structural synthesis, considering signal filtration under random additive noise
06 p0866 A71-17372
- Aircraft automatic landing improvement through use of space diversity ILS receiving system
07 p1153 A71-18830
- Radio signal receiving system design for group delay experiments with geostationary ATS-F for ionospheric and magnetospheric electron content
07 p1206 A71-19033
- Statistical dynamic response of FM receiver with frequency feedback
07 p1064 A71-20261
- Accurate single-sideband radio receiver tuning, observing reconstitution of harmonic tones in human speech strong vowel sounds
08 p1254 A71-21318
- Ground stations for communication satellites, discussing radio transmitter and receiver systems using low noise parametric amplifiers at low temperatures and extended demodulator threshold
10 p1590 A71-25101
- Communication satellite ground station radio receiver and transmitter systems including parametric amplifier and phase lock demodulators applications
10 p1590 A71-25102
- Satellite communication earth stations tracking receiver, describing operational principles with special attention to down-converter and demodulator circuits
12 p1887 A71-27001
- Solid state local oscillator for radio relay systems microwave receivers
13 p2039 A71-28899
- Field testing for radio telemetry receiving systems calibration, including tape recorder degradation effects during data processing
14 p2198 A71-30903
- Deep Space Communications System low noise microwave receiver, discussing operating noise temperature calibration, error analysis and programming
15 p2372 A71-32311
- Integrating discrete signal receiver with weighting proportional to signal, evaluating operational quality in presence of external stationary correlated noise
16 p2542 A71-33488
- UHF head for 225-400 MHz AM receiver, emphasizing choice of ring mixer and passband filter switching principle
16 p2548 A71-34124
- Microwave receiving and transmitting antennas proximity effects on permittivity measurements of dielectric layer
17 p2697 A71-34258
- Parametric up-converters for low noise broadband microwave receivers, discussing electronically tunable pump frequency accuracy and stability
17 p2714 A71-34606
- Low noise FET amplifiers for earth station radio receivers
17 p2715 A71-34687
- FM radio receiver SNR and noise spectra for arbitrary transmission band characteristics
17 p2701 A71-34778
- Sensitive mm wave receivers, using local oscillator and mixer functions in single Gunn diode for large dynamic signal input range and wide IF bandwidth capability
17 p2717 A71-35111
- Intelsat 3 satellite communication ground station radio receiving and transmitting equipment design
17 p2724 A71-35512
- Low noise parametric amplifiers for communication satellite ground station radio receivers, considering components characteristics
17 p2709 A71-35513
- Communication satellite ground station receiver-demodulator equipment using frequency double transposition and compression
17 p2717 A71-35514
- Parametric amplifiers for ground station low-noise receivers in communication satellite systems, considering frequency range extension effect on noise temperature and passband requirements
18 p2890 A71-36557
- HF radio communication receiver performance requirements and realization, considering gain, noise, interference, filtering, reciprocal mixing, intermodulation and frequency stability
18 p2895 A71-36998
- Electromagnetic compatibility characteristics in terms of receiver susceptibility to interference effects on selectivity and nonlinearity parameters
19 p3033 A71-38465
- Noise factor formula of multiple loop receiver input network with series connected stages for antenna matching and coupling parameters
19 p3022 A71-38498
- Hybrid microelectronics IC S band double conversion phase locked receiver, discussing fabrication, process requirements and component selection criteria
19 p3035 A71-38538
- Microwave spectral line receivers for radio astronomy observation of molecular clouds in interstellar space
20 p3238 A71-39401
- Sensitivity requirements for attenuation measurement radio receivers, considering minimum input SNR for absolute measurement error not to exceed preestablished value
20 p3197 A71-39550
- Microwave scanning beam guidance receiver design for aircraft landing aid, discussing time sharing and flight control
22 p3572 A71-42091
- Estimation-correlation principle application to harmonic signal receiver with unknown carrier frequency, using searching phase locked AFC circuit as estimation unit
22 p3512 A71-42313
- Incoherent receiver noise stability in multichannel system with channel frequency separation, deriving formula for receiver error probability
22 p3522 A71-42314
- Computer operated RF automatic test system for HF radio receiver spurious response measurements, giving test results
22 p3514 A71-42389
- Satellite-borne minimum bulk and weight K-band transmitter and receiver frequency converters design features and performance
22 p3524 A71-42522
- Three-receiver radio wave dispersion analysis application to ionospheric drift records to assess effects of velocity variation with time
22 p3515 A71-42599
- RADIO RECEPTION**
- Radio link diversity reception improvements by multiple baseband combinations in one or several stages
03 p0380 A71-14333

- Error probability during diversity reception under random radio noise 04 p0549 A71-14613
- Receiving equipment for navigation satellites of Naval Weapons Laboratory, considering 150 MHz channel 07 p1205 A71-19015
- Real noise stability of coherent FM receiver for case of spectrum limited signals due to passage through channel and selective networks 07 p1061 A71-19508
- Optimal reception of AM signal during nonlinear operation of radio system 07 p1064 A71-20258
- German space radio monitoring service, describing facilities for receiving and evaluating 20 MHz to 1 GHz transmissions 09 p1407 A71-23046

U RADIO ECHOES

RADIO RELAY SYSTEMS

- Skyнет communication systems, describing long distance strategic communication links between ground and mobile air/helicopter stations via wide and narrow band pathways 02 p0218 A71-12439
- FM radio relay system modulation-demodulation equipment for multichannel FDM or TV signal transmission 05 p0728 A71-16146
- Statistical model for interference to terrestrial radio relay systems from geostationary satellites 07 p1060 A71-19214
- Intercontinental point to point radio communication, discussing Hertzian beam /radio relay links/ and satellite communication comparison with underground and submarine cables 19 p3016 A71-37343
- Relay data link and trajectory design integration for Viking orbiter 1975 mission [AAS PAPER 71-320] 23 p3726 A71-42994
- Jupiter atmospheric probe using relay-link communications geometry between probe and flyby spacecraft for 3.5 hr intervals [AAS PAPER 71-321] 23 p3726 A71-42995
- Demodulator interference noise in FM modulation radio relay system as function of ratio between interfered and interfering carrier powers and AM sensitivity 24 p3804 A71-44988

RADIO SCATTERING

- Faint sporadic meteors mass distribution from forward and backscatter of radio echoes 01 p0151 A71-10254
- Coherence matrix of elliptically polarized radio signal scattered by statistically rough conductive surface 04 p0550 A71-14619
- Radio wave propagation through extensive weakly scattering medium, presenting typical results for scintillation index, scintillation visibility and spatial autocorrelation function 07 p1196 A71-19576
- Lunar surface specific effective radio signal scattering area measured by Luna 9 and 13, describing signal fluctuations 09 p1523 A71-23145
- Synthetic aperture Doppler free coherent bistatic radar for high resolution maps of tropospheric radio scatterers 12 p1881 A71-27286
- Radio pulses from Crab Nebula pulsar NP 0532, determining multipath scattering delay distribution function and distortion 14 p2314 A71-30641
- Ionospheric propagation prediction accuracy problems, considering numerical mapping, horizontal gradients, absorption, scatter, maximum usable frequency and transequatorial propagation 14 p2202 A71-30949
- Bibliography on aurora covering observations, morphology, atomic and molecular processes, electric

fields, radio scattering, red arcs and particle precipitation 17 p2732 A71-34467

D region electron densities from HF radio waves ionospheric backscatter based on hypothesis of refractive index stochastic fluctuations 19 p3048 A71-37372

Multiple scattering of VHF and UHF radio waves from bundle conductor high voltage power transmission lines 19 p3021 A71-38446

Lunar surface layer density and dielectric permeability from radio wave scattering data from automatic spacecraft radar measurements 20 p3295 A71-39616

Soviet monograph on astronomical foundation of meteor communications, covering radio wave scattering by meteor trails and computer simulation of signal time-amplitude characteristics 21 p3349 A71-41373

Coherence matrix of elliptically polarized radio signal scattered by statistically rough conductive surface 22 p3510 A71-42259

Simultaneous ionosphere measurements by incoherent ground radio wave scattering and coherent signals from Intercosmos 2 and Cosmos 321 satellites 24 p3824 A71-45323

U RADIO TRANSMISSION

RADIO SIGNALS

Radio signal reception error in cadence synchronization of binary data transmission systems with indeterminate signal arrival time 02 p0212 A71-11834

Pulsar radio signal characteristics, examining pulse profiles, nulls interstellar scintillation and optical and X ray bursts 02 p0318 A71-12914

Radio signals and receiving equipment structural synthesis, considering signal filtration under random additive noise 06 p0866 A71-17372

Stepped wideband radio signal power generator with manually controlled signal attenuator 06 p0876 A71-18078

Ships and aircraft position finding method based on satellite radio signals Doppler measurements, analyzing ionospheric influences 07 p1154 A71-19036

Small scale ionospheric irregularities from satellite radio signals fluctuations, using frequency scintillation measurements 07 p1060 A71-19037

Radio signal refractive index fluctuations in Venus atmosphere from Mariner 5 data 07 p1197 A71-19762

Cosmos 142 satellite measurements of VLF radio signals transmitted through ionosphere by ground based stations 09 p1408 A71-23143

Optimal reception of Markov radio signals with intrapulse FM, using nonlinear filtration theory 10 p1578 A71-24711

Coincident radio pulse effects on triggering antenna arrays, considering air shower mechanism 12 p1967 A71-27389

Geomagnetic effects on radio signals mechanism in extensive air showers, discussing scintillators array for east-west to north-south ratio polarization measurements 12 p1967 A71-27390

Random radio signals distributions properties with parameters subject to random variation 13 p2029 A71-28371

Sampled data delay-loop lock for tracking biphasic modulated pulsed-envelope RF signal arrival time 14 p2197 A71-30796

Radio power, insertion loss, frequency and dielectric measurements at mm wavelengths 14 p2205 A71-30982

VLF radio signals phase anomalies due to solar X-ray flares, monitoring by detectors onboard OSO-4 satellite 15 p2369 A71-31434

Radio signals fine structure examination by instantaneous pulsed voltage measurements, describing fast response digital voltmeter circuit with memory element 15 p2409 A71-32188

Cosmos satellites tracking and monitoring, decoding and interpreting radio signals 16 p2643 A71-34080

Radio astronomy signals reception and interpretation, detailing solar, galactic and extragalactic spectrum sources 17 p2797 A71-34242

Traffic capacity of systems for search and analysis of radio signals with random duration 19 p3015 A71-37258

Radio satellite scintillation producing small scale ionospheric irregularities, determining characteristic size variation with latitude by autocorrelation method 19 p3055 A71-38043

Radio signal group trajectory in ionosphere expressed as series expansion in terms of increasing power of beam reflection height 19 p3020 A71-38371

Holographic method of correlation and spectral analysis of radio signals applied to stable RF generator, random fields and stereophonic radio transmission measurements 19 p3067 A71-38492

Transient RF pulse dispersion along plasma loaded coaxial gas discharge, noting group delay 20 p3272 A71-38783

Bayesian estimates in nonlinear filtration of nonstationary non-Gaussian radio signals, deriving second central moments and parameter estimate errors 20 p3198 A71-39807

Signal parameter estimation accuracy in nonoptimal reception on noise background with random uniformly distributed initial phase 20 p3199 A71-39817

Ionospheric electron density measurements by differential Doppler and Faraday effects, using coherent radio signals of artificial earth satellites 22 p3508 A71-41526

Wave polarization and midpath ground reflection effects on power loss of two hop radio signal propagation through ionosphere 22 p3511 A71-42280

Lunik 14 spacecraft radio signal reflection from lunar surface, showing energy spectrum dependence on surface roughness 22 p3511 A71-42301

Radio pulse synchronous detection with wideband preamplifier, evaluating frequency mismatch effects on signal distortion by transient response analysis 23 p3644 A71-43287

Unmodulated and step-modulated HF pulse signal envelope calculation and diagram plotting 23 p3644 A71-43319

CW avalanche microwave oscillator frequency modulation /pulling/ by injected RF signal, discussing theory and experiment 23 p3646 A71-43903

Joint phase locked and delay tracking system dynamics for pseudorandom radio signal detection 23 p3646 A71-44267

RADIO SOURCES [ASTRONOMY]

- NT CASSIOPEIA A
- NT PULSARS
- NT QUASARS
- NT RADIO GALAXIES
- NT RADIO STARS
- Radio sources fine structure at 81.5 MHz, examining angular structure by interplanetary scintillation 01 p0158 A71-10769
- Radio sources, cosmic rays and X ray background origin, discussing synchrotron mechanism, Compton scattering and red shifts 01 p0144 A71-10770
- Galactic radio emission sources high resolution observation by telescope, obtaining contour maps with positions and flux densities 02 p0303 A71-11820
- Compact radio sources of high angular resolution observed via joint U.S.-U.S.S.R. radio interferometry 02 p3037 A71-12086
- Extragalactic radio source 3CR catalog, analyzing emission spectra 02 p3030 A71-12087
- Radio sources position measurement with three-element interferometer by self calibrating technique 02 p0314 A71-12577
- Radio sources optical position measurement on Schmidt plates 02 p0314 A71-12578
- Radio sources position errors, comparing optical and radio measurements 02 p0314 A71-12579
- Gain/temperature measurement test set for earth station receiving system by radio sources program tracking unit, noting antenna power ratios determination by attenuator 02 p0222 A71-12797
- Small radio sources emission, examining correlation with optical photometric properties abnormalities 02 p0317 A71-12863
- Radio sources LF spectra distortions at critical value brightness temperature, noting induced Compton scattering effect on ambient gas thermal electrons 02 p0317 A71-12865
- Physical processes in galactic and extragalactic sources of nonthermal radio emission, assuming pulsars as principal magnetic field and cosmic rays sources 03 p0483 A71-13201
- Coherent radiation mechanisms characterizing cosmic masers in molecular lines, sporadic solar radio emission and pulsar radiation 03 p0486 A71-13321

Discrete radio sources precise declinations and optical identifications, using prototype space frequency interferometer

04 p0641 A71-14735

Radio source W58, investigating continuum emission structure and spectrum

04 p0641 A71-14736

Precise radio sources positions by Schmidt telescope and AGK 3 reference frame, noting comparison with optical positions

04 p0644 A71-15048

Galactic sources 18 cm OH emission and/or absorption observation

04 p0657 A71-15759

Extragalactic radio sources relativistic electrons interaction with cosmic black body radiation, noting effect on sources lifetime and X ray background

04 p0641 A71-15838

Galaxies and universe evolution, discussing expansion, isotropic black body radiation, present matter distribution, radio source population density and galactic nuclei instability

04 p0661 A71-15895

Primeval intergalactic magnetic field existence, observing radio sources rotation distribution and red shift

05 p0805 A71-16108

Small elliptical galaxy associated with radio source 3C 386, noting luminosity, internal velocity dispersion and low metal abundance

05 p0805 A71-16109

Sagittarius A region observations with 80 MHz radioheliograph, noting radio sources flux density

05 p0805 A71-16116

Nonthermal extended radio source in pulsar CP 1919 area, proposing as supernova remnant

05 p0805 A71-16117

Extragalactic radio sources spectra, noting type C curvature and type S power law

05 p0805 A71-16120

Flat HF radio spectra from optically thin sources with low electron energy distribution indexes

05 p0808 A71-16399

H II regions compact radiation sources flux densities observation at centimeter wavelengths

05 p0812 A71-16690

Coma Berenices galaxy clusters, discussing radio sources detection

05 p0813 A71-17090

Pulsar 150 MHz radiation linear polarization measurements, correlating interstellar Faraday rotation with determinations from neighboring extragalactic radio sources

06 p0971 A71-18242

Radio wave propagation through extensive weakly scattering medium, presenting typical results for scintillation index, scintillation visibility and spatial autocorrelation function

07 p1196 A71-19576

Contour maps of antenna temperature in W31 region, discussing H I absorption features

07 p1198 A71-19816

Radio emission observations at 8 mm wavelength from 3C 273 and 3C 279

07 p1204 A71-20626

Small diameter radio sources, determining positions, flux densities and diameters

08 p1357 A71-20870

Compact radio sources of high angular resolution observed via joint U.S.-U.S.S.R. radio interferometry

08 p1362 A71-21136

Extragalactic radio source 3CR catalog, analyzing emission spectra

08 p1362 A71-21137

Radio source OZ-252 radiant flux density spectrographic observation, noting quasi-stellar object emission spectra

09 p1516 A71-22065

Compton scattering of relativistic electrons in cosmic plasma waves as source of HF radio emission from metagalactic objects

09 p1521 A71-22926

Extragalactic violent events energy from collapsing stars or pulsar bodies rotational energy, producing extended radio sources

09 p1522 A71-22977

Flux density measurements of Ohio radio source survey at 1415 MHz compared with 1400 MHz measurements by Australian National Radio Astronomy Observatory telescope

10 p1668 A71-23881

Cygnus A two component radio source scintillations power spectrum observation by dipole array

10 p1678 A71-24804

Supernova remnant HB 21 linear polarized radiation observed at 6 cm wavelength, correlating optical nebula shape with radio mapped contours

11 p1819 A71-25216

Extragalactic radio sources total and linearly polarized radiation one dimensional distributions, noting spectral variations, magnetic fields and rotation measurements

11 p1830 A71-26131

Stimulated Compton effect in compact radio sources, giving formulas for energy flow between relativistic electron and radiation field

11 p1831 A71-26169

Galactic radio source Sagittarius optically thick component evidence based on flux density measurement

12 p1956 A71-26612

Galactic radio emission, considering continuum radiations, radio polarization, H I regions structure and physics, recombination and absorption lines

12 p1959 A71-26778

Milky Way galaxy radio halo, investigating background brightness distribution and local spiral arm magnetic field structure

12 p1963 A71-27078

Jovian radio source angular diameter measurement by radio interferometry

12 p1967 A71-27310

Radio source 3C120 gamma quanta with energy above 100 MeV from Cosmos satellites scintillation and Cerenkov counter measurements

12 p1953 A71-27417

Extended galactic radio sources in anticenter quadrant, obtaining 408 MHz integrated flux densities and spectral indices

13 p2135 A71-28298

Radio source and associated elliptical galaxy major axes position angles correlation

13 p2135 A71-28299

Compton effect in variable radio sources, considering models of Seyfert galaxies 3C 84 and 3C 120 from baseline interferometry

13 p2141 A71-29100

Interstellar formyl radical and carbon 13 formyl ion search in galactic radio sources

13 p2142 A71-29103

Absorption, divergence and scattering attenuations and scintillation of microwaves from space sources, calculating frequency and distance dependence characteristics

13 p2034 A71-29390

Galactic H II regions 35 cm water source emission line profile observation, noting frequency and intensity variations

14 p2304 A71-29594

Matter density in universe, comparing delayed galactic growth with observed radio sources and quasars

14 p2305 A71-29675

Type 4 source movement out to 6 solar radii from solar center based on 80 MHz brightness temperature observations

14 p2306 A71-29694

Radio source 3C 273 observation at 8.2 mm wavelength, using traveling wave maser on radio telescope for tenfold sensitivity improvement

14 p2253 A71-29989

Solar radio emission at 3.15 cm wavelength via 22-meter radio telescope, determining relation between source brightness and areas of sunspot groups

14 p2299 A71-29990

BL Lac extragalactic source of radio, IR and visual radiation, estimating upper limit to distance based on spectrum model

14 p2313 A71-30452

Noise measurements on discrete radio sources spectra, studying Cas A and Cyg A flux density ratio

14 p2316 A71-30975

Absolute calibration of radio sources with variable flux density in microwave region

14 p2316 A71-30976

Astronomical radio sources angular structure, using lunar occultations in narrow frequency band at large SNR

15 p2482 A71-31329

Positions and flux densities of radio sources from Fourth Cambridge catalog by pencil beam measurements at 408 MHz, using Molonglo telescope

15 p2485 A71-31697

Submillimeter background radiation origin possibility from extragalactic discrete sources based on cosmological models

15 p2478 A71-31828

Radio sources 3C 48, 3C 144, 3C 161, 3C 273 and 3C 298 scintillations by interplanetary plasma at 60 MHz, determining electron density fluctuations

15 p2487 A71-32033

Astronomical 4C catalog radio sources statistical analysis, showing mean spectral indices dependence on radio emission fluxes and red shifts

15 p2487 A71-32037

Optical positions of 87 identified extragalactic radio sources between declinations plus 19 and minus 80 deg, using Palomar Sky Survey plates and prints

15 p2489 A71-32398

Radio sources interplanetary scintillations observation, discussing solar wind velocity and diffraction pattern scale

15 p2480 A71-32445

Water vapor emission map at 22 GHz from W 49, using three-station long baseline radio interferometer data

16 p2631 A71-33179

Extragalactic radio sources millimeter wavelength spectra measurements, investigating electron energy loss mechanism, magnetic field strengths and dynamics

16 p2631 A71-33234

Galactic H II regions radio sources observations by high resolution radio telescopes, comparing with optical appearance

16 p2632 A71-33326

IR line radiation from galactic center thermal radio sources, determining element abundances

16 p2633 A71-33336

Corotating solar plasma streams associated with variations of interplanetary scintillation from observed radio sources

16 p2634 A71-33386

Bright quasi-stellar radio sources B2 1215 plus 30 and ON231, discussing positions and spectrum

16 p2634 A71-33401

Irregular variable BL Lac photographic observations, equating object with radio source VRO 42.22.01

16 p2635 A71-33430

Galactic center isolated radio pulse search at 151.5 MHz, correlating with Weber gravitational events

17 p2805 A71-35378

Radio source PKS 1514-25 identification as E galaxy, investigating rapid optical variability and light curves

17 p2805 A71-35379

Time dependent multidimensional axisymmetric computations for extended extragalactic radio sources propagation into intergalactic media having different densities and temperatures

17 p2806 A71-35411

Interstellar silicon monoxide discovery from 130,246 MHz frequency line emission of galactic radio source Sag B2

17 p2807 A71-35416

Density and luminosity evolution of radio source population, considering counts per unit co-moving volume at cosmological epochs

18 p2961 A71-35966

Cyg X-1 X ray pulsar age determination and emission model speculations based on observation data for supernova remnant and radio counterpart absence explanation

18 p2962 A71-36151

Contour maps of radio source CTB 1 at UHF, suggesting supernova remnant superimposed on broad faint H II region

18 p2962 A71-36153

Double extragalactic radio sources luminosities and confinement observations, comparing with ram pressure prediction

18 p2963 A71-36156

Kinematic illusions in connection with retardation effects involving extragalactic sources with varying microwave output, noting occurrence in quasar 3C 279

18 p2925 A71-36924

Two dimensional structures of 76 extragalactic radio sources at 1425 MHz in tabular and graphical forms

18 p2970 A71-37064

Extragalactic centimeter radio sources flux density data and spectral distribution, presenting expression for error estimation

18 p2970 A71-37065

Optically identified B2 radio sources at 5 GHz, presenting flux density measurements, spectral index and visual identity

18 p2970 A71-37066

Discrete galactic and extragalactic radio sources observations at 3.3 mm, detailing flux and variability measurements

18 p2970 A71-37067

Milky Way galaxy radio halo, investigating background brightness distribution and local spiral arm magnetic field structure

19 p3133 A71-37428

Radio sources position data table based on high accuracy telescope observation including calibration uncertainties and measurement random errors

19 p3142 A71-38008

Negative search for radio pulsar near Cyg X-1 or associated variable radio source, using fast holding algorithm

20 p3292 A71-39408

Homogeneous large scale intergalactic magnetic field evidence in terms of Faraday rotation measurements of extragalactic radio sources

20 p3294 A71-39541

Identity relation of LF compact source to Crab pulsar NP 0532 with respect to interstellar scattering

20 p3302 A71-39924

Radio telescopic observations of Jupiter, Venus and radio source 3C 273 at 2 and 8 mm wavelengths, determining brightness temperatures and radiation flux densities

21 p3445 A71-40258

Critical evaluation of spectroscopic and photometric observations related to radio source 3C 386, suggesting foreground galactic star superposition on radio galaxy

21 p3447 A71-40443

RADIO SPECTRA

Bright star at radio source and X ray observations evaluation from optical identification of Cygnus X-1, taking into account spectrum and energy distribution characteristics

21 p3447 A71-40444

Compact radio sources in galactic nuclei, examining relation to IR emission

21 p3449 A71-40609

Extragalactic radio sources counts for proportional space volume determination, comparing various cosmological models

22 p3596 A71-41445

Small scale structure of extragalactic compact radio sources at 6 and 18 cm, obtaining magnetic field strengths and maximum brightness temperatures

22 p3598 A71-41912

Green Bank sky survey of radio sources at 1400 MHz, discussing 5C1 spectral analysis and overlaps

22 p3601 A71-42163

Extragalactic radio sources polarized radiation intensity statistical analysis, calculating magnetic field scale

22 p3602 A71-42175

Radio source counts interpretation by cosmological evolution models, suggesting luminosity role

22 p3606 A71-42600

Astronomical radio sources angular structure, using lunar occultations in narrow frequency band at large SNR

22 p3606 A71-42604

Extragalactic radio sources catalog from Parkes Australian National Radio Astronomy Observatory 2700 MHz survey of plus/minus 4 deg zone and selected regions

22 p3607 A71-42769

Astronomical radio sources from Parkes catalog, calculating daily and hourly variations in flux density

23 p3722 A71-42937

Solar gravitational deflection of radio waves measured by Cambridge one-mile telescope, observing radio source 3C 279 before/after 8 October 1970 occultation

23 p3769 A71-43990

Weak radio sources observations by lunar occultation method with large steerable radio telescope, discussing optical identification of sources

24 p3868 A71-44563

Spectral characteristics of continuous radio emission of extragalactic binary objects, discussing model of binary radio source formation from dipole nucleus

24 p3869 A71-44801

Ohio catalog radio source spectra and positions, presenting flux density and RMS errors

24 p3871 A71-44913

Photographic monitoring of radio sources with flat or peaked spectra, identifying as quasars or unstable galactic nuclei by optical variations

24 p3872 A71-44920

RADIO SPECTRA

NT MICROWAVE SPECTRA

Lunar upper crust structure and composition from radio wave reflection spectrum analysis

02 p0308 A71-12098

Atomic H excitation by electron impact, deriving cross sections for anomalous recombination lines in H II regions radio frequency spectrum

02 p0317 A71-12873

Small angular diameter radio source in central Crab Nebula association with pulsar NP 0532 based on spectra and pulse duration

03 p0483 A71-13203

Chromospheric flare north-south asymmetry aspects, calculating radio flux density correlation indices

03 p0417 A71-14193

Radio source W58, investigating continuum emission structure and spectrum

04 p0641 A71-14736

Planetary nebulae radio spectra observations by Jodrell Bank interferometer and total power instruments, using variable radius spherical shell model for flux density

04 p0658 A71-15836

Pulsars CP 0328, CP 0834, CP 1133 and CP 1919 radio spectra, examining interstellar scintillation model, transverse velocities and line widths

05 p0802 A71-15939

Quasars radio spectra in 1-5 GHz frequency range, examining emission from expanding clouds due to synchrotron radiation with self absorption

05 p0805 A71-16112

Extragalactic radio sources spectra, noting type C curvature and type S power law

05 p0805 A71-16120

Flat HF radio spectra from optically thin sources with low electron energy distribution indexes

05 p0808 A71-16399

Sunset and sunrise vertical displacement rate of lower ionosphere from spectral analysis of field intensities at 236, 557 and 1277 kHz

05 p0744 A71-17184

Thermal noise perturbed oscillator RF spectrum determination from frequency instability in time domain

[ONERA-TP-927]

07 p1075 A71-19265

Lunar upper crust structure and composition from radio wave reflection spectrum analysis

08 p1362 A71-21148

Radio spectrum use in space communications for satellite services, considering antenna design, modulation techniques and wave attenuation

09 p1406 A71-22871

Multicomponent whistler spectra due to discrete ionization inhomogeneities and complex structure nonuniformities forming diffuse whistlers in outer ionosphere

11 p1758 A71-25789

Optical variation and radio spectral index statistics of extragalactic sources, including quasars from photographic monitoring with 30 inch reflector

12 p1962 A71-26932

Sunset and sunrise vertical displacement rate of lower ionosphere from spectral analysis of field strength at 236, 557 and 1277 kHz

13 p2059 A71-28241

Quasar-like N-type and Seyfert galaxies optical characteristics, discussing optical variability and radio spectrum characteristics

14 p2307 A71-29866

Planetary nebulae observations in radio spectrum, determining interstellar extinction, electron temperature recombination theory and models

14 p2312 A71-30388

Noise measurements on discrete radio sources spectra, studying Cas A and Cyg A flux density ratio

14 p2316 A71-30975

Astronomical 4C catalog radio sources statistical analysis, showing mean spectral indices dependence on radio emission fluxes and red shifts

15 p2487 A71-32037

Mars radio spectrum discrepancy with elementary theory, assessing microwave observations

15 p2490 A71-32416

Bright quasi-stellar radio sources B2 1215 plus 30 and ON231, discussing positions and spectrum

16 p2634 A71-33401

Jupiter radio spectrum decametric component observations, emphasizing core and mantle rotation under coupled torsional oscillations

16 p2637 A71-33514

Sagittarius A model involving relativistic electron diffusion from point source due to Compton scattering for observed radio spectra explanation

18 p2957 A71-36155

Technological environment for international communications law, examining system design, radio spectrum resource management and communication satellites

18 p2986 A71-36164

Simple type centimeter solar radio bursts identification and relation to flare position, noting radio spectrum over sunspot

18 p2958 A71-36741

Extragalactic centimeter radio sources flux density data and spectral distribution, presenting expression for error estimation

18 p2970 A71-37065

Multicomponent whistler spectra due to discrete ionization inhomogeneities and complex structure nonuniformities forming diffuse whistlers in upper ionosphere

22 p3532 A71-41557

CH radical 10 cm line frequency determination by photographic Fabry-Perot interferometry

23 p3733 A71-43082

Ohio catalog radio source spectra and positions, presenting flux density and RMS errors

24 p3871 A71-44913

RADIO SPECTROSCOPY

High sensitivity radiospectrography, obtaining solar emission spectra on decametric waves by radio telescope, focal antenna and receivers

10 p1667 A71-23826

RADIO STARS

NT PULSARS

Antenna polar diagrams short range measurement, using far field approximation for incident plane waves source and radio star or satellite

02 p0223 A71-12801

Laboratory model for radio star scintillation and other diffraction phenomena by thin weak random phase changing screen including earth atmosphere or solar wind

10 p1678 A71-24797

Radio astronomy, covering invisible stars discovery and instrumentation techniques comparison with UV and X ray astronomy

19 p3131 A71-37342

Cas A and Cyg A radio stars scintillation measurement by two element phase switched interferometers in ionospheric irregularities study

21 p3378 A71-40377

Radio stars classes, discussing red dwarf flare, red supergiants, blue dwarf companion, novae, pulsars and X ray stars

21 p3448 A71-40582

RADIO TELEGRAPHY

Remotely controlled room temperature microwave parametric amplifier design for shipboard satellite telegraphy terminal

02 p0234 A71-12813

European telecommunication and TV distribution satellite system, including telephony, telegraphy, telex and wideband data transmission

17 p2696 A71-34232

RADIO TELEMETRY

NT PULSE FREQUENCY MODULATION TELEMETRY

Passband circuits improving radio telemetry channel potential in atmospheric sounding system

01 p0080 A71-10543

Computerized data management program for Minuteman radio telemetry instrumentation systems

01 p0050 A71-10884

Radio telemetry data transmission, investigating multipath propagation effects on signal to noise ratio and distortion

01 p0033 A71-10889

Harmonic and independent subcarrier DSB/FM telemetry systems implementation and utilization

01 p0033 A71-10898

Radio telemetry transmitter receiver systems notch noise testing for relationships between spectral power density, video and IF bandwidths and peak deviation

01 p0034 A71-10908

Universal UHF telemetry system for use on artillery projectiles and gun launched probes, describing components

01 p0034 A71-10911

Projectile P band FM/FM telemetry system for in-barrel data acquisition

01 p0034 A71-10912

Apollo lunar surface communications, discussing VHF system for voice and telemetry and TV hardware and techniques

01 p0035 A71-10914

Design criteria for implantable biotelemetry systems, discussing RF signal transmission through conductive body tissue

01 p0024 A71-10982

Nulls of radiation and input impedance of flush mounted rocket antennas for telemetry and transponder systems

02 p0228 A71-11674

Biotelemetry objectives, principles, implementation and applications, discussing wire and wireless systems, radio frequency selection, transmitting power and modulation methods

03 p0369 A71-13059

Telemetry systems prelaunch calibration tests, considering bit error rate, intermodulation distortion and antenna tracking

04 p0554 A71-15317

Real time missile radio telemetry data transmission to ground station, using instrumented aircraft

04 p0554 A71-15321

Solar cell and coverslide degradations measurement from telemetry data on satellites at near-synchronous altitudes

05 p0702 A71-16086

Multichannel EEG radio telemetry for remote recording of biological activity from subjects in motion and within human body

05 p0715 A71-17110

Rocket probe launched by aircraft for measuring pressure, temperature, magnetic field and wind velocity around tornado vortex through radio telemetry

05 p0778 A71-17140

Intelsat 3 satellite Communication, Telemetry, and Command system using transponders for multichannel voice and TV transmission

06 p0870 A71-18398

PAM/FM radio telemetry coder including electronic commutator for sampling and sequential time control, discussing design, operation, performance and reliability

06 p0870 A71-18399

Bioelectric activity of cerebral cortex in man under neuroemotional stress, using multichannel radioelectroencephalography

06 p0856 A71-18464

Suppressed RF carrier tracking for two channel interplex phase modulated telemetry

07 p1066 A71-20427

Wideband subcarrier frequencies demodulation technique for uncoded or coded PSK telemetry over large input SNR range for deep space interplanetary communication

08 p1254 A71-21316

Counting rate source encoding algorithm with orthogonal functions in space experiment data processing before telemetering to ground

08 p1259 A71-21592

Large capacity ferrite core buffer memory for spacecraft telemetry temporary data storage, using access circuitry with multichip and thin film circuits

09 p1421 A71-23735

Venus atmosphere determinations by Mariner 5 radio occultation measurements, deriving altitude profiles of refractivity, molecular number density, pressure, temperature and radio frequency absorption

10 p1669 A71-24176

Carrier suppression in angle modulated transponder telemetry by first order stationary stochastic processes

12 p1880 A71-27074

Field testing for radio telemetry receiving systems calibration, including tape recorder degradation effects during data processing

14 p2198 A71-30903

High efficiency autotrack strip-line-fed dipole antenna array for L and S band airborne telemetry

14 p2198 A71-30905

World Weather Watch global telemetry system including observing stations, and rockets, balloons and satellite-borne sensors, determining atmospheric states on ground and sea

14 p2199 A71-30913

Radio telemetry stimulator for conditioning large animals by applying high voltage short duration pulses to skin surface

16 p2534 A71-33050

International cooperation in space radio science, considering real time telemetry application via Solrad, Tiros and Alouette satellites

17 p2697 A71-34252

Soviet book on space radio telemetry systems characteristics, design, requirements and operation conditions covering noise stability, reliability and redundant codes

17 p2699 A71-34521

Tuned loop antenna for missile telemetric data transmission, discussing design, implementation and impedance and radiation measurements

17 p2718 A71-35749

Hadamard transform source encoding application to Apollo unified S-band telemetry links, considering possible system performance improvement

18 p2876 A71-36470

Telemetry systems with discrete compression-expansion function, calculating noise stability improvement as compared to linear and nonlinear signal conversion operations

22 p3515 A71-42859

Turnstile loop Yagi and hexafilar contrawound spiral antennas for microwave telemetry rocket data reception, describing design and radiation patterns

23 p3643 A71-43095

RADIO TELESCOPES

Steerable 100 m radio telescope design, surface accuracy, receiving installation and cryogenically cooled parametric amplifiers

01 p0068 A71-11342

Bonn 100 meter radio telescope, describing frequency range, antenna array, steering accuracy, construction and design

02 p0239 A71-12913

Soviet radio telescope tracking control system, describing feedback sensors, digital computer, servomotors, actuators and control panels

04 p0565 A71-14848

Performance tests for guidance accuracy and tracking smoothness of Crimean Astrophysical Observatory radio telescope, discussing pointing and tracking errors

04 p0565 A71-14849

Pulkovo radio telescope resolution improvement by range extension into millimeter wavelength region

07 p1109 A71-19341

Pulkovo radio telescope antenna surface precision and electrical characteristics at eight mm, using ground oscillators and solar, lunar and Venusian observations for radiation pattern

07 p1075 A71-19342

Pulkovo radio telescope effective frequency range extension beyond minimum 3 cm wavelength into millimeter range, installing high precision reflecting mirror surfaces

07 p1083 A71-19343

Pulkovo radio telescope reflector adjustment by phase comparator, using centimeter wave transmitting-receiving antenna for sun, moon and Venus observations

07 p1083 A71-19344

Radiotelescopic observations of period and declination of pulsar Mp 0450 in South India

07 p1201 A71-20499

Solar radio emission micropulsations observations at 10 cm, discussing primary and secondary bursts from different disk regions and radio telescope

07 p1189 A71-20639

Equatorially mounted parabolic reflector radio telescope, discussing structural design, mechanical drives and electronic control system

08 p1271 A71-21152

Parabolic radio telescope phase errors for field distribution, compensating for mirror system mass deformations

08 p1266 A71-21468

Highly directive radio telescope antenna parameters in near zone, using focusing at minimum distance

09 p1414 A71-22218

Receiver systems for 100 meter Effelsberg radio telescope using cryogenically cooled parametric amplifiers for receiver system noise minimization

10 p1578 A71-24510

Book on radio astronomy instruments and observations covering high sensitivity radiometers, masers, parametric amplifiers, radio telescope design, radio spectrometers, parabolic reflectors, etc

11 p1737 A71-25359

Venus maps from high resolution radio telescope observations, investigating surface pressure/temperature, planetary atmosphere and water vapor presence

11 p1830 A71-26109

Large steerable radio telescope with equatorially mounted parabolic cylinder for lunar occultation, pulsar and scintillation observations

12 p1894 A71-26930

Planetary disks brightness temperature measurement using 22 m radio telescope with indium antimonide detector at 1.4 mm

13 p2141 A71-29102

Radio source 3C 273 observation at 8.2 mm wavelength, using traveling wave maser on radio telescope for tenfold sensitivity improvement

14 p2253 A71-29989

Optical method for elastic deformations measurement of radio telescope reflector at various elevations

14 p2211 A71-29991

Max Planck Institute 100 m radio telescope at Bonn with all motions fully controllable, describing foundation constructional details, reflector structure and positioning gear

14 p2214 A71-30813

Filled aperture antennas for radio astronomy, considering mm wave observations, parabolic cylinder antennas and active/passive control of antenna surfaces

18 p2901 A71-37036

Cosmic radio astronomy, evaluating sensitivity and resolution limitation of ground based radio telescopes

19 p3138 A71-37762

Solar atmosphere oscillatory component observations at 3 mm wavelengths with two radio telescopes, obtaining power spectra

21 p3447 A71-40424

Hydrostatic bearings for large optical and radio telescopes, explaining lubricant flow control systems

23 p3661 A71-43862

Curved wire array to eliminate parasitic circular polarization of variable profile radio telescope antennas, applying to solar observations

23 p3655 A71-44326

Weak radio sources observations by lunar occultation method with large steerable radio telescope, discussing optical identification of sources

24 p3868 A71-44563

RADIO TRACKING

ATS 1 and 3 satellite VHF transponders for ships and aircraft location, communication and remote sensing, discussing performance test results

14 p2198 A71-30898

Interrogation, recording and location system satellite techniques for wildlife tracking and monitoring, describing collar antenna, battery pack and solar cells

14 p2200 A71-30923

Doppler effect satellite location of crystal controlled CW transmitters on earth surface for animal tracking

14 p2200 A71-30924

Lunar gravity measurements by Apollo 14 Doppler radio tracking during low altitude orbits, correlating variations with surface features

16 p2641 A71-33771

Correction method for satellite radio tracking errors due to VHF refraction in atmosphere

16 p2543 A71-33832

Satellite communication application to maritime mobile service and position determination, discussing VHF and UHF space and shipborne equipment and modulation systems

17 p2697 A71-34241

Radio tracking of aircraft by two geostationary satellites, discussing measurement, navigation and position errors

18 p2945 A71-36508

Navigation error sources and orbit determination accuracies for Jupiter planetary encounter, using earth based radio tracking data

[AAS PAPER 71-118]

19 p3101 A71-37937

Tracking servosystems errors of indicator-receiver of amplitude radio interferometers for recording electromagnetic field pattern extremes

22 p3521 A71-42275

Covariance analysis of Mars gravity harmonics, ephemeris and radiation pressure from Mariner 1971 range and Doppler radio tracking data

[AAS PAPER 71-343]

23 p3727 A71-43016

Earth based radio tracking data types involving simultaneous or near simultaneous spacecraft tracking from widely separated tracking

[AAS PAPER 71-399]

23 p3643 A71-43066

Lunar gravity estimate from low degree spherical harmonic coefficients in potential model and Lunar Orbiter 4 radio tracking data reduction

23 p3768 A71-43882

Long distance radio navigation and tracking systems, discussing Dioscures, Loran C and Omega

24 p3845 A71-44351

RADIO TRANSMISSION

NT DOUBLE SIDEBAND TRANSMISSION

NT IONOSPHERIC F-SCATTER PROPAGATION

NT IONOSPHERIC PROPAGATION

NT MICROWAVE TRANSMISSION

NT MULTIPATH TRANSMISSION

NT SHORT WAVE RADIO TRANSMISSION

NT SINGLE SIDEBAND TRANSMISSION

NT TRANSEQUATORIAL PROPAGATION

Proton Flare Project 1969 observation of VLF radio wave propagation, detecting sudden phase anomaly events due to solar activity

01 p0144 A71-10288

Adaptive retransmission for improving two-way communication between antenna arrays in randomly fading environment, calculating signal to noise ratio

01 p0052 A71-10468

Annular solar eclipse effects on VLF transmissions phase delay

02 p0212 A71-11969

Radio propagation at 84 MHz, investigating moving receiving terminal and aircraft reflection effects on signal distortions

02 p0216 A71-12344

VHF/UHF satellite transmission, predicting multiple ground reflection effects on signal fading and effective antenna gain by computerized method

06 p0868 A71-17732

Troposphere effects on radio wave propagation and satellite communication

07 p1059 A71-19010

Enhanced ionization density duct propagation of VLF radio waves in magnetosphere

07 p1062 A71-19578

Long range tropospheric radio wave propagation, calculating signal impulse function and time lag between diffraction and reflection

09 p1404 A71-22217

Book on applied diffraction theory covering scalar and vector wave theory, radio wave propagation, linear integral equations, microwave lens, Fabry-Perot interferometers, etc

09 p1494 A71-22959

Line-of-sight radio signal transmission, investigating sea surface reflections effects on phase of arrival and coherence

09 p1409 A71-23502

Meteor-reflected radio wave propagation directivity and diurnal and annual variations, comparing experimental and theoretical calculation results

10 p1576 A71-24033

Meteor-reflected radio wave propagation diurnal and annual variations prognosis, discussing indispensability of incident meteor particle velocity and density distributions

10 p1669 A71-24034

Solar particle effects on polar cap VLF radio propagation along polar and transpolar paths, considering short term phase effects

10 p1577 A71-24313

Diversified frequency radio data transmission and reception by linear modulation, considering error rate in white noise and selective/flat fading

10 p1580 A71-25109

Radio propagation and antennas transmission formulas, discussing fundamental circuit elements with inductors and capacitors

11 p1798 A71-25596

Coupled vacuum mode equations modified for cylindrical stratification for calculation of propagation characteristics of earth-ionosphere waveguide

11 p1731 A71-25664

Venus atmosphere mm and cm radio wave propagation calculated from temperature, pressure and chemical composition data

11 p1823 A71-25695

Ionospheric transverse inclinations from radio wave propagation characteristics obtained by circular oblique incidence sounding scans

11 p1758 A71-25788

Intelsat 4 transmission subsystems design, discussing alternative high power amplifier configurations, redundancy and emergency routing of transmitted RF carriers

12 p1894 A71-26992

Hamiltonian optics based model of ionospheric radio propagation, discussing earth magnetic field effects on radio wave angle-of-arrival changes

12 p1879 A71-27058

Polarization behavior of radio waves propagating through magnetoionic medium near and across transversal point of magnetic field

13 p2028 A71-27997

Smith method for radio wave propagation time lag calculation, assessing maximum error by comparing calculated with measured distance/frequency characteristics

13 p2030 A71-28561

Transhorizon radio propagation by atmospheric heterogeneities, discussing effect on attenuation, antenna gain reduction and transmission bandwidth

13 p2033 A71-29239

Conjugate and closely-spaced riometer observations of auroral radio absorption, considering explanation by alternation of particle precipitation between Northern and Southern Hemispheres

14 p2192 A71-29667

Optimal detection of rectangular radio signal pulse envelope distortions by multiplex fluctuations over white noise background

14 p2195 A71-30113

- Raisting ground radio station second antenna system, discussing design for all weather performance
14 p2214 A71-30812
- Radio wave propagation in ionosphere, measuring plasma frequency, cyclotron cut-off and noise level
15 p2373 A71-32443
- Orbiting satellites VHF radio signal transmissions enhancement, considering focusing effect of electron density contours resulting from gravity or acoustic wave in ionosphere
16 p2543 A71-33817
- Copyright protection of communication satellite transmitted radio and TV programs, discussing involvement of UN agencies and other international organizations
17 p2841 A71-34248
- Mode conversion and auroral effects observations on polar VLF propagation path, noting seasonal and solar cycle variations
17 p2731 A71-34319
- FM radio receiver SNR and noise spectra for arbitrary transmission band characteristics
17 p2701 A71-34778
- Long baseline atomic clock interferometry with meter wavelength cross polarized antenna arrays for spacecraft propagation experiments
17 p2744 A71-35098
- Book on communication satellites technology covering satellite transponders, spacecraft antennas and subsystems, high power transmission, launch vehicles, digital techniques, earth stations, etc
19 p3149 A71-37271
- Ionospheric transverse inclinations from radio wave propagation characteristics obtained by circular oblique backscatter sounding scans
22 p3532 A71-41556
- Radio regulation planning and frequency assignments for operational earth exploration satellite service
22 p3623 A71-41974
- Geometrical-optical approximation for residue series of obstacle /terminal/ gain in radio wave propagation over inhomogeneous earth
22 p3511 A71-42281
- Monochromatic radio wave propagation in interplanetary plasma, deriving frequency spectrum and phase and amplitude fluctuations
22 p3511 A71-42302
- Binary coding and phase displacement modulation of digital data in radio transmission
22 p3514 A71-42471
- Radio wave propagation characteristics in Venusian atmosphere and interplanetary plasma from Venera 7 probe data
24 p3805 A71-45312
- RADIO TRANSMITTERS**
NT IONOSPHERES
NT RADIO BEACONS
NT RADIOSONDES
NT RADIOTELEPHONES
NT RAWINSONDES
NT TRANSMITTER RECEIVERS
Constant bandwidth FM subcarrier oscillators signal preemphasis for FM and PM transmitters
01 p0033 A71-10897
- Microwave receiving and transmitting antennas proximity effects on permittivity measurements of dielectric layer
01 p0057 A71-11206
- Satellite communication system earth station transmitter with FDM-FM and SPADE carriers, noting intermodulation effect on channel capacity
02 p0223 A71-12810
- Transistorized transmitters constant phase low distortion AM system based on Chireix method, generating AM from two push-pull phase modulated signals
05 p0720 A71-16392
- High Q factor rotor systems applications in dielectrics electromagnetic viscosity measurement and radio transmitters with low oscillation phase drift
09 p1492 A71-22363
- ECG miniaturized single channel biotelemetry transmitter, discussing lightweight design and power supply
10 p1570 A71-24487
- Communication satellite ground station radio receiver and transmitter systems including parametric amplifier and phase lock demodulators applications
10 p1590 A71-25102
- Radio interference suppression rules optimization, using mathematical model to characterize interference voltage, antenna sensitivity and radio transmitter field strength
11 p1733 A71-26339
- Remote controlled automatically tuned 1-kw short wave transmitter with zero power tuning mode of power stage and drive unit frequency generation
12 p1887 A71-26989
- Signal rejection characteristics of receiver preselector and antenna system, requiring receiver mixer efficiency and transmitter parameters
13 p2032 A71-28862

- Microwave receiving and transmitting antennas proximity effects on permittivity measurements of dielectric layer
17 p2697 A71-34258
- Intelsat 3 satellite communication ground station radio receiving and transmitting equipment design
17 p2724 A71-35512
- Communication satellite ground station transmitting equipment, discussing carrier waves, FM, frequency converters and microwave amplifiers characteristics
17 p2717 A71-35515
- Emission transistor for Eole balloon transmitter power amplifier, discussing trouble-free emission, high output, wide temperature range, lightweight and reliability features
18 p2891 A71-36563
- Space communications period forecasting algorithm for limited power ground based transmitters and spacecraft in earth orbit
19 p3022 A71-38502
- Automatic pulsating locator beacons and receivers to determine emergency transmitters locations, using satellites with computer analysis
20 p3261 A71-38865
- Breadboard simulation model of laser space communications system consisting of carbon dioxide laser, transmitter telescope, GaAs phase modulator and attenuator
20 p3196 A71-39116
- Satellite-borne minimum bulk and weight K-band transmitter and receiver frequency converters design features and performance
22 p3524 A71-42522
- Phase discontinuity transmitter-receiver system for VLF/LF time signals
24 p3804 A71-44997

RADIO WAVE REFRACTION

- Tropospheric layers radio reflectivity as function of refractivity index and thickness/wavelength ratio
01 p0040 A71-11607
- Decimeter radio wave propagation in Venusian atmosphere, determining refraction and absorption coefficients height dependence based on Venera spacecraft data
05 p0718 A71-15993
- Venera satellites and Mariner 5 radio wave fluctuations and discontinuities of refractive index in Venusian atmosphere, considering atmospheric turbulence
05 p0719 A71-16042
- Irregularities heights in ionospheric refractivity responsible for radio-satellite scintillation from spaced receiver experiments at midlatitude and subauroral locations
06 p0868 A71-17985
- Ionospheric refraction during radio wave propagation using space diversity recordings of Faraday and Doppler effects for coherent signals from geophysical rockets
06 p0894 A71-18256
- Ionospheric columnar electron content using differential radio refraction measurements from satellite observation station
07 p1097 A71-19026
- Multipath distortion and wavenumber spectrum of refractive index in radio links
07 p1060 A71-19258
- Refractive errors in spaced antenna radio angle-of-elevation measurements based on comparison with use of single directional antenna
12 p1881 A71-27424
- Cosmic radio waves scattering in outer solar corona, considering refraction and gradients in electron density fluctuations
12 p1970 A71-27706
- Radio waves tropospheric refraction based on far field of vertical electrical dipole on impedance sphere
14 p2191 A71-29510
- Venera satellites and Mariner 5 radio wave fluctuations and discontinuities of refractive index in Venusian atmosphere, considering atmospheric turbulence
16 p2542 A71-33446
- Correction method for satellite radio tracking errors due to VHF refraction in atmosphere
16 p2543 A71-33832
- Tropospheric refraction effects and field strength dependence on height at frequencies below 10 MHz
19 p3017 A71-37862
- Atmospheric water vapor effects on microwave frequencies refraction index structure
19 p3024 A71-38611
- Venus atmosphere decimeter wave field intensity fluctuations and refraction coefficient variations
20 p3297 A71-39627
- Decimeter radio wave propagation in Venusian atmosphere, determining refraction and absorption coefficients height dependence based on Venera spacecraft data
22 p3515 A71-42742
- Microwave radio signals refraction angles and group delay times for biexponential model of ionospheric electron density profile
24 p3805 A71-45253

RADIO WAVES

- NT DECA-METRIC WAVES
NT DECIMETER WAVES

NT EXTRATERRESTRIAL RADIO WAVES

- NT GALACTIC RADIO WAVES
NT LONG WAVE RADIATION
NT MICROWAVES
NT MILLIMETER WAVES
NT RADIO EMISSION
NT SHORT WAVE RADIATION
NT SKY WAVES
NT SOLAR RADIO BURSTS
NT SOLAR RADIO EMISSION
NT SUBMILLIMETER WAVES
NT TYPE 2 BURSTS
NT TYPE 3 BURSTS
NT TYPE 4 BURSTS
- Atmospheric UHF attenuation observations by horn antenna
01 p0039 A71-11381
- HF radio wave Doppler shift by ionosphere effect in retransmitted and backscatter signals
01 p0040 A71-11524
- Early phase model of F region heating and hydrodynamic expansion by deviative absorption of radio waves
01 p0040 A71-11530
- F region reflected radio wave heating effect, considering electron temperature, collision frequency and heat conductivity
01 p0040 A71-11531
- Ionospheric absorption of radio waves reflected from sporadic E layer, noting attenuation frequency dependence
02 p0211 A71-11768
- Solar flare X ray and radio wave emission measurement byOGO 4 and Solrad 9 satellites
03 p0479 A71-14046
- Pulsar radio wave generation, discussing emission theory and frequency independence of beam width and polarization
03 p0493 A71-14208
- MF, LF and VLF ionospheric radio wave propagation theory using spherical wave functions for computer simulation
04 p0552 A71-15215
- Transient pulse plane wave reflection from ionospheric model with linear electron density profile
04 p0553 A71-15218
- Dipole antenna array coupling for circularly polarized radio waves amplitude fluctuations reflected from ionosphere at vertical incidence
05 p0738 A71-16216
- LF radio waves field strength monitoring for study of ionospheric effects due to celestial X rays
05 p0721 A71-16442
- Plasma instabilities role in ionospheric heating and radio wave attenuation
06 p0888 A71-17288
- Radio wave ionospheric heating effect on absorption of probing waves of different polarization
06 p0888 A71-17289
- Polarization fluctuations of radio waves reflected from ionosphere E and F layers, describing radio polarimeter and preliminary measurement results
07 p1061 A71-19384
- Radio wave absorption measurement at constant solar zenith angle of 65 deg, discussing seasonal variation
07 p1101 A71-19408
- Radio wave propagation at frequencies near proton gyrofrequency in horizontally stratified ionosphere, taking into account intermode coupling
07 p1102 A71-19666
- Pulsed radio wave interactions with various lower ionosphere models, estimating cross modulation by computer calculation for comparison with measurements
09 p1405 A71-22443
- Ionospheric radio waves scattering cross sections under time varying random irregularities, considering anisotropic behavior, dielectric tensor and geomagnetic field
09 p1411 A71-23587
- Anomalous winter ionospheric radio wave absorption related to amplitude increases of microbarometric oscillations at ground level
10 p1606 A71-24919
- HF and VHF radio propagation on earth surface, describing launchers used for generation and detection
10 p1579 A71-24950
- Radio propagation and antennas transmission formulas, discussing fundamental circuit elements with inductors and capacitors
11 p1798 A71-25596
- F region layers vertical drift from phase paths of radio waves reflected from constant electron density surfaces
11 p1756 A71-25646
- Sharp peaking of wave impedance characterizing propagation in earth-ionosphere waveguide from atmospheric radio noise measurements near 2 kHz
13 p2029 A71-28471
- Electron concentration profiles in D region from radio wave partial reflection coefficients
13 p2030 A71-28558

- Upper atmosphere aeronomy historical review, considering meteor trails, radio waves, auroral photography, terrestrial magnetic field and spectroscopy
14 p2229 A71-29704
- Vertically incident radio waves reflection from horizontally stratified ionosphere with random electron density irregularities
14 p2192 A71-29718
- Matrix solution for wave equation with mode coupling of VLF and ELF radio waves in horizontally stratified layer of anisotropic ionosphere plasma
15 p2373 A71-32444
- Polarization fluctuations of radio waves reflected from ionosphere E and F layers, describing radio polarimeter and preliminary measurement results
19 p3017 A71-37809
- Radio wave absorption measurement at constant solar zenith angle of 65 deg, discussing seasonal variation
19 p3053 A71-37832
- Radio wave scattering from ionosphere, considering plasma experiments in E and F region
19 p3018 A71-38247
- Pulsar periods change rate and radio luminosity decay, discussing magnetic field braking
20 p3286 A71-38762
- Mars ionosphere radio wave absorption integral coefficients, studying electron concentration and electron/gas molecular collisions frequency vertical profiles
20 p3297 A71-39629
- Mid- and high-latitude ionospheric radio wave transmission from spacecraft during solar cycle, considering latitudinal and longitudinal gradients and electron content change rate
20 p3197 A71-39715
- Limiting polarization of radio waves emerging obliquely from ionosphere into free space, describing numerical integration method and boundary conditions
21 p3348 A71-40525
- Soviet book on animals morphophysiological changes in cardiovascular and nervous systems and various internal organs under RF wave exposure
21 p3344 A71-41369
- Soviet monograph on radio wave propagation in fluctuating parameters media covering ionosphere /fluctuating electron concentration/ and troposphere /fluctuating inhomogeneities and refractive index values/
21 p3349 A71-41372
- Magnetoionic mode coupling of HF radio waves, considering Faraday rotation of satellite signals
23 p3642 A71-42963
- Electron periodic energization by magnetospheric RF wave propagation, examining cyclotron resonant interaction
23 p3644 A71-43321
- F layer perturbations by intense vertically upward radio waves for aeronomy and plasma control studies
23 p3671 A71-43543
- Radio brightness temperature relationship to sea surface state, noting ocean storm regions determination from radiometric satellite data
23 p3673 A71-44050
- Circularly polarized ultrashort radio wave reflection from lunar and planetary surfaces, determining angular scattering spectrum
24 p3805 A71-45313
- RADIOACTIVE AGE DETERMINATION**
Isotopic Rb/Sr age and initial chondritic ratio for silicate inclusions in Colomera iron meteorite
02 p0318 A71-12902
- Ar 40/Ar 39 age determination of Apollo 12 lunar rock 12013 fragments
03 p0494 A71-14220
- Trace element patterns of Apollo 12 lunar rock 12013 light and dark portions, discussing Rb-Sr age and Li, K, Rb, Sr, Ba and rare earth concentrations
03 p0494 A71-14222
- Apollo 12 lunar rock 12013 origin, determining age by U, Th and Pb isotopic study
03 p0494 A71-14223
- He, Ne, Ar and Xe from stepwise heating of Apollo 12 lunar rock 12013, discussing radiogenic and spallation components and He 3 and Ne 21 cosmic ray exposure ages
03 p0494 A71-14224
- Mn 53 age measurement of galactic cosmic rays
05 p0797 A71-15930
- Apollo 11 magnetic rocks and Apollo 12 rocks dating
06 p0966 A71-17742
- Atmospheric carbon 14 concentrations during past century, noting radioactive dating implications
07 p1102 A71-19580
- Decoupled nucleochronological isotopic equations for element age yielding solar system formation interval and supernova galactic distribution
08 p1251 A71-21694
- K-Ar age measurement by optimizing integrated neutron flux and sample size parameters, using graphical method
10 p1601 A71-24411
- Marine sediment age by fission track dating of volcanic glass shards, noting agreement with K-Ar, paleomagnetic and paleontologic ages
10 p1601 A71-24430
- Potassium-Argon dating analyses of neutron irradiated meteorites, discussing Chainpur chondrite chondrules gas retention ages
10 p1679 A71-24984
- Aubrite radiation age dating for stony meteorites lifetimes as function of collisional destruction, using Ne 21/Al 26 methods
10 p1680 A71-24989
- Cosmic ray spallation products and radiation age determination from spectral analysis of noble gas components in lunar rocks
11 p1829 A71-25837
- Lunar chronology and evolution from Rb and Sr internal isochrons on Apollo 11 and 12 crystalline rock samples
13 p2142 A71-29142
- U-Pb and Th-Pb age discrepancy in lunar dust, proposing Rn-222 emanation in decay chains
14 p2307 A71-29733
- Absolute production rates of He 3 and Ne 21 in average chondrites, determining radiation ages of stony meteorites aged less than two million years
15 p2486 A71-31991
- Radionuclides and noble gas isotopic abundances in recently fallen meteorites for cosmic ray exposure ages estimates
15 p2489 A71-32358
- Argon isotopes retention ages of crystalline lunar rocks 12002, 12051 and 12065 from lunar maria, using neutron activation and stepwise heating experiments
16 p2633 A71-33347
- K-Ar isotope ages of whole sample and feldspar concentrate from apollo 11 lunar rock 10003
16 p2633 A71-33349
- Bibliography and review of noble gases isotopic abundance in meteorites and lunar material, considering cosmic ray interactions, radiation ages and extinct radionuclides
17 p2798 A71-34451
- Bibliography and review of age determination of meteorites and lunar samples, considering chondrites, achondrites and iron meteorites
17 p2798 A71-34452
- Apollo 14 Fra Mauro rock fragment samples, determining Ar 40/Ar 39 ages
18 p2961 A71-35945
- Central Colorado basaltic lava flows tertiary paleomagnetic transition zone data, illustrating whole rock K-Ar dating difficulties
18 p2911 A71-35949
- K-Ar dating of shock metamorphosed rocks from Brent impact crater /Ontario, Canada/
19 p3050 A71-37658
- Uranium content correction for Ivory Coast microtektites, discussing effects on age values and correlation between tektite falls, geomagnetic reversals and faunal changes
20 p3292 A71-39405
- Apollo 14 flight Fra Mauro crystalline rocks age measurement, using Ar 40/39 ratio method
22 p3598 A71-41838
- Apollo 12 igneous rocks and fines from Ocean of Storms, presenting rubidium and strontium chronology and chemistry
23 p3752 A71-43709
- Rb-Sr isotopic composition in Apollo 12 regolith samples yielding 4.2-5.1 billion year ages
23 p3752 A71-43710
- Age determination of Apollo 12 rocks by U-Th-Pb method
23 p3752 A71-43713
- Cosmogenic radionuclide concentration and exposure ages of Apollo 12 rock from Ocean of Storms
23 p3754 A71-43730
- Lunar surface erosion and mixing from cosmogenic and primordial radionuclide measurement in Apollo 12 lunar rock and soil samples
23 p3755 A71-43731

Long life radioisotope thermoelectric generators for space missions, discussing power degradation mechanisms and design trends
19 p3102 A71-37929
- Radionuclides depth distribution gradient in lunar samples, suggesting solar proton medium flux constancy over last million years
19 p3127 A71-38004

Radioisotopes as energy source for power conversion systems, discussing future availability of fission products and transuranium elements from commercial nuclear power reactors

20 p3265 A71-38948

Lung scanning, describing moving detectors, electronic apparatus adjustment and choice of radionuclide and labelled compound

20 p3192 A71-39072

Radioisotope testing methods for dissolution and mass transfer of alloying additives in Pb-Sb alloys during preparation in electromagnetic pumps

22 p3553 A71-41765

High energy proton spallation cross sections for several radionuclides from Ti targets, discussing application to lunar materials and meteorites analysis

23 p3706 A71-43199

Primordial radionuclides K, Th and U concentrations in Apollo 12 lunar rocks, breccias and fines, using gamma ray spectrometry

23 p3748 A71-43679

Apollo 11 and 12 fines cosmogenic He, Ne and Ar radionuclides composition determination, using electron microprobe analysis

23 p3754 A71-43727

Lunar cosmogenic radionuclides production time and spatial dependence calculations, comparing Apollo 11 and 12 measurements

23 p3754 A71-43729

Cosmogenic radionuclide concentration and exposure ages of Apollo 12 rock from Ocean of Storms

23 p3754 A71-43730

Lunar surface erosion and mixing from cosmogenic and primordial radionuclide measurement in Apollo 12 lunar rock and soil samples

23 p3755 A71-43731

Depth profiles of cosmogenic radionuclides in lunar rocks and soil samples from Apollo 11 and 12 flights, considering solar particle flux and spectra

23 p3755 A71-43732

Cosmogenic and primordial radionuclides in Apollo 12 surface rocks and fines from nondestructive gamma ray spectrometry

23 p3755 A71-43733

Tritium and argon radioactivities and depth variations in Apollo 12 rocks, discussing solar flare and cosmic ray exposure ages

23 p3755 A71-43737

RADIOACTIVE MATERIALS

Lunar radioactive layer effective thickness by radio astronomical methods and from Apollo 11 flight

07 p1193 A71-19312

Satellite studies of geocyclic particles and photoelectrons, including interactions with earth atmosphere

09 p1436 A71-22552

Alpha particle gas densitometric response to planet atmospheric density profiles in terms of radioactive source energy distribution, considering contoured baffle models

11 p1763 A71-26079

Aircraft personnel radiation hazards from radioactive luminous paint on instrument dials, signs and operational elements

13 p2021 A71-29145

Lunar radioactive layer effective thickness by radio astronomical methods and from Apollo 11 flight

15 p2486 A71-31892

Radioactive impurities transfer from lower stratosphere into upper troposphere based on vertical air transport data

15 p2400 A71-31970

Lost City meteorite Ar isotopes radioactivity measurements, considering cosmic ray flux radial gradient variations during meteoroid orbit

15 p2479 A71-32364

Lunar interior thermal history models for setting radioactive heat sources upper limits consistent with proposed temperature distribution

16 p2642 A71-33797

Radioactive rare gases and tritium in Apollo 12 lunar rocks and in sample return container, noting relationship to solar flare event

23 p3755 A71-43736

RADIOACTIVE NUCLIDES

U RADIOACTIVE ISOTOPES

RADIOBIOLOGY

Cosmic ray heavy ion component biological effect, describing histological and radioautographic high altitude balloon experiment with black mice and rabbits

01 p0019 A71-11555

Soviet papers on radiobiological aspects of reactivity of organisms in space flight covering radiation protection drugs, hypoxia, flight conditions, radiation pathology, etc

22 p3491 A71-42699

Composite tissue blocks method for comparative pathomorphological investigation of radiation pathology

22 p3505 A71-42734

Relative biological effectiveness of fast neutrons, allowing for gamma component contribution

22 p3494 A71-42735

Radiation protection biological aspects - Conference, Kyoto, October 1969

23 p3638 A71-44325

Physical and radiobiological studies on earth satellites covering radiation hazards and effects on animals, plants, unicellular organisms and biochemical systems

24 p3798 A71-44886

RADIOGRAPHY

Left ventricular volume determination by high speed cineangiocardiology, using optical scanning and automatic data processing

02 p0203 A71-11705

Photogrammetry in precision three dimensional X ray stereoradiography, comparing doses with Kymography, Tomography and Seriescopy

02 p0203 A71-11951

Electron photon cascades in multiplate substrate-free nuclear emulsion chamber with X ray films under lead plate

03 p0427 A71-13872

Submerged arc welding process, observing arc motion and metal transfer with X ray high speed photography

06 p0905 A71-18090

Portable Cf 252 neutron radiographic camera, noting reactor fuel and concrete polymer content measurements

07 p1119 A71-19950

Carbon fibers and composites nondestructive testing, discussing defect detection problems in ultrasonics, X ray diffraction and X radiography methods

[PLASTICS INST. PAPER 52]

08 p1296 A71-20918

Harmonic analysis of metals and alloys fine structure X ray photographs via digital computers

08 p1293 A71-21765

Spinal column radiographic examination after pilot ejection, discussing vertebral injuries detection

13 p2019 A71-28510

Neutron radiography facility using TRIGA reactor source, discussing design and performance

13 p2044 A71-28523

Al-Zn-Mg alloy plates welded with Al-Mg filler metals, observing ghost defects in radiographs

13 p2074 A71-28524

Ultrasonic/radiographic method for intraocular foreign body localization

13 p2013 A71-29031

Roentgenological analysis of paranasal sinuses in civil aviators, studying facial cavities infection

13 p2023 A71-29367

Multidirectional reinforced resin matrix composites inspection and nondestructive analysis by film/neutron radiography and X ray Vidicon

14 p2263 A71-29659

Neutron radiography and dosimetry as clinical diagnostic tool, calculating resolution through tissues for simulated human arm

17 p2693 A71-35449

Neutron radiography of Apollo ordnance, describing test facility and equipment

19 p3063 A71-37449

Electron photon cascades in multiplate substrate-free nuclear emulsion chamber with X ray films under lead plate

22 p3550 A71-42673

RADIOISOTOPE BATTERIES

NT SNAP 15

NT SNAP 19

NT SNAP 21

NT SNAP 23

NT SNAP 27

Operating experience with miniature thermionic radioisotope-fueled batteries, using thermal-thermionic models

02 p0196 A71-12273

Radionuclide batteries for energy supply in space, comparing with electrochemical sources

02 p0282 A71-12303

Technological development of thermoelectric radionuclide batteries for space applications using Ge-Si thermocouples

02 p0282 A71-12304

Space nuclear power developments, reviewing radioisotope heat sources, reactors and power conversion systems

04 p0624 A71-15284

Nimbus meteorological satellite program, discussing global cloud cover mapping and automatic picture taking, radioisotopic thermoelectric generator, sounder instrumentation and remote sensors

05 p0818 A71-17133

Radioisotope thermionic power supply for unmanned electric propulsion missions to outer planets, using 69 modules consisting of thermionic converter and emitter heat pipe

11 p1811 A71-25897

Impact resistant power packages for unmanned planetary probe landers, discussing radioisotope thermionic multiconverter array optimal configuration

11 p1713 A71-25898

Radioisotope thermoelectric generators integration for Pioneer 6/7 program, discussing design requirements

[AAS PAPER 71-150] 19 p3103 A71-37952

Pioneer Jupiter spacecraft, noting low weight, radioisotope thermoelectric generators and gyroscopic stabilization by spinning with antenna pointed at earth

[AAS PAPER 71-167] 19 p3141 A71-37964

Radioisotope thermoelectric generators in micro/milliwatt power range for biomedical applications

20 p3192 A71-38912

Isotope Brayton four module adaptable compact power system for space station, using plutonium 238 fuel and lithium hydride shielding for neutron attenuation

20 p3263 A71-38922

Long life performance predictions for lead telluride and silicon germanium radioisotope thermoelectric generators for deep space missions

20 p3263 A71-38925

Multihundred watt radioisotope thermoelectric generator for JPL outer planet missions, discussing vacuum/xenon filled performance and response to thermal/electrical transients

20 p3263 A71-38926

Multihundred watt radioisotope thermoelectric generator for spacecraft power supply, discussing system design, performance and safety requirements

20 p3263 A71-38927

Multihundred watt radioisotope thermoelectric generator heat source survivability in multiple skip reentry

20 p3264 A71-38931

Grand tour missions radioisotope thermoelectric generator power source, presenting optimization technique for hot thermocouple junction operation

20 p3264 A71-38932

Radioisotope thermoelectric generator safety and operations considerations for users of large nuclear space power systems

20 p3264 A71-38933

Radioisotopic power applications of beta and gamma emitting Co 60, noting powder ceramic fabrication of dense wafers for irradiation to convert natural Co 59

20 p3265 A71-38938

Long life radioisotope thermoelectric generator, discussing mathematical model to simulate expected performance profiles

20 p3266 A71-38958

RADIOLOGY

Aircrew radiological examination of spinal anatomical state, emphasizing traumatism due to vibration, acceleration, ejection and crashes

05 p0715 A71-16936

Chest and cardiovascular system optimal radiologic facilities, discussing X ray examination, catheterization-angiocardiac and nuclear radiology laboratories

07 p1053 A71-20354

Spine radiological examination for helicopter pilot fitness determination, discussing spinal weakness symptoms, special exercises, medical examinations and vibration reducing seat construction

22 p3500 A71-41578

RADIOLYSIS

Plasma generation by photon irradiation, radiolytic mechanism and high energy particle bombardment, discussing ionized media chemical reactions

16 p2540 A71-32971

Water radiolysis measurement in nuclear reactor tests, discussing experiment design as doubly telescoping sequences of blocks

21 p3345 A71-40202

RADIOMETERS

NT DICKE RADIOMETERS

NT INFRARED DETECTORS

NT INFRARED SCANNERS

NT MICROWAVE RADIOMETERS

NT SPECTRORADIOMETERS

ATS-5 satellite dual swept radiometer features, operation and specifications

01 p0082 A71-10985

Radiometric determination of diametrical distance between rotor and stator of turbomachines

03 p0421 A71-13003

Atmospheric temperature remote sounding from satellites using radiometer with selective chopper for carbon dioxide emission

03 p0422 A71-13355

Six channel selective chopper radiometer design and construction for carbon dioxide emission monitoring for remote atmospheric temperature sounding by Nimbus 4

03 p0423 A71-13356

Atmospheric temperature remote sounding via balloon-borne selective chopper radiometer

03 p0423 A71-13357

Differential radiometer with ultranarrow interference filter for daytime tracking of high altitude chemical vapor trails

03 p0424 A71-13636

Errors from multiple reflections between target environment viewed by IR thermometer or radiometer and background environment
05 p0752 A71-16672

Unicellular algae photosynthesis measurement by radiometric methods under optimum and equalized conditions of light, temperature and carbon dioxide supply
05 p0714 A71-16815

Ecological interpretation of daytime data from Nimbus 3 high resolution IR radiometer for hydrologic and plant distribution mapping
08 p1277 A71-20884

Combustion chamber radiant heat transfer measurements, describing radiometer
08 p1288 A71-21270

Device for rapid direct analysis of beryllium ores and concentrates in transport containers, using radiometric method
09 p1427 A71-22506

Balloonborne radiometric instrumentation for solar and thermal radiations upward and downward flux measurements, discussing net radiation balance as function of solar elevation
09 p1515 A71-23558

Infrared radiometer sea surface temperature measurements during oceanographic survey, examining inclination angle effect
09 p1440 A71-23590

Nimbus 4 satellite selective chopper radiometer data on IR radiation emitted by carbon dioxide, considering stratospheric warming
10 p1598 A71-23743

Temperature measurement techniques annual progress survey including contact and radiation thermometers, IR thermography, microwave radiometry, fluidic sensors, and liquid crystals
10 p1612 A71-24685

Cosmic background radiation ground based measurements at two high altitude sites, using radiometric technique
11 p1815 A71-25300

Book on radio astronomy instruments and observations covering high sensitivity radiometers, masers, parametric amplifiers, radio telescope design, radio spectrometers, parabolic reflectors, etc
11 p1737 A71-25359

Meteorological IR radiometer with thermosensitive element, chopper circuit and AC microvoltmeter, outlining calibration procedure
11 p1763 A71-26174

Water vapor dimer effects on atmospheric brightness temperature in cm and mm radiometric investigations from satellites above ocean areas
12 p1901 A71-27099

Double resonator ruby maser for observing transitions of interstellar hydroxyl, noting incorporation in modulation radiometer of astronomical telescope
13 p2077 A71-28373

Earth surface temperature measurement by airborne IR radiometers, discussing accuracy provided by narrow and wideband filters
14 p2240 A71-30126

Supplementary tables to SI nomenclature for radiometry and photometry including photon flux
14 p2242 A71-30157

Micrometeor mass data from radiometer measurements, detailing Cu and lanthanum hexaboride ionization probability
14 p2315 A71-30652

Hertzian radiometry experimental aspects covering background and medium temperature measurements, sky radiometry and absorbing gas total pressure measurements
14 p2204 A71-30969

Radiometric errors in cosmic background radiation measurement
14 p2204 A71-30970

Nimbus weather satellite with IR spectrometer, Michelson interferometer and selective chopping radiometer for atmospheric temperature remote sounding
15 p2445 A71-32295

Compact Q band magic tee with matched loads to check noise performance of two-input switched radiometer
16 p2579 A71-33385

Active cavity radiometric and international pyrheliometric scales comparison and solar constant from simultaneous solar irradiance measurements
16 p2581 A71-33939

Passive mapping of terrain with sidelooking radiometry by storing received signals from various elements over extended flight path
17 p2746 A71-35763

Meteorological objectives, radiometry and ground stations for Meteosat weather prediction system using geostationary satellite
18 p2878 A71-36527

Combined lidar and radiometric techniques for high layer cumulus and cirrus clouds IR emissivity determination
19 p3089 A71-37501

Atmospheric signal propagation study between satellite and earth, using solar radiometry
19 p3018 A71-38075

Stray radiant flux effects on scanning IR radiometer for low temperature objects measurement
19 p3067 A71-38706

Radiometric measurement of total normal emittances of real surfaces at cryogenic temperatures
20 p3313 A71-39289

Solar IR spectra referencing procedure based on filter reference radiometer, discussing technique theoretical foundation
20 p3237 A71-39327

Spacecraft-borne IR sequential filter radiometer design and performance for real time meteorological forecasting and atmospheric temperature measurements
22 p3544 A71-42143

IR atmospheric temperature profiles sounding by selective chopper radiometer launched into polar orbit on Nimbus 4 satellite
22 p3544 A71-42144

IR radiometer experiment for Mariner 1971 Mars orbiter mission, describing objectives and instrumentation
23 p3676 A71-43510

ITOS meteorological satellite scanning radiometer using point detector optical system for earth imaging
23 p3676 A71-43511

Night sky far IR background radiation measurements by rocket-borne superfluid HE cooled radiometer, determining average signal strength equivalency to black body temperature of 3.1 K
24 p3822 A71-44752

Airborne measurement of directional variation in reflected solar radiation over soil surface and vegetation, using scanning radiometer
24 p3826 A71-44984

RADIONUCLIDES

Mountainous region vertical air flow research, describing superspree balloon and precise pressure radiosonde system
02 p0189 A71-12420

High altitude rocket-borne radiosonde communication, examining transmission link characteristics, signal losses and antenna radiation patterns
04 p0551 A71-15012

Global computer processing scheme for aerological radiosonde observation, using coded telegrams as primary information data
06 p0922 A71-17502

Temperature measurement inaccuracies in 30 to 40 km region by balloonsonde sensors, involving IR cooling of thermistor
08 p1277 A71-20989

High altitude radiosonde thermometer and pressure sensor construction, discussing radiation error and wire lag
08 p1293 A71-21740

Radiosonde with radiation sensor, minimizing temperature measurement errors in free atmosphere
08 p1293 A71-21745

Solid state pulse modulated radiosonde for meteorological data transmission in digital form, using MOS integrated circuits
10 p1583 A71-24052

Stokes flow parachute extremely lightweight decelerator for increasing altitude and rocket-borne radiosondes atmospheric data sampling quality
11 p1707 A71-25277

VENTILATION rates and thermal factors of sensitive elements in radiosondes, using wind tunnel tests
11 p1761 A71-25382

Comparative accuracies of vertical atmospheric water vapor profiles by radiosonde and laser backscatter Raman component
11 p1794 A71-25383

Objective subsynoptic upper level analysis optimizing smaller scale radiosonde data over U.S.
16 p2604 A71-33533

Middle stratosphere monthly mean temperature maps based on radiosonde measurements, confirming anomalies with satellite IR spectrometer radiances
16 p2641 A71-33755

Hybrid thin film radiosonde transmitter design for atmospheric temperature and humidity data transmis-

sion from meteorological sounding balloon to ground station
19 p3035 A71-38539

Geostrophic wind measurements by radiosondes at various altitudes over British Isles, relating deviations from geostrophic equilibrium to vertical motions near tropospheric trough
20 p3258 A71-39551

Mathematical model of emission spectrum for PKZ radiosonde and radiosondes using superregenerative transceivers
21 p3383 A71-41243

Nimbus 3 satellite IR spectrometer atmospheric pressure height profiles, comparing with nearby radiosonde data
22 p3535 A71-42410

RADIOTELEPHONES
Aeronautical electronic equipment, discussing static transformer, radiotelephone sets, angle of approach meter, etc
03 p0383 A71-13018

RADIOTHERAPY
U RADIATION THERAPY
RADIUS
U RADII
RADOME MATERIALS
Book on radome engineering covering electromagnetic and thermal-mechanical design, organic and inorganic radomes, electrical evaluation and rain erosion
01 p0055 A71-11191

Reinforced plastics components in supersonic transport nose radome and missile radar antennas, discussing molding, sandwich materials and computer controlled spraying techniques
12 p1887 A71-27016

Materials and processing methods for rain erosion resistant ceramic coated plastic structures for supersonic aircraft, considering fiberglass reinforced polyimide radomes with alumina coating
14 p2262 A71-29645

RADOMES
Book on radome engineering covering electromagnetic and thermal-mechanical design, organic and inorganic radomes, electrical evaluation and rain erosion
01 p0055 A71-11191

Soviet book on antenna radomes of flight vehicles covering electromagnetic wave transmission through dielectric media, fabrication, construction materials, etc
01 p0057 A71-11322

Materials and processing methods for rain erosion resistant ceramic coated plastic structures for supersonic aircraft, considering fiberglass reinforced polyimide radomes with alumina coating
14 p2262 A71-29645

Microwave wideband and multiband radome design for strength, environmental and electrical requirements, achieving transmission efficiencies with dielectric and wall thickness selection
14 p2216 A71-31037

Antenna and radome constructions/shape effects on minimizing cross polarization produced by flat, cylindrical, conical and paraboloidal radomes in linear and circular beams
14 p2216 A71-31039

Radome design and production, considering construction, materials, shape, manufacturing techniques and technological problems
14 p2218 A71-31067

Radome lightning protection systems involving electrostatic shield, considering effect on electromagnetic characteristics and radiation patterns of nearby antennas
19 p3031 A71-38450

Antenna radome noise temperature under aerodynamic heating as function of losses in material, interface reflection and dielectric surfaces
23 p3647 A71-44324

RADON
NT RADON ISOTOPES
Apollo 11 lunar soil and rock samples under low level beta spectrometry, measuring radon daughter Pb 210
18 p2961 A71-35946

RADON ISOTOPES
U-Pb and Th-Pb age discrepancy in lunar dust, proposing Rn-222 emanation in decay chains
14 p2307 A71-29733

Radon 222 distribution in lunar atmosphere and top surface
21 p3449 A71-40607

RAE-1
U EXPLORER 38 SATELLITE
RAFTS
NT LIFE RAFTS
RAIL TRANSPORTATION
Rail track roughness and irregularities evaluation by railcar vibration measurements, using portable LF low amplitude acceleration measuring and recording system
11 p1845 A71-25349

[ALAA PAPER 71-384]
Integrated short-haul interurban transportation system, considering combination of conventional jet

RAILS

aircraft, STOL aircraft and high-speed ground transportation
[AIAA PAPER 71-508] 14 p2221 A71-29550
Asymptotic high velocity lift drag ratios for sheet and loop magnetic suspension train tracks
22 p3574 A71-41728

RAILS

Test rail system of Les Landes Testing Center, discussing optical and electromagnetic observation, measurement and test coordination and control facilities and equipment
04 p0567 A71-15817

Fiberglass reinforced plastic rocket launcher tubes with internal helical rails to impart spin to missiles, discussing design, fabrication and testing
11 p1786 A71-25419

RAIN

Mic extinction parameters tabulation for computed signal transmission through rain at microwave and visible frequencies
01 p0029 A71-10469

Reflectivity and attenuation observations of hail and radar bright band during storms, discussing rain effects
01 p0115 A71-10554

Storm reflectivity models using weather radar and surface rainfall data correlations
01 p0118 A71-10585

Rain and sand erosion materials tests, considering temperature and atmosphere pressure effects and relation between fatigue behavior and erosion/cavitation strength
03 p0444 A71-14289

Average radar cross section relative values for echoes from rain, considering horizontal, vertical and circular polarization in various sea states
04 p0551 A71-15008

Rain and drizzle millimeter wave attenuation and radar scattering cross section calculation
05 p0718 A71-15988

Submillimeter and millimeter waves attenuation in rain, comparing calculation results with measurement
05 p0718 A71-15990

Visible and IR radiation attenuation in rain and snow, comparing calculation based on Mie diffraction formulas with measurement
05 p0718 A71-15992

Atmospheric absorption by clouds, fog and rain on earth-space path at 90 GHz, using sun tracker
07 p1060 A71-19215

Freezing nucleus concentrations in hail and rain from different storms, showing dependence on precipitation type and intensity
08 p1326 A71-21451

Rain and fog modification concerning natural and artificial nuclei role, warm fog clearing and supercooled cloud experimentation
17 p2769 A71-34545

Percent-of-time distributions of attenuation by rain, clouds and atmospheric gases on earth-space paths at frequencies below 30 GHz
17 p2704 A71-35089

Rain attenuation measurements, noting limitations on microwave transmission at SHF
19 p3024 A71-38612

Atmospheric physics of cloud formation, rain, hail and snow precipitation, discussing intracloud temperature variations electric fields and air impurities on water condensation
21 p3410 A71-40146

Rain and drizzle submillimeter wave attenuation and radar scattering cross section calculation
22 p3515 A71-42737

Submillimeter waves attenuation in rain, comparing calculation with measurement
22 p3515 A71-42739

Visible and IR radiation attenuation in rain and snow, comparing calculation based on Mie diffraction formulas with measurement
22 p3515 A71-42741

Convective cloud dissipation after rainfall, calculating temporal behavior of temperature fields, water content, moisture and air motion rate
22 p3569 A71-42847

Vertically polarized millimeter and submillimeter wave attenuation measurement in rain
23 p3646 A71-43569

RAIN EROSION

U WATER EROSION

RAIN GAGES

Meteorological radar rainfall estimates comparison with dispersed tipping bucket gage measurements during storms
01 p0118 A71-10582

Italian book on microwave propagation covering electromagnetic wave attenuation, rainfall space-time structure and radioelectrical/meteorological data recording
11 p1731 A71-25650

Unified international scaling for annual and seasonal precipitations measured by national gages, comparing U.S.S.R. and U.S. reduction coefficients
21 p3383 A71-41377

Error factors of seasonal precipitation measurements by total precipitation gages
21 p3383 A71-41378

RAIN IMPACT DAMAGE

Book on radome engineering covering electromagnetic and thermal-mechanical design, organic and inorganic radomes, electrical evaluation and rain erosion
01 p0055 A71-11191

Plastic, elastomeric, ceramic glass, metallic and composite materials rain erosion resistance at supersonic speeds, examining rate-velocity dependence
03 p0444 A71-14288

Polyurethane coatings development for subsonic rain erosion protection for aircraft structures, using whirling arm apparatus with simulated rainfall
10 p1632 A71-24101

RAINDROPS

Radar precipitation measurement accuracy improvement, using various Z-R relationships for correlation of radar data and rainfall rates
01 p0117 A71-10581

Vertical air motions velocity in rainfall from Doppler spectrum total radar reflectivity and median velocity
07 p1150 A71-18798

Weather radar plan position indicator automatic film reading for digital mapping of rainfall intensity, discussing raindrop sizing
08 p1286 A71-20690

Fog droplet and rain effects on propagation of echo location signals from bats
10 p1638 A71-24423

Frequency response of rainfall attenuation for various dropsize distributions, plotting measured values at 890 and 110 GHz
15 p2374 A71-32696

Unified raindrop breakup theory, examining spherical liquid drop transient response under surface tension accelerated by uniform external gas flow
16 p2557 A71-32924

Automatic analyzer for rapid counting and sizing of raindrops, using collimated flashlamp source for illumination
18 p2918 A71-36076

Rainfall, aerosols and cloud water samples analyzed for chlorides and sulfates content and electrical properties
19 p3092 A71-38687

Ice formation and prevention on helicopters, taking into account presence of big drops of undercooled rain
20 p3178 A71-39374

Electrooptical measurement of high altitude rain cloud droplets size, shape and distribution
23 p3676 A71-43507

RAINSTORMS

NT THUNDERSTORMS

Meteorological radar rainfall estimates comparison with dispersed tipping bucket gage measurements during storms
01 p0118 A71-10582

Submillimeter wave attenuation measurement over 1 km path during summer rainstorms, comparing results with millimeter waves
05 p0718 A71-15989

Storm models for space-path attenuation calculations using digitized weather radar data for fine structure and surface rainfall data for extrapolation
17 p2704 A71-35090

Submillimeter wave attenuation measurement over 1 km path during summer rainstorms, comparing results with millimeter waves
22 p3515 A71-42738

RAMAN EFFECT

U RAMAN SPECTRA

RAMAN SCATTERING

U RAMAN SPECTRA

RAMAN SPECTRA

Q switched ruby laser-Raman radar for real time air pollution probe
02 p0213 A71-12014

Calcite and aragonite high pressure Raman line spectra comparisons, testing structural identification theory
07 p1054 A71-19369

Laser induced Raman scattering as diagnostic technique for measuring specie concentrations in gas mixtures
07 p1125 A71-19897

Lidar wavelength optimization for Raman scatter atmospheric studies, taking into account aerosol and weak signal statistical effects
08 p1254 A71-21458

Velocity components, species densities and temperature local measurements, using laser Doppler velocimeters, Raman scattering and tunable lasers
08 p1303 A71-22008

Frequency and spectral composition effect of incident radiation on stimulated Raman scattering of organic compounds, using ruby laser harmonic emission
09 p1461 A71-22395

High efficiency gas chamber for obtaining Raman spectra of corrosive gases at atmospheric pressure by He-Ne laser excitation
10 p1619 A71-23857

High power single mode CW tunable spin-flip Raman laser in InSb using CO pump
10 p1620 A71-24041

IR and Raman spectra vibrational analysis of crystalline and fluidic oxalyl bromide, explaining observations by two geometrical isomers existence
11 p1727 A71-25363

Comparative accuracies of vertical atmospheric water vapor profiles by radiosonde and laser backscatter Raman component
11 p1794 A71-25383

One magnon Raman scattering induced by light magnetic dipole coupling with YIG coherent spin waves
12 p1913 A71-26860

Measuring system for 180 degree Raman scattering in single crystals, powders, liquids and strongly absorbent solutions
12 p1915 A71-27673

Raman effect quantum theory, considering light scattering about atomic system
13 p2078 A71-28449

Monoclinic, stabilized and metastable tetragonal and cubic zirconias, noting IR and Raman spectra
13 p2093 A71-28991

High intensity tunable InSb spin flip stimulated Raman scattering from pulsed high pressure carbon dioxide laser radiation pumping
13 p2081 A71-29336

Parametric amplification of two laser waves with amplitude and phase modulation under exponential signal growth applied to Raman scattering in picosecond pulse field
15 p2418 A71-31188

Gaseous, liquid and polycrystalline biacetyl vibrational spectra and structure, noting mutual exclusion between IR and Raman radiation
16 p2538 A71-32874

Lasers as light sources, discussing Rayleigh, Tyndall, Raman and Thomson scatterings from various media
16 p2612 A71-33373

Ultrafast laser pulses, revealing fluorescence decay, stimulated Raman scattering and plasma formation transient details
16 p2588 A71-33873

Raman and IR reflection spectra of zinc tungstate single crystals
17 p2790 A71-34201

Photoelectric system for recording Raman spectra with He-Ne laser excitation source suitable for liquid, solution, crystal and powder and depolarization measurements
17 p2751 A71-34383

UV Raman remote gas sensors incorporating laser scattered radiation with high resolution monochromator
17 p2753 A71-35292

IR and Raman vibrational spectra and structure of tetrafluorocyclobutane
17 p2695 A71-35520

Solid glyoxal Raman spectrum data, showing operativity of mutual exclusion principle by IR comparison to Raman bands
18 p2873 A71-35830

Nonlinearities effects on inorganic liquid laser output, investigating Raman and Brillouin scatterings and self focusing
18 p2933 A71-37012

Ultrashort pulse formation in short pulse stimulated Raman oscillator, achieving partial group velocity matching
19 p3071 A71-37475

Gaseous and solid polycrystalline HNCS and DNCs IR and Raman spectra, studying LF of lattice vibrations
19 p3118 A71-37649

Mg compounds family of antifluorite structured small-gap semiconductors, investigating surface light scattering properties by Raman scattering techniques
19 p3119 A71-37870

Comparative IR and Raman spectra of gaseous, liquid and polycrystalline symmetrical dimethylhydrazine and deuterium analogs
19 p3013 A71-38345

Raman tensor, scattering efficiency and line widths in semiconductors due to optical phonons, discussing electro-optical coefficients
21 p3427 A71-40662

Molecular iodine vapor absorption filter for stray laser light in Brillouin and Raman scattering
21 p3393 A71-41042

Tunable spin-flip magneto-Raman IR laser, describing indium antimonide scattering, tuning range and applications
22 p3557 A71-42133

IR spectra of oxamide and diethoxamide, studying Raman spectrum in LF range
23 p3642 A71-43825

Raman microwave scattering on Langmuir oscillations, showing suprathreshold emission origin in theta pinch plasma
24 p3853 A71-44505

RAMAN SPECTROSCOPY

- Three mirror multiple beam interferometric rejection filter for laser Raman spectroscopy
08 p1289 A71-21379
- Multiphase gas flow, measuring gas concentration by laser Raman spectroscopy
[AIAA PAPER 71-286] 09 p1464 A71-23308
- Fluorochlorosilane preparation and identification by Raman laser spectroscopy, establishing line to vibration mode relation
14 p2189 A71-29746
- Gases high resolution Raman spectroscopy, using mirror system for exciting laser beam multiplication
15 p2423 A71-32600
- Optical cryostat suitable for Raman spectroscopy, using quartz tube optical cell and He evaporation by metal film resistor
20 p3268 A71-38833
- Spectral resolution of matrix Raman spectroscopy and depolarization measurements of isotope splitting, comparing with complementary IR data
20 p3194 A71-39404

RAMJET ENGINES

- NT SUPERSONIC COMBUSTION RAMJET ENGINES
- NT TURBORAMJET ENGINES
- Supersonic and subsonic combustion modes in constant area ramjet combustors, deriving dimensionless parameter for varying flow ratios as combustion stability criterion
[ASME PAPER 70-WA/AV-4] 03 p0521 A71-14148
- Supersonic combustion ramjet engine with liquid fuel injection, considering atomization process and ignition criteria
05 p0836 A71-16531
- German monograph on ignition and combustion processes in rapidly flowing gas mixtures covering supersonic flow, ramjet parameters, flow heating, etc
05 p0838 A71-16900
- Hypersonic ramjet reaction mechanisms for H combustion, discussing computational models, operation principles and atomic, radical and molecular collisions
06 p0865 A71-17410
- Shortest transfer time interstellar propulsion systems, considering nuclear pulse and electric rockets, fusion and photon rockets, and ramjets
15 p2469 A71-31748
- Book on aircraft propulsion covering design, dynamics, control, installation, gas turbine, ramjet, rocket and piston engines, compressors, combustion and energy cycles, etc
22 p3589 A71-42427

RAMS (PUMPS)

- Flexible ram air inflated keel and leading edge parawing design optimization for increased stability and reliability, introducing semirigid member concept
[AIAA PAPER 71-986] 24 p3791 A71-44582

RANDOM ACCESS MEMORY

- NT CORE STORAGE
- MOS LSI bipolar random access memory feasible at costs competitive with magnetics
02 p0228 A71-11653
- Large random access computer store based on redundancy in form of error correcting codes, discussing use for manufacturing yield improvements
24 p3806 A71-44655

RANDOM DISTRIBUTIONS

U STATISTICAL DISTRIBUTIONS

RANDOM ERRORS

- Single rotor gyrocompass with electromagnetic correction during random interactions involving intercardinal deviation, constructing correcting device to obtain optimal dynamic characteristics
03 p0430 A71-14353
- Optimal trajectory measurement program for orbit parameter determination, assuming random errors and nondegenerate weighting matrix of normal equations
09 p1519 A71-22542
- Error analysis of random and system degradation between calibrations for complex instrumentation by digital computer models
09 p1449 A71-22790
- Random failure definition based on stochastic processes mutual implication, producing unique characteristic events
11 p1771 A71-26160
- Aircraft onboard equipment tests in air navigation aid satellite project, estimating tracking random errors
18 p2877 A71-36509
- Dual stochastic relations of optimal control and minimal error observation under random noise, using programming method
21 p3361 A71-41136
- Gaussian errors effect in maximal ratio diversity combiner weighting factors on probability distribution of output SNR
22 p3513 A71-42384
- Random amplitude bounded measurement errors, describing nonlinear filtration method of noise smoothing
24 p3813 A71-44683
- Geometrical least squares model extension to maximum likelihood method for linear processes with additive Gaussian error
24 p3843 A71-44704

- Point motion in random error region applied to synchronous satellite trajectory control by single impulse correction
24 p3846 A71-45307

RANDOM LOADS

NT GUST LOADS

- Structural vibration response to nonhomogeneous random pressure fields based on homogeneous field theory
[ASME PAPER 70-WA/DE-11] 03 p0511 A71-14145
- Pinned steel lug joints fretting fatigue, examining cumulative damage under constant amplitude and narrow band random loading
03 p0513 A71-14244
- Linear elastic structure statistical response characteristics relation to natural environment random pressures, considering flexural vibrations of thin cylinder for modal density
05 p0826 A71-16732
- Equidistant multiple span rectangular plates vibration and acoustic radiation under random external forces
06 p0994 A71-17823
- On-off control system with crew motion caused random disturbing torques on spacecraft, determining waiting time, jet firing frequency and fuel consumption rate
07 p1208 A71-19885
- First passage time for snap-through of shallow cylindrical shell subject to stationary random loading, considering numerical solution by Pontryagin-Vitt equation
08 p1369 A71-20809
- Periodically supported beams response to random loading, using space-harmonic analysis
08 p1371 A71-21429
- Nonlinear panel flutter analysis and response under random excitation or nonlinear aerodynamic loading, using Rayleigh-Ritz approximation to Hamilton variational principle
09 p1534 A71-22080
- Linearly elastic cylindrical shells dynamic stability under combined axial and radial stochastic excitations, using Liapunov analysis
[AIAA PAPER 71-333] 11 p1842 A71-25312
- Internal structural design loads for aerospace vehicles subjected to random loads, considering shear, moment and torsion as random components of generalized internal load vector
11 p1838 A71-25516
- Forced vibrations of circular cylindrical shell under random normal load and internal pressure, noting stability of transversely pressurized flexible vs rigid structures
13 p2150 A71-28140
- Vibration absorbers optimization for multiple degree of freedom systems with random excitations, applying optimal control theory in frequency domain
13 p2158 A71-29427
- Column buckling under initially random bending and twisting, comparing numerical analysis accuracy with Bernoulli-Euler results
14 p2330 A71-30692
- Snap buckling instability of shallow shell type structures subject to random transverse load
15 p2502 A71-31417
- Reliability prediction of narrow band structures under random excitations, considering catastrophic and fatigue failure modes
15 p2506 A71-32094
- Elastic structures stability under randomly fluctuating external loads based on statistical methods
16 p2648 A71-32988
- Aircraft random heave-pitch response to taxiing on rough runways, analyzing dynamic loads and fatigue damage by power spectral techniques
18 p2850 A71-36675
- Nonlinear mechanical system stationary random forcing input and output response data, determining statistical linearization coefficients in Kazakov-Boon method
19 p3037 A71-37347
- Structures with random resistance, calculating upper and lower bounds for safety coefficients average value and variance
19 p3156 A71-37643
- S-N curve and structural failure probability due to combined random and primary loads based on mathematical model
19 p3157 A71-37847
- Aerodynamic control surfaces optimal location for flexible aircraft disturbed by random wind gusts, using matrix minimum principle and calculus of variations
19 p2998 A71-38713
- Structural vibrations excited by spatially and temporally random pressure loading, discussing power spectra and vibration measurement
21 p3467 A71-40912
- Complex structural systems response characteristics under steady state sinusoidal, transients and random loadings, developing hybrid elastodynamic equations
21 p3470 A71-41011

- Shallow two pinned sinusoidal arches stability under random symmetrically distributed lateral loads, observing deformation, buckling and critical value
22 p3612 A71-41429
- Random loading parameters adjustment in fatigue tests of welded aircraft structures
22 p3528 A71-41692

RANDOM NOISE

NT RANDOM SIGNALS

- Linear information feedback methods for white Gaussian noise channels
01 p0064 A71-10904
- Radio telemetry transmitter receiver systems notch noise testing for relationships between spectral power density, video and IF bandwidths and peak deviation
01 p0034 A71-10908
- Gaussian message optimal transmission through channel with white Gaussian noise in presence of total feedback
01 p0064 A71-11152
- Closed cylindrical shell response to random sound in contained fluid, investigating cylinder end acoustic boundary conditions with coupled oscillator theory
02 p0239 A71-11998
- Error probability during diversity reception under random radio noise
04 p0549 A71-14613
- Algorithms for optimal detection of weak determinate signal on background of Markov process approximated non-Gaussian noises
05 p0719 A71-16009
- FM discriminator with nonideal limiting, calculating signal to noise ratio under white Gaussian noise input
05 p0730 A71-17071
- Broad spectrum pseudorandom Gaussian noise generator, describing pseudorandom binary sequence filtering technique with desirable autocorrelation properties
06 p0877 A71-17327
- Radio signals and receiving equipment structural synthesis, considering signal filtration under random additive noise
06 p0866 A71-17372
- Random Gaussian noise driven damped nonlinear oscillator, discussing Duffing equation, consolidated expansions for response spectrum and common factors
06 p0926 A71-17499
- Binary signal parameters estimation mixed with Gaussian noise, using method of moments
07 p1065 A71-20420
- Woodward ambiguity function generalization for case of radar signal reflection from rapidly fluctuating target, mixed with white Gaussian noise
09 p1404 A71-22292
- Nonstationary colored noise linear shaping filter to transform white noise into nonstationary random process with specified covariance function
09 p1424 A71-23100
- Rate distortion over band limited feedback channels, considering capacity of additive Gaussian white noise channel
09 p1407 A71-23104
- Pulsed signal amplitude and delay time measurement in presence of interfering/reverberated/ signals and steady noise
09 p1407 A71-23111
- Spectrum analysis and probability distribution of burst noise pulses of silicon planar bipolar transistors consistent with Markov two state process
10 p1574 A71-23773
- Positive signal optimal detection system in unsteady non-Gaussian noise
10 p1577 A71-24282
- Random response of stationary linear system to pulse noise in time with independent amplitudes
10 p1588 A71-24901
- Structural system frequency response measurements under environmental noise conditions, discussing autocorrelation function for transient excitation damping
11 p1797 A71-25182
- Computer programs for random noise vibration test digital control, describing data base and logic programs
11 p1736 A71-26499
- Malfunction probabilities in presence of wideband noise for tunnel diode binary logic element /flip-flop/ pulse triggered into either of two output states
11 p1740 A71-26543
- Gram-Charlier error probabilities of digital satellite communication systems due to intersymbol interference and additive noise applied to Chebyshev, Gaussian and cutoff filters
12 p1879 A71-27069
- Amplitude-quantized random noise contaminated unknown signal sample, deriving conditional probability density function of combined output error and signal confidence interval
12 p1880 A71-27157
- Correlation function of modulation of radar sounding signals with nonwhite nonstationary Gaussian noise, obtaining target range and velocity maximum likelihood estimates
12 p1882 A71-27166

Output autocorrelation functions of zero memory nonlinear devices excited by signal plus Gaussian noise and interference

13 p2039 A71-28869

Coding for feedback communication system with additive white Gaussian noise, using mean-square estimation error

13 p2034 A71-29379

Heuristic signal design for digital communication over fast-fading Gaussian channels, stressing nonorthogonal signaling schemes

14 p2193 A71-30010

Optimal correlating detector of fluctuating two frequency radar signals in unknown random noise

14 p2195 A71-30112

Variances and covariances calculation for fluctuating numbers of semiconductor conduction electrons in terms of noise

14 p2211 A71-30292

Stochastic signal optimum linear estimation in multiplicative and measurement noises, deriving algorithms

14 p2197 A71-30794

Book on detection of signals in noise covering statistical theory principles and applications in digital communications, radar and sonar

15 p2369 A71-31507

Bayesian estimate of signal parameters in random noise background under mutually exclusive hypotheses about statistical properties

15 p2370 A71-31584

Weak signal detection in additive mixture of non-Gaussian random-correlated noise, deriving algorithms for discrete- and continuous-time and coherent detection problems

15 p2370 A71-31590

Book on detection, estimation and modulation theory, Part 3, Gaussian and radar-sonar signals in noise, covering point targets, random process and scatter channels

15 p2371 A71-31841

LF white Gaussian noise generator with continuously variable output, describing transistorized circuitry and output characteristics

15 p2371 A71-31851

Weak harmonic signal detection in narrow band Gaussian noise, using statistical algorithm

15 p2371 A71-32187

Plasma induced random noise and striation oscillations in carbon dioxide lasers as function of operational parameters

15 p2423 A71-32608

Optimal discrete time detection of radar signal parameters in nonGaussian correlated and noncorrelated noise, using Markov model

15 p2373 A71-32619

Signals detection of known form and unknown energy in Gaussian noise of unknown level, applying concept of invariance in hypothesis testing

16 p2541 A71-32820

Error probability and reception stability in synchronous detection of phase manipulated signals with additive Gaussian noise at multiplied carrier frequency

16 p2542 A71-33498

Multidimensional control system transmission matrix optimization in presence of random signals and noise

16 p2550 A71-33717

Bandlimiting effects on coherent detection of PSK, ASK and FSK signals in presence of white Gaussian noise, using SNR as performance criterion

17 p2704 A71-35085

German monograph on nonlinear distortion correction of binary bipolar signals in Gaussian noise covering receiver, decision theory and error probabilities

18 p2874 A71-35959

Random noise effects on oscillator short term frequency stability and velocity measurement by Doppler effect

18 p2879 A71-36531

Probability error calculation for digital signals contaminated by intersymbol interference and additive Gaussian noise

19 p3015 A71-37222

Output correlation functions of periodic signals limiting in random noise passing through zero memory devices, using Hermite polynomials method

20 p3195 A71-38857

Recursive algorithms for detection probabilities of fluctuating targets in Gaussian noise, including cell averaging constant false alarm rate (CFAR) extension

20 p3195 A71-38860

Noise variance maximum likelihood estimate based on order statistics for first order Reed-Muller code transmission over zero-mean white Gaussian noise channel

20 p3202 A71-38875

Gaussian and Poisson noise and SNR effects on subjective image quality rating, using transparency aerial scenes

20 p3235 A71-39190

Dual stochastic relations of optimal control and minimal error observation under random noise, using programming method

21 p3361 A71-41136

Statistical methods for calculating cross correlation function integrals of input and output coordinates of automatic control system in presence of random noise at input

22 p3525 A71-41437

Error probability during diversity reception under random radio noise

22 p3510 A71-42253

SNR of harmonic signal mixed with narrow band Gaussian noise, measuring correlation coefficients

22 p3510 A71-42255

Algorithms for optimal detection of weak determinate signal on background of Markov process approximated non-Gaussian noise

22 p3515 A71-42760

Algorithms for discrete message signal reception in background non-Gaussian additive noise with unknown statistical characteristics

23 p3647 A71-44321

Linear system under state dependent random noise, obtaining optimal steady control

24 p3814 A71-44684

RANDOM NUMBERS

Random numbers generation from natural random phenomena, discussing advantages, circuit and sampling rate

07 p1067 A71-18734

Time dependent dispersion simulation by random number generator, introducing horizontal and vertical shear, buoyancy and anisotropic turbulence

09 p1488 A71-23027

System design and optimization computer subroutines based on biological mutation and selection principles, using random number generator

11 p1734 A71-25639

Digital generation algorithm for random number sequences with specified autocorrelation and probability density function, illustrating computation accuracy and versatility

17 p2719 A71-34745

Aerial cameras performance prediction by computer simulation technique with random number generation

18 p2917 A71-36069

Stochastic linear systems stability with random processes coefficients, using differential equations

24 p3815 A71-44698

Summation theory of random number of independent random variables relation to queueing and reliability theories

24 p3843 A71-44873

RANDOM PROCESSES

NT RANDOM WALK

Limit theorems for spacewise inhomogeneous random walks on straight line with Markov chain transition probabilities

01 p0110 A71-10099

Nonlinear automatic control systems steady random processes approximate analysis by integral linearization of functions and operators

01 p0058 A71-10100

Computerized optimization of nonlinear dynamic control system subjected to random disturbances, using Monte Carlo method for quality functional

01 p0058 A71-10426

Quantum diffusion in scattering medium with absorption as sequence of random events

02 p0311 A71-12354

Soviet book on random functions theory in gravimetric observations over water covering ship dynamics, meter design, instrument damping, optimal linear filtering, etc

02 p0254 A71-12841

Controller characteristic adaptive control by disturbance of plant operation under random nonmanipulated action, considering cognitive system as Markovian automation-nature game

03 p0389 A71-13516

Narrow band random processes statistical characteristic relationship derived from upper and lower envelopes

03 p0452 A71-14390

Nonlinear control systems optimization methods formulation according to deterministic and random disturbances and initial conditions

03 p0391 A71-14402

Lunar seismic waves scattering as two dimensional random walk process, taking crust and rock compositions into account

04 p0650 A71-15544

Flexible bar as spatial filter for measuring wave number-frequency spectra of distributed random processes

05 p0822 A71-16405

Randomly used shared communication channels capacity, calculating probability function dependence on frequency assignment policy

05 p0721 A71-16467

Atmospheric turbulence steady random process correlation function, spectral density and probability distribution based on aircraft measurements

07 p1150 A71-18797

Random gain statistics of avalanche diode optical detectors, analyzing simple optical binary receivers

07 p1074 A71-19216

Multivariate and multidimensional random processes simulation with specified cross spectral density, applying to nonlinear structural vibration analysis

07 p1161 A71-19963

Soviet book on limit theorems for random walks covering random walk functionals, zero mean value, finite dispersion, sequences, normalized sums, Markov functionals, etc

07 p1148 A71-20300

Dominant diagrams of renormalization method in coherent random wave propagation

07 p1065 A71-20322

Multimass system oscillations due to viscous friction factor and kinematic random disturbances, considering dynamic behavior of wheeled vehicle on rough roadbed

07 p1162 A71-20469

Periodic nonstationary random process spectral representation derivation by applying Loeve harmonizability theorem

08 p1334 A71-21298

First order digital phase locked loops analysis for single channel command system, using random walk techniques

08 p1270 A71-21351

Random solution of stochastic integral equation of tagged point in continuous turbulent flow

08 p1276 A71-21357

Book on probability theory and applications covering stable distributions, renewal theory, large numbers laws, central limit theorem, Markov processes, random walks, etc

08 p1325 A71-21655

Nonlinear approximation for coherent Green function behavior in randomly fluctuating, unbounded and statistically homogeneous medium, emphasizing large scale fluctuations

08 p1325 A71-21883

Cylindrical shell dynamic response to random acoustic excitation within narrow frequency band of low modal density

09 p1534 A71-22082

Complex automatic systems with random switch-off, developing failure sequence models

09 p1422 A71-22119

Nonstationary colored noise linear shaping filter to transform white noise into nonstationary random process with specified covariance function

09 p1424 A71-23100

Electromagnetic wave propagation in anisotropic ionospheric plasma with time-varying random electron density irregularities

09 p1506 A71-23586

Soviet book on reliability and efficiency prediction of radio electronic devices covering a priori and posteriori random quality indices, mathematical and physical models and applications

10 p1582 A71-23900

Phi movement/pure motion/perception between successively presented, granular, moving objects, dichoptic and random dot Julesz patterns

10 p1567 A71-23987

Aircraft motion and traffic control at air corridors intersections for minimum flight schedule deviation under random disturbance due to weather, using statistical simulation

10 p1639 A71-24158

Continuous identification algorithm for system containing two delays for signal represented by stationary random process with autocorrelation function approximation

10 p1585 A71-24160

Peak structural response to nonstationary random excitations, approximating by Weibull distribution and Monte Carlo technique

11 p1843 A71-25326

Parameter optimization in linear control systems subject to random disturbances, using hybrid computer

11 p1735 A71-25840

Phase and log amplitude spectral and angular covariance of scintillation for propagation of two differing plane waves in randomly inhomogeneous medium

11 p1800 A71-26297

Computer aided statistical analysis of irregular quasi-optical transmission lines containing random inhomogeneities

11 p1733 A71-26347

Scattering matrix of stripline segment with random change in width of inner strip conductor

11 p1733 A71-26350

Convergence of identification scheme for scalar-input-scalar-output linear systems with random inputs, applying invariant set theorem for random systems

11 p1792 A71-26412

Signals as information carriers, comparing bounded spectrum carrier model, Gabor model, analytical signal model, steady random process model with bounded spectrum and Rice-Bunimovich model

11 p1734 A71-26463

Direct digital control system for random excitation environmental testing, discussing interfacing of TIME/DATA time series processor and minicomputer 11 p1736 A71-26500

Optimal stabilization system synthesis for multidimensional linear control plant in presence of random perturbation 12 p1892 A71-27176

E and F region irregularities random movements over Waltair, India, during IQSY, obtaining diurnal and seasonal variations 13 p2056 A71-27931

Verification, control and forecasting information characteristics for random process mixed with additive noise 13 p2041 A71-27942

Fiberglass reinforced plastics under constant strain rate, deriving failure models as random process for microscopic crack propagation 13 p2148 A71-28115

Statistical analysis of random oscillations excited in electron beam-plasma system based on signal recording data 13 p2106 A71-28364

Random radio signals distributions properties with parameters subject to random variation 13 p2029 A71-28371

Semiconductor random access memory components, discussing LSI circuits developments for RAM applications cost effectiveness in computer main-frame memories 13 p2035 A71-28772

Gaussian processes discrimination, considering correlation functions in integral control of nonlinear filter for image recognition 13 p2039 A71-28917

Oscillations in system of nonlinear cubic response with narrow-band random excitation, using statistical linearization 13 p2101 A71-29077

Stationary Gaussian Markovian form randomly fluctuating pressure gradient effects on steady incompressible channel flow velocity 14 p2223 A71-29924

Complex automatic systems with random switch-off, developing failure sequence models 14 p2220 A71-29997

Random ergodic process extremal behavior, determining mean time to reach original maximum or minimum 14 p2194 A71-30087

Velocity-aided Kalman filtering for one dimensional motion under random acceleration, obtaining steady state solution and transit time 14 p2197 A71-30793

Random time variation in sound radiation far field of point sources in subsonic circular rotational motion 15 p2450 A71-32129

PAM data transmission systems timing recovery, discussing maximum likelihood estimation method for timing parameter from random data 15 p2377 A71-32314

Structural dynamic responses as nonstationary narrow band random process, establishing peak values distribution functions with frequency interpretation 15 p2510 A71-32515

Random images transmission rates, comparing line-by-line and two dimensional encoding 16 p2541 A71-32819

Two-parameter statistical theory of material fatigue, considering random and ordered structural nonuniformities in space distributions 16 p2647 A71-32823

Numerical evaluation for individual samples of random processes obtained from nonstationary engineering experiments 16 p2602 A71-33341

Transition probabilities of random processes with rapid variability, using continuous Markov smoothing under Fokker-Planck equation 16 p2612 A71-33520

Kolmogoroff differential equations for probabilities of system states, showing validity for Markovian random processes and processes with aftereffects 16 p2603 A71-33891

HF amplifier statistical gain fluctuations effect on Dicke radiometer sensitivity, using Davenport-Root theory of random processes 16 p2548 A71-34132

Differentiable random processes, deriving approximate determination of correlation functions 17 p2777 A71-34348

Limits theorems of occupancy problem, concerning asymptotic behavior of random particle distribution to fixed cell with equal probabilities 17 p2764 A71-34574

Optimal structure and parameter adaptive estimation for continuous and discrete data Gaussian process models with linear dynamics 17 p2719 A71-34739

Linear unbiased estimates of mathematical expectation of random process optimal in sense of norm of symmetrical Banach space 17 p2765 A71-34861

Limited spectrum random processes interpolation, considering unequivocal recovery from values in infinite sequence of equidistant moments of time 17 p2765 A71-34862

Optimal extrapolation and filtration for class of random processes, considering functionals of solutions of stochastic differential equations 17 p2765 A71-34863

Fatigue life prediction for structure undergoing random steady Gaussian centered process, determining statistics of absolute maximums 17 p2832 A71-35471

Kinematic-dynamo theory with turbulent diffusivity effect, discussing resistivity as random function of position 18 p2969 A71-37045

Time optimal control for distributed systems with random properties, considering integral relations and flying wing vehicle torsional vibration problems 19 p2994 A71-37094

Recurrent procedure for probability characteristics analysis of stationary random process, using density functions and Euler equations 19 p3085 A71-37146

Jump phenomena of nonlinear control systems subjected to nonstationary Gaussian random inputs, using statistical linearization method 19 p3036 A71-37236

Economically optimal operation of circuits protecting object subject to stationary random process, determining object malfunction intensity 19 p3025 A71-37572

Binary systems formation probability during triple encounters, considering random initial conditions 20 p3290 A71-39301

Accuracy in maximum likelihood estimate for correlation function parameter of random process in signal reception on normal noise background 20 p3199 A71-39816

Self referencing holographic system for image compensation in fluctuating random medium, describing homodyning procedure 21 p3382 A71-40935

Stochastic optimal control of discrete processes with random disturbances 21 p3361 A71-41139

Random analogs of boundary value problems class for biharmonic functions, demonstrating unique solution existence 21 p3410 A71-41189

Book on dynamic programming application to optimal control covering discrete random processes, continuous deterministic and stochastic processes, etc 22 p3567 A71-42428

Digital computer simulation of random disturbances with uniform distribution, determining generated sequence correlation coefficient mean and variance 22 p3518 A71-42492

Random parietal environment representation by homogeneous distribution of independent sources, using boundary layer model [ONERA-TP-933] 22 p3576 A71-42500

Probabilistic system observation at random times, calculating Markov renewal processes optimal long run control 22 p3527 A71-42628

Smoothed randomized functionals and algorithms in adaptation and learning theory, accounting for constraints by generalized penalty function method 23 p3657 A71-44018

Reduced error spectral power density calculations for random processes with digital spectral analyzers 23 p3681 A71-44320

Statistical optimization of spherical gyroscope regarded as servocontrol system under random perturbation, using measured values of relative angles between sphere and inner gimbal 24 p3825 A71-44691

Linear systems with randomly varying parameters, deriving stability conditions from one dimensional distribution functions 24 p3815 A71-44699

Two rotor gyrocompass with random parameter excitation, calculating angular velocity random variation effects on drift 24 p3825 A71-44700

Random processes overshoots, determining probability distributions of overshoot duration and time of first attainment of given level for random sequences 24 p3815 A71-44703

Unsteady random processes structural analysis application to nonlinear dynamic systems, evaluating algorithms effectiveness and improvement by self adaptive operators with finite memory 24 p3815 A71-44705

Vibrational systems stability in presence of time dependent random parametric disturbances, using frequency analysis methods 24 p3848 A71-44851

RANDOM SAMPLING

On-off keying system digital detection using random sampling for achieving high bit rates 05 p0725 A71-17073

Random numbers generation from natural random phenomena, discussing advantages, circuit and sampling rate 07 p1067 A71-18734

Exact confidence intervals for probability and sampling quantiles of random quantity from beta distribution law 07 p2763 A71-34302

RANDOM SIGNALS

Optimal detection of narrow band signal with random phase and arrival time in radar or sonar, using nonlinear adaptive filter 02 p0211 A71-11720

Sampling and averaging techniques in fast random signal analysis using oscilloscope and memory unit 03 p0379 A71-13911

Optimal detector parameters for stochastic signals in noise, discussing analytic and simulation studies of adaptive techniques of pattern recognition 08 p1259 A71-21594

Adaptive control systems state variables and nonstationary parameters estimation in presence of random disturbance and measurement noise, using nonlinear filtering theory 09 p1423 A71-22612

Correlation estimates and optimal detector for incomplete a priori information signal reception on random and white noise background 10 p1579 A71-24878

Q factor of control systems as mathematical expectation of functional on input signal set with prescribed probabilistic measure and random initial conditions 10 p1588 A71-24904

Adaptive control systems probability characteristics in presence of random inputs, discussing improvements by coefficients and interpolation methods 12 p1891 A71-26727

Optimal receiver to detect multiple orthogonal signals on normal stationary noise background, assuming nonuniform a priori probability occurrence 12 p1883 A71-27618

Mathematical model for harmonic emission spectrum in FM and PM communication transmitters modulated by random signal 13 p2032 A71-28875

Continuous observation of resolvable signal random flows 13 p2033 A71-28916

Quality functional analysis for self adaptive filtration of random signal sequences 13 p2040 A71-28919

Nonlinear filtering synthesis of optimal receiver for pseudorandom phase shift keyed signal with arbitrary modulation angle and white noise background 14 p2195 A71-30107

Gaussian input signal nonlinear sampled data systems analysis using linear components and transfer function 14 p2220 A71-30800

Meteorologic bistatic radar equation for randomly distributed targets, applying to raindrops, refractivity perturbations, etc 14 p2197 A71-30830

Random turbulent signals from hot wires across pipe flow, studying form, skewness and flatness factors 15 p2391 A71-32108

Multidimensional control system transmission matrix optimization in presence of random signals and noise 16 p2550 A71-33717

Microfield double probe for plasma density and electron temperature determination, studying random signals crossed spectrum 17 p2789 A71-35350

Random access signaling system application to aircraft control, discussing signal redundancy requirement for access capability optimization based on radio environment model 17 p2747 A71-35783

Random aperiodic signals analysis, using two dimensional Fourier transforms 17 p2709 A71-35790

Distance measurement system with onboard transponder, discussing subcarrier and pseudorandom code signal techniques synthesis 18 p2879 A71-36532

Traffic capacity of systems for search and analysis of radio signals with random duration 19 p3015 A71-37258

Stochastic passband model of tropospheric communications channel, denoting random frequency duration above threshold level 19 p3022 A71-38501

Two phase flow speed transit time measurements by correlation methods with randomly fluctuating signals, noting use in small bore tubes and strip steel production 19 p3067 A71-38658

Probability functional formulas for quasi-determinate signal on unsteady normal noise background for use in false alarm and correct detection 20 p3199 A71-39815

RANDOM VARIABLES

Joint phase locked and delay tracking system dynamics for pseudorandom radio signal detection 23 p3646 A71-44267

Probabilistic analysis of random pulse signal gating on time selective zero lag converter with rectangular pulse input 23 p3647 A71-44322

Spatially distributed systems with random parameters, determining random output signals statistical moments 24 p3813 A71-44678

Optimal dynamic accuracy of control systems with random signals and parameter oscillations, using sensitivity theory 24 p3815 A71-44697

Ocean surface wave height /sea state/ measurement by high resolution random-signal radar based on model characterized by Poisson distributed scatterer density function 24 p3823 A71-45082

RANDOM VARIABLES

Straight line approximation of random two dimensional discrete set containing large measurement errors, comparing to least squares results 02 p0304 A71-11902

Linear ordinary differential equations system with random coefficients, proving mean stability theorem 03 p0450 A71-13119

Random parameter plant control, considering recursion formulas, optimal strategy and computerized simulation 03 p0391 A71-14379

Random graphs probabilistic characteristics, deriving algorithms for graph connectivity probability estimation 05 p0731 A71-16795

Photoelectron count of logarithmically fading optical signal, discussing noncentral chi square random variable approximation 05 p0726 A71-17085

Scalar Gaussian channel information optimal input capacity as function of random variable, assuming finite number of values for amplitude and variance constraints 11 p1730 A71-25374

Hybrid computer Monte Carlo technique for simulation and optimization of system with random parameters 11 p1735 A71-25843

Algorithm for nonparametric estimation of random parameters of general exponential family of unknown density distributions, investigating empirical estimates convergence to Bayes optimal estimates 12 p1892 A71-27022

Straight line approximation of random two dimensional discrete set containing large measurement errors, comparing to least squares results 13 p2133 A71-28189

Optimal control systems design with random parameters and initial state, considering open loop and feedback correction terms 13 p2042 A71-28708

Seasonal, irregular and long term earth rotation rate variations 14 p2310 A71-30198

German book on problems, mathematical foundations and investigation methods of technical reliability covering Boole model, random variables, distribution functions, failure rates, etc 16 p2583 A71-33524

Algorithm for nonparametric estimation of random parameters of general exponential family of unknown density distributions, investigating empirical estimates convergence to Bayes optimal estimates 19 p3038 A71-37691

Turbulent hydrodynamic line stretching problem, considering asymptotic rates as application of central limit theorem for dependent random variables sums 19 p3044 A71-37729

Frequency domain stability criteria for dynamical systems with random parameters, considering open loop stability, stochastic gain element rms value and linear element effective bandwidth 19 p3039 A71-38710

Canonical approximation of state correlation matrix and threshold crossings of variable systems with random turbulence type input vectors representing flight environment 21 p3408 A71-40614

Material random temperature and imperfection density effects on 3-bar truss nonlinear steady creep solutions for stress and velocity 22 p3615 A71-42211

Spatially distributed systems with random parameters, determining random output signals statistical moments 24 p3813 A71-44678

Parameters steady random variations effect on linear and nonlinear systems steady motion characteristics, using integral equation and averaging methods 24 p3815 A71-44696

Summation theory of random number of independent random variables relation to queueing and reliability theories 24 p3843 A71-44873

Pseudomoments estimation of convergence rate in central limit theorem for random variables series 24 p3843 A71-44874

RANDOM VIBRATION

Power gyrostabilizer optimal controlling section with random base frame oscillations, solving filtration problem as function of platform structure by Wiener method 01 p0079 A71-10427

Forced random oscillations of nonholonomic systems about equilibrium positions, deriving stability conditions in white noise disturbances 01 p0176 A71-11042

Book on mechanical vibration and shock measurements covering periodic and random vibrations characteristics, instrumentation, control, etc 02 p0251 A71-12175

Random vibrations nonlinear effects on gas bearing pendulous-integrating gyroscopic accelerometer response, using digital simulation 02 p0252 A71-12454

Covering plate steady state response to acoustic vibrations in viscoelastic half space, calculating interface displacement frequency spectra under zero shear stress assumption 03 p0459 A71-13719

Aircraft fuselage internal noise and structural frequency response due to random excitation, using transfer matrix analysis [ASME PAPER 70-WA/DE-9] 03 p0348 A71-14143

Fluid-loaded rectangular plates and membranes random vibration excitation by turbulent boundary layer flow [ASME PAPER 70-WA/DE-15] 03 p0511 A71-14147

First passage failure probabilities for single degree of freedom systems under random vibration [ASME PAPER 70-WA/APM-14] 03 p0512 A71-14155

Body position effect on dynamic characteristics of human operator under random vibration, considering pelvis-head amplitude-frequency characteristics 04 p0543 A71-14791

Mechanical oscillator mean square response to non-stationary random excitation 04 p0669 A71-15200

Null shift errors of compensated electromechanical pendulum accelerometers during random vibration of base 07 p1108 A71-19308

Stability, stationarity and amplitude damping of random parametric vibration system, using nonlinear differential equations 07 p1147 A71-19591

Coupling loss factor estimation, using wave transmission or natural frequency shift methods in statistical energy analysis 07 p1161 A71-19962

Rotor blade random vibrations in response to turbulence [AIAA PAPER 70-548] 09 p1381 A71-22081

Rumanian book on nonlinear and random vibrations covering dissipative and conservative nonlinear mechanical systems, deterministic excitation and applications of mathematics 09 p1543 A71-23619

Transverse spatial particle diffusion in plasma under random oscillations, examining interaction between collisionless plasma and longitudinal wave 10 p1649 A71-24318

Cylindrical panel vibration in supersonic flow under random effects, calculating stress-strain statistical properties as function of incident flow velocity 10 p1690 A71-24572

Random vibrations of statistically inhomogeneous elastic systems, using perturbation method 10 p1691 A71-24644

Buckled rectangular panels response to random excitation via single degree of freedom nonlinear vibration equation 11 p1841 A71-25196

Nonstationary random analysis of flight vehicle response to atmospheric turbulence, using Priestley evolutionary spectral method 11 p1836 A71-25320

Power spectral density analysis of aircraft structural response to taxiing produced random vibrations involving landing gear orifice damping and Coulomb friction 11 p1708 A71-26311

Two-shaker single input sinusoidal and random vibration tests, considering Hunter-Helmuth solution with constant cross coupling compensation in frequency band 11 p1745 A71-26491

Random vibration laboratory equalization by multiple taping of noise signals on recorder and manual processing 11 p1746 A71-26513

Automatic equalizer-analyzer system for random or shock vibration testing, including narrow-band

equalization, simplified display techniques and self-calibrating procedures 11 p1747 A71-26514

Asymptotic methods and Markov processes theory extension to unsteady vibration of nonlinear systems with slowly varying parameters and random perturbation 12 p1930 A71-27173

Deterministic and random nonlinear forced vibrations of one degree of freedom system with broken line elastic response 14 p2328 A71-30378

Pin-ended column stability and random behavior under white noise excitation, using analog simulation and application to vertical earthquake and aerospace vibration environments 14 p2330 A71-30683

Integrally stiffened five bay panel, calculating free vibration and random response to jet noise excitation [AIAA PAPER 71-585] 15 p2504 A71-31532

Probability theory of stresses during random vibrations of flat panel in acoustic field of jet engine exhaust 15 p2504 A71-31704

Automatic system for random vibration spectra control, consisting of spectrum shaper/analyzer and multidimensional controller 15 p2379 A71-31845

Mathematical model of multidimensional system stability for random vibration spectra control, including white noise generators, spectrum shaper/analyzer and summator 15 p2380 A71-31847

Man machine system dynamic properties and biomechanical model concepts, determining random vibration effects on sitting and working human body 15 p2366 A71-32728

Stationary narrow band Gaussian vibration excursion probability based on Markov point process [ASME PAPER 71-APM-19] 16 p2655 A71-33210

Cylindrical shells partially filled with liquid, calculating forced vibration under random loads and deterministic internal pressure 17 p2817 A71-34333

Two mirror Cassegrain antenna secondary reflector random fluctuations effects on drift in main lobe direction 17 p2713 A71-34397

Uniaxial gyroscopic stabilizer errors in presence of base random vibration, taking into account dry friction forces in bearings 17 p2738 A71-34560

Blower suction line random vibrations due to distributed random pressure, investigating various isolation arrangements for vibration reduction 20 p3308 A71-39085

Broadband random vibration simulation of force environment action on multimode structure [ASME PAPER 71-VIBR-2] 21 p3362 A71-40266

Random vibration testing digital computer control system and experiment design, considering discrete Fourier transform techniques application [ASME PAPER 71-VIBR-30] 21 p3360 A71-40285

Nonlinear Volterra integral equation system solution using almost periodic forced oscillations 21 p3409 A71-41081

Material fatigue failure under narrow band random vibration effects, deriving fatigue life prediction equation based on composite experimental design and statistical tests 22 p3615 A71-42002

Statistical approach to complex structural vibration under random excitation 23 p3775 A71-43214

Man machine system dynamic properties and biomechanical model concepts, determining random vibration effects on sitting and working human body 23 p3639 A71-43299

Point source average signal reflection from conductive plane in random oscillation 23 p3654 A71-44163

RANDOM WALK

Cosmic rays compound diffusion, considering combined effects of one dimensional diffusion along interstellar magnetic field lines and field lines three dimensional random walk 14 p2301 A71-30434

Random walk theory applied to electron motion in early stage of He breakdown in electric field, based on integral and differential cross section data 15 p2452 A71-31921

RANEY NICKEL

U CATALYSTS

U NICKEL

RANGE

Flight range and optimum angle of attack under wind conditions of constant velocity and direction, considering fuel consumption for given distance 06 p0847 A71-18325

RANGE (EXTREMES)

NT FREQUENCY RANGES

NT OCTAVES

NT PROPORTIONAL LIMIT

NT RADIO RANGE

NT ROCHE LIMIT

Nuclear reactor kinetic differential equations, ascertaining positive bounded solutions existence 01 p0126 A71-11290

Successive approximations of order K iterative methods for calculating inverse matrix, yielding lower and upper bounds 03 p0449 A71-13111

Narrow band random processes statistical characteristic relationship derived from upper and lower envelopes 03 p0452 A71-14390

Limiting bounds determination for existence of periodic orbits near known existing periodic orbit, presenting linear perturbation analysis 04 p0654 A71-15717

Stability loss of cylindrical shell at upper bound of buckling load under axial compression 06 p0983 A71-17365

Limiting analysis for upper estimate of carrying capacity of shell of revolution under load concentrated at center, evaluating stability loss 06 p0987 A71-17771

Swan band intensity upper limits in spectrum of 18 September 1966 sunspot 06 p0967 A71-17907

Natural frequency bounds for clamped beam with linearly varying compressive load and constant end load by Rayleigh-Ritz, Bazley-Fox second projection and Kato methods 08 p1368 A71-20806

Nonlinear control systems absolute stability range in parameter space 09 p1422 A71-22121

Extremal experiment planning for optimal search, defining intuitive acceptance of solutions during non-formal stages 12 p1988 A71-26710

Criterion on types of extrema of singular solutions of conditional equations in calculus of variations from Euler function behavior with respect to integration path 13 p2096 A71-29322

Nonlinear control systems absolute stability range in parameter space, using system of inequalities 14 p2220 A71-29999

Cosmological upper limit on gravitational constant time variation, extending Dicke theoretical bound to pressure filled cosmologies in flat space 17 p2801 A71-34651

German monograph on characteristics and upper and lower bound methods in plastic layer theory, deriving static and kinematic equations 17 p2748 A71-34798

Bounded integral manifolds existence for perturbed system of nonlinear differential equations near critical point, periodic orbit or periodic surface 17 p2769 A71-35795

Lower bound on distance between vertical asymptotes of second order differential equations solutions involving integral inequality 18 p2941 A71-36227

Error bounds and variational principles for nonlinear differential and integral equations, exemplifying by Liouville and Poisson-Boltzmann equations 20 p3255 A71-39496

Variational principle for obtaining upper and lower bounds on minimum drag on body of given volume in slow viscous flow 20 p3177 A71-39500

Pointwise bounds in Cauchy problem for fourth order quasi-linear equation using a priori inequality, applying Rayleigh-Ritz technique to elliptic partial differential equations 20 p3255 A71-39573

Gravitational and other forces involved in equilibrium of growing plants, showing gravity sensing ability lower limit existence 21 p3339 A71-39971

Limiting He 3 abundances in four H II regions 21 p3448 A71-40449

Photon mass terrestrial and extraterrestrial limit measurements, discussing speed of light frequency dependence, Coulomb law analog in magnetostatics energy conservation, etc 21 p3418 A71-40674

Eigenvalues lower bounds determination for arbitrary shape region, presenting domain constriction method 21 p3416 A71-41014

Constructive existence theorem for nonlinear elliptic equation with restricted bounded domain 21 p3409 A71-41078

Temperature and frequency dependence of electron phonon interaction maxima in rhenium, explaining transverse and longitudinal waves ultrasonic attenuation by two band theory 22 p3578 A71-42597

Boundedness theorem for Volterra equations, discussing applications 22 p3568 A71-42698

Optimal strategies in search of function global maximum 24 p3843 A71-44770

RANGE AND RANGE RATE TRACKING

Range and range rate measurement errors between ground station and artificial satellite, investigating atmospheric refraction effects 04 p0661 A71-15003

Correlation function of modulation of radar sounding signals with nonwhite nonstationary Gaussian noise, obtaining target range and velocity maximum likelihood estimates 12 p1882 A71-27616

Signals single set synthesis for simultaneous target information transmission and range and velocity measurement 12 p1883 A71-27617

Range and range rate measuring equipment for PCM-TDMA satellite communications system data feed and orbit observation 18 p2879 A71-36533

Apollo range instrumentation aircraft, describing C-135A modification with airborne lightweight optical tracking systems 19 p3022 A71-38546

Radar resolution performance for targets with range acceleration, determining matched filter or correlation radar effects 20 p3195 A71-38868

Estimation error covariance matrices of linearized Kalman tracker for ballistic reentering missiles, observing strong coupling of range and range rate with ballistic coefficient 23 p3646 A71-44083

RANGE CONTROL
U TRAJECTORY CONTROL

RANGE ERRORS

Rocket free flight ascent trajectory range error, approximating influence of stabilizers, nose cone and components misalignment along longitudinal axis 04 p0601 A71-14596

Coherent optical system for range and azimuth ambiguity simulation in radar systems 04 p0551 A71-15010

Tropospheric range error in EM signal arriving at earth zenith, measuring integral of refractivity through atmosphere from height, pressure, temperature and humidity 16 p2569 A71-33800

Analytic solution to range deviations along descending branch of free flight trajectory of ballistic vehicle in planetary atmosphere 24 p3872 A71-45015

RANGE FINDERS

NT LASER RANGE FINDERS

NT OPTICAL RANGE FINDERS

Noise effects on characteristics of automatic radar rangefinder with logarithmic receiver, showing discrimination curve deformation with increasing SNR 09 p1415 A71-22297

Model 6A geodimeter /photometric range finders/ laboratory and field tests 15 p2405 A71-31466

HEOS A-1 satellite telecommunication system, describing command, telemetry and ranging subsystems 18 p2875 A71-35984

Injection laser range finder with avalanche photodiode for Mars rover obstacle sensing, discussing range data processing methods 22 p3529 A71-42772

Range finder receiver based on Si avalanche detector coupled to tunnel diode circuit, with automatic gain control through tunnel diode bias control 23 p3677 A71-43518

RANGE INDICATORS
U INDICATING INSTRUMENTS

RANGE FINDERS

RANGE MEASUREMENT

RANKINE CYCLE

Reciprocating organic single cylinder Rankine cycle engine using thiophene working fluid 03 p0351 A71-13034

Natural gas organic Rankine cycle system for commercial on site electrical power generation and heating-cooling purposes 03 p0351 A71-13035

SNAP-8 mercury Rankine system performance data, investigating design change for reduced reactor operating temperatures 15 p2447 A71-32201

Helical induction boiler feed electromagnetic pump design, fabrication and testing for potassium Rankine cycle space power system 15 p2415 A71-32202

[GESP-455] Unalloyed tantalum as containment material in mercury Rankine cycle SNAP 8 system boiler for 5 year service life 15 p2448 A71-32221

Test facility and performance predictions for Rankine cycle power system components, including lithium heater, potassium boiler, condenser and preheater [GESP-451] 15 p2448 A71-32223

Rankine cycle turboelectric nuclear space power conversion system with liquid K as working fluid, discussing current technology status 16 p2526 A71-33525

Condensate removal devices for potassium vapor Rankine space power turbines to prevent blade erosion and efficiency degradation 20 p3262 A71-38918

Component performance of three loop Rankine cycle test rig using lithium, potassium and NaK-78 as working fluids 20 p3263 A71-38923

RANKINE TEMPERATURE SCALE
U TEMPERATURE SCALES

RANKINE-HUGONIOT RELATION

Alfven waves effect on MHD fast shock from numerical solution of extended Rankine-Hugoniot equations 10 p1667 A71-23798

Excess energy in fluid mechanics, breaking up equation into different orders by small perturbation approach and Rankine-Hugoniot shock relation 14 p2227 A71-30818

Low temperature shock waves in molecular hydrogen, discussing Rankine-Hugoniot equation behavior 16 p2555 A71-32895

Shock normal calculation by applying least squares technique to combined geomagnetic field and plasma data from single satellite, assuming Rankine-Hugoniot conservation relations 16 p2560 A71-33941

Boundary shock waves in electrically conducting gas under magnetic field, deriving Rankine-Hugoniot jump relations analogs and Prandtl relation 16 p2560 A71-34128

Shock wave data for Bame enstatite in 60-480 kb range, considering Hugoniot elastic limit and phase transition produced shock front 19 p3050 A71-37663

Two dimensional steady state detonation waves, obtaining generalized Rankine-Hugoniot equations 19 p3045 A71-38126

Collisionless shock waves downstream state, using Rankine-Hugoniot type relation model 19 p3117 A71-38650

RAPCON (CONTROL)
U RADAR APPROACH CONTROL

RAPID EYE MOVEMENT STATE

Rapid eye movements during nocturnal sleep of healthy human subjects, insomniacs and narcoleptics recorded on polygraphs 01 p0007 A71-10071

Heart rate variability in REM sleep, stage 4 sleep and wakeful state from ECG of normal males, calculating coefficient of temporal variability for each state 13 p2014 A71-29319

RAPID TRANSIT SYSTEMS

Human subjects REM sleep characteristics under 5-hydroxytryptophan influence, analyzing continuous polygraphic recordings of parietal EEG, horizontal eye movement and submental electromyographic activity

15 p2359 A71-13152
First and last rapid eye movement (REM) sleep differences in unrestrained chimpanzee

18 p2853 A71-35891
Oculomotor neural organization models, considering vestibular ocular reflex, saccadic eye movements and smooth pursuit systems

22 p3504 A71-42450

RAPID TRANSIT SYSTEMS

Sensing and communications technologies for short wayside headways, considering applicable equipment for personal rapid transit systems, modulation, coding and data transmission techniques

14 p2195 A71-30337

RARE EARTH ALLOYS

NT NEODYMIUM ALLOYS

Rare earth alloys spin disorder resistivity in crystal-line electric field absence and presence

04 p0637 A71-15797

Magnetic properties of sintered cobalt-rare earth alloy magnets using Sm, Pr, La or Ce misch metal for microwave device applications

14 p2284 A71-30703

Magnetic properties measurement of Co-rare earth permanent magnets, using Nb-Sn superconducting solenoid

14 p2284 A71-30704

Zinc and misch metal in Mg alloys, detailing rare earth metals distributions in various phases

16 p2594 A71-33714

Mechanical and crystallographic structure effect on cold brittleness temperature anisotropy and on ex-foliation of Cr alloyed with rare earth elements

17 p2755 A71-34416

RARE EARTH COMPOUNDS

NT CERIUM COMPOUNDS

NT EUROPIUM COMPOUNDS

NT SCANDIUM COMPOUNDS

NT SCANDIUM OXIDES

Rare earth polycrystalline powders luminescence stimulation by ruby laser radiation, discussing two photon mechanism, luminous intensities relations and UV radiation

03 p0435 A71-13510

IR lattice spectra of rare earth stannate and titanate pyrochlores

07 p1054 A71-19484

Rare earth metals di- and sesqui-carbides physical characteristics, establishing changing properties patterns during phase transitions

NT TERBIUM

NT YTTRIUM

Rare earth element concentrations in zircons and apatites separated from dacites and granites, explaining partition coefficients between phenocrysts and groundmass by crystal structure

03 p0407 A71-13338

Apollo 12 lunar rock 12013 rare earth, alkaline and alkali metal and Sr 87/Sr 86 data, discussing light and dark component composition

03 p0494 A71-14221

Rare earth abundance in Apollo 12 basalts and soils and achondritic meteorites, using partial melting model

06 p0966 A71-17899

Interlocking via photoexcitations and deexcitations due to lanthanide rare earths weak line solar spectra and ion atomic structure

06 p0969 A71-17970

Rare earth based liquid lasers, describing spectroscopic and performance properties of neodymium ions in aprotic solvents

07 p1124 A71-19788

Fluorapatite single crystals absorption spectra and luminescent characteristics under activation by rare earth ions, noting line widening dependence on crystal composition

09 p1507 A71-22390

Photochromic calcium fluoride preparation by rare earth additive coloration techniques

09 p1509 A71-23120

Physical properties, structure and sintering of refractory oxides of rare earth elements and actinides, including chromia

09 p1478 A71-23399

Compressive creep behavior of yttria rare earth stabilized zirconia storage heater refractories, determining stress time to failure

09 p1484 A71-23686

Rare earth and heavy elements determination in olivine hypersthene and enstatite chondrites by spark source mass spectroscopy, noting Fe meteorite silicate inclusions composition

11 p1819 A71-25225

Magnetization discontinuities in cobalt-rare earth particles at discrete imperfection levels as function of chemical, mechanical and heat treatment, noting Co-Y rectangular loop

12 p1943 A71-26861

Reagents for photometric determination of rare earth elements of yttrium subgroup in binary mixtures with La or Ce

15 p2367 A71-31646

Lost City /Oklahoma/ chondrites, determining alkali, alkaline earth and rare earth element concentrations and Rb-Sr model age

15 p2489 A71-32355

Refractory and rare metals single crystals - Conference, Moscow, December 1968

16 p2594 A71-33876

Refractory and rare metals absolute melting temperature dependence on atomic number, lattice constant, charge negativity and crystallographic, thermodynamic and mechanical parameters

16 p2594 A71-33878

Al-Cu-Li-Mn and magnesium/rare-earth-element alloys heat resistance and microhardness, determining strengthening by intermetallics

16 p2597 A71-33926

Quantum counter action in various media including trivalent and divalent rare earth ions, Fe group transition metal ions, semiconductors and gases

18 p2930 A71-36145

Longitudinal and transverse magnetostriction of polycrystalline iron garnets containing Gd, Tb, Dy and Ho in high magnetic fields

21 p3428 A71-41116

Rare earth, alkali and alkaline earth elements content of phenocrysts and acidic igneous magma

23 p3734 A71-43246

Rare earth trace elements abundance of Apollo 14 lunar soil samples from Fra Mauro, comparing with chondrites

23 p3735 A71-43248

Mineralogy, chemistry and origin of KREEP /potassium, rare earth element and phosphorus/ component in Apollo 12 soil and breccia samples from Ocean of Storms

23 p3741 A71-43632

Apollo 12 lunar soils, rocks and core samples, determining rare earth, alkali and alkaline earth elements concentrations

23 p3747 A71-43676

Apollo 12 lunar rock rare earth element abundances, comparing to Icelandic basalt flow

23 p3750 A71-43694

Rare earth elements and trace elements abundance in Apollo 12 igneous rocks, breccia and lunar soil

23 p3750 A71-43695

Saha equilibrium deviations in wall stabilized rare gas arc plasmas under normal pressure, describing numerical method for temperature and density distributions evaluation

01 p0133 A71-10746

Pressurized inert gas metal arc welding of Al, determining voltage, filler metal speed and chamber pressure effects by multiple regression analysis

02 p0255 A71-11709

Heat transfer to walls of quartz discharge tube in Ne, Ar and Xe, measuring integral energy flux

02 p0290 A71-12191

Upper stratosphere and mesosphere concentrations of Ne, Ar, and Kr from rocket-borne cryogenic air sampler

02 p0246 A71-12701

Primordial trapped planetary noble gases and solar isotopic ratios in separated meteoritic minerals from Orgueil carbonaceous chondrite

02 p0318 A71-12901

Pitts iron meteorite exposure history, noting consistency of rare gases isotopes contents in separated metal phase with prehistoric radiation flux increase

03 p0487 A71-13334

Transonic flow equations for chemically inert gases binary mixture, considering diffusion effect on dissipative process

03 p0401 A71-13906

He, Ne, Ar and Xe from stepwise heating of Apollo 12 lunar rock 12013, discussing radiogenic and spallation components and He 3 and Ne 21 cosmic ray exposure ages

03 p0494 A71-14224

Ne, Ar, Kr and Xe ionized states transition and level lifetimes from photographically recorded beam foil spectra, discussing particle energies

04 p0629 A71-14805

Human alveolar-arterial oxygen pressure differences, investigating inert gas effects

04 p0540 A71-15576

Charged particles-noble gases interactions with resultant vacuum UV radiation, considering conservation of energy principle and Jesse effect

04 p0630 A71-15652

High pressure rare gas UV emission spectra, examining wavelength cut-offs and flux ratios

04 p0549 A71-15691

Inert gas welding of Al with He as oxidation inhibitor, discussing penetration, welding rate and cost compared to Ar use

04 p0604 A71-15815

Rare gases interaction with focused multimode Q switched laser beam, measuring orders of nonlinearity and multiphoton ionization probabilities

05 p0761 A71-16335

Operational characteristics, spectroscopy and inversion mechanisms of noble gas ion lasers in light of plasma theories and atomic data [AIAA PAPER 70-82]

05 p0763 A71-16551

Spacecraft cabin rare gas-oxygen atmosphere decompression effects on animal metabolic rates

06 p0853 A71-17956

Molybdenum disulfide treated graphite brushes in electric contact with copper slip rings at high rates in dry pure inert gas atmospheres

07 p1120 A71-20275

Nitrogen molecule collision with metastable inert gas atoms and ions, investigating energy exchange mechanism

08 p1337 A71-20670

Superheavy elements formation due to fast neutron capture during supernova outbursts, discussing meteorites fission produced noble gases

08 p1337 A71-20959

Cosmic ray spallation products and radiation age determination from spectral analysis of noble gas components in lunar rocks

11 p1829 A71-25837

Solar wind noble gas composition on moon with aluminum foil exposure, confirming absence of lunar atmosphere and magnetic field

11 p1834 A71-26330

Formaldehyde vapor photodecomposition modes by end product analysis, utilizing mixed isotope, radical scavenger, inert gas pressurization and lamp intensity attenuation

12 p1877 A71-27758

Energy dependence of integral scattering cross sections of noble gas atoms in carbon dioxide

13 p2102 A71-27809

Linear nonequilibrium shock tunnel driven supersonic MHD generator operation under large scale power extraction and strong electromagnetic-rare gas interactions

14 p2287 A71-29879

Performance tests of electron bombardment ion thruster, using xenon, krypton argon, neon, nitrogen, helium and carbon dioxide

14 p2287 A71-29922

Neodymium glass laser free generation power with inert gas filled emission sources

14 p2254 A71-30274

Inert gases, hydrogen, deuterium and carbon dioxide flow in plane parallel glass slots over various Knudsen numbers, calculating slippage constants and volumetric discharge

14 p2227 A71-30673

Ti alloys inert gas shielded welding, determining relationship between welding current, electrode feed rate and electrode wire protruding length and diameter

15 p2413 A71-31219

Resonant charge transfer cross sections in inert rarefied gases from atomic screening parameters, considering positive charge conductivity of ionized dense gases

15 p2452 A71-31825

Three-phase plasmatrons with hot W electrodes for obtaining plasma of inert gases, nitrogen and hydrogen

15 p2457 A71-32267

Coaxial type MHD generator with steady magnetic field and plasma consisting of inert gases and ionizable alkali metal additives, obtaining electrical conductivity

- Kinetic equation for rarefied polyatomic gases derived from Liouville equation 02 p0286 A71-11883
- Rarefied gas linearized Poiseuille flow between parallel plates, using variational methods for Boltzmann equation 03 p0398 A71-13102
- Rarefied gas flow through long square tubes, solving continuum differential equation with nonequilibrium slip boundary conditions [ASME PAPER 70-WA/PID-1] 03 p0402 A71-14098
- Rarefied gas low speed slip flow over wedge, solving for velocity profiles and skin friction [ASME PAPER 70-WA/APM-26] 03 p0344 A71-14158
- Hypersonic rarefied nitrogen flow over wedge, investigating density field 04 p0570 A71-15033
- Binary gas mixture rarefied hypersonic flow structure near blunt body, investigating diffusive effects on recovery temperature dependence 04 p0528 A71-15488
- Monte Carlo simulation for studying rarefied hypersonic gas flow about slender cones and flat plates [AIAA PAPER 69-651] 05 p0694 A71-16562
- Rarefied gas Couette flow between concentric cylinders and heat transfer from wire to external cylinder, applying momentum method 05 p0736 A71-16723
- Thermal creep velocity in rarefied gas over infinite plane wall, using linearized Boltzmann-Krook equation 07 p1084 A71-18746
- Rarefied gas flow and heat transfer in plane Couette flow using Bhatnagar-Gross-Krook model with ellipsoidal distribution 07 p1224 A71-20024
- Finite element solution of plane Poiseuille rarefied gas flow between parallel infinite plates 07 p1093 A71-20284
- Linearized Boltzmann equation analytic solutions for rarefied gas dynamic problems, using ellipsoid model 07 p1093 A71-20285
- Rarefied gas steady and unsteady motions, proposing approximate method for various problems 09 p1382 A71-22372
- Rarefied gas flow density and velocity by total head and flow rate adapters, noting isentropic flow core region 09 p1382 A71-22728
- Rarefied gas thermal creep flow between parallel plates, using Boltzmann equation relaxation model for all Knudsen numbers 09 p1433 A71-23055
- Rarefied gas flow along boundary wall with temperature gradient, determining thermal creep and temperature slip effects 09 p1547 A71-23167
- Uniform magnetic field effect on rarefied gas slip flow over porous flat plate for skin friction response, using velocity and temperature fields equations 10 p1649 A71-24407
- Transport phenomena in rarefied gases, discussing sound dispersion in helium, weak shock waves, acoustic propagation in monatomic gases and kinetics in alternating fields 12 p1930 A71-27189
- Molecular collisional analysis of normal momentum transfer from flowing rarefied gas to monocrystalline surface 12 p1934 A71-27588
- Rarefied hypersonic flow in blunt body bow region, measuring density and rotational temperature fields by electron beam method 13 p1989 A71-27841
- Viscosity effect on initial highly underexpanded jets in Mach 1 to 5.7 nozzles for laminar, turbulent and rarefied air flows 13 p1989 A71-27889
- Dimensionless strength characteristics of convex bodies vs angles of attack in rarefied gas flows by linear regressive analysis using statistical model 13 p1991 A71-29147
- Weakly rarefied gas flow past bodies of various geometry, deriving equations of motion with approximate macroscopic integrodifferential equations 13 p1991 A71-29148
- Boundary conditions formulation for energy and mass transfer in weakly rarefied gas flows past bodies 13 p1991 A71-29149
- Closed system of macroequations for mass and energy conservation along symmetry axis of steady rarefied supersonic gas flow in front of blunt body 13 p1991 A71-29151
- Steady hypersonic nearly free molecular rarefied gas flow about convex body, applying kinetic operator 13 p1991 A71-29152
- Heat transfer on spheres and sharp cones in rarefied hypersonic gas flow at zero angles of attack in wind tunnel vacuum 13 p1992 A71-29176
- Compressible rarefied gas Couette flow over plane wall, calculating mean free path with Boltzmann equation relaxation model 13 p2051 A71-29357
- Boltzmann equation applicability to rarefied multatomic gases if distribution function is identical with integral of free molecular motion 14 p2276 A71-29561
- Method of characteristics application to steady rarefied gas flow from spherical source or sink 14 p2225 A71-30214
- Rarefied gas Poiseuille flow in parallel plates, cylindrical tube and annulus geometries, deriving subsonic flow velocity profiles by third order constitutive relations 14 p2227 A71-30574
- Hypersonic flow of dust containing gases at low density for distribution accuracy of cosmic dust collection by sounding rockets 15 p2387 A71-31171
- Conical converging nozzle flow of perfect monatomic gas in rarefied near continuum, transition and near free molecular regimes, using finite difference methods 15 p2390 A71-32045
- Colliding supersonic rarefied argon-helium jet flows diffusive separation in low density wind tunnel with electron beam diagnostics apparatus 16 p2554 A71-32800
- Nonlinear heat transfer in plane rarefied isothermal Couette gas flow, using BGK model 16 p2561 A71-34143
- Laminar convective heat transfer rates on hemisphere cylinder in rarefied hypersonic flow, comparing experimental results with Cheng, Davis and Lees theories 17 p2671 A71-34902
- Linearized Boltzmann equation solution for rarefied gas dynamics, discussing analytical, variational and numerical methods 17 p2784 A71-35572
- Rarefied gas dynamic models with velocity dependent collision frequencies, investigating linearized Boltzmann equations 17 p2729 A71-35573
- Inclined wedges in rarefied hypersonic flow conditions, investigating base and wake pattern geometrical and aerodynamic characteristics 18 p2849 A71-36756
- Rarefied gas flow characteristics through pipe orifice in intermediate range of rarefaction between free molecular flow and continuum flow 18 p2849 A71-37023
- Subliming nuclear microthruster design with Monte Carlo study of rarefied gas nozzle flow, noting application to spin stabilization 19 p3103 A71-38351
- Variable suction effects on two dimensional fluctuating slip flow of incompressible rarefied gas past infinite flat plate 20 p3211 A71-39466
- Viscosity effect on initial part of highly underexpanded jets in Mach 1 to 5.7 nozzles for laminar, turbulent and rarefied air flows 21 p3317 A71-40079
- Direct local density gradient measurement in rarefied free jet flow using electron beam deflection signal processed with lock-in amplifier 21 p3364 A71-40394
- Pitot tube interaction with subsonic rarefied gas flow, considering impact pressure 21 p3323 A71-40695
- Hydrodynamic equations for dense system fluctuations with stochastic terms in pressure tensor and heat flux vector evaluated for dilute gas 22 p3530 A71-41893
- Ion anemometer for measuring wind velocity magnitude and direction in rarefied Martian atmosphere 22 p3600 A71-41960
- Obstruction effects in rarefied gas flow through cylindrical ducts by numerical analysis, considering specular reflection, adsorption, absorption and finite molecular mean free path 22 p3531 A71-42343

RAREFIED GASES

- Distribution function integral representation application to steady motion of monocomponent rarefied gas containing amorphous particles, using successive approximation for kinetic equation solution 22 p3482 A71-42868
- Two dimensional and three dimensional wakes in supersonic and hypersonic rarefied gas wind tunnels, comparing cone and dihedral configurations 23 p3625 A71-43357
- Kinetic equations derivation for rarefied chemically reacting monatomic or stable molecular gases 23 p3707 A71-43924
- Flat face cylinders in rarefied supersonic gas flow, investigating perturbed region evolution 24 p3790 A71-45096

RAREFIED GASES

- NT COSMIC GASES
- NT INTERPLANETARY GAS
- NT INTERSTELLAR GAS
- Heat transfer between rarefied monatomic gas and porous wall, examining temperature jump with model kinetic equation for Knudsen layer 01 p0179 A71-10612

- Rotational temperature and density measurements in rarefied flow over sharp leading edge flat plate, obtaining shock layer static pressure 01 p0082 A71-10955

- Human gas metabolism under rarefied atmosphere via gas chromatography, discussing pulmonary ventilation determination and exhaled samples collection equipment 01 p0025 A71-11142

- Nonlinear heat transfer in rarefied gas between concentric cylinders, using modified discrete ordinate method based on BGK model equation 01 p0182 A71-11405

- Magnesium particle combustion in rarefied air at various pressures 01 p0182 A71-11444

- One dimensional steady heat transfer in rarefied gas between infinite parallel laws, using Boltzmann kinetic equation 03 p0462 A71-14570

- Be star rarefied gaseous envelopes emitting or absorbing region size determination, noting application to other rotating stellar systems 04 p0659 A71-15843

- Low density monatomic gases mixtures multicomponent thermal diffusion coefficients, demonstrating for heat conductivity and dissociated air equations 06 p0929 A71-18072

- Rarefied monatomic gas flow in axisymmetric jet exhaust into vacuum, noting expansion to low densities at thermodynamic nonequilibrium 07 p1090 A71-19894

- Density distribution, heat transfer and drag measurements in rarefied Ar cylindrical Couette flow, comparing results with Navier-Stokes and Burnett equations solutions 07 p1093 A71-20286

- Collision free ionizing wave propagation into cold low density unionized gas, showing wave oscillations damping due to ion velocities phase mixing 07 p1171 A71-20289

- Heat transfer in rarefied gases, discussing applicability of molecular-kinetic gas theory 09 p1544 A71-22287

- Rarefied gases heat transfer and density distribution between parallel plates at different temperatures 09 p1432 A71-22854

- Laboratory simulation of solid primordial condensation from low density partially excited gas for solar system origin 10 p1673 A71-24413

- Very weak magnetic field measurements by highly rarefied gases as sensors 10 p1642 A71-24697

- Large angle Rayleigh light scattering for density fluctuations determination in dilute gases with wavelength comparable to mean free path 10 p1642 A71-24835

- Amorphous particle rarefied gas in bounded volume, analyzing kinetic equation existence and uniqueness 13 p2103 A71-29146

- Heat flux between parallel plates in rarefied gas at various temperature ratios and Knudsen numbers, using Monte Carlo method 13 p2165 A71-29226

- German monograph on time dependent gas temperature in decaying plasmas, using frequencies of standing acoustic wave stimulated by pulsed discharges in rarefied gases 13 p2110 A71-29423

- Heat transfer in rarefied gases, considering gas at rest between flat plates, concentric spheres and cylinders and flowing through tubes, nozzles and between parallel plates 14 p2336 A71-30242

- Quantum-theoretical transport equation for dilute gases with internal degrees of freedom, generalizing for arbitrary spacing between internal energy levels 14 p2275 A71-30449

- Alkali metal, alkaline earth metal nitrates and sodium perchlorate mixed with powdered magnesium burned in rarefied air 14 p2338 A71-30616

- Heat transfer through stationary monatomic rarefied gas in annular space between coaxial cylinders, using two-flow Maxwellian function for approximate molecular velocity distribution 16 p2661 A71-32832

- Thermal equilibrium achievement by highly rarefied gas in closed container with space and time varying surface temperature, deriving gas particle distribution 17 p2784 A71-34195

- Temperature measurement by electron beam, using rarefied gas probing for determination of molecule distribution at various vibrational and rotational levels [ONERA-TP-960] 18 p2915 A71-36026

- Rarefied hypersonic flow density, velocity and temperature determination by electron beam technology, including ion production, calibration curves, collisions and spectroscopic analysis 18 p2949 A71-36419

- Moment and heat transfer coefficients for disks rotating in rarefied environment, noting transport characteristics decrease with increasing rarefaction 19 p3161 A71-37292

- Sealing coefficient and leakage performance model for multiple thread rarefied gas viscoelastic 20 p3241 A71-39801

- Transport properties of low density gas of rotating diatomic molecules, deriving quantum mechanical expression for relaxation time via restricted distorted wave approximation method 23 p3706 A71-42908

- Chaos propagation derivation from Boltzmann equation for dilute gas with intermolecular forces and collisions in pairs 23 p3705 A71-43873

- Heat conduction of rarefied air and argon in annuli between coaxial cylinders 23 p3783 A71-44068

- Current-optical effects of anisotropic absorption of polarized and unpolarized light in rarefied cosmic media 24 p3860 A71-45106

RAREFIED PLASMAS

- Nonlinear electrostatic vibrations in colliding antiparallel flows of rarefied plasma 02 p0289 A71-11928

- One dimensional unsteady barotropic fluid flow based on Euler equations, describing rarefied plasma nonlinear motions 03 p0462 A71-13289

- Microwave interferometer for low density electron laboratory plasmas 03 p0428 A71-13926

- Supersonic flow of rarefied plasma around plane bodies, allowing for electric field effect on ion motion 06 p0842 A71-18252

- Far wake asymptotic structure in rarefied plasma flow past charged bodies 07 p1165 A71-18878

- Rarefied plasma disturbances produced by large slowly moving charged spherical body, deriving electric field, ion and electron concentrations in body vicinity 07 p1195 A71-19380

- Low density plasma flow past bodies, measuring disturbed zone velocity, density and temperature distributions by Langmuir probes 07 p1173 A71-20528

- One dimensional unsteady barotropic fluid flow based on Euler equations, describing rarefied plasma nonlinear motions 09 p1504 A71-23265

- Flute oscillations stability in low density plasma within strong magnetic field of mirror geometry, calculating unstable oscillation spectrum by Galerkin method 10 p1650 A71-24526

- Numerical solution for planar ion sheath growth in low pressure plasma, calculating transient sheath thickness resulting from application of specific voltage waveforms 10 p1652 A71-24659

- Potential and nonpotential equation for Alfvén waves and ion cyclotron oscillations in low density nonisothermal plasma 12 p1936 A71-27035

- Bounded low pressure plasma oscillation frequency dependence on discharge chamber length, constant/variable potentials longitudinal profiles and density distribution 12 p1936 A71-27037

- Rarefied collisionless plasma, obtaining hydrodynamic equations for magnetic viscosity and thermal conductivity 13 p2106 A71-28564

- Metallic body motion in strongly rarefied plasma, determining compensating surface current distribution 13 p1991 A71-29158

- Electric field potential near sphere moving through rarefied collisionless plasma in condensation zone, determining ion and electron concentrations 13 p1991 A71-29159

- German monograph on drift waves in plasma with density gradient covering LF electrostatic disturbances in low density plasma 14 p2277 A71-29581

- Heterogeneous fluid flow-chemical processes interaction in low density plasma flow two phase boundary layer seeding, using physicochemical model 14 p2279 A71-29878

- Upper F region transpolar plasma distribution from Alouette 1 data, relating results to satellite measurements of magnetospheric low energy charged particles 14 p2234 A71-30041

- High beta diffuse plasma pinch configurations, deriving stability requirement hydromagnetic energy principle 14 p2281 A71-30540

- Ion-acoustic oscillations excitation in rarefied plasma layers confined by external high frequency TE wave electromagnetic field 14 p2281 A71-30555

- Ion cyclotron harmonic waves development in simulated low density and temperature space plasma, determining propagation upper and lower bounds 15 p2460 A71-32448

- Low density collisionally ionized plasma at equilibrium, calculating permitted, forbidden and semiforbidden radiative cooling coefficients 15 p2460 A71-32776

- Low density plasma in magnetic field, investigating existence possibilities of stationary isothermal jump and plane wave periodic solution 16 p2618 A71-33044

- Low density plasma diagnostics using Thomson scattering of laser light 16 p2618 A71-33161

- Rarefied plasma flow generation by Q-switched laser pulse focusing on solid target, measuring plasma properties with Langmuir probes and microwave interferometers 16 p2586 A71-33162

- Rarefied plasma disturbances produced by large slowly moving charged spherical body, deriving electric field, ion and electron concentrations in body vicinity 19 p3138 A71-37805

- Wavefront overturning in rarefied quasi-neutral plasma, investigating kinetic equations self similar solutions stability 19 p3114 A71-37859

- Electron distribution functions construction from spectrum of laser light Thomson scattering by rarefied plasma 19 p3074 A71-38215

- Electron beam for determining plasma potential and charge density as function of radius of inertially confined tenuous plasma cylinder 20 p3273 A71-39009

- Low density collisionless plasma stabilization in ion-accelerating external DC electric field 21 p3426 A71-41293

- Electron plasma waves and free streaming bursts response to fast rising voltage step in low density cylindrical plasma in strong magnetic field 22 p3582 A71-41899

- Wave phenomena in space chamber rarefied plasma, clarifying spontaneously excited noise wave properties by passive experiment 23 p3710 A71-43365

- Local thermodynamic equilibrium deviation theory and application in low density Ar plasma, noting difference in Langmuir probe and spectroscopic electron temperature measurements 23 p3714 A71-44154

- Rarefied theta pinch plasma collective interactions, examining kinetic instability, electron energy distribution, anisotropy, suprathermal microwave emission, cyclotron harmonics and oscillations 24 p3854 A71-44513

- Inhomogeneous rarefied plasma, investigating nonlocal, linear and nonlinear effects on electromagnetic wave reflection and transmission 24 p3857 A71-45117

RATINGS
 Aircraft handling rating scales efficiency, noting difficulty in understanding and interpreting pilot opinion 12 p1875 A71-27253

RATIOMETERS
 Fuel cell system steam/hydrogen mixture mass ratio detector using fluidic delay line oscillator 17 p2745 A71-35294

RATIONAL FUNCTIONS
 Microwave circuits and components design using generalized rational function approximation in finite intervals with Zolotarev functions 08 p1252 A71-20757
 Algebraic criterion for positive realness of rational functions, using Routh algorithm 09 p1486 A71-23651
 Stationary covariance generation of matrix of rational functions of complex variable, solving factorization equation via algebraic Riccati equation 20 p3207 A71-38990
 Algorithm for rational function incomplete decomposition into partial fractions 20 p3255 A71-39490

 Modular ratios effect on structural composites, predicting property values from structural measurements 01 p0103 A71-11276

RATS
 Combined glucose-sodium chloride solution consumption by rats during normal and food deprivation conditions 02 p0201 A71-12874
 Emotionally induced osmotic pressure and thirst increase of rats during stress, noting eating behavior 02 p0201 A71-12875
 Microcathodes measurement of oxygen tension on arterioles external surface in hamster cheek pouch and hamster/rat cremaster muscle for blood flow regulation mechanism 03 p0363 A71-13487
 Reward magnitude effects on runway performance of rats with intertrial feeding 03 p0372 A71-13693
 Decaborane effects on amino acid metabolic patterns of various rat tissues, considering holoenzyme inactivation 05 p0706 A71-16294
 Prolonged water deprivation effects on hypothalamic self stimulation of rats with electrodes chronically implanted in posterior lateral hypothalamus 05 p0711 A71-17087
 Telemetric techniques for pharmacological effects of body temperature, motor activity and food and fluid intake on rat brain, describing recording and monitoring equipment 05 p0716 A71-17112
 Training effect on oxygen tension dynamics in rats brain cortex under progressive high altitude hypoxia conditions, noting adaptation influence on motor activity and survival rate 06 p0850 A71-17394
 Strain gage attachment to rat heart ventricle in situ with fine stainless steel pins 06 p0862 A71-18391
 Control and prolonged exercised rats adrenal and plasma catecholamine, corticosterone and epinephrine level comparisons using fluorometric analysis 07 p1044 A71-20330
 L-dopa multiinjection timed effects on rat brain norepinephrine metabolites concentrations, observing zero time control rated modifications 09 p1393 A71-22649
 Rats under various exercise programs, determining cardiac ventricle and gastrocnemius muscles calcium activated adenosine triphosphatase activities 09 p1400 A71-23361
 Thyroidectomized vitamin A deficient rats, noting visual sensitivity loss not correlated to thyroid 13 p2008 A71-28455
 Dark adapted albino rats behavioral assessment, measuring absolute visual thresholds to white and colored light 13 p2008 A71-28457
 Prolonged hypokinesia effect on rats serotonin [5-HT] metabolism, noting pronounced blood content deviation from normal during first to third and thirteenth to fifteenth day 20 p3187 A71-39218
 Myocardium reactions under 2G acceleration from histological, histochemical and electron microscopic observations on rats, noting dystrophic damage level relationship to duration 20 p3189 A71-39235

RAWINSONDES
 Rawinsonde reported extreme wind speed in arctic stratosphere at SST altitudes 05 p0777 A71-16700
 Rawin system performance and technical features, describing radio direction finder design, operation, capabilities and carrier balloons 08 p1330 A71-21741
 Nimbus 3 and 4 satellite observation data comparison with sounding rocket and rawinsondes based on temperature as function of pressure measurements 16 p2572 A71-33846

RAY TRACING
 Ray tracing in warm collisionless magnetoplasmas based on wave dispersion relation, discussing satellite communication 01 p0137 A71-11612
 Ionospheric and tropospheric effects on differential phase path in very long baseline interferometry, using ray tracing computer program 02 p0251 A71-12331
 Artificial satellite HF radio wave ionospheric guided propagation, considering ray tracing based on geometric-optics treatment 05 p0720 A71-16229

Complex rays for electromagnetic field construction, considering application to Gaussian laser beams 05 p0763 A71-16905
 Ray tracing near reflection level in ionosphere, considering magnetic field effect 06 p0927 A71-17687
 Radio ray tracing in complex space, describing plane stratified ionosphere 09 p1411 A71-23731
 Venus atmosphere critical refraction model, examining optical effects and ray paths 11 p1823 A71-25696
 Particle collisions effects on whistler ray paths, considering penetration through lower boundary of ionosphere 14 p2193 A71-29917
 Ray trace equations for conic surfaces, noting application in computer programs for unusual systems 17 p2768 A71-35592
 Book on electron optics covering image formation principles, field plotting and ray tracing analog and computational methods, electrostatic and magnetic lenses, etc 19 p3103 A71-37522
 Intensity and polarization for meteorological spherical and nonspherical particle size parameters, comparing exact Mie scattering and ray optics 23 p3704 A71-43337
 Human eye theoretical model with aspherical cornea front and lens back surfaces, computing astigmatism, coma, meridional and sagittal focal lengths by ray tracing method 24 p3798 A71-44978

RAYLEIGH DISTRIBUTION
 Area distributed incidental radio noise voltage envelope distribution functions conversion to Rayleigh distribution with range frequency relationships 01 p0037 A71-11165
 Symmetric operators family spectrum with generalized Rayleigh functional, showing analogy between linear and nonlinear theory at infinite spatial dimension 18 p2942 A71-36821
 Bayesian learning algorithm derivation for statistically optimum adaptive gain control in Rayleigh-distributed signal reception 20 p3206 A71-38874

RAYLEIGH EQUATIONS
 Rayleigh, baroclinic and Rossby waves instabilities effects on stellar structure during differential rotation 03 p0486 A71-13322
 Periodic solutions for strongly nonlinear differential system of n-coupled nonautonomous equations of Lienard and Rayleigh types 17 p2766 A71-34925

RAYLEIGH NUMBER
 Critical Rayleigh numbers for natural convection of water confined in square cells, noting heat transfer modes [ASME PAPER 70-WA/HT-7] 13 p2164 A71-28981
 Stability of governing parameters critical values /Taylor, Rayleigh or Reynolds numbers/ and periodic solutions in fluid mechanics 16 p2558 A71-33002

RAYLEIGH SCATTERING
 Light scattering geometry from infinite cylinder shown consistent with Rayleigh-Gans formalism 03 p0425 A71-13647
 Mars and Mercury polarization measurements, investigating Rayleigh scattering in atmospheres 05 p0806 A71-16204
 Relaxation theory of Rayleigh scattering of light by isotropic continuous medium, deriving spectral densities via fluctuation dissipation theorem 06 p0927 A71-17596
 Stimulated thermal Rayleigh scattering with picosecond pulses, discussing contributory processes 07 p1164 A71-19779
 Rayleigh-Brillouin light scattering in compressed hydrogen, hydrogen deuteride and deuterium, noting discrepancy between observed and theoretical spectra 08 p1301 A71-20743
 Daytime near horizon atmospheric luminescence measurement by Cosmos 224 satellite, discussing contributions of nitrogen and aerosol and Rayleigh scatterings 09 p1435 A71-22432
 Large angle Rayleigh light scattering for density fluctuations determination in dilute gases with wavelength comparable to mean free path 10 p1642 A71-24835
 Stimulated Mandelstam-Brillouin, Rayleigh line wing and thermal light scattering, discussing fine structure, glass fracture and components shift 10 p1621 A71-24837
 Tables of scattering functions and albedo for semiinfinite atmospheres according to nonconservative Rayleigh phase matrix for diffuse radiation computation 14 p2274 A71-30059
 Radar target detection in nonGaussian sea clutter, calculating trimmed-mean detector performance under Rayleigh fluctuation 14 p2197 A71-30805

RAYLEIGH WAVES

- Semiinfinite atmospheric multiple conservative Rayleigh scattering, describing polarized radiation transfer 15 p2449 A71-31333
- Rayleigh scattering planetary atmosphere radiative transfer equation, calculating phase curves for flux and polarization 15 p2498 A71-32778
- Polarized light multiple scattering in homogeneous plane parallel planetary atmospheres, considering Rayleigh scattering, test models and phase function obtained by neglecting polarization 16 p2632 A71-33320
- Lasers as light sources, discussing Rayleigh, Tyndall, Raman and Thomson scatterings from various media 16 p2612 A71-33373
- German monograph on ozone determination from sky radiance, considering Rayleigh and Mie scattering 17 p2733 A71-34794
- Light wave Rayleigh interferometer for concentration gradient measurements in liquid systems with mass transport 18 p2917 A71-36052
- Rayleigh scattering by obliquely oriented uniform thin cylindrical particles /needles/, using dielectric needle approximation 20 p3196 A71-39406
- Semiinfinite atmospheric multiple conservative Rayleigh scattering, describing polarized radiation transfer 22 p3576 A71-42608
- Resonance scattering laser radar for atmospheric pollution detection, discussing Rayleigh and Mie scattered light suppression 24 p3803 A71-44570
- RAYLEIGH WAVES**
- Rayleigh wave propagation in stochastically inhomogeneous elastic medium 01 p0169 A71-10637
- Interdigital Rayleigh wave transducer on piezoelectric ceramics with comb-to-comb polarization 01 p0055 A71-11174
- Mechanical characteristics of generalized Rayleigh waves in piezosemiconductors of cubic symmetry, deriving amplification and damping factors for zero diffusion coefficient 02 p0294 A71-11894
- Stimulated light scattering by capillary waves on incompressible fluid surface or by Rayleigh waves on surface of isotropic solid body with small opticoelastic moduli 02 p0285 A71-12505
- Surface tension effect on dispersion of Rayleigh waves in elastic body 04 p0673 A71-15882
- Rayleigh wave propagation in anisotropic substrates, using light diffraction by surface acoustic waves 05 p0783 A71-17078
- Rayleigh and phase change instability for olivine-spinel mantle convection 07 p1105 A71-20450
- Equivalent electrical circuits of interdigital transducers for piezoelectric generation and detection of ultrasonic Rayleigh waves 09 p1420 A71-23680
- Surface layer-bulk body interaction and Rayleigh wave propagation in elastic solid, using two dimensional continuum theory 10 p1691 A71-24645
- Rayleigh wave propagation along edge of thin plate, calculating velocity dependence on frequency 12 p1929 A71-26929
- Equivalent circuit for interdigital piezoelectric Rayleigh wave transducer 13 p2037 A71-28472
- Automatic classification of targets characterized by radar returns at discrete set of frequencies in Rayleigh region and first resonance range 17 p2747 A71-35773
- Thermoelastic plane harmonic and Rayleigh surface waves in elastic solids with thermal relaxation, using Maxwell heat conduction equation 20 p3310 A71-39779
- Rayleigh wave reflection from crack tip after propagation along open crack faces in elastic solid, determining surface wave energy loss 21 p3468 A71-41003
- Frequency dependence of Rayleigh wave propagation velocity along rough surfaces, based on smooth surface mass loading 23 p3703 A71-43203
- Acoustoelectrical current oscillations in GaAs films at low temperature under ultrasonic Rayleigh wave amplification 23 p3716 A71-43477
- RAYLEIGH-RITZ METHOD**
- Rectangular and circular thin orthotropic plates thermal buckling approximate solution using Rayleigh-Ritz energy method 05 p0819 A71-15978
- Clamped-free and clamped-ring-stiffened cylindrical shells free vibrations analysis for digital computer

programming, using Rayleigh-Ritz technique for approximate solution 08 p1371 A71-21427

Nonlinear panel flutter analysis and response under random excitation or nonlinear aerodynamic loading, using Rayleigh-Ritz approximation to Hamilton variational principle 09 p1534 A71-22080

Combined finite element method and Rayleigh-Ritz procedure for geometrically nonlinear problems solution of elastic plates with arbitrary shape, boundary and load distribution 16 p2653 A71-33088

Inelastic buckling process of axially compressed cylindrical shells with edge constraints, using variational principle and Rayleigh-Ritz method 19 p3158 A71-38182

Pointwise bounds in Cauchy problem for fourth order quasi-linear equation using a priori inequality, applying Rayleigh-Ritz technique to elliptic partial differential equations 20 p3255 A71-39573

RAYON

Graphite fibers mechanical properties based on rayon and polyacrylonitrile, considering tensile, flexural, compressive and shear strength 11 p1784 A71-25398

Polyacrylonitrile and rayon precursor graphite fibers diameter relation to Young modulus and tensile strength 15 p2438 A71-31817

RUE

U RELATIVE BIOLOGICAL EFFECTIVENESS [RBE]

RC CIRCUITS

Active filters of triple layer rectangular-shaped distributed RC elements, calculating components geometric variation effect on frequency response 01 p0058 A71-10312

Active RC filters synthesis, using expanded denominator of given transfer function 02 p0230 A71-11839

RC active filter with lumped-distributed components, discussing system stability at transition region between extreme electrical lengths 04 p0560 A71-14744

Periodically reverse switched capacitor network theory, deriving equivalent resonant transfer circuit and expression for voltage transfer ratio 04 p0561 A71-15699

Frequency generators using RC /RL/ designs with odd selective quadrupole element numbers as converters 07 p1078 A71-20062

Transfer function synthesis by RC fluidic circuits, presenting transfer function element circuits analysis and experimental verification 07 p1026 A71-20570

Analog information systems frequency modulators, describing network design consisting of phase shifting RC network, amplifier and inertialess resistor 09 p1415 A71-22296

Optimum synthesis and design of distributed RC filter for oscillator feedback circuit, using calculus of variations 09 p1425 A71-23652

Noise analysis of microelectronic active RC filters by cascade of passive and active networks, considering low pass filter 10 p1582 A71-23915

Active RC network realization of third order low-pass Butterworth characteristic with all capacitors having same value 14 p2210 A71-29798

RC analog fluidic circuits design for arbitrary transfer functions generation 15 p2351 A71-31682

Solid state RC network for single sideband frequency converter using phase difference carrier suppression 19 p3022 A71-38497

Dual input null networks application in RC feedback oscillators, examining frequency stability 20 p3206 A71-39915

Distributed RC network application as microelectronic delay line, discussing delay response improvement by compensating network 21 p3353 A71-40589

Distributed active RC filters design for low pass, bandpass and biquadratic network functions, including charts for element values determination 21 p3360 A71-40809

Tapered distributed RC low pass network configuration with voltage-controlled sources for sensitivity reduction low and high Q factors 21 p3361 A71-41409

Pulse trains of minimum spectral width generated from rectangular pulses by RC elements coupled without feedback 22 p3521 A71-42248

Regenerative nonlinear RC amplifier oscillations due to series opposed varicap diode capacitance 24 p3810 A71-45261

RC NETWORKS

U RC CIRCUITS

RCA SPECTRA 70 COMPUTER

Illiac 4 and Spectra 70 computers comparison in terms of logic circuit noise immunity and system noise sources 03 p0388 A71-13179

REACTANCE

Parasitic reactances in Gunn effect device packages from microwave equivalent circuit parameters 07 p1072 A71-19104

Movable metal iris with nearly frequency independent susceptance, relating characteristics to centered capacitive obstacle in waveguide 24 p3809 A71-45095

REACTION CONTROL

Proteins hydrolysis, investigating temperature effect on reaction, determining optimum conditions for maximum amino acids yields 11 p1728 A71-26066

Homogeneous fuel combustors with multistage reaction rate controlled system, determining linear relationships and heat release 21 p3437 A71-41049

REACTION JET ATTITUDE CONTROL

U ATTITUDE CONTROL

U JET THRUST

REACTION JETS

U JET FLOW

U JET THRUST

REACTION KINETICS

Photodissociation produced O/P3/ atoms detection and reaction rate measurements by resonance fluorescence scattering 01 p0130 A71-10369

Pyrolyzing vinyl polymers thermal degradation kinetics, deriving surface regression rates relationship to temperature 01 p0109 A71-10935

Book on fuel cells covering types, applications, thermodynamics, chemical reactions, direct electrical generation, etc 01 p0006 A71-11192

Oxygen uptake kinetics in human submaximal exercise during work load transitions and work-rest cycle 02 p0202 A71-11663

Mass transfer and Biot diffusion in MHD flows with mixed boundary reaction kinetics, considering Hartmann and plate problems 02 p0293 A71-12632

Spherical hydrogen-oxygen diffusion flame structure, discussing combustion processes chemical kinetics 02 p0210 A71-12856

Carbon kinetic isotope fractionation into carbon dioxide and organic compounds in meteorite-like Fischer-Tropsch reaction with nickel-iron or magnetic catalyst 03 p0483 A71-13013

Heterogeneous kinetics at elevated temperatures - Conference, Philadelphia, September 1969 03 p0374 A71-13121

Surface oxidation kinetics of iron by solid electrolyte techniques, comparing weight gain method 03 p0374 A71-13122

High melting point metal systems with nitrogen or oxygen, discussing engassing and degassing reactions kinetics and thermodynamic equilibrium 03 p0442 A71-13362

Atomic oxygen-nitrogen shock tube endothermic reaction under high translational and low vibrational energy, noting ozone loss 03 p0375 A71-13493

Hydrogen-oxygen induction period kinetics behind shock waves, monitoring OH concentration by UV line absorption method 03 p0376 A71-14276

Hydrogen-sensitized decomposition of hydrogen peroxide, taking oxygen inhibiting effect into account 03 p0376 A71-14277

Hydrogen peroxide decomposition acceleration by carbon monoxide, discussing reaction mechanisms and rate coefficients 03 p0376 A71-14280

Shock tube spectroscopic and reaction kinetic research, considering studies before LTE 04 p0547 A71-14692

IR radiation measurement of chain branching rates in hydrogen-oxygen mixtures ignited by reflected shock waves 04 p0548 A71-14695

Rate constant measurement for atomic hydrogen reaction with carbon dioxide yielding OH and CO, considering near IR emission spectroscopy applicability 04 p0548 A71-14697

Presulfidized Ni alloys and Cr oxidation rates 04 p0615 A71-15787

Stainless steel deoxidation by carbon in laboratory scale vacuum induction melting, explaining reaction kinetics 05 p0758 A71-16246

Detonation front at Chapman-Jouguet velocity demonstration by numerical transient flow calculations 05 p0834 A71-16510

Detonation wave with finite reaction velocity interaction with rarefaction wave from behind, noting oscillations development associated with attenuation 05 p0834 A71-16511

Hydrogen-oxygen reaction kinetics behind steady state shock waves under isothermal branched chain explosion limits 05 p0834 A71-16513

Gas dynamic processes effects on hydrogen-oxygen explosion chemical kinetics, calculating ignition delays under steady conditions behind plane reflected shock waves 05 p0716 A71-16514

Two-phase detonations, discussing importance of stripping mechanism and droplets deformation in reaction zone fuel consumption 05 p0834 A71-16515

Cr and Ti ionization rates, CO and NO reaction kinetics and decomposition products in shock tubes 05 p0716 A71-16521

Single pulse shock tube in high temperature chemical reaction kinetics, considering shock reflection theory 05 p0836 A71-16527

Chemiluminescent NO-O reaction spectral radiant intensity and absolute rate constant redetermination in premixed gaseous free jet and hydrogen flame atmosphere 05 p0837 A71-16568

High temperature diffusion controlled transient creep, considering unimolecular reaction kinetics stress and temperature dependence 05 p0830 A71-17239

Single layer graphite oxidation kinetics evaluated by electron microscopy, discussing removal rate 06 p0915 A71-17302

Hypersonic ramjet reaction mechanisms for H combustion, discussing computational models, operation principles and atomic, radical and molecular collisions 06 p0865 A71-17410

One dimensional kinetic calculations for hydrogen fluorine rocket nozzles compared to firing data, discussing Cl addition effect on performance [WSS/CI PAPER 70-21] 06 p0943 A71-17656

Acetylene pyrolysis kinetics, considering isothermal vs adiabatic conditions and surface catalyzed vs homogeneous gaseous [WSS/CI PAPER 70-18] 06 p0943 A71-17660

Indeterminacy interval reduction for ionospheric reaction rate constants by imposing supplementary condition on NO/oxygen molecular ion concentrations ratio 06 p0894 A71-18259

Cellulose, explosives and propellants thermal surface ignition, using heat transport and chemical kinetic equations 06 p0944 A71-18298

Chemical reaction kinetics optimal problem numerical solution based on Pontryagin maximum principle and gradient method 07 p1147 A71-19185

Interstitial solid solution hardening in pure Ni and Ni-C alloys, noting mechanism and C concentration effects 07 p1138 A71-19980

Co oxidation rate measurements over temperature range 475-1325 C at various oxygen pressures, determining oxide formation kinetic law and activation energy 07 p1139 A71-20225

Rate constant for oxygen uptake exponential increase during low intensity exercise by algebraic solution 07 p1052 A71-20336

Vibrationally excited ground state hydroxyl in fast flow system, considering mean radiative lifetime and reaction rate with ozone 08 p1250 A71-20662

Chemical reaction rate microscopic reversibility, observing rotational vibrational and/or translational states dependence of products reactants 08 p1250 A71-20666

MnO oxidation reduction kinetics measurement in carbon monoxide/dioxide atmospheres by gravimetry and electrical conductivity 08 p1318 A71-20698

Bismuth oxide and iron oxide equimolar mixtures solid state reactions, determining rates from integrated X ray diffraction and activation energies 08 p1318 A71-20699

Zinc electrode kinetics noting exchange reactions, anodic behavior in alkaline solutions and capacitance 08 p1233 A71-21080

Silver oxide electrodes electrochemical reaction kinetics, examining oxidation, anodic formation and cathodic reduction 08 p1234 A71-21086

Structural and kinetics investigation of oxides formation in silver-argentous oxide-argentous oxide system, using electron microscopy and electron diffraction methods 08 p1234 A71-21087

Al electrodes in molten salt electrolytes, investigating electrochemical kinetics by polarization measurements [ECS PAPER 200] 08 p1250 A71-21470

Papers on polymers thermal stability, Volume 1, covering molecular structure, reaction kinetics, scission, thermosetting resins, etc 08 p1323 A71-21474

Recombination frequency spectrum asymmetry in interaction between high and low frequency plasma oscillations, noting role of Doppler effect 08 p1340 A71-21495

Initial reaction rates of oxygen difluoride with diborane related to reactant concentration and temperature 09 p1510 A71-22071

Oxidation/vaporization kinetics of chromium oxide hot pressed and sintered pellets 09 p1480 A71-22113

Reaction dynamics for CO ion plus deuterium to yield COD ion plus D, noting polarization forces role 09 p1497 A71-22702

Molybdenite oxidation kinetics by thin layer technique with close temperature and gas composition control, measuring temperature, gas composition and particle size effects 09 p1472 A71-23128

Thoria containing Ni and Co base powders reduction in hydrogen atmosphere for precipitation hardened materials production, determining optimal thermodynamic and reaction kinetic factors 09 p1475 A71-23306

Equilibration rate of uncatalyzed carbon dioxide hydration reaction in open system at constant carbon dioxide partial pressure, examining buffering capacity effect 10 p1559 A71-23898

Ionization mechanisms for deviation of experimental altitude vs velocity curves of meteor trails, considering various electron and ion emissions and dissociation effects 10 p1669 A71-24032

Rate constant temperature dependence for ozone reaction with oxygen, considering airflow features due to singlet molecular oxygen 11 p1801 A71-25370

He-Zn ion laser, considering charge exchange and Penning collisions as primary excitation sources of Zn II levels 11 p1773 A71-25927

Nylon-phenolic composites pyrolysis, deriving kinetic coefficients from thermogravimetric analysis at various heating rates 11 p1728 A71-26043

Kinetic and ionization phenomena in Q switched laser produced plasmas, considering gas dynamic plasma parameters /velocity, density distribution, pressure and temperature/ 11 p1806 A71-26086

Kinetic processes in shock tubes, considering diagnostic techniques for monitoring time histories nonequilibrium distributions preparations 11 p1745 A71-26264

Reacting gases atom concentration quantitative measurements with electron spin resonance, discussing microwave power, saturation and modulation amplitude effects 11 p1765 A71-26284

Ionospheric ion formation and neutralization reaction rate coefficients determination by fitting rocket measured electron concentration profiles with computer generated profiles 13 p2062 A71-28560

Nitric oxide formation kinetics in shock induced combustion processes, considering hydrogen-oxygen-nitrogen reaction 13 p2113 A71-28616

Reaction rate controlling mechanisms in shock wave initiated oxidation of formaldehyde 13 p2113 A71-28617

Group properties of laminar boundary layer equations for incompressible binary fluid under various magnetic field distributions and reaction rates 13 p2048 A71-28735

Respiratory gas reaction mechanism on potassium superoxide in closed circuit breathing apparatus 13 p2021 A71-29113

Three body ion-neutral association reactions of NO ions with oxygen, nitrogen and carbon dioxide, noting temperature effect on rate constant 13 p2026 A71-29507

Bromine dissociation rates in presence of He, Ne, Ar, Kr and Xe, determining rate constant expressions from light absorption measurements behind incident shock waves 13 p2027 A71-29508

Carbon/graphite cloth reinforced aromatic/heterocyclic resins ablative composites pyrolysis kinetics by computer code analysis 14 p2262 A71-29649

Heterogeneous fluid flow-chemical processes interaction in low density plasma flow two phase boundary layer seeding, using physicochemical model 14 p2279 A71-29878

Chemical kinetic calculation of nitric oxide formation in spark ignition automobile engines and gas turbine combustors 14 p2190 A71-30454

Methane high temperature oxidation in steady flow system, predicting change rate of species concentrations and gas properties during reaction 14 p2285 A71-30457

Thermal emission analysis method for studying phase transformations and chemical conversion kinetics in multicomponent systems, applying to liquid evaporation rate measurement 14 p2338 A71-30618

Modular concept mathematical model for combustion and pollution formation processes in jet engine combustors, including turbulent mixing and reaction kinetics [AIAA PAPER 71-714] 14 p2294 A71-30766

Thermal decomposition rates and explosion of dinitroxydiethyl nitramine from heat release measurements at various pressures 15 p2462 A71-31376

Unmixed gases burning at finite reaction rate, analyzing steady laminar flames developing in mixing zone of fuel semiinfinite flow past static oxidizer 15 p2511 A71-31379

Oxidation kinetics of pure Al in dry oxygen as function of pressure and temperature, using manometric method 15 p2426 A71-31408

Calorimetrically measured energy feedback heat of reaction dependence from laminar diffusion flames above water cooler [WSS/CI PAPER 71-11] 15 p2463 A71-31621

CIF diluted solutions in Ne, investigating thermal decomposition mechanism behind shock waves by mass spectroscopy 15 p2367 A71-31874

Nitrogen and sulfur dioxide reactions in isolation, determining rate by concentration measurements using light absorption technique 15 p2465 A71-32082

Stoichiometric hydrogen-carbon monoxide-oxygen mixtures detonation wave propagation at critical Mach number, noting explosion limit chemical kinetics role 15 p2465 A71-32088

Zirconium dioxide reactions with chromium, molybdenum and tungsten carbides, studying reaction products, phase composition, sintering temperatures and chemical separation 15 p2432 A71-32166

Nickel sponge preparation by liquid nickel sulfide reaction with NiO under reduced pressure at various temperatures 15 p2433 A71-32178

Oxidation kinetics and scale morphology of chromium oxide forming thoriated and unthoriated Ni alloys, discussing rate controlling processes effects 16 p2590 A71-32871

Shock tube investigation of cyanogen and CN molecule dissociation at high temperatures, considering kinetics of CN decomposition 16 p2538 A71-32891

Elementary reactions in hydrocarbon combustion, using shock tube as chemical reactor to determine rate of reaction in 1600 to 2100 K range 16 p2539 A71-32892

Laminar boundary layers effect on chemical-kinetic measurements in shock tube, applying correction by computer program for subsonic diffuser 16 p2555 A71-32893

Reaction kinetic studies using hydrodynamic flow structure due to spherical shock wave from laser induced spark 16 p2616 A71-32903

Thermal decomposition kinetics of nitrous oxide in shock tube, measuring IR emission behind reflected wave 16 p2539 A71-32910

Nonequilibrium plasma chemical reaction kinetics problems, discussing time dependence, dissociation and recombination theories in pulsed EM field, equations and numerical calculations 16 p2539 A71-32965

Soviet book on gas phase chemical reactions rate constants determination covering elementary processes kinetics empirical methods 17 p2694 A71-34522

Rhodopsin kinetics mathematical analysis by cyclic five-component model, applying to flash and extended photolysis in rat retina 17 p2680 A71-34653

Time dependent corrections to one component monatomic systems equilibrium rate of reactions and temperature change, using moment method for integrating nonlinear Boltzmann equation 17 p2785 A71-34945

Thermobalance for studying high temperature silicon-carbon reaction kinetics, incorporating HF current, coaxial shielding of electrical connections and electromagnet balance 17 p2838 A71-35475

REACTION TIME

Electric field effects on town gas and hydrocarbon flame reaction rate, burning velocity and propagation speed due to free electrons in flame front
17 p2840 A71-35704

Singular perturbation theory for finite rate chemical kinetics effect on regression rate of seminfinit flat fuel plate in gas oxidizer stream
17 p2792 A71-35796

Reaction rate of vibrationally excited hydroxyl with ozone, obtaining hydroxyl emission spectra by Fourier transform spectroscopy
18 p2874 A71-35836

Mo, W and Mo-W alloys chlorination kinetics, investigating temperature and pressure effects on reaction rate from electron micrographs
18 p2938 A71-37002

Helium-cadmium laser discharge, discussing possible He trapping mechanisms and improved tube design to eliminate He cleanup
18 p2933 A71-37013

Detonation processes in gases, considering Zelovich-Doering-Neumann model and reaction kinetics
19 p3162 A71-37457

Diatomic gas molecules three body recombination and dissociation rate coefficients from modified phase-space theory of reaction rates
19 p3107 A71-38078

Hydrogen-oxygen reaction sensitized by ammonia, comparing with nitrogen dioxide and nitrosyl chloride activators
19 p3012 A71-38081

Reactions of H and O with hydrogen peroxide and water in discharge flow systems, measuring rate coefficients
19 p3012 A71-38083

Solid propellant combustion pressure oscillations amplification, developing mathematical model as function of reaction rate constant, chamber pressure, frequency and solid properties
19 p3123 A71-38096

Porous material slab pyrolysis, studying density and thermal conductivity changes and reaction kinetics
19 p3170 A71-38117

Oxygen uptake kinetics by hemoglobin layers, using Hill advancing front equation
19 p3010 A71-38567

Ionospheric effective recombination coefficient and reaction rate models for various solar activity periods and day and night conditions
20 p3224 A71-39714

Peptides formation from glycine in presence of trimetaphosphate, investigating mechanism
21 p3345 A71-40175

Phase-space theory of macroscopic fluctuations in nonlinear systems far from thermodynamic equilibrium, using chemical kinetics model
21 p3416 A71-40856

Chemical kinetics and fluid mechanics interaction effects in stagnation point boundary layer
21 p3475 A71-40860

Thermal dissociation rate of excited CsF, calculating ion-ion recombination rates
21 p3346 A71-40888

Nb nitriding kinetics and external effects observations, noting nitrogen diffusion through crystal lattices
21 p3404 A71-41163

Shock wave initiation of hydrogen-oxygen at 1200-1800 K, using UV absorption spectroscopy in shock tube studies
22 p3587 A71-42097

Urea hydrolysis reaction rates by urease at low water activity, noting use for Mars surface bioassay
22 p3487 A71-42226

Gas-metal reactions in refractory metals purification, discussing reaction kinetics, thermodynamic equilibria and dissolved gases induced mechanical properties changes
22 p3564 A71-42423

Apparatus for optical diagnostics of helioelectrochemical conversion reaction phototransformation kinetics including diffusion coefficient measurement in liquid phase
22 p3484 A71-42845

Corrosive oxide layer formation kinetics during interaction of oxygen with polycrystalline W at 500-1000 K, using desorption mass spectrometry
23 p3641 A71-42907

Delta-zirconium hydride hydrogen engassing experiment, investigating hydrogen absorption rate and diffusion constant temperature dependence
23 p3688 A71-42929

Carbon dioxide UV absorption and dissociation processes and reaction kinetics of dissociation products
23 p3642 A71-43329

Molecular oxygen partial pressure effect on nitrogen afterglow intensity, proposing three-body reaction kinetics
23 p3707 A71-43500

Shock-heated Mg/MgO particle dispersion, postulating kinetic mechanism consistent with spectrometric observations
24 p3863 A71-44940

Molecular oxygen dissociation rate constant determination during interaction with He atoms in cylindrical shock tube
24 p3850 A71-45056

REACTION TIME

Task difficulty involving simple and choice reaction time under stress of shock, threat of shock and noise
01 p0026 A71-11414

Reaction time diurnal variations to optical and acoustic stimuli, investigating disturbed natural sleep-waking rhythm effects
02 p0197 A71-11684

Nervous system activity changes relation to physical exercise type and extent, measuring visual response time
05 p0708 A71-16620

Changing rotational velocity recording device for vestibular apparatus tests, examining stimulus reaction speed
05 p0714 A71-16810

Pt electrode response time during unsteady oxygen partial pressures measurement
06 p0860 A71-18323

Motor learning error performance with discrimination reaction timer, discussing commitment to wrong response, group observations and specific error repetition
07 p1047 A71-19462

Gaseous nitromethane-oxygen mixtures detonation characteristics, determining reaction time by schlieren technique
08 p1346 A71-20862

Spatial and temporal patterned light flashes effects on dark adapted subjects, discussing cortical response changes in contrast depth
10 p1565 A71-24680

Lithium-like and sodium-like positive ions electron impact ionization, calculating cross sections and reaction rates with binary encounter model
11 p1801 A71-25211

Electroencephalographic and evoked cortical potential correlates of reaction time and visual discrimination in humans
13 p2022 A71-29345

Human performance after awakening at different times of night, considering reaction time and muscular coordination
15 p2362 A71-31201

Nonpremixed and premixed combustion theory in laminar flows, considering diffusion flame- reaction time ratio and activation energy effects
15 p2515 A71-32564

Visual latencies at photopic levels as function of binocular differences in retinal illuminance, using Limulus adaptation model and ERG correspondence
16 p2527 A71-32867

Light adaptation and visual latency, discussing temporal resolving properties of eye as function of binocular differences and target background contrast
16 p2527 A71-32868

Recognition response time experiments for word number effects in target set, discussing familiarity judgment and response decision
17 p2683 A71-35250

Reaction times distributions in visual or auditory mode single and multiple motor response units
17 p2686 A71-35433

Rhesus monkeys electrocortical events recorded during foreperiod of reaction time tasks
18 p2853 A71-35895

Human response to auditory stimuli start and cessation, noting time lag and perception duration
19 p3001 A71-37283

Surround luminance effect on relative perceptual latency of response, using test stimuli confined to rod free area of fovea
20 p3184 A71-38774

Hyperbaric normoxic breathing helium, nitrogen and neon gas mixture effects on EEG and reaction time in man
21 p3342 A71-40347

Prior muscle exertions effect on reaction time and duration of simple discrete movements, considering electromyogram frequency changes
22 p3503 A71-42194

Central panel luminance effect on peripheral visual detection time in search tasks
23 p3638 A71-42899

Proactive reaction time inhibition as indicator of immediate memory retention intensity in subjects receiving interpolated acoustic stimuli
23 p3634 A71-43865

Quantitative characterization of unit time response in visual system, mapping latency and synchronicity as functions of stimulus position
23 p3640 A71-43870

Light brightness and duration effect on central vision response time during dark adaptation
24 p3795 A71-44535

REACTION WHEELS

Three axis long life satellite attitude control, describing double gimbaled reaction wheel system
04 p0663 A71-15299

Spacecraft attitude control system with inertia wheels, determining stability by decomposition method
04 p0663 A71-15300

Reaction wheel satellite attitude control, describing nondimensional parameter for interaxis gyroscopic coupling effects in preliminary design estimates
17 p2722 A71-35185

Gravity gradient desaturation of momentum exchange attitude control system, considering control moment gyros and reaction wheels
19 p3098 A71-37185

Synchronous three-axes stabilized communication satellites attitude control system with double gimbaled reaction wheel control actuator, obtaining 0.1 degree pointing accuracy with pitch and roll sensors
19 p3098 A71-37190

Gimbaled reaction wheel for spacecraft accurate attitude stabilization and control
19 p3098 A71-37191

Twin wheel momentum bias/reaction jet spacecraft attitude control system, presenting mathematical model, stability analysis and design
19 p3099 A71-37192

Skewed and orthogonal redundant reaction wheels comparison for outer planet exploration spacecraft attitude control based on reliability analysis
19 p3101 A71-37926

Attitude stability of dual spin spacecraft with energy dissipation in flexible momentum wheel having two degrees of freedom
23 p3772 A71-43020

REACTIVITY

Perchloric acid reactivity with respect to hydrogen, methane, ethane and ethylene by flow method, using twin concentric jet reactor of Pyrex glass
17 p2792 A71-35709

Reactivity changes to pharmacocological preparations under total proton and gamma ray irradiation of abdomen and head shielded rats
22 p3492 A71-42717

REACTOR CORES

In-core thermionic reactor development for space applications
02 p0282 A71-12307

TV broadcast satellites with in-core thermionic reactor, discussing transmitting power, design and economy
02 p0283 A71-12308

Nuclear thermal rockets development, discussing reactor-engine tests, solid and gas cores and Saturn 5 application
02 p0283 A71-12314

Thermionic reactor core design for undersea conditions based on neutron data and calculation related with diode materials
11 p1711 A71-25882

Driver terrestrial in-core thermionic reactor dynamic behavior, discussing computerized simulation with respect to coolant loop
11 p1711 A71-25883

Thermionic reactor parametric criticality studies, evaluating fuel element and core design variations effects
11 p1712 A71-25885

Space base 100 kw thermionic reactor power plant featuring interchange core replacement package
11 p1713 A71-25895

Thermal and electrical characteristics of two nuclear type cylindrical converters with nonuniform emitter temperature
11 p1714 A71-25903

Critical mass calculation for open cycle gas core rocket reactors, considering cavity size, fuel radius, reflector thickness and hydrogen bypass flow
22 p3573 A71-41637

Volume fraction analysis of coaxial flow gas core nuclear rocket for mass flow ratios, fuel radius and density, using free jet computer code and eddy viscosity equations
22 p3573 A71-41638

REACTOR DESIGN

Low power thermionic reactors, comparing four types design, characteristics and performance estimates for power plants
02 p0281 A71-12263

Neutronic comparisons of design concepts for low power thermionic space power reactors based on uranium and uranium-based fuels
02 p0281 A71-12264

Thermionic performance influence on reactor design and operation, considering plant electrical ratings
02 p0281 A71-12266

Technology gap between thermionic converter physics and reactor engineering, emphasizing language problem
02 p0281 A71-12272

MHD system hydrodynamic stability using propellant and fuel filled reactor cavity to form three region two fluid vortex
06 p0882 A71-18318

Post burnout heat transfer to mist flow for nuclear reactor design, using two step model
07 p1221 A71-18789

Ground test reactor design based on colloid fueled reactor concept
[AIAA PAPER 70-688] 07 p1158 A71-19862

Nuclear radiation shielding design for space base SNAP 8 reactor, discussing geometry constraints for lithium hydride and U loop layers model
09 p1492 A71-22808

Liquid metal cooled, fast spectrum thermionic reactor experiment design based on Fast Reactor Core Test Facility use for dynamic and steady state characteristics determination
11 p1710 A71-25867

Thermionic reactor experiment design to evaluate U-235 fueled fast spectrum core dynamic and steady state characteristics, discussing system features
11 p1710 A71-25868

Thermionic reactor electric spacecraft propulsion system for unmanned outer planets missions, investigating voltage and radiator temperature effects on weight
11 p1811 A71-25872

Out-of-core thermionic converter system using heat pipes as electrical resistive elements, discussing design and performance
11 p1710 A71-25875

Design optimization of out-of-core cylindrical thermionic converter module with heat pipes and integral finned radiator
11 p1711 A71-25876

Thermionic reactor core design for undersea conditions based on neutron data and calculation related with diode materials
11 p1711 A71-25882

Design and operation of split fueled cores with axial heat pipes for 350 kwe out-of-core thermionic power converter system
11 p1712 A71-25884

Thermionic reactor parametric criticality studies, evaluating fuel element and core design variations effects
11 p1712 A71-25885

Space base 100 ekw thermionic reactor power plant featuring interchange core replacement package
11 p1713 A71-25895

Thermionic integrated Cs reservoir converter for in-pile applications, discussing design for various coolant temperatures
11 p1715 A71-25909

Reactor shielding design in U.S. based on Boltzmann transport equation solutions and Monte Carlo method
13 p2099 A71-29254

Reactor shielding problems solutions involving removal-diffusion theory, two dimensional transport theory and Monte Carlo method
13 p2099 A71-29255

SNAP-8 mercury Rankine system performance data, investigating design change for reduced reactor operating temperatures
15 p2447 A71-32201

Out-of-core nuclear thermionic converter system design feature concerning heat pipes, vapor-cooled radiators, modularity and reliability
15 p2448 A71-32224

Nuclear reactor design as heat source for electric power generation in space
16 p2606 A71-33249

Compact fast reactor design for space power with rotating fuel drums, Mo alloy reflectors and honeycomb support structure
16 p2606 A71-33252

REACTOR FUELS
U NUCLEAR FUELS
REACTOR MATERIALS

Test equipment for elasticity modulus measurement of neutron irradiated materials, noting u-c nuclear fuel and alloy samples
07 p1084 A71-20356

Endurance limit of construction materials under fast and thermal neutron irradiation in reactor channel
16 p2598 A71-33986

Water cooled reactor Zircaloy brazing filler metals, investigating corrosion resistance, joint strength and brazing capability
18 p2928 A71-36856

Mercury properties, chemistry, safety, handling and corrosion in nuclear coolant applications
19 p3102 A71-37071

German monograph on creep buckling tests of finned and unfinned thin walled pipes of heat resistant breeder reactor cladding materials
21 p3464 A71-40781

REACTOR PHYSICS

Thermionic reactor analytical model for systems analysis, considering complex interactions between reactor physics, thermionics and thermal/hydraulics
02 p0281 A71-12265

Plasma physics and fusion reactor development involving electric conduction, vibration and magnetic effects, stellarator containment, etc
07 p1168 A71-19602

Dynamic simulation of fission product heating in reactor using multigroup Way-Wigner method
07 p1158 A71-20350

REACTOR SAFETY

Nuclear powered long distance aircraft engines, discussing high burnup fuel, weight factors and safety problems
06 p0926 A71-17694

Nuclear power plants safety design and evaluation via probabilistic analysis
08 p1300 A71-21852

Nuclear surface effect vehicle and subsonic aircraft for transoceanic cargo shipping, discussing mobile reactor safety tests under high speed impact conditions
09 p1492 A71-22779

Reactor shield weight optimization using FASTER-III Monte Carlo computer program for neutron and gamma ray transport
09 p1539 A71-22810

Automatic control, safety and dynamics of thermionic reactor experiment under simulated spacecraft load requirements
11 p1712 A71-25888

Air breathing nuclear propulsion, considering reactor safety in air cushion vehicles and aircraft
14 p2273 A71-29930

Reactor-shield-containment system models under impact tests, noting cracks, leaks and deformations
16 p2606 A71-33250

Nuclear safety considerations for ground checkout, launch and in-orbit operations of reactors for earth-orbital manned space stations
20 p3262 A71-38920

Safe disposal for nuclear zirconium hydride reactors for manned space base mission
20 p3263 A71-38921

Radioisotope thermoelectric generator safety and operations considerations for users of large nuclear space power systems
20 p3264 A71-38933

REACTOR TECHNOLOGY

Fusion energy technology, discussing controlled reactor construction and operation
07 p1169 A71-20000

Out-of-core thermionic converter system using heat pipes as electrical resistive elements, discussing design and performance
11 p1710 A71-25875

Materials technology of Ta-W-Hf clad uranium mononitride fuel for lithium cooled compact fast space power reactor, including irradiation tests
16 p2606 A71-33254

READERS

Fluidic 8 track punched tape reader, discussing design simplicity, flexibility, accuracy, wear and long life operation
07 p1025 A71-20560

Flying spot scanner electron optical systems for reading data from photographic film for studies of recognition algorithms, image simulation and automatic particle track measurements
15 p2409 A71-32191

READING MACHINES

U READERS

READJUSTMENT

U ADJUSTING

READOUT

EEG analyzer voltage peaks recording on computer, using digital readout for simultaneous initial and terminal stage markings
08 p1248 A71-21446

Readout systems light emitting numerals legibility, determining threshold values from response categorization into correct responses, misreadings and missed signals
21 p3376 A71-40125

Coherent optical processing system coupled to electronic readout system incorporating image orthicon TV camera, small digital computer and cell generator
21 p3381 A71-40929

REAL GASES

German monograph on centered two dimensional nonequilibrium hypersonic expansion flow, considering real gas flow with chemical reactions
05 p0693 A71-16124

Shock wave propagation through converging nozzle, predicting real gas dissociation and vibrational excitation effects for comparison with shock tube measurement
05 p0735 A71-16528

Convective heat transfer in three dimensional stagnation point boundary layer flow characterized by real gas properties
10 p1698 A71-25098

Elliptical cones at large angle of attack, calculating three-component real gas properties effects on aerodynamic characteristics
13 p1993 A71-29191

Real gas mass flow rate computation through sonic nozzle
14 p2239 A71-29927

Methane and natural gas flow through critical flow nozzles, calculating real gas effects on mass flow rate
14 p2224 A71-29937

Boltzmann kinetic equation for imperfect gases in pair collision approximation, including terms propor-

tional to time and coordinate derivatives and van der Waal constants
15 p2387 A71-31193

High pressure pneumatic lines dynamics, considering equation of state for real gas with given compressibility function
16 p2527 A71-33618

Sound velocity in real gases as function of pressure and temperature, deriving by van Isterbeek result generalization for higher pressures
17 p2783 A71-35038

Shock tubes and shock tunnels, considering equilibrium expansion, relaxation phenomena and real gas effects
18 p2897 A71-36410

Dissipative fluid motion, discussing approaches to analysis of real fluids time dependent complex flow equations
19 p3089 A71-37499

Higher pressure ratios trend in aircraft gas turbines leading to higher exit temperatures from compressor, noting real gas effects
21 p3437 A71-40170

Blunt body heat transfer predictions for atmospheric reentry, discussing coupled effects of real gas behavior and slip/jump boundary conditions
21 p3474 A71-40256

REAL NUMBERS

NT INTEGERS

Algebraic criterion for positive realness of rational functions, using Routh algorithm
09 p1486 A71-23651

REAL TIME OPERATION

Operational memory share supervisor program with storage protection feature for real time multitask digital process control and teleprocessing of electrical power utility system
01 p0043 A71-10181

Real time systems design principles for processor organization, logic circuits, fault detection and diagnostic tests to facilitate high degree of reliability and maintainability
01 p0046 A71-10203

Real time graphic display monitoring of time sharing computer systems operational state
01 p0046 A71-10207

High speed real time interpretive language for biological calculations with PDP-8 computer
01 p0049 A71-10244

Manual tracking systems identification and real time display, developing software system
01 p0027 A71-11437

Real time six degree of freedom aircraft flight digital simulation using SL-1 continuous system simulation language
02 p0226 A71-11786

Hybrid real time computer simulation of external visual display cues for Apollo Command and Service Modules
02 p0237 A71-11791

Real time contourgram for monitoring ECG waveform data, describing cardiac measurement and data display
02 p0199 A71-12384

Real time oscilloscope observation of ultrafast photodiode response to mode locked laser pulses
03 p0438 A71-13886

Real time analysis and display of pulsed laser propagation data in rectangular X-Y field
03 p0427 A71-13920

Data system environment simulator /DASYS/ for real time test bed capability for software development and testing
04 p0556 A71-15294

MITOL problem-oriented compiler language for real time and postflight telemetry data processing
04 p0556 A71-15295

Real time missile radio telemetry data transmission to ground station, using instrumented aircraft
04 p0554 A71-15321

Real time processor design for sequential control of all-digital multiline data set
[IEEE PAPER 70-TP-375-COM]
05 p0725 A71-17067

USAF space missions information processing requirements relative to space transportation system, emphasizing real time image processing
05 p0727 A71-17229

Cathode ray tubes as real time display device in various types of professional equipment, describing functional performance and related tube design aspects
06 p0872 A71-17319

Real time solar flare image production for Skylab astronaut training, using films of H alpha, XUV and X ray solar images
06 p0902 A71-18530

Real time tracking filter candidates for implementation in systems tracking maneuvering vehicles compared in terms of accuracy and computer requirements for tactical applications
07 p1069 A71-18837

Development program for multiple access real time tactical information distribution system, designing and constructing tactical air control system test facility [AIAA PAPER 71-243] 07 p1156 A71-19718

Target detection performance in simulated real time airborne reconnaissance mission, taking into account search time and image type, contrast and rate of motion 08 p1248 A71-21227

ECG signals on-line and real time monitoring mathematical, statistical and bioengineering considerations 08 p1248 A71-21330

Adaptation algorithm for real time minimum mean square error array processing, using with multidimensional digital filter 08 p1256 A71-21605

Algorithms for continuous indirect sequential observations utilization with real time synoptic measurements in objective analysis 08 p1328 A71-21725

Real time low frequency narrow band spectrum analyzer using time compression technique for vibrating machinery diagnosis and prognosis 09 p1443 A71-22708

Real time and double exposure holographic interferometry measurements of strain on aluminum cylinder under internal pressure, noting discrepancy with strain gage values 09 p1444 A71-22711

Real time remote test site computation and display of complex engine inlet distortion parameters from dynamic pressure signal, using analog computer 09 p1446 A71-22726

Electronic imaging devices specifications, emphasizing real time reconnaissance systems performance requirements 10 p1609 A71-24059

Optimal models for time shared computer systems with real time multiprogramming 10 p1581 A71-24727

System identification, considering input signals classification, model structure, linear/nonlinear systems identifying and on-line/real time techniques 10 p1586 A71-24736

Digital simulation facility for airborne collision avoidance system effects on ATC terminal automation, discussing operation, hardware and software equipment 10 p1590 A71-24774

Real time spectrum analyzer, discussing data sampling rates, statistical uncertainties, waveform and bandwidth 10 p1612 A71-24832

Real time high resolution mass spectroscopy using digital computer techniques for data acquisition, processing and presentation 11 p1761 A71-25220

Computer controlled source data preparation Keycheck system, discussing real-time software support for documents audio/visual error detection 11 p1734 A71-25638

Complex real time hybrid computer simulator for captive two blade rotor platform dynamic problem solving 11 p1744 A71-25847

Flight test completed on onboard real time engine performance monitoring system, discussing thermodynamic analysis technique [ASME PAPER 71-GT-77] 11 p1813 A71-25991

Contamination degrading effects on optical surfaces, discussing application to real time monitors data analysis [AIAA PAPER 71-460] 11 p1800 A71-26242

Real time modal purity and data quality assessment techniques 11 p1853 A71-26501

MODAPS real time data processing system for modal vibration testing consisting of analog subsystems, digital interfaces and on-line minicomputer 11 p1746 A71-26502

Experiment planning, using digital computer in real time with programmed algorithm 12 p1883 A71-26713

Spatial filter synthesis for real time combined subtraction and correlation in coherent optical data processing system 12 p1905 A71-26808

MAC malfunction detection, analysis and recording system applications in commercial airlines, emphasizing real time response for maintenance function [SAE PAPER 710425] 13 p1995 A71-28311

Evoked brain potentials averaging in real time with computer linked by long distance communication lines 13 p2017 A71-28385

Real time holography using moving groundglass or fluorescent layer suitable for coherent matched filtering and seeing through fog 13 p2068 A71-28709

Real time computable partial recursive functions of n variables with expectancy estimate on Minsky machines 13 p2096 A71-28976

Adaptive controller consisting of real time identifier and minimum variance regulator approached through stochastic optimal control theory 14 p2219 A71-29696

Computer controlled acoustic data acquisition system with real time control of 16 high intensity acoustic generators 14 p2208 A71-30315

Real time radar instrumentation data processing and control system, discussing computer selection, software requirements and configuration, etc 14 p2196 A71-30338

Computer real time data monitoring and control software in satellite integration support and test operations, noting test oriented language 14 p2208 A71-30339

Real time systems programming techniques based on modular programs, integrated data stores, multiprocessor and special computer languages 14 p2208 A71-30381

Real time stroboscopic vibration analysis technique involving holographic interferometry 15 p2404 A71-31271

DC 10 flight test program improvement using data acquisition/processing with real time monitoring, instrument landing and laser tracking [AIAA PAPER 71-788] 16 p2553 A71-34018

On-line real time optimal control computations for aerial combat games between two aircraft, assessing airborne computer requirements [AIAA PAPER 71-797] 16 p2525 A71-34022

Apollo real time control center large software systems development management covering implementation, integration, testing, operation and maintenance 17 p2710 A71-34620

Mathematically oriented digital computer system implemented on IBM 360 with graphic remote consoles for engineering problems 17 p2710 A71-34622

Forty channel magnetography system including CRT display, digital controlled heliostat, real time computer and optical transducer 17 p2740 A71-34988

Real time system for solar spectrophotometry, noting application for scanning H alpha and other Balmer series lines profiles in solar flare regions 17 p2741 A71-34994

Videometer instrument for solar flares quantitative measurement, eliminating red sensitive vidicon for real time operation in H alpha region 17 p2742 A71-35003

French monograph on algorithms for parameters estimation for adaptive identification in real time of linear processes perturbed by related noise 17 p2767 A71-35232

Signal processing operation of real time optical correlator, using ultrasonic light modulators 17 p2708 A71-35484

Real time reconnaissance cockpit display system for airborne sensor systems, providing night combat imagery 17 p2747 A71-35772

BITSIM computer simulation technique for application to real time airborne photoreconnaissance imagery data transmission system design and performance analysis 18 p2917 A71-36070

Optimal models for time shared computer systems with real time multiprogramming 19 p3025 A71-37692

Real time holographic interferograms, achieving required beam intensities relationship by ordinary neutral light filters near collimator focus 19 p3065 A71-38196

Acoustic or microwave hologram reconstruction into visible three dimensional image in real time 19 p3066 A71-38412

Computer automated systems development for electromagnetic compatibility analysis, noting interactive processing in near real time mode 19 p3030 A71-38439

Real time lensless holographic recognition of spatially incoherent and self luminous patterns on diffusing backgrounds using optical matched multiple filters 20 p3235 A71-39184

Real time multitrack half tone recorder for displaying three dimensional information on instantaneous blood velocity measurement by Doppler effect 21 p3377 A71-40132

Real time mechanical strain measurement by optical correlation techniques, using coded matched-filter hologram and incoherent illumination 21 p3377 A71-40229

Hybrid electromechanical analog computer real time simulation technique for optimizing vibration response of two degree of freedom system with impact damper [ASME PAPER 71-VIBR-119] 21 p3350 A71-40338

Real time holographic interferometry of steady state mechanical vibrations of engineering structural components applicable to arbitrary small amplitude and large mode numbers 21 p3381 A71-40934

Real time coherent optical data processing, describing spatial filtering and reactive processor and image converter designs 22 p3540 A71-41750

Australian National Radio Astronomy Observatory integrated time and frequency system with cesium beam frequency standard and digital computer for real time operation 22 p3547 A71-42498

TV multiplexing and broadband multichannel real time telemetry data transmission without loss between Kennedy Space Center and ground station for computer operation 23 p3645 A71-43519

Error evaluation of digital real time simulation of nonlinear systems 24 p3813 A71-44571

N-body problem real singularities in celestial mechanics, considering present status and holomorphic motion 01 p0154 A71-10384

Average number of real roots of polynomials consisting of independent random quantities with identical distribution 23 p3699 A71-43571

REATTACHED FLOW

Turbulent separation and reattachment at turbomachine blade trailing edge at supersonic speeds, discussing various flow models 03 p0340 A71-13142

Leading edge bluntness and boundary layer displacement effects on attached and separated laminar boundary layers in high temperature hypersonic flow over compression corner [AIAA PAPER 68-68] 03 p0341 A71-13437

Flow separation and reattachment in confined jet mixing of air with secondary flow in duct [ASME PAPER 70-FE-B] 03 p0341 A71-13703

Three dimensional turbulent jet reattachment, investigating wall attachment distance with aspect and offset ratio and Reynolds number variations [ASME PAPER 70-WA/FLCS-5]

03 p0401 A71-14081
Simplified two dimensional jet reattachment model, using Goertler profile equation and constant spread parameter [ASME PAPER 70-WA/FLCS-8]

03 p0401 A71-14084
Leading edge bluntness and boundary layer displacement effects on attached and separated laminar boundary layers in high temperature hypersonic flow over compression corner [AIAA PAPER 68-68]

05 p0735 A71-16561
Interaction theory for supersonic separated and reattaching turbulent boundary layers, comparing to real flow past compression ramp [AIAA PAPER 71-128]

06 p0844 A71-18572
Fluidic diverting valve independent of turbulent reattachment, examining large scale model and digital element characteristics in closed loop system

07 p1024 A71-20553
Jet reattachment to adjacent flat plate, investigating back pressure effects

07 p1094 A71-20606
Fluidic OR-NOR element multiple regression analysis, investigating wall attachment, hysteresis switch pressure and percentage recovery

07 p1031 A71-20607
Wall attachment jet control volume model, examining flow momentum with restrictive force

07 p1031 A71-20609
Backward facing step in confined supersonic two dimensional flow, investigating turbulent shear layer reattachment

10 p1552 A71-24622
Interaction theory for supersonic separated and reattaching turbulent boundary layers, comparing to real flow past compression ramp [AIAA PAPER 71-128]

11 p1702 A71-25476
Streamwise vortices of distinct periodicity in laminar transitional turbulent reattaching flows over wide Mach number range

11 p1751 A71-25496
Heat transfer to airfoil in oscillating flow at large angles of attack, showing vortex shed reattachment and Nusselt numbers increase [ASME PAPER 71-GT-18]

11 p1703 A71-25963
Reattachment angle of supersonic laminar mixed boundary layer, using revolution model with Reynolds number allowance

11 p1704 A71-26194
Reattachment of single two dimensional turbulent air jet, investigating gas flow characteristics in combustion chambers

14 p2170 A71-30419
Separation controlled transonic drag-rise modification for V-shaped notches attributed to inviscid/viscid interaction controlling flow separation and reattachment [AIAA PAPER 71-568]

15 p2345 A71-31561
Attaching jet flow on inclined flat plate with small offset, obtaining centerline shape and velocity profile

15 p2391 A71-32056
Slow switching in wall attachment fluidic devices, determining flow characteristics

15 p2391 A71-32057
Ducted axisymmetric jet mixing flow, investigating flow separation and reattachment as function of diameter and velocity

15 p2392 A71-32252
Shock layer reattachment initiated by point explosion and driven continuously outward by inner contact surface

18 p2985 A71-36034
V shaped notches drag coefficients behavior in transonic regime, observing inviscid-viscid interaction controlling flow separation and reattachment

21 p3323 A71-40954

REBREATHING

Mixed venous oxygen tension oxide determination by nitrogen-carbon rebreathing method, considering pulmonary blood flow and oxygen carrying capacity

03 p0360 A71-13182
Chemosensitivity in normal, hypoxia and hypocapnia cases, using rebreathing techniques to construct isoxic carbon dioxide response curves and isocapnic oxygen response curves

07 p1052 A71-20329
Carbon dioxide tension in pulmonary arterial blood before/during prolonged rebreathing in oxygen mixtures at rest and exercise

10 p1558 A71-23895
Alveolar and arterial carbon dioxide partial pressure during rebreathing experiments at rest

13 p2007 A71-28435
Oxygen pulmonary diffusion capacity estimation by rebreathing procedure based on gas-blood partial-oxygen-pressure equilibration

17 p2678 A71-34173

RECEIVERS

NT LINEAR RECEIVERS

NT LOGARITHMIC RECEIVERS

NT RADIOTELEPHONES

NT SUPERHETERODYNE RECEIVERS

NT TELEVISION RECEIVERS

Coherent binary reception channels noiseproof qualities in presence of fluctuating noise and single concentrated bursts

01 p0030 A71-10473
Field tests for telemetry receiving systems solar calibration, describing antenna pointing

01 p0033 A71-10891
Quantum mechanical communication theory of optimal receivers, using statistical detection and estimation theory

02 p0213 A71-12016
Direct detection, heterodyne and optimum receivers for optical scattering channels in digital communication

02 p0214 A71-12020
Optical heterodyne receiver design, using nonlinear recursive techniques to estimate atmospheric fluctuation effects on IF signal characteristics

02 p0249 A71-12026
Solid state receiver for IR, using microwave biased Ge photoconductor

02 p0231 A71-12027
Optimal quantum receiver mathematical specification derivation for M-ary digital signal detection

02 p0215 A71-12036
Ground station integrated receiver cabinet formed by down-converter, demodulator and baseband equipment packaging

02 p0224 A71-12817
Earth station equipment for Intelsat 4, discussing thermal noise, transmitters, wideband receivers and demodulators

02 p0224 A71-12829
Servosystems errors of indicator-receiver for recording electromagnetic field pattern extremes in amplitude radio interferometers

04 p0557 A71-14635
Multiplexed PAM signal transmission over random time multichannel and diversity systems, discussing optimization for receiver frequency response by numerical solution [IEEE PAPER 70-TP-47-COM]

05 p0723 A71-17053
Adaptive/self synchronizing PSK receivers with common power and bandwidth, discussing analytical and numerical investigations of performance characteristics

05 p0723 A71-17054
All-digital multichannel narrow band FSK data receiver with time-shared arithmetic processor, discussing prototype design and performance [IEEE PAPER 70-TP-49-COM]

05 p0724 A71-17064
Receiving equipment for direct differential Doppler frequency measurement via beacon satellites observation

07 p1059 A71-19012
Intelsat 4 satellite transponder, examining receivers, transmitters, mechanical stability and heat transfer

10 p1578 A71-24509
Receiver systems for 100 meter Effelsberg radio telescope using cryogenically cooled parametric amplifiers for receiver system noise minimization

10 p1578 A71-24510
Monopulse receiver design system and image band noise factors tradeoffs, discussing preselector and integrated front end trends

11 p1737 A71-25676
Optimal receiver to detect multiple orthogonal signals on normal stationary noise background, assuming nonuniform a priori probability occurrence

12 p1883 A71-27618
Nonlinear filtering synthesis of optimal receiver for pseudorandom phase shift keyed signal with arbitrary modulation angle and white noise background

14 p2195 A71-30107
Electronically scanned circular array elements number in receiver design, discussing gain distribution

14 p2206 A71-31072
Optimal noncoherent receiver for signal detection in mixture of noise and chaotic echoes in media with frequency dependent attenuation

15 p2369 A71-31231
Noise stability and false response probabilities of receivers in circular remote control systems under harmonic interference for signal transmitted over power distribution grids

15 p2353 A71-32081
Probability density function of optimum phase locked loop synchronizer of sinusoidal signal with white Gaussian noise in partially coherent receiver

20 p3195 A71-38858

RECEIVING SYSTEMS

U RECEIVERS

RECEPTACLES [CONTAINERS]

U CONTAINERS

RECEPTORS [PHYSIOLOGY]

NT PROPRIOCEPTORS

African lungfish retina electron microscopy for Landolt club location, mitochondria, glycogen and microtubule content, considering relation to receptors and possible functions

01 p0009 A71-10272

Color matching discrepancies, considering rod blue qualities under photopic conditions, luminance level and trichromatic stimulus unsuitability for large field additive colorimetry

01 p0010 A71-10273
Alpha and beta receptor blocking drugs effects on oxygen consumption of methemoglobin-containing erythrocytes and hemolysates

03 p0363 A71-13483
Sensitivity, size and receptive fields position in cat retina ganglion cells

05 p0706 A71-16341
Simple nerve system receptor field organization in visual analyzer simulated by TV circuit with scanning beam controlled focusing

07 p1050 A71-20108
Human skin vibratory sensibility consideration as analyzer receptor for stimuli conversion into nervous processes

07 p1043 A71-20116
Vertebrate retina receptive field structure, suggesting interaction between receptor, horizontal and bipolar cells

07 p1046 A71-20623
Pattern recognition systems, considering receptor, preprocessing and decision making stages

10 p1568 A71-24225
Organisms olfactory extraction and interpretation of low intensity chemical signals from air, outlining receptor mechanism from fish physicochemistry

10 p1563 A71-24234
Human transversostriated muscle plate receptors morphogenesis

12 p1872 A71-27725
Accelerations effect on receptors in semicircular canals during human movements in rotating environment, using vector analysis

13 p2007 A71-28415
Cat single optic nerve fibers receptive field, observing functional organization and conduction velocity

13 p2008 A71-28458
Human odorant evoked response, considering stimulation of olfactory receptors and trigeminal afferences in nose

13 p2012 A71-28891
Visual sensation time theory validity investigation, discussing time elapsed between retinal receptor stimulation and perceptory sensation

14 p2189 A71-30406
Temperature, odor mixing and stimulation frequency effects on olfactory receptor potential of fly *Lucilia sericata*

14 p2186 A71-30568
Fly *Lucilia sericata* olfactory receptor and unit action potentials response to odor stimulation by homologous compounds

14 p2186 A71-30569
Snake IR receptor sense organs tested by IR stimulus from carbon dioxide laser, suggesting receptor operation on thermal principle

15 p2360 A71-32296
Reflex increase in ventilation induced by vibrations applied to cat triceps surae muscles, noting muscular and articular receptors role

17 p2678 A71-34175
Redundancy in receptive neuronal nets, examining structural and functional organization of generalized biological analyzer peripheral section

17 p2690 A71-34956
ACH retina application effects, showing second retinal neuron cholinergic receptors desensitization

17 p2686 A71-35490
Afferent nerve impulse traffic from atrial A-type receptor fibers in cats in relation to heart rate control

18 p2857 A71-36688
Canine ventricular myocardium as cardiac beta-adrenergic receptor, describing binding of norepinephrine to microsomal particles

19 p3002 A71-37900
Primary biological receptor element analogous electronic model for potential and afferent pulse train responses to stimuli

20 p3191 A71-38894
Visual projection, magnification and retina overlap on dorsal lateral geniculate nucleus in cats measured by random scatter in receptive field

21 p3335 A71-40668
Inhibitory binocular receptive fields in dorsal nucleus of lateral geniculate body for dominant and nondominant eye in cats, using moving slit and flash spot stimulation

21 p3335 A71-40669
Holography applications in ophthalmology to determine optical constants of living eye, including retinal receptors

22 p3540 A71-41753
Eye movement neurophysiology, discussing ocular proprioception, oculomotor muscle sensory receptor role, extraocular muscle afferent and efferent innervation and central nervous system control effect

22 p3488 A71-42433
Receptive fields of dark adapted cats striate cortex neurons as function of barbiturate anesthetic level

23 p3634 A71-43871

RECIPROCAL THEOREMS

- Quantitative variation in anesthetized cats striate cortex receptive fields as function of light and dark adaptation 23 p3634 A71-43872
- Human skin cold receptor diurnal activity rhythm 24 p3795 A71-44499

RECIPROCAL THEOREMS

- Compressible isotropic plasma slab effect on magnetic dipole radiation pattern, using reciprocity theorem 08 p1253 A71-21274
- Helmholtz reciprocity theorem extension to clear turbulent atmosphere, defining Green functions to characterize optical propagation in opposite directions between parallel planar apertures 10 p1641 A71-23949
- Reciprocity theorem for magnetoionic modes, considering arbitrary plane slab within magnetoplasma with parameter variation in direction normal to horizontal plane of stratification 10 p1577 A71-24293
- Linear elastokinetics tensorial field integral representation derivation from reciprocal dynamic theorem for equations of motion 10 p1687 A71-24350
- Cosserat-type bodies with linear elasticity, obtaining reciprocity theorem and stress solutions under concentrated load 18 p2984 A71-36949
- Monatomic gas beams scattering from gas surface interface with partially distributed energy states, confirming reciprocity or detailed balance principle 19 p3104 A71-38057

RECIPROCATING ENGINES

U PISTON ENGINES

RECIRCULATIVE FLUID FLOW

- Supersonic jet-bound subsonic wake interactions, determining recirculation zone boundaries 05 p0694 A71-16848
- Swirling effects on turbulent flow recirculation zone behavior in gas turbine main burners [AIAA PAPER 71-2] 06 p0946 A71-18477
- Heat transfer in cylindrical cavity with circulating flow as function of time and Peclet number 10 p1696 A71-24615
- Recirculation patterns in coaxial steady laminar mixing of homogeneous jets in confined tube, solving Navier-Stokes equations 11 p1748 A71-25151
- Recirculating cells and entrance conditions influence on confined heterogeneous jets laminar mixing, measuring velocity and concentration profiles [AIAA PAPER 71-601] 15 p2389 A71-31578
- Supersonic combustion flowfield transverse hydrogen jet injection into Mach 2.5 airstream, discussing recirculation region upstream [WSS/CI PAPER 71-15] 15 p2663 A71-31624
- Numerical analysis of laminar recirculating flow between shrouded rotating disks for interaction between vorticity and stream function and swirl-velocity field 18 p2905 A71-36309
- Two dimensional supersonic base flow with small Mach number recirculation zone, determining jet line by variational principle of Poisson equation 20 p3176 A71-39414
- Computer program for recirculating fluid flows applied to concentration curves obtained by gas injection on pipe center line with fully developed turbulent flow 24 p3820 A71-44956

RECLAMATION

Deformed Mo single crystals, noting polygonization processes relation to recrystallization during annealing

09 p1476 A71-23318

Polygonization and recrystallization processes in Fe-Cr alloy, using electron diffraction and microscopy

09 p1476 A71-23322

Primary, secondary and combinatory recrystallization kinetics and textures in tungsten wire of different compositions over 900-2300 C using X ray analysis and metallography

09 p1476 A71-23323

Recrystallization of V and V-Ti alloy, discussing hardness measurements, tensile tests, X ray diffraction, optical and electron microscopy

10 p1625 A71-24010

Al-Cu alloys recrystallization and age hardening irregularities, discussing inhomogeneous and anisotropic effects on ideal characteristics

10 p1628 A71-24823

Fiber textures formation in polycrystalline Zr from cold forging and cold drawing, observing fully developed recrystallization

10 p1629 A71-25028

Coarse grained recrystallized Mo ductile brittle transition temperature due to dislocation substructure and grain boundary state, noting low temperature annealing and critical straining

10 p1629 A71-25029

Cold rolled recrystallized Ni-Fe alloy, considering short range order structure effect on elastic limit

13 p2087 A71-29264

Structural disorientation dependent recrystallization of cold rolled and annealed Mo single crystals

14 p2258 A71-30006

Recrystallization nuclei linear growth rate activation energy relationship to Ni plastic deformation magnitude, temperature and purity

15 p2429 A71-31995

Cold worked pure Mo recrystallization kinetics, indicating dependence on deformation mode and techniques

15 p2433 A71-32177

Recrystallized and unrecrystallized deformed semipolished Al base alloy under cyclic and static loads, investigating macrofracture kinetics

16 p2594 A71-33713

Recrystallization of heat treated Fe-Ni alloys microstructures after hammer hardening

16 p2598 A71-34051

Low temperature tensile prestressing effect on recrystallization kinetics of polycrystalline large grain Ni by isothermal annealings method

17 p2755 A71-34194

Statistical microstructural analysis for nucleation and growth kinetics of recrystallization nuclei of metal single crystals

17 p2755 A71-34414

Diamonds in ureilites and carbonaceous chondrites, discussing formation due to recrystallization during asteroid collisions

17 p2810 A71-35723

Critical growth work hardening germination and recrystallization of oriented compression deformed Nb, Mo and W refractory cubic centered crystals

18 p2935 A71-36200

Microcrystal orientation in recrystallized tungsten structure by charged particles channelography

18 p2954 A71-36804

Lunar breccia, considering welded or sintered breccias, glassy breccias containing xenocrysts and xenoliths, instant rock breccias and recrystallized breccias

19 p3137 A71-37675

Vacuum-melted low-carbon low-manganese steel, investigating Ni and Cr additions effects on recrystallization textures

19 p3079 A71-37703

Recrystallization behavior of thorium dispersion hardened W-Re alloy compared to pure W by X ray diffraction, hardness tests, metallographic and electron microscopy methods

20 p3247 A71-38763

Dislocation structures of polycrystalline tungsten after deformation and recovery annealing, observing temperature dependence of critical strain for recrystallization

21 p3399 A71-40472

Soviet monograph on Canyon Diablo/Arizona/meteorite covering chemical composition, minerals, isotope composition, history, geology and impact recrystallization

21 p3452 A71-40874

High heat resistance of austenitic Cr-Ni-V-B steel by polygonization and recrystallization, using thermomechanical treatment

21 p3403 A71-41102

Copper wire laser welding to film on Cr substrate, exhibiting nonhomogeneous columnar structure and recrystallization

21 p3389 A71-41104

RECTANGLES

Harmonic mixed boundary value problem exact solution for rectangle with slit, outlining finite difference techniques convergence

15 p2441 A71-31356

Rectangular cylindrical shell finite element, deriving stiffness matrix with stress distribution

15 p2510 A71-32516

Alternating-direction Galerkin methods application to parabolic and hyperbolic differential equations for obtaining efficient iterative solution of heat equation on rectangle

19 p3087 A71-38305

RECTANGULAR BEAMS

Mixed plane elasticity theory of narrow rectangle imbedded in static walls under normal loads

08 p1373 A71-21943

Plastic strains, thermal residual stresses and buckling of rectangular cross section plates and beams subjected to asymmetric heating and cooling

08 p1375 A71-22056

Euler buckling of hinged slender prismatic bars of rectangular and elliptic cross sections with shear and transverse stress allowance

10 p1685 A71-23959

Shear deformation effect on optimal design of elastic beams, considering rectangular cross section circular ring by Timoshenko beam theory

11 p1849 A71-25677

Elastic deformation and plastic buckling of rectangular column with initial deflection under axial compression

13 p2157 A71-29287

Nonuniform cross section tapered, stepped rectangular and I section cantilever beams elastic lateral stability

14 p2330 A71-30689

Coupled natural frequencies in rectangular cross section pretwisted cantilever beams flexural vibrations

15 p2503 A71-31442

Rectangular composite prismatic bar with T shaped cross section, calculating torsion with summary representation method

17 p2824 A71-34847

Transverse waves propagation in vibrating orthotropic rectangular beams, noting inexact information regarding shear distribution

20 p3307 A71-39037

Effective shear modulus of multilayered rectangular elastic isotropic member in uniform torsion

22 p3618 A71-42587

Fiber reinforced viscoelastic rectangular beam, deriving asymptotic values of stress, curvature and position of neutral axis under constant moment

24 p3879 A71-44630

RECTANGULAR GUIDES

Electric potential and field distribution in dielectric plate insert of rectangular waveguide calculated by net point method using computer program

01 p0051 A71-10149

Wave dispersion and evanescent modes in rectangular waveguides filled with transversely inhomogeneous dielectric rod

01 p0056 A71-11196

Complex permittivity and impedance of dielectric samples in coaxial lines and rectangular waveguides by moving probe and resonant Q factor measurements

02 p0229 A71-11713

Integrated optical communication circuit technology adaptable to batch processing, considering encapsulated planar arrays of rectangular dielectric waveguides

02 p0231 A71-12008

Cylindrical post shunt impedance in rectangular waveguide, evaluating approximate theory for free space thin wire conductor

03 p0378 A71-13808

Rectangular waveguide with T junction, deriving characteristic impedance, maximum power and damping constant

05 p0719 A71-15997

Large aspect ratio rectangular duct with nonuniform surface texture, investigating turbulent flow, maximum velocity positions and zero shear stress

07 p1086 A71-18772

Flow field behind two dimensional roughness element in rectangular channel, discussing wall effects, reattachment point position, velocity distribution and turbulence intensity

07 p1086 A71-18775

Computer algorithms for scattering matrix of rectangular waveguide splitters in H plane

07 p1079 A71-20073

Radiation nulls suppression and broadband impedance matching of infinite rectangular waveguide phased arrays, giving numerical solutions

09 p1419 A71-23494

Y-shaped microwave power splitter, using dielectric wedge partially extending into rectangular metallic waveguide

11 p1733 A71-26349

Linear frequency beam scanning array antenna excited by individual phase shifter, studying rectangular waveguide in magnetic field plane

11 p1741 A71-26552

Rectangular cross section MHD channel spatial electrical field distribution, obtaining electrostatic potential, boundary conditions and efficiency

14 p2278 A71-29612

Microwave scattering by DC magnetized ferrimagnetic circular cylinder in rectangular waveguide

14 p2212 A71-30512

Scattering coefficients of thick inductive diaphragm in rectangular waveguide, using ray-optical method

15 p2376 A71-32023

TE modes propagation in rectangular guide partially filled with dielectric slab, considering two waveguides junction equivalent circuit

17 p2708 A71-35481

Transient thermal stresses in infinite cylinder of rectangular cross section with heat sources, using integral transforms

18 p2976 A71-36127

Wave diffraction at step junction of two rectangular waveguides and symmetrical diaphragm with dielectric fillers

19 p3019 A71-38332

Design algorithm for gyrotropic waveguide consisting of symmetrical rectangular coaxial with magnetized ferrite rods

19 p3019 A71-38333

Reflection and transmission coefficients of nonresonant slots in rectangular waveguide antenna with comb type slow wave structure

19 p3019 A71-38334

Rectangular waveguide with T shaped pedestal, deriving characteristic impedance, maximum power and damping constant

22 p3515 A71-42746

RECTANGULAR PANELS

Rectangular panel acoustic response by variational finite element method, including radiated sound field effects on structural vibration

06 p0984 A71-17622

Rectangular, square and circular cross section blanks dynamic metal cutting process by method of characteristics

08 p1295 A71-20794

Simply supported double layered rectangular mesh grids, solving finite difference equations under arbitrary loading

08 p1370 A71-21409

Dynamic behavior of circular and rectangular membrane panels with time and space dependent boundary conditions for aerospace structures

09 p1544 A71-23736

Acoustic damping of clamped and hinged rectangular panel at natural frequency, noting dependence on aspect ratio

21 p3416 A71-41200

RECTANGULAR PLANFORMS

NT RECTANGULAR PANELS

NT RECTANGULAR PLATES

NT RECTANGULAR WINGS

Elastoplastic unsteady thermally stressed state of square and rectangular planform bodies by calculated theory of small deformations, using strain compatibility equations with Airy stress function

02 p0323 A71-11743

Planar-rectangular shallow shells with double curvature geometry, analyzing natural oscillations by finite difference procedure

07 p1219 A71-20649

Lifting rectangular thin airfoil in symmetrical incompressible steady uniform orthogonal flow at small angle of attack, deriving Weissinger integral equation

23 p3625 A71-43487

Rectangular planform nonshallow spherical and elliptical shells, determining momentless stressed state

24 p3877 A71-44404

RECTANGULAR PLATES

Buckling analysis of rectangular waffle plates with multiple sizes of ribs in each stiffening direction, considering stability and design

01 p0178 A71-11583

Clamped rectangular metal plates dynamic plastic behavior under uniformly distributed impulsive velocities

02 p0321 A71-11678

Cracked rectangular plate bending under uniform transverse load, discussing crack geometry and propagation

02 p0321 A71-11681

Stress distribution in gelatin disk and rectangular plate compressed between horizontal slabs, using tangential difference method

02 p0328 A71-12512

Fluid-loaded rectangular plates and membranes random vibration excitation by turbulent boundary layer flow

[ASME PAPER 70-WA/DE-15] 03 p0511 A71-14147
Supported rectangular plates HF transverse vibrations by holographic interferometry

04 p0668 A71-15188

Nonlinear creep problems numerical time integration solution, applying to rectangular plate

04 p0672 A71-15755

Rectangular and circular thin orthotropic plates thermal buckling approximate solution using Rayleigh-Ritz energy method

05 p0819 A71-15978

Eccentrically stringer-reinforced rectangular plates buckling under linearly varying longitudinal compression, using Galerkin method

05 p0819 A71-15980

Rectangular thin elastic plate with circular holes under heat flow, solving thermoelastic problem by point matching

05 p0823 A71-16492

Rectangular plate with stiffener cross section for unit with constant mass, considering natural symmetric and antisymmetric mode frequencies

05 p0824 A71-16603

Singly curved rectangular plate free vibration characteristics obtained by partial differential equations of motion

05 p0825 A71-16605

Maximal deflection of square and rectangular thin plates with small initial concavities, using dynamic relaxation method for lateral and postbuckling in-plane edge loads

05 p0830 A71-17225

Rectangular plates and shallow shells large asymmetric deflection, using computerized finite difference technique

06 p0991 A71-17802

Elastic rectangular and thin plates design under dynamic loading, using Bubnov-Galerkin method for computer solutions

06 p0992 A71-17808

Equidistant multiple span rectangular plates vibration and acoustic radiation under random external forces

06 p0994 A71-17823

Rectangular plate bending with mixed boundary conditions, using paired trigonometric series

06 p1005 A71-18708

Dynamic elastic-plastic buckling of rectangular plates in sustained flow involving mass impact

07 p1211 A71-19251

Viscoelastic rectangular thin plate stability under buckling conditions, showing ratio of long term to instantaneous critical loads as function of hereditary properties

07 p1212 A71-19351

Stress concentration in planar rectangular shallow shells and plates with polygonal holes

07 p1218 A71-20470

Stress-strain state of rectangular transversely isotropic plate with clamped edge under uniformly distributed load, considering bending moments

07 p1218 A71-20473

Flat rectangular plate under plane stress, solving boundary condition problems with displacements and stresses from two neighboring edges

08 p1369 A71-20846

Free flexural vibrations of orthotropic rectangular plates subjected to large amplitude free or forced oscillations, using von Karman nonlinear equations

08 p1370 A71-21307

Transverse bending of hinged or clamped rectangular plates with different tensile and compressive resistance

08 p1373 A71-21945

Plastic strains, thermal residual stresses and buckling of rectangular cross section plates and beams subjected to asymmetric heating and cooling

08 p1375 A71-22056

Theory of plates under finite initial elastic deformation, applying to rectangular plate stability under compressions in two mutually perpendicular directions

09 p1537 A71-22521

Viscoelastic rectangular sandwich plate bending, stability, deflection and critical load calculation, assuming core stress-strain relation governed by Maxwell-Thompson differential equation

09 p1540 A71-22998

Flexural vibration analysis of rectangular isotropic and orthotropic polygonal elastic plates with constant or variable thickness, considering mass distribution and boundary conditions

10 p1625 A71-24019

Temperature induced bending of rectangular plate, obtaining stress-strain state

10 p1687 A71-24196

Rectangular plate and circular cylindrical shell segment under rotating moment and dynamic loads evaluated by Green function

10 p1691 A71-24812

Buckled rectangular panels response to random excitation via single degree of freedom nonlinear vibration equation

11 p1841 A71-25196

Finite element method for stiffness matrix free vibration analysis of thin rectangular plates under central planar loadings

[AIAA PAPER 71-334] 11 p1842 A71-25313

Harmonic vibrations of rib reinforced rectangular elastic plates with two freely supported parallel edges, deriving method for natural frequencies and forced vibration

11 p1848 A71-25580

Inextensible elastic Cosserat surfaces finite deformation mechanisms, applying theory to flexure of rectangular plate into closed circular cylinder and helical strip

11 p1849 A71-25681

Temperature and membrane thermal stress distribution in finite rectangular plate with insulated circular hole, considering steady state heat conduction equation

11 p1852 A71-26404

Plane stress distribution solution for rectangular elastic plastic plate under partial edge loading, using incremental theory

12 p1976 A71-27122

Spherical head projectiles collision with hemispherical shells and square plates with and without protective covering, calculating stress distribution

12 p1976 A71-27160

Natural frequencies and elastic stability of simply supported rectangular plate under linearly varying compressive loads

12 p1976 A71-27162

Stretching, twisting, pure bending and flexure of pretwisted elastic rectangular plates of rectangular cross section

13 p2147 A71-27783

Rectangular plate bending elements displacement functions representation by trigonometric expressions, using finite element method

13 p2147 A71-27790

Elastic stability and buckling behavior of transversely isotropic rectangular Mindlin plate under initial stress and displacement

14 p2324 A71-29871

Finite element midincrement stiffness matrices in postbuckling analysis of imperfect strut and rectangular plate

15 p2503 A71-31420

Rectangular plates with unidirectional stiffeners, calculating natural frequencies and mode shapes with approximate method

15 p2507 A71-32128

Optimal rectangular plates with adaptability, using convex programming

15 p2508 A71-32232

Monograph on rectangular shear elastic plates stability covering Cosserat plane, stress functions, buckling conditions, compressive forces and two dimensional equations

15 p2509 A71-32302

Rectangular plates under direct and shear in-plane forces, considering free lateral vibrations

15 p2509 A71-32512

Finite element method application to stress distribution analysis at crack tip of rectangular plate under tension, obtaining elastoplastic response to cyclic loading

16 p2653 A71-33086

Small deflection analysis within Cartesian coordinate system applicable to elastic-plastic rectangular plates bending under Tresca yield criterion

16 p2654 A71-33122

Stiffened rectangular plates parametric instability under in-plane sinusoidal dynamic forces, using mathematical model with stiffeners as discrete elements

[ASME PAPER 71-APM-26] 16 p2655 A71-33203

Isotropic sandwich plates with rigid cores due to shear boundary tractions, considering transverse strain and stress, displacement function and stability

16 p2660 A71-34035

Infinite length rectangular thin plate bent by uniform load, presenting exact solutions for stresses and displacements from couple-stresses plane strain elasticity theory

17 p2818 A71-34441

Rectangular plate with two adjacent sides clamped and two supported, solving bending problems with linear algebraic vector equations

17 p2824 A71-34846

Rectangular flexible plate displacement theory, solving boundary value problems with fractional step method

17 p2824 A71-34848

Thermal stressed state and bending theory of rectangular plate by initial function method, allowing for distributed transverse load

17 p2829 A71-35304

Equilibrium bifurcation for nonlinearly elastic incompressible body during finite subcritical homogeneous deformation, obtaining characteristic equations for cylindrical shell, circular and rectangular plates, etc

17 p2832 A71-35609

Free edge effect on critical loading of rectangular sandwich plate with asymmetrical structure and rigid filler

17 p2833 A71-35622

Clamped rectangular plate buckling under uniaxial and biaxial compression, obtaining critical loads for various aspect ratios

18 p2979 A71-36360

Fundamental frequency of large amplitude bending vibration of elastic and isotropic rectangular plates, considering effects of transverse shear and rotatory inertia

18 p2980 A71-36496

Rectangular cantilever plate free vibration under in-plane acceleration loads, calculating frequencies and mode shapes by Ritz method and computer technique

19 p3157 A71-37850

Isotropic viscoelastic plates of variable thickness subjected to mechanical and thermal stress, considering circular and rectangular plates vibration by external thermal shock

19 p3160 A71-38480

Compressible viscous gas supersonic flow, observing near wake region behind perpendicular trailing face of rectangular plate with motion, state, energy and continuity equations

21 p3318 A71-40081

Peak resonant response of thin rectangular plate with elastic edge restraint under concentrated load

[ASME PAPER 71-VIBR-6] 21 p3456 A71-40269

Five-layer rectangular sandwich plate containing two soft orthotropic cores and three plate stiff isotropic layers

[ASME PAPER 71-VIBR-48] 21 p3459 A71-40297

Flexural vibration of rectangular orthotropic plates under in-plane hydrostatic forces

21 p3464 A71-40768

Bending of semiinfinite rectangular plates clamped at long edges

21 p3464 A71-40770

Rectangular plate under lateral and inplane pressure pulses, examining transient response with Mathieu equation

21 p3471 A71-41023

Rectangular laminated orthotropic plates natural vibrations analysis, using extended Ritz technique

21 p3471 A71-41024

Stress intensity factors analysis of strip with longitudinal crack subject to tension and bending along edges and tension of rectangular plates with central crack

22 p3614 A71-41709

Plane wave propagation following thin elastic rectangular plate impact against smooth rigid obstacle, using difference scheme

22 p3531 A71-41910

Singly and nonsingly connected thin elastic rectangular plate stability analysis under arbitrary compression load on surface

23 p3777 A71-43423

Divergence behavior of flat rectangular panel at subsonic speeds, discussing boundary conditions, natural vibration modes and temperature effects

24 p3878 A71-44611

Geometrically nonlinear elastoplastic bending of rectangular flexible plates with various side ratios, using finite difference and strain theory

24 p3883 A71-44849

Small deflection theory for steady state creep bending of laminated anisotropic rectangular plate under uniform loads, using Galerkin method

24 p3841 A71-44957

RECTANGULAR WIND TUNNELS

Return circuit rectangular wind tunnel design, construction, instrumentation and calibration, discussing drive, jet inclination, velocity distribution, etc

08 p1272 A71-21305

Rectangular wind tunnel study of suction effect on velocity profiles and characteristics of turbulent boundary layer

20 p3213 A71-39788

RECTANGULAR WINGS

Thin rectangular wing load distribution in nonstationary incompressible flow, using downwash integral equation Fourier transform

09 p1383 A71-22946

Gust transfer functions relating lift and moments to upwash in single sinusoidal wave for large aspect ratio rectangular wings in turbulent incompressible flow

14 p1716 A71-30604

German monograph on incompressible potential flow field calculation about thick rectangular wings with control surfaces and ground effects

15 p2347 A71-32307

Space shuttle booster configuration design, comparing stowed, fixed straight and delta wing approaches, discussing air breathing engines, stage mating, fins, etc

18 p2972 A71-36444

Straight or moderately sweptback wings tip shape effect on vortex sheet roll, using detachment laws
20 p3176 A71-39418

Subsonic force effect calculations on rectangular wings, using downwash velocity potential method
24 p3789 A71-44613

RECTIFICATION

Specific contact resistance at zero bias as measure of ohmic or rectifying behavior of metal-semiconductor barrier under operating conditions
19 p3117 A71-37485

RECTIFIERS

NT AVALANCHE DIODES
NT CRYSTAL RECTIFIERS
NT GERMANIUM DIODES
NT THYRATRONS
NT THYRISTORS

Cyclotron wave rectifier for S band and X band microwave conversion to DC or LF AC power
07 p1080 A71-20451

Microwave receiving antenna with solid state power rectifier for converting energy from space solar cell array into DC power on earth
13 p2000 A71-28671

Monograph on strong signal behavior of control systems containing multiphase rectifier, covering stability of high power sources
19 p3039 A71-38550

RECTUM

Hemorrhagic rectocolitis in flying personnel in terms of etiologic, evolutive and therapeutic aspects
01 p0028 A71-11596

RECUPERATORS

U REGENERATORS
RECURSION FORMULAS
U RECURSIVE FUNCTIONS
RECURSIVE FUNCTIONS

Local invariants under axial rotation, deriving recurrence relations for time series expansions and perturbation methods
01 p0154 A71-10387

Recursive triangular algorithm for Lie transformation from introduction of small parameter into generating function and Hamiltonian
05 p0774 A71-16543

Perturbation method in nonlinear oscillations theory, using asymptotic recurrence formulas based on Lie transform
05 p0774 A71-16544

Thin isotropic plate nonstationary coupled thermoelasticity problem, obtaining recursion equation system for thermal stresses
06 p0983 A71-17367

Recursively defined infinite system convergence solutions for initial and boundary value inequalities, applying to differential game stability problems
06 p0920 A71-18237

Derivative approximation techniques for recursive signal detection, using computer program for solving optimum and suboptimum processes signal to noise ratio in effectiveness evaluation
08 p1255 A71-21596

Series inverse in powers of time and radius of convergence for universal form of Kepler equation, discussing recursion formulas for coefficients
09 p1516 A71-22174

Automatic computer program synthesis based on theorem proving approach for construction of recursive and iterative programs operating on natural numbers, lists and trees
10 p1581 A71-23968

Suboptimal estimation of remaining flight distance of aircraft at each radar range measurement by limited state recursive estimators
11 p1741 A71-25489

French monograph on nonlinear recurrences solutions and applications to sampled data systems
12 p1928 A71-26567

Recursion formulas for mapping entire earth ellipsoid on plane in single zone of Gauss-Kruger projection
12 p1900 A71-26970

Analog recursive computer with serial digital program for arithmetic unit and storage system control
12 p1884 A71-27150

Explicit recursive algorithms for construction of Lie and von Zeipel transformations
13 p2135 A71-28357

Real time computable partial recursive functions of n variables with expectancy estimate on Minsky machines
13 p2096 A71-28976

Electromagnetic wave multiple scattering by collinear spheres, computing radar cross sections with recursion relation for computer solution
17 p2701 A71-34757

Recursive algorithms for detection probabilities of fluctuating targets in Gaussian noise, including cell averaging constant false alarm rate (CFAR) extension
20 p3195 A71-38860

RED ARCS

Stable midlatitude red arc in night sky south of auroral zones, reviewing observed features, ionospheric behavior and formation theories
07 p1098 A71-19322

Subauroral red arcs phenomenon hypotheses based on associated ionospheric plasma properties measurements
07 p1102 A71-19663

Hydrogen ion concentration measurements by OGO 5 in plasmasphere during intense magnetic storms accompanied by stable auroral red arcs
10 p1605 A71-24787

Stable auroral red arcs on 29 September 1967, 31 October and 1 November 1968, comparing OGO 2 and OGO 4 VLF data on plasmapause crossings
15 p2397 A71-31757

Stable auroral red arcs generation at plasmapause from ion cyclotron wave turbulent dissipation of ring current proton energy
16 p2572 A71-33947

Stable auroral red arc excitation observations by HF radar scattering, scanning photometers and Alouette 1 satellite, noting local electron concentration increase
19 p3054 A71-38034

Plasmaspheric ambient hydrogen and helium atomic cations density measurement by OGO 5 ion mass spectrometer during magnetic storm, noting relationship to auroral red arcs
20 p3227 A71-39833

Stable auroral red and hydrogen arcs simultaneous spectrographic triangulation, noting correlation
20 p2322 A71-39895

RED BLOOD CELLS

U ERYTHROCYTES

RED SHIFT

Cosmological models with noninteracting matter and radiation, deriving red shift and luminosity-distance relationship
02 p0312 A71-12464

Mean cosmic density determinations, obtaining field galaxy luminosity function moments with red shift catalogs
02 p0313 A71-12499

Quasars spatial distribution and luminosity functions based on red shift observation
02 p0314 A71-12576

High red shift quasars linear polarization, examining absorption lines and depolarization due to Faraday rotation
04 p0649 A71-15272

Multiple absorption red shifts in quasars, discussing measured properties and negative clues
04 p0650 A71-15584

Primeval intergalactic magnetic field existence, observing radio sources rotation distribution and red shift
05 p0805 A71-16108

NGC 7320 as companion galaxy to NGC 7331 rather than member of Stephens quintet, considering red shift texture, lack of distortion and luminosity
05 p0805 A71-16110

Strong and weak emission red shifts of N galaxy 3C 390.3 in Balmer lines, indicating nonisothermal source and gas ejection
05 p0807 A71-16210

External galaxies radial velocity relationship to extragalactic nebulae spectral lines red shift
07 p1200 A71-20054

Quasars red shift and absorption lines observations, discussing distance measurement, brightness and intergalactic matter
07 p1200 A71-20211

Galactic optical radial velocity measurements compared to 21 cm red shifts derived velocity
08 p1357 A71-20873

Cosmic objects and phenomena research, considering matter and galaxy compacting and dispersing processes, red shift, quasars, etc
08 p1358 A71-20890

Field galaxy cosmological reddening from red shift data at faint magnitudes
09 p1516 A71-22063

Radiative transfer theory extended to cosmological red shift and expansion effects on uniform isotropic X rays and gamma rays in homogeneous intergalactic medium
09 p1512 A71-22333

Diffuse interstellar features in spectrum of reddened star in Cygnus OB2 stellar association, tabulating equivalent widths of H alpha and stellar He I line
10 p1665 A71-23749

Book on relativity and discretization in astronomy covering cosmic structures, galactic isopleths equilibrium theory, red shift discretizations, etc
10 p1670 A71-24210

Gravitational red shift in standard and isotropic forms of Schwarzschild metric
11 p1822 A71-25592

Quasar evolution, considering cosmological red shifts
12 p1958 A71-26695

Optical luminosity function and space density of quasars from 4C and Parker survey, assuming cosmological red shifts
12 p1966 A71-27233

Universe global structure and quasar frequency distribution based on red shifts and cosmological interpretations
12 p1968 A71-27642

Large and small red shift quasars relative probability correlation with cataloged galaxies clusters direction
14 p2315 A71-30656

White dwarf discovery method and properties, discussing color, spectra, parallaxes, luminosities, masses, red shifts, cluster and frequency distribution
14 p2316 A71-31005

Quasar mass lower limit estimation from emission and absorption red shift data
15 p2483 A71-31368

Astronomical 4C catalog radio sources statistical analysis, showing mean spectral indices dependence on radio emission fluxes and red shifts
15 p2487 A71-32037

Excess red shift of Fraunhofer lines at extreme limb explained by mechanism of radial currents in solar atmosphere
16 p2629 A71-32807

Scientific cosmology principles, considering distant galaxies red shift and galactic evolution
16 p2611 A71-33279

Statistical analysis of radio structure of quasars, considering red shift and anisotropy in angular size distribution
17 p2811 A71-35746

Upper limits to quasars masses with optical emission lines inside radio sources, using method independent of red shift composition
18 p2961 A71-35965

Quasar red shifts distribution, indicating discretization in form of geometrical series
19 p3142 A71-38154

Mass of virtual particle responsible for gravitation of vacuum and expansion of universe, considering correspondence to red shift in quasar spectra
19 p3146 A71-38644

Mass and discrepant red shifts theory, discussing time dependent gravitational constant, Friedmann cosmological model and Dirac equation
20 p3305 A71-39956

Closed formula for relation between luminosity and red shift in expanding Friedman universe for positive cosmological constant, positive space curvature and vanishing pressure
21 p3443 A71-40186

Quasars emission line red shifts distribution observations, evaluating selection effects
22 p3605 A71-42351

Sirius B white dwarf star effective temperature, radius and gravitational red shift determination from H-alpha and H-gamma line profile analysis
24 p3871 A71-44908

REDUCED GRAVITY

Mercury droplet dynamics in conducting liquid within electromagnetic field under reduced gravitation
02 p0293 A71-12631

Nonlinear free surface effects in low gravity tank draining, finding domains of validity for linearized and nonlinear analysis
03 p0399 A71-13439

Liquid oxygen nucleate boiling in simulated reduced gravity fields, obtaining heat transfer coefficients, departure frequency and bubble growth rate
04 p0687 A71-15536

Liquid sloshing in liquid propellant containing orbiting vehicle stabilized by active control system, examining expression for ring baffle slosh damping under reduced gravity
09 p1532 A71-22913

Biosatellite 3 reduced gravity environmental laboratory with subhuman primate on 30 day mission, discussing ground base tests, simulated and actual flight
09 p1400 A71-23238

Human performance in various locomotive tasks under simulated lunar reduced gravity conditions, classifying test stands and equipment
15 p2362 A71-31304

Low gravity field phenomena, discussing vertical jump on moon, ball trajectories launched from asteroid and voyage to neutron star
22 p3600 A71-41983

REDUCTION [CHEMISTRY]

NT DEOXYDIZING

NT HYDROGENATION

Double beam monochromatic differential cinespectrophotometer for recording oxidation/reduction reactions in intercellular pigments
01 p0021 A71-10243

Redox estimation from natural phase Eu ion concentrations in rocks
01 p0029 A71-11428

Niobium processing methods from economic standpoint, describing pyrochlore metallothermic reduction
02 p0271 A71-12938

Oxygen reduction on Teflon bonded Pt electrodes, eliminating concentrated overvoltage
02 p0210 A71-12955

Oxide bronzes as oxygen reduction catalysts in batteries and fuel cells, considering effects of varying compositions and crystal faces
03 p0374 A71-13054

- Zinc reduced di(4-pyridyl) ketone methiodides, examining electronic and electron spin resonance spectrum 03 p0377 A71-14301
- Rats and mice blood redox potentials injected with cystamine, investigating increased radioprotection 07 p1039 A71-18980
- Vitamin K3 effect on redox equilibria in red cell, discussing radiosensitizer mechanism 07 p1039 A71-18985
- MnO oxidation reduction kinetics measurement in carbon monoxide/dioxide atmospheres by gravimetry and electrical conductivity 08 p1318 A71-20698
- Silver oxides stability, considering solubility, reduction by hydrogen and thermal decomposition 08 p1234 A71-21085
- Thoria containing Ni and Co base powders reduction in hydrogen atmosphere for precipitation hardened materials production, determining optimal thermodynamic and reaction kinetic factors 09 p1475 A71-23306
- Thermal reduction methods for refractory metal powders of W, Mo, Zr, V, Hf, Nb, Ta and Ti 09 p1457 A71-23389
- High chromium low carbon steel, detailing oxygen content effects on high temperature reduction intercrystalline corrosion and grain growth 15 p2427 A71-31528
- Photoreduction regulation in Rhodospirillum rubrum by ammonium chloride, discussing nitrogen fixation and protein metabolism 16 p2527 A71-33058
- Gas exchange metabolic fluctuations of nitrogen fixation, hydrogen evolution and photoreduction in Rhodospirillum rubrum as function of culture conditions and age 16 p2528 A71-33059
- Proton irradiation damage on lunar surface, considering solar wind sputtering, reduction, chemical bond breakage and electron paramagnetic resonance 24 p3867 A71-44423
- REDUNDANCY**
- Data acquisition system using associative processor for redundancy removal algorithm 01 p0050 A71-10983
- Redundancy effects on human memorization working capacity, noting application to memory systems design 07 p1043 A71-20113
- Redundancy verification of parallel systems related to element MTBF and decision maker perspective involving acceptance risk of system failure 16 p2582 A71-33292
- Redundancy information effect on human performance in forced pace cognitive tasks under overload stimulus presentation rates 16 p2536 A71-33679
- Redundancy approach to information systems synthesis 17 p2720 A71-34952
- Statistical limits on reliability, informativeness, controllability and self organization of complex systems, determining minimum redundancy requirements for suppressing interfering factors 17 p2720 A71-34953
- Redundancy in receptive neuronal nets, examining structural and functional organization of generalized biological analyzer peripheral section 17 p2690 A71-34956
- Redundant information optimizer design, using nonlinear elements 17 p2720 A71-34957
- Redundancy utilization in automatic control systems synthesis, considering dynamic characteristics sensitivity 17 p2721 A71-34965
- Additional redundancy in information transmission systems with feedback to reduce error probability due to incorrect addressing 17 p2702 A71-34975
- Redundant strapdown Inertial Measurement Unit processor recovery requirements, investigating IMU information loss effects during recovery on spacecraft mission 17 p2772 A71-35058
- Reliability engineering, reviewing MTBF, redundancy, complexity effects on failure rate, reliability prediction, repair and replacement cost and test techniques 18 p2928 A71-36806
- Three degree of freedom perturbed two body problem, applying theory of redundant variables to Lagrangian equations of motion 19 p3143 A71-38163
- Error correction by tapped delay line coded equalizer and channel introduced redundancy, deriving upper bound for error probability 22 p3512 A71-42377
- REDUNDANCY ENCODING**
- Speech signals digital encoding with adaptive linear predictor for reducing redundancy, discussing digital simulation results and subjective comparison with log-PCM encoder 01 p0030 A71-10472
- PCM signal encoding redundancy reduction using discrete code transformation, considering telephony implementation 08 p1255 A71-21593
- Data transmission with redundancy, discussing optimum data compressing encoding of correlated source signals through linear transformation 12 p1883 A71-27009
- Soviet book on space radio telemetry systems characteristics, design, requirements and operation conditions covering noise stability, reliability and redundant codes 17 p2699 A71-34521
- Soviet papers on information systems redundancy using redundant algorithms and structures and redundant coding theory 17 p2720 A71-34951
- Redundant variables method as solution to problem of functional coding and algorithm synthesis, examining error control and correcting properties 17 p2701 A71-34963
- Analog error correcting redundancy codes, examining coding and decoding procedures 17 p2701 A71-34967
- Information effectiveness of redundant error detecting coding systems 17 p2702 A71-34968
- Redundancy encoding with error correcting codes for controlling results of rational operations series in residual classes system 17 p2710 A71-34976
- Random access signaling system application to aircraft control, discussing signal redundancy requirement for access capability optimization based on radio environment model 17 p2747 A71-35783
- Majority-logic decodable block codes construction by combining shorter length codes, obtaining correctable error bounds 20 p3201 A71-38873
- Large random access computer store based on redundancy in form of error correcting codes, discussing use for manufacturing yield improvements 24 p3806 A71-44655
- REDUNDANT COMPONENTS**
- Redundant structure dynamic analysis for forced and free vibrations, using finite element rank force method 05 p0829 A71-17120
- Two-unit redundant repairable system with standby, predicting periodic or random inspection effect on reliability through Laplace transforms 06 p0904 A71-18026
- Intelsat 3 satellite reliability program, discussing test procedures, redundancy, tradeoff against weight, etc 06 p0877 A71-18404
- Optimum orientation and accuracy of redundant sensor arrays in space navigation, guidance and attitude reference systems 06 p0925 A71-18518
- Spacecraft computer centered data systems with standby redundancy, automated flexibility and LSI devices for grand tour mission 08 p1260 A71-21846
- Reliability of redundant repairable systems with preventive maintenance, determining mean time between failures 11 p1769 A71-25660
- Parallel and standby redundancy systems with priority or noninstantaneous switchover, applying renewal theory integral equation 11 p1772 A71-26163
- Mission reliability calculations for systems with redundant units, considering design of airborne warning and control system and other radar control systems 12 p1885 A71-26675
- Intelsat 4 transmission subsystems design, discussing alternative high power amplifier configurations, redundancy and emergency routing of transmitted RF carriers 12 p1894 A71-26992
- Computerized minimum weight design of elastic redundant trusses under multiple static loads, using algorithms for generating upper and lower bounds for configuration [AIAA PAPER 71-362] 12 p1980 A71-27409
- Third Chance flight control system, discussing aircraft control capability with backup hydraulic system after loss of dual main hydraulic systems due to combat damage 13 p1998 A71-29382
- Aircraft ILS signal reception system, obtaining category III reliability performance by circuit redundancy and automatic incoming information surveillance 15 p2446 A71-31912
- Soviet papers on information systems redundancy using redundant algorithms and structures and redundant coding theory 17 p2720 A71-34951
- Redundant modules introduction in microelectronic systems for increased reliability 17 p2716 A71-34954
- Redundancy method for correct performance of flexible structure with faulty elements prepared from microelectronic information media 17 p2720 A71-34955
- Binary relation algebra application to diagnostics tests for system involving redundant subsystems 17 p2720 A71-34960
- Redundant algorithms and structures, analyzing anisotropic systems described by continuous differentiable functions 17 p2710 A71-34962
- Filtering methods for reducing systematic errors of measuring system with structural redundancy 17 p2740 A71-34964
- Reliability analysis of redundant information systems, deriving formulas for risk of failure and faultless operation probability 17 p2721 A71-34966
- Strapdown or gimbaled inertial measurement units for space shuttle program, considering reliability, redundancy and cost of ownership 17 p2772 A71-35059
- ST-224 redundant inertial measurement system, using conventional gimbaled platforms, each with three skewed single-degree-of-freedom control gyro and one caged gyro 17 p2773 A71-35060
- Optimum skew angle between redundant inertial systems, considering component weight, MTBF and duty cycle 17 p2773 A71-35062
- Redundant solid state sequencer programmable via core memory, using two identical channels to prevent wrong output 18 p2885 A71-36449
- Space shuttle avionics system redundancy, calculating costs for individual line replaceable units 18 p2889 A71-36479
- Space shuttle design concerning fault detection and isolation, redundancy and maintenance for cost and downtime minimization by application of airline methods 18 p2900 A71-36480
- Commercial aircraft reliability and maintainability design philosophy application to reusable space vehicles, considering optimum redundancy, dispatch with component inoperative and fault isolation 18 p2973 A71-36481
- Symphonic telecommunication satellite attitude control system, describing operational principle based on gyroscopic inertial reference and redundant IR sensors 18 p2974 A71-36525
- Computerized automatic redundancy management for space shuttle guidance, navigation and control, using fly by wire control technique for in-flight failure detection and correction [AIAA PAPER 71-946] 19 p3098 A71-37187
- Skewed and orthogonal redundant reaction wheels comparison for outer planet exploration spacecraft attitude control based on reliability analysis [AAS PAPER 71-157] 19 p3101 A71-37926
- Priority standby redundant system consisting of two repairable units, considering preemptive and non-preemptive repair for system failure 21 p3386 A71-40364
- Redundancy optimization of series-parallel k-out-of-n systems for maximum reliability subject to multiple cost constraints 21 p3388 A71-40878
- Memory cell fault tolerant sequential machine synthesis, considering masking feasibility and lower bounds on minimum redundancy 21 p3351 A71-41036
- Imaging with low redundancy arrays, noting holography role in image processing 22 p3538 A71-41736
- Soviet book on automatic control and computer components reliability, explaining redundancy principles and test and repair procedures 22 p3526 A71-41820
- Relcomp conversational time-sharing computer program for rapid calculation of reliability and MTBF of systems with serial and redundant units 22 p3517 A71-42103
- Computerized system redundancy optimization formulation as zero-one type variables integer programming problem, obtaining algorithmic solution for maximum reliability 22 p3517 A71-42106
- Optimal redundancy and availability allocation for MTBF and time to repair in multistage system, using dynamic programming 22 p3518 A71-42116
- Control system effectiveness improvement, using redundancy and self adaptive techniques 23 p3655 A71-43291

REENTRY ANGLE

- Nonequilibrium electron temperature, concentration and reflection in reentry boundary layers, discussing heat transfer and ionization energy diffusion [AIAA PAPER 69-82] 07 p1015 A71-19879
- ## REENTRY ANGLE
- U ANGLES [GEOMETRY]
- ## REENTRY TRAJECTORIES
- ## REENTRY BODIES
- ## REENTRY VEHICLES
- ## REENTRY COMMUNICATION
- S band PCM telemetry system using frequency diversity for spin stabilized high velocity blunt nosed reentry vehicle signal reception 01 p0163 A71-10980
- ## REENTRY CONDITIONS
- ## REENTRY EFFECTS
- Reentry environment simulation at vehicle stations away from stagnation point, using arc heater with supersonic nozzle duct [AIAA PAPER 71-261] 08 p1274 A71-21988
- Entry vehicle carbon vapor thermochemistry uncertainties effects on nose tip ablation response concerning stagnation point surface recession and temperature levels [AIAA PAPER 71-414] 11 p1857 A71-26207
- Total normal emittance under simulated reentry conditions, using emissometer with aluminum oxide reference cavity integral within sample [AIAA PAPER 71-468] 11 p1764 A71-26249
- Rate constant measurements of hot plasma electron attachment from ion current collection plots for communication during atmospheric entry 12 p1939 A71-27272
- V groove cathode discharge produced He plasma parameters studied for reentry electron density and temperature simulation, correlating energy flux and microwave noise emission 12 p1895 A71-27273
- Wide range nonimmersive RF coil with marginal oscillator for plasma electrical conductivity measurements tested for simulated reentry vehicle 12 p1908 A71-27285
- Radiation pattern modification factors calculation for TE excited slot antenna in ground plane covered with inhomogeneous plasma reentry sheath 23 p3646 A71-44172
- ## REENTRY GLIDERS
- ## U LIFTING REENTRY VEHICLES
- ## REENTRY GUIDANCE
- Mathematical model for optimal control of spacecraft reentry into atmosphere 09 p1519 A71-22558
- Spacecraft banking control during reentry, deriving dynamic equations of angular motion 16 p2646 A71-33655
- Two step spacecraft reentry guidance involving skip trajectory at parabolic speeds, proposing algorithm for running coordinate and speed vector components values 24 p3846 A71-45301
- ## REENTRY PHYSICS
- Three dimensional ablation calculated for reentry sphere-cone taking into account shape changes and internal heat conduction [AIAA PAPER 70-199] 01 p0180 A71-10952
- Space aerodynamics, examining reentry, flow ranges, pressure field visualization and real gas and rarefaction effects 01 p0162 A71-11450
- Spacecraft reentry aerodynamics regarding hypersonic high altitude lifting bodies, shock wave and flow field, heat, mass and energy transfer, etc [ICAS PAPER 70-01] 02 p0185 A71-11686
- Mesosphere and stratosphere data from high level observations for supersonic transport and reentering space vehicle operations 08 p1328 A71-21724
- Water cooled channel flow test device for arc jet material ablation studies, simulating reentry environment of high energy turbulent boundary layer flow [AIAA PAPER 71-260] 08 p1273 A71-21987
- Reentry heating simulation, noting UV radiation effects as shock layer thickness decreases [AIAA PAPER 71-467] 11 p1859 A71-26248
- Hypersonic reentry flow over blunt nosed bodies, using water oxygen mixture to achieve simulation at lower stagnation temperatures 11 p1705 A71-26270
- Wire grid simulation of electron density, transmission and reflection of lossless and lossy reentry plasma sheath under microwave radiation at X and K bands 12 p1935 A71-26767
- Experimental proof of combustion phenomena in reinforced plastics ablation under simulated atmospheric reentry, using arc plasma jets 12 p1987 A71-27721
- Flow mechanics with emphasis on reentry problems - Conference, Goettingen, West Germany, March 1971, Volume I 18 p2845 A71-36407

- Reentry plasmas ionization and microwave and optical radiation properties, considering radar echo, electromagnetic scattering, thermal equilibrium and ablation products 18 p2952 A71-36422
- Radiation role in nonequilibrium boundary layer during atmospheric reentries at speeds exceeding escape velocity 21 p3368 A71-40694
- Spacecraft communication cut-off during atmospheric reentry due to thermal ionization of gas boundary layer, discussing sulfur hexafluoride injection alleviation and electrostatic probe 22 p3583 A71-41998
- Combustion and chemical reactions near wall, in forced convection, boundary layer transition, radiation and ablation of missile reentry 24 p3890 A71-45148
- Spacecraft motion control algorithm for reentry at escape velocity based on object motion model 24 p3846 A71-45305
- ## REENTRY SHIELDING
- Temperature profile similarity and thermal protective coating thickness for single reentered spacecraft [AIAA PAPER 71-37] 06 p0916 A71-18498
- Static aerodynamic characteristics of slender ablating reentry vehicle, discussing coupling between flow field and thermochemical analyses of heat shield materials response [AIAA PAPER 70-826] 11 p1854 A71-25512
- Protective coatings of Ta, Nb and TD alloys for high performance thermal protection systems, discussing space shuttle reentry heat shield 11 p1778 A71-25554
- Graphite materials for nosetip/reentry applications, discussing isostatically pressed short fiber-pitch composites and binderless graphites, ablation data and NDT procedures [AIAA PAPER 71-417] 11 p1790 A71-26341
- High hyperthermal ablation performance of reinforced carbon-carbon composites for reentry nosetip application [AIAA PAPER 71-416] 12 p1920 A71-26764
- Radioisotope heat sources protection from reentry ablation and thermal stress with outer anisotropic pyrolytic graphite shield 13 p2099 A71-29259
- Carbon-carbon spacecraft reentry heatshields evaluation and selection by nondestructive and destructive tests on flight cones 14 p2262 A71-29647
- Mechanical and thermal properties of chemical vapor deposited carbon composite felt material for reentry heat shielding 14 p2262 A71-29648
- Aerodynamic heating of reentry vehicle, suggesting shielding by radiative cooling 18 p2848 A71-36432
- ## REENTRY TRAJECTORIES
- Lifting oscillatory reentry trajectories, developing equation method to consider density and velocity distributions 02 p0320 A71-12403
- N interval trajectory estimation computer program minimum variance adjustment technique, discussing airborne astrogaphic camera system for reentry bodies position determination 04 p0556 A71-15330
- Atmospheric reentry trajectories optimization by differential dynamic programming 08 p1363 A71-21347
- Winged lifting body quasi-optimal reentry trajectory for minimum flight time, taking into account angle of attack control and angular motion inertia 08 p1367 A71-22038
- Lunar swingby trajectory analysis with atmospheric reentry, characteristics of geocentric portions of earth-moon and moon-earth transfers 09 p1519 A71-22546
- Graphite heat shield ablation during low velocity low altitude portion of satellite reentry trajectories [AIAA PAPER 71-415] 11 p1857 A71-26208
- Adaptive roll control of space vehicle on reentry trajectory, analyzing spacecraft angular motion dynamic equations for optimal conditions determination 12 p1926 A71-26719
- Computerized automatic control system for atmospheric reentry, combining computational prediction of motion parameters with closed loop feedback 12 p1926 A71-26720
- Spacecraft landing trajectory minimization for lower reentry maneuver space bound at orbital speeds and fixed point coordinates 13 p2145 A71-29177
- Spacecraft optimal atmospheric reentry trajectory for minimum flight distance, investigating angle of attack control with allowance for load constraints 13 p2143 A71-29229
- Spacecraft reentry trajectory angle of attack control by mechanically varying center of mass for axial loads 16 p2645 A71-33443

- Airborne astrogaphic camera system for simultaneous determination of multiple object reentry trajectories at Air Force test range 18 p2918 A71-36077
- Lifting entry trajectory control law based on uniform drag, affording heating rate and deceleration control [AIAA PAPER 71-915] 19 p3096 A71-37165
- Reentry glider approximate optimal atmospheric entry trajectories for maximizing function of terminal velocity, altitude, flight path and heading angle under terminal nonlinear constraints [AIAA PAPER 71-919] 19 p3096 A71-37168
- Three dimensional hypervelocity reentry trajectories, using aerodynamic lift and vehicle bank angle as optimal control parameter [AIAA PAPER 71-920] 19 p3096 A71-37169
- Reentry vehicles trajectory reconstruction by computer program and Kalman filter estimation theory, analyzing instrument errors [AIAA PAPER 71-933] 19 p3097 A71-37178
- Nonlinear filters performance comparison for reentry vehicle trajectory estimation from radar tracking, noting coordinate systems effect on extended Kalman filter accuracy 19 p3039 A71-38712
- Spacecraft trajectories for reentry at hypersonic velocity, examining aerodynamic control loads and characteristics in atmospheric skip 20 p3288 A71-39122
- ## REENTRY VEHICLES
- NT APOLLO SPACECRAFT
- NT BOOSTGLIDE VEHICLES
- NT LIFTING REENTRY VEHICLES
- NT REUSABLE SPACECRAFT
- NT VOSTOK 2 SPACECRAFT
- Ballistic reentry warheads atmospheric interception, investigating defensive nuclear bursts effects 01 p0163 A71-10268
- Shape and surface roughness effects on turbulent ablation of reentry body nose tip, noting recession rate [AIAA PAPER 69-717] 01 p0071 A71-10934
- S band PCM telemetry system using frequency diversity for spin stabilized high velocity blunt nosed reentry vehicle signal reception 01 p0163 A71-10980
- Antenna and telemetry system for spherical shell ICBM reentry vehicles data link to ground 01 p0036 A71-10986
- Soviet book on ballistics of flight vehicles during atmospheric reentry 02 p0319 A71-11844
- Reentry vehicle angle of attack control by mechanically varying center of mass for axial loads 05 p0779 A71-16039
- Roll resonance in reentry body motion under nonlinear pitch, damping and Magnus moments, using multiple scales method [AIAA PAPER 71-47] 06 p0979 A71-18508
- Dynamic damping coefficient extracted from flight test lateral rate data telemetering ablative reentry vehicle [AIAA PAPER 71-49] 06 p0980 A71-18510
- Atmospheric reentry dynamics of spinning body with trim angle of attack 07 p1205 A71-18892
- Ballistic reentry vehicle roll related to trim angles caused by inertia asymmetries [AIAA PAPER 70-204] 07 p1208 A71-19867
- Transpiration cooling of reentry vehicle nosetips, noting two dimensional aspects of porous wall coolant flow and matrix-coolant energy exchange [AIAA PAPER 69-96] 07 p1223 A71-19869
- Exact expression for minimum range sensitivity deribit from elliptical orbits for ballistic atmospheric entry vehicle, considering retrovelocity 07 p1199 A71-19873
- High turbulent flow simulation in hypervelocity wind tunnel for reentry vehicles operational testing, discussing nozzle gas dynamic and mechanical design [AIAA PAPER 71-253] 08 p1273 A71-21982
- Effect of asymmetrical inviscid flow from Trail-blazer flight measurements, discussing windward leeward attenuation variation in transmitted VHF signal 09 p1406 A71-22916
- Continuous flow arc air heater for reentry vehicle components ground testing, achieving combined high pressure and enthalpy [AIAA PAPER 71-259] 09 p1429 A71-23061
- Cylindrical spacecraft reentry body self-sustained pitching oscillations due to separation on downstream portion, examining stability derivatives 09 p1533 A71-23604
- European research on reentry vehicle configurations, noting French concentration on flow fields and German emphasis on overall shape and control surfaces 10 p1684 A71-24848
- Transient resonance response of slender entry vehicles in rolling trim at spin-pitch intersection for offset coplanar and orthogonal leading models 11 p1837 A71-25480

Reentry vehicles configuration lift and drag coefficients in hypersonic flow from pressure distribution and balance measurements, comparing with isolated cone data

11 p1702 A71-25487

Reentry vehicles fluidically controlled hydrazine rocket engine modules for roll rate control

[AIAA PAPER 70-650]

11 p1810 A71-25503

Static aerodynamic characteristics of slender ablating reentry vehicle, discussing coupling between flow field and thermochemical analyses of heat shield materials response

[AIAA PAPER 70-826]

11 p1854 A71-25512

Entry vehicle carbon vapor thermochemistry uncertainties effects on nose tip ablation response concerning stagnation point surface recession and temperature levels

[AIAA PAPER 71-414]

11 p1857 A71-26207

Prediction analysis of downstream effectiveness in high speed laminar boundary layer for reentry vehicular surfaces film cooling, using reference enthalpy method

[AIAA PAPER 71-425]

11 p1752 A71-26216

Roll rate variation and lift effect on reentry vehicle impact, comparing analytic treatment with six degree of freedom trajectory simulation

13 p2144 A71-27977

Vibration amplitudes and transverse acceleration of reentry vehicle during uncontrolled atmospheric descent trajectory

13 p2146 A71-29208

Lenticular reentry vehicle configuration, considering aerodynamics, trajectory heating and weight analysis and structural design

15 p2500 A71-31604

Analog analysis of shape history of ablating graphite nose tips of reentry vehicle, eliminating geometrical instabilities

18 p2984 A71-35953

Aerodynamic heating of reentry vehicle, suggesting shielding by radiative cooling

18 p2848 A71-36432

Static and dynamic stability characteristics of X-15 aircraft, lifting body and trapezoidal and delta wing reentry body

18 p2971 A71-36434

Nonlinear motion of asymmetric rolling reentry vehicle with variable roll rate, dynamic pressure and stability derivatives

[AIAA PAPER 71-932]

19 p3148 A71-37177

Aerodynamic heating tests of cone flap reentry vehicle using temperature sensitive paint

20 p3311 A71-39197

Liquid film cooling for slender body type hypersonic reentry vehicles, comparing active mass injection cooling systems to ablation type passive systems

22 p3621 A71-42006

Angular momentum vector orientation of reentry vehicle at end of spin-up, using helicoid precession concept to characterize rotational motion during constant thrust

22 p3611 A71-42029

Propulsive lift augmentation for horizontal landing of low and medium L/D reentry vehicles, determining optimum thrust program

22 p3612 A71-42046

REFERENCE ATMOSPHERES

International Reference Ionosphere (IRI), considering organization, electron density and temperature, ion composition and electron collision frequencies

05 p0742 A71-16971

Cargo airship standard atmosphere operation modes, discussing long range gas capacity and short range applications for large compact loads

11 p1708 A71-26309

Aircraft barometric altimeter errors caused by atmospheric temperature deviations from International Standard Atmosphere

14 p2244 A71-30323

COSPAR international reference atmosphere containing seasonal variations, solar flux and altitude models for density, temperature, pressure and wind

16 p2572 A71-33851

Harvard-Smithsonian reference atmosphere model of solar atmosphere, combining photosphere and quiet lower chromosphere

19 p3146 A71-38660

REFERENCE SYSTEMS

Equilateral tetrahedral and Frank systems compared for standard reference system applications in spatial vectorcardiography

01 p0022 A71-10400

Reference standards for nondestructive ultrasonic inspection for quality control

01 p0091 A71-11424

Neighboring optimum feedback guidance to motivate min-distance lookup parameter determined by minimizing metric function of perturbed state and reference trajectory

[AIAA PAPER 69-888]

03 p0454 A71-13446

Automatic solar and lunar reference guidance system with balanced photoelectric measuring equipment

04 p0591 A71-14846

International geomagnetic reference field 1965 geomagnetic potential rate of change and transformation to dipole coordinates

06 p0888 A71-17282

Lunar surface plan reference systems with no common points comparison with photomechanically obtained scale maps

06 p0976 A71-18448

Lunar reverse side, tabulating reference points on western libration zone and eastern sector

08 p1366 A71-21777

Earth international compartmentalization into equal area elements on reference sphere for spherical functions utilization

10 p1601 A71-24460

Stellar silicon brightness measurement for evaluating SNR and selecting reference star

10 p1679 A71-24951

Information support system for physiological studies of human performance, including indexing approach for references categorization, microfiche file and data bank

11 p1860 A71-25253

Lunar surface no common point systematic reference systems comparison with photomechanically obtained scale maps

12 p1955 A71-26598

Stability of first order gain model reference adaptive control system with sinusoidal input

12 p1973 A71-27580

Aerial and block triangulation error analysis accuracy dependence on reference point number, introducing camera internal orientation improvement

13 p2062 A71-28903

Relativistic formulation of thermodynamics and statistical mechanics in special theory of relativity, noting Ott presentation

13 p2102 A71-29324

Secular parallaxes of reference stars by photometric distances and relative proper motions of open clusters at low galactic latitude

15 p2483 A71-31341

Bibliographic references of articles on solar terrestrial research during IQSY, including geophysical phenomena, international projects and background material

15 p2397 A71-31617

Heading reference system feedback linear control circuits containing fluidic vortex rate sensor applied to turbine drive

15 p2353 A71-32070

Synthesis algorithms for model reference adaptive control systems using Liapunov second and Popov hyperstability methods

15 p2382 A71-32623

Special relativity distinguished from theories based on preferred frame of reference and physical Lorentz contraction by Michelson-Morley experiment in solid transparent medium

16 p2610 A71-33268

Atomic clocks on manned space stations, discussing stability in aerospace environment, techniques for earth based timer calibration, reference device, maintenance and corrections

17 p2743 A71-35056

Reduced state estimator for satellite orbital heading reference, describing decoupled single-skewed-gyro gyrocompass design for attitude control

19 p3148 A71-37206

[AIAA PAPER 71-965] Interference voltage prediction model of induced noise in reference ground of electronic systems

19 p3031 A71-38448

Single point grounding of electronic system providing personnel safety and voltage reference potential

19 p3032 A71-38451

Multivariate statistical analysis of parameters measuring reference stars effects on parallax and error estimates

21 p3444 A71-40195

Radar determination of reference change related to sudden acceleration, deducing Galilean-accelerated reference transition in two dimensional space-time

21 p3415 A71-40513

Self referencing holographic system for image compensation in fluctuating random medium, describing homodyning procedure

21 p3382 A71-40935

Dew point / frost point / reference hygrometer for humidity gage testing in thermohygrostat hygrochamber

21 p3384 A71-41379

Secular parallaxes of reference stars by photometric distances and relative proper motions of open clusters at low galactic latitude

22 p3606 A71-42616

Nitrous oxide dissociation as natural source of stratospheric nitric oxide, noting estimates use as yardstick for artificial source

23 p3642 A71-43347

Automatic resau detection and reference ground control points for computing and correcting geometric and radiometric image for earth resource data, noting correlation with reference system

[AIAA PAPER 71-978] 24 p3806 A71-44576

REFERENCES [STANDARDS] U STANDARDS

REFINING

NT ELECTROREFINING

NT ELECTROSLAG REFINING

Sintered or cast Re refining in vacuum electron beam furnace using water-cooled crystallizer, discussing metal losses during melting

06 p0904 A71-17948

Refining process of Fe-NiCu-Mn alloys, discussing aging kinetics, hardening mechanism and strength properties

11 p1781 A71-26159

Primary high purity Mg refining technique, composition, oxidation and structure

15 p2435 A71-32338

REFLECTANCE

Tropospheric layers radio reflectivity as function of refractivity index and thickness/wavelength ratio

01 p0400 A71-11607

Waveguide microwave load element with separate adjustment for reflection coefficient phase and magnitude

03 p0378 A71-13397

Semitransparent spherical dielectric shell under diffuse incident radiation, determining absorbance and reflectance by Monte Carlo method

03 p0518 A71-13648

Calorimetric method for measuring high signal reflection coefficients at microwave frequencies

04 p0586 A71-14656

Vacuum deposited Mo and Ru films optical properties, emphasizing reflectance measurements

04 p0627 A71-15693

Color sensations and retinex theory, discussing mathematics of lightness scheme and biologic correlate of reflectance

05 p0753 A71-16901

Two layer antireflection coatings on glass for He-Ne lasers, calculating optimal film thicknesses for various substrates and wavelengths

06 p0907 A71-18038

Integrating sphere coatings bidirectional reflectance characteristics, describing reflectometer data for smoked magnesium oxide and Au coated sandpaper samples

06 p0902 A71-18534

Fluoride overcoated Al reflectance measurements and polarization effects at various angles of incidence, noting utilization in vacuum UV instrumentation

08 p1335 A71-21381

Low energy proton irradiation induced thin polymer contaminant films effect on far UV reflecting mirrors reflectance and scattered light

08 p1290 A71-21382

Nonlinear theory of intrinsic semiconductors electromagnetic wave transmission under skin effect conditions, determining reflectance and carrier temperature

08 p1344 A71-21442

Ti dioxide-opacified porcelain enamel reflectance spectra analysis, deriving scattering cross sections and dispersed particle sizes and distribution

09 p1480 A71-22116

Multiple reflections method for complex reflection and transmission coefficients of microwave transmission line permitting use of digital computers

09 p1413 A71-22151

Mirror reflection coefficients effect on fringe characteristics of multibeam series interferometer, showing improvement by Fabry-Perot etalon system

09 p1451 A71-23174

Lossless radiating antenna element efficiency in circular cylindrical arrays of identical elements, relating to reflection coefficient

09 p1419 A71-23505

Pi-section waveguide with narrow slot in broad wall, calculating reflection and transmission coefficients as function of design parameters

10 p1584 A71-24719

Reflectance measurements of dielectric coating on metallic substrate, comparing with analytical model

[AIAA PAPER 71-448] 11 p1799 A71-26233

Reflectance restoration of proton and UV degraded spacecraft thermal control coatings by low temperature oxygen plasma treatment applied to Surveyor 3

[AIAA PAPER 71-463] 11 p1800 A71-26244

Bidirectional reflectance model for randomly rough surface, using distribution function for macroscopic probability of microscopic surface roughness elements with specific slopes

[AIAA PAPER 71-465] 11 p1800 A71-26246

Lunar radar reflectivity mapping at 7.5 m wavelength for maria and highlands echo powers, using interferometric techniques

11 p1834 A71-26451

Lower ionospheric irregularities drift from neutral air motion measurements compared to meteor radar system determination

12 p1900 A71-27057

Electron concentration profiles in D region from radio wave partial reflection coefficients

13 p2030 A71-28558

Variable target reflectivity effect on weather radar measurements, using extended echo fluctuation theory for average and maximum signals
13 p2031 A71-28723

Lead borosilicate glass with crystalline opacifiers, observing microstructure and reflectance
13 p2093 A71-28990

Normally incident electromagnetic wave propagation in inhomogeneous gyration medium, obtaining reflection and transmission coefficients and discussing resonance
13 p2108 A71-29088

Radiative capacity of materials with low thermal conductivity at high temperatures determination from reflectivity measurements for oblique light incidence
14 p2240 A71-30051

Microwave resonator Q factor measurement by reflection coefficient method, using swept signal generator to eliminate incidental FM problem
15 p2376 A71-32310

Microwave reflection factor analytical and graphical dependences on resistivity of variable thickness semiconductor layers
16 p2544 A71-34032

Spectral dependence of GaAs-CdSe alloys optical reflection coefficient
17 p2790 A71-34203

Magnetoplasma reflection coefficient for nonzero angle of incidence in Voigt configuration in superconducting coil, calculating effective intervening mass
17 p2789 A71-35348

Variational principle with reflectivity extremum for inhomogeneous planetary atmospheric line spectra profile calculation from radiative transfer equation
18 p2964 A71-36286

Reflection and transmission coefficients for electromagnetic propagation across magnetic field in parabolic plasma layer, determining EM-plasma wave conversion efficiency
19 p3014 A71-37079

Semiconductor instability effects on reflection and transmission coefficients of microwave control devices
19 p3026 A71-37252

Absorbance of anisotropically scattering medium compared with measured hemispherical reflectances and transmittances
19 p3165 A71-37991 [ASME PAPER 71-HT-20]

Electromagnetic wave scattering on single ellipsoidal inhomogeneity in cylindrical waveguide, obtaining relationship for electric and magnetic waves reflection coefficient
19 p3019 A71-38330

Reflection and transmission coefficients of nonresonant slots in rectangular waveguide antenna with comb type slow wave structure
19 p3019 A71-38334

Light pressure measurement acting on Echo 1 satellite, considering integral reflection coefficient
20 p3306 A71-39132

Lithium niobate hypersound attenuation and reflection coefficients frequency dependence determination by scattering laser light at hypersonic oscillations
20 p3244 A71-39162

Rhodochrosite /manganese carbonate/ complex refractivity determination for correlation between optical reflection, attenuation and scattering coefficients
20 p3269 A71-39185

Statistical processing of phase dependence of Martian integral brightness at 0.3-1.1 microns, noting abrupt reflectivity decrease
20 p3290 A71-39308

Reflection and transmission coefficients of long lossy single-wave waveguide line with random inhomogeneities
20 p3198 A71-39805

Photoelectric polarization curve, reflectivity and absolute diameter of Vesta, comparing with Lyot curve
22 p3602 A71-42177

Isotropic light scattering in unsteady plane layer of finite optical thickness, obtaining reflection and transmission coefficients for radiative transfer
22 p3607 A71-42869

Radio reflection and transmission coefficients for thin highly ionized layers under earth magnetic field, based on numerical integration of differential equations
23 p3665 A71-42962

Ionospheric propagation penetrating and nonpenetrating modes full wave reflection and transmission coefficients determination for height and frequency variation by thin film optical method
23 p3643 A71-42972

Infinite plane elastic wave reflection and refraction coefficients at fluid-solid interface, noting reflected beam lateral displacement at critical angles
23 p3703 A71-43202

Reflection coefficients measurement for scanning two-mirror interferometer with absorbing Ni film matched to external medium, discussing multilayered coatings
23 p3676 A71-43399

Double heterostructure GaAs injection laser mode reflectivity and waveguide properties, discussing

threshold current density and wavelength dependence on mirror reflectivity
24 p3832 A71-44433

Atmospheric attenuation effects on cloud and precipitation radar reflection coefficient
24 p3845 A71-44880

Reflection coefficient of multimode laser beam from dielectrics interface
24 p3833 A71-45044

REFLECTED RADIATION

U REFLECTED WAVES

REFLECTED RAYS

U REFLECTED WAVES

REFLECTED WAVES

Short wave reflected radiation fluxes in atmosphere with absorption allowance for water vapor, carbon dioxide and ozone
01 p0144 A71-10538

Complementary field component of radiation from Cassegrain subreflector
01 p0055 A71-11172

Reflected electromagnetic wave polarization parameters, obtaining correlation functions for radar echoes
04 p0557 A71-14632

Flow characteristics behind reflected shock wave flow and heat transfer at tube wall, noting unsteady and nonlinear effects
04 p0567 A71-14665

Spectroscopic studies of helium-hydrogen plasmas in first reflected shock region in electromagnetic T-tube
04 p0631 A71-14684

IR radiation measurement of chain branching rates in hydrogen-oxygen mixtures ignited by reflected shock waves
04 p0548 A71-14695

Air plasmas temperature measurements behind reflected shock wave, examining radiative cooling effects and total radiant energy
04 p0632 A71-14704

Magnetically reflecting nonducted whistler mode waves propagation noting dispersion, hybrid frequencies, ray curvature and field lines
06 p0868 A71-17983

Methyl radicals reactions produced by azomethane or ethane pyrolysis in reflected shock waves, describing chain reaction mechanism
08 p1250 A71-20668

One dimensional isentropic gas motion in acoustic wave reflection from cylindrical tube nonplane closed end under flow
08 p1276 A71-21478

Plane normal shock wave reflection in relaxing gas for shock tube endwall upstream and downstream dynamic pressures, using method of characteristics
09 p1546 A71-23166

Plane electromagnetic wave reflection from conducting convex cylinder in radially inhomogeneous absorbing medium, deriving equations for beam trajectory calculation
10 p1574 A71-23805

Ignition delay times behind reflected shock wave of alkanes methane through pentane in stoichiometric argon simulated air mixture
10 p1657 A71-24047

Amplitude curves of reflected wave vertical displacement component in horizontally stratified medium with simple layer velocity pattern
10 p1644 A71-25134

F region layers vertical drift from phase paths of radio waves reflected from constant electron density surfaces
11 p1756 A71-25646

Mach reflection of strong shock waves by sharp compressive corner in real gas in hypersonic tube, using laser Mach-Zehnder interferometer
11 p1752 A71-26190

Triple point trajectory of shock-shock Mach reflection off plane wall, comparing to Whitham theory
11 p1752 A71-26192

Autocorrelation functions of quasi-uniform solar radiation field reflected from earth with scattering allowance, using stationary random theory
12 p1901 A71-27097

Uniform asymptotic diffraction of plane wave from ideally reflecting cylinder, using parabolic equation method
13 p2027 A71-27900

Revolving cylindrical surface reflected energy from scanning fixed laser beam, noting signal frequency
13 p2077 A71-27948

Third harmonic component generation in reflected and transmitted waves from magnetoplasma slab, using Boltzmann transport equation and Maxwell equation
13 p2109 A71-29243

Receiver triangle size effect on ionospheric drifts near 2 MHz, using partial and total reflections from lower ionosphere
14 p2230 A71-29710

Acoustic waves reflection from nonplanar closed end of cylindrical tube with one dimensional isentropic gas flow from Riccati differential equation solution
14 p2227 A71-30665

Flat plate electrostatic probe for ionization rate measurements behind reflected shock waves, monitoring time evolution of electron production
14 p2248 A71-30884

Ethane-oxygen-argon mixtures ignition behind reflected shock wave, deriving composition temperature dependences correlation
15 p2463 A71-31625 [WSS/CI PAPER 71-16]

Pseudorandom binary codes for improved microwave antenna range measurements by suppressing unwanted reflections
15 p2373 A71-32370

Shock wave propagation in junction of straight duct with side branch for subsonic flow, analyzing reflected and transmitted waves
16 p2555 A71-32886

Radiative heat transfer effects behind reflected and incident shock waves in high temperature air and xenon respectively
16 p2662 A71-32888

Argon gas ionization behind reflected shock wave front investigation by double probe method with HF multistep pulse voltage
16 p2576 A71-32911

Calculational method for predicting angular distribution of sunlight upwelling flux scattered by atmosphere and reflected by ground, using Monte Carlo data
16 p2562 A71-33130

Signal waves amplifier in medium of high nonlinear electric polarization, considering reflected waves effect on amplification
16 p2544 A71-34131

Methane-oxygen-argon mixture ignition behind reflected shock waves in single pulse shock tube
17 p2792 A71-35707

Reflected shock wave interaction with shock tube contact surface
18 p2903 A71-36123

Carbon dioxide IR radiation measurements of duration of constant reflected shock temperature in over-tailored shock tunnel
19 p3041 A71-37893

NO, CO and Ar mixtures IR spectral emission radiant intensities behind shock tube generated reflected shock waves
19 p3012 A71-38087

End-on shock tube detection technique sensitivity for monitoring light emission behind reflected shock waves
20 p3209 A71-38830

Reflected radiation brightness field statistical structure in IR range from Cosmos 121 satellite measurements, calculating correlation functions and spectral densities
20 p3259 A71-39680

Solar and terrestrial IR reflected radiation from Cosmos satellites measurements, determining clouds upper boundary height
20 p3261 A71-39688

Autocorrelation functions of quasi-uniform solar radiation field reflected from earth, using stationary random theory and allowing for scattering
22 p3533 A71-41652

Reflected electromagnetic wave polarization parameters, obtaining correlation functions for radar echoes
22 p3510 A71-42272

Ne ionization relaxation time behind reflected shock waves from temperature and pressure measurements of combustion driven shock tube end wall
23 p3706 A71-42909

Reflected shock wave interaction with tangential discontinuity curve for supersonic incalculable jets, examining flow instability
23 p3665 A71-44337

Radio echoes from clouds and precipitation, determining detection threshold, station potential and statistical distribution numerical characteristics
24 p3844 A71-44879

REFLECTING TELESCOPES

Reflecting telescope with six meter mirror, describing optical and control systems and structure
02 p0254 A71-12712

Tunable filter reflecting telescope and accessory optics for H alpha monochromatic photography of electron corona during total eclipse
03 p0424 A71-13626

Optical design of image selector for Cassegrain telescope recording difference spectrum of targets in focal plane
03 p0425 A71-13646

Six meter reflector telescope construction, discussing design, components and control system
04 p0588 A71-14827

H II region high velocity observations by two etalon, propane scanned photoelectric Fabry-Perot spectrometer with reflecting telescope
04 p0581 A71-15044

Photoelectric reflector zenith telescope for determination of earth rotation and latitude variations, noting recording by photon counts
04 p0598 A71-15381

Three-mirror telescope third order dioptrics of astigmatism and coma suppression
06 p0901 A71-18313

Third order aberrations in Cassegrain type telescopes and coma correction in servo-stabilized images

07 p1107 A71-19202

Pulkovo radio telescope effective frequency range extension beyond minimum 3 cm wavelength into millimeter range, installing high precision reflecting mirror surfaces

07 p1083 A71-19343

Main mirror shape in three mirror telescopes permitting spherical aberration suppression

10 p1608 A71-23820

X ray astronomy orthogonal mirror telescopes, noting collecting efficiency, angular resolution and focusing

11 p1766 A71-26307

Four foci computer controlled Anglo-Australian reflecting telescope, considering design and applications

13 p2069 A71-28850

Four stage image intensifier testing for weak astronomical object photography in connection with 42 inch Cassegrain telescope

13 p2070 A71-29138

Trigonometric white dwarf star parallax measurements, using astrometric reflector to derive H-R diagram

14 p2316 A71-31007

Star EV Lac polarimetric observations during flare, using Cassegrainian reflector

15 p2487 A71-32031

High angular resolution optical telescopes, considering mirror materials, optical coatings and pointing systems

16 p2580 A71-33739

Astronomical reflecting telescope, discussing frictionless oil pressure bearing design, declination and hour axis drives operation and optical system

20 p3239 A71-39531

Reflecting telescope Schmidt camera photographic color system temperature dependency from cluster NGC 103 photographs

21 p3379 A71-40717

High resolution Mars photographs obtained with 61-in reflector telescope

24 p3872 A71-44998

REFLECTION

NT INFRARED REFLECTION

NT RETROREFLECTION

NT SIGNAL REFLECTION

NT SPECULAR REFLECTION

NT ULTRAVIOLET REFLECTION

NT WAVE REFLECTION

German monograph on beam shift at total reflection covering Goos-Hanchen optical effect, acoustics, quantum mechanics, plasma physics, Brewster law, holography, etc

05 p0780 A71-16122

Saturn satellites spectrophotometric observations at UV, visible and near IR, noting reflection spectra data

11 p1819 A71-25210

REFLECTION COEFFICIENT

U REFLECTANCE

REFLECTIVITY

U REFLECTANCE

REFLECTOMETRES

Integrating sphere coatings bidirectional reflectance characteristics, describing reflectometer data for smoked magnesium oxide and Au coated sandpaper samples

06 p0902 A71-18534

Total emittance measurements by portable IR reflectometer, tabulating nongray error effects

13 p2159 A71-27979

REFLECTOR SATELLITES

U PASSIVE SATELLITES

REFLECTORS

NT PARABOLIC REFLECTORS

NT PARABOLOID MIRRORS

NT RADAR CORNER REFLECTORS

NT RADAR REFLECTORS

NT SOLAR REFLECTORS

High efficiency spherical reflector antennas with scanning and multiple feed properties for communication satellite portable earth stations

02 p0233 A71-12792

Space communication reflector surface positioning and optical measuring techniques for best fit

02 p0234 A71-12805

Stray-source field on plane antenna reflector surface for arbitrary space direction

03 p0387 A71-14335

Reflector antenna under wideband noise radiation, determining directivity characteristics by solution for angle range homologous to region of irregular lobes

05 p0728 A71-16008

Pulkovo radio telescope reflector adjustment by phase comparator, using centimeter wave transmitting-receiving antenna for sun, moon and Venus observations

07 p1083 A71-19344

Solid state laser with different diffuse coatings on external reflector of pumping source, measuring energy output

07 p1125 A71-19812

Ideal reflector simulation of periodically supported infinite plane metallic wire gratings with rectangular mesh showing small sag

09 p1409 A71-23503

Far field diffraction pattern of corner reflector for normally incident monochromatic light, considering polarization characteristics

10 p1640 A71-23947

Space communications antennas main reflecting surface accuracy determination by statistical evaluation of efficiency degradation due to mechanical inaccuracies and structural flexibility

12 p1887 A71-27003

Ultrasonic field distribution patterns from metallic and ceramic concave spherical reflectors under excitation by single or multiple piezoelectric elements

13 p2101 A71-29267

Optical method for elastic deformations measurement of radio telescope reflector at various elevations

14 p2211 A71-29991

Minor planet Icarus earth approach observations with reflector and TV camera, determining spherical coordinates by comparison with reference stars

14 p2309 A71-29993

Reflectors group mean effective scattering cross section measurement by far field criterion

14 p2194 A71-30075

Corner reflector excitation by vertical or horizontal log-periodic dipole antenna for unidirectional wide-band radiation, deriving far field expression

18 p2895 A71-36994

Broadband antenna twist reflector with wire grids, deriving design formulas and theoretical performance in terms of polarization attenuation

19 p3036 A71-38606

Beryllium reflector plate failure in NASA Plum Brook Reactor, discussing irradiation induced mechanical and physical property changes and internal/external stress effects

21 p3414 A71-40904

Aircraft flash light designs, discussing tandem oscillating lights, fixed lamp rotating reflectors and lamps, xenon flashtube, quartz-iodine lamp and flash frequencies

22 p3483 A71-41494

Reflector antenna under wideband noise radiation, determining directivity characteristics by solution for angle range homologous to region of irregular sidelobes

22 p3524 A71-42757

REFLEXES

NT CAROTID SINUS REFLEX

NT RESPIRATORY REFLEXES

Conditioned reflexes in cats with mesencephalic reticular formation subject to food-signaling acoustic stimulation

01 p0007 A71-10034

Interhemispherical synthesis of conditioned reflex motor reactions at different running angles in mice

01 p0011 A71-11051

EEG dynamics and visual cortex neuron responses in cats to conditioned optical stimulus during defensive reflex formation

01 p0011 A71-11052

Temporary connection of neurons in visual and associative cortical regions of hemispheres in cats

01 p0012 A71-11053

Cortical vestibular projection zones in formation of conditioned reflexes and spatial orientation of cats

01 p0012 A71-11054

Orientation reflex in healthy and nervous human subjects from peripheral vessels blood pressure fluctuations in response to acoustic signals

01 p0012 A71-11055

Vasomotor reflexes latency in postganglionic cardiac and renal nerves in intact and spinalized cats, determining spinal mediation by electrophysiological methods

04 p0538 A71-15093

Reflex excitability of neuromuscular systems of Soyuz crewmembers during physical loads

06 p0855 A71-18372

Human operator psychophysiological analysis by memory-activity interdependence simulation, noting buffer memory, reflex system and habit acquisition

07 p1050 A71-20107

Muscle reflex action role in contralateral remote masking at high auditory signal sound pressure levels

08 p1246 A71-20803

Human spinal reflex effects during static work, suggesting cord segmental chiasmatic connections interaction with spinobulbar-spinal tract

08 p1249 A71-21973

Cerebrospinal knee and flexor reflex suppression observations in rabbits and cats during blood circulation disorders

09 p1391 A71-22480

Biophysical nature of human memory, investigating electrosensitivity phase modulators and variations by suprainensitive light stimulus to eye and adjustment reflex

09 p1391 A71-22484

Globus pallidus damage in cats, investigating effects on conditioned motor reflexes, learning and memory

10 p1564 A71-24466

Baroreflex regulation of pulse interval during bicycling exercise, using systolic pressure-pulse relation to express reflex sensitivity

13 p2012 A71-28951

Conditioned reflexes developed by prolonged training in two genetic strains of mice during adaptation to altitude hypoxia

15 p2356 A71-31248

Conditioned auditory reflex behavior in rats under influence of acceleration, noting ontogenetic effects

15 p2356 A71-31249

Sense organs conditioned reflex and physiology, investigating mechanisms and functional localization of discrimination function and differentiating inhibition

15 p2360 A71-32529

Arterial baroreceptor reflex action in rabbits, noting central noradrenergic neuron participation

16 p2528 A71-33075

Hypothermia effects on cat and dog vascular tone vasomotor reflex regulation, suggesting role of inhibition due to changed afference from cooled tissues

16 p2533 A71-34111

Soviet papers on higher nervous activity physiology, Part 1, Basic laws and mechanisms of conditioned reflex activity covering inhibition, and bioelectrical effects, with bibliography

17 p2684 A71-35357

Brain locking activity structural organization, discussing cerebral processes and control contact mechanisms activating conditioned reflexes

17 p2684 A71-35358

Orientation reflexes neuronal activity due to various stimuli, noting hippocampus reaction to sound and light

17 p2685 A71-35361

Bioelectrical aspects of conditioned reflex activity, discussing changes in cortex background, cortical and cerebral biopotentials and alpha-rhythm depression reactions

17 p2685 A71-35362

Reflexes dominant in organism throughout activity or temporarily dominating reflex system directing work of nervous centers

17 p2685 A71-35363

Physicochemical aspects of conditioned reflexes, including membrane mechanisms, effectiveness of synapses, mediation processes, ribonucleotides function and subcellular structures dynamics

17 p2685 A71-35364

Conditioned reflex activity, demonstrating development of individual signals systems interrelation

17 p2685 A71-35365

Sympathetic response in renal and splanchnic nerves to induced fall and rise of arterial blood pressure in anesthetized rabbits, investigating baroreceptor reflex effect

17 p2685 A71-35367

Bulbar and baroreceptor inhibition of spinal and supraspinal sympathetic reflex discharges recorded in cats from renal nerve

18 p2857 A71-36689

H reflex changes in spinal marrow of intact and labyrinthectomized rats under radial accelerations

20 p3188 A71-39221

Reflex mechanisms and programmed command in insect flight stabilization, discussing gravity proprioceptors, wind sensing and optomotor control

21 p3326 A71-39987

Flying personnel equilibrium tests with pendulum armchair, investigating labyrinth reflex by induced nystagmus

22 p3500 A71-41570

Vestibulo-colic reflex control of head movement in seated man under sinusoidal and stepwise rotational velocity stimulation, comparing with ocular stabilization

22 p3501 A71-41822

Neural control organization in vestibulo-ocular reflex arc, considering afferent and oculomotor neural signals

22 p3490 A71-42449

Oculomotor neural organization models, considering vestibular ocular reflex, saccadic eye movements and smooth pursuit systems

22 p3504 A71-42450

Sympathomimetic amines effects on central nervous system reflex activity of irradiated and desympathized animals

22 p3492 A71-42708

Human motor system control mechanism for stretch reflex loop gain with simplified central nervous system computation

23 p3639 A71-43354

Trace reflex formation in response to acoustic stimulus with verbal reinforcement, determining cross correlation connections between induced activity of auditory and motor areas

24 p3796 A71-44547

REFRACTED RADIATION
U REFRACTED WAVES

REFRACTED WAVES
U REFRACTED WAVES

REFRACTED WAVES
Alfven wave transformation into magnetoacoustic wave during passage across boundary between two

media in strong magnetic field, considering reflection and refraction laws

07 p1195 A71-19381

Short N wave refraction and diffraction by gas-filled soap bubble, discussing measurements to explain peaking and rounding in sonic boom pressure signature

10 p1642 A71-24811

Plane traveling electromagnetic wave existence, propagation and refraction in nonlinear dispersive nonmagnetic isotropic lossless medium

13 p2027 A71-27899

Acoustic refraction by two dimensional shear layer in duct, considering sound propagation and initial value problem solution

13 p2051 A71-29248

Reflection and refraction patterns of various wave number media vertical electromagnetic dipole fields at even and uneven interfaces

14 p2192 A71-29805

Venusian atmosphere RF refractive attenuation height dependence, field strength measurements comparison, inversion layer influence and surface echoes effects

14 p2309 A71-30098

Refraction and absorption length of coherent laser radiation propagating in high temperature cylindrical plasma column

15 p2458 A71-32390

Bounded sources gravitational waves generation and propagation, noting refraction phenomenon in matter presence

16 p2612 A71-33282

Refraction effects of moving inhomogeneous media in electromagnetic Doppler measurements, using Maxwell equations or relativistic ray tracing method for frequency variations

16 p2544 A71-33850

Alfven wave transformation into magnetoacoustic wave during passage across boundary between two media in strong magnetic field, considering reflection and refraction laws

19 p3138 A71-37806

Refractive imaging and scanning methods for thermal imaging systems, considering high performance IR lenses

22 p3544 A71-42137

Refraction of electromagnetic wave with electric field perpendicular to applied magnetic field in anisotropic plasma cylinder cross section

24 p3858 A71-45236

REFRACTING TELESCOPES

Mercury drawings from refractor observations /1964-1967/

09 p1520 A71-22834

REFRACTION

NT ATMOSPHERIC REFRACTION

NT BIREFRINGENCE

NT RADIO WAVE REFRACTION

Underwater objects plotted in double projectors, reconstructing water surface optical refraction

01 p0083 A71-11327

Neodymium glass laser with intracavity emission polarization, determining thermally induced double refraction effect on energy characteristics

03 p0435 A71-13505

Plane EM waves at two dimensional periodic media boundary, obtaining reflection and refraction for harmonics

05 p0723 A71-17029

Axisymmetric phase object holographic interferometry, showing light beam refraction effect on interference pattern

07 p1108 A71-19237

Linearized gravitation theory in macroscopic media, deriving refraction of gravitational waves based on classical electromagnetism

17 p2777 A71-34585

Refraction and image forming qualities of frog eye using measurement of intensity profile /point spread function/, confirming hyperopia

18 p2857 A71-36690

REFRACTIVE INDEX

U REFRACTIVITY

REFRACTIVITY

Threshold emission and self excitation of spatially inhomogeneous laser, considering active element gain and refractive index by electrodynamic model

01 p0094 A71-10687

Transparent solids unpolished samples refractive index and dispersion measurement using Abbe refractometer

01 p0128 A71-10837

Extended Spline Fit Technique for determining refractivity from interferograms of axisymmetric laminar diffusion flames

01 p0180 A71-10946

Structural properties of atmospheric refractive index, using single mode laser

01 p0120 A71-11102

Atmospheric refractive index average structural characteristics measurement over 25 km light propagation path, noting diurnal variation

02 p0245 A71-12011

Direction indicating color schlieren system displaying radial refractive index gradients, comparing with knife edge monochrome image resolution

03 p0423 A71-13459

Tropospheric diffraction fields computation in atmospheres with modified refractive index increasing monotonically with height, discussing IF and LF ground wave propagation

04 p0552 A71-15020

Visible radiation absorption by aerosol particles, noting gray absorption and imaginary portion of complex index of refraction

04 p0582 A71-15072

Australian tektites population polygons of bulk specific gravity and refractive index, indicating variations in chemical composition

04 p0582 A71-15133

Optical beam scintillation dependence on wavelength in strong refractive index turbulence

04 p0609 A71-15694

Refractive index equation for oblique wave propagation in inhomogeneous compressible electron plasmas

05 p0786 A71-16287

Magnetospheric whistlers, deriving group refractive index and velocity, propagation time and various L values

05 p0721 A71-16443

Carbon dioxide refractivity measurement, determining dielectric constant, Verdet constant and Rayleigh scattering cross section by dispersion formula

05 p0717 A71-16908

Small scale isotropic turbulence intensity and refractive index measurements by optical shadow devices

06 p0897 A71-17527

Pulsed carbon dioxide laser amplifier, examining spatial and temporal refractive index variations with interferometric measurements

06 p0910 A71-18667

Multipath distortion and wavenumber spectrum of refractive index in radio links

07 p1060 A71-19258

Small wavelength wave optics of media with inhomogeneous refractivity developed from geometric optics, representing probability amplitude of classical ray by wave function

07 p1110 A71-19476

Radio signal refractive index fluctuations in Venus atmosphere from Mariner 5 data

07 p1197 A71-19762

Plasma refractive index effects in pulsed HCN lasers, calculating stable cavity mirror curvatures construction as function of electron density by ray matrix approach

07 p1124 A71-19795

Interstellar extinction curve accounted for by graphite, iron and silicate grains, presenting refractive index values plotted as functions of wavelength

07 p1199 A71-20009

Threshold emission and self excitation of spatially inhomogeneous laser, considering active element gain and refractive index by electrodynamic model

07 p1125 A71-20148

Carbon dioxide laser IR pulses self focusing in liquid carbon disulfide, calculating nonlinear refractive index

07 p1128 A71-20396

Light rays bundle compression devices performance based on phase space treatment using Liouville theorem, comparing linear tapers and lenses performance to compressor with graded refractive index distribution

08 p1335 A71-21373

Far IR materials optical constants analysis by channeled spectra, using Fourier spectroscopy single signature in interferogram to yield real and imaginary parts of refractive index

08 p1335 A71-21384

Artificial dielectric refractive index with diffraction allowance as function of multilayer geometry, wave frequency, polarization and propagation direction

09 p1406 A71-22884

Aqueous HCl refractive indices measured for room temperature to Venus cloud temperature and various concentrations

09 p1522 A71-22937

Magnetoionic theory for drifting plasma whistler mode propagation, deriving magnetic field effects on imaginary and real parts of complex refractivity

09 p1505 A71-23385

Singularity free refractive index profiles, using hypergeometric function

10 p1642 A71-24590

Variable shear interferometer for infinite fringe operation and velocity measurement, discussing refractive index distributions in stationary and moving media

10 p1613 A71-24994

Aqueous HCl solutions refractive index calculation from concentration dependence for Venus clouds composition

10 p1680 A71-25012

Geomagnetic Pc1 pulsations propagation in F region, deriving hydromagnetic waves equations by ray tracing method and waves refractivity index in extraordinary mode

10 p1607 A71-25118

MHD waves incident at density step, calculating reflection, refraction and transmission coefficients and coupling modes

11 p1807 A71-26429

Nonstatic random isotropic medium geometrical optics, considering refractive index temporal fluctuation [ONERA-TP-970]

12 p1929 A71-26822

Venus polarimetric observational data comparison with polarization characteristics of radiation scattered at gamma-distribution particle sizes, determining refractivity and particle radius

12 p1964 A71-27088

Plasma refractive index and electron density measurements by He-Ne vernier interferometric laser

12 p1940 A71-27282

Refractive index and reflectivity of BiTeBr and BiTeI single crystals from interference measurements in transmission spectra

12 p1944 A71-27545

Ionospheric anisotropic plasma with mixture of different ions, deriving refractivity at whistler frequencies

13 p2058 A71-28027

Phase modulation in far IR interferometers applied to laser refraction measurements in solids and organic liquids

14 p2238 A71-29743

Complex refractive index equation of ionosphere for large values of vertical component of magnetic field, showing imaginary part independent of temperature effects

15 p2449 A71-31849

Gases refractive behavior, discussing constitutive properties, wave propagation, Lorentz electron theory of dispersion, spectral interferometry and hook method

16 p2608 A71-33156

Pulse laser holographic interferometry for refractivity measurement, considering wave front reconstruction principles

16 p2578 A71-33160

Atmospheric absorption of 10.6 micron laser beam radiation, noting effect on refractive index

18 p2910 A71-35843

Holographic fiber optics image-guiding structures preparation in sensitized polymethyl methacrylate cast sheet by refractive index gratings pair recording

18 p2946 A71-35852

Venus polarimetric observational data comparison with polarization characteristics of radiation scattered at gamma-distribution particle sizes, determining refractivity and particle radius

19 p3133 A71-37438

Refractive index changes by shock compression metamorphism of tektite, soda lime and silica glasses

19 p3084 A71-37661

Plasma optical refractivity, considering gas laser interferometry and holographic phase measurements

19 p3116 A71-38244

Ray statistics of electromagnetic wave scattering in homogeneous isotropic turbulent medium with ellipsoidal inhomogeneities of refractive index, using Fokker-Planck equation

19 p3020 A71-38364

Atmospheric water vapor effects on microwave frequencies refraction index structure

19 p3024 A71-38611

Ion beam deposition of insulating carbon thin films on room temperature substrates, considering transparency, index of refraction, insulating capacity, glass scratching ability, etc

20 p3241 A71-39011

Self induced thermal distribution due to laser beam, discussing effects on refractive index inhomogeneities and second harmonic generation

20 p3196 A71-39105

Rhodochrosite /manganese carbonate/ complex refractivity determination for correlation between optical reflection, attenuation and scattering coefficients

20 p3269 A71-39185

Venus atmosphere decimeter wave field intensity fluctuations and refraction coefficient variations

20 p3297 A71-39627

Transversally excited and atmospheric carbon dioxide laser, measuring time behavior of refraction index profile and lensing effects on resonator

21 p3392 A71-40547

Soviet monograph on radio wave propagation in fluctuating parameters media covering ionosphere /fluctuating electron concentration/ and troposphere /fluctuating inhomogeneities and refractive index values/

21 p3349 A71-41372

Infinite plane elastic wave reflection and refraction coefficients at fluid-solid interface, noting reflected beam lateral displacement at critical angles

23 p3703 A71-43202

Pressure histories from densification and relaxation measurements on lunar glass and synthetic samples, investigating refractive index changes after annealing 23 p3758 A71-43760

Lithium iodate hexagonal and tetragonal form crystal growth conditions from aqueous solution and recorded refractivity 23 p3717 A71-43935

REFRACTOMETERS

Onboard aircraft refractometer, design, operation principles and effectiveness 05 p0756 A71-17195

Onboard aircraft refractometer design, operation and effectiveness 13 p2067 A71-28250

Gas flame heater for heat resistant samples under fatigue tests, simulating gas turbine engine operating conditions 01 p0067 A71-10041

Boride composites with high strength and thermal resistance suitable as nose cap and leading edge materials for reusable lifting reentry systems [AIAA PAPER 70-278] 01 p0109 A71-11282

High strength ceramics for high temperature applications, reviewing oxides, nitrides and carbides 01 p0109 A71-11601

Soviet book on Mg, Ca, Fe and Sn high temperature borates formation covering optimum synthesis conditions, properties, stability analysis, etc 02 p0208 A71-11800

K-beta and L-alpha X ray spectral emission bands of high melting vanadium compounds, considering chemical bonds 02 p0263 A71-11892

Hydraulic hot pressing equipment for producing large parts from high melting point metal powders and compounds by induction heating of dies 02 p0238 A71-12282

Reactive molecule and atom attack of refractory materials in dissociated gases at filament temperatures up to sublimation threshold 03 p0374 A71-13124

Soviet book on welding fillers based on high melting point compounds covering alloy selection, surfacing techniques, working machine maintenance, etc 03 p0432 A71-13689

High temperature specific heat of refractory molybdenum and uranium dioxide 04 p0612 A71-14959

Aircraft construction materials for 1990s, discussing need for high temperature resistant materials for supersonic and hypersonic airframe and engine structural components 05 p0839 A71-16141

Soviet monograph on refractory materials elasticity at high temperatures covering elastic and shear moduli, Poisson coefficient and resonance methods 05 p0766 A71-16400

Ni and Ti cutting, examining wear for various microcutting refractory materials 05 p0759 A71-16862

Refractory elements abundances in chondrites, basaltic achondrites and Apollo 11 fines, emphasizing Ca-Al relationship 06 p0966 A71-17894

Elastic and thermodynamic properties of transition metal carbides, comparing Debye temperatures obtained from elastic constant to those obtained from specific heat data 06 p0915 A71-18687

Grain growth inhibition in niobium diboride by TiN addition 07 p1144 A71-19390

Phase equilibria, microstructure and physical properties of high temperature vacuum sintered oxygen deficient zirconia and thorium 08 p1304 A71-20697

High melting compound tools wear resistance during Ti and Ni continuous microcutting 08 p1297 A71-21065

Conical metal core electrode erosion rates in pulsed plasma accelerators with refractory dielectric chamber 08 p1340 A71-21484

Columnar grain and single crystal high temperature gas turbine elements development through directional solidification 08 p1314 A71-21565

Refractory materials at normal and high temperatures, describing cyclic shear test methods 08 p1372 A71-21612

High temperature turbine parts protective coatings, discussing aluminum diffusion prevention and crack and oxidation resistance 09 p1456 A71-23290

Cermet antifriction and friction powder metallurgy sintered materials for working at high temperatures without lubricants, in vacuum and inert gases 09 p1483 A71-23392

Refractory oxygenless powder metallurgy products in high temperature technology, considering covalent bond formation 09 p1478 A71-23395

Physical properties, structure and sintering of refractory oxides of rare earth elements and actinides, including chromia 09 p1478 A71-23399

High temperature honeycomb woven fiberglass reinforced polyimide resin, asbestos reinforced composites and high modulus graphite materials, discussing specific strength and stiffness 10 p1618 A71-24771

Refractory composite inorganic materials technology, covering gas phase, single crystal and hydrothermal synthesis, physicochemical analysis and fabrication methods 13 p2090 A71-28006

Refractory materials production using chemical deposits from gaseous phase, discussing mechanical, physical and thermal properties of obtained coatings 13 p2074 A71-28526

Stainless steel wire fibers in refractory castables, noting flexural and compressive strength improvements 13 p2093 A71-28663

Microsphere formation by melting spinning refractory oxide rod tip in carbon dioxide laser focused emission 13 p2079 A71-28905

Conical metal core electrode erosion rates in pulsed plasma accelerators with refractory dielectric chamber 14 p2282 A71-30671

Galvanomagnetic properties of solid refractory zirconium and titanium compounds in two-band representation, measuring Hall effect and reluctance vs external magnetic field 15 p2426 A71-31512

Soviet papers on refractory carbides covering high purity and alloy products electrical, thermal, thermodynamic, mechanical, chemical, wear and abrasive properties 15 p2429 A71-32137

Porous refractory materials for thermochemical protection against high temperature plasma flow, discussing effectiveness in erosive wear reduction 15 p2432 A71-32164

Thermal stability test assembly for refractory materials cylindrical specimens, using argon plasma jet 15 p2385 A71-32238

Chromium carbides or borides high melting wear resistant surfacing material for machine components subjected to abrasive wear 15 p2418 A71-32669

Optimum sintering temperature, bulk composition and gas medium effects on structure and mechanical properties of silicon nitride and silicon carbide materials 15 p2437 A71-32670

Refractory tungsten boride with iron or nickel for powdery surfacing mixtures, showing hardness and wear resistance dependence on low melting component 15 p2438 A71-32675

Abrasive capability, shape and strength of refractory powders of fused titanium and niobium carbides and calcium boride compared with synthetic corundum 16 p2592 A71-33574

Materials stability testing in high temperature propane-butane combustion product flow, selecting compact silicon carbide for structural use in redox medium 17 p2761 A71-34310

Book on high temperature materials covering vacuum or inert gas properties for industrial and aerospace applications 17 p2760 A71-35623

Cyclic torsional shear testing of refractory materials at normal and high temperatures, describing test equipment 17 p2834 A71-35672

Refractory, superalloy and composite materials brazing process for space shuttle orbiter heat shield 18 p2928 A71-36854

High temperature four point bending vacuum furnace machine testing thin refractory sheets, noting strain rate, velocity jump and relaxation on tantalum carbide 19 p3063 A71-37554

Normal emission factors of dielectric materials at 1000-1500 C, using black bodies in study of thermal radiation of refractory materials 20 p3254 A71-39960

Refractory diborides in oxidizing environments, considering mechanical strength, thermal stability, oxidation resistance, heat conductivity, thermal expansion, specific heat and electrical resistance 21 p3405 A71-40138

Lime refractory fabrication and properties for high temperature applications, describing production of calcium oxide grain by sintering process from commercial calcium hydroxide 21 p3405 A71-40246

Heat resistant and refractory materials contact eutectic melting for surface coating production 21 p3390 A71-41175

High temperature structural application of refractory fiber reinforced ceramic composites 22 p3565 A71-42287

Refractory materials heat resistance criteria, taking into account hollow cylinder thermal stress distribution 23 p3698 A71-44212

Steel silicification in liquid media for high temperature oxidation resistance improvement 24 p3829 A71-44731

Temperature dependence of external friction coefficient between high-melting carbides in vacuum at constant normal load and slipping rate 24 p3830 A71-44863

Refractory alloys fatigue cracks kinetics based on endurance characteristics reflecting resistance to variable loads 07 p1129 A71-19153

Refractory alloys elastoplastic deformation under cyclic loading, deriving thermal fatigue equations 07 p1129 A71-19155

Refractory metals and alloys fabrication and mechanical and physical properties at high temperatures 07 p1134 A71-19581

Creep enhancement by additional microplastic deformation in refractory alloys during thermal cycling 08 p1317 A71-21618

Ti alloy powders and Ti-base refractory compounds production from Ti alloys wastes 08 p1317 A71-21856

Refractory metals and alloys thermal fatigue testing, describing test equipment allowing for variable test specimen constraints and arbitrarily programmed temperature control 09 p1425 A71-22317

Torsion pendulum for measuring internal friction and shear modulus of refractory metals and alloys 09 p1452 A71-23333

Hot deformation of superrefractory austenitic Ni alloy, considering elastic and plastic limits 09 p1479 A71-23625

Refractory metals and alloys products fabrication for aerospace applications, discussing hydrostatic bulge forming and aluminide coating in Nb alloy nozzle extension production 10 p1618 A71-24766

Book on computer calculation of phase diagrams covering quantitative computation of phase equilibrium and lattice stability parameters of refractory metal systems 11 p1777 A71-25197

Soviet monograph on physical metallurgy of refractory metals and alloys covering applicability, structure, phase diagrams, properties, chemistry, working, welding, etc 11 p1777 A71-25270

Refractory and structural steels and Al alloys, obtaining low cyclic plastic deformation and breaking stress curves 13 p2148 A71-28116

Refractory steels plastic deformation characteristics under isothermal creep 13 p2084 A71-28125

Hypersonic flight load bearing refractory alloy control surface protective coatings, emphasizing oxidation screening tests 14 p2262 A71-29646

REFRACTORY METALS

Ti alloy powders and Ti-based refractory compounds production from Ti alloy scrap, describing electrorefining, hydrogenation and carburization processing

14 p2260 A71-30835

Refractory alloys fatigue cracks formation kinetics based on endurance characteristics during symmetrical and asymmetrical load cycles

17 p2760 A71-35652

Refractory alloys elastoplastic deformation under cyclic loading, deriving thermal fatigue equations

17 p2760 A71-35653

Creep rate enhancement by additional microplastic deformation in refractory alloys during thermal cycling

17 p2761 A71-35678

Damping characteristics of Ni base refractory alloys at high temperatures, showing increase with cyclic strain amplitude

18 p2936 A71-36708

Chemical vapor deposited tungsten or other refractory metal alloys mechanical properties evaluation at high temperature, describing hoop stress measurement apparatus for induction heated specimens

[ECS PAPER 384-RPN] 20 p3252 A71-39553

TaC-WC, ZrC-WC and refractory compounds thermal expansion coefficient measurements

Electrical resistivity and structure of thin films of W, Mo and Cr evaporated in vacuum by neodymium laser

01 p0101 A71-10674

Materials for spacecraft design requirements, considering composite and refractory metals, Ti and heat resistant alloys

01 p0102 A71-10816

Refractory metal thermionic emitter-support systems, measuring surface interdiffusion at high temperatures

02 p0264 A71-12242

Vaporization chemistry in C, Si, Cr, Mo and Nb high temperature oxidation, using thermochemical diagrams

03 p0374 A71-13123

High melting point metal systems with nitrogen or oxygen, discussing engassing and degassing reactions kinetics and thermodynamic equilibrium

03 p0442 A71-13362

Refractory metal surfaces behavior in ultrahigh vacuum, using LEED and Auger electron spectroscopy

05 p0766 A71-16240

Refractory metal surface-gas reactions at high temperatures in vacuum, determining activation energies

05 p0766 A71-16241

Powdered W, Mo, Nb and Ta sulfides and compacts thermal vacuum behavior, examining phase compositions and transformations

05 p0769 A71-16861

Europium hexaboride-high melting point metals reaction for intermetallic compounds production, noting evaporation kinetics

06 p0913 A71-18087

Refractory metals and alloys fabrication and mechanical and physical properties at high temperatures

07 p1134 A71-19581

Refractory metals and carbides and borides, investigating laws governing electrodes erosion during electric spark breakdown

07 p1139 A71-20205

Optimal recrystallization of thin wire cast W-Re alloy subject to high size reduction

07 p1141 A71-20244

Refractory transition metals diborides thermoemissive properties for use in cathode materials

07 p1144 A71-20653

High temperature liquid propellant oxidative-erosion resistant ablative composites containing in situ reaction formed refractory metal carbides for rocket nozzles

08 p1318 A71-20696

Machining electrode materials, investigating high melting transition metals electroerosive stability and bending strength on basis of electronic theory

08 p1296 A71-20853

Refractory metals forming, coating, machining and joining operations, discussing parts manufacture

08 p1299 A71-21683

High temperature apparatus for enthalpy and specific heat measurements of refractory metals

08 p1273 A71-21936

Molten alumina and chromia reactions with refractory metals, calculating isobaric-isothermal potential variations

09 p1466 A71-22165

Refractory metals and alloys thermal fatigue testing, describing test equipment allowing for variable test specimen constraints and arbitrarily programmed temperature control

09 p1425 A71-22317

Hf, Ta, W and Re solubility in La and Ce hexaborides from lattice parameters, microhardness and X ray and metallographic analyses

09 p1509 A71-23066

Torsion pendulum for measuring internal friction and shear modulus of refractory metals and alloys

09 p1452 A71-23333

Thermal reduction methods for refractory metal powders of W, Mo, Zr, V, Hf, Nb, Ta and Ti

09 p1457 A71-23389

Sintering and pressing techniques for compact semifinished products of refractory metal powders including W, Mo, Ta, Nb, Zr and Ti

09 p1457 A71-23396

Refractory metals and alloys products fabrication for aerospace applications, discussing hydrostatic bulge forming and aluminate coating in Nb alloy nozzle extension production

10 p1618 A71-24766

Soviet monograph on physical metallurgy of refractory metals and alloys covering applicability, structure, phase diagrams, properties, chemistry, working, welding, etc

11 p1777 A71-25270

Refractory metals coating of various substrates by gaseous phase chemical deposition, discussing diffusion process theoretical analysis, experimental apparatus and coatings mechanical and physical properties

11 p1768 A71-25391

Bimetallic refractory metal joints electron beam welding and aging for applications to in-pile thermionic converters

11 p1769 A71-25857

W, Mo, Ta and W-Mo alloys hardness integrity, using high temperature microhardness tester

13 p2084 A71-28113

Temperature dependent diffusion coefficient of yttrium in refractory metal single crystals of Mo, W, Nb and Ta, using radiometric analysis

14 p2258 A71-30005

Refractory metals fatigue testing under nonstationary thermal loads, considering test data reliability improvement

14 p2259 A71-30268

Arc welding apparatus for chemically active high-melting metals in controlled superpure He atmosphere

14 p2253 A71-30486

Heat resistant metals long time creep prediction at low stresses or temperatures

15 p2428 A71-31859

Ti, Zr, Nb, Cr, Mo and W carbides compaction, investigating effects of compression, duration, pressing number, moisture and plasticizer contents and stress distribution

15 p2415 A71-32141

Nickel and cobalt pseudobinary eutectic alloys reinforced by refractory metal monocarbides whiskers, studying mechanical properties, solidification and phase equilibria

15 p2432 A71-32169

Refractory and rare metals single crystals - Conference, Moscow, December 1968

16 p2594 A71-33876

Refractory and rare metals absolute melting temperature dependence on atomic number, lattice constant, charge negativity and crystallographic, thermodynamic and mechanical parameters

16 p2594 A71-33878

High temperature apparatus for enthalpy and specific heat measurements of refractory metals

17 p2724 A71-35278

Critical growth work hardening germination and recrystallization of oriented compression deformed Nb, Mo and W refractory cubic centered crystals

18 p2935 A71-36200

Oxygen, hydrogen and nitrogen determination in high melting point metals

22 p3563 A71-42364

Gas-metal reactions in refractory metals purification, discussing reaction kinetics, thermodynamic equilibria and dissolved gases induced mechanical properties changes

22 p3564 A71-42423

REFRACTORY PERIOD

Short term central fatigue as causal factor of delayed psychological refractory period in multiple choice visual signal tasks

23 p3634 A71-43864

REFRASIL [TRADEMARK]

U FIBERS

U SILICON DIOXIDE

REFRIGERANTS

Film cooling effectiveness with He and refrigerant 12 injection into two dimensional turbulent boundary layer of supersonic airflow

03 p0517 A71-13453

Cryogenic fluids, considering refrigerants storage vessels, liquid surface detection devices, transfer lines, level gauges

20 p3270 A71-39241

REFRIGERATING

Cryogenic refrigeration requirements of low noise microwave amplifiers in satellite communications, discussing solid state masers and liquid helium parametric amplifiers

20 p3204 A71-39251

REFRIGERATING MACHINERY

NT REFRIGERATORS

Spacecraft cryogenic cooling systems, discussing passive, phase change and closed cycle coolers and refrigerators

04 p0535 A71-15343

Thermal separator type refrigerating machines design, discussing gas expansion under unsteady conditions

06 p0882 A71-18310

REFRIGERATORS

Ettingshausen refrigerator dynamic behavior mathematical models, using current density and potential gradient as controlling variables

04 p0678 A71-15465

Superconductors applications, noting low cost reliable closed cycle He refrigerators

06 p0941 A71-18017

One dimensional steady state performance characteristics of thermomagnetic generators and refrigerators in dimensionless form

09 p1387 A71-23647

Miniature high speed expansion turbines for helium liquefiers and refrigerators, discussing turbine flow passages and gas lubricated bearings

20 p3184 A71-39246

REFUELING

Quick connect/disconnect dry break couplings for aircraft fueling, describing design and operation

06 p0880 A71-18215

Static discharge hazards for aircraft, discussing causes for static charge build-up, dangers and precautionary methods during refueling operations

07 p1019 A71-19424

Automated fueling for Kennedy jet airport, using computer controlled underground bulk storage-satellite tank pipeline system

10 p1589 A71-24300

Flight and operation of IL-62 long distance jet aircraft, considering flight crew composition and training, passenger and cargo handling and refueling

11 p1706 A71-25260

Fuel tank gas cushion minimum volume during refueling, using method of successive approximations

16 p2623 A71-33610

REGENERATION

Time distribution of first passage through fixed level for nondecreasing whole number regeneration process with step trajectories

01 p0110 A71-10094

REGENERATION [ENGINEERING]

Astronaut space nutrition, discussing Apollo mission short range nonregenerative mode, long range closed loop regenerative cycles and waste recycling

01 p0027 A71-11572

Regenerative system reliability, examining oscillation mode selector

13 p2040 A71-28995

Ninety day manned test of regenerative life support system in space station simulator, presenting operational and maintenance data

[ASME PAPER 71-AV-3]

18 p2865 A71-36370

Waste management subsystem for 90-day space station simulator test of regenerative life support system

[ASME PAPER 71-AV-7]

18 p2865 A71-36374

Advanced regenerative portable life support system concept analysis for long duration and multiple extravehicular activity

[ASME PAPER 71-AV-10]

18 p2866 A71-36377

Zero-gravity circulating water electrolysis system prototype design for metabolic and leakage makeup oxygen supply in 12-man space station regenerative life support system

[ASME PAPER 71-AV-20]

18 p2867 A71-36387

Closed-loop solid electrolyte oxygen regeneration life support system, discussing 180-day life test

[ASME PAPER 71-AV-32]

18 p2869 A71-36399

Space station regenerative life support system 90-day manned test in simulator, discussing objectives, facilities and procedures

[ASME PAPER 71-AV-38]

18 p2870 A71-36405

Unidirectional regenerative ring carbon dioxide laser power amplifier tests for below and above threshold operations, noting saturation role in performance

20 p3242 A71-38843

Artificial ecological regenerative life support system design for space environments, discussing biotechnological properties

21 p3343 A71-40563

Extravehicular activity protection systems, discussing resource regeneration, technology, methodology and space station, lunar base and Martian missions schematic configurations

22 p3503 A71-41990

Oxidation of water in regeneration under spacecraft conditions, measuring organic impurities degree of oxidation in inhabited cabin atmospheric vapor condensates 22 p3506 A71-42814

REGENERATION [PHYSIOLOGY]
 Bone marrow physiological regeneration after chronic gamma irradiation, noting effect on fission processes and chromosome apparatus of cells 01 p0014 A71-11146
 Tritiated thymidine effects on splenic lymphocytes regeneration, discussing DNA synthesis, cycle completion and resident populations 11 p1719 A71-26055
 Mitotic response to various diets in normal and regenerating rat liver 14 p2182 A71-30069
 DNA replication in intercostal artery muscle cells during vascular wall physiological regeneration, noting cytophotometric study of polyploidization 16 p2531 A71-33467
 Erythrocyte disintegration products role in blood regeneration, showing erythropoiesis link to erythrodieresis for different forms of hypoxia 17 p2679 A71-34219
 Hydroponic plant cultivation with keramzit substrate, investigating replacement time effect and regenerative power of nutrient solution 22 p3506 A71-42816

REGENERATIVE COOLING
 Regeneratively cooled stainless steel thrust chamber failure related to internal carburization by fuel decomposition and propellant combustion 11 p1810 A71-25505
 Temperature field profiling along radius in front of gas turbine stage, applying to regeneratively cooled turbine engine 24 p3864 A71-45011

REGENERATIVE CYCLES
U REGENERATION [ENGINEERING]
REGENERATIVE FEEDBACK
U POSITIVE FEEDBACK
REGENERATIVE FUEL CELLS
 Alkaline fuel cells electrochemical regeneration for controlling carbonate concentration in electrolyte for performance improvement 03 p0353 A71-13057

REGENERATORS
NT THERMOSIPHONS
 Performance tests of two identical Brayton cycle heat exchanger units consisting of recuperator, heat sink exchanger and ducting in combination with turbine 15 p2355 A71-32213
 Pressure ratios and surface effects on regenerative heat exchanger in Brayton gas turbine cycles with intercooling or reheating 16 p2663 A71-34037

REGIONS
NT ANTARCTIC REGIONS
NT ARCTIC REGIONS
NT AURORAL ZONES
NT BRILLOUIN ZONES
NT D REGION
NT E REGION
NT F REGION
NT FRESNEL REGION
NT NULL ZONES
NT POLAR REGIONS
NT TEMPERATE REGIONS
NT TROPICAL REGIONS

REGISTERS [COMPUTERS]
NT SHIFT REGISTERS
 Transistorized multichannel registers for optical oscillograph records, discussing frame storage and digital processing circuitry 12 p1889 A71-27755

REGRESSION [STATISTICS]
U REGRESSION ANALYSIS
REGRESSION ANALYSIS
NT REGRESSION COEFFICIENTS
 Parameter estimation of mixed autoregressive moving-average (ARMA) time series using output data 06 p0878 A71-17332
 Fluidic OR-NOR element multiple regression analysis, investigating wall attachment, hysteresis switch pressure and percentage recovery 07 p1031 A71-20607
 Error analysis of adaptive estimators and gradient following algorithms for engineering regression equations, comparing stochastic approximation 08 p1269 A71-21332
 Iterative algorithms for regression function saddle point and applications in reliability and automatic control theories 10 p1585 A71-24156
 Second order experimental plans, obtaining regression analysis for matrix elements and regression coefficients variance 12 p1988 A71-26707
 Structural strength numerical evaluation, demonstrating effectiveness of regression equations in statistical data processing 16 p2651 A71-33063

Space flight sleep pattern data with EEG, using three descriptors and regression and linear discriminant analysis 16 p2528 A71-33108
 Maximum oxygen uptake prediction by stepwise regression technique from data collected during submaximum treadmill work 16 p2530 A71-33241
 Aircraft pilot physical examination for regression curves on near vision and eye accommodation, noting age effect 17 p2692 A71-35197
 Singular perturbation theory for finite rate chemical kinetics effect on regression rate of seminfinit flat fuel plate in gas oxidizer stream 17 p2792 A71-35796
 Mass, center of gravity and moment of inertia measurements curtailment by tolerance and regression analyses and Monte Carlo method [SAWE PAPER 883] 17 p2834 A71-35820
 Solar cycle effects on E region peak electron density, correlating sunspot number by regression analysis 21 p3372 A71-40036
 Linear regression optimal filtering application to aircraft target tracking 23 p3659 A71-44094
 Multivariable regression equations validity from dispersion analysis and limiting complexity with allowance for data sample volume 24 p3842 A71-44392
 Servosystems consisting of command and single executive elements error estimation based on mathematical planning of experiment for time loss reduction, deriving regression equation 24 p3808 A71-44395

REGRESSION COEFFICIENTS
 Polymer thermal degradation theory of pressure sensitive hybrid combustion, calculating linear regression rates 19 p3170 A71-38123

REGULARITY
 Grand Tour interplanetary trajectories regularization, removing singularities in equations of motion of space vehicles [AAS PAPER 71-315] 23 p3725 A71-42990

REGULATION
U CONTROL
REGULATIONS
 Radio interference suppression rules optimization, using mathematical model to characterize interference voltage, antenna sensitivity and radio transmitter field strength 11 p1733 A71-26339
 Book on air law and civil air policy covering international regulation, air traffic market, passenger and cargo services, etc 14 p2340 A71-29938
 SAE/DOT conference on aircraft and environments covering noise pollution, airport noise, sonic booms, regulatory/legal aspects and air pollution [AIAA PAPER 71-729] 14 p2295 A71-30776
 U.S. federal legislation and regulations for aircraft noise and sonic boom 15 p2516 A71-32245
 International radio regulations adopted by Geneva space conference with reference to frequency band allocations in 1-10 GHz range with equal rights to space and terrestrial services 17 p2697 A71-34246
 Aircraft industry license norms and standards, describing indexing procedures, storage techniques and data recovery operations with computer 18 p2886 A71-36810
 New IATA passenger and baggage international air transport conditions, discussing passenger/carrier legal relationships, with emphasis on differences between new and old regulations 18 p2989 A71-36918
 Finnish air traffic law based on international civil aviation convention, discussing regulations relative to aircraft, personnel and airports 18 p2989 A71-36919
 Warsaw air traffic convention agreements as amended at The Hague and Guatemala, presenting air transport regulations in present form 18 p2989 A71-36920
 Exchange regulation of standardized container loading units in air freight transportation 19 p3173 A71-38220
 Aircraft anticollision flashing lights, discussing current practices within national and international air traffic regulations regarding flash frequency, color and light sources 22 p3483 A71-41499
 Airport noise control regulations enforcement feasibility, noting financial burden 22 p3623 A71-41796
 Airlines procedures in conducting pilot training programs within ICAO recommendations and German regulations 23 p3639 A71-43230

REGULATORS
NT AUTOMATIC FREQUENCY CONTROL
NT CURRENT REGULATORS
NT FLOW REGULATORS

NT FREQUENCY CONTROL
NT FUEL FLOW REGULATORS
NT OXYGEN REGULATORS
NT PRESSURE REGULATORS
NT THERMOSTATS
NT VOLTAGE REGULATORS
 Approximate optimal control law formulation by harmonic linearization for nonlinear time invariant state regulator problem with high performance index 03 p0390 A71-14299
 Regulator logic synthesis using state variable feedback for stationary linear plants 03 p0393 A71-14467
 Nonlinear absolutely stable regulator design in parameter space, using computer simplex search 08 p1324 A71-21319
 Optimal output regulator for linear time invariant systems with reference vector and quadratic cost functional 12 p1893 A71-27430
 Ritz-Treffitz algorithm application to optimal state regulator problem computer processing to improve speed of solution and storage requirements 15 p2374 A71-31182
 Optimal zero-memory regulator for linear system with stochastic jump parameters, considering Bayes and minimax controllers 19 p0309 A71-38711
 Maximally achievable accuracy of linear optimal regulators and filters 23 p3659 A71-44099
 State estimation errors in quadratic optimal control feedback gain design of stochastic linear regulator 23 p3659 A71-44100
 Optimal stochastic control law derivation for linear regulator with quadratic performance criterion from limiting form of transfer function 24 p3816 A71-45134

REHEATING
U HEATING
REIGNITION
U IGNITION
REINFORCED MATERIALS
U COMPOSITE MATERIALS
REINFORCED PLASTICS
 Glass fiber-epoxy resin composites shear strength, considering fiber length and interfacial bond effects 01 p0106 A71-10277
 Fiberglass-reinforced plastics loading conditions effects on tensile strength, determining creep rupture strength from test data 01 p0107 A71-10413
 Viscoelastic behavior of boron fiber-epoxy resin composites at high temperature from torsion pendulum study, proposing linear model for damping peak effect 01 p0107 A71-10460
 Boundary value problem of elasticity theory for reinforced plastics with internal stresses due to shrinkage 01 p0107 A71-10495
 Reinforced polymers strength and deformation under tensile loads applied across fibers 01 p0107 A71-10496
 Contact problems of orthotropic fiberglass-reinforced plastic plate with low shear rigidity 01 p0169 A71-10498
 Heat conductivity equations for thermal stresses of thin cylindrically anisotropic plates made of reinforced laminar plastics 01 p0169 A71-10499
 Reinforced plastics - Conference, Freudenstadt, West Germany, October 1970 01 p0108 A71-10688
 Fiberglass reinforced plastics heavy duty structural parts quality control, discussing strength parameters, safety coefficients, testing methods, etc 01 p0088 A71-10689
 Lightweight structural elements fabrication from fiber reinforced plastic materials [prepregs], discussing manufacturing methods, structural design, production and testing of parts, etc 01 p0172 A71-10690
 Epoxy resin reinforcement by various fiberglass types, discussing effects of bond-enhancing agents, fatigue strength properties, etc 01 p0108 A71-10691
 Adhesive bonding and detachable joints in multilayered fiber reinforced plastic structures, discussing joint strength test methods, fiber and load force orientation effects, etc 01 p0108 A71-10692
 Fiber reinforced plastics fatigue strength investigation by cyclic tension-compression, bending and torsion tests, noting matrix-fiber interface shear stress capacity 01 p0108 A71-10693
 Thin wires mechanical properties compared for epoxy resin reinforcement applications, considering ductility, temperature and aging effects, cost, etc 01 p0108 A71-10694
 Glass fiber reinforced thermoplastics application possibilities and limitations, considering physical and mechanical properties 01 p0108 A71-10695

Glass fiber reinforced plastics strain properties under multiaxial loads, considering long and short time loading, temperature and environmental conditions
01 p0109 A71-10696

Glass fiber reinforced plastics stress and fracture analysis, using approximate and iterative methods for strength estimates and nonlinear stress-strain relationships
01 p0172 A71-10697

Buckling in fiber reinforced plastic thin walled shell structures, discussing structural stability problems and methods for prevention of buckling
01 p0172 A71-10698

Numerical stress-strain calculation for design of high pressure fiberglass-reinforced plastic balloons
01 p0176 A71-11048

Deformation and strength of pipes manufactured from oriented glass fiber reinforced plastics under axial tension
01 p0177 A71-11237

Automated machinery for reinforced plastic structural products manufacture by filament winding
[SME PAPER EM-70-135] 01 p0089 A71-11261

Polyimide/boron reinforced plastic structures fabrication, discussing use in leading edges
[SME PAPER EM-70-133] 01 p0090 A71-11263

Metal matrix and polymer matrix composite materials in aerospace industry, discussing selection factors for specific applications
01 p0104 A71-11283

Fiberglass reinforced plastic materials in steady temperature fields, determining creep and load carrying capacity
02 p0272 A71-11753

Fiberglass reinforced plastic cylindrical shells, investigating rheological effects during heating and concentrated radial loads
02 p0324 A71-11754

Corrosion resistant fiberglass reinforced plastic fluid storage vessels, noting structural characteristics, fabrication techniques, etc
02 p0256 A71-12348

Reinforced plastics - Conference, Brighton, October 1970
02 p0273 A71-12476

Carbon fiber reinforced epoxy composites, evaluating application as helicopter tail rotor blade material
02 p0273 A71-12477

Glass reinforced polyester laminates under static and repeated loading, investigating resin flexibility effects on fatigue strength
02 p0274 A71-12479

Fiber reinforced thermoplastics deformation characteristics, using uniaxial tensile test
02 p0274 A71-12480

Carbon fiber reinforced plastics, discussing mechanical and nondestructive testing for performance factors
02 p0274 A71-12482

Fire retardant glass reinforced polyester resins optimum formulation, examining burning properties, volatility, extinction time and flame propagation
02 p0274 A71-12483

Reinforced plastic laminates structural integrity, describing procedure for mechanical property evaluation
02 p0274 A71-12484

Carbon fiber surface treatment for reinforced plastic composites interlaminar strength increase, using wet oxidation process based on hypochlorous acid
02 p0274 A71-12485

Carbon fiber composites, examining epoxy resin matrix effects on mechanical performance and heat tolerance
02 p0274 A71-12486

High strength polyimide resin composites, discussing commercial and aerospace applications, chemistry, void content, volatiles and moisture absorption
02 p0274 A71-12487

Carbon fiber-epoxy resin composites in aircraft industry, examining fatigue life, cost, specific moduli and mechanical properties
02 p0275 A71-12488

Glass fiber reinforced plastics tensile strength under various continuous loading rates and elevated temperatures
02 p0275 A71-12667

Three phase particulate epoxy composite compressive yield strength, considering strain rate filler content, porosity and voids effect
03 p0442 A71-13538

Thermal cycle stresses at interface of composite glass tape-epoxy casting resin cylinder, using strain
03 p0508 A71-13763

Inextensible fiber-reinforced plastic-rigid solid, applying continuum theory to derive kinematic properties, yield condition and flow rule
03 p0514 A71-13439

Thermal expansion of unidirectional, angle-ply and complex laminated graphite-epoxy composites, con-

sidering fiber orientation, hysteresis and interlayer stress relaxation
03 p0449 A71-14459

Fiber reinforced plastics testing and mechanical parameters measurement, considering materials strength and fracture probability
04 p0618 A71-14887

Carbon fiber reinforced composite cryogenic fuel tanks development for post-Apollo programs, discussing fiber and resin physical properties
05 p0819 A71-15946

Aluminum reinforced epoxy model making, testing and stress analysis for aircraft structures, including creep, photoelastic coating and strain gage effects
05 p0821 A71-16346

Creep and long term strength of unidirectionally reinforced plastics under compression
05 p0771 A71-16361

Glass textolite materials strength during cooling under tensile, high rate tension and impact loads
05 p0771 A71-16362

Elastic and compression strength characteristics of fiberglass-reinforced plastics prepared by cold solidification
05 p0771 A71-16364

Orthotropic cylindrical shell stability under variable compression loads, considering glass fiber reinforced plastic tube
05 p0822 A71-16368

Low shear rigidity effect on stability of glass fiber reinforced plastic cylindrical shells under loads and elevated temperature
05 p0822 A71-16369

Elasticity and strength anisotropy changes of unidirectional fiberglass reinforced plastics during winding
05 p0759 A71-16372

Complex modulus of elasticity relation to viscoelastic cantilever beams stress or strain under forced vibration, considering fiber reinforced plastics
05 p0826 A71-16738

Glass fiber reinforced plastic plates static tensile and low cycle fatigue tests under pulsating tension
05 p0772 A71-16739

Unidirectional glass-epoxy filament wound composite material fracture strength based on three dimensional stress components of fiber-containing plane
05 p0826 A71-16740

Fracture strength of helical wound glass-epoxy composite cylinder under axial tension, determining tensile strength
05 p0826 A71-16741

Tensile test equipment for fiberglass reinforced plastics strength measurement under shear
05 p0772 A71-16888

Fiber reinforced plastics fatigue testing, discussing machines, specimen preparation and design, data analysis and environmental control
05 p0772 A71-16928

Injection molded thermoplastics with fiberglass reinforcement, examining mechanical properties and thermal and stress cracking resistance
05 p0773 A71-17123

Counterface nature effect on friction and wear processes of carbon fiber reinforced polymers, discussing formation of transfer film of wear debris
05 p0773 A71-17245

Combined deformation of reinforcing elements and polymer binder in monodirectional composite structure, determining stress distribution
06 p0915 A71-17380

Soviet book on fiber reinforced plastics design covering low strength rods, plates and thin walled rings, winding techniques, etc
06 p0983 A71-17435

High modulus boron-epoxy composite aircraft structures adhesive bonding, discussing mechanical properties, manufacturing techniques and quality control
[SAE PAPER 710110] 06 p0904 A71-17624

Fiberglass-reinforced plastics with and without water content, studying ablation performance
06 p0915 A71-17681

Carbon fibers for low weight aircraft plastic structural materials
06 p0915 A71-17743

Anisotropic fiberglass reinforced plastic shell stability under short term and prolonged loading, using geometrically nonlinear formulation and Galerkin method
06 p0994 A71-17825

High strength metal and ceramic reinforcement fibers, discussing properties and fabrication for plastic composites
06 p0916 A71-18088

High amplitude stress wave propagation in anisotropic quartz-phenolic composite, noting strong pulse amplitude attenuation
[AIAA PAPER 71-179] 06 p1004 A71-18618

Thermal stresses in annular plate of fiberglass reinforced epoxy resin
07 p1209 A71-18919

Glass fiber reinforced thermoplastics with increased room temperature mechanical properties, noting effect of heat, aging and chemical environment exposure
07 p1145 A71-19692

Lightning protective coatings for boron and graphite fiber reinforced plastics
07 p1021 A71-19944

High intensity electric current damage in boron and graphite filament reinforced epoxy resin composites
07 p1145 A71-19945

Stress rupture properties of S glass/epoxy single end strands at various load levels, considering distribution functions
07 p1145 A71-20126

Strain rate effect on fiber reinforced unidirectional epoxy composites tensile stress, noting steel, boron, beryllium and graphite/epoxy strands
07 p1139 A71-20137

Fiberglass reinforced plastic strength and deformability under tension as function of loading rate and test temperature
07 p1145 A71-20466

Organofunctional silane interfacial coupling for high strength glass reinforced thermoplastics
08 p1318 A71-20695

Charpy notched impact strength of carbon fiber reinforced epoxy resin composites over temperature range
[PLASTICS INST. PAPER 20] 08 p1318 A71-20891

Carbon fiber reinforced epoxy resin fatigue and crack propagation behavior in air, moisture and oil environments, using tensile, bending and torsion test methods
[PLASTICS INST. PAPER 49] 08 p1318 A71-20892

Carbon fiber reinforced plastics mechanical properties, discussing batch processing and specimen geometry variables effects on laminates
[PLASTICS INST. PAPER 24] 08 p1318 A71-20893

Carbon fiber reinforced carbon base composites manufacture by thermal decomposition of carbon fiber reinforced thermosetting resins, discussing polymer matrix shrinkage control
[PLASTICS INST. PAPER 36] 08 p1319 A71-20894

Carbon fiber reinforced polymers for self lubricating materials applications, discussing friction and wear characteristics under fresh and sea water, alcohols, mineral oils, etc
[PLASTICS INST. PAPER 31] 08 p1319 A71-20896

High strength flexible carbon fabrics from oxidized polyacrylonitrile yarns for reinforced plastic laminates
[PLASTICS INST. PAPER 39] 08 p1319 A71-20900

Filament wound carbon fiber reinforced plastics components fabrication and performance tests
[PLASTICS INST. PAPER 47] 08 p1296 A71-20902

Carbon fiber reinforced plastics applications for aero-engine components, considering mechanical and thermal properties and environmental conditions
[PLASTICS INST. PAPER 45] 08 p1347 A71-20905

Graphite fiber reinforced plastics adhesion and orientation effects on mechanical properties
[PLASTICS INST. PAPER 27] 08 p1320 A71-20906

Cross-ply carbon fiber reinforced epoxy resin laminates fatigue behavior under axial loading, discussing various failure mechanisms
08 p1321 A71-20912

Mechanical properties of plastic composites with boron, beryllium, silicon carbide and graphite fiber reinforcement
[PLASTICS INST. PAPER 29] 08 p1321 A71-20917

Heat resistant extended life carbon fiber/polyimide resin composites, noting aerospace applications
[PLASTICS INST. PAPER 34] 08 p1321 A71-20920

High speed ball impact tests and fracture energy of carbon fiber reinforced plastics
[PLASTICS INST. PAPER 25] 08 p1322 A71-20922

Tensile, flexural and compressive shear, impact and fatigue characteristics of carbon fiber-epoxy resin composites
[PLASTICS INST. PAPER 26] 08 p1322 A71-20923

Carbon fiber reinforced plastics potential aerospace structural applications, considering weight saving, mechanical properties, thermal expansion, stress concentration, impact resistance, corrosion and lightning problems
[PLASTICS INST. PAPER 43] 08 p1369 A71-20927

Failure analysis of unidirectionally reinforced fiberglass composites due to winding, using critical stress distribution function
08 p1323 A71-21011

Comparative tensile and creep tests of reinforced thermoplastics for performance/cost selection [PLASTICS INST. PAPER 4] 09 p1481 A71-22340

Reinforcement theory fiber filled thermoplastics, considering fiber strength and length [PLASTICS INST. PAPER 2] 09 p1481 A71-22341

Tribological characteristics of carbon fiber reinforced thermoplastics, noting improved sliding wear against metal surfaces [PLASTICS INST. PAPER 12] 09 p1481 A71-22344

Thermoplastics reinforcement with carbon, silicon nitride and silicon carbide fibers, noting fiber aspect ratio [PLASTICS INST. PAPER 5] 09 p1482 A71-22345

Interlayer shear modulus relation to thermal conductivity coefficient in oriented glass fiber reinforced plastics 09 p1482 A71-22814

Filament winding geodesic characteristics of shells of revolution made of glass fiber reinforced plastics 09 p1482 A71-22815

Numerical analysis of winding and heat treatment effects on residual stress distribution in cylindrical glass fiber reinforced plastic products 09 p1482 A71-22816

Steady multifiber winding process conditions in compact glass fiber packing for glass fiber reinforced plastic tubes 09 p1482 A71-22817

Stress concentration near hole in transversely isotropic cylindrical and spherical shells made of oriented glass fiber reinforced plastics 09 p1539 A71-22820

Stability characteristics of glass fiber reinforced plastic orthotropic cylindrical shell with elastic filler under torsion 09 p1539 A71-22821

Residual stresses in ring shaped specimens of wound glass fiber plastic products, using radial cutting technique 09 p1482 A71-22822

Optimal design parameters in minimization of reinforcement elements weight in cylindrical glass fiber reinforced orthotropic plastic shells under axial compression 09 p1539 A71-22826

Ultrasonic modulus vs strength of high modulus fiber reinforced epoxy matrix composites in non-destructive testing 09 p1484 A71-23687

Stress-strain curves for plastics with or without fiber reinforcements under impulsive compressive loading cycles, using split Hopkinson pressure bar apparatus 10 p1630 A71-23921

Surface treatment effects on high shear strength adhesive bonding of fiber reinforced plastics to metal substructures 10 p1630 A71-24069

Deformability and strength of soft fiber reinforced plastics under biaxial tension, determining low temperature critical tensile stresses and elongation ratios 10 p1634 A71-24194

High temperature testing assembly for reinforced plastics and binders in oxidizing and inert media under tension, compression, bending and cleavage loads 10 p1589 A71-24202

Performance-price relations of carbon, boron and glass fiber reinforced resin matrix composites in commercial and aerospace use 10 p1634 A71-24418

Filamentary composites for primary aircraft structural applications, emphasizing boron-epoxy material 10 p1618 A71-24770

Hardened and glass reinforced epoxy resin mechanical properties after 180 day hold in water, acid and alkaline solutions 10 p1635 A71-24827

Fiber reinforced plastics/epoxy resins/ electrical effects association with deformation and failure 10 p1635 A71-25013

Reinforced plastics - Conference, Washington, D.C., February 1971 11 p1784 A71-25392

Fiber length, diameter, bundle size, glass content and sizing effects on fiberglass reinforced plastic systems flexural, tensile and impact strength 11 p1784 A71-25395

SVAM glass reinforced plastics production and properties, discussing drawing, coating and forming oriented laminate on drum 11 p1784 A71-25396

Carbon fiber-epoxy resin composites Young modulus, thermal and electrical conductivities as function of fiber alignment and porosity 11 p1784 A71-25399

Nondestructive testing method obtaining relaxation modulus and accelerated degradation/stress corrosion of reinforced plastics 11 p1768 A71-25404

Carbon fiber reinforced plastics industrial engineering applications, noting cost effectiveness, strength and elasticity 11 p1861 A71-25407

Long term oxidative aging effects on interlaminar shear strength retention of low void graphite/ boron reinforced polyimide resin composites 11 p1785 A71-25410

Fiber reinforced thermoplastics fabrication by fluidized bed techniques, fusing powder matrix to fiber surface for continuous coating 11 p1768 A71-25415

Transverse impact resistive graphite fiber reinforced plastic (GFRP) lightweight sandwich panels and beam structures, using thin inner core facings 11 p1846 A71-25417

Winding equipment for continuous production of large diameter cylindrical filaments of reinforcing materials and polyester resins 11 p1768 A71-25418

Fiberglass reinforced plastic rocket launcher tubes with internal helical rails to impart spin to missiles, discussing design, fabrication and testing 11 p1786 A71-25419

Electrical properties, chemical resistance and reinforced plastics applications of telechelic ultrahigh vinyl polybutadiene resins 11 p1786 A71-25422

Plastics mold design improvements, discussing steel quality, guiding/heating systems, surface finish and chrome plating 11 p1768 A71-25432

Papers on glass fiber reinforced plastics covering end products and design criteria 11 p1788 A71-25651

Glass fiber reinforced plastics aerospace applications covering radomes, dielectric panels, aircraft ducting, secondary structures, furnishings, mouldings and tooling 11 p1788 A71-25652

Glass fiber reinforced plastics reinforcement techniques, emphasizing E glass filament manufacture, properties, advantages and products 11 p1788 A71-25653

Plastics reinforcement by combining high plastic deformation and fracture resistances with stiffness, discussing ceramics, whiskers, carbon and glass fibers 11 p1788 A71-25654

Glass fiber reinforced plastics mechanical properties, strain-stress characteristics and anisotropy, deriving orthotropic laminates tensile stiffness under deformation 11 p1849 A71-25656

Glass fiber reinforced plastics, discussing adhesion, wetting and adsorption effects on chemical reactions in glass-resin interfaces 11 p1788 A71-25657

Glass fiber reinforced plastics fatigue tests, discussing closed loop hydraulic servomechanism equipment, testing methods and materials and mean stress effects 11 p1789 A71-25658

Three dimensional reinforced composites for load bearing structural ablator 11 p1789 A71-26037

Elastic properties of bonded orthotropic layer plates, finding good agreement with fiberglass reinforced plastic laminates 11 p1851 A71-26199

Unidirectional glass fiber epoxy composite material nonlinear viscoelastic behavior, using isothermal uniaxial creep and recovery tests with thermodynamic constitutive equations 11 p1851 A71-26385

Fracture toughness and critical strain rate measurements in unidirectional glass reinforced plastics as function of resin, hardener, fiber and degree of cure 11 p1790 A71-26387

Maximum shear and hoop stress gradients in graphite-epoxy angle-ply laminated composite cylinders for axial and internal pressure loading 11 p1852 A71-26391

Boron and carbon fracture and debonding in epoxy matrix, using acoustic emission analysis 11 p1772 A71-26392

Filament winding techniques for glass fiber reinforced plastics, discussing processes, configurations and materials for achieving optimum strength 12 p1920 A71-27011

Stiffness factor in reinforced thermoplastics mechanical properties as function of glass fiber content, working temperature and duration of loading 12 p1920 A71-27012

Microcrack formation in carbon fiber-resin matrix composites under thermal stress 12 p1920 A71-27013

Izod impact testing of carbon fiber reinforced plastics, considering fiber volume loading, surface treatment and specimen and notch geometry 12 p1921 A71-27015

Reinforced plastics components in supersonic transport nose radome and missile radar antennas, discussing molding, sandwich materials and computer controlled spraying techniques 12 p1887 A71-27016

Coupled thermoelasticity, bending and stability of thin walled shells and plates of oriented fiberglass reinforced plastics with low shear rigidity, using Timoshenko theory 12 p1978 A71-27345

Fiberglass reinforced plastic structural elements heat induced deformation and carrying capacity due to material macroinhomogeneity and rigidities asymmetry 12 p1921 A71-27346

Perpendicularly woven fiberglass reinforced plastics stability, elasticity and viscoelasticity as function of temperature 12 p1921 A71-27347

Hand/machine sanded surfaces moderate environment exposure time effects on adhesive bonding of glass fiber reinforced plastic joints 12 p1921 A71-27411

Combined deformation of reinforcing elements and polymer binder in monodirectional composite structure, determining stress distribution 12 p1921 A71-27462

Experimental proof of combustion phenomena in reinforced plastics ablation under simulated atmospheric reentry, using arc plasma jets 12 p1987 A71-27721

Fiberglass reinforced plastics under constant strain rate, deriving failure models as random process for microscopic crack propagation 13 p2148 A71-28115

Tensile strength and fracture toughness of carbon fiber polyester composites, using mechanical testing and scanning electron microscopy 13 p2092 A71-28625

Probability characteristics of glass/epoxy plastics mechanical properties, considering tangential and axial tensile and bending strength, modulus of elasticity, buckling and compression strength 13 p2092 A71-28653

Stability loss, critical load and wave numbers for smooth conical and cylindrical shells of fiberglass reinforced plastics under uniform axial compression 13 p2157 A71-29181

Carbon and boron fiber reinforced plastics adhesive bonded and bolted joints, presenting results of hole deformation tests [DFVLR-SONDDR-96] 13 p2093 A71-29306

Hybrid boron-graphite filaments in epoxy matrix composite, describing increased tensile strength and modulus of elasticity 14 p2261 A71-29638

Materials and processing methods for rain erosion resistant ceramic coated plastic structures for supersonic aircraft, considering fiberglass reinforced polyimide radomes with alumina coating 14 p2262 A71-29645

Carbon/graphite cloth reinforced aromatic/heterocyclic resins ablative composites pyrolysis kinetics by computer code analysis 14 p2262 A71-29649

Advanced plastic composites fabrication and processing techniques, using resins, reinforcements and fillers 14 p2263 A71-29653

High modulus organic fiber for aerospace use, considering fiber-epoxy composite mechanical and physical properties 14 p2263 A71-29658

Multidirectional reinforced resin matrix composites inspection and nondestructive analysis by film/neutron radiography and X ray Vidicon 14 p2263 A71-29659

Stress-time superposition creep data for unfilled and coupled glass reinforced polypropylene at 23-80 C 14 p2264 A71-29835

Linear viscoelastic analysis of two dimensional plane stress model of polyphase composite material with rigid inclusions and voids and polymeric binder 14 p2263 A71-29836

Mechanical properties of fiberglass-epoxy cross-ply laminates, considering tensile strength, crack propagation and ultimate stress and strain 14 p2264 A71-29837

Soviet book on glass-reinforced plastic plates and shells covering engineering methods for anisotropic plates and shells stability and stress analysis 14 p2327 A71-30245

Geometrical parameters and load carrying capacity of fiberglass reinforced plastic composites with elastoplastic adhesive bonding, deriving relations for stress distribution 14 p2264 A71-30270

Fatigue strength of polyester laminates reinforced with glass cloth and mats 14 p2264 A71-30484

Dilatometric measurement for crazing rate in rubber-toughened plastics during tensile creep tests 15 p2438 A71-31369

Boron and graphite fiber reinforced plastics machining, discussing tools, operating parameters and process limitations [SME PAPER MR-71-820] 15 p2416 A71-32429

Epoxy and unsaturated polyester resin compounds for embedding glass fibers in fiberglass reinforced plastics 15 p2439 A71-32737

Ultrasonic pulse technique for plane transverse and longitudinal stress wave dispersion in boron fiber reinforced epoxy composite, determining group velocity dependence on frequency and elastic moduli [ASME PAPER 71-APM-27] 16 p2600 A71-33202

Prestressing of two layer fiberglass-reinforced plastic cylindrical shell under internal pressure 16 p2657 A71-33410

Stress-strain diagrams for oriented fiberglass-reinforced plastic under tension, taking into account temperature and anisotropy effects 16 p2601 A71-33411

Polymer binder setting degree effect on maximum strength of fiberglass cross reinforced plastic, analyzing compressive, bending, hardness, impact, thermal and porosity properties 16 p2601 A71-33682

Welded, bearing and interlocking joints and adhesive bonding in carbon fiber reinforced plastics, discussing anisotropy, thermal expansion and electrochemical corrosion problems 17 p2748 A71-34344

Monograph on fiber-resin composites covering glass, boron and carbon fibers and epoxy matrix materials tensile and thermoelastic properties 17 p2761 A71-34469

Dynamic compressive strength and failure of steel reinforced epoxy composites, discussing strain rate sensitivity 17 p2762 A71-34813

Vibration response NDT for fatigue crack damage in laminated filament-reinforced epoxy composites 17 p2824 A71-34815

Filament wound glass-reinforced plastic struts for cryogenic tank supports in long term planetary missions, testing thermal and mechanical properties 17 p2762 A71-35205

Gradient shape influence on connectivity in two phase graded structures, considering polyphase structure of filament reinforced composites 17 p2763 A71-35226

Oriented glass fiber-plastics plates and shells design, noting zero moment stress shells and filament overwrapped metallic pressure vessels 17 p2830 A71-35315

Metal-reinforced glass plastic composite conical shell with positive Gaussian curvature, estimating reliability and stability based on static tests 17 p2830 A71-35316

Thin multilayer pressurized glass fiber-plastic cylindrical shells, calculating stress redistribution due to crack initiation and prestressing effects 17 p2830 A71-35319

Fiber reinforced resins mechanical properties determination based on component materials characteristics 17 p2763 A71-35441

Optical transmission in unexposed phenolic resin base laminates with silica cloth reinforcements, studying stabilization treatments, pyrolysis and incident radiation spectral distribution 17 p2838 A71-35473

Optimal design of locally orthotropic elastic flat bodies of fiber reinforced plastics or metals 17 p2763 A71-35620

Boron-epoxy composite wing box beam design, describing preliminary weight estimation from layouts [SAWE PAPER 891] 17 p2834 A71-35815

Surface temperatures and ablation mechanism of combustion protective plastics reinforced by silica under intense heating measured by IR micropyrometer [ONERA-TP-962] 18 p2984 A71-36028

Carbon fiber reinforced plastics, reviewing properties, performance, development, applications and potential cost reduction 18 p2940 A71-36765

Uniaxially aligned glass and carbon fiber reinforced nylon composites prepared from caprolactam by anionic polymerization 19 p3083 A71-37339

Reinforced plastics for aerospace applications, giving special attention to heat shield and inflatable structures materials 19 p3085 A71-38069

Polyamides reinforced with finely chopped glass fiber, noting mechanical strength, Martens yield temperature and heat stability 19 p3085 A71-38476

Specimen support effects on three point bending tests of fiber-plastic composites, suggesting small diameter roller 21 p3405 A71-40596

Glass-fiber/glass-bead/resin beam stiffness and strength improvement with sandwiching between layers of unidirectional carbon fiber composite 21 p3405 A71-40597

Nondestructive testing of carbon fiber reinforced composites with resin matrices /CFRP/, suggesting ultrasonics for void detection 21 p3387 A71-40598

Carbon and boron fibers and whisker reinforced plastics fabrication, properties and costs, noting materials and optimum matrix combination 21 p3405 A71-40600

Hysteresis to strength relationship and particulate filler effect on reinforcement of rubbers and plastics 21 p3405 A71-40601

Friction, wear and adhesion of filler and matrix polymer composite bearing materials including glass,

carbon, lamellar solids, metal powders, carbons, nylons, PTFE, polyimides, etc 21 p3405 A71-40602

Carbon fiber reinforced plastics, considering aerospace and medical applications 21 p3406 A71-40702

Mechanical properties, applications and peculiarities of polymer composite materials reinforcement fibers 21 p3406 A71-40777

Nondestructive test for fiberglass reinforced plastic tank, using percussion method 21 p3466 A71-40838

Fatigue properties of satin woven fiberglass reinforced plastic cloth under various stress directions 21 p3406 A71-40839

Metal and polymer matrix materials research based on stringent requirements for thermal reactors, jet engines and space vehicles, discussing tests and analysis methods 21 p3401 A71-40901

Fiber reinforced elastic materials steady state plane wave propagation by modeling constituents as continua undergoing individual motions 21 p3469 A71-41004

Tensile fracture in grip section of fiber reinforced reduced cross section plastic composite specimens 22 p3564 A71-41591

Glass fiber reinforced flame retardant thermoplastic resins, tabulating flammability resistance and mechanical properties 22 p3565 A71-42076

Physical and mechanical properties of controlled flow vacuum cured glass reinforced polyimide prepreg laminates 22 p3565 A71-42595

Epoxy-alumina trihydrate composite system fracture energy data, noting interdependence of surface topography, phase dispersion volume fraction, particle size and spacing 23 p3696 A71-43102

Anisotropic glass fiber plastic material stress, strain and crack formation threshold measurements under long term static and cyclic axial loads 23 p3696 A71-43424

Carbon fiber reinforced plastics featuring high strength and Young modulus and low density for engineering applications 24 p3840 A71-44363

REINFORCED PLATES

Isotropic nonlinearly elastic plate weakened by doubly periodic reinforced curvilinear holes, calculating stress-strain state by Cauchy integrals 01 p0168 A71-10412

Composite beam of three thin plates reinforced by thin electric ribs, calculating stress strain state by Fourier transforms 01 p0176 A71-11044

Buckling analysis of rectangular waffle plates with multiple sizes of ribs in each stiffening direction, considering stability and design 01 p0178 A71-11583

Two dimensional stressed state of isotropic plate with elastically reinforced elliptical hole under biaxial tension 02 p0326 A71-12290

Stress concentration at free and reinforced curvilinear holes with random surface roughness applied to plane under hydrostatic tension 02 p0326 A71-12291

Thin reinforced viscoelastic isotropic multiconnected plate stress-strain state under bending due to concentrated loads and distributed normal forces 02 p0329 A71-12668

Flat sheet under uniform radial tension, varying thickness reinforcement around hole for high stress concentration avoidance 03 p0513 A71-14238

Thin circular cylindrical plate reinforced by longitudinal rigid stringers, deriving computer algorithm for calculating forced vibration 03 p0515 A71-14367

Eccentrically stringer-reinforced rectangular plates buckling under linearly varying longitudinal compression, using Galerkin method 05 p0819 A71-15980

Rectangular plate with stiffener cross section for unit with constant mass, considering natural symmetric and antisymmetric mode frequencies 05 p0824 A71-16603

Glass fiber reinforced plastic plates static tensile and low cycle fatigue tests under pulsating tension 05 p0772 A71-16739

Circular plates of anisotropic fiber-reinforced materials, calculating axisymmetric bending and buckling 06 p0995 A71-17829

Natural frequencies approximation for vibration modes of stiffened and singly curved panel structures 08 p1369 A71-20810

Free and forced vibrations of three layer freely suspended plate with allowance for energy dissipation 08 p1372 A71-21707

Buckling loads of square laminated anisotropic composite plates under compression, including bending-membrane coupling effects 11 p1847 A71-25462

Harmonic vibrations of rib reinforced rectangular elastic plates with two freely supported parallel edges, deriving method for natural frequencies and forced vibration 11 p1848 A71-25580

Reinforced plates flexural and torsional rigidity characteristics for stiffeners design, considering oblique angular coordinates system 12 p1982 A71-27509

Single fiber reinforced plate initial stress distribution due to linear expansion coefficients difference between matrix and fiber, using optical polarization 13 p2091 A71-28126

Longitudinal and transverse rib reinforced plates with parallel cracks extending to edge, obtaining flexural rigidity and stress-strain state 13 p2156 A71-29070

Elastic properties of orthotropic composite disks of fiber-reinforced materials, comparing actual stress in composite with permissible stress of fiber and matrix 14 p2329 A71-30472

Stress analysis of nonlinearly elastic plate with ring reinforced circular hole 14 p2332 A71-30854

Integrally stiffened five bay panel, calculating free vibration and random response to jet noise excitation [AIAA PAPER 71-585] 15 p2504 A71-31532

Stiffened rectangular plates parametric instability under in-plane sinusoidal dynamic forces, using mathematical model with stiffeners as discrete elements [ASME PAPER 71-APM-26] 16 p2655 A71-33203

Eccentrically stiffened thin cylindrical panels instability under uniform axial compression, uniform hoop compression and uniform shear 16 p2661 A71-34150

Fatigue crack propagation in Al alloy panels stiffened with bolted and integral stringers, determining stress intensity factor/crack growth rate relationship 17 p2827 A71-35156

Damage tolerant aircraft structures material toughness and residual strength, presenting fracture test results on precracked panels reinforced with crack stoppers 17 p2827 A71-35157

Stress and deflection analysis of plates reinforced with discrete stiffeners in form of simple beams and twisting elements, determining bending moments 18 p2983 A71-36845

Photoelastic analysis of maximum stress in wide plate with asymmetrically reinforced circular hole under tension, noting effects of rounded corner at hole edge 18 p2984 A71-37022

Stability of edge reinforced circular plate under uniform radial load, considering flexural and extensional stiffness of reinforcing beam 22 p3618 A71-42592

Fibers-matrix force interaction effects in metal composites, analyzing stress-strain state of reinforced plate 23 p3697 A71-44202

Dynamic response of thin walled structures natural frequency analyzed for formulating potential and kinetic energy for stiffness and mass matrices by minimization principle 24 p3878 A71-44555

Stress-strain state of nonlinearly elastic reinforced polymer plate with circular hole, deriving stress tensor components and first approximation solution for pure bending 24 p3882 A71-44838

REINFORCED SHELLS

Buckling of ring stiffened conical shells under axial compression, determining critical loads 01 p0168 A71-10342

Rib reinforced shells linear theory, deriving equilibrium equations with allowance for temperature terms 01 p0170 A71-10644

Discrete search method for stiffened cylindrical shell stability under combined uniform axial compression and lateral pressure loads 01 p0174 A71-10963

Reinforced cylindrical shells under external pressure, investigating longitudinal tensile stresses effect on stability 01 p0175 A71-11040

Homogeneous isotropic cylindrical shell stability, considering reinforcement by nonlinear dense symmetrical system of elastic threads under tension 01 p0176 A71-11124

Highly flexible nonlinearly elastic two layer cylinder reinforced by transversely isotropic shell, examining stressed state in axisymmetric temperature field 02 p0323 A71-11742

Corrosion resistant fiberglass reinforced plastic fluid storage vessels, noting structural characteristics, fabrication techniques, etc 02 p0256 A71-12348

Circular cylindrical shell with trapezoidal stringers reinforcement system along length, calculating strain during oscillation

03 p0514 A71-14359

Eccentrically stiffened thin spherical shell instability under uniform external pressure

04 p0669 A71-15199

Circular cylindrical shell reinforced by ring ribs, investigating dynamic characteristics under impulsive loading

04 p0672 A71-15756

Axial buckling tests on machined integrally ring stiffened cylindrical shells

05 p0823 A71-16559

Rib reinforced circular cylindrical shells, analyzing elementary and zero bending stress states

06 p0982 A71-17351

Cylindrical reinforced shells carrying capacity under dynamic external pressure

06 p0982 A71-17354

Weight-optimal cylindrical shells of revolution with uniform strength edge reinforcement, discussing pressure vessel design

06 p0982 A71-17356

Reinforced cylindrical minimum weight shells under combined axial compression and internal pressure, examining strength and buckling modes

06 p0982 A71-17357

Circular cylindrical orthotropic fiberglass-reinforced shell buckling under longitudinal impact, assuming initial surface imperfections

06 p0985 A71-17684

Elastic rib-reinforced flexible shallow shells theory, deriving variational equations for multicontact problem

06 p0985 A71-17752

Reinforced plate and shell theory, taking into account ribs arbitrary direction and contour profile

06 p0985 A71-17753

Stainless steel shells under uniform external pressure and constrained deformation, noting critical load increase

06 p0986 A71-17760

Local distributed load effects on bending of fiberglass reinforced plastic laminar orthotropic cylindrical shell

06 p0986 A71-17761

Cylindrical shell reinforced by transverse ribs under hydrostatic pressure, determining elastoplastic deformation

06 p0988 A71-17774

Side strain reactions of shells of revolution with meridional ribs, integrating equations by Green function

06 p0989 A71-17785

Eccentrically reinforced cylindrical shells stability equations under axisymmetric loading

06 p0993 A71-17813

Rib reinforced cylindrical shell stability under annular and axial stresses, determining eigenvalue of homogeneous integral equation

06 p0993 A71-17816

Eccentrically reinforced cylindrical shell stability, considering numerical analysis of structurally orthotropic shell parameters

06 p0993 A71-17817

Anisotropic fiberglass reinforced plastic shell stability under short term and prolonged loading, using geometrically nonlinear formulation and Galerkin method

06 p0994 A71-17825

Elastic and viscoelastic multilayer reinforced cylindrical shells stability, determining transverse shear stress role

06 p0996 A71-17841

Circular cylindrical shell stability with ribs of variable cross sections, using method based on semimomentless theory

06 p0997 A71-17850

Reinforced zero moment minimum weight shells strength analysis and optimal design algorithms, using discrete calculation scheme

06 p0998 A71-17854

Stability of rib stiffened and anisotropic shells, including composite and elastic filler structures

06 p1000 A71-17871

Contact theory of shells under local loads and reinforcing rib interactions

06 p1000 A71-17872

Axially compressed ring and stringer stiffened cylindrical shells minimum weight design, considering configuration instability

06 p1003 A71-18590

Cylindrical shells with arbitrary cross sectional contour, thickness and longitudinal stiffener spacing under tension or compression, presenting computer algorithm for determining stress-strain state

08 p1368 A71-20790

Reinforced shells of revolution carrying capacity upper limit subjected to internal adiabatic ideal gas flow

09 p1538 A71-22632

Filament winding geodesic characteristics of shells of revolution made of glass fiber reinforced plastics

09 p1482 A71-22815

Coaxial shells of revolution connected by meridional ribs, deriving elastic equilibrium conditions, stress-strain components and contact forces under thermal and mechanical loads

10 p1688 A71-24358

Shallow rib reinforced rectangular shells under normal load with infinite regularity estimates independent of rigidity, using double trigonometric series

10 p1689 A71-24564

Bidirectional stress-strain analysis of hinged cylindrical shells crosswise reinforced by rigid ribs using equilibrium equations

10 p1690 A71-24566

Orthotropic shells of revolution with concentrated masses and oscillator inclusions and reinforced by stringers and ribs, calculating free vibration by Ritz method

10 p1690 A71-24570

German monograph on circular cylindrical shells theory comparative studies covering energy and equilibrium methods, tensor representation, reinforced shells, etc

10 p1692 A71-24912

Thermal stability of cylindrical laminated fiberglass reinforced plastic shells, solving by linear shell stability theory

11 p1790 A71-26175

Zero moment stress state realization in thin macrohomogeneous shells by selecting adequate uniform multilayer structures for reinforcement

12 p1975 A71-26963

Soviet book on spherical bottoms weakened by openings covering shell stress/strain, elastic-plastic deformations, reinforcing elements and composite materials

12 p1977 A71-27293

Stress-strain state of closed circular cylindrical shells stiffened by longitudinal ribs, analyzing general solution of homogeneous equilibrium equations system

13 p2150 A71-28133

Soviet book on stability of thin walled reinforced and multilayer shells with various designs and boundary conditions

14 p2325 A71-29939

Reinforced toroidal shells stability under critical local loads, edge moment and heating, using finite difference method

14 p2332 A71-30847

Stability and stress analysis of elastic finned circular cylindrical shells reinforced by stringers

14 p2332 A71-30852

Stability of structurally orthotropic stringer reinforced cylindrical shell closed by spherical or plane bottoms under uniform external pressure

14 p2333 A71-30892

Stability loss of circular cylindrical shell with stepped wall thickness of central reinforcing sleeve under annular loading, determining critical load by thin shell theory

16 p2657 A71-33600

Critical loads and stability of longitudinally compressed circular cylindrical shells with eccentric ring and stringer reinforcement

16 p2657 A71-33603

Equivalent reinforcement of contact area between spherical shell and radial outlet cylindrical pipe under internal pressure and axial force

17 p2817 A71-34332

Bending of circular conical shell with discretely reinforced end cross section, deriving accurate closed form solution within limits of working model

17 p2828 A71-35302

Thin elastic spherical shells reinforced by stringers and frames and loaded by internal or external uniform pressure, calculating by energy method

17 p2829 A71-35311

Dynamic response of oddly stiffened circular cylindrical shells, using modified variational method

18 p2980 A71-36495

Photoelastic analysis of cylindrical shells of revolution with one hemispheric closed end and reinforcing flanges at opposite end rim, examining boundary conditions effects

18 p2981 A71-36718

Rib reinforced cylindrical shells deformation under local load, examining stress-strain distribution

18 p2981 A71-36719

Longitudinal edge stiffness and internal pressure effects on buckling and initial postbuckling behavior of axially compressed stringer reinforced cylindrical panels, discussing imperfection sensitivity

19 p3157 A71-37873

Hydrostatically loaded noncircular pressurized cylindrical shells with nonuniform rings, using asymptotic expansion procedure

19 p3157 A71-37875

Zero moment stress state realization in thin macrohomogeneous shells by selecting adequate uniform multilayer structures for reinforcement

19 p3159 A71-38266

In-plane boundary conditions effect on buckling loads of axially compressed simply supported ring stiffened cylindrical shells

19 p3159 A71-38270

Fiber reinforced tube under lateral compression between two flat dies, determining finite deformation from nonlinear elastic and elastoplastic shearing response analysis

20 p3311 A71-39966

Zero moment reinforced prismatic shells of rectangular cross section with arbitrary load distribution

21 p3472 A71-41146

Zero moment theory application to stability analysis of rib-reinforced cylindrical shell under external pressure

21 p3472 A71-41149

Natural vibrations of closed reinforced cylindrical shell clamped at end faces

21 p3473 A71-41153

Computer program for nonuniform thickness ring structure stress distribution under uniform radial line load based on reinforced circular cylindrical shell interaction under hydrostatic pressure

22 p3516 A71-41866

Stability formula for critical pressure in cylindrical shells orthotropically reinforced by closely spaced eccentric ribs

22 p3616 A71-42487

Stability and critical loads of reinforced geometrically nonlinear cylindrical shells, using strain energy method

24 p3882 A71-44842

Cyclic symmetrical deformation of thin elastic conical shells of revolution of variable thickness with meridional ribs under physical and thermal loads

24 p3882 A71-44843

Equivalent stiffening of circular hole in convex shell of revolution by short shell under symmetric and antisymmetric loads

24 p3882 A71-44845

Ring reinforced spherical shell and rib under concentrated normal forces, calculating force factors and displacement by simultaneous deformation analysis allowing moment stresses

24 p3883 A71-44896

REINFORCEMENT [PSYCHOLOGY]

Partial reinforcement effect in visual vigilance task, varying knowledge of results as incentive

16 p2537 A71-33680

Observing behavior in squirrel monkeys under multiple schedule of reinforcement availability

22 p3497 A71-42861

Trace reflex formation in response to acoustic stimulus with verbal reinforcement, determining cross correlation connections between induced activity of auditory and motor areas

24 p3796 A71-44547

REINFORCEMENT [STRUCTURES]

Glass fiber reinforced durometer and hard foam sandwich structures deformation characteristics under static loads, presenting theoretical and experimental results

01 p0172 A71-10700

Optimal cross sectional dimensions of thin walled longeron beams and ribs of skin reinforced delta wings minimizing weight

02 p0329 A71-12562

Inhomogeneously reinforced composite structures strengthening by internal stress matching

05 p0771 A71-16365

Thin metal sheet reinforcements effect on slow stable tear and catastrophic failure

06 p1003 A71-18563

Stiffened flat panel dynamic analysis, using finite element method

08 p1374 A71-22027

Airport runway surface strengthening, discussing overlaying additional rigid or flexible layers, replacing used sections and reinforcement problems

10 p1589 A71-24756

Composite morphology and mechanical properties relationship, considering reinforcing effect, filamentous systems, whisker growth ladder molecules synthesis and material production

10 p1635 A71-24768

Three dimensional composite reinforcement principles, discussing thermal strain reduction and mechanical properties

10 p1691 A71-24772

Material properties, impregnation, shaping, hardening and structural design in mass production of reinforced laminates for aircraft construction

12 p1920 A71-26954

Thin walled stiffened Duralumin box spars bending stress-strain states under unsteady creep

12 p1981 A71-27496

Spar box structure under pure bending noting flexural rigidity and stress and stability analysis with Kármán nonlinear equations

12 p1981 A71-27498

Compression strength theory for monodirectional reinforced homogeneous anisotropic and piecewise homogeneous materials, using microvolume stability loss failure mechanism

12 p1922 A71-27684

Honeycomb cell multilayer and reinforced structures, examining temperature field radiative heat transport and thermal conductivity and emissivity

13 p2165 A71-29180

Rectangular plates with unidirectional stiffeners, calculating natural frequencies and mode shapes with approximate method

15 p2507 A71-32128

Buckling for thin stress walled open sections on elastic foundation with constrained direction reinforcement

22 p3614 A71-41693

Fiber reinforced viscoelastic rectangular beam, deriving asymptotic values of stress, curvature and position of neutral axis under constant moment

24 p3879 A71-44630

REINFORCEMENT RINGS

Ring reinforced circular holes in cylindrical shells examining stress concentrations due to internal pressure

03 p0507 A71-13740

Stiff rings attached to elastic cylinders, analyzing stresses and deformations under concentrated loads and bending moments about radial and tangential axes [ASME PAPER 70-WA/PVP-1]

03 p0510 A71-14099

Circular cylindrical shell reinforced by ring ribs, investigating dynamic characteristics under impulsive loading

04 p0672 A71-15756

Axial buckling tests on machined integrally ring stiffened cylindrical shells

05 p0823 A71-16559

Eccentricity and clamping effects on stability and critical pressure of ring-reinforced cylindrical shells under internal pressure

08 p1369 A71-21122

Thermal buckling prediction for ring-stiffened cylinders, taking into account ring out-of-plane bending stiffness

17 p2825 A71-34896

Hydrostatically loaded noncircular pressurized cylindrical shells with nonuniform rings, using asymptotic expansion procedure

19 p3157 A71-37875

In-plane boundary conditions effect on buckling loads of axially compressed simply supported ring stiffened cylindrical shells

19 p3159 A71-38270

Cylindrical shell under opposing concentrated outwardly directed radial loads applied to reinforcing ring, presenting stress distributions and displacements

21 p3468 A71-40971

Photoelastic analysis of thermal stresses in polyurethane rubber ring reinforced polymers, cermets and rubber-metal composites

24 p3883 A71-44895

Ring reinforced spherical shell and rib under concentrated normal forces, calculating force factors and displacement by simultaneous deformation analysis allowing moment stresses

24 p3883 A71-44896

REINFORCING FIBERS

NT CARBON FIBERS

Glass fiber-epoxy resin composites shear strength, considering fiber length and interfacial bond effects

01 p0106 A71-10277

Fiber reinforced materials technology, reviewing basic principles, existing technologies and future trends, various composite materials characteristics, etc

01 p0107 A71-10315

Fiber reinforced materials industrial applications based on various matrix-fiber combinations, considering manufacturing processes, chemical and mechanical properties, etc

01 p0107 A71-10316

Fiberglass-reinforced plastics loading conditions effects on tensile strength, determining creep rupture strength from test data

01 p0107 A71-10413

Viscoelastic behavior of boron fiber-epoxy resin composites at high temperature from torsion pendulum study, proposing linear model for damping peak effect

01 p0107 A71-10460

Reinforced polymers strength and deformation under tensile loads applied across fibers

01 p0107 A71-10496

Epoxy resin reinforcement by various fiberglass types, discussing effects of bond-enhancing agents, fatigue strength properties, etc

01 p0108 A71-10691

Adhesive bonding and detachable joints in multilayered fiber reinforced plastic structures, discussing joint strength test methods, fiber and load force orientation effects, etc

01 p0108 A71-10692

Fiber reinforced plastics fatigue strength investigation by cyclic tension-compression, bending and torsion tests, noting matrix-fiber interface shear stress capacity

01 p0108 A71-10693

Thin wires mechanical properties compared for epoxy resin reinforcement applications, considering ductility, temperature and aging effects, cost, etc

01 p0108 A71-10694

Glass fiber reinforced thermoplastics application possibilities and limitations, considering physical and mechanical properties

01 p0108 A71-10695

Glass fiber reinforced plastics strain properties under multiaxial loads, considering long and short time loading, temperature and environmental conditions

01 p0109 A71-10696

Glass fiber reinforced plastics stress and fracture analysis, using approximate and iterative methods for strength estimates and nonlinear stress-strain relationships

01 p0172 A71-10697

High modulus graphite fiber composites, considering production, properties, utilization, availability and price/performance

[SME PAPER EM-70-114]

01 p0109 A71-11251

Fiber reinforced composites application in aerospace and aircraft, discussing boron and graphite and cost effectiveness

01 p0103 A71-11277

Boron vs graphite fiber reinforced composites, noting design application role

01 p0104 A71-11280

Ceramic fibers formation by particles mechanical deformation by extrusion in W matrix, describing grain structure of various extruded metal oxides

02 p0273 A71-12149

Composite materials with high strength short discontinuous fibers, considering manufacturing processes and mechanical properties

02 p0273 A71-12478

Fiber reinforced thermoplastics deformation characteristics, using uniaxial tensile test

02 p0274 A71-12480

Unidirectionally fiber reinforced composite materials, discussing compressive strength

02 p0274 A71-12481

Carbon fiber reinforced plastics, discussing mechanical and nondestructive testing for performance factors

02 p0274 A71-12482

Carbon fiber surface treatment for reinforced plastic composites interlaminar strength increase, using wet oxidation process based on hypochlorous acid

02 p0274 A71-12485

Carbon fiber composites, examining epoxy resin matrix effects on mechanical performance and heat tolerance

02 p0274 A71-12486

Carbon fiber-epoxy resin composites in aircraft industry, examining fatigue life, cost, specific moduli and mechanical properties

02 p0275 A71-12488

Carbon fiber reinforced plastics and metals structural components design, discussing properties, processing and applications

02 p0330 A71-12910

Load limit surfaces for composite plates with long elastic plastic fibers site bonded or imbedded in low strength matrix

03 p0504 A71-13429

Polymer binder effect photoviscoelastic stress analysis near discontinuous reinforcing fibers, comparing results with finite element method for time dependence

[SESA PAPER 1630]

03 p0507 A71-13755

Photoelastic study of stress wave propagation in composites under fiber matrix strip directed impulsive loading with exploding wire

[SESA PAPER 1708]

03 p0507 A71-13758

Cord reinforced elastic homogeneous isotropic cylindrical membrane axisymmetric deformation, using strain energy function

03 p0514 A71-13438

Inextensible fiber-reinforced plastic-rigid solid, applying continuum theory to derive kinematic properties, yield condition and flow rule

03 p0514 A71-14349

Carbon base multifiber yarns for metal matrix composites reinforcement, considering fiber strength degradation minimization methods

03 p0449 A71-14419

Thermal expansion of unidirectional, angle-ply and complex laminated graphite-epoxy composites, considering fiber orientation, hysteresis and interlayer stress relaxation

03 p0449 A71-14459

Fiber reinforced plastics testing and mechanical parameters measurement, considering materials strength and fracture probability

04 p0618 A71-14887

Whisker reinforced composites fabrication principles and methods, discussing constituents, mechanical, geometrical, physical and chemical requirements

04 p0603 A71-14949

Composite material of ductile matrix and straight reinforcing fibers, deriving yield condition

04 p0669 A71-15196

Plane wave propagation in layer direction in fiber reinforced viscoelastic materials

04 p0669 A71-15202

Composite materials of highly conductive metal fibers randomly distributed in low conductive matrices, investigating parameters affecting thermal conductivity from stochastic models

04 p0678 A71-15458

Fiber reinforced cryogenic pressure vessels design, manufacture and testing for space and terrestrial applications, comparing glass fibers to carbon fibers

04 p0618 A71-15650

Boron fiber-Al alloy composites linear thermal expansion as function of fiber volume fraction and orientation

04 p0615 A71-15788

Fiber reinforced Al and Al alloys, discussing physical properties and manufacturing methods

05 p0764 A71-15921

Carbon fiber reinforced composite cryogenic fuel tanks development for post-Apollo programs, discussing fiber and resin physical properties

05 p0819 A71-15946

Transverse elastic modulus and Poisson coefficient of composite materials as function of reinforcement, structure and fiber radius

05 p0771 A71-16360

Interlayer rigidity effects on strength of fiber reinforced composite materials under plane loads

05 p0771 A71-16366

Asbestos applications in aerospace technology, considering chemical and molecular structure, heat and radiation resistance, mechanical properties and reinforcement

05 p0772 A71-16465

Stress wave scattering in fiber reinforced composite material, using model of parallel elastic cylinders embedded in unbounded elastic medium

05 p0826 A71-16719

Bunched parallel reinforcing fibers of equal size and varying strength, deriving critical loads and stresses under gradual failure

05 p0772 A71-16751

Reinforced Ni-based composites, discussing barrier coating for tungsten fibers

05 p0769 A71-16860

Cu and Ni electroless deposition on carbon fibers for composites

05 p0759 A71-16927

Fiber reinforced plastics fatigue testing, discussing machines, specimen preparation and design, data analysis and environmental control

05 p0772 A71-16928

Fibrous composite materials stress and deformation analysis, using point matching numerical method and boundary point least squares method

05 p0829 A71-17119

Counterface nature effect on friction and wear processes of carbon fiber reinforced polymers, discussing formation of transfer film of wear debris

05 p0773 A71-17245

Combined deformation of reinforcing elements and polymer binder in monodirectional composite structure, determining stress distribution

06 p0915 A71-17380

Soviet book on fiber reinforced plastics design covering low strength rods, plates and thin walled rings, winding techniques, etc

06 p0983 A71-17435

Carbon fibers for low weight aircraft plastic structural materials

06 p0915 A71-17743

Circular plates of anisotropic fiber-reinforced materials, calculating axisymmetric bending and buckling

06 p0995 A71-17829

Mechanical property data for silicon nitride-silicon carbide fiber ceramic composites having high fracture values

06 p0916 A71-18035

High strength metal and ceramic reinforcement fibers, discussing properties and fabrication for plastic composites

06 p0916 A71-18088

Fiber composites reinforcement obtained in oriented solidification by structural precipitation hardening of matrix

[ONERA-TP-920]

06 p0913 A71-18094

Unidirectional discontinuous fiber composite longitudinal strength calculation based on perturbation effect and distortional energy criterion, using finite element method

06 p1001 A71-18100

Plane and spatial load transfer and diffusion in linear elastostatics, noting application to aircraft and civil engineering structures and fiber reinforced materials

06 p1001 A71-18222

Unidirectional fiber reinforced orthotropic composite materials elastic constants calculation as function of two isotropic components characteristics

06 p1001 A71-18309

Graphite fiber reinforced Al-Si alloy composite tensile strength and microstructure, observing tension failure modes

06 p0914 A71-18678

Continuous filament metal matrix composites fabrication from hot pressed composites by diffusion reaction process

06 p0915 A71-18688

Lightning protective coatings for boron and graphite fiber reinforced plastics

07 p1021 A71-19944

Laminate analogy predicting elastic and thermal expansion properties of short fiber reinforced composites, extending to two and three dimensional woven fabric composites

07 p1215 A71-20129

Unidirectional fiber reinforced composite longitudinal shear deformation, deriving analytical expression for stress distribution

07 p1216 A71-20132

Fiber reinforced materials machining, considering deformation and stress fields, forces required for continuous machining

07 p1120 A71-20133

Strain rate effect on fiber reinforced unidirectional epoxy composites tensile stress, noting steel, boron, beryllium and graphite/epoxy strands

07 p1139 A71-20137

W fiber reinforced Al strain distribution under tensile load, using moire grid method

07 p1144 A71-20495

Filament winding manufacturing methods using unidirectional glass reinforcements for design and fabrication of aircraft wing structure [SME PAPER EM-70-406]

07 p1120 A71-20546

Filament wound carbon fiber reinforced plastics components fabrication and performance tests [PLASTICS INST. PAPER 47]

08 p1296 A71-20902

Composite materials with metallic matrix and carbon fibers, discussing production techniques and mechanical properties [PLASTICS INST. PAPER 15]

08 p1320 A71-20907

Cross-ply carbon fiber reinforced epoxy resin laminates fatigue behavior under axial loading, discussing various failure mechanisms

08 p1321 A71-20912

High modulus graphite fiber reinforced composites tensile and compressive test methods and results [PLASTICS INST. PAPER 23]

08 p1321 A71-20913

Carbon fiber/carbon composites produced by moulded carbon technique, discussing mechanical properties and applications in rocket motors [PLASTICS INST. PAPER 38]

08 p1348 A71-20914

Mechanical properties of plastic composites with boron, beryllium, silicon carbide and graphite fiber reinforcement [PLASTICS INST. PAPER 29]

08 p1321 A71-20917

Carbon fiber evaluation of structural reinforcement potentialities for rocket motor cases and pressure vessels filament winding [PLASTICS INST. PAPER 48]

08 p1297 A71-20924

Cost aspects of carbon fiber reinforced composites in aircraft structures, suggesting increased aviation market for carbon fiber [PLASTICS INST. PAPER 46]

08 p1378 A71-20929

Carbon fiber reinforced Al composites fabrication and evaluation by metallographic examination, considering tensile strength [PLASTICS INST. PAPER 17]

08 p1322 A71-20930

Metals and alloys strengthening by in situ grown transition metal carbide fibers, noting whisker-like characteristics

08 p1315 A71-21586

W fibers reinforced Cu matrix work hardening rates as function of fiber diameter and volume fraction, using isolated tension pile-up model

09 p1535 A71-22279

Aligned fibers reinforced material hardening rate, taking into account elastic energy and external potential due to internal stress interaction with applied stress

09 p1467 A71-22286

Reinforcement theory fiber filled thermoplastics, considering fiber strength and length [PLASTICS INST. PAPER 2]

09 p1481 A71-22341

Filler and reinforcing agent effects on polypropylene rigidity, tensile strength and creep resistance at elevated temperatures [PLASTICS INST. PAPER 11]

09 p1481 A71-22342

Deformation and strength characteristics of fiber composite thermoplastic resins in terms of stiffness and reinforcement factors [PLASTICS INST. PAPER 3]

09 p1481 A71-22343

Thermoplastics reinforcement with carbon, silicon nitride and silicon carbide fibers, noting fiber aspect ratio [PLASTICS INST. PAPER 5]

09 p1482 A71-22345

Interlayer shear modulus relation to thermal conductivity coefficient in oriented glass fiber reinforced plastics

09 p1482 A71-22814

Filament winding geodesic characteristics of shells of revolution made of glass fiber reinforced plastics

09 p1482 A71-22815

Steady multifiber winding process conditions in compact glass fiber packing for glass fiber reinforced plastic tubes

09 p1482 A71-22817

Residual stresses in ring shaped specimens of wound glass fiber plastic products, using radial cutting technique

09 p1482 A71-22822

Mechanical strength and elastic properties under tension and bending of boron fibers, noting dependence on surface defects

09 p1482 A71-22823

Reinforced composite materials with curved fibers, considering one dimensional stress-strain relation and misalignment effect

09 p1539 A71-22917

Composite materials for compressor blades in aircraft engines, considering boron and carbon fiber reinforced materials

09 p1456 A71-23286

Heat resistant dispersion strengthened and fiber reinforced metal matrix superalloys for high temperature applications, considering superstrength alloys development

09 p1478 A71-23397

Co-Cr and Ni-Cr eutectic alloys with single crystal TaC fiber reinforcement, discussing unidirectional solidification

09 p1479 A71-23623

Stress-strain curves for plastics with or without fiber reinforcements under impulsive compressive loading cycles, using split Hopkinson pressure bar apparatus

10 p1630 A71-23921

Unidirectional fibrous composites brittle and ductile failures prediction under tension and torsion, comparing results with tests on glass-epoxy composites

10 p1686 A71-24017

Weather stress tests for determining optimum adhesive system for bonding reinforced fiberglass panels to Al extrusions held by steel beams

10 p1616 A71-24114

Deformability and strength of soft fiber reinforced plastics under biaxial tension, determining low temperature critical tensile stresses and elongation ratios

10 p1634 A71-24194

Composite morphology and mechanical properties relationship, considering reinforcing effect, filamentous systems, whisker growth ladder molecules synthesis and material production

10 p1635 A71-24768

Composites fabrication techniques, component materials and nature, emphasizing fiber orientation and matrix properties

10 p1618 A71-24769

Filamentary composites for primary aircraft structural applications, emphasizing boron-epoxy material

10 p1618 A71-24770

High temperature honeycomb woven fiberglass reinforced polyimide resin, asbestos reinforced composites and high modulus graphite materials, discussing specific strength and stiffness

10 p1618 A71-24771

Thornel graphite fibers modulus of elasticity, mechanical properties, applications and price

10 p1635 A71-24773

Short carbon and glass fiber reinforced composites, calculating modulus of elasticity from mathematical model

10 p1635 A71-24806

Fiber reinforced plastics/epoxy resins/electrical effects association with deformation and failure

10 p1635 A71-25013

Failure analysis of notched unidirectional composites under tensile load parallel to fiber, considering Griffith-Irwin-Orowan fracture theory applicability [AIAA PAPER 71-369]

11 p1784 A71-25343

Carbon fiber reinforced plastics industrial engineering applications, noting cost effectiveness, strength and elasticity

11 p1861 A71-25407

Carbon fiber reinforced high interlaminar shear strength composites, noting applications to advanced engineering structures

11 p1785 A71-25408

Long term oxidative aging effects on interlaminar shear strength retention of low void graphite/ boron reinforced polyimide resin composites

11 p1785 A71-25410

Epoxy resin in fiber reinforced composite prepreps, characterizing by thermomechanical analysis and gel permeation chromatography

11 p1786 A71-25411

Carbon fiber reinforcement in carbon fiber/glass fiber mat sandwich beams increasing tensile and compressive strength

11 p1846 A71-25412

Fiber reinforced thermoplastics fabrication by fluidized bed techniques, fusing powder matrix to fiber surface for continuous coating

11 p1768 A71-25415

Longitudinal and transverse residual stresses arising in lamination fabrication process of cross-ply fiber composites

11 p1786 A71-25421

Representative Thornel fiber aircraft fuselage component nondestructive testing and repair, and Thornel fiber, polysulfone and polyamide-imide composites fabrication and evaluation

11 p1787 A71-25427

Prototype graphite fiber/plastic fuselage component design, test and performance prediction, using structural analysis methods

11 p1787 A71-25428

Composite materials fiber-matrix interfacial behavior, determining polymer concentration on graphite fibers surface by Raman spectroscopy and composite shear strength increase

11 p1787 A71-25430

Thermally stable polyimide graphite fiber reinforced composites from solutions of monomeric reactions, comparing amide acid prepolymers

11 p1788 A71-25560

Glass fiber reinforced plastics aerospace applications covering radomes, dielectric panels, aircraft ducting, secondary structures, furnishings, mouldings and tooling

11 p1788 A71-25652

Plastics reinforcement by combining high plastic deformation and fracture resistances with stiffness, discussing ceramics, whiskers, carbon and glass fibers

11 p1788 A71-25654

Fiber reinforced composites, predicting mechanical properties, stress-strain behavior, interface failure, creep and fatigue by mathematical model

11 p1849 A71-25655

Mixed boundary value problem for fiber reinforced materials, analyzing shear response in multiply admissible kinematic deformations

11 p1850 A71-26105

Thermal stability of cylindrical laminated fiberglass reinforced plastic shells, solving by linear shell stability theory

11 p1790 A71-26175

Boron filaments and whiskers as reinforcements in high strength composite materials

11 p1790 A71-26336

Stress analysis near free surfaces in thin composite plates with unidirectionally oriented elastic isotropic fibers, applying boundary point least squares technique

11 p1851 A71-26382

Load-deformation characteristics in tension, compression and bending of two thin cement laminates reinforced with short random glass fibers, discussing stiffness and residual strain

11 p1790 A71-26384

Orientation dependent impact toughness and crack resistance of brittle fiber-ductile matrix composite of solidified carbide reinforced Co-Cr eutectic

11 p1782 A71-26386

Bounds for effective dielectric constant of fiber reinforced materials, using Miller geometry of matrix and inclusion

11 p1782 A71-26388

Interlaminar plane shear stress in fibrous composites under elastic deformation with edge effect, using membrane finite element analysis

11 p1852 A71-26394

Elastic stress-strain law and internal structure symmetry for three dimensional fibrous composites, including catrop reinforcement

11 p1852 A71-26396

Stiffness factor in reinforced thermoplastics mechanical properties as function of glass fiber content, working temperature and duration of loading

12 p1920 A71-27012

Izod impact testing of carbon fiber reinforced plastics, considering fiber volume loading, surface treatment and specimen and notch geometry

12 p1921 A71-27015

Combined deformation of reinforcing elements and polymer binder in monodirectional composite structure, determining stress distribution

12 p1921 A71-27462

Fiber composites monofilament and strand tests, considering fracture, fatigue, stress, corrosion and microstructure

12 p1921 A71-27635

Fiber reinforcements for structural composites, considering glass, polycrystals, vapor deposition, whiskers and metals

12 p1922 A71-27636

Ti, B and graphite fiber composites application to aircraft design, discussing mechanical properties and market competition

12 p1918 A71-27676

Fibrous composite materials experimental failure studies at high temperatures and cyclic loading

12 p1922 A71-27683

Large deformation of incompressible elastic body reinforced by unidirectional system of elastic fibers

12 p1922 A71-27695

Fiber reinforced composite materials plastic behavior shear stress theory, determining yield criteria and plastic strain rates associated with various failure modes

12 p1984 A71-27773

Fracture mechanics of metal matrix composite with ductile stainless steel reinforcing fibers

12 p1985 A71-27775

Single fiber reinforced plate initial stress distribution due to linear expansion coefficients difference between matrix and fiber, using optical polarization

13 p2091 A71-28126

Filament reinforced composite materials, considering spacecraft and missile applications mechanical and physical properties 13 p2144 A71-28166

Filamentary composite reinforced metal aircraft structures, considering boron/epoxy in combination with aluminum 13 p2151 A71-28168

Graphite epoxy composites fiber microstructure and surface condition, noting tensile fracture, crack propagation and brittleness 13 p2092 A71-28594

Tensile strength and fracture toughness of carbon fiber polyester composites, using mechanical testing and scanning electron microscopy 13 p2092 A71-28625

Al alloy matrix-graphite fiber reinforcement composites, discussing strength, temperature properties and processing techniques 13 p2092 A71-28660

Stainless steel wire fibers in refractory castables, noting flexural and compressive strength improvements 13 p2093 A71-28663

Carbon and boron fiber reinforced plastics adhesive bonded and bolted joints, presenting results of hole deformation tests [DFVLR-SONDDR-96] 13 p2093 A71-29306

Fiber strengthening of Cu-Fe-Cr wire by cold drawing and annealing, discussing age hardening process of chromium ferrite needles in ductile Cu matrix 13 p2088 A71-29402

Hybrid boron-graphite filaments in epoxy matrix composite, describing increased tensile strength and modulus of elasticity 14 p2261 A71-29638

Carbon/carbon composites, describing manufacturing techniques for fiber reinforced matrix structures 14 p2261 A71-29640

Three dimensional orthogonally woven reinforced felt-yarn composite for low density thermal insulation and chemical vapor deposition 14 p2262 A71-29651

Advanced plastic composites fabrication and processing techniques, using resins, reinforcements and fillers 14 p2263 A71-29653

High modulus organic fiber for aerospace use, considering fiber epoxy composite mechanical and physical properties 14 p2263 A71-29658

Impact strength of Cu, Cu-Ni alloy and superalloy matrices reinforced with W fibers, studying temperature, heat treatment and fiber content and toughness effects 14 p2258 A71-29919

Critical aspect ratio of W fibers in metal matrix composites for stress rupture applications 14 p2258 A71-29921

Elastic properties of orthotropic composite disks of fiber-reinforced materials, comparing actual stress in composite with permissible stress of fiber and matrix 14 p2329 A71-30472

Mechanical properties of composites consisting of Al matrix reinforced by boron fibers, considering high temperature creep, corrosion and thermal shock resistivity 14 p2259 A71-30473

Notched unidirectional composites failure mechanics under tensile load in fiber direction, considering debonding, plasticity and strength 15 p2428 A71-31971

Interfiber stress model for elastic matrix-fiber reinforced composites under inplane shear and transverse normal loading 15 p2507 A71-32096

Fiber reinforced materials with oriented armoring, calculating stress-strain state under transverse shear 15 p2439 A71-32235

Boron and graphite fiber reinforced plastics machining, discussing tools, operating parameters and process limitations [SME PAPER MR-71-820] 15 p2416 A71-32429

Ultrasonic pulse technique for plane transverse and longitudinal stress wave dispersion in boron fiber reinforced epoxy composite, determining group velocity dependence on frequency and elastic moduli [ASME PAPER 71-APM-27] 16 p2600 A71-33202

Specific strength of unidirectional fiber reinforced metal matrix composites, showing dependence on volume ratio and transmission coefficient 16 p2592 A71-33412

Composite materials reinforced by brittle sapphire and ductile copper whisker crystals, noting surface defects effect on mechanical properties 16 p2601 A71-33917

Fibrous composites with multiple and variable shear strength interfaces to improve longitudinal shear and transverse tensile strengths and toughness 17 p2817 A71-34342

Reinforcing fiber weaknesses, considering stress concentrators, cracks and steps due to handling damage and interaction with contaminants during heat treatment 17 p2817 A71-34343

Monograph on fiber-resin composites covering glass, boron and carbon fibers and epoxy matrix materials tensile and thermoelastic properties 17 p2761 A71-34469

Birefringent coating method for stress analysis of fiber-reinforced laminated composites, developing subsurface stress-surface strain relation [SESA PAPER 1837A] 17 p2761 A71-34528

Two phase fiber reinforced composites under polyaxial stresses, predicting plastic behavior by deformation theory 17 p2823 A71-34810

Gradient shape influence on connectivity in two phase graded structures, considering polyphase structure of filament reinforced composites 17 p2763 A71-35226

Fiber reinforced resins mechanical properties determination based on component materials characteristics 17 p2763 A71-35441

Bunched parallel reinforcing fibers of equal size and varying tensile strength, deriving critical loads and stresses under gradual failure 17 p2763 A71-35451

Optimal design of locally orthotropic elastic flat bodies of fiber reinforced plastics or metals 17 p2763 A71-35620

Boron, carbon, sapphire and glass fiber composite materials, considering brittleness, anisotropic properties, filament winding and plastic and metallic matrices 18 p2939 A71-35915

Incompressible fiber reinforced composite materials finite plane deformation continuum theory and stress analysis without restriction concerning elasticity, plasticity or viscoelasticity behavior [ASME PAPER 71-APM-V] 18 p2978 A71-36264

Fiber volume content, fiber-matrix bonding, heat treatment and age hardening effects on transverse modulus and tensile strength of unidirectional Al matrix fibrous composites 18 p2935 A71-36597

Carbon fiber reinforced plastics, reviewing properties, performance, development, applications and potential cost reduction 18 p2940 A71-36765

Carbon-fiber-reinforced carbon composites for high temperature applications, describing filament orientation, matrix composition and heat treatment effects on ablation performance 19 p3085 A71-38350

Polyamides reinforced with finely chopped glass fiber, noting mechanical strength, Martens yield temperature and heat stability 19 p3085 A71-38476

Exact solutions for cord reinforced materials with thermomechanical constraints of incompressibility and inextensibility and thermal constraint on temperature gradient 20 p3310 A71-39869

Fiber reinforced tube under lateral compression between two flat dies, determining finite deformation from nonlinear elastic and elastoplastic shearing response analysis 20 p3311 A71-39966

Carbon-carbon composites fabrication by electrostatic fiber deposition/flocking, using liquid impregnation-carbonization cycles with coal tar pitch 21 p3384 A71-40140

Specimen support effects on three point bending tests of fiber-plastic composites, suggesting small diameter roller 21 p3405 A71-40596

Carbon fiber reinforced plastics, considering aerospace and medical applications 21 p3406 A71-40702

Modulus of elasticity and Poisson ratio of composite material with anisotropic or isotropic fibers arranged in rectangular or square array 21 p3464 A71-40772

Mechanical properties, applications and peculiarities of polymer composite materials reinforcement fibers 21 p3406 A71-40777

Nondestructive test for fiberglass reinforced plastic tank, using percussion method 21 p3466 A71-40838

Fatigue properties of satin woven fiberglass reinforced plastic cloth under various stress directions 21 p3406 A71-40839

Fiber reinforced elastic materials steady state plane wave propagation by modeling constituents as continua undergoing individual motions 21 p3469 A71-41004

Dynamic photoelasticity for stress wave propagation in anisotropic fiber reinforced composites, using birefringent models and pulsed ruby laser beam 21 p3471 A71-41027

Tensile fracture in grip section of fiber reinforced reduced cross section plastic composite specimens 22 p3564 A71-41591

High temperature structural application of refractory fiber reinforced ceramic composites 22 p3565 A71-42287

Fiber reinforced metallic matrix composite under creep, discussing rigidity, stress distribution, rupture strength and failure time 23 p3697 A71-44201

Fibers-matrix force interaction effects in metal composites, analyzing stress-strain state of reinforced plate 23 p3697 A71-44202

Heat resistant Ni-base composite stiffened with W wires, investigating interaction between alloy and fibers from metallographic and X ray diffraction microscopy data 23 p3693 A71-44214

Porous fiber reinforced composite low density heat insulating materials thermal conductivity measurements, showing energy transport by heat transfer mechanisms 23 p3784 A71-44341

Carbon fiber reinforced plastics featuring high strength and Young modulus and low density for engineering applications 24 p3840 A71-44363

Fiber-reinforced composites mechanical properties based on analytical treatment as homogeneous orthotropic bodies 24 p3841 A71-44573

Fiber reinforced viscoelastic rectangular beam, deriving asymptotic values of stress, curvature and position of neutral axis under constant moment 24 p3879 A71-44630

Mechanical properties of fiber reinforced heat resistant alloys 24 p3837 A71-44726

Tungsten filaments as reinforcing agent of heat resistant composite chromium alloy, investigating long term high temperature effects 24 p3837 A71-44728

Heat resistant Nichrome composite alloy with tungsten filament reinforcement, discussing manufacture and mechanical properties at 1100 C 24 p3837 A71-44730

Stress-strain curve of unidirectional fiber reinforced composite Al and N-CI wire under axial compression loads, discussing buckling and shear instabilities 24 p3842 A71-45229

REISSNER THEORY

Stress distribution in infinite cracked elastic plate subjected to constant twisting on basis of Reissner thin plates theory 04 p0670 A71-15385

Thin walled prismatic shell constrained torsion problem, applying Reissner mixed variational method 06 p0992 A71-17806

Reissner shell theory equations for arbitrary internal and surface loads 06 p0996 A71-17836

Reissner variational theorem for boundary values in linear anisotropic and nonhomogeneous elasticity 10 p1691 A71-24809

Shear deformations effect on circular plates from Reissner theory, expressing bending moments and shear forces as functions of lateral deflection and stress function 15 p2507 A71-32112

Partitioning method for Reissner shell theory equations, constructing rod system 24 p3877 A71-44407

RELATIVE BIOLOGICAL EFFECTIVENESS [RBE]

Relative biological effectiveness of multicharged C ions during single irradiation of *Chlorella*, noting dose dependent mutability 06 p0854 A71-18366

Relative biological effectiveness of fast neutrons, allowing for gamma component contribution 22 p3494 A71-42735

RELATIVISTIC EFFECTS

Relativity and solar quadrupole moment effects in time delay measurements of signal traveling from earth to artificial satellites 05 p0808 A71-16446

Robertson metric beta and gamma coefficients and solar dynamic oblateness determination from probe motion under relativistic effects [ONERA-TP-893] 06 p0970 A71-18024

Magnetoplasma modulated waves nonlinear instability, taking into account relativistic effects 07 p1171 A71-20296

Boiling of relativistic heat conducting fluid in normal space-time manifold for nonstrict hyperbolic system, using Eckart scheme 10 p1694 A71-23831

Relativistic MHD waves based on ideal fluid compressibility and statistical mechanics for given space-time 10 p1650 A71-24586

Time unit definition by atomic clocks, taking into account relativistic effects 11 p1762 A71-25622

Carnot cycles generalization for thermodynamic systems with stationary gravitational fields, deriving temperature, thermodynamic equilibrium and entropy definitions for general relativistic systems 11 p1798 A71-25738

Relativistic fluid thermodynamics for compressible fluid reversible adiabatic flow, using variational principle to derive stress-energy tensor

11 p1798 A71-25739

Relativistic effects and optimization in Doppler geodetical measurements, using model computations for satellite azimuth-elevation relation

11 p1732 A71-25832

Stellar mass relativistic integral theorems and upper and lower bounds for gravitational potential theory

11 p1830 A71-26106

Relativity and neutronization effects on radial pulsations and density decrease of rotating cold white dwarfs near stability loss, using energetic method

12 p1966 A71-27236

Maximum toroidal magnetic fields of rotating neutron stars dependent on central density, using relativity corrections to plasma hydrodynamic and Maxwell equations

12 p1966 A71-27237

Radar reflection from Mercury and Venus, discussing observations of echo times predicted relativistic increase

12 p1967 A71-27419

Relativistic thermo-magnetoelastic wave propagation, considering elastic solid under magnetic and thermal fields

13 p2101 A71-29105

Strong gravitational wave bursts in galaxy, suggesting collapsed relativistic body cluster burning gravitational potential energy

13 p2142 A71-29137

Gravitational theory for black holes, presenting relativistic collapse in three dimensions identical to general relativity

14 p2303 A71-29583

Plane electromagnetic waves diffraction by moving periodic metal strip grating, taking into account relativistic effects

14 p0000 A71-30076

Gravitational potential tensor and equations of motion of relativistic mechanics for isolated system of masses

15 p2481 A71-31187

Nonlinear interaction between three resonant modified ordinary electromagnetic waves propagating perpendicular to static magnetic field in homogeneous electron plasma, studying relativistic effects

15 p2460 A71-32655

Rotating isothermic radially pulsating white dwarf evolution, considering neutronization and general relativistic effects

19 p3134 A71-37511

Entropy generation and survival of protogalaxies in expanding universe, deriving bulk/shear viscosity, heat transport and sound waves damping rate in relativistic fluid

20 p3287 A71-39051

Theorem proved for monotonic behavior of pressure within relativistic rotating star, assuming stationary axisymmetric gravitational field of Euclidean topology

20 p3293 A71-39447

General relativistic time delay and moon-earth masses and Mars mass-ephemeris ratios from S-band range and Doppler tracking

20 p3296 A71-39623

Icarus photographic observations, determining general relativity effects on orbital motion

21 p3443 A71-40187

Relativistic behavior of uniformly accelerated translational observer motion relative to inertial observer from space-time transformation

21 p3415 A71-40653

Relativistic equation derivation for dynamics of point with varying rest mass from Newtonian principle

21 p3415 A71-40659

Static magnetic fields configurations of magnetic and rotating neutron stars, considering general relativistic effects

21 p3450 A71-40714

Relativistic gravity in solar system, predicting Newtonian gravitational constant anisotropy measurements by Cavendish experiments

22 p3575 A71-41920

Interstellar space flight kinematics near light speed, discussing theoretical requirements for relativistic rocket engines

22 p3600 A71-42000

Particle collisions and relativistic effects on electromagnetic wave propagation within plasma in direction normal to external magnetic field near gyrofrequencies

23 p3645 A71-43559

RELATIVISTIC PARTICLES

Neutron star in accretion state, investigating generation of relativistic electrons, positrons and X ray and gamma emission

01 p0150 A71-10061

Energetic relativistic particles diffusion from radio galaxies

01 p0161 A71-11384

Galactic nuclei composition of dense core with small subunits generating relativistic particles

01 p0162 A71-11421

Relativistic self confined electron beam produced plasmas, measuring electron density profile by multiple pass Mach-Zehnder laser illuminated interferometer

02 p0289 A71-11546

Energy spectra of expanding relativistic particle clouds producing quasar and Seyfert galaxy nuclei outbursts

02 p0307 A71-12082

Nonrelativistic cosmic particles spectrum and chemical composition changes, examining ionization and heating energy loss effect

02 p0300 A71-12093

Transformation properties of radiation field and electromagnetic energy fluxes of relativistic charged particles in magnetic field

02 p0312 A71-12362

Relativistic electron spectra of cosmic rays accelerated by plasma turbulence, examining singularity in solution

03 p0483 A71-13202

Single pulse relativistic electron beam passage through plasma, calculating induced current density in axial direction

04 p0635 A71-15371

Extragalactic radio sources relativistic electrons interaction with cosmic black body radiation, noting effect on sources lifetime and X ray background

04 p0641 A71-15838

Solar flare delayed relativistic electron appearance, comparing radio, optical and X ray data for particle intensities

06 p0961 A71-18171

Energetic solar electron emission and cone propagation by IMP satellites, noting relation to proton and relativistic energy events

06 p0961 A71-18174

Relativistic velocity particles diffusion in cloud of scattering centers in centrifugal motion from Boltzmann equation solution by method of extensions

06 p0963 A71-18229

Supernovae expansion, investigating hydrodynamic model with interstellar magnetic fields and relativistic particles effects

06 p0973 A71-18335

Functional method application to ultrarelativistic particles in external fields quantum electrodynamics, discussing electromagnetic field superposition

07 p1162 A71-20549

Energy spectra of expanding relativistic particle clouds producing quasar and Seyfert galaxy nuclei outbursts

08 p1362 A71-21132

Nonrelativistic cosmic particles spectrum and chemical composition changes, examining ionization and heating energy loss effect

08 p1355 A71-21143

Relativistic electrons acceleration in solar proton flares, taking into account plasma density and magnetic field intensity

09 p1512 A71-22059

Relativistic electron beam instability and mean free path in dense plasma target, using Vlasov equation

09 p1500 A71-22238

Gravitational field effect on relativistic charge emission, noting gravitational waves detection

09 p1494 A71-22887

Compton scattering of relativistic electrons in cosmic plasma waves as source of HF radio emission from metagalactic objects

09 p1521 A71-22926

Strongly magnetized relativistic degenerate electron gas proton-proton reaction rates and electron capture over various temperatures, densities and magnetic field strengths

10 p1661 A71-24305

Quasi-linear relaxation of ultrarelativistic electron beam in homogeneous and inhomogeneous plasmas, noting initial divergence angle threshold

10 p1654 A71-24895

Model for relativistic electrons diffusion from IR sources, determining injected electron spectrum distortion due to inverse Compton losses and X ray spectrum

11 p1814 A71-25294

Relativistic quarks in cosmic rays at sea level and at mountain altitude, estimating production cross section vs absorption mean free path and mass

11 p1815 A71-25589

Small amplitude oscillations in system of relativistic electron beam penetrated plasma, calculating dispersion curves

12 p1936 A71-26919

Universe UV radiation intensity, estimating inverse Compton effect interaction of cosmic relativistic electrons with relic radiation

12 p1948 A71-27079

Long term storage of relativistic energetic electrons and protons in solar corona from IMP 4 and Pioneer 8 observations related to delayed emission from flares

12 p1969 A71-27657

Relativistic electrons associated with solar particle events, measuring occurrence frequency, electron propagation and diffusion anisotropy

13 p2129 A71-29057

Newton gravitation theory, showing extension by relativistic mass and vector gravitation potential addition

14 p2305 A71-29682

Flux estimates of gamma quanta with energies of 5 TeV from celestial objects due to bremsstrahlung and inverse Compton scattering of relativistic electrons

14 p2299 A71-29985

Cosmic radio emission coherent generation mechanism, involving derelativization and relativization of particles in small space

15 p2483 A71-31343

Moving type 4 solar radio burst, describing bipolar magnetic structure and origin in synchrotron radiation from relativistic electrons

15 p2473 A71-31692

Modulated relativistic electron beams interaction with plasma, investigating coherent energy loss

15 p2460 A71-32789

Relativistic electron precipitation during magnetic storms, showing cyclotron resonances with electromagnetic ion cyclotron waves

16 p2629 A71-33948

Collision rates in photon and relativistic particle gases, noting importance for cosmic radio and X ray sources processes calculations

18 p2949 A71-36100

Sagittarius A model involving relativistic electron diffusion from point source due to Compton scattering for observed radio spectra explanation

18 p2957 A71-36155

Solar flare X-ray origin model, discussing charged particle acceleration to relativistic energies, ambient gas heating and thermal and nonthermal X rays

18 p2958 A71-36740

Type 3 solar radio burst instantaneous emission frequency relationship to local plasma frequency in region with subrelativistic particles

18 p2958 A71-36742

Universe UV radiation intensity, estimating inverse Compton effect interaction of cosmic relativistic electrons with relic radiation

19 p3126 A71-37429

Pulsars electromagnetic radiation, considering bunch of relativistic charged particles

19 p3134 A71-37513

Heat and fictitious forces in variable rest mass relativistic particle dynamics for thermal energy conservation laws interpretation

19 p3162 A71-37641

Intense relativistic electron beam propagation in drift tube with neutral gas and plasma background, determining front velocity and energy transport

20 p3272 A71-38784

Foillless diode for production of high power relativistic electron beams, using multicathode system

20 p3202 A71-38831

Relativistic primary cosmic rays chemical composition between Be and Fe from charge spectrum obtained with Cerenkov counters

20 p3284 A71-39756

Radio pulses from pulsars, noting relativistic energy of particles from volume emissivity and surface flux density

20 p3305 A71-39950

Relativistic electron beam instability and mean free path in dense plasma target, using Vlasov equation

21 p3424 A71-41124

Quasi-linear relaxation of ultrarelativistic electron beam in homogeneous and inhomogeneous plasmas, noting initial divergence angle threshold

21 p3425 A71-41275

Relativistic neutralized cylindrical electron beam paraxial motion through uniform longitudinal magnetic field

21 p3426 A71-41289

Anisotropic solar ground level relativistic proton event of 18 November 1968, determining propagation mechanism characteristics from neutron monitor observations

22 p3591 A71-41470

Stochastic ion acceleration by relativistic electron beam in plasma traveling waves with different phase velocities

22 p3578 A71-42065

Cosmic radio emission coherent generation mechanism involving derelativization and relativization of particles in small space

22 p3606 A71-42618

Large area parallel-plate pulse ionization chamber for high altitude balloon measurements of relativistic cosmic ray heavy nuclei

22 p3550 A71-42887

Solar modulation of relativistic cosmic ray particles, noting step-like changes and rigidity dependence

23 p3719 A71-42948

Asymptotic expressions for electromagnetic field and currents induced in unbounded dense plasma by relativistic electron beam passage

23 p3711 A71-43410

Relativistic electron beam propagation entering vacuum or neutral gas filled region through grounded conducting wall, using one dimensional model

23 p3713 A71-44146

Electromagnetic waves excitation in coaxial resonator by relativistic electron beam, assuming presence of steady longitudinal magnetic field

24 p3833 A71-44663

Relativistic electron beam propagation in decelerating medium in crossed electric and magnetic fields, noting nonrelativistic instability condition

24 p3856 A71-44669

RELATIVISTIC PLASMAS

Cosmic objects relativistic plasma X ray and gamma ray background radiation increase, considering bremsstrahlung effect on radiation spectrum

04 p0657 A71-15747

Supraluminous waves modes in field free two component anisotropic plasma by linearized relativistic Vlasov equation

05 p0791 A71-16939

Collective longitudinal space charge waves in trapped relativistic one dimensional plasma, calculating inhibition/enhancement of cosmic ray Fermi acceleration

05 p0791 A71-16940

Neutrino luminosity in strongly magnetized degenerate relativistic electron gas plasma from URCA energy loss rate calculations

10 p1671 A71-24303

One dimensional plane adiabatic MHD free expansion of relativistic plasma

10 p1676 A71-24495

Fokker-Planck equation for Compton scattering in hot plasma, considering energy exchange rates for scattering in relativistic Maxwellian plasma

14 p2283 A71-30859

Temporal echo oscillations in collisionless relativistic electron plasma

17 p2786 A71-34198

Relativistic and/or degenerate electron gas equation of state formulae for density, temperature, entropy and internal energy

18 p2960 A71-35937

Dielectric permeability tensor of relativistic plasma stream, considering collisionless damping of surface waves in semiinfinite isotropic plasma

23 p3713 A71-44148

Zero temperature relativistic plasma ground state energy calculation using Fermi momentum and Green function

24 p3857 A71-45115

RELATIVISTIC THEORY

Chronometrically invariant formulation of relativistic thermodynamics second law distinguishing between three dimensional space and time

01 p0156 A71-10550

Quasi-classical equations of relativistic quantum mechanics, considering Klein-Gordon equation

01 p0129 A71-11293

Relativistic cosmology with singular point, using oscillatory model for Einstein equations general solution with time related physical singularity

02 p0285 A71-12527

Relativistic kinetic theory of particles with magnetic dipole moment in external EM field, deriving transport equations for distribution function

03 p0463 A71-13425

Lorentz invariants in relativistic fluid dynamics and thermodynamics in nonvacuo, suggesting determination through earth-moon space flight experiments

04 p0661 A71-14872

Classical and relativistic forces of inertia based on exact solution of Einstein nonlinear gravitational field equations, using general covariance principle

04 p0628 A71-15903

Relativistic electromagnetic field analysis, using fluid dynamic approach

04 p0628 A71-15917

Lagrangian methods yielding relativistically covariant formalism for wave packets in weakly inhomogeneous and time dependent plasma dynamics, obtaining motion equations from Euler-Lagrange equations

05 p0789 A71-16657

Equivalence principle in Einstein general relativity, discussing gravitation and inertial forces, cosmological postulate and metagalactic evolution

07 p1189 A71-18739

Relativistic gravitation theory and experimentation, surveying literature on gravity waves, EM propagation, gyroscopic precession, etc

07 p1158 A71-19096

Homogeneous isotropic relativistic cosmological model of universe, discussing construction

09 p1523 A71-23020

Static relativistic theory of isotropic spherically symmetric star equilibrium stability, assuming certain conditions with respect to mass-energy density and total baryon number

09 p1529 A71-23597

Linearized relativistic transport equation for mixture of isobaric Maxwellian molecules, solving in terms of eigenfunctions and eigenvalues of collision operators

10 p1645 A71-24609

Helmholtz and relativistic electrodynamics, discussing kinetic interaction potential using Lorentz invariance

10 p1644 A71-25110

General relativistic von Zeipel theorem providing necessary and sufficient condition for equidensity surfaces coincidence in stationary star axisymmetric rotating mass fluid

11 p1833 A71-26327

Relativistic formulation of thermodynamics and statistical mechanics in special theory of relativity, noting Ott presentation

13 p2102 A71-29324

Elastic properties relativistic theory, defining deformation tensor and constitutive laws

15 p2442 A71-31904

Relativistic stellar wind problem, discussing topological solutions

15 p2490 A71-32399

Relativistic kinetic theory of large amplitude transverse Alfven wave, discussing propagation in collisionless plasma

15 p2459 A71-32653

Chemical equilibria susceptibility to gravitational field effects, suggesting coincidence with conditions derived from relativistic thermodynamics

16 p2540 A71-33257

Uniformly rotating thin relativistic disks structure, stability and gravitational fields within general relativity framework

17 p2806 A71-35405

Post-Newtonian corrections for Maclaurin spheroids, presenting binding energy numbers

17 p2806 A71-35406

MHD detonation waves in relativistic perfect fluid of magnetic permeability μ immersed in electromagnetic field

18 p2951 A71-36189

Spectroscopic binary system with invisible major mass components, considering relativistic companion star

19 p3134 A71-37508

Tensors in relativistic asymmetrical field theory, generalizing Einstein gravitation and Maxwell electromagnetic equations for electrogravitational fields

19 p3105 A71-38580

Relativistic and Newtonian neutron star models with nuclear forces in equation of state, using unitary transformations for hard core and soft core potential

21 p3442 A71-40143

Lorentz invariant theory for relativistic gravity testing, deriving conservation laws and parameter constraints from parametrized post-Newtonian equations of motion

22 p3575 A71-41919

Relativistic gravitation theory, using Lorentz invariant scalar potential and gravitational metric

22 p3575 A71-42355

Cosmical constant role in relativistic cosmology, considering retention for additional freedom in linking relativity theory with other parts of physics theory

22 p3607 A71-42882

Least squares and sequential estimation techniques application to Mariner 6 and 7 tracking data analysis, verifying Einstein relativity theory on electromagnetic radiation propagation

23 p3731 A71-43054

RELATIVISTIC VELOCITY

High relativistic speed interstellar starship navigation, considering darkness cones, barrel, starbow, and near light speed problems

15 p2445 A71-31749

Stereoscopic effects and apparent shape or position of moving objects at relativistic speeds under binocular observation

16 p2535 A71-33166

Viscous relativistic fluid plane laminar flow, discussing incompressible thermally nonconducting case and stationary models

19 p3044 A71-37640

RELATIVITY

Light speed invariance in special theory of relativity concerning Galilean coordinates

01 p0127 A71-10601

Relativistic correction for planet perihelion rotation within Einstein gravitation theory, using proper magnitudes in terms of chronometric invariants

01 p0159 A71-10920

General relativistic formulation of massive magnetized rotating conductor, showing electrodynamical properties of surrounding empty space for explanation of stellar structure

01 p0160 A71-11273

Book on uncertainties of relativity and quantum theories covering potential energy, atomic clocks, coordinates and frames of reference, Doppler effect, gravity red shift, gravistatics, etc

02 p0284 A71-11843

Superfluid gyroscope for general relativity tests, using resonant phonon force field for drift reduction

02 p0248 A71-11943

Gyroscopic precession effects in earth polar orbital satellite experiments for Einstein general relativity tests

02 p0312 A71-12369

Pulsar pulse arrival times measurement for general relativity theory test, determining positions and period change rates

02 p0315 A71-12660

General relativity and gravitational collapse, discussing experimental tests, waves, use of Riemann geometry and Einstein field equations

03 p0482 A71-12972

Adiabatic temperature gradient requirement for neutral convection mode in general relativity of star in hydrostatic equilibrium

03 p0486 A71-13330

Centrifugal and Coriolis force in general relativity, discussing paradox associated with terms in mass shell test particles equations of motion

03 p0489 A71-13564

Energy relations in physical space of general relativity theory and inertia space of Newtonian classical mechanics

03 p0458 A71-13605

Einstein universe fictitious forces in noninertial frames, deriving equations from classical formulas by general covariance

03 p0490 A71-13942

Gravitational waves properties and detection, discussing relationship between electromagnetism and special relativity theory

03 p0459 A71-13950

Static charged dust distributions, investigating general relativity field equations with electromagnetic stress tensor

04 p0625 A71-14732

Gravitational waves collision analysis using coordinate system for general relativity

04 p0658 A71-15832

Chronometrically invariant formulation of Petrov gravitational fields algebraic classification at spacetime fixed point in general relativity

05 p0781 A71-16182

Static thin shells and disks gravitational fields in general relativity

05 p0781 A71-16447

Energy transfer in general relativity, discussing time sequences restriction of static deformable configurations in near field

05 p0781 A71-16729

Black hole model accounting for epsilon Aur eclipsing binary secondary component observations

06 p0970 A71-18031

General relativity theory tests, discussing Einstein effects existence and light velocity in gravitational field

06 p0971 A71-18246

Action at distance gravitation as alternative to general relativity, discussing gravitational frequency shift and light bending

07 p1189 A71-18747

Theoretical frameworks for testing relativistic gravity, using presence of metric and gravitational response equation from Dicke approach as postulates of parametrized post-Newtonian formalism

07 p1190 A71-18859

Parametrized post-Newtonian formalism for perfect fluids applied to Nordvedt effect in relativistic gravity

07 p1190 A71-18860

Time variable physical singularity in general relativistic cosmological solution of gravitation equations, constructing simplified models

07 p1191 A71-19173

Orbiting gyroscope de Sitter precession in different versions of Brans-Dicke theory, discussing term arising from anomalous scalar force in equations of motion

07 p1160 A71-19550

Physics laws and simplifications, discussing Newtonian mechanics, electrodynamics, relativity, atomic physics and quantum theory

07 p1163 A71-19603

Conformally flat universe class with short ranged scalar gravity, satisfying Einstein field equations

08 p1334 A71-21360

General relativity theory quantization, admitting kink states with fermion-like properties and spin

08 p1335 A71-21362

Hydrodynamic equations for behavior of thermally conducting viscous compressible fluid in first post-Newtonian approximation to general relativity, obtaining conservation laws

09 p1518 A71-22338

MHD equations for charged conducting fluid behavior in first post-Newtonian approximation to general relativity, obtaining conservation laws

09 p1518 A71-22339

Critique on Mach principle, discussing incompatibility between system inertia in universe and general relativity theory

09 p1522 A71-22980

Planetary rotational and translational motion interaction in Einstein gravitation theory, describing orbital elements secular disturbances in two body problem

09 p1526 A71-23339

General relativity theory applicability limits for strong gravitational fields and near singularities in cosmology

10 p1668 A71-24002

Book on relativity and discretization in astronomy covering cosmic structures, galactic isopleths equilibrium theory, red shift discretizations, etc

10 p1670 A71-24210

Viscous compressible fluid response to incident gravitational wave, deriving governing equations in linearized approximation to general relativity

10 p1676 A71-24496

Relativity - Conference, Cincinnati, June 1969

11 p1798 A71-25279

Rotating configurations in general relativity, considering infinitesimal quasi-static deformations

11 p1834 A71-26407

Gravitational field quantum fluctuations role in general theory of relativity and cosmological model

12 p1965 A71-27179

Hydrodynamic analogy for postulates in special relativity theory, analyzing steady and potential flow of inviscid compressible medium for Chaplygin gas with unreal time

12 p1932 A71-27547

General relativity gravitational field equations, giving composite sphere internal structure for core and shell

12 p1932 A71-27643

Closed universes quantization and gravitational field in general relativity, emphasizing superspace concept and finite-dimensional model quantum theories construction

13 p2100 A71-28395

Constant space curvature perturbations, considering density, rotational and propagation of gravitational waves with Lipschitz method

13 p2137 A71-28479

Gravitational theory for black holes, presenting relativistic collapse in three dimensions identical to general relativity

14 p2303 A71-29583

Relativistic gravitation theory quantitative study by space vehicle experiments, discussing earth orbit and deep space investigations

14 p2319 A71-29906

Gravitation theory with universe reference frame concept consistent with general relativity theory based on equivalence principle

14 p2315 A71-30860

Electromagnetic and gravitational waves scattering by static gravitational field, comparing classical general relativistic and quantum field theoretic results

14 p2275 A71-30861

Minkowski space-time concept, developing deviation function from geometric analysis

15 p2481 A71-31145

Physical meaning of fifth coordinate in five dimensional field theory, discussing relationship as parameter metric of de Sitter four dimensional space-time manifold

16 p2608 A71-33223

Relativity and gravitation - Conference, Technion City, Israel, July 1969

16 p2609 A71-33255

Particle motion in combined gravitational field of monopole and prolate quadrupole, deriving exact solution in Newtonian mechanics and general relativity

16 p2609 A71-33256

Energy-radiation problems in relativity theory, considering electromagnetic waves, Einstein equations, momentum tensors and moving charged particles

16 p2609 A71-33259

Spin weighted field functions for group SU(2) in gravitational radiation problems of general relativity, using Newman-Penrose formalism

16 p2609 A71-33260

Integral containing Heaviside and Dirac delta function in integrand with minus and plus infinity limits, computing value using thin spherical shells in general relativity

16 p2656 A71-33263

Natural symplectic structure for twistors on cotangent bundle over space-time manifold, considering Lagrange identity for Jacobi fields

16 p2609 A71-33264

Static electromagnetic fields in general relativity obtained for space-time metrics of group G automorphisms, considering Rainich unified field theory equations

16 p2610 A71-33265

Kinetic theory of gases in general relativity, including model of matter particle structure

16 p2610 A71-33267

Special relativity distinguished from theories based on preferred frame of reference and physical Lorentz contraction by Michelson-Morley experiment in solid transparent medium

16 p2610 A71-33268

Geometric object concept in third principle of relativity, obeying identity functional equations for infinitesimal general coordinate transformations

16 p2611 A71-33273

Relativistic cosmological models with nonzero pressure, considering matter as perfect gas-radiation mixture and isotropic/homogeneous three space

16 p2611 A71-33274

Landau-Lifshitz pseudotensor analogs of ten mechanical conservation laws in Einstein theory of gravitation

16 p2611 A71-33275

Scalar function expansion in relativistic invariant functions in pseudoeuclidian space, deriving direct and inverse formulas for spherical, hyperbolic and Lobachevskii coordinates

16 p2612 A71-33459

Book on relativistic astrophysics, Volume 1, Stars and relativity, covering stellar dynamics, astronomical models, cosmic objects evolution and star clusters

16 p2635 A71-33481

Sun as flattened ellipsoid of revolution, showing flatness effects on planet motion in relativity theory framework

16 p2612 A71-33567

General relativistic time delay of electromagnetic radiation propagation due to solar gravitational field measured from Mariner 6 and 7 range and Doppler data

16 p2640 A71-33737

Cauchy problem for nonlinear Boltzmann equation in general relativity, utilizing energy inequalities

16 p2612 A71-34059

Action-at-a-distance theory of gravitation generalized to tensor interactions of all orders, considering special relativity demands and perihelion advance of Mercury

17 p2797 A71-34368

Planetary dynamics bibliography and review, considering range determination and ephemerides, general relativity, tidal evolution and lunar orbit, solar system commensurabilities, etc

17 p2798 A71-34457

Quasi-closed Einstein universe model, showing orbits rotation similar to perihelions in Schwarzschild field

17 p2778 A71-34630

Gauge equations in general relativity theory for tetrad gravitational potential formulation, based on algebraic invariants method

17 p2778 A71-34636

Inertial effects induced by rotating thin walled shell of finite thickness, considering general relativity equations of motion for test particle

18 p2970 A71-37059

Relativistic hydrodynamic solution for gravitational interaction of vortex and potential motion of homogeneous medium

19 p3134 A71-37515

Covariant definition of radius vector in Riemann space, studying position operator in general relativity theory

19 p3105 A71-38582

Physical constraints on universe topology near collapsed-ordinary stars interaction in general relativity theory

19 p3105 A71-38583

Critique of cosmological theories based on spontaneous matter creation in strong gravitational fields, deriving particles discrete number constancy in general relativity

20 p3268 A71-38834

German monograph on static fields in general relativity theory covering covariant equilibrium conditions, two body problems, vacuum fields and Newtonian gravity principles

20 p3269 A71-39077

Equilibrium rotating superdense configurations in general relativity theory, determining integral parameters in low angular velocity approximation

20 p3289 A71-39297

Clock paradox problem resolution in relativity theory, considering space travel effects on time measurement and aging process

20 p3271 A71-39571

Time variable physical singularity in general relativistic cosmological solution of gravitation equations, constructing simplified models

21 p3441 A71-40088

Stationary signal space topology concept in special relativity, considering points neighborhoods as independent of signal sending time

21 p3346 A71-40091

Gravitational radiation interaction with uniform incompressible inviscid fluid in simple motion, considering response in linearized approximation to general relativity

21 p3446 A71-40421

Rapidly rotating polytropes in post-Newtonian approximation to general relativity

22 p3604 A71-42327

Schwarzschild constants evaluation from coupled gyroscopes spin axes observation, noting axes high angular velocities due to gravomagnetic effect in gravitational interaction

22 p3605 A71-42338

Generalized Einstein field equations in general relativity based on ennuple or tetrad variation, comparing with Schwarzschild solution

22 p3575 A71-42354

Trapped surface existence conditions and occurrence in strongly curved space-times

22 p3576 A71-42403

Gravitational field quantum fluctuations role in general theory of relativity and cosmological models

22 p3605 A71-42453

Gravitational wave astronomy, discussing phenomenon relationship to Einstein relativity theory and detector configurations

23 p3733 A71-43120

Spherically symmetric Gaussian coordinate systems completeness in spaces analogous to Lemaître and Kruskal spaces in general relativity

24 p3848 A71-44658

General theory of relativity for symmetric field, discussing De Donder incompressible fluid model and Tolman-Schwarzschild metrics

24 p3849 A71-45064

Newtonian analog construction, examining relativistic homogeneous anisotropic models

24 p3873 A71-45110

RELAXATION [MECHANICS]

NT STRESS RELAXATION

Thin glass fibers relaxation characteristics, discussing shear modulus, internal friction and temperature effects

03 p0448 A71-13298

Supersonic blunt body flow relaxation processes, calculating bow shock for various flow regimes and reaction rates

05 p0835 A71-16525

Relaxation theory of Rayleigh scattering of light by isotropic continuous medium, deriving spectral densities via fluctuation dissipation theorem

06 p0927 A71-17596

Thin glass fibers relaxation characteristics, discussing shear modulus, internal friction and temperature effects

09 p1483 A71-32371

Quasi-linear relaxation of ultrarelativistic electron beam in homogeneous and inhomogeneous plasmas, noting initial divergence angle threshold

10 p1654 A71-24895

Nondestructive testing method obtaining relaxation modulus and accelerated degradation/stress corrosion of reinforced plastics

11 p1768 A71-25404

Quantum electrodynamic analysis of relaxation processes in two level laser

11 p1774 A71-26005

Monoenergetic beam relaxation dynamics in plasma, describing oscillation excitation and diffusion allowing for instability

12 p1942 A71-27769

Nonlinear heredity theory related to Volterra-Freshet heredity theory under uniaxial tension, giving expression for polymers deformation relaxation processes

13 p2092 A71-28650

Unloading effects on elastoplastic stability of shells, using method based on successive approximations

13 p2156 A71-29073

Relaxation distance for sharp cone behavior from chemical nonequilibrium laminar boundary layer effects on simulated space shuttle configuration during reentry

13 p2146 A71-29504

Ion beam collisionless relaxation in hot electron plasma, observing oscillation spectra and velocity distributions

15 p2453 A71-31245

Plasma-electron beam system relaxation oscillations due to threshold excitation of transverse ionic oscillations by HF vibrations

15 p2460 A71-32706

Continuous light absorption, emission and ionization relaxation behind shock front in xenon

16 p2613 A71-32890

Fast argon plasma flow interaction with strong magnetic fields, describing ionization relaxation phenomena behind magnetically reflected shock fronts

16 p2615 A71-32898

Thin walled rod of strain hardenable material, developing constrained torsion approximation for creep and relaxation

16 p2651 A71-33060

Hypersonic magnetic spectrometer-relaxometer, comparing direct and indirect recording methods for hypersonic in metals at helium temperatures

16 p2580 A71-33928

Shock tubes and shock tunnels, considering equilibrium expansion, relaxation phenomena and real gas effects

18 p2897 A71-36410

Relaxation effects on velocity and temperature of solid particles in gas flows, emphasizing acoustic propagation, compression shock structure and nozzle flows

18 p2909 A71-36441

Radiation gas dynamics covering monatomic and molecular gases, chemical dissociation and vibrational relaxation

19 p3043 A71-37459

Magnetospheric high energy protons relaxation due to interaction with Alfvén waves, presenting Einstein-Kolmogoroff equation numerical solution for particle momentum distribution function

20 p3278 A71-39074

Small perturbations of stationary parallel flow with relaxation, considering boundary conditions around slender wings, partial differential equations and similarity law

20 p3213 A71-39569

Nitrogen alloying effects on relaxation resistance of Cr-Mn austenitic steel

21 p3402 A71-41092

Quasi-linear relaxation of ultrarelativistic electron beam in homogeneous and inhomogeneous plasmas, noting initial divergence angle threshold

21 p3425 A71-41275

Kinetic equations for electron density matrix of superconductors, describing two phase relaxation process

23 p3715 A71-43413

Review of papers at EUROMECH 23 colloquium on finite amplitude and diffusive effects in acoustics, covering acoustic damping by relaxation, dust and moisture, turbulence effects, etc

23 p3704 A71-43447

Pressure histories from densification and relaxation measurements on lunar glass and synthetic samples, investigating refractive index changes after annealing

23 p3758 A71-43760

MHD wave spectrum relaxation during wave-plasma interactions in weakly turbulent plasma, treating associated triplasma processes as elementary events

24 p3855 A71-44661

Electron beam and plasma nonlinear interactions, noting scattering zone, amplitude oscillation maximum, longitudinal velocity and relaxation patterns

24 p3856 A71-45097

RELAXATION [PHYSIOLOGY]

Diurnal rhythm of adrenaline secretion in subjects with different working habits, comparing catecholamine excretion under relaxation conditions

11 p1721 A71-26355

RELAXATION METHOD [MATHEMATICS]

Nonlinear relaxation iteration method for solving geometrically nonlinear problems in mechanics [ASME PAPER 70-WA/APM-43]

03 p0512 A71-14165

Dynamic relaxation method for solving simultaneous linear differential equations, comparing asymptotic rate of convergence with degenerate Chebyshev approximation

05 p0776 A71-17122

Theorems concerning relaxation in point total and single step iterative solution for Hammerstein type nonlinear equations

06 p0920 A71-18212

Asymmetric buckling of spherical caps with asymmetric imperfections, using nonlinear relaxation technique for treatment of finite difference representation of differential equations

09 p1541 A71-23090

Numerical search for optimum product space as extension of Gauss-Seidel relaxation method, noting applications to partial differential equations

10 p1637 A71-24841

Relaxation methods application to optimal control of systems described by equations with partial derivatives, studying minimizing sequences

13 p2043 A71-28817

Generalized relaxation methods application to transonic flow problems, combining with numerical integration theory for ordinary differential equations

18 p2906 A71-36324

Nonlinear structural frame analysis by dynamic relaxation for use with computers

24 p3879 A71-44632

RELAXATION OSCILLATORS

NT PHANTASTRONS

Pulsed semiconductor devices with S-shaped current-voltage curve, considering relaxation oscillator and voltage generator circuits

04 p0558 A71-15565

Fluidic relaxation oscillator experimental and theoretical analysis, investigating pressure and temperature effects on frequency stability

07 p1027 A71-20576

Statistical scatter of pulse duration in relaxation oscillator with common-emitter coupling concerning mass production

08 p1261 A71-20739

Temporary nonlinear feedback effect on stability of triggering potential and output pulse repetition rate of transistor self relaxing blocking oscillator

09 p1424 A71-23169

Physical process causing negative differential resistance segment on I-V curve of single junction transistor, describing thyristor-triggered relaxation oscillator

14 p2214 A71-30633

Cadmium doped silicon diodes I-V curve sinusoidal relaxation oscillations frequency and amplitude dependence on temperature

16 p2548 A71-34026

Relaxation processes in Michelson interferometer as integral part of carbon dioxide laser cavity in phase Q switching regime

19 p3071 A71-37389

Tunnel diode harmonic relaxation frequency divider, obtaining large division factors and wide synchronization bands with sinusoidal output signal

20 p3206 A71-39818

Precision relaxation oscillators design and error sources, discussing miniaturization by microelectronic approaches

21 p3355 A71-40736

RELAXATION TIME

Shock tube generated Xe plasma electron density measurements by spectroscopy and laser interferometry, deriving ionization relaxation time

01 p0134 A71-10995

Electron density fluctuations in nonstationary plasma under crossed electric and magnetic fields, relating times of instability development and background relaxation

02 p0289 A71-12179

Nitric oxide vibrational relaxation times in Ar from IR emission measurements at high temperature

02 p0287 A71-12495

Optimal relaxation time existence for Maxwell solid cylinder bonded to thin casing during forced vibration of rocket assembly, discussing Voigt solid

03 p0497 A71-13469

Ultrasonic absorption in hydrogen sulfide, measuring vibrational and rotational relaxation times as function of temperature

03 p0459 A71-13718

Molecular gas vibrational and rotational state equations, discussing relaxation times, sound propagation and transport processes

03 p0462 A71-14557

Time measurements of vibration relaxation in diatomic gases excited by shock waves

04 p0568 A71-14795

Hyperbolic heat conduction equation with small relaxation time parameter, studying convergence for Cauchy and boundary value problem

05 p0839 A71-17035

Transverse parity photomagnetic effect during intense illumination in isotropic semiconductor crystals with relaxation time independent of energy

05 p0794 A71-17041

Shock tube research instrumentation with fast response time for data on thermodynamic and transport properties, relaxation times and kinetics of high temperature gases

06 p0897 A71-17430

Relaxation time for nitrogen molecule vibration temperature in ionosphere due to thermal electron collisions

06 p0895 A71-18274

Gas ionization relaxation phenomena behind strong shock waves, discussing ionization kinetics, radiation transfer effects, relaxation time and radiative heating

07 p1087 A71-19172

Electron temperature in hydrocarbon air flame, discussing extra equilibrium excitation, energy relaxation rate and chemiluminescent emission

07 p1182 A71-19250

Ar-oxygen mixture in undiluted nitrogen, discussing relaxation time change during adiabatic excitation and molecule oscillations deactivation

07 p1163 A71-19276

Vibrational and rotational relaxation in sulfur dioxide, measuring relaxation time as function of temperature by ultrasonic absorption

07 p1054 A71-19370

Ion-molecule collision charge transfer and momentum transfer relaxation rates, using ion cyclotron resonance heterodyning method

07 p1054 A71-19371

Nonlinear Fokker-Planck equation solution by Mott-Smith bimodal distribution function method, investigating fully ionized nonequilibrium plasma relaxation time

07 p1171 A71-20295

Carbon dioxide laser molecular upper level vibrational relaxation time measurement

07 p1128 A71-20527

Rotating nonvibrating diatomic low density gas molecules rotational relaxation time and viscosity, based on quantum mechanics

08 p1336 A71-20659

Coulomb collisions in high density plasma beams, examining relaxation time

08 p1340 A71-21486

E layer near solar culmination relaxation, determining ion and electron concentration variations

08 p1286 A71-21855

Electron-ion plasma in HF electric and constant magnetic field, determining relaxation times and collision frequency for temperature compensation

09 p1502 A71-22539

Stress effects on electron relaxation time anisotropies in n-type Si, using high temperature piezoresistivity model for population transfer rates

09 p1508 A71-22692

Spatially uniform dense partially ionized plasmas asymptotic thermochemical relaxation processes due to heavy particle density, temperature or superimposed electric field changes

09 p1502 A71-22859

Plane normal shock wave reflection in relaxing gas for shock tube endwall upstream and downstream dynamic pressures, using method of characteristics

09 p1546 A71-23166

Bipolar photomagnetic effect relation to nonheating electric field in semiconductors with isotropic holes and multivalley electrons, obtaining surface intervalley relaxation rates

10 p1656 A71-24320

Electron beam relaxation in plasma, discussing experimental studies of oscillation amplitude and beam electrons energy distribution relationships during predominantly longitudinal plasma oscillation excitation

10 p1650 A71-24627

Perturbation theory of supersonic flow with nonequilibrium radiative heat transfer, investigating pressure, density, temperature and velocity as function of relaxation time

10 p1697 A71-24943

Pulsed ion laser electron density measurement by cavity method in S band, evaluating relaxation time

10 p1623 A71-25021

Hydrogen maser relaxation time measurement, using oscillator amplitude response

10 p1623 A71-25023

Electrostatic probe measurements of charged particles and thermal ionization relaxation in shock heated low density supersonic monatomic gas flows

11 p1766 A71-26286

Gas relaxation process equations of motion based on reversibility of time, considering application to particle systems with magnetic field moments

12 p1932 A71-27206

Charged particles magnetic scattering on cyclotron instability waves of radiation belt plasma, estimating proton relaxation time

13 p2129 A71-28552

Kinetic theory of nonspherical multiatomic molecules with electrons having rotational and oscillatory degrees of freedom, giving expressions for oscillatory relaxation times calculation

13 p2103 A71-29150

Solid state laser with slow relaxation bleachable filter, calculating modes self synchronization probability statistics relationship to relaxation time

14 p2253 A71-30109

Ar-oxygen mixture in undiluted nitrogen, discussing relaxation time change during adiabatic excitation and molecule oscillations deactivation

14 p2276 A71-30170

Coulomb collisions in high density plasma beams from numerical integration of Fokker-Planck equation for three initial distribution functions, studying relaxation time

14 p2283 A71-30674

Dielectric relaxation time in Debye binary liquid, comparing liquid filled coaxial transmission line step response measurements with Debye model

14 p2215 A71-30985

Electron density fluctuations in nonequilibrium plasma under crossed electric and magnetic fields, relating ionization instability development and background relaxation times

15 p2454 A71-31488

Nonequilibrium and equilibrium plasmas thermodynamic properties and molecular, atomic and ionic internal partition functions and relaxation times

16 p2617 A71-32955

EPR spectra and spin-lattice relaxation time in coal pitch and polyvinyl chloride during low temperature carbonization

17 p2763 A71-35245

Coherent electromagnetic excitation of optical transition levels by fluorescence measurement, obtaining dipole moment and relaxation times

18 p2929 A71-35903

Relaxation time model of solid state diodes based on equations for electrons of given energy, including p-n junction and tunnel diodes

19 p3027 A71-37495

Gas relaxation process equations of motion based on reversibility of time, considering application to particle systems with magnetic field moments

19 p3108 A71-38618

Ionization relaxation phenomena behind strong shock waves, discussing ionization kinetics, radiation transfer effects, relaxation time and radiative heating

21 p3365 A71-40087

Quantitative schlieren system for shock wave velocity, density ratio and relaxation time measurements, discussing electro-optical modification and calibration technique

21 p3364 A71-40404

Ne ionization relaxation time behind reflected shock waves from temperature and pressure measurements of combustion driven shock tube end wall
23 p3706 A71-42909

Electron velocity distribution relaxation in time dependent weakly ionized plasma within electric field, solving Boltzmann equation
23 p3708 A71-43151

Low frequency phase method application to fast electron processes and characteristic relaxation times in quick response Ge and Si junction diodes
23 p3650 A71-43307

Hydrogen fluoride vibrational relaxation times behind incident shock waves at various temperatures
24 p3802 A71-44922

Oxygen dissociation in He, Ar, Kr and Xe gas mixtures behind incident shock waves, calculating density gradients and vibrational relaxation time
24 p3802 A71-44924

RELAY

Lunar communications relay unit, discussing system design, capability and tradeoffs
01 p0035 A71-10919

Second order relay system with piecewise constant control, using phase plane analysis technique
03 p0451 A71-13964

Delay compensation in flip-flop element of optimal relay system with self oscillations, using optimal control algorithm constructed by phase space method
11 p1742 A71-26095

Relay advances - Conference, Oklahoma State University, April 1971
13 p2000 A71-28834

RELAY SATELLITES

Lunar far side communication, discussing libration point and lunar orbit relay system for high bit rate telemetry, TV and astronaut backpack communication
04 p0555 A71-15339

Tracking and data relay satellite system (TDRSS) impact on spacecraft mission support information management
07 p1197 A71-19704

Rendezvous equations near second lunar libration point, using Halo orbiting relay satellite for communication with spacecraft behind moon
09 p1521 A71-22912

Tacsat 1 telecommunications relay system, discussing UHF-SHF antenna radiation patterns, ground terminal equipment, nutation dampers and attitude and orbital correction procedures
12 p1882 A71-27611

Space station communications systems, discussing data relay satellites transmission paths to ground, multiple voice channels, two way color TV and onboard telephones
17 p2699 A71-34610

RELIABILITY

NT AIRCRAFT RELIABILITY

NT CIRCUIT RELIABILITY

NT COMPONENT RELIABILITY

NT SPACECRAFT RELIABILITY

NT STRUCTURAL RELIABILITY

Reliability prediction method effectiveness for control plant with efficiency represented by canonical forms
01 p0064 A71-10924

Stochastic processes applied to loaded redundancy systems reliability analysis
01 p0112 A71-11157

Complex systems potential effectiveness theory, establishing reliability, noise resistance and controllability limits
01 p0065 A71-11230

Satellite communications system earth station operation and reliability, discussing staffing, main and supporting communication equipment maintenance, utilities and redundancy
02 p0224 A71-12825

Terrain-following radar for TSR-2 aircraft, discussing reliability trials and improvement
07 p1062 A71-19557

Availability and failure frequency of systems of independent repairable units, using representation by network or reliability block diagram
15 p2415 A71-32341

Reliability and maintainability as concepts in life cycle costs applied to airline operations
16 p2552 A71-33287

Sequential analysis and Bayesian demonstration in hypothesis testing, considering weight ratios based on objective lower level program reliability test information
16 p2582 A71-33289

Human performance reliability data system using taxonomic structure for classifying behavioral studies and predicting man-machine performance
16 p2536 A71-33318

Space, radio communications, considering radio links reliability between multistage launcher rocket and ground stations
17 p2696 A71-34228

Low noise TWT amplifiers, performance, reliability and cost reduction
17 p2714 A71-34605

Gas lasers, discussing engineering developments for size and cost reduction, reliability, long life and high power
19 p3074 A71-38227

Direct measurements of cosmic dust particles in near earth environment and interplanetary space, noting reliability and calibration
20 p3300 A71-39655

Summation theory of random number of independent random variables relation to queueing and reliability theories
24 p3843 A71-44873

RELIABILITY ANALYSIS

Modular computer design for long term missions, discussing reliability estimation
01 p0046 A71-10205

Frame structures linear-mode failure probability estimation by reliability analysis
02 p0327 A71-12347

Gyroscope reliable performance life testing economic justification, noting cost lowering by deficient gyro rejection
05 p0749 A71-16304

[AGARDOGRAPH-128]

Statistical reliability tests for cosmic ray intensity records from ground stations, stressing time series aspect
06 p0951 A71-18108

Probabilistic weather forecasts reliability estimation
07 p1150 A71-18871

Ten-year old missile battery reliability programs based on two aspects of remotely activated one-shot battery
08 p1236 A71-21110

Mathematical model system analysis methods for reliability assurance, discussing worst case and Monte Carlo techniques
09 p1423 A71-23040

Timesaving reliability tests for Si transistors involving failure mechanism acceleration
09 p1418 A71-23042

Decoding computational work and time, discussing cost increases related to communication reliability
09 p1407 A71-23102

Nonrepairable elements reliability under external influences, discussing linear damage accumulation hypothesis
11 p1768 A71-25659

In-core thermionic reactor network reliability analysis, assuming component failures as equally probable stochastic events
11 p1713 A71-25893

Optimal reliability of system with nonlinear constraints, using mathematical model and sequential unconstrained minimization technique
11 p1771 A71-26161

Maximum entropy principle for prior distribution determination in Bayesian reliability estimation, comparing with statistical decision theory
11 p1772 A71-26164

Limited reliability mathematical model for radioisotopic thermoelectric generators semiconductor couples based on catastrophic failures
11 p1715 A71-26165

Hanle cascade effects on atomic lifetime reliability from collisional excitation experiments
11 p1803 A71-26370

Reliability analysis as essential input in trade studies for selecting system component designs, emphasizing NERVA program
12 p1928 A71-26664

Failure rate data in reliability analysis, considering material failure phenomena, and maintainability
12 p1909 A71-26665

Tabular system reliability analysis based on integration of fault tree, state variable and failure modes techniques
12 p1910 A71-26674

Mission reliability calculations for systems with redundant units, considering design of airborne warning and control system and other radar control systems
12 p1885 A71-26675

Reliability analysis method for systems cyclic operation, demonstrating application for satellite power subsystem
12 p1910 A71-26676

OA0 2 thermal test reliability analysis, using filtering process to eliminate component and subsystem level failures
12 p1971 A71-26681

Apollo program all-up spacecraft thermal vacuum tests, considering component and subsystem reliability analysis, thermal model verification and certification requirements
12 p1894 A71-26682

Cost effectiveness of reliability screening program from parts procurement through system test, using experience with attack radar for F-111 aircraft
12 p1885 A71-26683

Reliability analysis of solar thermoelectric generator module as function of individual photocells, circuit design and redundancy
15 p2351 A71-31672

Reliability prediction of narrow band structures under random excitations, considering catastrophic and fatigue failure modes
15 p2506 A71-32094

Gradual failure effects on operational reliability of centralized automatic control machine
15 p2374 A71-32192

Large nonrepairable systems reliability analysis by partitioning possible states into subsets
15 p2415 A71-32342

Dynamic stability and reliability analysis of pulse width modulated control systems by point-to-point mapping method
15 p2382 A71-32621

Information model for simulating systems reliability estimates uncertainty, noting state transition matrix, methodology and sensitivity analysis of effectiveness
16 p2583 A71-33304

Classification reliability of electromagnetic wave scattering fluctuating objects from statistical scattering matrices, obtaining incident wave polarization
17 p2698 A71-34260

Statistical limits on reliability, informativeness, controllability and self organization of complex systems, determining minimum redundancy requirements for suppressing interfering factors
17 p2720 A71-34953

Reliability analysis of universal computer system with identical elementary computers interconnected by communication channels
17 p2710 A71-34958

Reliability analysis of redundant information systems, deriving formulas for risk of failure and faultless operation probability
17 p2721 A71-34966

French monograph on system reliability of particle detection device covering methodology, functional models, Monte Carlo simulation, spectrometers and DC/DC converters
17 p2767 A71-35231

Probability density function for parameter of exponential measurement model based on structural inference theory, developing prediction densities as life test inferences
17 p2768 A71-35537

Reliability in key project decision making, including failure mode/effect analyses, design tradeoff, baseline meetings, hardware storage and data bases
18 p2926 A71-36491

Skewed and orthogonal redundant reaction wheels comparison for outer planet exploration spacecraft attitude control based on reliability analysis
19 p3101 A71-37926

[AAS PAPER 71-157]

Systems oriented components selection optimization technique by reliability/quality levels, considering repair and failure cost, storage time and mission duty cycle
19 p3034 A71-38518

Cathode ray tube, including electron beam peak power, resolution elements, luminescent materials, fabrication techniques, contrast preservation and reliability
20 p3234 A71-39062

Three phase code transformation task reliability and correlation, representing general factor analytic intellectual abilities and personality characteristics
20 p3192 A71-39073

Reliability controlled maintenance plan for avionics equipment based on mean time between failures
20 p3203 A71-39087

Discrete renewal processes applied to mathematical modeling of physical processes, using statistics of complicated events in reliability analysis
21 p3407 A71-40361

Generalized reliability function for systems of arbitrary configurations, using path enumeration approach based on probability theory
21 p3407 A71-40369

Semiconductor components reliability assurance under assumption of failure rate decrease with time for IC quality and performance improvement
21 p3356 A71-40746

Aircraft surveillance oceanic satellite systems design and reliability analysis, discussing position determination accuracy
22 p3572 A71-42094

Relcomp conversational time-sharing computer program for rapid calculation of reliability and MTBF of systems with serial and redundant units
22 p3517 A71-42103

Bias network analysis computer program for reliability analysis suited to failure mode, criticality, drift and catastrophic failures prediction
22 p3517 A71-42104

Computerized algorithm for redundant configuration system reliability function generation from Boolean algebra transmission function
22 p3517 A71-42107

Statistical fatigue life models, surveying failure probability distributions in reliability studies
22 p3566 A71-42117

Alcyon project PTA 1, considering balloon stabilization efficiency during night-day transition and system reliability
22 p3483 A71-42400

Multiple component logic circuit reliability analysis using Karnaugh diagram procedure for simplification 24 p3807 A71-45299

RELIABILITY CONTROL U QUALITY CONTROL U RELIABILITY ENGINEERING RELIABILITY ENGINEERING

Multiprogrammed and time shared multiaccess digital computers operating systems design, discussing dynamic memory protection structures 01 p0043 A71-10179

Real time systems design principles for processor organization, logic circuits, fault detection and diagnostic tests to facilitate high degree of reliability and maintainability 01 p0046 A71-10203

Modulo value influence on computer operation reliability, allowing for supplementary verification equipment reliability 01 p0049 A71-10531

Nonlinear control law for increased powered stabilization system accuracy in single-axis gyrostabilizer 01 p0079 A71-10533

Hybrid microcircuits reliability, discussing test data regarding receiving and sample inspection, environmental and performance testing, etc 01 p0053 A71-10733

Reliability test for fluidic digital comparison device 01 p0006 A71-10925

External actions effect on restorable products failure sequence, extending nonrestorable products reliability theory 01 p0088 A71-11231

Missile prototype reliability prediction, using reliability theory concepts in establishing computation and test programs without damage probability determination 02 p0298 A71-12366

Reliability prediction for machine parts subjected to cyclic stresses, using statistical analysis of fatigue data for failure rate calculation 02 p0327 A71-12367

Air transportation reliability through turbojet engine performance monitoring 02 p0298 A71-12368

Nondestructive testing for reliability and lifetime of mass produced radio equipment under maximum load 02 p0257 A71-12530

Single repairable unit system with spares deterioration in storage, calculating long-run availability and time to system failure 02 p0258 A71-12590

Apollo Applications Program command and service module test requirements to achieve reliable hardware for extended missions [ALAA PAPER 70-378] 03 p0500 A71-14436

NASA qualitative reliability technology applications to chemical industry 04 p0602 A71-14802

Product test duration and extent from reliability theory viewpoint 05 p0759 A71-16725

Two-unit redundant repairable system with standby, predicting periodic or random inspection effect on reliability through Laplace transforms 06 p0904 A71-18026

Navy avionics modular multiprocessing digital computer operating system reliability, comparing totally software and partly hardware approaches 07 p1067 A71-18833

Reliability in electronics - IEE Conference, London, December 1969 07 p1076 A71-19551

Satellite electronic equipment reliability engineering, considering circuit and system design, components screening, assembly and test procedures and quality assurance plans 07 p1207 A71-19563

Meteorological instrument design, emphasizing reliability and maintainability 08 p1293 A71-21734

MOSFET data systems evolution for IMP, discussing effects on system design and reliability approach 08 p1267 A71-21844

Book on reliability mathematics covering fundamental statistical concepts, logic diagrams, mathematical models, component reliability prediction, system prediction, reliability growth, assessment methods, etc 09 p1485 A71-22958

Iterative algorithms for regression function saddle point and applications in reliability and automatic control theories 10 p1585 A71-24156

Soviet book on aircraft ground support and onboard radio equipment operation and reliability increase by redundancy and rational methods, discussing preventive maintenance 10 p1583 A71-24670

Spacecraft structures weight optimization based on fracture mechanics and reliability cost constraints applied to pressure vessel design 11 p1847 A71-25464

Reliability test extent, duration, confidence limits and failure rate computed by nomograms 11 p1737 A71-25623

Random failure definition based on stochastic processes mutual implication, producing unique characteristic events 11 p1771 A71-26160

Reliability - IEEE Conference, Washington, D.C., January 1971 12 p1908 A71-26655

Statistical nature of time to complete MIL-STD-781 reliability sequential tests for military and space equipment, giving information about MTBF 12 p1908 A71-26656

Two-line all-equipment test and aeronautic systems division reliability testing, analyzing by Weibull Monte Carlo simulation 12 p1909 A71-26657

Computer aided reliability assurance system /CARAS/ for integrated circuits, correlating process and failure data 12 p1890 A71-26658

Particle impact noise detection of loose particles in electronic component cavities, discussing implementation, cost savings and reliability improvement 12 p1884 A71-26659

Total reliability requirement procedure for design, development and production of medium- and large-scale integrated circuits 12 p1884 A71-26660

Deferred state sampling plans using accept/reject decisions dependent on future lot disposition according to quality drift 12 p1909 A71-26661

Reliability experience acquired in collecting, processing and analyzing U.S. Army test and field data, stressing field data reduction work 12 p1909 A71-26662

Design analogies of aerospace and commercial systems, describing computerized simulation method for system design evaluation and reliability improvement 12 p1909 A71-26663

Equivalent circuit concepts in diagnostic metrology as converging logical-physical process, stressing electronic failure analysis 12 p1890 A71-26666

NASA reliability program provisions for aeronautical and space system contractors, reviewing evolution process 12 p1909 A71-26667

Reliability knowledge review, stressing learning curves for measuring and predicting reliability achievements and defect screens effectiveness measurement 12 p1909 A71-26668

Optimal reliability proposals for industry competitive posture improvement in difficult market environment, recommending military electronics reliability standards specification 12 p1909 A71-26669

Failure prevention, test discrepancy reporting and circuit analysis workshop techniques for program audits, integrating reliability managers, performers and customers 12 p1910 A71-26670

Pan American reliability program effect on airline maintenance, considering cost effectiveness, aircraft performance, data collection and analysis 12 p1910 A71-26671

Reliability assurance in product manufacturing, discussing specific tasks during design, preproduction and production phases 12 p1910 A71-26672

Risk assessment associated with reliability demonstration testing, considering fixed price procurement and cost effectiveness 12 p1910 A71-26677

Economic formulation in reliability engineering, expressing cost of failure and reliability improvement in comparable terms 12 p1987 A71-26678

Shillelagh missile reliability program development/deployment using part qualification levels and fly-before-buy procurement 12 p1885 A71-26684

Service life testing and reliability estimation, using ordinary and empirical Bayes approach in failure model with gamma probability distribution 12 p1910 A71-26685

Failure prediction from interval data for reliability and inventory problems, considering irregular inspection and manufacture for aging in calendar time 12 p1911 A71-26687

Statistical decision theory in reliability and project management, discussing Venus probe loss 12 p1911 A71-26690

Continuous loading method for accelerated reliability testing of circuit components 13 p2072 A71-27830

Small turbine type flowmeters for liquid hydrogen, discussing design, inspection, calibration and reliability 14 p2239 A71-29926

High temperature capacitance strain gage development for aircraft testing, discussing instrument configuration and data reliability 14 p2248 A71-30682

Soviet book on liquid rocket engines covering combustion chambers, fuel supply systems, static and dynamic characteristics, control and reliability 15 p2466 A71-31296

Book on durability and reliability in engineering design covering materials strength and service longevity concepts, failure modes, fabrication philosophies, etc 15 p2414 A71-31836

Performance category III all-weather capability ILS landing equipment standards, discussing high directivity antennas and transmission and control system redundancy techniques for reliability 15 p2445 A71-31909

Series and parallel complex systems reliability maximization by allocating optimum numbers of stocked spare parts 15 p2415 A71-32343

Reliability and maintainability - ASME/SAE/ALAA Conference, Anaheim, California, June 1971 16 p2582 A71-33284

Reliability implications of Boeing 747 program, considering problem detection and identification, parts fabrication and installation, airline operating variables, etc 16 p2522 A71-33285

Machine design strength criteria in development of formulas for lower bound estimates of mechanical components structural reliability 16 p2582 A71-33293

Unmanned spacecraft first day failures, discussing launch environment, duration tests in simulated space and performance improvement 16 p2645 A71-33296

Statistical procedure for maintainability allocation during early system design to meet specified overall goal 16 p2583 A71-33299

Cost distribution theory for various costs of failure, using probability distribution functions for modeling maintainability and reliability 16 p2583 A71-33305

System safety evaluation model with state-space network for representation of mission phase and hazard degradation 16 p2602 A71-33308

German book on problems, mathematical foundations and investigation methods of technical reliability covering Boole model, random variables, distribution functions, failure rates, etc 16 p2583 A71-33524

Large software systems development management, discussing pending disaster early identification, relationship to hardware, integrating contractor and programming tools 17 p2710 A71-34619

NASA space station electrical power systems discussing configurations, growth capacity, volume reliability and long term effects [ALAA PAPER 71-825] 17 p2677 A71-34720

Redundant modules introduction in microelectronic systems for increased reliability 17 p2716 A71-34954

Control reliability in automated system of discrete production management 17 p2721 A71-34961

Strapdown or gimbaled inertial measurement units for space shuttle program, considering reliability, redundancy and cost of ownership 17 p2772 A71-35059

Electronic two axis digitizer, discussing electromagnetic measuring concept, modular design, reliability and economics 17 p2711 A71-35291

Spacecraft system design with long life reliability for outer planet exploration missions [ALAA PAPER 71-831] 17 p2814 A71-35428

Reliability engineering, reviewing MTBF, redundancy, complexity effects on failure rate, reliability prediction, repair and replacement cost and test techniques 18 p2928 A71-36806

Nuclear power station design for optimal reliability levels, noting maintainability requirements 18 p2928 A71-36807

High reliability computers via multiprocessing for long duration space missions, discarding quad redundant and majority voter approaches [AAS PAPER 71-158] 19 p3152 A71-37927

Hardware reliability improvement techniques for long life unmanned space missions [AAS PAPER 71-156] 19 p3153 A71-37957

Simulation model for optimal cost time-independent component replacement of complex system subject to probabilistic deterioration 19 p3069 A71-38288

Reliability engineering techniques for design control of electromagnetic compatibility, employing statistical theory 19 p3030 A71-38437

Reliability physics - IEEE Conference, Las Vegas, April 1970 19 p3033 A71-38504

Reliable plastic encapsulated semiconductor devices design, production and evaluation, noting application to IC 19 p3033 A71-38509

Failure analysis of vacuum deposited Al film interconnections at contact windows, considering grain size effect and reliability improvement techniques 19 p3119 A71-38512

Discrete semiconductor devices test program assessing environmental screening for improved component reliability 19 p3034 A71-38517

Collector/base current ratio degradation in bipolar transistors, describing mechanisms characteristics and protective techniques 19 p3034 A71-38522

Emitter avalanche stress on gated silicon planar n-p-n transistors, investigating degradation phenomena 19 p3034 A71-38523

Probabilistic behavior of repairable two-state systems, assuming reliability measurability by operating time 21 p3407 A71-40362

Optimal design for system reliability and maintainability, using dynamic programming model 21 p3407 A71-40363

Conditional failure density evaluation from hazard rate, considering failure time distribution function, reliability function and conditional failure distribution 21 p3408 A71-40370

Fortran source listing for computer program approximating system reliability 21 p3351 A71-40371

Vibration tests of instruments, machines and apparatus, allowing for functional reliability 22 p3536 A71-41441

Reliability requirements in LSI technology, considering multilevel metallization and test vehicles for process control 22 p3519 A71-41633

Computerized reliability optimization system program for electronic equipment design and management methods to achieve high reliability and low cost 22 p3517 A71-42105

Computerized system redundancy optimization formulation as zero-one type variables integer programming problem, obtaining algorithmic solution for maximum reliability 22 p3517 A71-42106

Validity study of mathematical models representing failure rate variations of electronic components, considering thermal and electrical stresses 22 p3517 A71-42109

System quality analysis by reliability measures /mean time between failures/, using distribution free evaluation models 22 p3566 A71-42114

Static joint wear role in overall machine reliability and service life under working loads from mathematical prediction 22 p3619 A71-42852

In-flight monitoring of aircraft turbine engine reliability 23 p3718 A71-43233

Control system effectiveness improvement, using redundancy and self adaptive techniques 23 p3655 A71-43291

Nuclear test program management, considering reliability problems, delays and cost 23 p3786 A71-43462

NASA NHB reliability engineering provisions for aeronautical and space system contractors, considering criteria for program management, system engineering, manufacturing and facilities 23 p3682 A71-43497

RELIEF MAPS

Three dimensional lunar surface relief model from orbital photographs at different heights 08 p1360 A71-21023

Computer generated profile maps to fill military need for rapidly produced, easily interpreted terrain map 08 p1280 A71-21242

Martian surface relief details observation from earth distance, showing telescope resolution requirements above dense atmospheric layers 16 p2639 A71-33698

Passive mapping of terrain with sidelooking radiometry by storing received signals from various elements over extended flight path 17 p2746 A71-35763

Three dimensional lunar surface relief model from orbital photographs at different heights 20 p3294 A71-39603

RELUCTANCE

Hall effect and reluctance of TiN and ZrN specimens obtained by hot compression 15 p2427 A71-31515

Soviet book on synchronous reluctance motors covering operation principles, design features and starting characteristics 15 p2354 A71-32200

Four phase reluctance motor design for electromagnetic torque variation, examining function of commutation frequency and phase time constants 17 p2677 A71-35710

REMANENCE

Ancient geomagnetic intensity in Japan by comparing natural remanent magnetization with known thermoremanent magnetization induction, using stepwise heating method on antique pottery 04 p0582 A71-15127

Lunar magnetic field demagnetization effect hypothesis for explaining Apollo 11 lunar rock samples remanent magnetization 07 p1200 A71-20055

Carbonaceous chondrites natural remanent magnetization, revealing grey spinel oxide, Ni-Fe and iron sulfide as principal opaque minerals 10 p1674 A71-24429

Apollo 11 lunar rock and microbreccia examination for natural remanent magnetization, emphasizing viscous magnetization effect in terrestrial magnetic field 14 p2303 A71-29534

Ancient lunar magnetic field detection and origin from remanent magnetism in Apollo 11 breccia and basaltic rock samples 14 p2306 A71-29725

Lattice defect mechanism for high coercive force remanence production in meteorites and lunar samples by cosmic ray exposure 14 p2308 A71-29913

Apollo 11 and 12 crystalline rocks NRM natural remanent magnetization, discussing magnetizing fields origin 23 p3763 A71-43794

Lunar rocks 12002 and 12022 remanent magnetic moment as evidence for ancient lunar magnetic field 23 p3763 A71-43795

REMELTING

U MELTING

REMOTE CONSOLES

NASA Space Documentation Service on-line information retrieval system using direct access remote consoles 01 p0183 A71-10397

Digital computer operated from remote terminal for signal analysis including Fourier transform, complex multiplication and conjugation 05 p0727 A71-17144

Mathematically oriented digital computer system implemented on IBM 360 with graphic remote consoles for engineering problems 17 p2710 A71-34622

Interactive graphical computer system with remote on-line consoles for engineering problem modeling and analysis, giving illustrative examples 22 p3516 A71-41868

REMOTE CONTROL

NT RADIO CONTROL

Remote modules for spacecraft analog/digital telemetry distributing multiplexer input gates 01 p0036 A71-10988

Remotely controlled room temperature microwave parametric amplifier design for shipboard satellite telemetry terminal 02 p0234 A71-12813

Heat sterilizable remotely activated silver zinc battery for energy source of planetary lander capsule 03 p0352 A71-13043

Astronomical telescope automation and remote control, discussing advantages and problems 04 p0597 A71-15255

Single module unmanned Mars roving vehicle with flexible metal toroidal hoop-spoked wheels, discussing remote controlled scale model design for simulation on earth 04 p0566 A71-15333

Collisional drift instability remote feedback suppression in Q machine Cs plasma by microwave modulation at upper hybrid frequency 06 p0932 A71-17464

Unmanned lunar roving vehicle remote guidance, discussing onboard vs on-earth steering and velocity control, imaging system, obstacle detection and avoidance 08 p1331 A71-21325

Book on human factors application in teleoperator design and operation covering aerospace environments, transportation, remote control, sensors and actuator subsystems 09 p1399 A71-22613

Remote controlled automatically tuned l-kw short wave transmitter with zero power tuning mode of power stage and drive unit frequency generation 12 p1887 A71-26989

Direct digital control and data acquisition system for propulsion research testing, transmitting data over differential signal pairs to remote test cell 14 p2208 A71-30316

Nationwide man machine remote employment/personal services system including synchronous commu-

nication satellite, information and control network and remote terminals 14 p2199 A71-30914

Lunar roving vehicle telecommunication system requirements concerning vehicle functions, science experiments, crew operations and safety 14 p2200 A71-30915

Noise stability and false response probabilities of receivers in circular remote control systems under harmonic interference for signal transmitted over power distribution grids 15 p2353 A71-32081

Remote control and surveillance equipment for communication satellite ground station, discussing console and engineering service circuit designs 17 p2709 A71-35518

Remote power controller as static circuit protection device for aircraft and spacecraft automatically controlled electrical wiring system, discussing performance improvement 17 p2678 A71-35782

Remotely piloted vehicles development and limitations, considering air superiority, weapons delivery, sensors and survivability 18 p2849 A71-35899

REMOTE HANDLING

Frequency phase multistable elements, discussing automatic control, telemechanics and digital measurement applications 11 p1739 A71-26465

REMOTE SENSORS

Remote sea state information acquisition system using video attachment to radar for sea return spectrum recording and analysis 01 p0031 A71-10600

Atmospheric temperature profile in cloud presence, discussing remote sounding techniques with maximum probability method 01 p0120 A71-10854

Bibliography of bibliographies, manuals and books covering photointerpretation and remote sensing 01 p0084 A71-11379

Remote sensing systems for vegetation analysis, discussing machine-aided photointerpretation methods for data analysis 01 p0084 A71-11590

Atmospheric temperature remote sounding from satellites using radiometer with selective chopper for carbon dioxide emission 03 p0422 A71-13355

Six channel selective chopper radiometer design and construction for carbon dioxide emission monitoring for remote atmospheric temperature sounding by Nimbus 4 03 p0423 A71-13356

Atmospheric temperature remote sounding via balloon-borne selective chopper radiometer 03 p0423 A71-13357

Remote determination of temperature by operating and etalon thermistors resistances measurement with DC bridge 04 p0591 A71-14855

Microwave radiometric techniques for continuous all-weather remote sensing of sea conditions from satellites, discussing foam and surface ripple effects [AIAA PAPER 70-318] 05 p0743 A71-17101

Multichannel EEG radio telemetry for remote recording of biological activity from subjects in motion and within human body 05 p0715 A71-17110

Nimbus meteorological satellite program, discussing global cloud cover mapping and automatic picture taking, radioisotopic thermoelectric generator, sounder instrumentation and remote sensors 05 p0818 A71-17133

Satellites interrogation, recording and location system for data acquisition from deployed remote instrumented platforms 05 p0743 A71-17134

Drift type plasma instabilities, discussing feedback stabilization and remote sensing 06 p0932 A71-17465

Atmospheric path effects on spectral radiance intensity in remote airborne multispectral sensors 06 p0898 A71-17559

Airborne remote sensing application to agriculture and forestry for crop forecasting, soil mapping, insect infestation detection and range surveys 06 p0896 A71-18406

Agronomic research by remote sensing, discussing spatial, spectral and temporal measurements from electromagnetic multispectral response 06 p0896 A71-18407

Agricultural information and advisory service, utilizing remote sensing, computer sciences, research programs, educational involvement, satellites and aircraft 06 p1010 A71-18408

Worldwide remote sensing with satellites, high flying aircraft and computer data processing, discussing application in less developed countries 06 p0896 A71-18409

REMS

Earth resources coverage capabilities of manned orbital space station, comparing to remote measurement requirements
[AIAA PAPER 71-75] 06 p0980 A71-18532

Statistical methods for inventory boundary determination and data compression in automatic processing of multispectral scanner remote sensor earth observations from aircraft and spacecraft
[AIAA PAPER 71-234] 07 p1068 A71-19711

Earth resources survey remote sensor system with human for spatial and machine for spectral data processing
08 p1257 A71-20691

Meteorological satellites remote sensing advanced instruments and techniques, discussing retrograde polar and synchronous satellite orbits
08 p1366 A71-21744

Extensometer for evaluating remote reading strain gage performance at high and rapidly changing temperatures
09 p1445 A71-22720

Forested area landscape characteristics from remote sensed imagery, establishing base line information for vegetation mapping
09 p1438 A71-23210

Airborne multispectral remote sensing of forests, describing previsual detection of damage from insect infestations, disease organisms and oxidant air pollution
09 p1439 A71-23211

World crop areas, yield, production and land use data, using remote sensing devices
09 p1439 A71-23213

Urban housing environment data acquisition from remote sensor imagery, stressing rapid surveys and data timeless attribute
09 p1439 A71-23214

Geographic urban information and change detection systems with remote sensing inputs, discussing data storage and retrieval
09 p1439 A71-23214

Side-looking radar, thermal IR scanner and passive microwave radiometers for remote sensors for geologic mapping
09 p1452 A71-23215

Cartographic characteristics and applications of airborne radar sensors, stressing synthetic aperture radar and electronic techniques and equipment
09 p1452 A71-23219

Mean wind velocity and turbulence remote measurement with laser anemometry, using intensity modulation technique
10 p1623 A71-25091

Aerial and orbital remote sensing of water quality, considering waste materials effect on coastal marine environment
11 p1760 A71-26504

Mineral and water resources remote sensing, discussing sensor systems and data interpretation techniques with special reference to Colorado Bonanza project
11 p1760 A71-26531

Ground truth role in remote sensing surveys from space, considering field measurement techniques in calibrating sensor imagery and unknown terrestrial environment
11 p1760 A71-26532

Airborne remote sensing for oceanographic data acquisition in UV, visible, IR and microwave spectrum using reflected and emitted radiation instruments
12 p1902 A71-27260

Video tape recorder (VTR) for onboard storage of wideband analog and high rate digital sensor outputs of ERTS
14 p2249 A71-30901

Orbital Earth Resources Experiment Package sensor components, functions and crew tasks for operation
15 p2500 A71-31459

Earth Resources Remote Sensing Systems effectiveness, discussing sensor and satellite development, spectral and spatial recognition, data management and ecological and resource relationship
16 p2645 A71-33582

Canadian program of remote sensing for gathering information on earth resources and environment
16 p2566 A71-33749

Earth remote sensing in Brazil, discussing program organization and data acquisition related to NASA environmental resources technology satellites
16 p2570 A71-33826

Satellite remote sensing for crops and timber identification/detection, surface moisture measurements, soil mapping, marine hazard evaluation, etc
17 p2730 A71-34245

Electronic multimage processor for enhancement and interpretation of ERTS multiband remote sensor imagery data
17 p2737 A71-34273

Bibliography and review of solar system bodies surfaces, considering remote sensing at UV, optical, IR, microwave and radio wavelengths, in situ lunar measurement and surface exploration
17 p2798 A71-34458

UV Raman remote gas sensors incorporating laser scattered radiation with high resolution monochromator
17 p2753 A71-35292

Remote sensing imaging techniques for oil pollution survey, using airborne UV, IR, color and filtered panchromatic photography
17 p2735 A71-35386

ERTS remote sensor data processing, describing space and ground equipment and techniques
[AIAA PAPER 71-839] 17 p2814 A71-35429

Remote sounding of earth atmosphere temperature and composition
17 p2736 A71-35565

Remote sensing for geologic problems, using side-looking radar for fracture and fault detection and IR images for limestone, dolomite and granite discrimination
18 p2911 A71-35890

Remote subsurface oceanographic imagery from orbital altitudes in blue multispectral region, showing optimum filter passband
18 p2917 A71-36064

Raw remote sensor data acquisition relationship to economic activity and interpretation for earth resource/environmental information
18 p2912 A71-36067

Remote sensors for hydrogeologic prospecting in arid terrains, recommending vertical and horizontal polarized microwave radiometers
18 p2913 A71-36362

Thermal mapping performance of passive airborne IR scanners for remote environmental sensing, estimating SNR and noise equivalent irradiance
18 p2921 A71-36364

Lunar exploration system based on modified earth-orbit space station in polar lunar orbit as remote sensor platform and lander deployment base
18 p2972 A71-36443

Earth-spacecraft radio communication requirements for future unmanned planetary missions, emphasizing imaging experiments and sensors
18 p2877 A71-36518

Aircraft and satellite remote sensing techniques in geology, soil science, geography and hydrology
18 p2913 A71-36539

Aerial and satellite environmental water quality control surveillance, discussing remote sensing techniques and objectives
19 p3059 A71-38402

Environmental water pollution observation by remote sensing, discussing aerial photography
19 p3059 A71-38403

Digital pattern classification of oceanographic remote sensing multispectral airborne scanner data, considering sea surface color variations
19 p3060 A71-38405

Latent forest fire detection, describing airborne IR surveillance system
19 p3066 A71-38410

Multiple channel fringe counting interferometer for remote monitoring of large diameter microwave antenna under test in simulated solar thermal and vacuum environment
20 p3235 A71-39186

Remote image-forming sensors on satellites and aircraft, considering resolving power, contrast rendition, dynamic range, SNR, sensitivity, and reliability as performance measures
20 p3240 A71-39608

Atmospheric transmittance measurement errors in determining temperature, water vapor and ozone distributions from satellite remote sensing
20 p3258 A71-39671

Earth surface characteristics measurements with remote sensors, proposing overland albedo measurements for snows as to ground type /clouds, vegetation, sand and snow/
20 p3260 A71-39684

Remote sensing aerospace system for agriculture, considering soil mapping, forest fire reconnaissance, productivity evaluation and environmental and ecological conditions assessment
21 p3373 A71-40263

Earth resources survey satellites, discussing natural sources /radiation, matter-energy interactions and perturbing media/, remote sensors, space applications and reconnaissance
21 p3455 A71-40910

Laser remote sensing technique for tropospheric refractivity fluctuation profile measurement with tethered balloon-borne retroreflector tracking by ground based tracker
21 p3374 A71-40977

Aircraft heat viewer for underlying surfaces radiation properties, suggesting qualitative survey type thermal aerial photo combination with simultaneous radiometric measurements
21 p3383 A71-41300

Hot-wire anemometer remote operation, discussing coaxial cable length, terminal connection and bridge current
22 p3541 A71-41794

Global environmental monitoring and remote sensing from satellites, considering thermal, air and water pollution
22 p3534 A71-41961

ERTS remote sensing techniques, discussing objectives for southeastern U.S. in terms of agriculture, forestry, strip mine land reclamation and thermal pollution
22 p3534 A71-41967

Satellite observations for earth resources management, discussing operational ground-based remote sensor system and information extraction techniques
22 p3534 A71-41973

Remote sensing of chlorophyll and temperature in marine and fresh waters by spectroradiometer and differential and IR filter radiometers onboard airplane
22 p3534 A71-41986

Planning organization for global remote sensing information system operated and financed through international cooperation
22 p3623 A71-41987

Environmental quality indices from spaceborne or airborne remote sensing
22 p3534 A71-41995

Space technology applications to earth environment and resources management, discussing satellite-borne remote sensor systems and data processing techniques [SD-71-734] 22 p3535 A71-42047

Primary sensor transfer function selection to minimize rms error in information transmission over telemetry channel for subsequent digital processing
23 p3648 A71-43294

Unified procedure for detection of life on Mars by Viking program missions, using mass spectrometer for remote biologically oriented experiments
23 p3736 A71-43541

Earth resources technology satellites image processing system including electron beam recorder, image corrector, electro-optical systems and digital processors as design features
[AIAA PAPER 71-977] 24 p3825 A71-44575

ERTS remote sensing for ground system data management, emphasizing processing, correction, reproduction, storage, retrieval and distribution [AIAA PAPER 71-976] 24 p3817 A71-45294

Spacecraft orientation angle measurement by inertial sensors, analyzing equipment kinematic efficiency and limitations
24 p3829 A71-45318

REMS

U RAPID EYE MOVEMENT STATE

RENAL FUNCTION

Renin level in renal venous and peripheral blood in patients with renovascular hypertension
01 p0010 A71-10391

Flying personnel urinary lithiasis relationship with aeronautical activity, discussing etiopathological factors and augmented fluid intake
01 p0028 A71-11600

Renal function osmoregulation in Soyuz crew members
06 p0854 A71-18370

Human renal diluting capacity, examining prolonged absolute bed rest effects
09 p1401 A71-23365

Flight concomitant pathogenetic effects on urinary tract conditions, noting kidney descent, inflammatory episodes and calculus
10 p1566 A71-24977

Renal oxygenation in male Peruvian natives living permanently at high altitudes, determining reduced tubular function cause
12 p1873 A71-27127

Postflight metabolism and renal function of Soyuz 6, 7 and 8 crewmembers, associating weight loss during flight with water and salt discharges
13 p2006 A71-28409

Renal hemodynamic factors in whole kidney glomerulotubular balance in anesthetized dogs by manipulating filtration rate through constriction of aorta, thoracic vena cava, etc
16 p2529 A71-33194

Acute renal failure due to heat stress and physical exercise, noting discrepancy between physiological alterations and histopathological abnormalities
18 p2855 A71-36218

Circadian rhythms of human renal excretions in polar, temperate and equatorial regions
20 p3190 A71-39477

Water immersion effect on plasma renin activity, urinary aldosterone excretion and renal sodium and potassium handling in normal man
22 p3485 A71-41720

Antidiuretic action of chlorpropamide in mammalian kidney, considering intrarenal infusions effect on urinary concentration, free water clearance, glomerular filtration and sodium excretion
23 p3486 A71-41939

Hibernation effects on hedgehog electrolyte distributions and renal function, determining Na, K, Mg and Cl concentrations in muscles, liver, kidney, plasma red blood cells and bladder urine
22 p3488 A71-42416

RENDEZVOUS

NT EARTH ORBITAL RENDEZVOUS

SUBJECT INDEX

NT LUNAR ORBITAL RENDEZVOUS NT ORBITAL RENDEZVOUS NT SPACE RENDEZVOUS

Two controlled motions rendezvous problems treated as game between partners using quality criterion as payoff, deriving optimal strategies

03 p0392 A71-14405

RENDEZVOUS GUIDANCE

Minkey rendezvous computer program in Apollo 15 CSM aiding guidance, navigation and control system functions

17 p2772 A71-35055

Guidance and navigation requirements for rendezvous missions to two short period comets

[AAS PAPER 71-116] 19 p3101 A71-37913

RENDEZVOUS TRAJECTORIES

Soviet monograph on differential games of encounter of motions covering optimal control, rendezvous, pursuit, evasion, extremal guidance, etc.

06 p0926 A71-17438

Multiple impulsive spacecraft trajectory optimization technique application to comet rendezvous problem, using computer program

[ALAA PAPER 71-93] 06 p0977 A71-18548

Time series approximation of acceleration functions for analytical solution of low thrust interplanetary transfers, treating flyby and rendezvous mission modes

[ALAA PAPER 71-116] 06 p0977 A71-18566

Fuel optimal analytic multiburn transfer trajectories and shuttle rendezvous, assuming gravity vector linear dependence on position vector for burn arcs

[AAS PAPER 71-306] 23 p3724 A71-42982

REPAIRING

U MAINTENANCE

REPEATERS

Deception repeaters for erroneous information transmission to radar, considering echo signal level, burnthrough, target size, sensitivity, gain and bandwidth

04 p0555 A71-15359

Low distortion gain-controlled 140 MHz IF main amplifiers for 2700-channel microwave repeaters, discussing design and performance

05 p0730 A71-17069

Nonuniform feed effects on height of electrosark surface machining microasperities, investigating linear elliptical interpolator pulse sequence

08 p1296 A71-20851

Intelsat 4 satellite Spade communication system, using common reserve circuits and repeaters

15 p2373 A71-32640

Wideband fiber waveguide communication systems for optical frequencies, considering information carrying capacity limitation by components available for repeaters and terminal equipment

18 p2883 A71-36995

Linear digital interpolator in program controlled metal cutting tool circuit, determining transfer function with z transforms

22 p3525 A71-42876

REPETITION

High repetition rate TEA carbon dioxide laser up to 1000 pps with average power output up to 65 W

23 p3688 A71-44298

REPLACING

Simulation model for optimal cost time-independent component replacement of complex system subject to probabilistic deterioration

19 p3069 A71-38288

Replacement problem in stochastic point processes, obtaining cost over given time period and moments and correlations of replacement number

21 p3407 A71-40367

REPLICAS

Replica technique facilitating investigation of quenched solid propellant sandwich sample characteristics

08 p1271 A71-20868

REPORT GENERATORS

Computerized system evaluation and feedback data for assurance at hardware level, including reject and failure report documentation

12 p1890 A71-26673

REPRODUCTION

Bacteriophage Q beta ribonucleic acid variants, considering fluorescence determination of replication inhibition by ethidium bromide

04 p0548 A71-15267

REPRODUCTION (COPYING)

NT XEROGRAPHY

Self reproduction of diffraction and reconstructed images of finite aperture in coherent radiation field by periodic transverse and longitudinal alternation

01 p0092 A71-10032

Penta prism angle reduplication by interferometric measurements

14 p2241 A71-30139

REPRODUCTIVE SYSTEMS

NT UTERUS

Laser beam image reproducer systems, emphasizing pattern generators, automatic calibration subsystems, raster line merging apparatus, scanners and continuous film transport mechanism

22 p3559 A71-42515

REPTILES

NT SNAKES

NT TURTLES

REPULSION

U FORCE

RESCUE OPERATIONS

Space rescue operations, discussing notification, emergency location, terminal guidance systems and techniques application, international codes, etc.

01 p0164 A71-11438

Helicopter and V/STOL aircraft external noise and downwash measurements during simulated jungle rescue mission

04 p0531 A71-15409

Survival and rescue medical aspects, discussing water and food intake, dehydration, hygiene, sanitation, rest, injuries, heat and cold exposure, illnesses, rescue operations, etc.

08 p1245 A71-20718

Expandable structures for midair pilot rescue device with hot air filled BALLUTE, discussing BALLUTE material development

[ALAA PAPER 71-402] 11 p1707 A71-25278

German book on rescue systems for space emergencies covering mission failure, biological problems, escape vehicles, orbital operations safety and spacecraft transfer

12 p1972 A71-27185

Aircraft accident rescue system with helicopters, discussing cooperation between helicopter service and ground personnel

13 p2020 A71-28721

Night rescue terminal navigation, considering design, development and tests of Limited Night Recovery System for HH-53 helicopter

[AHS PREPRINT 534] 14 p2273 A71-31095

SK-5 air cushion vehicles evaluation including search/rescue, aids to navigation, law enforcement, safety logistics and oil pollution

[AHS PREPRINT 572] 14 p2180 A71-31113

Medical and technical aspects of air rescue and survival of astronauts in mountainous remote areas, noting dogs use for disaster victims location

22 p3482 A71-41982

Recovery, launch and landing operations of earth orbital shuttle vehicles, discussing space rescue capabilities

22 p3609 A71-41989

Docking with passive orbiting spinning or tumbling objects for space debris elimination and space rescue operations, describing remotely controlled despinning and retrieval methods

22 p3610 A71-42005

Space flight safety, discussing escape, rescue and survival design approaches for astronauts

22 p3611 A71-42037

Dynamic analysis of ATS 5 heat pipe fluid energy dissipation, confirming estimated stability of planned rescue approach configuration

22 p3611 A71-42038

IR radiation sensors application to fire protection and rescue operations

22 p3545 A71-42157

Extended launch windows for ground based rescue missions, using bi-elliptical rendezvous technique

[AAS PAPER 71-304] 23 p3638 A71-42980

Airport crash fire fighting equipment requirements and rescue operations

23 p3629 A71-43389

Helicopter, tilt wing and jet lift hovering aircraft outflow measurements to determine suitability as rescue vehicles

[ALAA PAPER 71-992] 24 p3791 A71-44586

RESEARCH

NT CRITICAL PATH METHOD

NT DYNAMIC PROGRAMMING

NT GAME THEORY

NT HIGH TEMPERATURE RESEARCH

NT LINEAR PROGRAMMING

NT MARKET RESEARCH

NT MINIMAX TECHNIQUE

NT NONLINEAR PROGRAMMING

NT NUCLEAR RESEARCH

NT OPERATIONS RESEARCH

NT SADDLE POINTS [GAME THEORY]

Turbulence research retrospective and new developments, reviewing contributions by Reynolds, Rayleigh, Prandtl, Taylor and Tollmien

11 p1751 A71-25578

Physics and astrophysics problem areas justifying intensified research

11 p1799 A71-25918

RESEARCH AIRCRAFT

NT B-70 AIRCRAFT

NT X-15 AIRCRAFT

NT X-24 AIRCRAFT

Q-Star experimental aircraft design and acoustical characteristics to study Quiet Aircraft Technology

08 p1231 A71-21441

RESEARCH AND DEVELOPMENT

Materials R and D economic considerations, emphasizing processing and assembly costs reduction and user benefits

01 p0183 A71-10279

RESEARCH AND DEVELOPMENT

Global Atmospheric Research Program /GARP/, discussing atmospheric motions, data acquisition, satellite networks, etc.

01 p0122 A71-11361

NACA/NASA rotating wing aircraft research history during 1955-1970 period, discussing wind tunnel research

01 p0005 A71-11377

Scientific research methods and tendencies, discussing theoretical and applied aspects, deductive and empirical procedures, technology interaction, practice criteria, etc.

02 p0335 A71-11853

Rational structure selection for scientific research organizations, using systems analysis

02 p0335 A71-11855

New information prediction in scientific research by data flow analysis

02 p0335 A71-11857

Satellite design developments by U.S. Navy

02 p0336 A71-11980

Technology assessment effects on science and engineering progress

02 p0336 A71-12121

Ossa R and D program noting budget allocations, satellite programs and international projects

04 p0690 A71-14934

Navy X ray research and utilization, discussing generation and interaction, radiography, radiation damage, dosimetry, spectroscopy, fluorescence analysis, etc.

04 p0625 A71-15095

Solar cell R and D in France, emphasizing thin film improvement

05 p0704 A71-16101

USAF weapons and support systems, discussing military R and D funding and resulting constraints

05 p0839 A71-16285

R and D money optimal reallocation due to total research budget decrement, based on computer program

05 p0840 A71-16743

R and D management decision making process structural model, discussing technological forecasting based on organized technical information, quantitized judgments, optimum resource allocation and hybrid technique

05 p0840 A71-16744

Earth resources satellite systems R and D planning, using case study approach in economic benefit analysis for parametric requirements determination

05 p0840 A71-17050

Combustion research for air breathing engines, discussing combustion stability in thrust augmentors, aircraft fire detection, MHD and external burning

06 p0946 A71-18476

Multinational corporate R and D laboratories, discussing problems with regard to language barriers, cultural differences and coordination

07 p1225 A71-19449

Information and technology transfer in multinational corporate R and D, discussing mechanisms of communication, use of common technical language and impediments due to attitude differences

07 p1225 A71-19450

Soviet book on research and design work optimization and automation based on mathematical methods and computer techniques

08 p1299 A71-21650

Laser technology R and D with respect to high average and/or peak power and chemical to coherent light energy conversion

09 p1462 A71-22584

High temperature steel and alloys metallurgical processes for stationary and aircraft gas turbine engine components, discussing production-quality control-research interrelationship

09 p1456 A71-23301

Research and development project funds allocation, developing mathematical dynamic modeling method for cost management

10 p1699 A71-24539

Motivations of scientists, engineers and technicians, considering changing nature of R and D projects

13 p2167 A71-28800

Organizational climate inventories in R and D establishments, comparing obstacles and incentives to creativity in government and industrial laboratories

14 p2339 A71-29852

Organization and funding criterion of unsuccessful R and D projects, considering project abandonment or failure

14 p2340 A71-29854

Mathematical programming models for resource allocation and project selection decision in R and D

14 p2340 A71-29855

Space research impact on general economy and ecology, noting royalty-free licensing to private industry by NASA

14 p2341 A71-30257

Weapons R and D flexible economical response to defense needs by emphasis on component and subsystem experimentation

14 p2341 A71-31130

- Commercial spinoff from government sponsored R and D, considering productivity and industry benefits 14 p2342 A71-31133
- Al alloys rods and sections extrusion process R and D, using lubricant without press residue 15 p2415 A71-32335
- West German parachute research, discussing stretching/filling shock, fabric material properties and static stability 15 p2350 A71-32373
- French aerospace research for aircraft, missiles, spacecraft and related power plant developments, discussing optimization methods, materials, reentry phenomena, etc 15 p2500 A71-32691
- Canadian R and D on fixed wing civil STOL aircraft, discussing augmentor wing concept using jet powered lift augmentor system 16 p2523 A71-33470
- Ion propulsion R and D at ONERA, discussing ionizer test control procedures, attitude control simulation and neutral fraction measurements [DGLR-71-027] 17 p2793 A71-35536
- Electrical propulsion systems research at Braunschweig installation covering plasma generation, ion sources, plasma accelerators, etc [DGLR-71-024] 17 p2794 A71-35544
- Parallel strategies effectiveness in R and D projects, discussing learning rate as critical parameter in project management decision making process 19 p3173 A71-37629
- Optimal investment model for R and D project evaluation and selection, using discrete cash flow and linear programming techniques 19 p3173 A71-37630
- Broadband point-to-point communication satellite systems for 1970s, discussing R and D effort, economics and international and domestic applications 20 p3197 A71-39606
- Low cost high performance rate gas bearing gyroscope development, emphasizing large scale production and overall instrument design optimization 22 p3551 A71-41664
- Economic analysis effect on R and D projects choice, assessing Space Shuttle system 22 p3624 A71-42526
- Industrial ownership in R and D markets, considering customer and supplier objectives compatibility in patent rights clauses 23 p3786 A71-43465
- Soviet aircraft industry R and D organizations and management 23 p3786 A71-44189
- Strategies and tactics for industrial R and D problems selection and solution for products innovation, noting element of chance 24 p3891 A71-44364
- Civil aviation research and development policy review covering aircraft noise, congestion, ATC, runway capacity and airport development problems [AIAA PAPER 71-1024] 24 p3892 A71-44602
- French R and D Directorate exhibits at 29th Le Bourget air show, discussing laser applications, telecommunication, navigation-guidance, energy conversion, test facilities and environmental studies 24 p3816 A71-44764
- Federal German Republic heat transfer research programs at universities, institutes, chemical industries and in nuclear process engineering 24 p3890 A71-45149
- RESEARCH FACILITIES**
- German book on Goettingen Aerodynamic Research Institute /1945-1969/ 01 p0068 A71-11406
- Industrial bioscience research laboratory information flow, product ideas, procedural innovations and scientific/technical literature reading 08 p1378 A71-20775
- Combustion research laboratory at Purdue University consisting of buildings, housing test cells, data acquisition system, propellant storage and instrument service area 09 p1427 A71-22727
- Noise research facility for fan and multistage compressor sound radiation, discussing anechoic chamber, power drive, test control, recording and real time analysis system 16 p2553 A71-33418
- European space research center, discussing satellite scientific and engineering data transmission and processing 16 p2553 A71-33422
- U.S. space program report to COSPAR covering organization, facilities, international activities, astronomy, lunar and planetary research, particles, fields, atmospheric, earth and life sciences 16 p2665 A71-33855
- Canadian report to COSPAR on space program and facilities covering scientific satellites, sounding rockets, etc 16 p2667 A71-33868
- Naval Air Rework Facility, discussing primary mission, technical disciplines and operational performance feedback [AIAA PAPER 71-765] 16 p2523 A71-34003

- Man-telescope-robot teams for space exploration facilities construction and operation, discussing lunar programs [AIAA PAPER 71-823] 17 p2723 A71-34722
- French monograph on medium term planning process for large basic research laboratory based on information system of functional activities presentations 19 p3174 A71-38548

RESEARCH MANAGEMENT

- Multinational corporate R and D laboratories, discussing problems with regard to language barriers, cultural differences and coordination 07 p1225 A71-19449
- Information and technology transfer in multinational corporate R and D, discussing mechanisms of communication, use of common technical language and impediments due to attitude differences 07 p1225 A71-19450
- Parallel strategies effectiveness in R and D projects, discussing learning rate as critical parameter in project management decision making process 19 p3173 A71-37629

RESEARCH PROJECTS

- Space research benefits from applications technology satellites and materials utilization, reviewing satellite communication networks, meteorology geodesy, navigation, geology and agriculture 03 p0524 A71-14245
- OART research projects covering space shuttle, vehicle configuration, heat transfer, thermal protection, lifting bodies, electronics, power studies, etc 04 p0661 A71-14931
- NACA/NASA rotary wing aircraft research, considering rotor loads and configurations, ground resonance, blade flutter and flapping, motion equations and VTOL 04 p0529 A71-15171
- NASA bilateral and multilateral international cooperation agreements in space research, discussing political objectives, program history, regulations and procedures 06 p1010 A71-17646
- Beam foil spectroscopy using van de Graaff accelerator, considering applications to atomic physics research and teaching 08 p1272 A71-21667
- Byurakan Astrophysical Observatory instrumentation and research program 09 p1429 A71-23352
- Organization and funding criterion of unsuccessful R and D projects, considering project abandonment or failure 14 p2340 A71-29854
- NASA Lewis Research Center Hg electron bombardment ion thrusters research programs 14 p2288 A71-29931
- Soviet research program relative to climatology, physical nature, morphology and dynamics of mesospheric clouds, discussing observational and experimental methods 14 p2233 A71-29968
- ONR human engineering research program concerning information input, display and processing concepts, decision making and motor output and control 16 p2536 A71-33529
- Rumanian space research, reviewing participation in socialist nations programs in physics, meteorology, communications and biology 16 p2665 A71-33854
- UK space research programs, discussing ground based, satellite and rocket-borne experiments 16 p2666 A71-33859
- Japanese space research report to COSPAR, discussing meteorology, atmospheric electricity, ionosphere, magnetosphere, galactic radiation, life sciences and planetology 16 p2666 A71-33860
- Italian report to COSPAR on 1970 space research, discussing 1971-72 programs for cosmic radiation, space plasma, meteorology, communications and international cooperation 16 p2666 A71-33862
- Indian report to COSPAR on space activities, discussing organization, facilities, experiments, applications, international collaboration and future plans 16 p2666 A71-33863
- Brazilian space research planning effort and activities covering rocket and satellite meteorology, satellite tracking, balloon experiments and ground based geophysical observations 16 p2667 A71-33869
- Space research system telecommunications, considering telemetry, tracking and telecommand systems 17 p2696 A71-34229
- General purpose manned space laboratory concept for multidisciplinary long term shuttle supported research investigations [AIAA PAPER 71-814] 17 p2812 A71-34727
- Long range near-earth orbit research and applications based on NASA goals, including laboratory/observatory definition [AIAA PAPER 71-812] 17 p2802 A71-34729

- Payload cost and response time reductions for shuttleborne space experiments, examining NASA Ames airborne research program management technique [AIAA PAPER 71-808] 17 p2813 A71-34731
- Shell structure computer analysis capability assessment covering U.S. industrial concerns, government agencies and universities research activities 22 p3516 A71-41864
- Physics and astrophysics problem areas justifying intensified research, discussing superconductivity, relativity, neutron stars, gravitational waves, etc 22 p3576 A71-42620
- Organization problems of research laboratory for space astronomy experiments, delineating roles of chief scientist, project manager and technical services 23 p3785 A71-43456

RESEARCH VEHICLES

- Sandwich metal construction with welded Norsial corrugated core for light weight and strength, discussing fabrication and application to hypersonic research vehicles 04 p0603 A71-15207

RESERVOIRS

- Thermionic converter integrated Cs reservoir module power efficiency and service life, considering diode technology 02 p0196 A71-12270
- Liquid Cs graphite integral reservoir effect on thermionic converter performance 02 p0196 A71-12271

RESIDUAL GAS

- ESRO 1 satellites space simulation chamber tests for residual gas effects, measuring spacecraft outgassing rate 09 p1533 A71-23732
- Computer program for interpretation of residual gas analyzer mass spectra, considering vacuum environmental testing of spacecraft 11 p1730 A71-26505
- Local shielding chambers for welding circumferential and longitudinal seams in Ti alloys with minimum residual oxygen concentrations 14 p2253 A71-30489
- Graphite properties in high and ultrahigh vacuum, suggesting use as electrode material in vacuum gages and residual gas analyzers 21 p3405 A71-40221
- Ultrahigh vacuum by condensate pump, defining vacuum level by mass spectrometric determination of residual gas content 23 p3661 A71-43271
- Langmuir electron oscillation excitation by ion beam at velocity exceeding average electron thermal velocity in plasma formed by residual gas ionization 24 p3858 A71-45234

RESIDUAL STRESS

- High compressive residual stress and high hardness for long life fatigue strength in nonrotating bending of notched machine parts 01 p0167 A71-10171
- Notched steel bars fatigue strength improvement via compressive self stresses /residual stresses/ 01 p0167 A71-10172
- Boundary value problem of elasticity theory for reinforced plastics with internal stresses due to shrinkage 01 p0107 A71-10495
- Diffusion bonding cycles for Al-B composite materials fabrication, relating strength enhancement to residual stress relief 01 p0104 A71-11284
- Simple variable loading and unloading in theory of small elastoplastic deformation under nonuniform heating for residual stress-strain determination 02 p0323 A71-11739
- Turbine disks cyclic nonisothermal deformation with allowance for Bauschinger effect, determining stress-strain state and residual microstresses 02 p0323 A71-11747
- German monograph on arbitrarily distributed internal stresses effect on elastic stability of plates, considering variational problem solution as matrix eigenvalue problem 02 p0327 A71-12375
- Superficial residual stresses measurement in plastic region by Hertzian hardness method, considering indentation by ball and proportionality to load variations 02 p0328 A71-12535
- Logarithmic damping of flexural oscillations produced by residual fretting stresses in circular plates 03 p0503 A71-13415
- Orthotropic photoelastic analysis of residual stresses in filament-wound composite ring structures, comparing with boring-out and cut-through methods 03 p0508 A71-13773
- Metal and glass composites with similar residual stress states under axial loading, examining yielding and fracture behavior 03 p0443 A71-14186
- Photoelasticity application for stress-strain state determination around bores made by electron beam, using epoxy models for internal stress distribution 03 p0429 A71-14272

Welded joints triaxial residual stress measurement by scanner 03 p0433 A71-14587

Two-member composite cylinders, predicting residual stress and axial loading behavior by elastoplastic analysis for comparison with experiment 04 p0666 A71-14893

Residual and mean stresses effects on fatigue strength of specimens with longitudinal nonload-carrying fillet welds 04 p0613 A71-15763

Inhomogeneously reinforced composite structures strengthening by internal stress matching 05 p0771 A71-16365

Embedded electrical resistance strain gages for three dimensional stress measurement, describing modifications for internal stresses reduction 05 p0830 A71-17242

Construction materials characteristic properties significance for design and structural reliability, discussing weldable Al alloys fatigue strength, internal stresses, inhomogeneity and corrosion behavior 06 p0981 A71-17341

Drag free spacecraft performance in deep space, examining inner residual disturbance forces for motion control systems [ONERA-TP-887] 06 p0900 A71-18022

Residual stress measurement in Hastelloy N gas tungsten arc welds by Sachs boring-out method, permitting stress distribution determination over short distance increments 06 p0912 A71-18043

Electron beam drilled workpieces, investigating residual stresses origin and character with photoelastic measurement 06 p0905 A71-18092

Elastic medium residual microstresses probability distribution, noting microdistortion tensor linear and transverse components and tangential and normal stresses relation 06 p1002 A71-18417

Residual stress effects on Al alloys stress corrosion crack growth rates as function of plane strain stress intensity, discussing residual stress elimination methods 07 p1137 A71-19974

Tubular compression members, examining residual stress profile effects on strength reduction 08 p1370 A71-21411

Loop patterns of secondary defect structures in quenched Al based alloys interpreted in terms of internal stress and stacking fault energy 08 p1310 A71-21531

Soviet papers on physics of metals and metallography covering residual stresses, energy dissipation after plastic deformation, heat treatment, etc 08 p1317 A71-21759

X ray analysis of oxide film structure, oxygen concentration and residual stresses at surface of oxidized Ti and Ti alloy 08 p1317 A71-21760

Plastic strains, thermal residual stresses and buckling of rectangular cross section plates and beams subjected to asymmetric heating and cooling 08 p1375 A71-22056

Heat resistant alloys low cycle fatigue tests at 20-800 C, establishing residual strain change patterns as function of stress and temperature 09 p1468 A71-22600

Numerical analysis of winding and heat treatment effects on residual stress distribution in cylindrical glass fiber reinforced plastic products 09 p1482 A71-22816

Residual stresses in ring shaped specimens of wound glass fiber plastic products, using radial cutting technique 09 p1482 A71-22822

Jetting collision effect on structural changes at interface between Ti and steel in explosive bonding, considering plastic deformation and residual stresses 10 p1629 A71-25030

Longitudinal and transverse residual stresses arising in lamination fabrication process of cross-ply fiber composites 11 p1786 A71-25421

Al and Al-Mg alloys average interdislocation internal stress measurement during steady state creep 12 p1916 A71-26895

Nondestructive magnetic method for measuring longitudinal residual stress in outer portions of ferromagnetic cylindrical bars 12 p1974 A71-26948

Residual stress at plate crack determined from elastic stress intensity factor measurements [ASME PAPER 71-MET-A] 12 p1977 A71-27311

Rigid plastic media dynamic model, showing yielding time delay effect on residual deflection as function of load duration 12 p1982 A71-27515

Residual stresses rapid X ray diffraction measurement, noting faster operation in go-no-go mode for nondestructive testing 12 p1912 A71-27533

Heat resistant alloys strengthened elements, studying high temperatures prolonged exposure effects on

surface layers strengthening and residual stresses relaxation 12 p1919 A71-27780

Strain gage method for residual stress determination in thin walled brass cylindrical shells produced by deep drawing 13 p2066 A71-28034

Helicopter component surface finish smoothness and residual stress requirements, using abrasive grinding belt machines with gear link mechanisms 13 p2075 A71-28943

Unidirectional fiber composites impact resistance, showing matrix modulus, fabrication process, fiber and void volume ratios and microresidual stress effects 14 p2264 A71-29920

Large circular plate residual stresses due to local spot heating and cooling, investigating effects of yield strain, heat input rate and peak temperature 14 p2329 A71-30462

Thin sheet Nb-Zr alloy welds, detailing residual stresses in butt joints 15 p2413 A71-31204

Finned solid cylinders surface layers, determining residual axial stresses distribution and amount with induction sensor 15 p2503 A71-31480

Residual stresses for fused contacts between metals and Si or gallium arsenide from polarization measurements in principal crystallographic planes 15 p2461 A71-31510

Hardened low alloy steel ultrasonic attenuation under magnetic field due to thermally introduced residual stresses 15 p2414 A71-31641

Elastic-plastic mechanics of steady crack growth under antiplane shear, discussing residual stress effect, plastic zones shape and strain distribution 15 p2428 A71-31974

Plastically deformed Ni powder specimens residual microstresses as function of applied hydrostatic pressure, using X ray diffraction measurements 15 p2429 A71-31996

Thermally induced residual stresses effect on yield behavior of unidirectionally solidified eutectic composites 15 p2432 A71-32171

Residual stress determination from stress intensity factor measurements, describing application to electron beam welded aluminum plate 15 p2508 A71-32259

Stress relaxation method using compliance measurement of bolted test assembly to determine initial and residual loads after exposure periods 15 p2436 A71-32507

Heat treatment effectiveness in reducing residual stress from stress relaxation data analysis 15 p2436 A71-32506

Stress relaxation as source of dimensional instability in precision devices, discussing thermal cycling role in residual stress relief 15 p2436 A71-32507

Optimum heat treatment for welds, investigating residual stress relief with higher harmonics method 15 p2417 A71-32664

Alternative approach to fracture mechanics, discussing thickness dependence of residual strength, crack initiation and crack propagation stability 15 p2510 A71-32725

Structural elements residual, principal and total stress determination, using photoelastic coating method 16 p2651 A71-33061

Stress-microstrain relationship for metal crystals prestrained in easy glide, obtaining mobile inelastic dislocation density and internal stress 16 p2654 A71-33102

Neuber elastoplastic analysis of residual notch stresses for improved cumulative damage predictions applied to aluminum alloy under overload [AIAA PAPER 71-776] 16 p2659 A71-34012

Circumferential notch effect on distribution of compressive self stresses produced by shallow skin layer expansion in round steel bars, using finite element method [SESA PAPER 1831] 17 p2819 A71-34529

Residual stress measurement in thin contoured Ti alloy sheets by X ray diffraction, using stress camera in normal incident beam mode 17 p2757 A71-34537

Logarithmic damping of bending oscillations produced by residual fretting stresses in circular plates 17 p2826 A71-35022

Stress annealing effects on Al 27 NMR lineshapes in pure Al powders filed and stored at room temperature, considering residual stress 17 p2759 A71-35225

Diffusion controlled order-disorder transformations kinetics, considering internal strain and gradient energy 21 p3397 A71-40431

Macroscopic residual stress and strain measurement and crack tip substructure, discussing crystal plastic deformation effect on fatigue crack propagation 21 p3466 A71-40831

Elastoplastic thermal stress analysis in axisymmetric bodies by finite element method, calculating residual stresses 21 p3466 A71-40841

Residual stress magnitude and distribution in metal strips rolled with ultrasonic vibrations 21 p3389 A71-41093

High temperatures prolonged exposure effects on surface layers hardening and residual stresses relaxation in heat resistant alloys 21 p3403 A71-41105

Open simply supported cylindrical shell internal stresses due to initial deformation based on thin elastic shell linear theory 22 p3613 A71-41563

Optically active material photoelastic properties utilization for residual stress distribution determination in machine elements after lathe working 22 p3617 A71-42575

Al-Zn solid solution mean effective and internal stresses and activation area during high temperature creep 23 p3691 A71-43900

Residual stress in closed spherical shell welded along equator, using stress-strain relations 23 p3778 A71-44035

Residual resistance measurements for studying recovery of high purity potassium wires deformed at/below 4.2 K, discussing anomalous difference with sodium 24 p3861 A71-45195

RESIDUES

Combustion residues particle size and distribution during rocket plume impingement on Al surface 01 p0183 A71-11594

RESIN BONDING

Axial compression of thin circular epoxy resin disks with three dimensional stress state produced by cementing to rigid platens, using triaxial analysis 01 p0109 A71-11008

Adhesive resin metal bond stability, examining surface finish and atmospheric moisture effects at various temperatures on exfoliation 06 p0904 A71-17944

Microencapsulation of bonded reactive resins in packaging, logistics and adhesive applications at room and elevated temperatures 10 p1634 A71-24120

Epoxy bond strength, cracking and failure of lapped joints as function of composition and mechanical properties 10 p1618 A71-24826

Stress distribution in plates and tubes bonded by stepped joints, assuming generalized plane stress 17 p2824 A71-34814

High modulus carbon fiber wettability by matrix resin [PLASTICS INST. PAPER 21] 08 p1322 A71-20928

Performance-price relations of carbon, boron and glass fiber reinforced resin matrix composites in commercial and aerospace use 10 p1634 A71-24418

Resin systems for ablative composites, correlating hyperthermal performance characteristics via thermogravimetric, mechanical flexural and ablation tests 11 p1789 A71-26039

Multidirectional reinforced resin matrix composites inspection and nondestructive analysis by film/neutron radiography and X ray Vidicon 14 p2263 A71-29659

Elastic static and dynamic physicochemical characteristics of resin type amorphous materials under pulsed loads, using electromagnetic excitation of torsional vibrations 16 p2659 A71-33996

Glass-fiber/glass-bead/resin beam stiffness and strength improvement with sandwiching between layers of unidirectional carbon fiber composite 21 p3405 A71-40597

RESISTANCE COEFFICIENTS

U COEFFICIENTS

RESISTANCE HEATING

Resistively heated W-Re wire sublimation characteristics between 1550-1950 C in low pressure oxygen 02 p0264 A71-12255

Solar cell module joints welding technology development under ESRO sponsorship, emphasizing resistance welding and process optimization
05 p0704 A71-16095

Heating rate effect on parameters of resistance wire strain gages subjected to temperature gradients
09 p1443 A71-22634

Electric current heated thin resistance film thermoelectric transducer, measuring temperature rise with thermocouple
12 p1888 A71-27158

Ohmically heated collision plasma confinement in Uranan racetrack stellarator with large shear, describing magnetic field topography effects and plasma lifetime
17 p2785 A71-34196

Resistance NOR Ti BOND joining of Ti shapes, forming Ti-Cu eutectic at Cu plated Ti joint interface
21 p3387 A71-40620

Aluminum nitride crystals production by sublimation in resistance furnace with graphite heater
22 p3585 A71-41701

Transverse current conduction through MHD generator seeded hot plasma flow, showing Joule heating dominance in cathode boundary layer due to thermal instability
22 p3584 A71-42596

Joule heating effect on static negative differential resistance and switching of chalcogenide thin films
24 p3862 A71-45353

RESISTANCE THERMOMETERS

Rugged stable differential Pt resistance thermometer for Lunar Heat Flow Program, discussing construction, calibration and environmental test
03 p0427 A71-13917

Remote determination of temperature by operating and etalon thermistors resistances measurement with DC bridge
04 p0591 A71-14855

Resistance thermometer for temperature measurement in turbulent boundary layer near wall, giving expression for correction factor
07 p1106 A71-18786

Resistance thermometer using amorphous Pd-Si-Cr alloy for enhancing sensitivity at cryogenic temperatures
09 p1444 A71-22714

Resistance thermometry measurements near wall in turbulent flow, considering error causes
10 p1591 A71-23847

Substrate materials thermal characteristics determination for thin films resistance thermometers calibration, using pulse heating technique
12 p1908 A71-27593

Gas-solid interaction by shock tube method, determining thickness and thermal accommodation effects on thin metal film resistance thermometer response
16 p2576 A71-32922

Platinum resistance thermometers calibration normalized in resistance-difference ratios
18 p2916 A71-36047

Fluid phase discrimination temperature measurement system, using thin carbon film resistance thermometer with electrical power pulse sensing for liquid/gas phase discrimination
20 p3237 A71-39278

Resistance wire temperature sensor spatial resolution calculation, considering sensor length and isotropic turbulence effects on temperature spectrum and dissipation
22 p3542 A71-41904

Display system for scanning medium thermometer covering temperature range 28.0-37.4 C with 0.2 C accuracy, using liquid nitrogen cooled indium antimonide photoresistive detector
22 p3545 A71-42149

RESISTIVITY

U ELECTRICAL RESISTIVITY

RESISTOJET ENGINES

Spacecraft high performance resistojet engines, discussing design criteria for high temperature long term operation with minimum thermal losses
06 p0948 A71-18633

Resistojet design criteria for performance modeling of ammonia propellant thrusters and manned space stations using biowaste propellants
07 p1183 A71-18898

Concentric tube resistojet tested on hydrogen and ammonia propellants for use with biowaste propellants
09 p1387 A71-22908

Long term life test and vacuum tests of high temperature resistojets, using ammonia and hydrogen propellants
11 p1811 A71-25523

Biowaste resistojet propulsion system for NASA space station orbit-keeping, describing design and operation
14 p2293 A71-30748

High performance superheated subliming solid ammonium carbamate thruster using resistojet technology for specific impulse increase
15 p2469 A71-32048

Biowaste resistojet engine design and performance for various propellants and propellant mixtures
15 p2470 A71-32293

Resistojet power and specific impulse performance, investigating biowaste derived propellant chemical nonequilibrium effects
17 p2696 A71-35534

RESISTOJETS

U RESISTOJET ENGINES

RESISTORS

NT POTENTIOMETERS (RESISTORS)

NT PRINTED RESISTORS

NT THERMISTORS

FET as voltage controlled linear resistors, discussing use in attenuators, automatic gain control, volume compressors and RC networks frequency control elements
02 p0229 A71-11814

Carbon and metal film resistors stability, presenting service life characteristics prediction method for arbitrary electric loads and time
05 p0728 A71-16774

Resistor characteristics temperature dependence, considering platinum resistor and thermistor with negative temperature coefficient
06 p0900 A71-18186

Metal film resistors rapid evaluation method including thermal, load and shock tests devised by British electronic component manufacturers
07 p1076 A71-19553

Automatic test equipment for sorting large quantity resistors based on nonlinearity measurement
07 p1076 A71-19554

Planar-epitaxial IC resistors p-n junction parasitic effects on cut-off frequency, obtaining design formulas for capacitance and geometry
08 p1264 A71-21074

Defective resistors physical processes during thermal control method, appraising quality from surface temperature distribution
08 p1300 A71-21901

N-type single crystal silicon semiconductor resistors with high impurity concentrations and high accuracy
09 p1414 A71-22160

Hybrid integral microcircuits with thin film resistor heat sources, determining temperature fields on substrate and boundaries
09 p1416 A71-22495

Carbon dioxide production laser for automatic resistors trimming without current carrying capability reduction, noting accuracy, flexibility and speed
09 p1465 A71-23405

Noise temperature in microwave frequency mixers using nonlinear resistors, giving rectifier and diode loss formulas for rectangular and sinusoidal waves
19 p3027 A71-37494

Hybrid circuit methods for aligning resistors manufactured by different technologies, considering mechanical methods, electric erosion, electron and laser beam alignment, etc
20 p3208 A71-39434

Termination and interface aging resistance of thin film resistors under corrosion, noting Ti-Pd-Au materials
23 p3651 A71-43427

Thin film silicide resistors in monolithic IC for high sheet resistance or radiation hardness using sputtering deposition without protective overlayer
23 p3655 A71-43428

RESOLUTION

NT ANGULAR RESOLUTION

NT HIGH RESOLUTION

NT RADAR RESOLUTION

Linear continuous receiver and control systems resolution and statistical epsilon inventory
01 p0062 A71-10716

Microwave holography with artificial reference wave and receiver multiplier, improving linear resolution in image
02 p0248 A71-11876

Coherent optical data processing systems resolution testing, using multifrequency linear diffraction gratings
03 p0425 A71-13644

Microwave ultrasonic beam visualization techniques via Bragg diffraction of laser beam, investigating resolution capability
03 p0436 A71-13717

Two point resolution in Fourier holography with partially coherent recording and illuminating light
03 p0429 A71-14180

Pulkovo radio telescope resolution improvement by range extension into millimeter wavelength region
07 p1109 A71-19341

Astronomical telescope resolving power in focal plane emphasizing atmospheric turbulence
07 p1109 A71-19347

Statistical analysis of fiber optics imagery, considering resolution difference between static and dynamically scanned bundles
08 p1334 A71-21180

Aerial photography vs orbital acquired imagery resolution for land use data
09 p1439 A71-23212

Modulation-amplitude selective twofold increase of interferential spectrometer resolving power by asymmetric setup
10 p1613 A71-25020

Photographic materials in holography, examining resolving power dependence on size and angle between reference and signal light beams
12 p1903 A71-26756

Hologram size and film type limitations effects on resolution of reconstructed image in edge-line holography
14 p2241 A71-30131

Optical wave reconstruction from microwave holograms and application to interferometry, considering resolving power and visible images of microwave transparencies
15 p2405 A71-31281

Quadrupole mass spectrometer ultimate characteristics concerning resolution, range, recording speed, working pressure and sensitivity
17 p2737 A71-34288

Image amplifier camera resolution as function of light level based on photon statistics and cathode quantum efficiency
17 p2746 A71-35762

Photosystem resolution of coherent laser illuminated objects, discussing experimental investigation of image quality dependence on relative aperture
19 p3073 A71-38194

Hologram recording materials within and outside visible spectrum, considering sensitivity, reconstruction efficiency, resolution limitations, nonlinear and noise effects
21 p3380 A71-40920

Backward propagation method for ultrasonic image reconstruction, examining resolution in near field for high contrast objects
22 p3541 A71-41784

Resistance wire temperature sensor spatial resolution calculation, considering sensor length and isotropic turbulence effects on temperature spectrum and dissipation
22 p3542 A71-41904

Image detail reproduction quality and resolution, describing signal to noise and modulation transfer function effects
22 p3547 A71-42505

Holography capabilities of hypervelocity projectiles with front surface resolution, discussing fringes intensity and position from projectile spin
22 p3549 A71-42569

RESOLUTION CELL

Echoing area relation to radar range resolution cell size and aircraft dimensions, using mathematical model
02 p0210 A71-11643

Satellite topside sounders oblique echoes, investigating upper hybrid resonance with WKB technique
03 p0420 A71-14531

Neutron spectra measurement in epithermal energy range by activation of threshold and resonance foils, using expansion in orthonormal polynomials
04 p0594 A71-14915

Resonance in planar elliptic restricted three body problem, noting primaries eccentricity and long term effects
04 p0653 A71-15710

Stability and resonances in restricted three body problem, using method of surface-of-section
04 p0656 A71-15732

Deep resonance problem of conservative periodic Hamiltonian reduction to ideal form in celestial mechanics
04 p0657 A71-15736

Parametric resonance and first order instability region of Mathieu equation in nonlinear systems
04 p0620 A71-15737

Spinning symmetric satellite roll-yaw resonant attitude instabilities in circular orbit
06 p0980 A71-18544

Resonances stability and development in restricted three body problem with two degrees of freedom
07 p1202 A71-20514

Double resonance in natural satellite motion from long period perturbation prediction
07 p1202 A71-20517

Resonance line formation in multidimensional media, applying to non-LTE line transfer for two dimensional temperature variations 08 p1359 A71-20942

Finned configurations with nonlinear aerodynamic properties, obtaining solutions for angular motion at and near resonance [AIAA PAPER 70-535] 09 p1532 A71-22909

Ceres and Pallas orbital commensurability, considering resonance effects 09 p1527 A71-23537

Linear differential equations stability analysis by implicit equations applied to resonance phenomena, using Weierstrass theorem 10 p1640 A71-23803

Long time planetary atmosphere motions, investigating sideband resonance mechanism in Rossby wave packet interactions with weak shear zonal flow 12 p1925 A71-27195

Normally incident electromagnetic wave propagation in inhomogeneous gyration medium, obtaining reflection and transmission coefficients and discussing resonance 13 p2108 A71-29088

Superharmonic resonance in piecewise linear systems with unsymmetrical characteristics, investigating stability properties by Fourier series method 17 p2781 A71-34926

Hamiltonian systems equilibrium position stability conditions in presence of resonances, assuming neutrality in linear approximation 19 p3103 A71-37096

Variational methods application to high order dynamic systems resonance boundary value problem 20 p3309 A71-39487

Spiral wave dispersion, wave number and amplitude relationship in Galaxy near inner Lindblad resonance, noting correlation with ionized hydrogen density 21 p3451 A71-40855

Gas bearing ground clearance effects on pivoted pad resonance, pitching vibration mode, static journal displacement and friction 22 p3551 A71-41661

Absorption spectra of benzene, naphthalene and anthracene crystals, noting resonance coupling type effect on vibrational spectrum 24 p3851 A71-45171

Resonance charge exchange effect on gaseous ions mobility, noting cross sections structure due to resonance and wave interference 04 p0629 A71-14998

Ion-molecule collision charge transfer and momentum transfer relaxation rates, using ion cyclotron resonance heterodyning method 07 p1054 A71-19371

Multiphoton ionization cross section and charge number in neon near resonance under focused laser beam 13 p2081 A71-29338

Resonant charge transfer cross sections in inert rarefied gases from atomic screening parameters, considering positive gas conductivity of ionized dense gases 15 p2452 A71-31825

RESONANCE PROBES

Ionospheric low hybrid resonance measurements by rocket-borne quadrupole probe, deriving electron density and effective ion mass along trajectory 20 p3224 A71-39722

RESONANCE SCATTERING

Photodissociation produced O/P3/ atoms detection and reaction rate measurements by resonance fluorescence scattering 01 p0130 A71-10369

Self focusing in media with resonance absorption, determining stimulated Raman scattering threshold in bleachable absorbers as function of absorber concentration 07 p1161 A71-20381

Resonance line radiation polarization of potassium and cesium isotopes excited by electron impact 09 p1496 A71-22187

Superconducting alloys order parameter spatial variation and resonance scattering near nonmagnetic impurity at critical temperature, using Heinrich perturbation theory expansion solutions 12 p1942 A71-26744

Jupiter upper atmosphere extreme UV dayglow, involving resonant scattering and fluorescence of incident solar flux 12 p1961 A71-26888

Inhomogeneous planetary atmosphere resonantly scattered sunlight, calculating intensities with frequency redistribution functions 13 p2100 A71-28346

Electron lifetime in earth radiation belt due to resonant scattering with hiss VLF radiation 16 p2626 A71-33674

OH emission column density upper limit from rocket-borne UV spectrometer measurement of resonantly scattered sunlight intensity in electronic transition vibrational band 16 p2574 A71-33967

Energetic electrons pitch angle scattering during magnetic storms due to resonant interaction with proton generated Doppler shifted ion cyclotron waves 16 p2574 A71-33972

Excitation cross sections for resonance states by electron impact on atomic nitrogen and oxygen over aeronomical energy range 18 p2949 A71-36350

Airglow optical emission processes covering resonance scattering, fluorescence, chemical association, ionic reactions and excitation transfer 20 p3226 A71-39827

Scattering atom recoil effect in resonance line transfer with Doppler redistribution, discussing neglect from microscopic point of view 21 p3447 A71-40429

Atomic level interference and hyperfine splitting effects on angular and polarization distributions of resonantly scattered light in magnetic field 21 p3420 A71-41120

Photoelectron impact vs dissociative excitation cross sections of atomic oxygen resonance radiation in terrestrial airglow 23 p3669 A71-43171

Resonance scattering laser radar for atmospheric pollution detection, discussing Rayleigh and Mie scattered light suppression 24 p3803 A71-44570

RESONANCE TESTING

Elastic parameter dynamic measurements using resonance methods with electrostatic attraction 02 p0328 A71-12406

Fatigue limit of titanium alloy machine parts after finishing mechanical treatment under resonance testing 07 p1142 A71-20484

Oscillations generating mechanism in resonance tube fed by subsonic gas jet, determining oscillations amplitude and frequency at resonance 09 p1382 A71-22406

Single jet oscillations excitation of two resonant tubes, observing air motion with wool threads and stroboscopic lighting 10 p1591 A71-23823

Structural steady state vibration frequency response and resonance testing, investigating nonlinearity effects of large deflections 14 p2326 A71-30065

Nonstationary resonance analysis of forced flexural elastoplastic vibrations of beam of hardening/softening material under cyclic strain 18 p2981 A71-36709

French monograph on free and forced convection and external radiation from hot gas oscillating in resonance tube, considering heat balance and mass exchange 19 p3172 A71-38649

RESONANT CAVITIES

U CAVITY RESONATORS

RESONANT FREQUENCIES

Natural frequencies of cantilever turbine blade with asymmetric aerofoil under coupled bending-torsion vibrations, using Ritz-Galerkin method for equations of motion 01 p0143 A71-11014

Subsidiary resonance response time decay behavior in ionosphere, showing occurrence of principal resonances at higher orders 01 p0077 A71-11523

Fabry-Perot laser cavity resonant modes, noting host medium movement effects on diffraction loss and light beam intensity distribution 02 p0260 A71-12147

Partially ionized bounded plasma LF natural oscillations due to ionization processes, ambipolar diffusion and charged particles recombination at walls 02 p0292 A71-12619

Liquid sloshing frequencies in partially filled arbitrarily shaped vertical container 03 p0398 A71-13113

Turbomachine blades torsional-bending vibrations aerodynamic damping, noting natural frequency shift 03 p0340 A71-13141

Cantilever beam bending vibration, measuring driving point impedance and natural frequencies at low strain amplitudes for Mg alloy, Mn-Cu and coated Al beams 03 p0502 A71-13299

Clamped circular plates axisymmetric nonlinear resonant frequency response under uniform static pressure 04 p0668 A71-15187

Cantilever beam resonant frequencies measurement using electrodynamic vibration exciter 04 p0672 A71-15823

Arches and rings in-plane natural vibration frequencies determination based on Newmark numerical integration method for beams 05 p0820 A71-15985

Rectangular plate with stiffener cross section for unit with constant mass, considering natural symmetric and antisymmetric mode frequencies 05 p0824 A71-16603

Hafnium droplets burning in ultrapure oxygen at various pressures, considering combustion induced natural mode periodic oscillations [WSS/CI PAPER 70-14] 06 p0942 A71-17654

Material stiffness/weight ratio effects on helicopter blades uncoupled flapwise, chordwise and torsional natural frequencies by rapid estimation 06 p0985 A71-17691

Elastic composite liquid filled shell containers, calculating natural vibration with Ritz method 06 p0992 A71-17809

Dimensional resonances of standing helicon waves in two layer and multilayer semiconductor structures and crystals with growth inhomogeneities 07 p1176 A71-19273

Helicon wave resonance excitation and indication in intermediate magnetic fields in semiconductors 07 p1176 A71-19274

Cylindrical, conical and spherical shells natural frequencies and vibration modes determination using matrix series 07 p1212 A71-19365

Cylindrical shell panels with free supported curved edges and arbitrary boundary conditions, investigating natural frequencies and mode shapes 07 p1213 A71-19886

Thin cylindrical shell of revolution delaminations detection model, using free vibration natural frequency parameter under clamped-clamped conditions 07 p1216 A71-20135

Natural frequency bounds for clamped beam with linearly varying compressive load and constant end load by Rayleigh-Ritz, Bazley-Fox second projection and Kato methods 08 p1368 A71-20806

Box type structure free vibrations investigation by rectangular finite elements, comparing with natural frequencies and normal modes solution 08 p1369 A71-20807

Natural frequencies approximation for vibration modes of stiffened and singly curved panel structures 08 p1369 A71-20810

Electronic equipment for measuring resonant frequency drift during slow wave structure impedance measurements, considering mean square errors 08 p1264 A71-21073

Contained cross sectional deformation effects on turbine blades natural torsional vibration frequencies 08 p1372 A71-21617

Thin metallic disk radar cross sections for near resonance frequencies backscatter, comparing experimental and computer results 09 p1410 A71-23518

Vibrational characteristics of pretwisted cantilever beams with uniform rectangular cross section, investigating slenderness ratio effect on natural frequencies 09 p1543 A71-23661

Hinged sandwich beams loaded by concentrated masses, calculating natural vibration frequencies with and without allowance for rotatory mass inertia 10 p1690 A71-24571

Polygonal elastic plates natural frequencies investigation by conformal mapping and variational method, transforming holomorphic function into equivalent problem of circular boundary plate 10 p1691 A71-24813

Heterogeneous orthotropic cylindrical shells, calculating free natural vibration frequency spectra from refined equations of motion in Love and Donnell type theories 11 p1841 A71-25184

Elastic boundary conditions effect on natural frequencies and resonant displacement of thin isotropic circular cylindrical shell under concentrated load with harmonic time history 11 p1843 A71-25314

Rotating low aspect ratio turbomachinery blades natural frequencies and mode shapes, using finite element method for equilibrium equations eigenvalue problem [AIAA PAPER 71-374] 11 p1845 A71-25347

Computerized sloshing frequencies of tilting two dimensional tank of flat free surfaces with respect to effective gravity 11 p1752 A71-26198

Spherical shallow shell with hole, noting natural vibration frequency 12 p1975 A71-27108

Natural frequencies and elastic stability of simply supported rectangular plate under linearly varying compressive loads 12 p1976 A71-27162

Natural frequencies of finite circular cylinders in axially symmetric longitudinal vibration, using Rayleigh-Ritz method to derive differential equations for expansion functions coefficients 12 p1981 A71-27482

Frequencies and modes of natural vibrations of closed cylindrical shell with elastic filler 12 p1981 A71-27508

Vibration natural frequencies and mode shapes of cantilever plate mounted on rotating disk periphery, using finite element technique 13 p2147 A71-27788

Cylindrical microwave cavity partially containing cold nonuniform plasma enclosed by quartz tube, calculating resonant frequency by exact, multistrata and series methods

13 p2029 A71-28500

Adaptive automatic control systems, determining damping coefficient and natural oscillation frequencies with second order differential equations

13 p2041 A71-28639

Rotating ring resonator partially filled with dynamic isotropic medium, determining resonance properties

13 p2080 A71-29025

Transfer function optimization for linear tracking filter model with controlled resonant frequency, analyzing noise band performance

14 p2194 A71-30089

Extensional vibrations of thin cylindrical shell, discussing longitudinal and radial motions coupling and resonant frequency dependence on length/radius ratio

14 p2327 A71-30209

Spectral theory of linear differential operators for microwave oscillatory systems synthesis from inhomogeneous line segments, determining line characteristic impedances and local reflection function

15 p2369 A71-31233

Coupled natural frequencies in rectangular cross section pretwisted cantilever beams flexural vibrations

15 p2503 A71-31442

Rectangular plates with unidirectional stiffeners, calculating natural frequencies and mode shapes with approximate method

15 p2507 A71-32128

Arbitrary gravitational field effects on natural frequencies of rotating ring laser with traveling electromagnetic wave

15 p2421 A71-32408

Finite skin-stringer structures natural frequencies determination, using free flexural wave groups

15 p2510 A71-32518

Forced oscillations of system governed by one dimensional nonlinear wave equations, using perturbation procedure for solutions near linear resonant frequencies

16 p2606 A71-32857

Weakly nonlinear single degree of freedom cubic system under simultaneous time varying force and parametric excitation, presenting resonance frequencies classification

[ASME PAPER 71-APM-24] 16 p2655 A71-33205

Isoperimetric problem upper bounds for fundamental frequencies in free oscillations of incompressible fluid in container

16 p2559 A71-33483

Elastic spherical shell coupled to rigid body, calculating asymmetric free vibration natural frequencies and mode shapes from boundary conditions

17 p2817 A71-34339

Sloshing liquid natural frequencies change in cylindrical shell by movable devices, considering immersed thin elastic plate effect

17 p2726 A71-34579

Finite length thin circular cylindrical shells with clamped or simply supported edges, calculating flexural free vibration natural frequencies

17 p2822 A71-34643

Freely vibrating supported elastic isotropic oval cylindrical shells natural frequencies and mode shapes

17 p2825 A71-34873

Asymptotic methods for distributed system nonlinear time and space vibrations, discussing system dispersion effect on resonance conditions

17 p2780 A71-34914

Pretwisted cantilever airfoil cross section turbine and compressor blades vibration natural frequencies and mode shapes

17 p2828 A71-35282

Partially liquid filled cylindrical shells with elastically supported end rims, deriving algorithm for nonaxisymmetric natural vibration frequency calculations

17 p2833 A71-35614

Cross sectional warpage effects on turbine blades natural torsional vibration frequencies

17 p2834 A71-35677

Automatic classification of targets characterized by radar returns at discrete set of frequencies in Rayleigh region and first resonance range

17 p2747 A71-35773

Beam column with probabilistic material and geometric properties, axial loads and boundary conditions, obtaining free vibration and natural frequency stochastic equations

18 p2979 A71-36358

Fundamental frequency of large amplitude bending vibration of elastic and isotropic rectangular plates, considering effects of transverse shear and rotatory inertia

18 p2980 A71-36496

Parametric resonant circuit with low pumping frequency and transfer function variation according to arbitrary complex periodic law

18 p2896 A71-36623

Dynamic properties of turbine wheels under bending vibrations, classifying resonant frequencies on basis of vibration modes

18 p2981 A71-36722

Cylindrical shells under uniform external pressure loads, determining boundary conditions effects on natural frequencies and vibration mode shapes

19 p3155 A71-37529

Variable thickness and rigidity cylindrical shells, determining natural frequencies and vibration mode shapes with algorithm based on Ritz method

19 p3155 A71-37531

Edge clamped spherical shell natural vibration frequency determination using Vlasov shell theory equations

19 p3155 A71-37532

Linearly deformable beams with distributed parameters and lumped inclusions, determining natural transverse vibration frequencies and mode shapes

19 p3155 A71-37535

Minimum mass design of two dimensional plate-like structure with free vibration fundamental frequency or aeroelastic constraints, using optimal theory for extremum

19 p3158 A71-37877

Shielded enclosure resonance effects reduction on cavity impedance measurement by technique analogous to wave traps for notching out RF signal at selected frequencies

19 p3032 A71-38459

Dipole antenna with parallel parasitic element, investigating resonant length variation as function of spacing with matrix inversion method

19 p3035 A71-38599

Narrow band magnetospheric radio noise between electron plasma and upper hybrid resonance frequencies from satellite observations

20 p3285 A71-38728

Parametric resonance of single degree of freedom system with double bilinear hysteresis

20 p3267 A71-38793

Fundamental frequency of star shaped membrane with boundaries described by polar coordinates in Fourier series form

20 p3308 A71-39039

Free convective heat transfer in cryogenic liquid filled enclosure, studying effects of vibration near resonant frequency

20 p3314 A71-39292

Flat thin films in stripline cavity resonator with TEM mode, expressing bandwidth and resonance as frequency difference

20 p3239 A71-39426

Numerical analysis of natural frequency spectrum of elastic plate free vibrations in compressible inviscid fluid

20 p3310 A71-39784

Algorithm for linearly elastic structures vibration natural undamped frequency computation, assuming known dynamic stiffness matrix

20 p3311 A71-39964

Iterative method for linearly elastic structure undamped vibration natural frequency determination with fast convergence

20 p3311 A71-39965

High resolution spectroscopy of Na D resonance lines in saturated absorption with repetitively pulsed tunable dye laser

21 p3391 A71-40199

Peak resonant response of thin rectangular plate with elastic edge restraint under concentrated load

[ASME PAPER 71-VIBR-6] 21 p3456 A71-40269

Harmonic excitation response of masses on elastic half space, considering Poisson ratio effect, vibration amplitudes and resonant frequencies

[ASME PAPER 71-VIBR-59] 21 p3460 A71-40304

Torsional natural frequencies in coupled turbine and reciprocating engine system driving common propeller, using matrix techniques

[ASME PAPER 71-VIBR-83] 21 p3461 A71-40319

Transversely vibrating hollow cylindrical beam sound radiation and response to acoustic excitation, predicting resonant frequencies

[ASME PAPER 71-VIBR-84] 21 p3461 A71-40320

Five-span skin-stringer width and damping effects on vibrational response including resonant frequencies and mode shapes by transfer matrix analysis

[ASME PAPER 71-VIBR-101] 21 p3461 A71-40327

Free radial vibrations of curved beams by finite element method, using model to investigate variation with subtended angle of six lowest natural frequencies

21 p3462 A71-40529

Curved sandwich beams free flexural vibration by finite element method, noting parameters effects on natural frequencies

21 p3462 A71-40533

Bending resonance frequencies of beams for known external forces

21 p3463 A71-40550

Natural frequencies and vibration mode shapes of missile with idealized air friction force tangent to instantaneous neutral axis

21 p3455 A71-41012

Acoustic damping of clamped and hinged rectangular panel at natural frequency, noting dependence on aspect ratio

21 p3416 A71-41200

Extinguishing parametric vibrations, changing equivalent natural frequency from resonant state by supplementary load

21 p3473 A71-41368

Edge supported cylindrically curved panels flutter, investigating in-plane boundary conditions and geometry effects on natural frequency

22 p3616 A71-42216

Natural frequencies and vibration modes of perforated cylindrical, conical and spherical shells of revolution, using Ritz method

22 p3617 A71-42488

Elastic plates transverse vibrations fundamental frequency from constant deflection lines method

22 p3617 A71-42537

Closed phase lock loop FM demodulator design, determining resonant frequency parameters, attenuation factor and low pass filter elements

23 p3650 A71-43094

Dynamic response of thin walled structures natural frequency analyzed for formulating potential and kinetic energy for stiffness and mass matrices by minimization principle

24 p3878 A71-44555

Acoustic resonance excitation by vortex shedding from flat plate trailing edge in low speed wind tunnel

24 p3848 A71-44557

Flexural vibration of transversely isotropic composite material curved beams, deriving curvature effects on natural frequency

24 p3878 A71-44616

Traveling wave pair interaction with three energy level medium at resonance frequencies, deriving coupled differential equations for amplitude variations

24 p3833 A71-44662

SHF resonator small resonant frequency shift and Q factor changes measurement based on FM signal envelope shape analysis

24 p3858 A71-45237

RESONANT VIBRATION

Nonlinear single-degree of freedom mechanical system vibration under small random perturbations

01 p0127 A71-10548

Resonant excitation of plane dielectric waveguide by plane monochromatic wave

03 p0378 A71-13798

EM oscillations of open elliptic profile cylindrical mirrors resonator with dielectric elliptic cylinder

03 p0386 A71-13800

Power train systems gear induced noise analysis, using in-flight vibration and noise measurements for comparison with calculated noise spectra

[ASME PAPER 70-WA/DGP-1] 03 p0471 A71-14137

Heat transfer in flat plate, considering acoustic resonance vibration effect

04 p0684 A71-15505

Book on vibration measurements covering resonant and self excitation patterns, aerogenics, machine parts, transducers and engineering techniques

05 p0820 A71-16275

Isotropic circular plate natural vibrations for inhomogeneous boundary conditions, using net point method to derive finite difference equations

05 p0821 A71-16353

Thin cylindrical shell in ideal compressible fluid, calculating longitudinal resonance waves for acoustic excitation

06 p0985 A71-17755

Fourier resonance associated with electromagnetic wave diffraction from multilayer gratings

06 p0870 A71-18349

Spacecraft structures vibration testing nonlinear effects, extending asymptotic method for transition through resonance to nonresonant regions

[AIAA PAPER 71-211] 06 p1004 A71-18647

Satellite orbital elements, examining resonance due to earth potential

08 p1366 A71-21778

Oscillations generating mechanism in resonance tube fed by subsonic gas jet, determining oscillations amplitude and frequency at resonance

09 p1382 A71-22406

Sudden step changes in parameters of nonlinear resonance systems having several stable steady state solutions

09 p1543 A71-23612

Single jet oscillations excitation of two resonant tubes, observing air motion with wool threads and stroboscopic lighting

10 p1591 A71-23823

Small amplitude resonant thermal acoustic oscillations of inviscid polytropic gas contained in finite length tube

11 p1798 A71-25446

Natural vibration analysis method for circular cylindrical shell based on three dimensional theory of elasticity and energy principle, discussing boundary conditions effect

11 p1852 A71-26405

Hydromagnetic wave coupled solar wind-plasma sheet effects on resonant oscillations of geomagnetic tail, using two dimensional model

13 p2119 A71-27910

Passage through resonance of linear oscillator with slowly varying frequency, matching inner and outer asymptotic expansions

14 p2274 A71-29861

Particle displacements during resonance motion of shear and compression waves in linearly viscoelastic flat plate of finite thickness

14 p2332 A71-30851

Ionospheric electron resonance observation by sounders aboard rocket and satellites

14 p2202 A71-30947

Mechanical support system role in determination of aeroelastic stability of leeward cylinder immersed in wake using undamped flutter theory

14 p2334 A71-31021

Pressure gain resonant combustion chambers in gas turbines, discussing thermal efficiency and power output

15 p2467 A71-31445

Longitudinal wave absorbers attenuating resonance vibrations in rods and plates

15 p2504 A71-31707

End play influence on dynamic bending vibration stresses induced by aerodynamic forces in axial flow turbine rotor blades in case of resonant vibrations

15 p2508 A71-32298

External off-axis TEM wave transformation into natural oscillation modes in Fabry-Perot resonator under axially disturbance and impinging-excited wave mismatch

15 p2410 A71-32401

Nonlinear interaction between three resonant modified ordinary electromagnetic waves propagating perpendicular to static magnetic field in homogeneous electron plasma, studying relativistic effects

15 p2460 A71-32655

Satellite orbital elements perturbations, examining resonance due to earth geopotential

15 p2495 A71-32683

Imperfect circular cylindrical shell under external hydrostatic pressure loads, determining free and resonant vibration modes

16 p2651 A71-33062

Geomagnetic tail natural oscillations, applying model of plasma cylinder with free boundary immersed in interplanetary medium

16 p2564 A71-33673

Stationary small elastoplastic longitudinal forced vibrations of rods with internal resonance, obtaining asymptotic solution of nonlinear partial differential equations

16 p2659 A71-33980

Multiple mass rheonomic vibrational systems dynamic stability, presenting approximate solution and critical dissipation level for damping parametric resonances

17 p2777 A71-34346

Nonlinear resonance problems analysis by averaging schemes, considering Volosov and Morgunov stability conditions

17 p2781 A71-34929

Friction role in impact shock absorbers for elastic systems out of static equilibrium and resonance excitation in vibrations, noting harmful effects

17 p2834 A71-35679

Additive damping control of acoustic resonance fatigue of aerospace structures under severe environments, considering materials, tuned devices and layered techniques

18 p2979 A71-36494

Power balance and statistical analysis of energy flow and response in lightly damped resonant structures

20 p3268 A71-38960

Gas resonant oscillations in closed end tube, describing time-periodic motion by perturbation method with Mach number as flow parameter

20 p3211 A71-39078

Optimum geometry and vibration damping ability of laminated three layer elastic-viscoelastic-elastic beam at resonance

[ASME PAPER 71-VIBR-102] Rectangular laminated orthotropic plates natural vibrations analysis, using extended Ritz technique

21 p3461 A71-40328

Resonant oscillations effect on heat transfer across mixing length in cavities spanned by low speed turbulent shear layers

21 p3371 A71-41033

Circumferential flow direction nonuniformity effect in front of compressor wheel on intensity spread and resonant rotor blade vibrations

22 p3615 A71-41847

Resonance equation for rotating shaft natural vibration, using Timoshenko beam theory and gyroscopic moments

23 p3776 A71-43377

Dynamics of pipelines with nonstationary fluid flow, deriving equations for dynamic instability regions and for resonant vibration amplitudes

24 p3884 A71-45014

RESONATORS

NT CAVITY RESONATORS

NT MULTIMODE RESONATORS

Open barrel shaped resonators in plasma diagnostics, using waveguide concepts

01 p0133 A71-10683

Quartz crystal HF resonator unit for high g environments, discussing tradeoff between stiff support and stress-induced frequency instability

01 p0054 A71-10913

Resonance tube heat losses, discussing thermal exchange mechanism and wall temperature limits

01 p0180 A71-10993

Frequency division multiplexing of antenna feeder ducts without resonators using bridge circuits

01 p0054 A71-11084

Radiator systems field calculation based on waveguide and resonator excitation method, noting field amplitudes in two and three dimensional arrays

01 p0038 A71-11202

EM oscillations of open elliptic profile cylindrical mirrors resonator with dielectric elliptic cylinder

03 p0386 A71-13800

Resonators sequence delay system with external capacitance link, calculating dispersion characteristic and coupling resistance

03 p0386 A71-13802

Perturbation method in microwave electromagnetic field pattern determination and resonator design

04 p0586 A71-14657

Radio communication system hypersonic delay lines, investigating coupled resonators matching efficiency in parallel and series connection

07 p1074 A71-19142

Open barrel shaped resonators in plasma diagnostics, using waveguide concepts

07 p1170 A71-20145

Fluidic Helmholtz resonator for FM signal analysis, showing instantaneous phase difference between input and output pressures

07 p1026 A71-20568

Twin tube gas heating resonator using bistable air wall attaching supersonic power jet

07 p1028 A71-20582

Single gap klystron output resonator optimization, showing maximum electronic efficiency during bunched beam excitation

09 p1414 A71-22220

Microwave resonator Q factor and coupling and matching characteristics measurement using line probe with AM and FM signals

10 p1584 A71-24724

Ferrite resonator coupled to microwave transmission line, deriving instability effects threshold power level for comparison with measurement

10 p1584 A71-24725

Electric and magnetic surface current coefficients of antenna radiating elements in metallic waveguides and resonators by harmonics expansion applied to circular-cylindrical array

12 p1885 A71-26839

Parameters optimization for increasing tuning range of resonator with contactless piston based on numerical solution of transcendental equation

12 p1889 A71-27623

Laser resonator properties with flat outlying mirrors, examining stimulated radiation generation and energy distribution

12 p1916 A71-27764

Rotating ring resonator partially filled with dynamic isotropic medium, determining resonance properties

13 p2080 A71-29025

Planar Fabry-Perot optical resonator mirror rrs effect on modes and losses

14 p2254 A71-30138

Particle flux, energy storage and beam loading effects on superconducting traveling and standing wave resonators in linear accelerators

16 p2587 A71-33494

Microwave IC bandpass filters, utilizing dielectric resonators for high Q values

16 p2548 A71-33559

Radiator system field calculation based on waveguide and resonator excitation method, noting field amplitudes in two and three dimensional arrays

17 p2697 A71-34254

Frequency selection in He-Ne laser with Ne cell inside resonator effecting nonlinear frequency absorption

17 p2752 A71-34407

Fence guide waveguide on dielectric substrate for millimeter wave, applying to power dividers, directional couplers, hybrid rings and resonators

17 p2713 A71-34444

Vibrational combustion study of powder, using Helmholtz resonators with connected auxiliary combustion chamber

17 p2839 A71-35697

Longitudinal instability of bunch interacting with passive resonator, considering Landau damping influence by linear differential equations of motion solution

19 p3110 A71-37141

Green tensor function for waveguides, resonators and radiating devices with boundaries coinciding with orthogonal cylindrical coordinate systems surfaces

19 p3104 A71-38339

Asymmetrical single ring resonator with electric and magnetic waves, determining intrinsic fields

19 p3019 A71-38340

Contactless piston resonator ensuring one parallel resonance in tuning range, using quadrupole theory

19 p3030 A71-38341

Coupled resonator AT cut quartz crystal bandpass filter design in ladder configuration with low sensitivity and simple manufacturing methods

21 p3360 A71-40810

Hybrid lumped-distributed parameter resonant LC circuit design for nuclear magnetic resonance spectrometer

23 p3661 A71-44343

RESOURCE ALLOCATION

Computerized interactive scheduling system for modeling, optimization and priority requirements for NASA manned space flight network

10 p1581 A71-24297

Experimental computer-aided system evolution to integrate technology plans and evaluate potential resource allocations for mission-oriented technology programs

14 p2339 A71-29853

Mathematical programming models for resource allocation and project selection decision in R and D

14 p2340 A71-29855

RESOURCES

NT EARTH RESOURCES

RESPIRATION

NT HIGH ALTITUDE BREATHING

NT PRESSURE BREATHING

External respiration, gas exchange and energy expenditures during orthostatic tests involving immersion experiment

01 p0014 A71-11136

Russian book on perception of respiratory medium and gas preference in man and animals covering hypoxic or hypercapnic media, inhalation times, gas mixtures, etc

02 p0198 A71-11823

Low compensation point species capacity for carbon dioxide fixation, suggesting reduced photorespiration role

02 p0201 A71-12475

Biocontrol devices for artificial respiration and blood circulation, using information from organism

03 p0367 A71-12991

Chronic hypercapnia oxygen dissociation curves and red cell cation exchange in rats, considering compensated/uncompensated phases of respiratory acidosis

03 p0360 A71-13181

Cellular respiration and high altitude adaptation effect on cytochrome content and on oxidation and oxidative phosphorylation parameters of brain homogenates in rats

15 p2357 A71-31310

Optimal respiration mode based on controlled artificial feedback characteristics, making resistance to inhalation dependent on duration

17 p2680 A71-34644

Human olfactory perception of inspired air composition, noting sensory differentiation improvement with subsequent exposures in space flight training

22 p3505 A71-42800

Indole vapor inhalation and direct injection into mice, rats and rabbits, examining toxic qualities

22 p3506 A71-42812

Respiratory carbon dioxide and oxygen partial pressure effects on intraocular and blood pressure in rabbits under Somnifen narcosis

24 p3793 A71-44368

RESPIRATORY DISEASES

NT ASTHMA

NT PNEUMONIA

NT TUBERCULOSIS

Acute pulmonary embolism diagnoses, using vasculature angiography

07 p1042 A71-19838

High altitude pulmonary edema in unacclimatized humans, discussing symptoms, etiology incidence and prevention

14 p2183 A71-30277

High altitude pulmonary edema syndrome, investigating increased alveolar-arterial oxygen gradients of humans during treadmill exercise

14 p2184 A71-30279

RESPIRATORY IMPEDANCE

Respiratory inhibitor KCN for killing increase from single radiation doses and reduction of dose fractionation sparing effect

07 p1036 A71-18962

RESPIRATORY PHYSIOLOGY

Identification problems in mathematical model of respiratory function

02 p0206 A71-12108

Respiratory and circulatory responses in anesthetized cats to medullary ventral surface perfu-

sion with mock cerebrospinal fluid of varying K concentration or 2 percent procaine solutions
04 p0540 A71-15577

Hypoxia-hypercapnia interplay as respiratory chemoreceptors stimulants and depressants by investigating arterial oxygen and carbon dioxide tensions effects on phrenic nerve activity
06 p0854 A71-18061

Respiratory mechanics and ventilatory response to carbon dioxide during positive pressure breathing in conscious man
06 p0861 A71-18379

Hypoxic and hypercapnic ventilatory control and oxygen uptake in athletes, noting chemoreceptor function
06 p0862 A71-18384

Terminal bronchiole diameter changes with volume in isolated air filled lobes of cat lung
07 p1044 A71-20332

Electronic compensation of water vapor effects in respiratory mass spectrometry
07 p1052 A71-20335

Hypoxia from aerospace medicine viewpoint, discussing respiration physiology, oxygen transport, altitude effects, psychomotor functions, etc
08 p1238 A71-20705

German book on clinical pathophysiology of respiration covering respiratory physiology, pulmonary gas exchange, respiratory control, hypoxia, hyperoxia, pressure breathing, etc
09 p1394 A71-23069

Carbon dioxide tension in pulmonary arterial blood before/during prolonged rebreathing in oxygen mixtures at rest and exercise
10 p1558 A71-23895

Mean whole body intracellular pH and buffer capacity for arterial carbon dioxide tension in ventilated dogs
10 p1558 A71-23896

Equilibration rate of uncatalyzed carbon dioxide hydration reaction in open system at constant carbon dioxide partial pressure, examining buffering capacity effect
10 p1559 A71-23898

Respiratory diaphragmatic center, investigating motor-neuron system integral activity by recording and analyzing phrenic-nerve signals in rabbits
10 p1562 A71-24164

Respiration parameters digital recording system, describing analog signal recording and processing, analog to digital conversion and digital readout equipment and techniques
11 p1724 A71-25595

Tissue respiration and hemopoiesis in heterothermic and homothermic rodents under hypoxia
11 p1719 A71-25670

Afferent pulsed activity change in peripheral fibers of severed phrenic nerve during air inhalation and under asphyxia
11 p1719 A71-25671

Transient dynamics of ventilation and heart rate following positive and negative sustained step changes in work load initiated from different load levels
11 p1722 A71-26357

Temperature-respiration relations from isolated rat skeletal muscle mitochondria oxygen consumption measurements
11 p1723 A71-26408

Humans and animals vestibular stimuli effect on external respiration function and respiration center neuron activity
13 p2007 A71-28413

Respiratory responses and hyperventilation mechanism during static muscular work in maximal voluntary contraction, noting chemoreceptor and alarm-defense reaction
13 p2008 A71-28436

Respiratory gas reaction mechanism on potassium superoxide in closed circuit breathing apparatus
13 p2021 A71-29113

Respiratory air flow optimal regulation hypothesis, testing analytic prediction model results with experiment under stress and rest conditions
13 p2023 A71-29491

Factors affecting respiratory waves formation, modulating arterial blood pressure recordings and photoplethysmograms
14 p2185 A71-30411

Respiratory wave basic pattern during cat diaphragm artificial activation by electric rectangular stimulus to phrenic nerves
14 p2185 A71-30412

Human blood pH and gas composition regulation mechanism under response to carbon dioxide partial pressure changes in inhaled air
15 p2357 A71-31316

Alveolar-arterial oxygen pressure gradient derivation as sum of shunt, ventilation/perfusion inequalities and membrane and airway diffusions
15 p2363 A71-31444

Cortical neurodynamics during vestibular afferent activity and associated cardiovascular and respiratory reactions, noting EEG correlation to hemodynamics
16 p2527 A71-32828

Diaphragm mechanics, discussing thoracic pressure-lung volume and air flow relationships of respiratory system during electrophrenic stimulation in men and cats
16 p2530 A71-33239

Biological effects of inert gases in elevated pressure respiratory mixtures on human central nervous system
16 p2536 A71-33577

Spontaneous deep sighing breath physiological regulation in rats as lung inflation response due to vagally mediated mechanoreflex
17 p2679 A71-34176

Monograph on peripheral chemoreceptors and central chemosensitive area control of ventilation during chronic blood acid base changes and hypoxia in mammals
18 p2852 A71-35869

Respiratory aspects of hyperbaric thermal environments, considering heat exchange by convection
18 p2860 A71-36878

Human respiratory muscles electrical activity, discussing correlation analysis of interferential electromyograms from external intercostal muscles during breathing exercises
19 p3003 A71-38198

Maximum oxygen uptake measurement by two techniques, calculating heart rate
19 p3008 A71-38553

Variable tidal volume effects on lung test gas washout parameters
19 p3010 A71-38565

Respiratory chemoreceptors and acid-base alterations effects on adrenocortical activation during hypoxia in dogs
20 p3187 A71-38986

Heart rate and systolic pressure variability control through visual feedback of physiological information, obtaining respiratory measurements and ECG
21 p3344 A71-41037

Gangliosides inhibitory effects on active Ca ion transport in rat brain mitochondria, using succinate as respiratory substrate
21 p3338 A71-41075

Physiological relationship of young to old men, considering body composition, aerobic capacity and capillary-muscle fiber ratio
22 p3485 A71-41717

Water immersion or bed rest effects on basic metabolism and external respiration under simulated weightlessness
22 p3495 A71-42794

Dynamic characteristics of human respiratory and circulatory adaptation to muscular exercise, using systems analysis approach
23 p3634 A71-43905

External respiration, gas exchange and blood circulation during passive orthostatic tests
24 p3796 A71-44537

RESPIRATORY RATE

Pulmonary gas exchange relation to cyclical pattern of ventilatory flow, considering alveolar dead space and metabolic and respiratory rate effects
03 p0361 A71-13183

Central nervous system reactions to vasopressin and oxytocin presence in cerebrospinal fluid and blood, discussing respiratory frequency and antidiuretic tests
03 p0363 A71-13485

Shivering and heat polypnea threshold temperature shift in guinea pigs, considering thermal adaptation under cool environment exposure
03 p0364 A71-14250

Tidal volume and respiratory rate changes at start and end of exercise, considering ventilation control and neurogenic respiratory reflexes
04 p0545 A71-15161

High environmental carbon dioxide effects on cardiac depression and respiratory rate in rhesus monkeys and chimpanzees
06 p0851 A71-17612

Neural stimuli contribution to increasing respiration and hyperpnea during exercise
06 p0862 A71-18386

Respiratory rate and cardiac responses to exercise in man
07 p1052 A71-20326

Rats hypoxia tolerance, noting smoke effects on survival, respiratory rate, body temperature and glycolytic parameters
09 p1396 A71-23364

Jet pilots flight stresses assessment via biotelemetric transmission of pulse rate, respiratory rate, electrocardiographic data, flight altitude and velocity
10 p1567 A71-23880

Alveolar gas exchanges and cardiovascular functions during breath holding with air, determining resting oxygen consumption
12 p1870 A71-27135

Pulse wave velocity measurements in human veins by transcutaneous ultrasonic flow detectors, noting respiration and Valsalva effects
12 p1874 A71-27136

Sitting and supine position effect on exercise tolerance, heart rate, systolic pressure and respiration
12 p1874 A71-27136

rate in male subjects with coronary insufficiency, noting onset of angina pectoris
13 p2014 A71-29303

Equipment for prolonged measurement of oxygen consumption, respiratory quotient and insensitive perspiration in man, noting cost reduction and operation simplification
13 p2021 A71-29316

Respiratory air flow optimal regulation hypothesis, testing analytic prediction model results with experiment under stress and rest conditions
13 p2023 A71-29491

Metabolic, ventilator and cardiovascular response during free swimming and treadmill walking, relating oxygen consumption to work intensity
13 p2024 A71-29500

Regulation patterns of external respiration rate in man during physical exertion, showing load dependent pulmonary ventilation in accord with minimum energy expenditure principle
15 p2358 A71-31321

Optimal respiration mode based on controlled artificial feedback characteristics, making resistance to inhalation dependent on duration
17 p2680 A71-34644

Physiological tests for psychic stress effects on aircraft pilot tracking performance, respiration and heart rate
17 p2693 A71-35199

Hypothermia effect on brain nutritive processes and regulator activity, considering changes in brain blood supply, respiration and carbohydrate metabolism
22 p3486 A71-41940

Respiratory function and gas metabolism shift under high transverse accelerations in reclined confined subjects
22 p3495 A71-42795

Human nitrogen and water-salt metabolisms and respiratory activity during prolonged confinement in small volume chamber with cyclic varying hypoxic air
22 p3495 A71-42799

Physiological effects on mice of air pollution with gaseous toxic substances from urine and feces, noting increased respiration rate and choline esterase activity
22 p3486 A71-42807

Hypoxic respiratory reactions of highland natives and recently arrived residents to oxygen concentration change in inhaled mixtures
24 p3798 A71-45065

Respiratory sinus arrhythmia by spectral analysis and digital filtering, using linear model to approximate lung volume relationship to heart rate during normal breathing
24 p3802 A71-45067

RESPIRATORY REFLEXES

Tidal volume and respiratory rate changes at start and end of exercise, considering ventilation control and neurogenic respiratory reflexes
04 p0545 A71-15161

Dynamic respiratory and circulatory responses to hypoxia in anesthetized dogs, recording oxygen partial pressures, heart rate, blood pressure, blood flows, respiratory rate, etc
09 p1396 A71-23358

Human hypoxic ventilatory drive data for high altitude breathing, noting motivation reduction inversely related to time and altitude
14 p2185 A71-30288

Ventilatory control in acute hypoxia, detailing polycythemia effects on respiratory chemoreceptor sensitivity
14 p2185 A71-30289

Reflex increase in ventilation induced by vibrations applied to cat triceps surae muscles, noting muscular and articular receptors role
17 p2678 A71-34175

Spontaneous deep sighing breath physiological regulation in rats as lung inflation response due to vagally mediated mechanoreflex
17 p2679 A71-34176

Respiratory reflex mechanism of deep breath occurrence after period of airway occlusion in rabbits related to stimulation of vagal receptors
20 p3187 A71-39040

Transient heart rate response to square wave breathing in man under zero G parabolic flight
22 p3501 A71-41828

Chronic hypoxia exposure effects on human ventilatory response to carbon dioxide and oxygen deficiency
24 p3797 A71-44780

RESPIRATORY SYSTEM

NT BRONCHI

NT BRONCHIAL TUBE

NT DIAPHRAGM [ANATOMY]

NT LUNGS

NT NOSE [ANATOMY]

NT PHARYNX

Respiratory neuron structure in lateral zone of medulla oblongata in cats
01 p0013 A71-11097

Cardiovascular and ventilatory responses to room air and pure oxygen breathing under various exercise work load conditions
01 p0016 A71-11407

- Human respiratory parameters telemetry, discussing transducer development for ventilatory volume measurement 03 p0370 A71-13068
- Respiratory features for conscious or unconscious warning of impending exhaustion, noting work load-performance decrement relation 04 p0545 A71-15159
- Cardiovascular and respiratory systems afferent innervation in cats investigating pericardial, expiratory and pneumo-vascular mechanoreceptors 05 p0707 A71-16343
- Human physical exercise with stepwise increasing load noting working capacity, cardiovascular and respiratory system performance and blood composition interrelations 05 p0709 A71-16805
- Carbohydrate ingestion produced respiratory gas exchange ratio and alveolar ventilation effects on arterial oxygen tension in normal men 07 p1052 A71-20333
